- Description of update: Updated for compliance with E.O. 14168

#### 1.4 Does the system or program employ any of the following technologies?

- Enterprise Data Warehouse (EDW)
- Social Media
- Mobile Application (or GPS)
- Cloud Computing Services
- Web Portal
- None of the Above

### Section 2: Authority and Purpose of Collection

#### 2.1 Describe the project and its purpose or function in the SEC's IT environment

Office of the Secretary (OS) hosts CAS data. CAS version 4.0 replaced legacy CAS and integrated RELLOG and CLL. The CAS database stores memoranda, release log records and agendas for executive, open, and closed meetings. CAS allows OS to perform administrative functions including tracking of commission votes on action memoranda, monitoring and processing of seriatim memos, tracking of advice memoranda, and scheduling and management of SEC meetings. In addition, CAS allows OS to receive, store, manage, publish, and process public comments related to SEC releases received from various SEC.gov web forms. SEC web forms (or HTML forms) allow members of the public to submit comments for processing. The SEC publishes its views and interpretation of federal securities laws and SEC regulations via interpretive releases and issues concept releases to solicit the public's views on securities issues and to evaluate the need for future rulemaking.

#### 2.2 What specific legal authorities, arrangements, and/or agreements allow the information to be collected?

5 U.S.C. 77a *et seq.*, 78a *et seq.*, 80a-1 *et seq.*, and 80b-1 *et seq.*

#### 2.3 Does the project use, collect, or maintain Social Security numbers (SSNs)? *This includes truncated SSNs.*

- No

### 3.2 Why is the PII listed in Question 3.1 collected, used, shared, or maintained by the system or project?

PII is collected in order to associate an individual submitting a comment with a particular comment received. Members of the public provide name and email address when providing comments via SEC.gov comment portals with the option to provide address and professional affiliation.

### 3.3 Whose information may be collected, used, shared, or maintained by the system?

- SEC Employees  
Purpose:
- SEC Federal Contractors

### 3.5 Has a retention schedule been established by the National Archives and Records Administration (NARA)?

Yes.

[GRS 4.1](#) item 010 *Tracking and Control Records* applies, and the records are permanent.

### 3.6 What are the procedures for identification and disposition at the end of the retention period?

Information in CAS is not purged due to the varied research requests OS receives.

### 3.7 Will the system monitor members of the public, employees, and/or contractors?

N/A

Members of the Public

Purpose:

Employees

Purpose:

Contractors

Purpose:

### 3.8 Considering the type of information collected, what privacy risks were identified and how were those risks mitigated?

The privacy risk is inadvertent disclosure of PII to the public. This risk is minimized because minimal PII is collected, as provided directly by the individual, and only the name of the comment submitter is published. No other PII is published or shared.

## Section 4: Openness and Transparency

### 4.1 What forms of privacy notice were provided to the individuals prior to collection of data? *Check all that apply.*

Privacy Act Statement

System of Records Notice

Notice was not provided.

### 4.2 Considering the method(s) of notice provided, what privacy risks were identified regarding adequate notice and how were those risks mitigated?

# Privacy Impact Assessment

## Commission Action System (CAS)

The risk of insufficient notice to individuals is minimal because privacy notice is provided via SORN SEC-26 and is posted on the web form comment submission pages that collect the information that appears in CAS.

### Section 5: Limits on Uses and Sharing of Information

#### 5.1 What methods are used to analyze the data?

The CLL Web Operations Team (business users) manually reviews comments entered by individuals for inappropriate language only. The application does not derive new data or create previously unavailable data about an individual through aggregation from the information collected.

#### 5.2 Will internal organizations have access to the data?

No

Yes

Organizations:

#### 5.3 Describe the risk to privacy from internal sharing and describe how the risks are mitigated.

The risk is inadvertent disclosure of personal information to unauthorized internal parties. This risk is minimized because individuals are required to provide only a minimal amount of PII (i.e., name, e-mail) in order to submit a comment. In addition, OS personnel reviewing CAS submissions are trained in the handling of PII and do not share CAS information internally to unauthorized personnel.

#### 5.4 Will external organizations have access to the data?

No

Yes

Organizations:

#### 5.5 Describe the risk to privacy from external sharing and describe how the risks are mitigated.

There is no risk to privacy from external sharing because CAS does not share data with external entities.

### Section 6: Data Quality and Integrity

#### 6.1 Is the information collected directly from the individual or from another source?

Directly from the individual.

Other source(s):

#### 6.2 What methods will be used to collect the data?

Data is collected via web forms, email, and paper copy as described in the comment [submission guidelines](#) on SEC.gov. Comments received on physical paper are converted to PDF prior to posting on the SEC website.

#### 6.3 How will the data collected from individuals, or derived by the system, be checked for accuracy and completeness?

Submissions from SEC.gov web forms are accepted into CAS upon system validation. Information contained in comment submissions is not checked for accuracy or completeness. However, each comment submission is manually reviewed upon receipt by the CLL Web Operations Team for vulgarity, appropriateness, and PII and may be rejected or redacted as a result.

#### 6.4 Does the project or system process, or access, PII in any other SEC system?

# Privacy Impact Assessment

## Commission Action System (CAS)

- No  
 Yes.  
System(s):

### 6.5 Consider the sources of the data and methods of collection and discuss the privacy risk for this system related to data quality and integrity? How are these risks mitigated?

The risk related to data quality and integrity is that inaccurate information may be collected in comments submitted by an individual via SEC.gov. This risk is minimized by manual review of comment submissions as described in section 6.3.

## Section 7: Individual Participation

### 7.1 What opportunities are available for individuals to consent to uses, decline to provide information, or opt out of the project? If no opportunities are available to consent, decline or opt out, please explain.

Privacy notice posted on SEC web forms provides individuals the option to opt out from providing information to the SEC. Privacy notice is also posted on the CAS [portal](#).

### 7.2 What procedures are in place to allow individuals to access their information?

Individuals seeking notification of or access to any record contained in this system of records may submit a request in writing to the FOIA/PA Officer, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-2736.

### 7.3 Can individuals amend information about themselves in the system? If so, how?

Individuals do not have the ability to directly amend information about themselves in CAS. However, if individuals submit public comments containing incorrect information about themselves (e.g., contact information), they may submit a subsequent public comment with amended information. Standard FOIA/PA procedures also apply as previously discussed.

### 7.4 Discuss the privacy risks related to individual participation and redress? How were these risks mitigated?

There are no identified privacy risks related to individual participation. No mitigation actions are recommended. SORN SEC-26 provides procedures to access and amend records in this system.

## Section 8: Security

### 8.1 Can the system be accessed outside of a connected SEC network?

- No  
 Yes
- |   |                             |                              |   |
|---|-----------------------------|------------------------------|---|
| If yes, is secured authentication required? | <input type="checkbox"/> No | <input type="checkbox"/> Yes | <input type="checkbox"/> Not Applicable |
| Is the session encrypted?                   | <input type="checkbox"/> No | <input type="checkbox"/> Yes | <input type="checkbox"/> Not Applicable |

### 8.2 Does the project or system involve an online collection of personal data?

- No  
 Yes  
Public

# Privacy Impact Assessment

## Commission Action System (CAS)

### 8.3 Does the site have a posted privacy notice?

- No
- Yes <https://www.sec.gov/privacy.htm>  
In addition, each online comment form has a privacy notice.
- N/A

## Section 9: Accountability and Auditing

### 9.1 Describe what privacy training is provided to users, either general or specific to the system or project.

All SEC staff and contractors receive initial and annual privacy awareness training, which outlines roles and responsibilities for proper handling and protection of PII. SEC Rules of the Road ensure that employees and contractors are aware of their security responsibilities and how to fulfill them.

### 9.2 Does the system generate reports that contain information on individuals?

- No
- Yes

### 9.3 Do contracts for the system include Federal Acquisition Regulation (FAR) and other applicable clauses ensuring adherence to the privacy provisions and practices?

- No
- Yes
- This is not a contractor-operated system

### 9.4 Does the system employ audit logging or event logging?

- No
- Yes

### 9.5 Given the sensitivity of the PII in the system, manner of use, and established safeguards, describe the expected residual risk related to access.

The expected residual risk is low because a minimal amount of information is collected on a voluntary basis and the information resides on a secure system with no external sharing.
