Investors' Exchange LLC ("Exchange") proposes to register as a national securities exchange under Section 6 of the Exchange Act. The Exchange will be owned by its parent company, IEX Group, Inc. ("IEXG"), which will elect all directors of the Board of Directors of the Exchange, except for those directors approved by members pursuant to Article III, Section 4 of the Operating Agreement of the Exchange. The members of the Exchange ("Members") will consist of those broker-dealers admitted to membership and entitled to enter orders in, and receive executions through, the Exchange's Order Book (as defined below) or otherwise. Members will be subject to the rules of the Exchange, and will have representation on the Exchange's Board of Directors and committees. Members who are not also shareholders of IEXG shall not have any ownership interest in the Exchange.

Once registered, the Exchange will operate a fully automated electronic book ("Order Book") for orders to buy or sell securities ("orders") with a continuous, automated matching function. The Exchange will also conduct an Opening Process for the Regular Market Session pursuant to Rule 11.231. Orders not eligible for trading prior to the commencement of the Regular Market Session that are received and eligible to be queued during the Pre-Market Session pursuant to Rule 11.190(a) will be queued in the time sequence of their receipt by the System pursuant to Rule 11.220(a)(2). Orders queued during the Pre-Market Session are processed as incoming orders pursuant to Rule 11.230 at the commencement of Regular Market Session. During the Exchange's trading sessions, liquidity will be derived from orders to buy and orders to sell submitted to the Exchange electronically by its Members from remote locations. There will be no Exchange trading floor.

IEX Services, LLC ("IEXS") is a broker-dealer that will be a facility of the Exchange, responsible for outbound routing only (~~"Outbound Router" and~~). The Outbound Router is connected to the twelve (12) national securities exchanges that trade equity securities. The Outbound Router and the routing logic of the System (together, the "Router") is available for use by Members at their election to access liquidity at the Exchange and market centers away from the Exchange. ~~The Router is connected to the twelve (12) national securities exchanges that trade equity securities.~~

Membership in the Exchange will be open to any broker-dealer registered under Section 15(b) of the Exchange Act that meets the standards for membership set forth in proposed Exchange Rules 2.130 through 2.160. To be a Member of the Exchange, a firm must be registered as a broker-dealer, be a member of at least one other national securities exchange or national securities association, be able to clear trades or must clear through a Member clearing firm, and meet the additional criteria prescribed by either Rule 2.150, for existing IEX ATS Subscribers who are FINRA members, or Rule 2.170. There will be one class of membership, with all Members enjoying the same rights and privileges on the Exchange. Members may further register as IEX Market Makers, subject to the requirements and obligations of Rules 11.150 and 11.151. Members will be subject to fees for orders executed on the Exchange as set forth in Chapter 15 of the Rules of the Exchange or as may otherwise be determined by the Board of Directors of the Exchange from time-to-time, subject to filing with the Commission. Exchange memberships will not be transferable except in the event of a change in control of a Member, and such transfer will be subject to the written consent of the Exchange, and to any conditions to such transfers imposed by the Exchange. The Exchange currently does not contemplate charging a fee for membership in the Exchange. A more detailed description of the membership criteria is set forth in Chapter 2 of the Exchange's rules. See Exhibit B, *supra*.

This exhibit describes, in summary form, the proposed operation of the Exchange. A more detailed description of the proposed Exchange is set forth in the proposed Operating Agreement and Rules of the Exchange. See Exhibits A and B to this Application.

1. The means of access to the System

User Access. Members of the Exchange, Sponsored Participants (together with Members, "Users") ~~and/or~~, Service Bureaus on behalf of a Member, and/or the Router routing all or a portion of a Member's routable order to the Order Book (collectively referred to as "Access Participants") will be permitted to send orders to buy and sell securities listed or traded on the Exchange to the Exchange electronically through the use of a variety of systems. The Exchange will not accept telephone orders.

The Exchange has designed its systems to allow its Users to individually determine the best method for accessing the Exchange. Thus, Users may develop their own customized front-end software using protocols determined by the Exchange, or may use third-party vendors to route orders to the Exchange via a front end or service bureau configuration. Access Participants will be able to access the Exchange remotely through a variety of connections that support a minimum data exchange rate, as may be determined by the Exchange from time-to-time. All access to the System is provided ~~from a Point of Presence (an~~ "via connectivity at the IEX POP") of the Exchange (the "POP"), pursuant to IEX Rule 11.510, which is designed to provide Access Participants with 350 microseconds of latency from ~~such~~

the POP to the System for incoming communications and 350 microseconds of latency from the System to the POP for outgoing communications.

Access to the Exchange is available to Access Participants at an Internet Protocol ("IP") address at the Exchange's IP network address by the Access Participants' own software, via communications that are compliant with the Financial Information Exchange ("FIX") protocol application programming interface ("API") provided by the Exchange.

An Access Participant must provide a unique IP address to the Exchange for each requested connection, and the Exchange then configures its routers to only allow access from the Access Participant's IP address to a dedicated IP address on the Exchange's order handling network. In this way, only authorized Access Participants can gain access to the Exchange via registered physical IP addresses.

Access Participants will be responsible for having procedures reasonably designed for safeguarding access to the Exchange and for notifying the Exchange upon learning that such safeguards have been compromised. Connectivity to the Exchange will occur through secure telecommunications "ports" or points of entry. Specifically, each Access Participant will be assigned a specific port, or multiple ports, each of which has a unique session identification code provided only to such Access Participant.

Data Recipients. The System shall be available for receipt of the Exchange's data products specified in IEX Rule 11.330 (collectively, "Exchange data products") by data recipients with authorized access (including the Router) ("Data Recipients"). All access to the Exchange data products is provided via connectivity at the POP, pursuant to IEX Rule 11.510, which is designed to provide Data Recipients with 350 microseconds of latency from the System to the POP for outgoing communications and 350 microseconds of latency from the POP to the System for incoming communications.

In summary, pursuant to IEX Rule 11.510, Members, Sponsored Participants, Service Bureaus on behalf of a Member, and/or the Router on behalf of a Member connect and interact with the Order Book via the POP. Additionally, the Router and Data Recipients connect and receive Exchange data products via the POP. All such interactions are subject to the inbound POP latency and outbound POP latency of 350 microseconds.

Non-Member Access. As necessary, the Exchange will have and maintain connectivity to the other national securities exchanges and Market Centers (such term is defined in Rule 600(b)(38) of Regulation NMS) for the purposes of receiving inbound orders. The Exchange plans to become a participant in the NASDAQ/National Market System/Unlisted Trading Privileges Plan ("Nasdaq-UTP Plan"). The Exchange proposes to discuss with the committee supervising any plan, including the Nasdaq-UTP Plan, how the Exchange might best participate in such Plans. If admitted as a participant to the Nasdaq-UTP Plan, other plan participants would be able to send orders to the Exchange in accordance with the terms of the applicable plan as they ultimately would be applied to the Exchange. Connectivity to the other national securities exchanges, the Nasdaq-UTP Plan, the Consolidated Tape Association ("CTA") Plan, and the National Securities Clearing Corporation ("NSCC") do not occur at the POP, nor do such connections traverse the POP.

Latency Experience for Users Sending Routable Orders. All routable orders sent to the Exchange by Users traverse the 350 microseconds of latency from the POP to the System. Once the System routing logic determines the destinations to route such order, including the Order Book, the routed child orders are subject to the applicable latency to each venue. In the case of routing to the Order Book, the child order is subject an additional 350 microseconds of latency when traversing the POP from the System routing logic to the Order Book. In the case of routing to away trading centers, the child order is subject to the applicable latency from the System to each away trading center without traversing the POP. All responses from the Order Book to the System routing logic traverse the POP. All responses from away trading centers to the System routing logic do not traverse the POP. All responses to Users from the System routing logic traverses the POP.

Non-members also may access the Exchange pursuant to Exchange rules governing “sponsored access” to the Exchange, as described below.

Sponsored Participant Access to the Exchange. The Exchange plans to permit access to the Exchange to entities (“Sponsored Participants”) whose access is authorized in advance by one or more Members (“Sponsoring Member”) in accordance with Exchange Rules. The Sponsoring Member must agree to be responsible for all orders entered into on the Exchange by the Sponsored Participant. In addition, Sponsored Participants must agree to comply with all applicable Rules of the Exchange governing the entry, execution, reporting, clearing, and settling of orders in securities eligible for trading on the Exchange.

2. Procedures governing entry and display of quotations and orders in the System.

Entry of Orders on the Exchange. The Exchange will accept the submission of orders by Users in securities admitted to unlisted trading privileges (“UTP”) on the Exchange. The Exchange will not list securities initially, though it may do so in the future. Accordingly, while this Application, including certain rules included in Exhibit B, contains references to securities listed or trading pursuant to UTP, the reference to securities listed on the Exchange is intended to be read prospectively.

Orders entered into the Exchange must be priced and must have a designated size (“limit orders”), must be orders to buy or sell a stated amount of a security at the national best bid or offer when the order reaches the Exchange (“market orders”), or must be non-displayed, non-routable orders that are priced and automatically adjusted by the System in response to changes in the NBBO (“pegged orders”). A “marketable” limit order is a limit order to buy (sell) at or above (below) the lowest (highest) Protected Offer (Bid) for the security. The Exchange will support the following peg instructions: primary peg, midpoint peg, and Discretionary Peg, as defined in Rule 11.190(b)(8)–(10). To reduce the possibility of market impact outside of the Regular Market Session, market orders and pegged orders will not be eligible to trade in either the Pre-Market Session or the Post-Market Session. Limit orders, market orders, and pegged orders, as defined above, are hereinafter collectively referred to as “orders”.

Orders will be accepted for any such security, whether submitted by a User on a proprietary or agency basis, in any size up to 1,000,000 shares or \$30,000,000. Orders may be submitted in round lots, mixed lots, or odd lots. To reduce the possibility of the entry of erroneously large orders, the Exchange will provide Users with the ability to establish parameters as to the maximum number of shares that can be

entered on their behalf or on behalf of their clients in any given order. Users may receive status reports regarding orders submitted to the Exchange or change or cancel an order at any time before that order is executed on the Exchange pursuant to Rule 11.190(d).

Users may submit orders to the Exchange with the following execution instructions: IEX Only; Primary Peg; Midpoint Peg; Discretionary Peg; Route to Take; Route to Take with Re-sweep; Route to Rest; Route to Rest with Re-sweep; and Inter-market Sweep Order ("ISO"). Users may submit orders to the Exchange with the following time-in-force terms: IOC; FOK; Day; Good 'til Extended Day; System Hours; and Good 'til Time. Users may submit orders to the Exchange with display instructions which will be classified as one of the following: Reserve, Non-Displayed, or Displayed; orders submitted without display instructions will be, by default, fully displayed. Users may submit orders to the Exchange for any size which will be classified as one of the following: Round Lot; Odd Lot; or Mixed Lot. Non-displayed, non-routable orders may be submitted with Minimum Quantity terms. Orders may be marked with an Anti-Internalization Group Identifier ("AGID") modifier. Each of these types of orders and modifiers is described in detail in proposed Exchange Rule 11.190; however, several have been described below.

Active and Resting Orders. The term "active order" is defined by IEX to mean an order checking against the IEX Order Book for contra-side interest against which to execute and includes new incoming orders, orders posting to the Order Book after having been routed to away trading centers, and orders Rechecking the Order Book pursuant to Rule 11.230(a)(4)(D) (see section 3 below for additional details on Book Recheck behavior). For each symbol, only one order may be active at a given time. The term "resting order" is defined by IEX to mean any order with unexecuted, open share interest that has been posted to the IEX Order Book pursuant to Rule 11.190.

Primary Peg. A pegged order that upon entry and when posting to the Order Book is priced by the System to be equal to and ranked at the less aggressive of the primary quote (i.e. the NBB for buy orders and NBO for sell orders) or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to the changes in the NBB (NBO) for buy (sell) orders up (down) to the order's limit price, if any. Primary peg orders are not eligible for Book Recheck.

Midpoint Peg. A pegged order that upon entry and when posting to the Order Book is priced by the System to be equal to the less aggressive of the midpoint of the NBBO ("Midpoint Price") or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to changes in the midpoint of the NBBO as allowed by the order's limit price, if any. For stocks priced below one dollar, where Midpoint Prices may be expressed within four (4) decimal places of the dollar, the Exchange uses the Midpoint Price; for Midpoint Prices which would require a fifth decimal place beyond the dollar, the Exchange uses the nearest, passive, fourth decimal price.

Discretionary Peg. A pegged order that upon entry is priced by the System to be equal to the less aggressive of the Midpoint Price or the order's limit price, if any. Any unexecuted shares of such order are posted to the Order Book priced to be equal to and ranked at the less aggressive of the primary quote or the order's limit price and is automatically adjusted by the System in response to changes in the NBB (NBO) for buy (sell) orders up (down) to the order's price limit, if any. In order to meet the limit price of active orders on the Order Book, a Discretionary Peg order will exercise the least amount of

price discretion necessary from the Discretionary Peg order's resting price to its discretionary price (defined as the less aggressive of the Midpoint Price or the Discretionary Peg order's limit price, if any), except during periods of quote instability pursuant to Rule 11.190(g) (described in the paragraph below). When exercising price discretion, a Discretionary Peg order maintains time priority at its resting price and is prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action. If multiple Discretionary Peg orders are exercising price discretion during the same book processing action, they maintain their relative time priority at the discretionary price.

Quote Stability. The Exchange utilizes real time relative quoting activity of Protected Quotations and a proprietary mathematical calculation (the "quote instability calculation") to assess the probability of an imminent change to the current NBB to a lower price or NBO to a higher price for a particular security ("quote instability factor"). When the quoting activity meets predefined criteria and the quote instability factor calculated is greater than the Exchange's defined threshold ("quote instability threshold"), the System treats the quote as not stable ("quote instability" or a "crumbling quote"). During all other times, the quote is considered stable ("quote stability"). The System independently assesses the stability of the NBB and NBO for each security.

When the System determines a quote, either the NBB or the NBO, is unstable, the determination remains in effect at that price level for ten (10) milliseconds. The System will only treat one side of the NBBO as unstable in a particular security at any given time. Quote instability or a crumbling quote is determined by the System when following factors occur: (a) the NBB and NBO are the same as the NBB and NBO one (1) millisecond ago; (b) the NBBO spread is less than or equal to the thirty (30) day median NBBO spread during the Regular Market Session; (c) there are more protected quotations on the far side, i.e., more Protected Quotations on the NBO than the NBB for buy orders, or more Protected Quotations on the NBB than the NBO for sell orders; and (d) the quote instability factor result from the quote stability calculation is greater than the defined quote instability threshold, pursuant to Rule 11.190(g). **Time-in-Force.** The Exchange will support the following time-in-force ("TIF") values, as defined in Rule 11.190(c). Each TIF may be applied to the general order types described above. Specific treatment for limit orders, market orders, and pegged orders is defined in Rule 11.190(a)(1)(E), Rule 11.190(a)(2)(E), and 11.190(a)(3)(E), respectively.

Immediate-or-Cancel ("IOC"). Orders entered into the System marked IOC are executed on the Exchange or routed to an away venue, in whole or in part, as soon as such order is received, and the portion not so executed is canceled. Orders marked IOC are never posted to the Order Book and considered by definition to be non-displayable orders.

Fill or Kill ("FOK"). Orders entered into the System marked FOK are immediately executed on the Exchange for their full quantity or otherwise canceled. Orders marked FOK are never posted to the Order Book and considered by definition to be non-displayable orders. Routable orders marked FOK are rejected.

Day ("DAY"). Orders entered into the System marked DAY may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular

Market Session. Orders marked DAY are only available for trading or routing during the Regular Market Session and expire at the end of the Regular Market Session.

Good 'til Extended Day ("GTX"). Orders entered into the System marked GTX may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular Market Session. Orders marked GTX are available for trading or routing during both the Regular Market Session and Post-Market Session, and expire at the end of the Post-Market Session.

System Session ("SYS"). Orders entered into the System marked SYS may trade or route during System Hours – defined as the Pre-Market Session, Regular Market Session, and Post-Market Session, collectively – and expire at the end of the Post-Market Session.

Good 'til Time ("GTT"). Orders entered into the System marked GTT are available during System Hours and expire at the earlier of the User specified expire time or the end of the Post-Market Session.

Minimum Quantity. A non-displayed, non-routable order which must have at least the minimum indicated share size satisfied in order to execute. Upon order entry or order amendment by the User the "effective minimum quantity" of an order is equal to the lesser of the submitted minimum quantity or the total share size of the order. While a Minimum Quantity Order ("MQTY") is resting on the Order Book (i.e. a resting order), the MQTY executes against a willing active order, provided the active order's remaining shares are equal to or greater than the effective minimum quantity of the MQTY. Based on User instruction, the Exchange utilizes one of the following methods to determine the satisfaction of the minimum quantity terms of a MQTY: Composite, Minimum Execution Size with Cancel Remaining, or Minimum Execution Size with All-or-None Remaining as defined in Rule 11.190(b)(11).

Composite. When a MQTY marked Composite is active (i.e., an active order), the MQTY executes against all willing resting orders of any size, provided that the aggregate execution size is equal to or greater than its effective minimum quantity. When a MQTY marked Composite has fewer remaining unexecuted shares than its effective minimum quantity, the System will treat the order as having an effective minimum quantity equal to its number of unexecuted shares.

Minimum Execution Size with Cancel Remaining ("MinExec with Cancel Remaining"). When a MQTY marked MinExec with Cancel Remaining is active, the MQTY executes against each willing resting order in priority, provided that each individual execution size meets its effective minimum quantity. If an active MQTY reaches a resting order that would trade with it, but such order does not satisfy its effective minimum quantity, the MQTY will post to the Order Book or cancel back to the User as per the order's instructions. When a MQTY marked MinExec with Cancel Remaining has fewer remaining unexecuted shares than its effective minimum quantity, the System will cancel the order back to the User.

Minimum Execution Size with All-or-None Remaining ("MinExec with AON Remaining"). When a MQTY marked MinExec with AON Remaining is active, the MQTY executes against each willing resting order in priority, provided that each individual execution size meets its effective minimum quantity. If an active MQTY reaches a resting order that would trade with it, but such order does not satisfy its effective

minimum quantity, the MQTY will post to the Order Book or cancel back to the User as per the order's instructions. When a MQTY marked MinExec with AON Remaining has fewer remaining unexecuted shares than its effective minimum quantity, the System will treat the order as having an effective minimum quantity equal to its number of unexecuted shares.

Anti-Internalization Group Identifier Modifier. Any active order designated with an AGID modifier will be prevented from executing against a resting opposite side order also designated with the same AGID modifier and originating from the same market participant identifier ("MPID") or Exchange User (any such identifier, a "group type"). In situations when two orders subject to Anti-Internalization would match, the older of the orders is canceled. Determination of "older" is based upon the time the order is received by the System, including by initial order entry, User revision (i.e., cancel/replace), or returning to the System from routing. The group type elected by a User controls the interaction between two orders marked with AGID modifiers.

IEX notes that use of the AGID modifier does not relieve or otherwise modify the duty of best execution owed to orders received from public customers. As such, market participants using the AGID modifier will need to take appropriate steps to ensure public customer orders that do not execute because they were subject to anti-internalization ultimately receive the same execution price (or better) than they would have originally obtained if execution of the order was not inhibited by anti-internalization. Market Makers and other Users must not use the AGID modifier to evade the firm quotation obligation, as specified in IEX Rule 11.151(b). The AGID modifier must be used in a manner consistent with just and equitable principles of trade.

Regulation SHO. Users will be permitted to enter short sale orders, in accordance with the provisions of Regulation SHO of the Exchange Act.

Price Sliding. Based on Exchange system functionality and the price sliding process pursuant with Rule 11.190(h), a locked market will not be displayed by the Exchange with respect to orders to buy and orders to sell submitted to the Exchange. The Exchange will never cross its own Order Book. An order eligible for display by the Exchange that, at the time of entry, would create a violation of Rule 610(d) of Regulation NMS by locking or crossing a Protected Quotation of an external market will be ranked and displayed by the System at one (1) minimum price variant ("MPV") below the current NBO (for bids) or one (1) MPV above the current NBB (for offers) ("display-price sliding"). An order subject to display-price sliding will retain its limit price irrespective of the price at which such order is ranked and displayed. In the event the NBBO changes such that an order subject to display-price sliding would no longer lock or cross the Protected Quotation of an external market, the order will receive a new timestamp, and will be displayed and ranked at the most aggressive permissible price. Such orders may be re-priced once or multiple times, depending on changing market conditions and the order's limit price. The Exchange will not allow non-displayed orders to post on the Order Book or rank at prices more aggressive than the Midpoint Price ("Midpoint Price Constraint"). A non-displayed limit order posting to the Order Book which has a limit price more aggressive than the Midpoint Price is posted to the Order Book and ranked at a price equal to the Midpoint Price. The price at which the order is booked and ranked is automatically adjusted by the System in response to changes in the NBBO to be equal to the less aggressive of the order's limit price or the Midpoint Price of the NBBO.

Trading Increments. All securities will be traded in decimals on the Exchange. The actual minimum price increment for orders for securities listed or trading pursuant to UTP on the Exchange will be determined from time-to-time by the Board of Directors of the Exchange, consistent with any Commission rules or regulations adopted in this regard.

Audit Trail. The Exchange will maintain a full audit trail of every order submitted to the Exchange's System.

Display of Orders. All orders submitted to the Exchange will be displayed unless designated otherwise by the User submitting the order ("reserve orders" or "non-displayed orders"). Orders submitted to the Exchange for display shall be displayed on an anonymous basis at the price specified by the User submitting the order, pursuant to the price sliding process in proposed Rule 11.190(h). Reserve orders are orders with a portion of the quantity displayed ("display quantity") and with a non-displayed reserve portion of the quantity ("reserve quantity"). The User instructed display quantity must be equal to or greater than a round lot; the System will reject a reserve order with a User instructed display quantity less than a round lot. An incoming reserve order is first processed as a single order of its full, unexecuted share size as it checks the Order Book for eligible resting contra interest. If it is not fully executed, it will be posted to the Order Book and effectively be treated as two discrete orders: one displayed for the User instructed quantity ("displayed portion"), and one non-displayed for all other remaining, unexecuted shares ("non-displayed portion"). For the purposes of pricing reserve orders on the Order Book, displayed portions are treated as displayed orders and non-displayed portions are treated as non-displayed orders. Non-displayed orders will not be displayed to any User of the Exchange and will not have priority over displayed orders at the same price. In addition, the Exchange intends to become a participant in the Consolidated Quotation Plan ("CQ Plan") and Nasdaq-UTP Plan and will collect and submit to the relevant plan processor the best priced buy order and the best priced sell order displayed on the Exchange in Eligible Securities, as defined in these Plans, in accordance with the terms of the Plans.

Finally, to enhance transparency throughout the market, the Exchange intends to make its top of book quote and volume traded for any security traded on the Exchange available for viewing by any member of the public through the Exchange's web site.

3. Procedures governing the execution, reporting, clearance and settlement of transactions in connection with the System

Execution of Orders Submitted to Exchange's Order Book. Trades will occur when an order to buy and an order to sell match on the Exchange's Order Book. For any execution to occur during Regular Market Session, the price must be equal to or better than the Protected NBBO, unless the active order is marked ISO or unless the execution falls within another exception set forth in Rule 611(b) of Regulation NMS. For any execution to occur during the Pre-Market Session or the Post-Market Session, the price must be equal to or better than the highest Protected Bid or lowest Protected Offer, as determined by the System from all Top of Book information for away trading centers' quotations meeting the requirements defined in rules of Regulation NMS, pursuant to Rule 11.410, unless the active order is marked ISO or a Protected Bid is crossing a Protected Offer. Notwithstanding the above, in the event that a Protected Bid is crossing a Protected Offer, whether during or outside of the Regular Market Session, unless the

active order is marked ISO, the Exchange will enforce the Crossed Market Collar pursuant to Rule 11.190(f)(3) and the price sliding process pursuant to Rule 11.190(h)(3). For any executions to occur during the Regular Market Session, such executions must comply with the Limit Up-Limit Down Plan, as set forth in Rule 11.280(e) and the price sliding process pursuant to Rule 11.190(h)(5). For any execution of a short sale order to occur on the Exchange when a short sale price test restriction is in effect, the price must be better than the NBB, unless the sell order was initially displayed by the System at a price above the then current NBB or is marked "short exempt" pursuant to Regulation SHO. Short sale orders are subject to the price sliding process pursuant to Rule 11.190(h)(4).

An incoming order will first attempt to be matched for execution against orders in the IEX Book. An order will be canceled back to the User if, based on market conditions, User instructions, applicable Exchange Rules and/or the Act and the rules and regulations thereunder, such order is not executable, cannot be routed to an away trading center pursuant to Exchange Rule 11.230(b)(2), and cannot be posted to the Order Book.

An order to buy submitted to the Exchange's Order Book will be automatically executed by the Exchange's Order Book to the extent that it is priced at an amount that equals or exceeds any order to sell for the same security submitted to the Exchange's Order Book. Such order to buy shall be executed at the price of the lowest-priced order to sell having precedence on the Exchange's Order Book. All orders are matched according to price-display-time priority. An order to sell submitted to the Exchange's Order Book will be automatically executed by the Exchange's Order Book to the extent that it is priced at an amount that equals or is less than any order to buy for the same security submitted to the Exchange's Order Book. Such order to sell shall be executed at the price of the highest-priced order to buy having precedence on the Exchange's Order Book. Consistent with Rule 11.190, orders are permitted to post and rest on the Order Book at prices that lock contra-side liquidity at the Midpoint Price, provided, however, that the System will never display a locked market. Orders posted to the Order Book are subject to order execution Recheck ("Book Recheck").

Book Recheck. Upon a change to the Order Book, the NBBO, or as part of the processing of inbound messages, the System may invite orders on one or both sides of its market to become active and check against the contra side (i.e., become the remover of liquidity) of the Order Book to determine if new executions can occur as a consequence of the change in the Order Book or prevailing market conditions. Orders resting on the Order Book may be eligible to trade against other orders on the Order Book that were ineligible for execution, or did not satisfy the order's conditions (i.e. minimum quantity), when they were originally booked.

Rule 11.220 describes the priority given to orders at the same price. Non-displayed orders will have priority over orders at inferior prices, whether displayed or non-displayed, but will not have priority over orders displayed at equal or superior prices. Older orders – orders entering the Order Book first – will have priority over newer orders – orders entering after such older orders – at the same price with the same display. In the event that less than the full size of an order is executed, whether displayed or non-displayed, the unexecuted size of the order will continue to reside on the Exchange's Order Book, and if displayed, will continue to be displayed at and retain priority and precedence at the same price, unless the displayed portion was decremented less than one round lot. Displayed orders or displayed portions

of reserve orders must be at least one round lot. If an order marked for display is submitted with, or decremented either by execution or the User order amendment to an order quantity of less than one round lot, it will be treated as a non-displayed order, as defined in Rules 11.190(b)(1)–(3).

Routing. Users may enter into agreements to use the routing services of IEXS, an affiliated broker-dealer of the Exchange, which will enable Users to access liquidity at away trading centers with the unexecuted portions of designated routable orders entered on the Exchange. In this capacity, the affiliated broker-dealer will act as an agent of the User. See Exhibit C and Exchange Rule 2.220 for further details regarding the affiliated router. Users will have no obligation, however, to utilize the order routing functionality provided by the Exchange’s broker-dealer affiliate. Accordingly, Users can select other broker-dealers to provide order-routing functions or use their own internal order-routing systems.

Routing Process. With respect to an order that is eligible for routing (a) when routing to away accessible Protected Quotation exists, (a) when routing to such Protected Quotation, the System will designate outbound orders as IOCs and will cause such orders to be routed to one or more away trading centers (as defined in IEX Rule 2.220) displaying such Protected Quotations for potential execution in compliance with Rule 611 under Regulation NMS~~–~~, and (b) when routing to the Order Book, the System will designate orders to the Order Book as either IOC or FOK, depending on market conditions, and will cause such orders to be routed to the Order Book for potential execution and compliance with Rule 611 of Regulation NMS via connectivity pursuant to Rule 11.510. After the System receives responses to orders that were routed ~~away~~, to the extent an order is not executed in full through the routing process, or in cases where there are no accessible Protected Quotations at the time of routing, the System will process the balance of such order as follows. Depending on parameters set by the User when the incoming order was originally entered, the System will either: (a) Cancel the unfilled balance of the order back to the User; (b) ~~post~~Post the unfilled balance of the order to the ~~IEX~~ Order Book, subject to the price sliding process as defined in paragraph (h) of IEX Rule 11.190(h); or (c) ~~repeat~~Repeat the process described in ~~in the Order Book execution process and~~ this paragraph above by executing against the ~~IEX~~ Order Book and/or routing orders to away trading centers until the original, incoming order is executed in its entirety or it is no longer marketable. If the order is not executed in its entirety, the System will cancel back to the User (in the case of an IOC, ~~FOK~~, or market order) or post to the ~~IEX~~ Order Book and/or at an away trading center, as described in the routing options listed in Rule 11.230(c) or the paragraph below, the unfilled balance of the order; ~~(d) notwithstanding.~~ Notwithstanding the foregoing, to the extent the System is unable to access a Protected Quotation at the NBBO and there are no other accessible Protected Quotations at the NBBO, the System will post the order or any remaining unexecuted shares on the Order Book, subject to the price sliding process, or cancel, as per User instruction, ~~the order or any remaining unexecuted shares~~, provided, however, that this provision will not apply to Protected Quotations published by an away trading center against which the Exchange has declared self-help ~~pursuant to Rule 11.230(d).~~ To the extent the unfilled balance of an order has been posted to the Order Book, should the booked limit price of the order subsequently be locked or crossed by an accessible away trading center, the System shall route the order, in part or in full, to such locking or crossing away trading center if instructed to do so by the User (the “re-sweep” behavior described in Rule 11.230(c)(5)) paragraph (c)(5) below). Orders sent by the System to away trading centers do not retain time priority with respect to other orders in the System and the System shall continue to execute other orders while routed orders are at away trading centers. Once routed by the System, an order becomes subject to the rules and procedures of the destination market including, but not limited to,

short-sale regulation and order cancellation. Requests from Users to cancel their orders while the order is routed away to an away trading center and remains outside the System shall be processed, subject to the applicable trading rules of such away trading center. If a routed order is subsequently returned, in whole or in part, that order, or its remainder, shall receive a new timestamp reflecting the time of its return to the System. Following the routing process described above, unless the terms of the order direct otherwise, any unfilled portion of the order originally entered into the System shall be ranked in the Order Book in accordance with the terms of such order under IEX Rule 11.220 and such order shall be eligible for execution under IEX Rule 11.230.

Routing Options. The System provides a variety of routing options. Routing options may be combined with all available order types and parameters, with the exception of order types and parameters whose terms are inconsistent with the terms of a particular routing option as described in IEX Rule 11.190. An order eligible for routing must have a TIF of DAY, SYS, GTX, GTT, or IOC. The System will consider the quotations only of accessible markets, in particular those not subject to self-help pursuant to IEX Rule 11.230(d). The term “System routing table” refers to the proprietary process for determining the specific trading venues, including the Order Book, to which the System routes orders and the order in which it routes ~~to~~ them. The Exchange reserves the right to maintain a different System routing table for different routing options and to modify the System routing table at any time without notice. The System routing options are:

~~Route to Take (a.k.a. “SweepPost”). After a Route to Take order trades with all available interest on the Order Book priced at or better than the NBBO, this routing option routes the remaining unexecuted shares as IOC orders to destinations based~~ Router Basic. Router Basic is a routing option under which an order is sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the Order Book or canceled, as per User instruction. Once posted on the Order Book, the unexecuted portion of such an order is eligible for the re-sweep behavior described below, market conditions permitting.

~~Route to Take with Re-sweep (a.k.a. “Router”). Route to Take with Re-sweep is functionally identical to Route to Take, with the exception that once posted after routing, the unexecuted portion of such an order is eligible to the re-sweep behavior described in Rule 11.230(c)(5), market conditions permitting.~~

~~Route to Rest (a.k.a. “SweepPost+”). After a Route to Rest order trades with all available interest on the Order Book priced at or better than the NBBO, this~~ Plus. Router Plus is a routing option routes the remaining shares as IOC orders under which an order is sent to the Order Book to check for available shares and then any remainder is sent to destinations ~~based~~ on the System routing table. If shares remain unexecuted after routing, ~~all or a portion of remaining shares~~ they are posted on ~~one or more destinations based on the System routing table, which may include the Order Book, or are~~ canceled, as per User instruction. ~~Resting at away trading centers~~ Once posted on the Order Book, the unexecuted portion of such an order is eligible for the re-sweep behavior is described in Rule 11.230(c)(6) and below, market conditions permitting.

~~Route to Rest with Re-sweep (a.k.a. “Router+”). Route to Rest with Re-sweep is functional identical to Route to Rest, with the exception that once posted after routing, the unexecuted portion of such order is eligible for the re-sweep behavior described in Rule 11.230(c)(5), market conditions permitting.~~

Re-sweep Behavior. Re-Sweep is a feature available to certain routing strategies as described above in this IEX Rule 11.230 that allows for a resting order to route to Protected Quotations when the resting order's limit price has been locked or crossed by the Protected NBBO, IEX Rules permitting. Re-sweep when Order's Limit is Locked by Protected NBBO. If a resting order eligible for re-sweep has its booked limit price locked by the Protected NBO (for buy orders) or Protected NBB (for sell orders) for a minimum amount of time between 750 milliseconds and one (1) second, the System will route to the Protected Quotations at the locking NBO or NBB their full displayed size (or the remaining unexecuted shares on the order, if smaller). In the case that such resting order is a reserve order, the System will decrement first from the non-displayed portion, and then from the displayed portion. Any shares unexecuted will be returned to the Order Book, either incrementing the resting order, or re-posting the order to the Order Book, receiving a new timestamp as per Rule 11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order. Re-sweep when Order's Limit is Crossed by Protected NBBO. If a resting order eligible for re-sweep has its booked limit price crossed by the Protected NBO (for buy orders) or Protected NBB (for sell orders), i.e., the Protected NBO becomes lower than the limit price of a buy order, or the Protected NBB becomes higher than the limit price of a sell order, for a minimum amount of time between 750 milliseconds and one (1) second, the System will route the entire order to away trading centers as per this IEX Rule 11.230. Any shares unexecuted will be re-posted to the Order Book, receiving a new timestamp as per Rule 11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order.

~~*Route to Rest Behavior.* If an order marked Route to Rest (with or without re-sweep) has unexecuted shares remaining after routing and the order parameters permit, the System will route the displayed portion as limit orders marked with a TIF of DAY to one or more destinations based on the System routing table, which may include the Order Book. The non-displayed portion of reserve orders will rest on the IEX Order Book. The total shares displayed on the Exchange and any away trading center will not exceed the maximum displayed size indicated by the User on the order received by the Exchange. When dividing the display quantity indicated by the User at order entry between destinations, the System will not create multiple odd lots or mixed lots. In the event that division by the number of destinations to be used would create an order size not evenly divisible by one round lot, the System will instead create round lot orders of unequal size as necessary, with the Exchange always receiving the larger displayed portion. When displayed shares posted on an away trading center are fully executed, the System will refresh such displayed shares by decrementing the order on the Exchange, first from the non-displayed portion (if the order is a reserve order), and then from displayed portion on the Exchange. When all shares on the away trading center are fully executed, the Exchange may remove all unexecuted shares from the Exchange and rest a displayed order on the away trading center. When all shares on the Exchange are fully executed, any shares remaining on an away trading center will be canceled from the away trading center and displayed on the Exchange. IEX will never post non-displayed interest on away trading centers, although depending on each away trading center's handling of orders decremented through execution to less than one round lot, a portion resting away may become non-displayed.~~

Equal Access. In executing orders submitted to the Exchange's Order Book, the Exchange will not distinguish between orders submitted by Users for their own accounts and orders submitted by Users for their customers. Unlike exchanges that conduct trading via a physical trading floor, all Exchange Users will submit orders to the Exchange from remote locations and have equal access to orders residing on the Exchange. Similarly, because orders on the Exchange will be executed automatically, no User of

the Exchange will have the ability to control the timing of execution (other than to change or cancel an order prior to execution) or otherwise enjoy the type of special order handling advantages that may be available on the physical floor of an exchange. Moreover, as noted above, the general public will have access to view the best priced quotes and aggregate size of such orders at those prices on the Exchange's Order Book through the Exchange's web site.

Order Price Collars and Constraints. The Exchange will utilize the collars and constraints defined in Rule 11.190(f) in an effort to reduce the occurrences of erroneous trades. The collars and constraints include the following: Order Collar, Router Constraint, Crossed Market Collar, One-Sided Market Handling, and Zero Markets Handling.

Order Collar. The Exchange Order Collar, as described in 11.190(f)(1), prevents any incoming order or order resting on the Order Book, including those marked ISO, from executing at a price outside the Order Collar price range, i.e., prevents buy orders from trading at prices below the collar and prevents sell orders from trading at prices above the collar. The Order Collar price range is calculated using the numerical guidelines for clearly erroneous executions. Executions are permitted at prices within the Order Collar price range, inclusive of the boundaries. Any portion of a market order that would execute at a price beyond the Order Collar is canceled. Any remainder of a limit or pegged order that would execute at a price beyond the Order Collar is posted to the Order Book or canceled as per User instructions. Both displayed and non-displayed portions of limit orders or pegged orders may post on the Order Book at the Order Collar Price, but never more aggressive. Such orders may be re-priced to a compliant price within or at the Order Collar as the Order Collar price changes due to changing market conditions.

Router Constraint. The Exchange Router Constraint, as described in Rule 11.190(f)(2), prevents any order from routing at prices more aggressive than the Router Constraint price range. The Router Constraint price range is calculated using the numerical guidelines for clearly erroneous executions. Orders are permitted to route at prices within the Router Constraint price range, inclusive of the boundary. Any portion of an order that would have executed at a price more aggressive than the Router Constraint is canceled back to the User. While resting on the Order Book, routable orders are subject to the Order Collar, as defined in IEX Rule 11.190(f)(1). Any time a routable order would route at a price beyond the Router Constraint Price, the System will instead cancel the order back to the User.

Crossed Market Collar. As described in Rule 11.190(f)(3), In the event that a Protected Bid is crossing a Protected Offer, the System does not execute any portion of an active buy order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) higher than the lowest Protected Offer, or any portion of an active sell order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) lower than the highest Protected Bid, unless such order is marked ISO. To the extent an incoming order is eligible to execute against an order resting on the Order Book because a Protected Bid is crossing a Protected Offer, but such incoming order is eligible for routing and there is a Protected Bid or Protected Offer available at an away trading center that is better priced than the bid or offer against which the order would execute on the System, the System first seeks to route the order to such better priced quotation pursuant to IEX Rule 11.230(b). When an order posts to or is resting on the Order Book while a Protected Bid is crossing a Protected Offer, the order will price slide in accordance with the price sliding process, pursuant to IEX Rule 11.190(h).

One-Sided Markets. Pursuant to Rule 11.190(f)(4), One-Sided Markets are markets which lack either a Protected Bid or a Protected Offer. In a One-Sided Market, non-displayed interest is handled in the following manner: (i) non-displayed interest entering the System will first test for marketable interest resting on the Order Book; routable non-displayed interest may route to Protected Quotations on the opposite side of the market; any unexecuted non-displayed interest will be unavailable to trade once it posts on the Order Book; (ii) Resting non-displayed interest on IEX is unavailable to trade; (iii) when a two-sided market returns, non-displayed orders become available at their relative priority. In a One-Sided Market, displayed interest is handled in the following manner: (i) when IEX receives displayable interest on the same side of the market as the Protected Bid or Protected Offer: (a) displayed interest marked IEX Only posts and displays at the most aggressive allowable price; (b) Routable displayable orders can route passively to rest on away trading centers with limit orders marked with a TIF of DAY (i.e., Route to Rest, pursuant to IEX Rule 11.230(c)(6)), but the router will not designate outbound orders with a TIF of IOC; (ii) when IEX receives displayable interest on the side of the market opposite a best Protected Quote: (a) displayed interest marked IEX Only is eligible to trade with interest that is present on the Exchange and will post any unexecuted shares, order instructions allowing, subject to displayed-price sliding, pursuant to Rule 11.190(h)(1); (b) for routable orders, the System will route the order consistent with Rule 11.230(b)(2).

Zero Markets. Zero Markets are markets in which neither a Protected Bid nor a Protected Offer exists. In a Zero Market, resting non-displayed interest is unavailable to trade. Non-displayed orders are not eligible to route when Zero Markets exist. When a Two-Sided Market returns, non-displayed orders become available at their relative priority and may route consistent with Rule 11.230(b)(2), if eligible for re-sweep. In a Zero Market, displayable interest will post and display at the most aggressive allowable price. Displayable orders can only route passively to rest on away trading centers (i.e. Route to Rest, pursuant to IEX Rule 11.230(c)(6)), if routable.

Clearly Erroneous Policy. The Exchange will have a policy that will permit it to address those instances in which transactions occurring on the Exchange involve clearly erroneous executions (“Clearly Erroneous Policy”). Under the Clearly Erroneous Policy, Users receiving an execution based on the entry of a buy or sell order that clearly was in error – in terms of price, quantity, or identification of the proper symbol for a security – will be permitted to request that the Exchange void or modify the transaction. Designated Exchange officials will review the transaction to determine whether, in fact, the transaction was clearly erroneous. If such officials determine that a trade is clearly erroneous, they shall void or modify the terms of the trade to achieve an equitable rectification of the error. A User may appeal the initial decision by Exchange officials to the Clearly Erroneous Execution Panel, which will be comprised of the CRO, or a designee of the CRO, and representatives from two (2) Users. An officer of the Exchange also will have the authority, on his or her own motion, to review and declare null and void, or otherwise modify the terms of, transactions arising out of the use of the Exchange’s Order Book during a period of disruption or malfunction, or in the event of extraordinary market conditions or other circumstances in which the nullification or modification of transactions may be necessary for the maintenance of a fair and orderly market or the protection of investors and the public interest.

Trade Reporting. The Exchange intends to become a participant in the Consolidated Tape Association Plan (“CTA Plan”) and will report trades in Eligible Securities (as defined in the CTA Plan) pursuant to the terms of the plan. Similarly, the Exchange expects to join the Nasdaq-UTP Plan and will report trades in

Nasdaq securities traded on the Exchange that have been admitted to unlisted traded privileges pursuant to the provisions of that plan.

Clearance and Settlement of Exchange Trades. The Exchange will require each Member to be a member of a registered clearing agency or clear its transactions through a Member that is a member of a registered clearing agency.

4. Proposed Fees

The Exchange currently does not propose to charge a fee for Exchange membership. The Exchange may, in the future, however, prescribe such reasonable dues, fees, and assessments or other charges as it may deem appropriate. Similarly, where there is no matching contra-side buy or sell order residing on the Exchange, Users entering orders on the Exchange's Order Book will not be assessed a fee. Users entering orders under such circumstances will, however, be charged a per share fee, payable to the Exchange on a monthly basis, for orders entered and later executed on the Exchange. There will not be a fee charged for changing or canceling an order prior to execution of such order. Exchange Users submitting buy or sell orders that execute against matching contra-side orders already residing on the Exchange will be charged a per share fee, payable to the Exchange on a monthly basis. The Exchange will not pay Users rebates for orders that execute, or otherwise. The Exchange may also charge a connectivity fee based on the number of ports utilized by the Access Participant. Exchange Access Participants will be solely responsible for all telecommunications costs and all other expenses incurred in linking to, and maintaining links to, the Exchange. Exchange Users will also be solely responsible for all execution fees charged by away trading centers; the Exchange will pass such fees incurred from orders routed to an away trading center through to Users. The Exchange may determine to revise or impose different fees upon its Access Participants from time-to-time. Any time the Exchange undertakes to impose or modify a due, fee, assessment, or other charge, such fee imposition or change will be subject to filing by the Exchange pursuant to Section 19 of the Exchange Act and Rule 19b-4 thereunder.

5. —Procedures for ensuring Member compliance with System usage guidelines:

The Exchange System contains embedded order entry and trade guidelines. All data representing a User's order must comply with these guidelines. Access Participants cannot override these embedded guidelines. With respect to technical standards, prior to allowing a new Access Participant to begin trading, the Exchange and the Access Participant will thoroughly test the Access Participant's connectivity. In addition, the Access Participant may enter orders in IEX's certification environment and may also enter orders for test securities on the Exchange to ensure compatibility with the Exchange's system protocol. An Access Participant may begin trading only after the Exchange is satisfied that both the User's hardware and software meet the Exchange's standards.

Access Participants also must agree to maintain an adequate connection to the Exchange as defined from time-to-time by the Exchange that includes a connection of sufficient speed and equipment of minimum quality.

6. Hours of Operation

The Exchange will operate Monday to Friday from 8:00 a.m. to 5:30 p.m. Eastern Time, or during any other day or time approved by the Board of Directors of the Exchange.

If the Commission approves IEX's Form 1 Application for Registration as a National Securities Exchange and IEX satisfies of any relevant conditions prior to operation, the Exchange will commence operations in a phased manner based on specific securities.

7. Exchange User Manual

As discussed above, Users will be provided with the Exchange's technical specifications, which will enable them to develop or purchase their own, customized front-end software for interfacing with the Exchange. Users also may use third-party vendors to route orders to the Exchange via a front end or service bureau configuration. The User Manual will describe the Exchange's technical specifications and will provide Users, prospective Users and other Access Participants of the Exchange with additional information that the Exchange believes will be useful to such persons for trading on the Exchange.

Attached as Addendum E-1 is the IEX User Manual.

Attached as Addendum E-2 is the IEX FIX Specification.

Attached as Addendum E-3 is the IEX TOPS Specification.

Attached as Addendum E-4 is the IEX Transport Specification.

8. If applicant proposes to hold funds or securities on a regular basis, describe the controls that will be implemented to ensure safety of those funds or securities.

This is inapplicable.

General Provisions Applicable to Securities Listed and Traded Under Chapter 16 of the IEX Rules

To the extent not specifically addressed in the respective listing standards, the following general provisions apply to all securities listed and traded under Chapter 16 of the IEX Rules (the "securities"):

1. Trading Rules

The Exchange deems the securities to be equity securities, thus rendering trading in the securities subject to the Exchange's existing rules governing the trading of equity securities. The securities will trade on the Exchange during Regular Market Session, as well as during the Pre-Market Session and the Post-Market Session. The Exchange has appropriate rules to facilitate transactions in the securities during all trading sessions. The minimum price increment for quoting and entry of orders in equity

securities traded on the Exchange is \$0.01, with the exception of securities that are priced less than \$1.00 for which the minimum price increment for order entry is \$0.0001.¹

2. Information Circular

Prior to the commencement of trading, the Exchange will inform its Members in an Information Circular of the special characteristics and risks associated with trading the securities. Specifically, the Information Circular will discuss the following: (1) The procedures for purchases and redemptions of the securities (and/or that the securities are not individually redeemable); (2) Exchange Rule 3.170, which imposes suitability obligations on the Exchange Members with respect to recommending transactions in the securities to customers; (3) how information regarding the Intraday Indicative Value (and, if applicable, the Disclosed Portfolio with respect to series of Managed Fund Shares) is disseminated; (4) the requirement that Members deliver a prospectus to investors purchasing newly issued securities prior to or concurrently with the confirmation of a transaction; and (5) trading information.

In addition, the Information Circular will advise Members, prior to the commencement of trading, of the prospectus delivery requirements applicable to the securities. Members purchasing securities for resale to investors will deliver a prospectus to such investors. The Information Circular will also discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act.

In addition, the Information Circular will reference that the securities are subject to various fees and expenses described in the registration statement. If applicable, the Information Circular will also reference that the CFTC has regulatory jurisdiction over the trading of futures contracts.

The Information Circular also will disclose the trading hours of the securities and, if applicable, the Net Asset Value ("NAV") calculation time for the securities. The Information Circular will disclose that information about the securities and the corresponding indexes, if applicable, will be publicly available on the Web site for the securities. The Information Circular will also reference, if applicable, the fact that there is no regulated source of last-sale information regarding physical commodities, and that the

¹ See, e.g., Rule 11.210. Regulation NMS Rule 612, Minimum Pricing Increment, provides:

- a. No national securities exchange, national securities association, alternative trading system, vendor, or broker or dealer shall display, rank, or accept from any person a bid or offer, an order, or an indication of interest in any NMS stock priced in an increment smaller than \$ 0.01 if that bid or offer, order, or indication of interest is priced equal to or greater than \$ 1.00 per share.
- b. No national securities exchange, national securities association, alternative trading system, vendor, or broker or dealer shall display, rank, or accept from any person a bid or offer, an order, or an indication of interest in any NMS stock priced in an increment smaller than \$ 0.0001 if that bid or offer, order, or indication of interest is priced less than \$ 1.00 per share.
- c. The Commission, by order, may exempt from the provisions of this section, either unconditionally or on specified terms and conditions, any person, security, quotation, or order, or any class or classes of persons, securities, quotations, or orders, if the Commission determines that such exemption is necessary or appropriate in the public interest, and is consistent with the protection of investors.

Commission has no jurisdiction over the trading of physical commodities or futures contracts on which the value of the securities may be based.

The Information Circular also will reference the risks involved in trading the securities during the Pre-Opening and After Hours Trading Sessions when an updated Intraday Indicative Value will not be calculated or publicly disseminate and, if applicable, the risks involved in trading the securities during Regular Market Session when the Intraday Indicative Value may be static or based in part on the fluctuation of currency exchange rates when the underlying markets have closed prior to the close of the Exchange's Regular Market Session.

3. Market Maker Accounts

A registered market maker in the securities described below must file with the Exchange, in a manner prescribed by the Exchange, and keep current a list identifying all accounts for trading in:

- In the case of Commodity-Based Trust Shares, the applicable underlying commodity, related commodity futures or options on commodity futures, or any other related commodity derivatives, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Commodities");
- In the case of Currency Trust Shares, the applicable underlying non-U.S. currency, options, futures or options on futures on such currency, or any other derivatives based on such currency, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Currencies");
- In the case of Commodity Index Trust Shares, the applicable physical commodities included in, or options, futures or options on futures on, an index underlying an issue of Commodity Index Trust Shares or any other derivatives based on such index or based on any commodity included in such index, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Commodity Index Assets");
- In the case of Commodity Futures Trust Shares, the applicable underlying commodity, related futures or options on futures, or any other related derivatives, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Commodity Futures");
- In the case of Partnership Units, the applicable underlying asset or commodity, related futures or options on futures, or any other related derivatives, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Partnership Unit Assets");
- In the case of Trust Units, the applicable underlying commodity, related commodity futures or options on commodity futures, or any other related commodity derivatives, which the registered market maker may have or over which it may exercise investment discretion (the "Underlying Trust Unit Assets"); and
- In the case of Managed Trust Securities, the underlying commodity or applicable currency, related futures or options on futures, or any other related derivatives, which a registered market maker may have or over which it may exercise investment discretion (the "Underlying Managed Trust Assets").

No registered market maker in the above mentioned securities shall trade in the respective Underlying Commodities, Underlying Currencies, Underlying Commodity Index Assets, Underlying Commodity Futures, Underlying Partnership Unit Assets, Underlying Trust Unit Assets, and/or the Underlying Managed Trust Assets (collectively, the "Underlying Assets") in an account in which a market maker, directly or indirectly, controls trading activities, or has a direct interest in the profits or losses thereof, which has not been reported to the Exchange.

In addition to the existing obligations under Exchange rules regarding the production of books and records (see, e.g., Rule 4.540), a registered market maker in the above mentioned securities is required to make available to the Exchange such books, records, or other information pertaining to transactions by such entity or registered or non-registered employee affiliated with such entity for its or their own accounts for trading the applicable Underlying Assets as may be requested by the Exchange.

4. Surveillance

The Exchange represents that the trading in the Shares will be subject to the existing trading surveillances, administered by the Financial Industry Regulatory Authority ("FINRA") on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws. FINRA will surveil trading on the Exchange pursuant to a regulatory services agreement, and the Exchange is responsible for FINRA's performance under this regulatory services agreement. The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

Pursuant to Exchange Rule 16.160(a)(6), with respect to securities traded under Chapter 16 of IEX Rules pursuant to unlisted trading privileges, the Exchange shall enter into a comprehensive surveillance sharing agreement with markets trading components of the index or portfolio on which shares of an exchange-traded product is based to the same extent as the listing exchange's rules require the listing exchange to enter into a comprehensive surveillance sharing agreement with such markets. FINRA, on behalf of the Exchange, may obtain information, and will communicate information as needed, regarding trading in the shares of the exchange-traded products, as well as in the underlying exchange-traded securities and instruments with other markets and other entities that are members of the Intermarket Surveillance Group ("ISG"). In addition, the Exchange may obtain information regarding trading in such shares and underlying securities and instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's Trade Reporting and Compliance Engine ("TRACE").

5. Trading Halts

With respect to trading halts, in addition to the halt requirements in the rules, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the securities. Trading in the securities may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the securities inadvisable. These may include: (1) The extent to which trading in the underlying asset or assets is not occurring; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. In addition, trading in the securities will be subject to trading halts caused by extraordinary market volatility pursuant to the Exchange's "circuit breaker" Rule 11.280 or by the halt or suspension of the trading of the current underlying asset or assets.

If the applicable Intraday Indicative Value, value of the underlying index, or the value of the underlying asset or assets (e.g., securities, commodities, currencies, futures contracts, or other assets) is not being disseminated as required, the Exchange may halt trading during the day in which such interruption to the dissemination occurs. If the interruption to the dissemination of the applicable Intraday Indicative Value, value of the underlying index, or the value of the underlying asset or assets persists past the trading day in which it occurred, the Exchange will halt trading no later than the beginning of the trading day following the interruption. In addition, if the Exchange becomes aware that the net asset value (or Disclosed Portfolio, as applicable) with respect to a series of securities is not disseminated to all market participants at the same time, it will halt trading in such series until such time as the net asset value (or Disclosed Portfolio, as applicable) is available to all market participants.

With respect to securities traded under Chapter 16 of IEX Rules pursuant to unlisted trading privileges, Exchange Rule 16.170 provides that the Exchange will halt trading in such securities under the following circumstances:

- (a) During Pre-Market Session. If the security begins trading on IEX in the Pre-Market Session and subsequently a temporary interruption occurs in the calculation or wide dissemination of an applicable Required Value², IEX may continue to trade the security for the remainder of the Pre-Market Session.
- (b) During Regular Market Hours. During the Regular Market Hours, if a temporary interruption occurs in the calculation or wide dissemination of an applicable Required Value³, and the listing market halts trading in the security, IEX, upon notification by the listing market of a halt due to such temporary interruption, also shall immediately halt trading in the security on IEX.
- (c) Post-Market Session and Next Trading Day.

² Pursuant to Exchange Rule 16.170(c)(2) a required value shall mean (i) the value of any index or any commodity-related value underlying a Derivative Securities Product, (ii) the indicative optimized portfolio value, intraday indicative value, or other comparable estimate of the value of a share of a Derivative Securities Product updated regularly during the trading day, (iii) a net asset value in the case of a Derivative Securities Product for which a net asset value is disseminated, and (iv) a Disclosed Portfolio in the case of a Derivative Securities Product that is a series of Managed Fund Shares, as defined in Rule 16.135, or Managed Trust Securities, as defined in Rule 16.111(j).

³ *Id.*

- (1) If an applicable Required Value⁴ continues not to be calculated or widely disseminated after the close of the Regular Market Session, IEX may trade the security in the Post-Market Session only if the listing market traded the security until the close of its regular trading session without a halt.
- (2) If an applicable Required Value⁵ continues not to be calculated or widely disseminated as of the beginning of the Pre-Market Session on the next trading day, IEX shall not commence trading of the security in the Pre-Market Session that day. If an interruption in the calculation or wide dissemination of an applicable Required Value⁶ continues, IEX may resume trading in the security only if calculation and wide dissemination of the applicable Required Value⁷ resumes or trading in the security resumes in the listing market.

6. Suitability

Currently, Exchange Rule 3.170 governs Recommendations to Customers (Suitability). Prior to the commencement of trading of any inverse, leveraged, or inverse leveraged securities, the Exchange will inform its Members of the suitability requirements of Exchange Rule 3.170 in an Information Circular. Specifically, Members will be reminded in the Information Circular that, in recommending transactions in these securities, they must have a reasonable basis to believe that (1) the recommendation is suitable for a customer given reasonable inquiry concerning the customer's other securities holdings, financial situation and needs, and (2) the customer can evaluate the risks of the recommended transaction and is financially able to bear the risks of an investment in the securities.

In addition, FINRA has implemented increased sales practice and customer margin requirements for FINRA members applicable to inverse, leveraged, and inverse leveraged securities and options on such securities, as described in FINRA Regulatory Notices 09-31 (June 2009), 09-53 (August 2009) and 09-65 (November 2009) ("FINRA Regulatory Notices"). Members that carry customer accounts will be required to follow the FINRA guidance set forth in the FINRA Regulatory Notices. The Information Circular will reference the FINRA Regulatory Notices regarding sales practice and customer margin requirements for FINRA members applicable to inverse, leveraged, and inverse leveraged securities and options on such securities.

The Exchange notes that, for such inverse, leveraged, and inverse leveraged securities, the corresponding funds seek inverse, leveraged, or inverse leveraged returns on a daily basis, and do not seek to achieve their stated investment objective over a period of time greater than one day because compounding prevents the funds from perfectly achieving such results. Accordingly, results over periods of time greater than one day typically will not be the inverse (-100%), a leveraged multiple (+200%), or a inverse leveraged multiple (-200%) of the period return of the applicable benchmark and may differ significantly from these multiples. The Exchange's Information Circular, as well as the applicable registration statement, will provide information regarding the suitability of an investment in such securities.

In addition, FINRA has issued a regulatory notice providing guidance to firms about the supervision of complex products, as described in FINRA Regulatory Notice 12-03 (January 2012). While this FINRA Regulatory Notice does not provide a definition of what constitutes a "complex product," it does identify characteristics that may make a product "complex" for purposes of determining whether the product should be subject to heightened supervisory and compliance procedures.⁸ Certain characteristics may raise issues similar to those raised in the FINRA Regulatory Notice. Therefore, the Exchange has represented that the Information Bulletin will state that Members that carry customer accounts should follow the FINRA Regulatory Notice with respect to suitability.

- (b) No natural person or registered broker or dealer shall be admitted as, or be entitled to continue as, a Member or an associated person of a Member, unless such natural person or broker or dealer meets the standards of training, experience and competence as the Exchange may prescribe. Each Member shall have the responsibility and duty to ascertain by investigation the good character, business repute, qualifications and experience of any person applying for registration with the Exchange as an associated person of a Member.
- (c) No registered broker or dealer shall be admitted as, or be entitled to continue as, a Member if such broker or dealer:

- (1) fails to comply with either the financial responsibility requirements established by Rule 15c3-1 under the Act, or such other financial responsibility and operational capability requirements as may be established by IEX Rules;
 - (2) fails to adhere to IEX Rules relating to the maintenance of books and records or those rules of other self-regulatory organizations of which such broker or dealer is or was a Member;
 - (3) fails to demonstrate to the Exchange adequate systems capability, capacity, integrity, and security necessary to conduct business on the Exchange;
 - (4) is not a Member of a registered clearing agency, or does not clear transactions executed on the Exchange through another Member that is a Member of a registered clearing agency;
 - (5) is subject to any unsatisfied liens, judgments, or unsubordinated creditor claims of a material nature, which, in the absence of a reasonable explanation therefor, remain outstanding for more than six months;
 - (6) has been subject to any bankruptcy proceeding, receivership, or arrangement for the benefit of creditors within the past three years; or
 - (7) has engaged in an established pattern of failure to pay just debts or has defaulted, without a reasonable explanation, on an obligation to a self-regulatory organization, or any Member of a self-regulatory organization.
- (d) No person shall be admitted as a Member or as an associated person of a Member where it appears that such person has engaged, and there is a reasonable likelihood that such person again may engage, in acts or practices inconsistent with just and equitable principles of trade.
- (e) No person shall become an associated person of a Member unless such person agrees:
- (1) to supply the Exchange with such information with respect to such person's relationships and dealings with the Member as may be specified by the Exchange;
 - (2) to permit examination of such person's books and records by the Exchange to verify the accuracy of any information so supplied; and
 - (3) to be regulated by the Exchange and to recognize that the Exchange is obligated to undertake to enforce compliance with the provisions of IEX Rules, the Operating Agreement, the interpretations and policies of the Exchange, and the provisions of the Act and the regulations thereunder.
- (f) The Exchange may require the successful completion of a written proficiency examination to enable it to examine and verify that prospective Members and associated persons of Members have adequate training, experience, and competence to comply with IEX Rules and policies of the Exchange.
- (g) If the Exchange requires the completion of such proficiency examinations, the Exchange may, in exceptional cases and where good cause is shown, pursuant to IEX Rule Series 9.600, waive such proficiency examinations as are required by the Exchange upon written request of the applicant and accept other standards as evidence of an applicant's qualifications. Advanced age, physical infirmity, or experience in fields ancillary to the securities business will not individually of themselves constitute sufficient grounds to waive a proficiency examination.
- (h) The Exchange requires the General Securities Representative Examination ("Series 7") or an equivalent foreign examination module approved by the Exchange in qualifying persons seeking registration as General Securities Representatives, including as Authorized Traders, on behalf of Members. For those persons seeking limited registration as Securities Traders as described in paragraph (k) below, the Exchange requires the Securities Traders Qualification Examination ("Series 57"). The Exchange uses the Uniform Application for Securities Industry Registration or Transfer ("Form U4") as part of its procedure for registration and oversight of Member personnel.

- (i) The Exchange requires each Member other than a sole proprietorship or a proprietary trading firm with 25 or fewer Authorized Traders (“Limited Size Proprietary Firm”) to register at least two Principals with the Exchange. In addition, the Exchange may waive the two Principal requirement in situations that indicate conclusively that only one Principal associated with the Member should be required. A Limited Size Proprietary Firm is required to register at least one Principal with the Exchange. For purposes of this paragraph (i), a “Principal” shall be any individual responsible for supervising the activities of a Member’s Authorized Traders and each person designated as a Chief Compliance Officer on Schedule A of Form BD. Each Principal is required to have successfully completed the General Securities Principal Examination (“Series 24”). The Exchange uses Form U4 as part of its procedure for registration and oversight of Member personnel.

The Exchange will accept the New York Stock Exchange Series 14 Compliance Official Examination in lieu of the Series 24 to satisfy the above requirement for any person designated as a Chief Compliance Officer. Individuals that supervise the activities of General Securities Representatives must have successfully completed the Series 7 or an equivalent foreign examination module as a prerequisite to the Series 24 or Series 14 and shall be referred to as General Securities Principals. The Exchange will require the Series 57 as a prerequisite to the Series 24 or Series 14 for those Principals whose supervisory responsibilities are limited to overseeing the activities of Series 57 qualified Securities Traders. These limited representative Principals shall be referred to as Securities Trader Principals. Each Principal with responsibility over securities trading activities on the Exchange shall become qualified and registered as a Securities [Trader](#) Principal.

- (j) Each Member subject to Exchange Act Rule 15c3-1 shall designate a Financial/Operations Principal. The duties of a Financial/Operations Principal shall include taking appropriate actions to assure that the Member complies with applicable financial and operational requirements under Exchange Rules and the Exchange Act, including but not limited to those requirements relating to the submission of financial reports and the maintenance of books and records. Each Financial/Operations Principal is required to have successfully completed the Financial and Operations Principal Examination (“Series 27”). The Exchange uses Form U4 as part of its procedure for registration and oversight of Member personnel. A Financial/Operations Principal of a Member may be a full-time employee of the Member or may be a part-time employee or independent contractor of the Member. The Exchange may waive the requirements of this paragraph (j) if a Member has otherwise satisfied the financial and operational requirements of its designated examining authority.
- (k) The Exchange recognizes the Series 57 qualification for Authorized Traders that engage solely in trading on the Exchange, on either an agency or principal basis.
- (l) For purposes of paragraphs (i) above, a “proprietary trading firm” shall mean a Member that trades its own capital, that does not have customers, and that is not a member of FINRA. In addition, to qualify for this definition, the funds used by a proprietary trading firm must be exclusively firm funds, all trading must be in the firm’s accounts, and traders must be owners of, employees of, or contractors to the firm.
- (m) Reserved.
- (n) The following sets forth the qualification requirements for each of the registration categories described above:

CATEGORY OF REGISTRATION	QUALIFICATION EXAMINATION	ALTERNATIVE ACCEPTABLE QUALIFICATIONS
General Securities Representative	Series 7	Equivalent foreign examination module (Series 17 or Series 37/38)
Securities Trader	Series 57	N/A
General Securities Principal	Series 24	Compliance Official Examination (Series 14) ²
Securities Trader Principal	Series 24	Compliance Official Examination (Series 14) ²
Financial/Operations Principal	Series 27	Other examination acceptable to designated examining authority ³

Reserved.

² The Exchange will only permit the Series 14 for those designated as Chief Compliance Officers on Schedule A of Form BD

³ An examination acceptable to the Member's designated examining authority is only acceptable to the Exchange if the Exchange waives the requirements of paragraph (j) above.

(o) Reserved.

(p) Continuing Education Requirements.

(1) Requirements.

No Member shall permit any Authorized Trader, Principal, or Financial/Operations Principal (each a "Registered Representative") to continue to, and no Registered Representative shall continue to, perform duties as a Registered Representative on behalf of such Member, unless such person has complied with the continuing education requirements in this IEX Rule. Each Registered Representative shall complete the Regulatory Element of the continuing education program on the occurrence of their second registration anniversary date and every three years thereafter or as otherwise prescribed by FINRA. On each occasion, the Regulatory Element must be completed within 120 days after the Registered Representative's registration anniversary date. A Registered Representative's registration date, also known as the "base date," shall establish the cycle of anniversary dates for purposes of this IEX Rule. The content of the Regulatory Element of the continuing education program shall be determined by FINRA for each registration category of Registered Representatives subject to the Rule. A Registered Representative qualified solely as a Securities Trader shall comply with the continuing education requirements appropriate for the Series 57. All other Registered Representatives shall comply with the continuing education requirements applicable to their particular registration.

(2) Failure to Complete.

Unless otherwise determined by the Exchange, Registered Representatives who have not completed the Regulatory Element of the continuing education program within the prescribed time frames will have their registration deemed inactive until such time as the requirements of the program have been satisfied. Any person whose registration has been deemed inactive under this IEX Rule shall cease all activities as a Registered Representative and is prohibited from functioning in any capacity requiring registration with the Exchange. A registration that is inactive for a period of two years will be administratively terminated. A person whose registration is so terminated may reactivate the registration only by reapplying for registration and satisfying applicable registration and qualification requirements of the Exchange's Rules. The Exchange may, upon application and a showing of good cause, allow for additional time for a Registered Representative to satisfy the program requirements.

(3) Disciplinary Actions.

Unless otherwise determined by the Exchange, a Registered Representative will be required to retake the Regulatory Element and satisfy all of its requirements in the event such person:

- (A) is subject to any statutory disqualification as defined in Section 3(a)(39) of the Exchange Act,
- (B) is subject to suspension or to the imposition of a fine of \$5,000 or more for violation of any provision of any securities law or regulation, or any agreement with or rule or standard of conduct of any securities governmental agency, securities self-regulatory organization, or as imposed by any such regulatory or self-regulatory organization in connection with a disciplinary proceeding, or
- (C) is ordered as a sanction in a disciplinary action to retake the Regulatory Element by any securities governmental agency or securities self-regulatory organization.

The retaking of the Regulatory Element shall commence with participation within 120 days of the Registered Representative becoming subject to the statutory disqualification, in the case of 3(A) above, or the disciplinary action becoming final, in the case of 3(B) or (C) above. The date of the disciplinary action shall be treated as such person's base date for purposes of this IEX Rule.

(4) Reassociation in a Registered Capacity

Any Registered Representative who has terminated association with a registered broker or dealer and who has, within two years of the date of termination, become re-associated in a registered capacity with a registered broker or dealer shall participate in the Regulatory Element at such intervals that may apply (second anniversary and every three years thereafter) based on the initial registration anniversary date, rather than based on the date of re-association in a registered capacity.

The following sets forth the Regulatory Elements appropriate for each registration category:

CATEGORY OF REGISTRATION	REGULATORY ELEMENT
General Securities Representative	S101 General Program
Securities Trader	S101 General Program
General Securities Principal	S201 Supervisor Program

CATEGORY OF REGISTRATION	REGULATORY ELEMENT
Securities Trader Principal	S201 Supervisor Program
Financial/Operations Principal	S201 Supervisor Program

(q) Registration Procedures.

- (1) Persons associated with a Member who seeks to register with the Exchange shall electronically file a Form U4 with the Central Registration Depository (“CRD”) System by appropriately checking the Exchange as a requested registration on the electronic Form U4 filing. Any person required to complete Form U4 shall promptly electronically file any required amendments to Form U4 with the CRD System.

(r) Termination of Employment.

- (1) The discharge or termination of employment of any person registered with the Exchange, together with the reasons therefor, shall be electronically reported to the CRD System, by an applicable Member immediately following the date of termination, but in no event later than thirty days following termination on a Uniform Termination Notice for Securities Industry Registration (“Form U5”). A copy of said termination notice shall be provided concurrently to the person whose association has been terminated.
- (2) The applicable Member shall also electronically report to the CRD System, by means of an amendment to the Form U5 filed pursuant to paragraph (r)(1) above, in the event that the Member learns of facts or circumstances causing any information set forth in the notice to become inaccurate or incomplete. Such amendment shall be provided concurrently to the person whose association has been terminated no later than thirty days after the Member learns of the facts or circumstances giving rise to the amendment.

Rule 2.170. Application Procedures for Membership or to become an Associated Person of a Member

(a) Applications for membership shall be made to the Exchange and shall contain the following:

- (1) An agreement to abide by, comply with, and adhere to the provisions of the Exchange’s Certificate of Formation, its Operating Agreement, IEX Rules, the policies, interpretations and guidelines of the Exchange and all orders and decisions of the Exchange’s Board and penalties imposed by the Board, and any duly authorized committee; provided, however, that such agreement shall not be construed as a waiver by the applicant of any right to appeal as provided in the Act.
- (2) An agreement to pay such dues, assessments, and other charges in the manner and amount as shall from time to time be fixed by the Exchange.
- (3) An agreement that the Exchange and its officers, employees, and Members of its Board and of any Board committee shall not be liable, except for willful malfeasance, to the applicant or to any other person, for any action taken by such director, officer or Member in his, her or its official capacity, or by any employee of the Exchange while acting within the scope of his or her employment, in connection with the administration or enforcement of any of the provisions of the Certificate of Formation, Operating Agreement, IEX Rules, policies,

interpretations or guidelines of the Exchange or any penalty imposed by the Exchange, its Board, or any duly authorized Board committee.

- (4) An agreement that, in cases where the applicant fails to prevail in a lawsuit or administrative adjudicative proceeding instituted by the applicant against the Exchange or any of its officers, directors, committee Members, employees, or agents, to pay the Exchange or any of its officers, directors, committee Members, employees, or agents, all reasonable expenses, including attorneys' fees, incurred by the Exchange in the defense of such proceeding, but only in the event that such expenses exceed Fifty Thousand Dollars (\$50,000.00); provided, however, that such payment obligation shall not apply to internal disciplinary actions by the Exchange or administrative appeals.
 - (5) An agreement to maintain and make available to the Exchange, its authorized employees and its Board or Board committee Members such books and records as may be required to be maintained by the Commission or IEX Rules.
 - (6) Such other reasonable information with respect to the applicant as the Exchange may require.
- (b) Applications for association with a Member shall be made on Form U4 and such other forms as the Exchange may prescribe, and shall be delivered to the Exchange in such manner as designated by the Exchange.
- (c) If the Exchange is satisfied that the applicant is qualified for membership pursuant to the provisions of this Chapter, the Exchange shall promptly notify, in writing, the applicant of such determination, and the applicant shall be a Member.
- (d) If the Exchange is not satisfied that the applicant is qualified for membership pursuant to the provisions of this Chapter, the Exchange shall promptly notify the applicant of the grounds for denying the applicant. The Board on its own motion may reverse the determination that the applicant is not qualified for membership. If a majority of the Board specifically determines to reverse the determination to deny membership, the Board shall promptly notify Exchange staff, who shall promptly notify the applicant of the Board's decision and shall grant membership to the applicant. An applicant who has been denied membership may appeal such decision under IEX Rule Series 9.500, which govern adverse action.
- (e) In considering applications for membership, the Exchange shall adhere to the following procedures:
- (1) Where an application is granted, the Exchange shall promptly notify the applicant.
 - (2) The applicant shall be afforded an opportunity to be heard on the denial of membership pursuant to IEX Rules Series 9.500, which govern adverse action.
- (f) Except where, pursuant to Section 17(d) of the Act, the Exchange has been relieved of its responsibility to review and act upon applications for associated persons of a Member, the procedure set forth in this Chapter shall govern the processing of any such applications.
- (g) Each applicant shall file with the Exchange a list and descriptive identification of those persons associated with the applicant who are its executive officers, directors, principal shareholders, and general partners. Such persons shall file with the Exchange a Uniform Application for Securities Industry Registration or Transfer ("Form U4"). Applicants approved as Members of the Exchange must keep such information current with the Exchange.

Rule 2.180. Revocation of Membership or Association with a Member

Members or associated persons of Members may effect approved securities transactions on the Exchange's trading facilities only so long as they possess all the qualifications set forth in IEX Rules. Except where, pursuant to Section 17(d)

of the Act, the Exchange has been relieved of its responsibility to monitor the continued qualifications of a Member or an associated person of a Member, when the Exchange has reason to believe that a Member or associated person of a Member fails to meet such qualifications, the Exchange may act to revoke such Member or associated person of a Member's membership or association with the Exchange. Such action shall be instituted under, and governed by, Chapter 8 of IEX Rules and may be appealed under IEX Rules Series 9.500, which govern adverse action. In connection with any revocation of rights as a Member or voluntary termination of rights as a Member pursuant to IEX Rule 2.190 below, the Member's membership in the Exchange shall be canceled.

Rule 2.190. Voluntary Termination of Rights as a Member

A Member may voluntarily terminate its rights as a Member only by a written resignation addressed to the Exchange's Secretary or another officer designated by the Exchange. Such resignation shall not take effect until 30 days after all of the following conditions have been satisfied: (i) receipt of such written resignation; (ii) all indebtedness due the Exchange shall have been paid in full; (iii) any Exchange investigation or disciplinary action brought against the Member has reached a final disposition; and (iv) any examination by the Exchange of such Member is completed and all exceptions noted have been reasonably resolved; provided, however, that the Board may declare a resignation effective at any earlier time.

Rule 2.200. Dues, Assessments and Other Charges

The Exchange may prescribe such reasonable assessments, dues, or other charges as it may, in its discretion, deem appropriate. Such assessments and charges shall be equitably allocated among Members, issuers, and other entities or persons using the Exchange's facilities.

Rule 2.210. No Affiliation between Exchange and any Member

(a) Without the prior approval of the Commission, the Exchange or any entity with which it is affiliated shall not, directly or indirectly, acquire, or maintain an ownership interest in a Member. In addition, without the prior approval of the Commission, a Member shall not be or become an affiliate of the Exchange, or an affiliate of any affiliate of the Exchange. The term affiliate shall have the meaning specified in Rule 12b-2 under the Act. Nothing in this IEX Rule 2.210 shall prohibit a Member or its affiliate from acquiring or holding an equity interest in IEX Group, Inc. that is permitted by the ownership and voting limitations contained in the Certificate of Incorporation and Bylaws of IEX Group, Inc. In addition, nothing in this IEX Rule 2.210 shall prohibit a Member from being or becoming an affiliate of the Exchange, or an affiliate of any affiliate of the Exchange, solely by reason of such Member or any officer, director, manager, managing member, partner, or affiliate of such Member being or becoming either (a) a Director (as such term is defined in the Operating Agreement of the Exchange) pursuant to the Operating Agreement of the Exchange, or (b) a Director serving on the Board of Directors of IEX Group, Inc.

Rule 2.220. IEX Services LLC as Outbound Router

(a) All outbound routing by the System shall be performed by the Exchange's affiliated broker-dealer, IEX Services LLC ("IEX Services"), which, in turn, shall route orders directly to other securities exchanges, facilities of securities exchanges, automated trading systems, electronic communications networks, or other brokers or dealers (collectively, "away trading centers") as directed by the Exchange. The Exchange will determine the logic that provides when, how, and where orders are routed ("System routing logic") and IEX Services will receive routing instructions from the Exchange, to route orders to away trading centers and report such executions back to the Exchange ("System routing instructions"). For so long as IEX Services is affiliated with the Exchange and is providing outbound routing of orders

from the Exchange to away trading centers (such function of IEX Services is referred to as the “Outbound Router”), each of the Exchange and IEX Services shall undertake as follows:

- (1) The Exchange will regulate the Outbound Router function of IEX Services as a facility (as defined in Section 3(a)(2) of the Act), subject to Section 6 of the Act. In particular, and without limitation, under the Act, the Exchange will be responsible for filing with the Commission rule changes and fees relating to the IEX Services Outbound Router function and IEX Services will be subject to exchange non-discrimination requirements.
- (2) FINRA will carry out oversight and enforcement responsibilities as the examining authority designated by the Commission pursuant to Rule 17d-1 of the Act with the responsibility for examining IEX Services for compliance with applicable financial responsibility rules.
- (3) A Member’s use of IEX Services to route orders to an away trading center will be optional. Any Member that does not want to use IEX Services may use other routers to route orders to away trading centers.
- (4) IEX Services will not engage in any business other than (a) its Outbound Router function, (b) its usage of an error account in compliance with paragraph (a)(8) below, and (c) any other activities it may engage in as approved by the Commission.
- (5) The Exchange shall establish and maintain procedures and internal controls reasonably designed to adequately restrict the flow of confidential and proprietary information between the Exchange and its facilities (including IEX Services), and any other entity, including any affiliate of IEX Services, and, if IEX Services or any of its affiliates engages in any other business activities other than providing routing services to the Exchange, between the segment of IEX Services or its affiliate that provides the other business activities and the routing services.
- (6) The Exchange or IEX Services may cancel orders as either deems to be necessary to maintain fair and orderly markets if a technical or systems issue occurs at the Exchange, IEX Services, or a routing destination. The Exchange or IEX Services shall provide notice of the cancellation to affected Members as soon as practicable.
- (7) IEX Services currently routes to the following away trading centers:

Bats BZX Exchange	(BATS)
Bats BYX Exchange	(BATY)
Chicago Stock Exchange	(XCHI)
EDGA Exchange	(EDGA)
EDGX Exchange	(EDGX)
NASDAQ Stock Exchange	(XNGS)
NASDAQ BX	(XBOS)
NASDAQ PSX	(XPHL)
National Stock Exchange	(XCIS)
New York Stock Exchange	(XNYS)
NYSE Arca	(ARCX)
NYSE MKT	(XASE)

- (8) IEX Services shall maintain an error account for the purpose of addressing positions that are the result of an execution or executions that are not clearly erroneous under IEX Rule 11.270 and result from a technical or systems issue at IEX Services, the Exchange, a routing destination, or a non-affiliate third-party routing broker that affects one or more orders (“Error Positions”).
- (A) For purposes of this IEX Rule 2.220(a)(8), an Error Position shall not include any position that results from an order submitted by a Member to the Exchange that is executed on the Exchange and automatically processed for clearance and settlement on a locked-in basis.
 - (B) Except as provided in IEX Rule 2.220(a)(8)(C), IEX Services shall not (i) accept any positions in its error account from an account of a Member or (ii) permit any Member to transfer any positions from the Member’s account to IEX Services’ error account.
 - (C) If a technical or systems issue results in the Exchange not having valid clearing instructions for a Member to a trade, IEX Services may assume that Member’s side of the trade so that the trade can be automatically processed for clearance and settlement on a locked-in basis.
 - (D) In connection with a particular technical or systems issue, IEX Services or the Exchange shall either (1) assign all resulting Error Positions to Members in accordance with subparagraph (i) below, or (2) have all resulting Error Positions liquidated in accordance with subparagraph (ii) below. Any determination to assign or liquidate Error Positions, as well as any resulting assignments, shall be made in a non-discriminatory fashion.
 - (i) IEX Services or the Exchange shall assign all Error Positions resulting from a particular technical or systems issue to the Members affected by that technical or systems issue if IEX Services or the Exchange:
 - (a) Determines that it has accurate and sufficient information (including valid clearing information) to assign the positions to all of the Members affected by that technical or systems issue;
 - (b) Determines that it has sufficient time pursuant to normal clearance and settlement deadlines to evaluate the information necessary to assign the positions to all of the Members affected by that technical or systems issue; and
 - (c) Has not determined to cancel all orders affected by that technical or systems issue in accordance with paragraph (a)(6) above.
 - (ii) If IEX Services or the Exchange is unable to assign all Error Positions resulting from a particular technical or systems issue to all of the affected Members in accordance with this subparagraph (D), or if IEX Services or the Exchange determines to cancel all orders affected by the technical or systems issue in accordance with paragraph (a)(6) above, then IEX Services shall liquidate any applicable Error Positions as soon as practicable. In liquidating such Error Positions, IEX Services shall:
 - (a) Provide complete time and price discretion for the trading to liquidate the Error Positions to a third-party broker-dealer and shall not attempt to exercise any influence or control over the timing or methods of such trading; and
 - (b) Establish and enforce policies and procedures that are reasonably designed to restrict the flow of confidential and proprietary information between the third-party broker-dealer and IEX Services/the Exchange associated with the liquidation of the Error Positions.

(E) IEX Services and the Exchange shall make and keep records to document all determinations to treat positions as Error Positions and all determinations for the assignment of Error Positions to Members or the liquidation of Error Positions, as well as records associated with the liquidation of Error Positions through the third-party broker-dealer.

(b) The books, records, premises, officers, agents, directors, and employees of IEX Services as a facility of the Exchange shall be deemed to be the books, records, premises, officers, agents, directors, and employees of the Exchange for purposes of, and subject to oversight pursuant to, the Act. The books and records of IEX Services as a facility of the Exchange shall be subject at all times to inspection and copying by the Exchange and the Commission. Nothing in these Rules shall preclude officers, agents, directors, or employees of the Exchange from also serving as officers, agents, directors, and employees of IEX Services.

Rule 2.230. Reserved.

Rule 2.240. Fidelity Bonds

(a) Each Member required to join the Securities Investor Protection Corporation who has employees and who is a Member in good standing of another self-regulatory organization shall follow the applicable fidelity bond rule of the self-regulatory organization to which it is designated by the Commission for financial responsibility pursuant to Section 17 of the Act and SEC Rule 17d-1 thereunder.

(b) A Member designated to the Exchange for oversight pursuant to SEC Rule 17d-1 shall comply with FINRA Rule 4360 as if such Rule were part of the Exchange's Rules.

(c) For purposes of this IEX Rule 2.240, references to a "member" shall be construed as references to a "Member."

(d) Pursuant to IEX Rule Series 9.600 of the IEX Rules, any Member subject to paragraph (d) of FINRA Rule 4360, through the application of paragraph (b) above, may apply to the Exchange for an exemption from such requirements. The exemption may be granted upon a showing of good cause, including a substantial change in the circumstances or nature of the Member's business that results in a lower net capital requirement. The Exchange may issue an exemption subject to any condition or limitation upon a Member's bonding coverage that is deemed necessary to protect the public and serve the purposes of this IEX Rule.

Rule 2.250. Mandatory Participation in Testing of Backup Systems

(a) Pursuant to Regulation SCI and with respect to the Exchange's business continuity and disaster recovery plans, including its backup systems, the Exchange is required to establish standards for the designation of Members that the Exchange reasonably determines are, taken as a whole, the minimum necessary for the maintenance of fair and orderly markets in the event of the activation of such plans. The Exchange has established standards and will designate Members according to those standards as set forth below. All Members are permitted to connect to the Exchange's backup systems, pursuant to IEX Rule 11.510, and to participate in testing of such systems.

(b) Members that have been determined by the Exchange to contribute a meaningful percentage of the Exchange's overall volume are required to connect to the Exchange's backup systems and participate in functional and performance testing as announced by the Exchange, which shall occur at least once every 12 months.

(c) For purposes of identifying Members that account for a meaningful percentage of the Exchange's overall volume, the Exchange will measure volume executed on the Exchange on a quarterly basis. The percentage of volume that the Exchange considers to be meaningful for purposes of this IEX Rule 2.250 will be determined by the Exchange and will

be published in a circular distributed to Members. The Exchange will also individually notify all Members quarterly that are subject to paragraph (b) of this IEX Rule 2.250 based on the prior calendar quarter's volume. If a Member has not previously been subject to the requirements of paragraph (b) of this IEX Rule 2.250, such Member will have until the next calendar quarter before such requirements are applicable.

Practices that do not represent fair dealing include, but are not limited to, the following:

This prohibition has particular application to high pressure telephonic sales campaigns;

Rule 3.210. Publication of Transactions and Quotations

No Member shall publish or circulate, or cause to be published or circulated, any notice, circular, advertisement, newspaper article, investment service, or communication of any kind which purports to report any transaction as a purchase or sale of any security unless such Member believes that such transaction was a bona fide purchase or sale of such security; or which purports to quote the bid price or asked price for any security, unless such Member believes that such quotation represents a bona fide bid for, or offer of, such security.

Rule 3.220. Offers at Stated Prices

No Member shall make an offer to buy from or sell to any person any security at a stated price unless such Member is prepared to purchase or sell, as the case may be, at such price and under such conditions as are stated at the time of such offer to buy or sell.

Rule 3.230. Payments Involving Publications that Influence the Market Price of a Security

- (a) Except as provided in paragraph (b), no Member shall directly or indirectly, give, permit to be given, or offer to give anything of value to any person, or intimidate any person for the purpose of influencing or rewarding the action of such person in connection with the publication or circulation in any electronic or other public media, including any investment service or similar publication, Web site, newspaper, magazine or other periodical, radio, or television program of any matter which has, or is intended to have, an effect upon the market price of any security;
- (b) The prohibitions in paragraph (a) shall not apply to compensation paid to a person in connection with the publication or circulation of:
 - (1) a communication that is clearly distinguishable as paid advertising;
 - (2) a communication that discloses the receipt of compensation and the amount thereof in accordance with Section 17(b) of the Securities Act; or
 - (3) a research report, as that term is defined in NASD Rule 2711.

FINRA is in the process of consolidating certain NASD rules into a new FINRA rulebook. If the provisions of NASD Rule 2711 are transferred into the FINRA rulebook, then IEX Rule 3.230 shall be construed to require Exchange members to comply with the FINRA rule corresponding to NASD Rule 2711 (regardless of whether such rule is renumbered or amended) as if such rule were part of the Exchange's Rules.

Rule 3.240. Customer Confirmations

A Member, at or before the completion of each transaction with a customer, shall give or send to such customer such written notification or confirmation of the transaction as is required by Commission Rule 10b-10.

Rule 3.260. Discretionary Accounts

(a) Excessive Transactions

No Member shall effect with or for any customer's account in respect to which such Member or its agent or employee is vested with any discretionary power any transactions of purchase or sale which are excessive in size or frequency in view of the financial resources and character of such account.

(b) Authorization and Acceptance of Account

(c) Approval and Review of Transactions

The Member or the person duly designated shall approve promptly in writing each discretionary order entered and shall review all discretionary accounts at frequent intervals in order to detect and prevent transactions which are excessive in size or frequency in view of the financial resources and character of the account.

(d) Exceptions

This IEX Rule shall not apply to discretion as to the price at which or the time when an order given by a customer for the purchase or sale of a definite amount of a specified security shall be executed, except that the authority to exercise time and price discretion will be considered to be in effect only until the end of the business day on which the customer granted such discretion, absent a specific, written contrary indication signed and dated by the customer. This limitation shall not apply to time and price discretion exercised in an institutional account, as defined in IEX Rule 5.110 pursuant to valid Good-Till-Canceled instructions issued on a "not-held" basis. Any exercise of time and price discretion must be reflected on the order ticket.

- (ii) such Member or person associated with a Member obtains prior written authorization from the customer; and

- (iii) such Member or person associated with a Member shares in the profits or losses in any account of such customer only in direct proportion to the financial contributions made to such account by either the Member or person associated with a Member.
 - (B) Exempt from the direct proportionate share limitation of paragraph (c)(1)(A)(iii) are accounts of the immediate family of such Member or person associated with a Member. For purposes of this IEX Rule, the term "immediate family" shall include parents, mother-in-law or father-in-law, husband or wife, children, or any relative to whose support the Member or person associated with a Member otherwise contributes directly or indirectly.
- (2) Notwithstanding the prohibition of paragraph (c)(1), a Member or person associated with a Member that is acting as an investment adviser may receive compensation based on a share in profits or gains in an account if:
- (A) such person associated with a Member seeking such compensation obtains prior written authorization from the Member employing the associated person;
 - (B) such Member or person associated with a Member seeking such compensation obtains prior written authorization from the customer; and

Therefore, Exchange Members are complying with this IEX Rule 3.280 by complying with FINRA Rule 2210 as written. In addition, functions performed by FINRA, FINRA departments, and FINRA staff under this IEX Rule 3.280 are being performed by FINRA on the Exchange's behalf.

Rule 3.290. Customer Disclosures

No member may accept an order from a customer for execution in the Pre-Market Session or Post-Market Session without disclosing to such customer that extended hours trading involves material trading risks, including the possibility of lower liquidity, high volatility, changing prices, unlinked markets, an exaggerated effect from news announcements, wider spreads, and any other relevant risk. The absence of an updated underlying index value or intraday indicative value is an additional trading risk in extended hours for Derivative Securities Products.

The disclosures required pursuant to this IEX Rule may take the following form or such other form as provides substantially similar information:

- (a) Risk of Lower Liquidity. Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.
- (b) Risk of Higher Volatility. Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading

than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

- (c) Risk of Changing Prices. The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening of the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.
- (d) Risk of Unlinked Markets. Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.
- (e) Risk of News Announcements. Normally, issuers make news announcements that may affect the price of their securities after regular market hours. Similarly, important financial information is frequently announced outside of regular market hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.
- (f) Risk of Wider Spreads. The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.
- (g) Risk of Lack of Calculation or Dissemination of Underlying Index Value or Intraday Indicative Value ("IIV"). For certain Derivative Securities Products, an updated underlying index value or IIV may not be calculated or publicly disseminated in extended system hours. Since the underlying index value and IIV are not calculated or widely disseminated during the Pre-Market Session and Post-Market Session an investor who is unable to calculate implied values for certain Derivative Securities Products in those sessions may be at a disadvantage to market professionals.

Rule 3.291. Influencing or Rewarding Employees of Others; Gratuities

- (a) No Member or person associated with a Member shall, directly or indirectly, give or permit to be given anything of value, including gratuities, in excess of one hundred dollars per individual per year to any person, principal, proprietor, employee, agent, or representative of another person where such payment or gratuity is in relation to the business of the employer of the recipient of the payment or gratuity. A gift of any kind is considered a gratuity.
- (b) This IEX Rule shall not apply to contracts of employment with or to compensation for services rendered by persons enumerated in paragraph (a) provided that there is in existence prior to the time of employment or before the services are rendered, a written agreement between the Member and the person who is to be employed to perform such services. Such agreement shall include the nature of the proposed employment, the amount of the proposed compensation, and the written consent of such person's employer or principal.
- (c) A separate record of all payments or gratuities in any amount known to the Member, the employment agreement referred to in paragraph (b) and any employment compensation paid as a result thereof shall be retained by the Member for the period specified by Rule 17a-4 of the Act.

(B) Each Member shall inspect at least every three years every branch office that does not supervise one or more non-branch locations. In establishing how often to inspect each non-supervisory branch office, the Member shall consider whether the nature and complexity of the securities activities for which the location is responsible, the volume of business done at the location, and the number of associated persons assigned to the location require the non-supervisory branch office to be inspected more frequently than every three years. If a Member establishes a more frequent inspection cycle, the Member must ensure that at least every three years, the inspection requirements enumerated in paragraph (c)(2) have been met. The Member's written supervisory and inspection procedures shall set forth the non-supervisory branch office examination cycle, an explanation of the factors the Member used in determining the frequency of the examinations in the cycle, and the manner in which a Member will comply with paragraph (c)(2) if using more frequent inspections than every three years.

(C) Each Member shall inspect on a regular periodic schedule every non-branch location. In establishing such schedule, the Member shall consider the nature and complexity of the securities activities for which the location is responsible and the nature and extent of contact with customers. The Member's written supervisory and inspection procedures shall set forth the schedule and an explanation regarding how the Member determined the frequency of the examination.

- (2) An inspection and review by a Member pursuant to paragraph (c)(1) must be reduced to a written report and kept on file by the Member for a minimum of three years, unless the inspection is being conducted pursuant to paragraph (c)(1)(C) and the regular periodic schedule is longer than a three-year cycle, in which case the report must be kept on file at least until the next inspection report has been written.
- (A) If applicable to the location being inspected, that location's written inspection report must include, without limitation, the testing and verification of the Member's policies and procedures, including supervisory policies and procedures in the following areas:
- (i) safeguarding of customer funds and securities;
 - (ii) maintaining books and records;

 - (v) changes of customer account information, including address and investment objectives changes and validation of such changes.
- (B) The policies and procedures required by paragraph (c)(2)(A)(iv) must include a means or method of customer confirmation, notification, or follow-up that can be documented. Members may use reasonable risk-based criteria to determine the authenticity of the transmittal instructions.
- (C) The policies and procedures required by paragraph (c)(2)(A)(v) must include, for each change processed, a means or method of customer confirmation, notification, or follow-up that can be documented and that complies with Rules 17a-3(a)(17)(i)(B)(2) and 17a-3(a)(17)(i)(B)(3) of the Act.
- (D) If a Member does not engage in all of the activities enumerated in paragraphs (c)(2)(A)(i) through (v) at the location being inspected, the Member must identify those activities in the Member's written supervisory procedures or the location's written inspection report and document in the Member's written supervisory procedures or the location's written inspection report that supervisory policies and procedures for such activities must be in place at that location before the Member can engage in them.
- (3) For each inspection conducted pursuant to paragraph (c), a Member must:
- (A) have procedures reasonably designed to prevent the effectiveness of the inspections required pursuant to paragraph (c)(1) of this IEX Rule 5.110 from being compromised due to the conflicts of interest that may be present with respect to the location being inspected, including but not limited to, economic, commercial, or financial interests in the associated persons and businesses being inspected; and
 - (B) ensure that the person conducting an inspection pursuant to paragraph (c)(1) is not an associated person assigned to the location or is not directly or indirectly supervised by, or otherwise reporting to, an associated person assigned to the location.
 - (C) If a Member determines that compliance with paragraph (c)(3)(B) is not possible either because of a Member's size or its business model, the Member must document in the inspection report both the factors

the Member used to make its determination and how the inspection otherwise complies with paragraph (c)(1).

(d) Transaction Review and Investigation

- (1) Each Member shall include in its supervisory procedures a process for the review of securities transactions that are reasonably designed to identify trades that may violate the provisions of the Exchange Act, the rules thereunder, or IEX Rules prohibiting insider trading and manipulative and deceptive device that are effected for the:

 - (B) within five business days of completion of an internal investigation pursuant to paragraph (d)(2) in which it was determined that a violation of the provisions of the Exchange Act, the rules thereunder, or IEX Rules prohibiting insider trading and manipulative and deceptive devices had occurred, a written report detailing the completion of the investigation, including the results of the investigation, any internal disciplinary action taken, and any referral of the matter to another self-regulatory organization, the SEC, or any other federal, state, or international regulatory authority.

 - (A) The term "covered account" shall include any account introduced or carried by the Member that is held by:
 - (i) the spouse of a person associated with the Member;
 - (ii) a child of the person associated with the Member or such person's spouse, provided that the child resides in the same household as or is financially dependent upon the person associated with the Member;

(iii) any other related individual over whose account the person associated with the Member has control; or

(iv) any other individual over whose account the associated person of the Member has control and to whose financial support such person materially contributes.

(e) Responsibility of Member to Investigate Applicants for Registration

Each member shall ascertain by investigation the good character, business reputation, qualifications and experience of an applicant before the member applies to register that applicant with IEX and before making a representation to that effect on the application for registration.

If the applicant previously has been registered with IEX or another self-regulatory organization, the member shall review a copy of the applicant's most recent Form U5, including any amendments thereto, within 60 days of the filing date of an application for registration, or demonstrate to IEX that it has made reasonable efforts to do so. In conducting its review of the Form U5, the member shall take such action as may be deemed appropriate.

The member shall also review an applicant's employment experience to determine if the applicant has been recently employed by a Futures Commission Merchant or an Introducing Broker that is notice-registered with the SEC pursuant to Section 15(b)(11) of the Exchange Act. In such a case, the member shall also review a copy of the applicant's most recent CFTC Form 8-T, including any amendments thereto, within 60 days of the filing date of an application for registration, or demonstrate to IEX that it has made reasonable efforts to do so. In conducting its review of a Form 8-T, the member shall take such action as may be deemed appropriate.

In addition, each member shall establish and implement written procedures reasonably designed to verify the accuracy and completeness of the information contained in an applicant's Form U4 no later than 30 calendar days after the form is filed with IEX. Such procedures shall, at a minimum, provide for a search of reasonably available public records to be conducted by the member, or a third-party service provider, to verify the accuracy and completeness of the information contained in the applicant's Form U4.

.01 Registration of Main Office.

A Member's main office location is required to be registered and designated as a branch office or OSJ if it meets the definitions of a "branch office" or "office of supervisory jurisdiction" as set forth in IEX Rule 5.110(f). In general, the nature of activities conducted at a main office will satisfy the requirements of such terms.

.02 Designation of Additional OSJs.

In addition to the locations that meet the definition of OSJ in IEX Rule 5.110(f), each Member shall also register and designate other offices as OSJs as is necessary to supervise its associated persons in accordance with the standards set forth in IEX Rule 5.110. In making a determination as to whether to designate a location as an OSJ, the Member should consider the following factors:

- (a) whether registered persons at the location engage in retail sales or other activities involving regular contact with public customers;*
- (b) whether a substantial number of registered persons conduct securities activities at, or are otherwise supervised from, such location;*
- (c) whether the location is geographically distant from another OSJ of the firm;*
- (d) whether the Member's registered persons are geographically dispersed; and*
- (e) whether the securities activities at such location are diverse or complex.*

.03 Supervision of Multiple OSJs by a Single Principal.

Rule IEX 5.110 (a)(4) requires a Member to designate one or more appropriately registered principals in each OSJ with the authority to carry out the supervisory responsibilities assigned to that office ("on-site principal"). The designated on-site principal for each OSJ must have a physical presence, on a regular and routine basis, at each OSJ for which the principal has supervisory responsibilities. Consequently, there is a general presumption that a principal will not be designated and assigned to be the on-site principal pursuant to IEX Rule 5.110(a)(4) to supervise more than one OSJ. If a Member determines it is necessary to designate and assign one appropriately registered principal to be the on-site principal pursuant to IEX Rule 5.110(a)(4) to supervise two or more OSJs, the Member must take into consideration, among others, the following factors:

- (a) whether the on-site principal is qualified by virtue of experience and training to supervise the activities and associated persons in each location;*
- (b) whether the on-site principal has the capacity and time to supervise the activities and associated persons in each location;*
- (c) whether the on-site principal is a producing registered representative;*
- (d) whether the OSJ locations are in sufficiently close proximity to ensure that the on-site principal is physically present at each location on a regular and routine basis; and*
- (e) the nature of activities at each location, including size and number of associated persons, scope of business activities, nature and complexity of products and services offered, volume of business done, the disciplinary history of persons assigned to such locations, and any other indicators of irregularities or misconduct.*

The Member must establish, maintain, and enforce written supervisory procedures regarding the supervision of all OSJs. In all cases where a Member designates and assigns one on-site principal to supervise more than one OSJ, the Member must document in the Member's written supervisory and inspection procedures the factors used to determine why the Member considers such supervisory structure to be reasonable and the determination by the Member will be subject to scrutiny.

.04 Annual Compliance Meeting.

A Member is not required to conduct in-person meetings with each registered person or group of registered persons to comply with the annual compliance meeting (or interview) required by IEX Rule 5.110(a)(7). A Member that chooses to conduct compliance meetings using other methods (e.g., on-demand webcast or course, video conference, interactive classroom setting, telephone, or other electronic means) must ensure, at a minimum, that each registered person attends the entire meeting (e.g., an on-demand annual compliance webcast would require each registered person to use a unique user ID and password to gain access and use a technology platform to track the time spent on the webcast, provide click-as-you go confirmation, and have an attestation of completion at the end of a webcast) and is able to ask questions regarding the presentation and receive answers in a timely fashion (e.g., an on-demand annual compliance webcast that allows registered persons to ask questions via an email to a presenter or a centralized address or via a telephone hotline and receive timely responses directly or view such responses on the Member's intranet site).

.05 Risk-based Review of Member's Investment Banking and Securities Business.

A Member may use a risk-based review system to comply with Rule 5.110(b)(2)'s requirement that a registered principal review, all transactions relating to the investment banking or securities business of the Member. A Member is not required to conduct detailed reviews of each transaction if a Member is using a reasonably designed risk-based review system that provides a Member with sufficient information that permits the Member to focus on the areas that pose the greatest numbers and risks of violation.

.06 Risk-based Review of Correspondence and Internal Communications.

By employing risk-based principles, a Member must decide the extent to which additional policies and procedures for the review of:

(a) incoming and outgoing written (including electronic) correspondence that fall outside of the subject matters listed in IEX Rule 5.110(b)(4) are necessary for its business and structure. If a Member's procedures do not require that all correspondence be reviewed before use or distribution, the procedures must provide for:

- (1) the education and training of associated persons regarding the firm's procedures governing correspondence;*
- (2) the documentation of such education and training; and*
- (3) surveillance and follow-up to ensure that such procedures are implemented and followed.*

(b) internal communications that are not of a subject matter that require review under IEX Rules and federal securities laws are necessary for its business and structure.

.07 Evidence of Review of Correspondence and Internal Communications.

The evidence of review required in IEX Rule 5.110(b) must be chronicled either electronically or on paper and must clearly identify the reviewer, the internal communication or correspondence that was reviewed, the date of review, and the actions taken by the Member as a result of any significant regulatory issues identified during the review. Merely opening a communication is not sufficient review.

.08 Delegation of Correspondence and Internal Communication Review Functions.

In the course of the supervision and review of correspondence and internal communications required by IEX Rule 5.110(b)(4), a supervisor/principal may delegate certain functions to persons who need not be registered. However, the supervisor/principal remains ultimately responsible for the performance of all necessary supervisory reviews, irrespective of whether he or she delegates functions related to the review. Accordingly, supervisors/principals must take reasonable and appropriate action to ensure delegated functions are properly executed and should evidence performance of their procedures sufficiently to demonstrate overall supervisory control.

.09 Retention of Correspondence and Internal Communications.

Each Member shall retain the internal communications and correspondence of associated persons relating to the Member's investment banking or securities business for the period of time and accessibility specified in SEA Rule 17a-4(b). The names of the persons who prepared outgoing correspondence and who reviewed the correspondence shall be ascertainable from the retained records, and the retained records shall be readily available to IEX, upon request.

.10 Supervision of Supervisory Personnel.

A Member's determination that it is not possible to comply with paragraphs (b)(6)(C)(i) or (b)(6)(C)(ii) of IEX Rule 5.110 prohibiting supervisory personnel from supervising their own activities and from reporting to, or otherwise having compensation or continued employment determined by, a person or persons they are supervising generally will arise in instances where:

- (a) the Member is a sole proprietor in a single-person firm;*
- (b) a registered person is the Member's most senior executive officer (or similar position); or*
- (c) a registered person is one of several of the Member's most senior executive officers (or similar positions).*

.11 Use of Electronic Media to Communicate Written Supervisory Procedures.

A Member may use electronic media to satisfy its obligation to communicate its written supervisory procedures, and any amendment thereto, pursuant to IEX Rule 5.110(b)(7), provided that: (1) the written supervisory procedures have been promptly communicated to, and are readily accessible by, all associated persons to whom such supervisory procedures apply based on their activities and responsibilities through, for example, the Member's intranet system; (2) all amendments to the written supervisory procedures are promptly posted to the Member's electronic media; (3) associated persons are notified that amendments relevant to their activities and responsibilities have been made to the written supervisory procedures; (4) the Member has reasonable procedures to monitor and maintain the security of the material posted to ensure that it cannot be altered by unauthorized persons; and (5) the Member retains current and prior versions of its written supervisory procedures in compliance with the applicable record retention requirements of SEA Rule 17a-4(e)(7).

.12 Standards for Reasonable Review.

In fulfilling its obligations under IEX Rule 5.110(c), each Member must conduct a review, at least annually, of the businesses in which it engages. The review must be reasonably designed to assist in detecting and preventing violations of and achieving compliance with applicable securities laws and regulations and with IEX rules. Each Member shall establish and maintain supervisory procedures that must take into consideration, among other things, the firm's size, organizational structure, scope of business activities, number and location of the firm's offices, the nature and complexity of the products and services offered by the firm, the volume of business done, the number of associated persons assigned to a location, the disciplinary history of registered representatives or associated persons, and any indicators of irregularities or misconduct (i.e., "red flags"), etc. The procedures established and reviews conducted must provide that the quality of supervision at remote locations is sufficient to ensure compliance with applicable securities laws and regulations and with IEX rules. A Member must be especially diligent in establishing procedures and conducting reasonable reviews with respect to a non-branch location where a registered representative engages in securities activities. Based on the factors outlined above, Members may need to impose reasonably designed supervisory procedures for certain locations or may need to provide for more frequent reviews of certain locations.

.13 General Presumption of Three-Year Limit for Periodic Inspection Schedules.

IEX Rule 5.110(c)(1)(C) requires a Member to inspect on a regular periodic schedule every non-branch location. In establishing a non-branch location inspection schedule, there is a general presumption that a non-branch location will be inspected at least every three years, even in the absence of any indicators of irregularities or misconduct (i.e., "red flags"). If a Member establishes a longer periodic inspection schedule, the Member must document in its written supervisory and inspection procedures the factors used in determining that a longer periodic inspection cycle is appropriate.

.14 Exception to Persons Prohibited from Conducting Inspections.

A Member's determination that it is not possible to comply with IEX Rule 5.110(c)(3)(B) with respect to who is not allowed to conduct a location's inspection will generally arise in instances where:

- (a) the Member has only one office; or*
- (b) the Member has a business model where small or single-person offices report directly to an OSJ manager who is also considered the offices' branch office manager.*

** Where such office of convenience is located on bank premises, signage necessary to comply with applicable federal and state laws, rules and regulations and applicable rules and regulations of other self-regulatory organizations, and securities and banking regulators may be displayed and shall not be deemed "holding out" for purposes of this section.*

Rule 5.120. Supervisory Control System

(a) Each Member shall designate and specifically identify to IEX one or more principals who shall establish, maintain, and enforce a system of supervisory control policies and procedures that:

- (1) test and verify that the Member's supervisory procedures are reasonably designed with respect to the activities of the Member and its associated persons, to achieve compliance with applicable securities laws and regulations, and with applicable IEX Rules; and
- (2) create additional or amend supervisory procedures where the need is identified by such testing and verification. The designated principal or principals must submit to the Member's senior management no less than annually, a report detailing each Member's system of supervisory controls, the summary of the test results and significant identified exceptions, and any additional or amended supervisory procedures created in response to the test results.

(b) Each report provided to senior management pursuant to paragraph (a) in the calendar year following a calendar year in which a Member reported \$200 million or more in gross revenue must include, to the extent applicable to the Member's business:

- (1) a tabulation of the reports pertaining to customer complaints and internal investigations made to IEX during the preceding year; and
- (2) discussion of the preceding year's compliance efforts, including procedures and educational programs, in each of the following areas:
 - (A) trading and market activities;
 - (B) investment banking activities;
 - (C) antifraud and sales practices;
 - (D) finance and operations;
 - (E) supervision; and
 - (F) anti-money laundering.

(c) For purposes of paragraph (b), "gross revenue" is defined as:

- (1) total revenue as reported on FOCUS Form Part II or IIA (line item 4030) less commodities revenue (line item 3990), if applicable; or

- (2) total revenue as reported on FOCUS Form Part II CSE (line item 4030) less, if applicable, (A) commissions on commodity transactions (line item 3991); and (B) commodities gains or losses (line items 3924 and 3904).

Rule 5.130. Annual Certification of Compliance and Supervisory Processes

- (a) IEX Members and persons associated with a member shall comply with FINRA Rule 3130 as if such Rule were part of IEX's Rules.
- (b) For purposes of this IEX Rule:
 - (1) references to "FINRA Rules" shall be construed as references to "IEX Rules," and
 - (2) references to "MSRB rules" shall be deleted.

Rule 5.140. Reserved.

Rule 5.150. Prevention of the Misuse of Material, Non-Public Information

Each Member must establish, maintain and enforce written procedures reasonably designed, taking into consideration the nature of such Member's business, to prevent the misuse of material, non-public information by such Member or persons associated with such Member. Members for whom the Exchange is the Designated Examining Authority that are required to file SEC form X-17A-5 with the Exchange on an annual or more frequent basis must file contemporaneously with the submission for the calendar year end Insider Trading and Securities Fraud Enforcement Act of 1988 compliance acknowledgements stating that the procedures mandated by this IEX Rule have been established, enforced and maintained. Any Member or associated person of a Member who becomes aware of a possible misuse of material, non-public information must notify the IEX Regulation.

- (a) For purposes of this IEX Rule 5.150, conduct constituting the misuse of material, non-public information includes, but is not limited to, the following:
 - (1) Trading in any securities issued by a corporation, or in any related securities or related options or other derivative securities, while in possession of material, non-public information concerning that issuer; or
 - (2) Trading in a security or related options or other derivative securities, while in possession of material non-public information concerning imminent transactions in the security or related securities; or
 - (3) Disclosing to another person or entity any material, non-public information involving a corporation whose shares are publicly traded or an imminent transaction in an underlying security or related securities for the purpose of facilitating the possible misuse of such material, non-public information.
- (b) This IEX Rule 5.150 provides that, at a minimum, each Member establish, maintain, and enforce the following policies and procedures:
 - (1) All associated persons of the Member must be advised in writing of the prohibition against the misuse of material, non-public information;
 - (2) All associated persons of the Member must sign attestations affirming their awareness of, and agreement to abide by the aforementioned prohibitions. These signed attestations must be maintained for at least three years, the first two years in an easily accessible place;
 - (3) Each Member must receive and retain copies of trade confirmations and monthly account statements for each account in which an associated person has a direct or indirect financial interest or makes investment decisions.

The activity in such brokerage accounts should be reviewed at least quarterly by the Member for the purpose of detecting the possible misuse of material, non-public information;

- (4) All associated persons must disclose to the Member whether they, or any person in whose account they have a direct or indirect financial interest, or make investment decisions, are an officer, director, or 10% shareholder in a company whose shares are publicly traded. Any transaction in the stock (or option thereon) of such company shall be reviewed to determine whether the transaction may have involved a misuse of material non-public information.

Maintenance of the foregoing policies and procedures will not, in all cases, satisfy the requirements and intent of this IEX Rule 5.150; the adequacy of each Member's policies and procedures will depend upon the nature of such Member's business.

Rule 5.160. Anti-Money Laundering Compliance Program

Each Member shall develop and implement a written anti-money laundering program reasonably designed to achieve and monitor the Member's compliance with the requirements of the Bank Secrecy Act (31 U.S.C. 5311, et seq.), and the implementing regulations promulgated thereunder by the Department of the Treasury. Each Member's anti-money laundering program must be approved, in writing, by a Member of senior management. The anti-money laundering programs required by this IEX Rule 5.160 shall, at a minimum:

- (a) Establish and implement policies and procedures that can be reasonably expected to detect and cause the reporting of transactions required under 31 U.S.C. 5318(g) and the implementing regulations thereunder;
- (b) Establish and implement policies, procedures, and internal controls reasonably designed to achieve compliance with the Bank Secrecy Act and the implementing regulations thereunder;
- (c) Provide for annual (on a calendar-year basis) independent testing for compliance to be conducted by Member personnel or by a qualified outside party, unless the Member does not execute transactions for customers or otherwise hold customer accounts or act as an introducing broker with respect to customer accounts (e.g., engages solely in proprietary trading or conducts business only with other broker-dealers), in which case such "independent testing" is required every two years (on a calendar-year basis);
- (d) Designate and identify to IEX (by name, title, mailing address, e-mail address, telephone number, and facsimile number) an individual or individuals responsible for implementing and monitoring the day-to-day operations and internal controls of the program (such individual or individuals must be an associated person of the Member) and provide prompt notification to IEX regarding any change in such designation(s); and
- (e) Provide ongoing training for appropriate personnel.

• • • Supplementary Material • • •

.01 Independent Testing Requirements

- (a) *All members should undertake more frequent testing than required if circumstances warrant.*
- (b) *Independent testing, pursuant to IEX Rule 5.160(c), must be conducted by a designated person with a working knowledge of applicable requirements under the Bank Secrecy Act and its implementing regulations.*
- (c) *Independent testing may not be conducted by:*
 - (1) *a person who performs the functions being tested,*

- (b) For purposes of this IEX Rule, a registered clearing agency shall mean a clearing agency (as defined in the Act) which has agreed to supply the Exchange with data reasonably requested in order to permit the Exchange to enforce compliance by its Members and Member organizations with the provisions of the Act, the rules and regulations thereunder, and the Rules of the Exchange.
- (c) Anything contained in paragraph (a) to the contrary notwithstanding, the Board may extend or postpone the time of the delivery of an Exchange transaction whenever, in its opinion, such action is called for by the public interest, by just and equitable principles of trade or by the need to meet unusual conditions. In the event of a proxy solicitation, such material shall include a signed proxy indicating the number of shares held for such beneficial owner and bearing a symbol identifying the proxy with proxy records maintained by the Member, and a letter informing the beneficial owner (or

the beneficial owner's designated investment adviser) of the time limit and necessity for completing the proxy form and forwarding it to the person soliciting proxies prior to the expiration of the time limit in order for the shares to be represented at the meeting. A Member shall furnish a copy of the symbols to the person soliciting the proxies and shall also retain a copy thereof pursuant to the provisions of Exchange Act Rule 17a-4. This paragraph shall not apply to beneficial owners residing outside of the U.S. though Members may voluntarily comply with the provisions hereof in respect of such persons if they so desire.

- (b) No Member shall give a proxy to vote stock that is registered in its name, unless: (i) such Member is the beneficial owner of such stock; (ii) such proxy is given pursuant to the written instructions of the beneficial owner; or (iii) such proxy is given pursuant to the rules of any national securities exchange or association of which it is a Member provided that the records of the Member clearly indicate the procedure it is following.

- (h) Members that receive such a written designation from a beneficial owner must ensure that the designated investment adviser is registered with the SEC pursuant to the Investment Advisers Act, or with a state as an investment adviser under the laws of such state, and that the investment adviser is exercising investment discretion over the customer's account pursuant to an advisory contract to vote proxies and/or to receive proxy soliciting material, annual reports and other material. Members must keep records substantiating this information.

- (i) Beneficial owners have an unqualified right at any time to rescind designation of the investment adviser to receive materials and to vote proxies. The rescission must be in writing and submitted to the Member.

Rule 6.150. Commissions

Nothing in IEX Rules, the Operating Agreement or the Exchange practices shall be construed to require, authorize or permit any Member, or any person associated with a Member, to agree or arrange, directly or indirectly, for the charging of fixed rates of commission for transactions effected on, or effected by the use of the facilities of, the Exchange.

Any action taken by another self-regulatory organization, or its employees or authorized agents, acting on behalf of the Exchange pursuant to a regulatory services agreement shall be deemed to be an action taken by the Exchange; provided, however, that nothing in this provision shall affect the oversight of such other self-regulatory organization by the Commission. Notwithstanding the fact that the Exchange may enter into one or more regulatory services agreements, the Exchange shall retain ultimate legal responsibility for, and control of, its self-regulatory responsibilities, and any such regulatory services agreement shall so provide.

Rule 6.180. Transactions Involving IEX Employees

- (3) whether any unfair prejudice would be suffered by one or more Parties if the severance is (not) ordered.

If the Chief Hearing Officer proposes to sever a disciplinary proceeding, the Chief Hearing Officer shall serve upon the Parties notice of the proposed severance of disciplinary proceedings pursuant to IEX Rule 9.132. The Parties shall have 14 days after service to file a response, stating any arguments in favor of or opposition to severance.

The Parties shall have 14 days after service to file a response, stating any arguments in favor of or opposition to severance, and shall serve the response upon the Parties in the case proposed to be severed. The Chief Hearing Officer shall issue an order approving or denying the request for severance.

Rule 9.215. Answer to Complaint

(a) Form, Service, Notice

Pursuant to IEX Rule 9.133, each Respondent named in a complaint shall serve an answer to the complaint on all other Parties within 25 days after service of the complaint on such Respondent, and at the time of service shall file such answer with the Office of Hearing Officers pursuant to IEX Rules 9.135, 9.136 and 9.137. Unless otherwise ordered by the Hearing Officer, an answer shall specifically admit, deny, or state that the Respondent does not have and is unable to obtain sufficient information to admit or deny, each allegation in the complaint. When a Respondent intends to deny only part of an allegation, the Respondent shall specify so much of it as is admitted and

deny only the remainder. A statement of lack of information shall be deemed a denial. Any allegation not denied in whole or in part shall be deemed admitted. Any affirmative defense shall be asserted in the answer.

(c) Motion for More Definite Statement

A Respondent may file with an answer a motion for a more definite statement of specified matters of fact or law to be considered or determined. Such motion shall state why each such matter of fact or law should be required to be made more definite. If the motion is granted, the order granting such motion shall set the periods for filing such a statement and any answer thereto.

(d) Amendments to Answer

Upon motion by a Respondent, the Hearing Officer may, after considering good cause shown by the Respondent and any unfair prejudice which may result to any other Party, permit an answer to be amended.

(e) Extension of Time to Answer Amended Complaint

If a complaint is amended pursuant to IEX Rule 9.212(b), the time for filing an answer or amended answer shall be the greater of the original time period within which the Respondent is required to respond, or 14 days after service of the amended complaint. If any Respondent has already filed an answer, such Respondent shall have 14 days after service of the amended complaint, unless otherwise ordered by the Hearing Officer, within which to file an amended answer.

(f) Failure to Answer, Default

If a Respondent does not file an answer or make any other filing or request related to the complaint with the Office of Hearing Officers within the time required, the Department of Enforcement or the Department of Market Regulation shall send a second notice to such Respondent requiring an answer within 14 days after service of the second notice. The second notice shall state that failure of the Respondent to reply within the period specified shall allow the Hearing Officer, in the exercise of his or her discretion, pursuant to IEX Rule 9.269 to: (1) treat as admitted by the Respondent the allegations in the complaint; and (2) issue a default decision against the Respondent. If the Respondent fails to file an answer with the Office of Hearing Officers within the time required, the Hearing Officer may issue a default decision against the Respondent pursuant to IEX Rule 9.269.

- (2) The Department of Enforcement or the Department of Market Regulation shall promptly inform the Hearing Officer and each other Party if, after the issuance of a complaint, requests for information under IEX Rule 8.210 are issued under the same investigative file number under which the investigation leading to the institution of disciplinary proceedings was conducted. If Interested Staff receive Documents pursuant to a request for information under IEX Rule 8.210 after Documents have been made available to a Respondent for inspection and copying as set forth in paragraph (a), and if such Documents are material and relevant to the disciplinary proceeding in which such Respondent is a Party, the additional Documents shall be made available to the Respondent not later than 14 days after the Interested Staff receives such Documents. If a hearing on the merits is scheduled to begin, Interested Staff shall make the additional Documents available to the Respondent not less than ten days before the hearing. If Interested Staff receives such Documents ten or fewer days before a hearing on the merits is scheduled to begin or after such hearing begins, Interested Staff shall make the additional Documents available immediately to the Respondent.
- (3) Nothing in paragraph (a)(1) above shall limit the discretion of the Department of Enforcement or the Department of Market Regulation to make available any other Document or the authority of the Hearing Officer to order the production of any other Document.

(b) Withheld Documents

- (1) The Department of Enforcement or the Department of Market Regulation may withhold a Document if:
 - (A) the Document is privileged or constitutes attorney work product;
 - (B) the Document is an examination or inspection report, an internal memorandum, or other note or writing prepared by a FINRA or IEX employee that shall not be offered in evidence;

- (C) the Document would disclose (i) an examination, investigatory or enforcement technique or guideline of FINRA or IEX, a federal, state, or foreign regulatory authority, or a self-regulatory organization; (ii) the identity of a source, including a federal, state, or foreign regulatory authority or a self-regulatory organization that furnished information or was furnished information on a confidential basis regarding an investigation, an examination, an enforcement proceeding, or any other type of civil or criminal enforcement action; or (iii) an examination, an investigation, an enforcement proceeding, or any other type of civil or criminal enforcement action under consideration by, or initiated by, IEX, a federal, state, or foreign regulatory authority, or a self-regulatory organization; or
 - (D) the Hearing Officer grants leave to withhold a Document or category of Documents as not relevant to the subject matter of the proceeding, or for other good cause shown.
- (2) The Department of Enforcement or the Department of Market Regulation shall withhold a Document if the Document is prohibited from disclosure by federal law.
 - (3) Nothing in paragraph (b)(1) above authorizes the Department of Enforcement or the Department of Market Regulation to withhold a Document, or a part thereof, that contains material exculpatory evidence.

(c) Withheld Document List

The Hearing Officer may require the Department of Enforcement or the Department of Market Regulation to submit to the Hearing Officer a list of Documents withheld pursuant to paragraph (b) or to submit to the Hearing Officer any Document withheld. Upon review, the Hearing Officer may order the Department of Enforcement or the Department of Market Regulation to make the list or any Document withheld available to the other Parties for inspection and copying unless federal law prohibits disclosure of the Document or its existence. A motion to require the Department of Enforcement or the Department of Market Regulation to produce a list of Documents withheld pursuant to paragraph (b) shall be based upon some reason to believe that a Document is being withheld in violation of the Code.

(d) Timing of Inspection and Copying

The Hearing Officer shall determine the schedule of production of documents pursuant to this IEX Rule. Unless otherwise ordered by the Hearing Officer, the Department of Enforcement or the Department of Market Regulation shall commence making Documents available to a Respondent for inspection and copying pursuant to this IEX Rule not later than 21 days after service of the Respondent's answer or, if there are multiple Respondents, not later than 21 days after the last timely answer is filed. If a Respondent in a multi-Respondent case fails to answer, the Department of Enforcement or the Department of Market Regulation shall make Documents available to all other Respondents not later than the later of:

- (1) 21 days after the filing date of the last timely answer, or
- (2) the expiration of the second period provided for filing an answer as set forth in IEX Rule 9.215(f).

(e) Place and Time of Inspection and Copying

Documents subject to inspection and copying pursuant to this IEX Rule 9.251 shall be made available to the Respondent for inspection and copying at the IEX or FINRA office where they are ordinarily maintained, or at such other FINRA office as the Hearing Officer, in his or her discretion, shall designate, or as the Parties otherwise agree. A Respondent shall be given access to the Documents at IEX's or FINRA's offices during normal business hours. A Respondent shall not be given custody of the Documents or be permitted to remove the Documents from IEX's or FINRA's offices.

(f) Copying Costs

A Respondent may obtain a photocopy of all Documents made available for inspection. A Respondent shall be responsible for the cost of photocopying. Unless otherwise ordered, charges for copies made at the request of a Respondent shall be at a rate to be established by IEX.

(g) Failure to Make Documents Available — Harmless Error

In the event that a Document required to be made available to a Respondent pursuant to this IEX Rule is not made available by the Department of Enforcement or the Department of Market Regulation, no rehearing or amended decision of a proceeding already heard or decided shall be required unless the Respondent establishes that the failure to make the Document available was not harmless error. The Hearing Officer, or, upon appeal or review, the IEX Appeals Committee, shall determine whether the failure to make the document available was not harmless error, applying applicable IEX, FINRA, SEC, and federal judicial precedent.

Rule 9.252. Requests for Information

(a) Content and Timing of Requests

A Respondent who requests that IEX invoke IEX Rule 8.210 to compel the production of Documents or testimony at the hearing shall do so in writing and serve copies on all Parties. Such request shall: be submitted to the Hearing Officer no later than 21 days before the scheduled hearing date; describe with specificity the Documents, the category or type of Documents, or the testimony sought; state why the Documents, the category or type of Documents, or the testimony are material; describe the requesting Party's previous efforts to obtain the Documents, the category or type of Documents, or the testimony through other means; and state whether the custodian of each Document, or the custodian of the category or type of Documents, or each proposed witness is subject to IEX's jurisdiction.

(b) Standards for Issuance

A request that IEX compel the production of Documents or testimony shall be granted only upon a showing that: the information sought is relevant, material, and non-cumulative; the requesting Party has previously attempted in good faith to obtain the desired Documents and testimony through other means but has been unsuccessful in such efforts; and each of the persons from whom the Documents and testimony are sought is subject to IEX's jurisdiction. In addition, the Hearing Officer shall consider whether the request is unreasonable, oppressive, excessive in scope, or unduly burdensome, and whether the request should be denied, limited, or modified.

(c) Limitations on Requests

If, after consideration of all the circumstances, the Hearing Officer determines that a request submitted pursuant to this IEX Rule is unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she shall deny the request, or grant it only upon such conditions as fairness requires. In making the foregoing determination, the Hearing Officer may inquire of the other Parties whether they shall stipulate to the facts sought to be proved by the Documents or testimony sought. If the Hearing Officer grants the request, the Hearing Officer shall order that requested Documents be produced to all Parties not less than ten days before the hearing, and order that witnesses whose testimony was requested appear and testify at the hearing. If the Hearing Officer grants the request ten or fewer days before a hearing on the merits is scheduled to begin or after such hearing begins, the Documents or testimony shall be produced immediately to all Parties.

Rule 9.253. Production of Witness Statements

(a) Availability

Notwithstanding the provisions of IEX Rule 9.251(b),

- (1) A Respondent in a disciplinary proceeding may file a motion requesting that the Department of Enforcement or the Department of Market Regulation produce for inspection and copying any statement of any person called or to be called as a witness by the Department of Enforcement or the Department of Market Regulation that pertains, or is expected to pertain, to his or her direct testimony and which is "a stenographic, mechanical, electrical, or other recording, or a transcription thereof, which is a substantially verbatim recital of an oral statement made by said witness and recorded contemporaneously with the making of such oral statement," as that phrase is used in 18 U.S.C. § 3500(e)(2).
- (2) A Respondent in a disciplinary proceeding may also file a motion requesting that the Department of Enforcement or the Department of Market Regulation produce for inspection and copying any contemporaneously written statement made by an Interested Staff member during a routine examination or inspection about the substance of oral statements made by a non-IEX person when (a) either the Interested Staff member or non-IEX person is called as a witness by the Department of Enforcement or the Department of Market Regulation, and (b) that portion of the statement for which production is sought directly relates to the Interested Staff member's testimony or the testimony of the non-IEX witness.

(b) Failure to Produce — Harmless Error

In the event that a statement required to be made available for inspection and copying by a Respondent is not provided by the Department of Enforcement or the Department of Market Regulation, there shall be no rehearing of a proceeding already heard, or issuance of an amended decision in a proceeding already decided, unless the Respondent establishes that the failure to provide the statement was not harmless error. The Hearing Officer, or upon appeal or review, the IEX Appeals Committee, shall determine whether the failure to provide any statement was not harmless error, applying applicable IEX, FINRA, SEC, and federal judicial precedent.

The documentary evidence submitted by the Parties prior to the hearing pursuant to this paragraph shall not become part of the record, unless the Hearing Officer, Hearing Panel, or Extended Hearing Panel orders some or all of it included pursuant to IEX Rule 9.267(a)(8). The Hearing Officer may order each Party to refrain from submitting its documentary evidence to the Hearing Officer.

(b) Party's Right to Be Heard

If a hearing is held, a Party shall be entitled to be heard in person, by counsel, or by the Party's representative.

(c) Request to Submit Additional Evidence

Notwithstanding paragraph (a), a Party, for good cause shown, may seek to submit any additional evidence at the hearing as the Hearing Officer, in his or her discretion, determines may be relevant and necessary for a complete record.

Rule 9.262. Testimony

A person who is subject to the jurisdiction of IEX shall testify under oath or affirmation. The oath or affirmation shall be administered by a court reporter or a notary public.

Rule 9.263. Evidence: Admissibility

Objections to the admission or exclusion of evidence shall be made on the record and shall succinctly state the grounds relied upon. Excluded material shall be deemed a supplemental document, which shall be attached to the record and retained under IEX Rule 9.267.

Rule 9.264. Motion for Summary Disposition

(a) Pre-hearing

After a Respondent's answer has been filed and Documents have been made available to that Respondent for inspection and copying pursuant to IEX Rule 9.251, the Respondent or the Department of Enforcement or the Department of Market Regulation, without leave of the Hearing Officer, may make a motion for summary disposition of any or all the causes of action in the complaint with respect to that Respondent, as well as any defense raised in a Respondent's answer. All pre-hearing motions for summary disposition and supporting papers shall be filed at least 21 days before the time set for the hearing, or at such earlier time as ordered by the Hearing Officer. Notwithstanding the provisions of IEX Rule 9.146(d), any opposition or response to a pre-hearing motion for summary disposition shall be filed at least seven days before the time set for the hearing.

(b) After Commencement of Hearing on Merits

After a hearing on the merits has commenced, a Respondent or the Department of Enforcement or the Department of Market Regulation may make a motion for summary disposition of any or all of the causes of action in the complaint with respect to that Respondent or defenses raised in that Respondent's answer only with leave of the Hearing Officer.

(c) Case Not Fully Adjudicated on Motion

If on motion under this IEX Rule a decision is not rendered upon the whole case or for all the relief asked and a hearing is necessary, the Hearing Panel or, if applicable, the Extended Hearing Panel, at the hearing of the motion, by examining the pleadings and the evidence before it and by questioning counsel, shall, if practicable, ascertain what material facts exist without substantial controversy and what material facts are actually and in good faith controverted. It shall thereupon make an order specifying the facts that appear without substantial controversy, and directing such further proceedings in the action as are just. Upon the hearing of the action the facts so specified shall be deemed established, and the hearing shall be conducted accordingly.

(d) Form of Papers

A motion for summary disposition pursuant to paragraph (a) shall be accompanied by the following: a statement of undisputed facts; a supporting memorandum of points and authorities; and affidavits or declarations that set forth such facts as would be admissible at the hearing and show affirmatively that the affiant is competent to testify to the matters stated therein. (e) Rulings on Motion

The Hearing Officer may promptly deny or defer decisions on any motion for summary disposition, however, only the Hearing Panel or, if applicable, the Extended Hearing Panel, may grant a motion for summary disposition, except the Hearing Officer may grant motions for summary disposition with respect to questions of jurisdiction. The Hearing Panel or, if applicable, the Extended Hearing Panel, may grant the motion for summary disposition if there is no genuine issue with regard to any material fact and the Party that files the motion is entitled to summary disposition as a matter of law. If a Party files a motion under paragraph (a), the facts alleged in the pleadings of the Party against whom the motion is made shall be taken as true, except as modified by stipulations or admissions made by the non-moving Party, by uncontested affidavits or declarations, or by facts officially noticed pursuant to IEX Rule 9.145. If a Party opposing a motion for summary disposition made under paragraph (a) cannot present, by affidavit prior to the hearing, facts essential to justify the Party's opposition to the motion, the Hearing Panel or, if applicable, the Extended Hearing Panel, may deny the motion for summary disposition or defer the decision on the motion.

Such period shall be reasonable under all the circumstances but the total period allowed for the filing of post-hearing submissions shall not exceed 60 days after

and after affording an opportunity to be heard, may impose other appropriate sanctions. These sanctions may include any of the sanctions provided for in paragraphs (b)(1)(A) through (C) above.

(c) Review of Exclusions

If an attorney for a Party, or other person authorized to represent others by IEX Rule 9.141, is excluded from a disciplinary hearing or conference, or any portion thereof, such attorney or other person may seek review of the exclusion by filing a motion to vacate with the Chief Hearing Officer. Such motion to vacate shall be filed and served on all Parties within five days after service of the exclusion order. Any response shall be filed with the Chief Hearing Officer and served on all Parties within five days after the service of the motion to vacate. The Chief Hearing Officer shall consider such motion on an expedited basis and promptly issue a written order. The filing of a motion to vacate shall stay all aspects of the disciplinary proceeding until at least seven days after service of the order of the Chief Hearing Officer. The review proceedings shall be conducted on the basis of the written record without oral argument.

(d) Adjournment

The hearing, conferences, or other activities relating to the disciplinary proceeding shall be stayed pending the review by the Chief Hearing Officer of an exclusion order in paragraph (c). In the event that the Chief Hearing Officer upholds an exclusion of an attorney or other person authorized to represent others by IEX Rule 9.141, the Hearing Officer may, upon motion by a Party represented by an attorney or other person subject to an order of exclusion, grant an adjournment to allow the retention of new counsel or selection of a new representative. In determining whether to grant an adjournment or the length of an adjournment, the Hearing Officer shall consider whether there are other counsel or representatives of record on behalf of the Party, the availability of other counsel or other members of an excluded attorney's firm, or the availability of other representatives for the Party, and any other relevant factors.

Rule 9.290. Expedited Disciplinary Proceedings

For any disciplinary proceeding, the subject matter of which also is subject to a temporary cease and desist proceeding initiated pursuant to IEX Rule 9.810 or a temporary cease and desist order, hearings shall be held and decisions shall be rendered at the earliest possible time. An expedited hearing schedule shall be determined at a pre-hearing conference held in accordance with IEX Rule 9.241.

Rule Series 9.300. REVIEW OF DISCIPLINARY PROCEEDING BY IEX BOARD; APPLICATION FOR SEC REVIEW

Rule Series 9.310. APPEAL TO OR REVIEW BY THE IEX BOARD

Rule 9.311. Appeal by Any Party; Cross-Appeal

(a) Time to File Notice of Appeal

A Respondent or the Department of Enforcement or the Department of Market Regulation may file a written notice of appeal with the Secretary of IEX, which states the basis and reasons for such review within 25 days after service of a decision issued pursuant to IEX Rules 9.268 or 9.269, except that a decision concerning an IEX Member that is an affiliate may not be appealed to the Board.

(b) Effect

An appeal to the Board from a decision issued pursuant to IEX Rules 9.268 or 9.269 shall be heard by the IEX Appeals Committee of the Board, and shall operate as a stay of that decision until a decision is issued pursuant to IEX Rule 9.349 or, in cases called for discretionary review by the Board, until a decision is issued pursuant to IEX Rule 9.351. Any such appeal, however, will not stay a decision, or that part of a decision, that imposes a permanent cease and desist order.

(c) Notice of Appeal Content and Signature Requirements

A Party appealing pursuant to this IEX Rule 9.311 shall file a written notice of appeal with the Office of Hearing Officers and serve the notice on the Parties. The notice of appeal shall be signed by the appealing Party, or his or her counsel or representative, and shall contain:

- (1) the name of the disciplinary proceeding;
- (2) the disciplinary proceeding docket number;
- (3) the name of the Party on whose behalf the appeal is made;
- (4) a statement on whether oral argument before the IEX Appeals Committee is requested; and
- (5) a brief statement of the findings, conclusions, or sanctions as to which exceptions are taken.

(d) Notice of Cross-Appeal

A Party who is served with a notice of appeal may file a written notice of cross-appeal and serve the notice of cross-appeal on the Parties. The notice of cross-appeal shall be filed within five days after service of the notice of appeal. The notice of cross-appeal shall be signed by the Party cross-appealing, or his or her counsel, and shall contain the information set forth in paragraphs (c)(1), (c)(2), (c)(4), and (c)(5), and the name of the Party on whose behalf the cross-appeal is made.

(e) Waiver of Issues Not Raised

The IEX Appeals Committee may, in its discretion, deem waived any issue not raised in the notice of appeal or cross-appeal. The IEX Appeal Committee or the General Counsel shall provide the Parties with notice of, and an opportunity to submit briefs on, any issue that shall be considered by the IEX Appeals Committee if such issue was not previously set forth in the notice of appeal. Parties may submit motions to the IEX Appeals Committee challenging requests for briefing made by the General Counsel under this IEX Rule of issues that were not previously set forth in the notice of appeal.

(f) Withdrawal of Notice of Appeal or Cross-Appeal

A Party may withdraw a notice of appeal or a notice of cross-appeal filed by him or her at any time by filing a written notice of withdrawal of appeal or cross-appeal with the Office of Hearing Officers and serving notice thereof on the Parties. The notice of withdrawal of appeal or cross-appeal shall contain: the name of the disciplinary proceeding; the disciplinary proceeding docket number; and the name of the Party on whose behalf the notice of appeal or cross-appeal was filed previously. The notice of withdrawal of appeal or cross-appeal shall be signed by the Party, or his or her counsel or representative. Upon the withdrawal of a notice of appeal, any outstanding cross-appeal shall be treated as an appeal unless it is withdrawn.

Rule 9.312. Review Proceeding Initiated by the IEX Board

(a) Call for Review

- (1) Rule 9.268 Decision

A decision issued pursuant to IEX Rule 9.268 may be subject to a call for review by any member of the Board. A decision issued pursuant to IEX Rule 9.268 shall be subject to a call for review within 45 days after the date of service of the decision. If called for review, such decision shall be reviewed by the IEX Appeals Committee.

(2) Rule 9.269 Decision

A default decision issued pursuant to IEX Rule 9.629 shall be subject to a call for review by the Chief Regulatory Officer, on his or her own motion within 25 days after the date of service of the decision. If called for review, such decision shall be reviewed by the IEX Appeals Committee.

(b) Effect

Institution of review by a member of the Board on his or her own motion or the Chief Regulatory Officer, on his or her own motion, shall operate as a stay of a final decision issued pursuant to IEX Rules 9.268 or 9.629 as to all Parties subject to the notice of review, until the IEX Appeals Committee issues a decision pursuant to IEX Rule 9.349, or, in cases called for discretionary review by the Board, until a decision is issued pursuant to IEX Rule 9.351. Institution of any such review, however, will not stay a decision, or that part of a decision, that imposes a permanent cease and desist order.

(c) Requirements

- (1) If a member of the Board, or, for a disciplinary proceeding decided under IEX Rule 9.269, the Chief Regulatory Officer determines to call a case for review, a written notice of review shall be served promptly on each Party to the proceeding and filed with the Office of Hearing Officers. Such notice of review shall contain:
 - (A) the name of the disciplinary proceeding;
 - (B) the disciplinary proceeding docket number; and
 - (C) a brief statement of the findings, conclusions, or sanctions with respect to which the Board or the Chief Regulatory Officer determined that a call for review was necessary.
- (2) The statement contained in the notice of review shall not limit the scope of the Board's authority under IEX Rule 9.346 to review any issues raised in the record. The Board or the Chief Regulatory Officer shall provide the Parties with notice of, and an opportunity to submit briefs on, any issue that shall be considered by the IEX Appeals Committee if such issue was not previously set forth in the notice of review. Parties may submit motions to the IEX Appeals Committee requests for briefing made by the General Counsel under this IEX Rule 9.312 of issues that were not previously set forth in the notice of appeal.

(d) Effect of Withdrawal of Notice of Appeal, Cross-Appeal

If the review of a disciplinary proceeding by the IEX Appeals Committee is terminated before the IEX Appeals Committee issues a decision on the merits because all appealing Parties file a notice of withdrawal of appeal and no Party previously filed a notice of cross-appeal, or all Parties who previously filed a notice of cross-appeal file a notice of withdrawal of cross-appeal:

- (1) a member of the Board shall have the right to call for review a decision issued pursuant to IEX Rule 9.268 in accordance with IEX Rule 9.312(a)(1), except that the 45 day period during which a call for review may be made shall begin on the day IEX receives the last filed notice of withdrawal of appeal or, if applicable, the last filed notice of withdrawal of cross-appeal; and,
- (2) the Chief Regulatory Officer shall have the right to call for review a decision issued pursuant to IEX Rule 9.269 in accordance with IEX Rule 9.312(a)(2), except that the 25-day period during which a call for review may be

made shall begin on the day IEX receives the last filed notice of withdrawal of appeal or, if applicable, the last filed notice of withdrawal of cross-appeal.

Rule 9.313. Counsel to IEX Board and Appeals Committee

(a) Authority

A Counsel to the Board and Appeals Committee shall have authority to take ministerial and administrative actions to further the efficient administration of a proceeding, including the authority to:

- (1) direct the Office of Hearing Officers to complete and transmit a record of a disciplinary proceeding to the IEX Appeals Committee in accordance with IEX Rule 9.267;
- (2) establish or amend a briefing schedule under IEX Rule 9.347(b) but not shorten a briefing schedule except with the consent of the Parties;
- (3) permit a brief or any other document required to be filed to vary from the requirements of IEX Rule 9.130 as provided in IEX Rule 9.347(a);
- (4) establish the date, time, and location of an oral argument and provide for notice of the hearing under IEX Rule 9.341;
- (5) for other than a Party and counsel or a person acting in a representative capacity, determine who may attend a hearing;
- (6) rule on a motion by a Party to request to lengthen or shorten a period of time prescribed by the Code for the filing of any papers, or request that a hearing be postponed or adjourned under IEX Rule 9.322, except that a period may not be shortened and a hearing may not be postponed or adjourned without the consent of the Parties;
- (7) create and maintain the official record of the disciplinary proceeding on appeal or review; and
- (8) establish the number of copies of all papers that shall be filed with the Adjudicator under IEX Rule 9.136.

(b) Review

A Party seeking the review of a decision of a Counsel to the Board or Appeals Committee may make a motion to the IEX Appeals Committee.

Rule 9.321. Transmission of Record

Within 21 days after the filing of a notice of appeal or notice of review, or at such later time as the IEX Appeals Committee may designate, the Office of Hearing Officers shall assemble and prepare an index to the record, transmit the record and the index to the IEX Appeals Committee, and serve copies of the index upon all Parties. The Hearing Officer who participated in the disciplinary proceeding, or the Chief Hearing Officer, shall certify that the record transmitted to the IEX Appeals Committee is complete.

Rule 9.322. Extensions of Time, Postponements, Adjournments

(a) Availability

At any time prior to the issuance of a decision pursuant to IEX Rule 9.349, the IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, may extend or shorten a period prescribed by the Code for the

filing of any papers, except that Counsel to the IEX Appeals Committee may shorten a period so prescribed only with the consent of the Parties. The IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, may postpone or adjourn a hearing consistent with paragraph (b), except that Counsel to the IEX Appeals Committee may postpone or adjourn a hearing only with the consent of the Parties.

(b) Limitations on Postponements, Adjournments, and Changes in Location

Oral argument shall begin at the time and place ordered, unless the IEX Appeals Committee or Counsel to the IEX Appeals Committee, for good cause shown, postpones, adjourns, or changes the location of the oral argument, except that Counsel to the IEX Appeals Committee may postpone or adjourn the oral argument only with the consent of the Parties. In considering a motion for the postponement or adjournment of an oral argument, the IEX Appeals Committee or Counsel to the IEX Appeals Committee shall consider, in addition to any other relevant factors:

- (1) the length of time the disciplinary proceeding has been pending to date, and the timeliness of the request for a postponement, an adjournment, or an extension;
- (2) the number of postponements, adjournments, or extensions already granted;
- (3) the stage of the proceedings at the time of the request;
- (4) the prejudice to the other Parties;
- (5) the potential harm to the investing public if an extension of time, an adjournment, or a postponement is granted; and
- (6) any other matter that justice may require.

Rule 9.331. Reserved.

Rule 9.332. Disqualification and Recusal

(a) Recusal, Withdrawal of Member or Panelist

If at any time a member of the IEX Appeals Committee or a Counsel to the IEX Appeals Committee determines that the member or the Counsel to the IEX Appeals Committee has a conflict of interest or bias or circumstances otherwise exist where the fairness of the member or the Counsel to the IEX Appeals Committee might reasonably be questioned, the member or the Counsel to the IEX Appeals Committee shall notify the Chair of the IEX Appeals Committee who shall issue and serve on the Parties a notice stating that the member or the Counsel to the IEX Appeals Committee has withdrawn from the matter. In the event that a member of the IEX Appeals Committee withdraws, is incapacitated, or is otherwise unable to continue service after assignment, the Chair of the Board shall appoint another member of the Board to serve on the IEX Appeals Committee for the limited purpose of considering the issues raised in the disciplinary proceeding in which the withdrawal action was taken. In the event that a Counsel to the IEX Appeals Committee withdraws, is incapacitated, or is otherwise unable to continue service after assignment, the General Counsel shall assign a replacement Counsel to the IEX Appeals Committee.

(b) Motion for Disqualification

A Party may move for the disqualification of a member of the IEX Appeals Committee or a Counsel to the IEX Appeals Committee. All such motions shall be based upon a reasonable, good faith belief that a conflict of interest or bias exists or circumstances otherwise exist where the fairness of the member or the Counsel to the IEX Appeals Committee might reasonably be questioned, and shall be accompanied by an affidavit setting forth in detail the facts

alleged to constitute grounds for disqualification, and the dates on which the Party learned of those facts. Such motions shall be filed not later than 15 days after the later of:

- (1) when the Party learned of the facts believed to constitute the disqualification; or
- (2) when the Party was notified of the composition of the IEX Appeals Committee or the assignment to the disciplinary proceeding of the Counsel to the IEX Appeals Committee.

(c) Disposition of Disqualification Motions: Challenges to Single Member of IEX Appeals Committee, or Counsel to the IEX Appeals Committee

Motions for disqualification of a member of the IEX Appeals Committee, or a Counsel to the IEX Appeals Committee shall be decided by the Chair of the IEX Appeals Committee (unless the member in question is the Chair in which case a majority of the other members of the IEX Appeals Committee shall make the determination), who shall promptly determine whether disqualification is required and issue a written ruling on the motion. If a member of the IEX Appeals Committee is disqualified, the Chair of the IEX Appeals Committee (or a majority of the other members of the IEX Appeals Committee if the Chair is disqualified) shall appoint another member of the Board to serve on the IEX Appeals Committee for the limited purpose of considering the issues raised in the disciplinary proceeding in which the motion was made. If a Counsel is disqualified, the General Counsel shall assign a replacement Counsel to the IEX Appeals Committee.

(d) Disposition of Disqualification Motions: Challenges to Multiple Members or Panelists

If a Party files a motion to disqualify more than one member of the IEX Appeals Committee, the Chair of the IEX Appeals Committee shall promptly determine whether disqualification is required, and shall issue a written ruling on the matter. In the event of such disqualification, the remaining members of the IEX Appeals Committee shall consider the review or appeal of the disciplinary matter.

Rule Series 9.340. PROCEEDINGS

Rule 9.341. Oral Argument

(a) Request for Oral Argument

A Party may request oral argument before the IEX Appeals Committee. Oral argument shall be requested in writing either in the Party's notice of appeal or cross-appeal or within 15 days after service of the IEX Appeal Committee's notice of review. Subject to the limitations of IEX Rules 9.342 and 9.344, oral argument shall be granted if timely requested. The right to oral argument set forth in this IEX Rule is unaffected by a Party's waiver of, or failure to request, a hearing pursuant to IEX Rule Series 9.200. The IEX Appeals Committee may cancel in writing a previously scheduled oral argument for good cause shown due to abandonment or similar unreasonable availability.

(b) Discretion to Proceed With or Without Oral Argument

In the absence of a request for oral argument, the IEX Appeals Committee, in its discretion, may order that a matter be set down for oral argument or may consider the matter on the basis of the record.

(c) Notice Regarding Oral Argument

If oral argument is held, a notice stating the date, time, and location of the oral argument shall be served on the Parties at least 21 days before the hearing. The Parties may agree in writing to waive the notice period or, in extraordinary circumstances, the IEX Appeals Committee or Counsel to the IEX Appeals Committee may provide for a shorter notice

period, except that Counsel to the IEX Appeals Committee may provide for a shorter notice period only with the consent of the Parties.

(d) Attendance Required

The Parties shall make oral arguments before the IEX Appeals Committee. Unless otherwise agreed to by all of the Parties, all members of the IEX Appeals Committee shall be present for the oral argument.

(e) Time Limits

Unless the IEX Appeals Committee orders otherwise for good cause shown, each Party's oral argument shall be limited to a total of 30 minutes.

(f) Recordation; Transcript Correction

- (1) Oral arguments shall be recorded by a court reporter and a transcript shall be prepared.
- (2) A transcript of a hearing shall be available to a Party for purchase from the court reporter at prescribed rates. A witness may purchase a transcript of his or her own testimony from the court reporter.
- (3) Prior to the filing of post-hearing briefs or within such earlier time as reasonably ordered by the IEX Appeals Committee a Party or witness may seek to correct his or her transcript. A proposed correction of the transcript shall be submitted by affidavit to the IEX Appeals Committee. Upon notice to all Parties to the disciplinary proceeding, the IEX Appeals Committee may order the correction to the transcript as requested or sua sponte.

Rule 9.342. Failure to Appear at Oral Argument

A Party who requests oral argument but fails to appear after being duly notified shall be deemed to have waived any opportunity for oral argument provided under IEX Rule Series 9.300. The IEX Appeals Committee shall permit argument to go forward as to those Parties who appear. The IEX Appeals Committee, in the exercise of its discretion, may consider the matter on the basis of the record without oral argument as to those Parties who failed to appear.

Rule 9.343. Disposition without Oral Argument

If an oral argument is not held, the matter shall be considered by the IEX Appeals Committee, on the basis of the record, as defined in IEX Rule 9.267, and supplemented by any written materials submitted to or issued by the IEX Appeals Committee in connection with the appeal, cross-appeal, or call for review.

Rule 9.344. Failure to Participate Below; Abandonment of Appeal

(a) Failure to Participate Below

If an appealing Party did not participate in the disciplinary proceeding before a Hearing Officer, a Hearing Panel or, if applicable, an Extended Hearing Panel, and fails to show good cause for the failure to participate, the matter shall be considered by the IEX Appeals Committee on the basis of the record and other documents, as provided in IEX Rules 9.346 and 9.347. When good cause is shown, the IEX Appeals Committee shall remand the disciplinary proceeding with instructions. For purposes of this paragraph, failure to participate shall include failure to file an answer or otherwise respond to a complaint, or failure to appear at a scheduled hearing, but shall not include failure to request a hearing pursuant to IEX Rule 9.221.

(b) Abandonment of Appeal

If an appealing Party fails to advise the IEX Appeals Committee of the basis for seeking review or otherwise fails to provide information or submit a written brief in response to a request pursuant to IEX Rules 9.346 and 9.347, the IEX Appeals Committee may dismiss the appeal as abandoned, and the decision of the Hearing Officer, the Hearing Panel or, if applicable, the Extended Hearing Panel, shall become the final disciplinary action of IEX. If a cross-appealing Party fails to advise the IEX Appeals Committee of the basis for seeking review or otherwise fails to provide information or submit a written brief in response to a request pursuant to IEX Rules 9.346 and 9.347, the IEX Appeals Committee may dismiss the cross-appeal as abandoned. Upon a showing of good cause, the IEX Appeals Committee may withdraw any dismissal entered pursuant to this IEX Rule.

Rule 9.345. Reserved.

Rule 9.346. Evidence in IEX Appeals Committee Proceedings

(a) Scope of Review

Except as otherwise set forth in this paragraph, the IEX Appeals Committee's review shall be limited to consideration of:

- (1) the record, as defined in IEX Rule 9.267, supplemented by briefs and other papers submitted to the IEX Appeals Committee; and
- (2) any oral argument permitted under this Code.

A Party may introduce additional evidence only with prior approval of the IEX Appeals Committee, upon a showing that extraordinary circumstances exist under paragraph (b) below. If an appealing Party shows good cause for failure to participate in the disciplinary proceeding below, the IEX Appeals Committee may hear evidence and consider the disciplinary proceeding pursuant to IEX Rule 9.344(a).

(b) Leave to Introduce Additional Evidence

A Party may apply to the IEX Appeals Committee for leave to introduce additional evidence by motion filed not later than 30 days after the Office of Hearing Officers transmits to the IEX Appeals Committee and serves upon all Parties the index to the record, pursuant to IEX Rule 9.321. The motion shall describe each item of proposed new evidence, demonstrate that there was good cause for failing to introduce it below, demonstrate why the evidence is material to the proceeding, and be filed and served. The Party may attach the documentary evidence as an exhibit to the motion. By a motion filed in accordance with IEX Rule 9.146, a Party may request an extension of the period during which a Party may file a motion for leave to introduce additional evidence. A Party shall demonstrate that there was good cause for failing to file the motion for leave to introduce additional evidence during the period prescribed.

(c) Motion In Opposition; Motion to Introduce Rebuttal Evidence

A Party may file an opposition to a motion, as provided in IEX Rule 9.146(d), for leave to introduce new evidence, and may move for leave to introduce rebuttal evidence in response to the proposed new evidence. A Party who moves to introduce rebuttal evidence in response to the proposed new evidence of another Party shall describe each item of proposed rebuttal evidence and explain why the evidence is material to the proceeding, and shall file and serve such motion.

(d) Discretion Regarding Review of Additional Evidence

Upon consideration of any motion to introduce additional evidence and any opposition thereto, the IEX Appeals Committee may permit the evidence to be introduced into the record on review, or may remand the disciplinary proceeding for further proceedings consistent with its ruling or for further fact finding.

(e) Requirements for Submitting Additional Documentary Evidence

A Party that is permitted to introduce additional documentary evidence before the IEX Appeals Committee pursuant to paragraph (d) shall make copies of the evidence available to the IEX Appeals Committee and to all Parties at such time as the IEX Appeals Committee may specify.

(f) Additional Evidence

On its own motion, the IEX Appeals Committee may order that the record be supplemented with such additional evidence as it may deem relevant. Among other things, the IEX Appeals Committee may order a Respondent who asserts his or her inability to pay a monetary sanction to file a sworn financial statement and to keep such statement current as ordered by the IEX Appeals Committee.

(g) Rules of Evidence Not Applicable

The formal rules of evidence shall not apply.

(h) Testimony

A person who is subject to the jurisdiction of IEX shall testify under oath or affirmation. The oath or affirmation shall be administered by a court reporter or a notary public.

Rule 9.347. Filing of Papers in IEX Appeals Committee Proceedings

(a) Briefs; Reply Briefs; Requirements

Parties may file briefs in connection with proceedings governed by IEX Rule Series 9.300. Briefs shall be confined to the particular matters at issue. An exception to findings, conclusions, or sanctions shall be supported by citation to the relevant portions of the record, including references to specific pages relied upon, and by concise argument, including citation of such statutes, decisions, and other authorities as may be relevant. If an exception relates to the admission or exclusion of evidence, the substance of the evidence admitted or excluded shall be set forth in the brief, an appendix thereto, or by citation to the record. Parties may file reply briefs. If a Party files a reply brief, such brief shall be limited to matters in reply. All briefs shall conform to the requirements of IEX Rule Series 9.130, and, except with advance leave of the IEX Appeals Committee, or Counsel to the IEX Appeals Committee, exclusive of pages containing tables of contents or tables of authorities, a brief other than a reply brief shall not exceed 25 double-spaced pages, and a reply brief shall not exceed 12 double-spaced pages.

(b) Timely Filing of Briefs

Briefs shall be due upon dates established by the IEX Appeals Committee, or Counsel to the IEX Appeals Committee in a scheduling order. Unless the IEX Appeals Committee, or Counsel to the IEX Appeals Committee specifies otherwise, opening briefs shall be submitted not less than 21 days from the date of the scheduling order, and answering briefs shall be submitted 21 days thereafter. When reply briefs are submitted, such briefs shall be filed not later than ten days after service of the answering brief. Counsel to the IEX Appeals Committee may not shorten a period previously established for the filing of briefs except with the consent of the Parties. The time periods listed in this provision are only applicable to the filing of opening briefs, answering briefs, and reply briefs.

Rule 9.348. Powers of the IEX Appeals Committee on Review

In any appeal or review proceeding pursuant to IEX Rule Series 9.300, the IEX Appeals Committee may affirm, dismiss, modify, or reverse with respect to each finding, or remand the disciplinary proceeding with instructions. The IEX Appeals Committee may affirm, modify, reverse, increase, or reduce any sanction, or impose any other fitting sanction.

Rule 9.349. IEX Appeals Committee Formal Consideration; Decision

(a) Decision of IEX Appeals Committee, Including Remand

In an appeal or review of a disciplinary proceeding governed by IEX Rule Series 9.300 that is not withdrawn or dismissed prior to a decision on the merits, the IEX Appeals Committee, after considering all matters presented in the appeal or review, may affirm, dismiss, modify or reverse the decision of the Hearing Panel or, if applicable, Extended Hearing Panel, with respect to each Respondent who has appealed or cross-appealed or is subject to a call for review. The IEX Appeals Committee may affirm, modify, reverse, increase, or reduce any sanction, or impose any other fitting sanction. Alternatively, the IEX Appeals Committee may remand the disciplinary proceeding with instructions. The IEX Appeals Committee shall prepare a proposed written decision pursuant to paragraph (b) below.

(b) Contents of Decision

The decision shall include:

- (1) a statement describing the investigative or other origin of the disciplinary proceeding, if not otherwise contained in the record;
- (2) the specific statutory or rule provisions that were alleged to have been violated;
- (3) a statement setting forth the findings of fact with respect to any act or practice the Respondent was alleged to have committed or omitted;
- (4) the conclusions as to whether the Respondent violated any provision alleged in the complaint;
- (5) a statement in support of the disposition of the principal issues raised in the proceeding; and
- (6) a statement describing any sanction imposed, the reasons therefor, and, pursuant to IEX Rule 9.360, the date upon which such sanction shall become effective.

(c) Issuance of Decision After Expiration of Call for Review Period

The IEX Appeals Committee shall provide its proposed written decision to the Board. The Board may call the disciplinary proceeding for review pursuant to IEX Rule 9.351. If the Board does not call the disciplinary proceeding for review, the proposed written decision of the IEX Appeals Committee shall become final, and the IEX Appeals Committee shall serve its written decision on the Parties and provide a copy to each member of IEX with which a Respondent is associated. The decision shall constitute the final disciplinary action of IEX for purposes of Rule 19d-1(c)(1) of the Act, unless the IEX Appeals Committee remands the proceeding.

Rule Series 9350. Discretionary Review by IEX Board

Rule 9.351. Discretionary Review by IEX Board

(a) Call for Review by Director

A Director may call a disciplinary proceeding for review by the Board if the call for review is made within the period prescribed in paragraph (b) below.

(b) 15 Day Period; Waiver

(1) A Director shall make his or her call for review not later than the next meeting of the Board that is at least 15 days after the date on which the Board receives the proposed written decision of the IEX Appeals Committee.

(2) Waiver

By a unanimous vote of the Board, the Board may shorten the period in subparagraph (1) to less than 15 days. By an affirmative vote of the majority of the Board then in office, the Board may, during the 15 day period in subparagraph (1), vote to extend the period in subparagraph (1) to more than 15 days.

(c) Review at Next Meeting

If a Director calls a disciplinary proceeding for review within the period prescribed in paragraph (b) above, the Board shall review the disciplinary proceeding not later than the next meeting of the Board. The Board may order the Parties (excluding any Respondent who did not appeal or cross-appeal, or as to whom the issues appealed or called for review do not apply) to file briefs in connection with the review proceedings pursuant to this IEX Rule.

(d) Decision of IEX Board, Including Remand

After review, the Board may affirm, modify, or reverse the proposed written decision of the IEX Appeals Committee. The Board may affirm, modify, reverse, increase, or reduce any sanction, or impose any other fitting sanction. Alternatively, the Board may remand the disciplinary proceeding with instructions. The Board shall prepare a written decision that includes all of the elements described in IEX Rule 9.349(b)(1) through (6).

(e) Issuance of Decision After Expiration of Call for Review Period

The Board shall issue and serve its written decision on the Parties and provide a copy to each Member of IEX with which a Respondent is associated. The decision shall constitute the final disciplinary action of IEX for purposes of Rule 19d-1(c)(1) of the Act, unless the Board remands the proceeding.

Rule 9.360. Effectiveness of Sanctions

Unless otherwise provided in the decision issued under IEX Rule 9.349 or 9.351, a sanction (other than a bar, an expulsion, or a permanent cease and desist order) specified in a decision constituting final disciplinary action of IEX for purposes of Rule 19d-1(c)(1) of the Act shall become effective on a date to be determined by IEX staff (or the Hearing Panel, Extended Hearing Panel, or Office of Disciplinary Affairs in the case of a decision with respect to an affiliate of IEX within the meaning of IEX Rule 2.210). A bar, an expulsion, or a permanent cease and desist order shall become effective upon service of the decision constituting final disciplinary action of IEX, unless otherwise specified therein. IEX shall serve the decision on a Respondent by courier, facsimile or other means reasonably likely to obtain prompt service when the sanction is a bar, an expulsion, or a permanent cease and desist order.

Rule 9.370. Application to SEC for Review

(a) Appeal to SEC; Effect

A Respondent aggrieved by final disciplinary action pursuant to IEX Rule Series 9.200 or 9.300 may apply for review by the SEC pursuant to Section 19(d)(2) of the Exchange Act. The filing with the SEC of an application for review by the SEC shall stay the effectiveness of any sanction, other than a bar or an expulsion, imposed in a decision constituting final disciplinary action of IEX for purposes of Rule 19d-1(c)(1) of the Act.

(b) IEX Notification to Member

IEX, or FINRA on its behalf, shall promptly notify any IEX Member with which a Respondent is associated if the Respondent files an application for review to the SEC.

(a) Initiation by FINRA

- (1) Issuance of Notice of Disqualification or Ineligibility

If IEX Regulation staff has reason to believe, or if FINRA staff advises IEX that it has reason to believe, that a disqualification exists or that a Member or person associated with a Member, or applicant thereof, otherwise fails to meet the eligibility requirements of IEX, IEX staff shall issue a written notice to the Member or applicant

for membership under IEX Rule 2.170(d). The notice shall specify the grounds for such disqualification or ineligibility. IEX staff shall not issue such written notice to Members or applicants for membership under IEX Rule 2.160(d) with respect to disqualifications arising solely from findings or orders specified in Section 15(b)(4)(D), (E), or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, unless the Member or applicant for membership under IEX Rule 2.160(d) is required to file an application pursuant to Supplementary Material .01 to this IEX Rule 9.522.

(2) Notice Regarding a Member

A notice issued to a disqualified Member shall state that the disqualified Member may apply for relief by filing an application or, in the case of a matter set forth in IEX Rule 9.522(e)(1), a written request for relief, within ten business days after service of the notice. If the Member fails to file the application or, where appropriate, the written request for relief, within the 10-day period, the membership of the Member shall be canceled, unless IEX Regulation grants an extension for good cause shown.

(1) A Member shall file an application or, in the case of a matter set forth in IEX Rule 9.522(e)(1), a written request for relief, with RAD, if the Member determines prior to receiving a notice under paragraph (a) that:

- (A) it has become a disqualified Member;
- (B) a person associated with such Member or whose association is proposed by an applicant for membership under IEX Rule 2.160(a)(3) has become a disqualified person; or
- (C) the Member or applicant for membership under IEX Rule 2.160(a)(3) wishes to sponsor the association of a person who is a disqualified person.

(2) For any disqualifications arising solely from findings or orders specified in Section 15(b)(4)(D), (E), or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, a Member shall not file an application unless instructed to do so pursuant to Supplementary Material .01 to this IEX Rule 9.522.

A Member may withdraw its application or written request for relief prior to a hearing by filing a written notice with RAD pursuant to IEX Rules 9.135, 9.136, and 9.137. A Member may withdraw its application after the start of a hearing but prior to the issuance of a decision by the IEX Appeals Committee by filing a written notice with RAD and the Office of General Counsel pursuant to IEX Rules 9.135, 9.136, and 9.137.

(d) Ex Parte Communications

The prohibitions against ex parte communications set forth in IEX Rule 9.143 shall become effective under the IEX Rule 9.520 when IEX staff has initiated the eligibility proceeding and IEX staff has knowledge that a Member intends to file an application or written request for relief pursuant to IEX Rule 9.520.

(e) Member Regulation Consideration

(1) Matters that may be Approved by IEX Regulation without the Filing of an Application

IEX Regulation, as it deems consistent with the public interest and the protection of investors, is authorized to approve a written request for relief from the eligibility requirements by a disqualified Member or a sponsoring Member without the filing of an application by such disqualified Member or sponsoring Member if a disqualified Member or disqualified person is subject to one or more of the following conditions but is not otherwise subject to disqualification:

- (A) a disqualified Member or disqualified person is subject to a disqualification based on an injunction that was entered ten or more years prior to the proposed admission or continuance by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, dealer, municipal securities dealer, government securities broker, government securities dealer, transfer agent, foreign person performing a function substantially equivalent to any of the above, entity or person required to be registered under the Commodity Exchange Act, or any substantially equivalent foreign statute or regulation, or as an affiliated person or employee of any investment company, bank, insurance company, foreign entity substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or from engaging in or continuing any conduct or practice in connection with any such activity, or in connection with the purchase or sale of any security.
- (B) a sponsoring Member makes a request to change the supervisor of a disqualified person; or
- (C) a disqualified Member or sponsoring Member is a Member of both IEX and another self-regulatory organization; and:
 - (i) the other self-regulatory organization intends to file a Notice under Exchange Act Rule 19h-1 approving the membership continuance of the disqualified Member or, in the case of a sponsoring Member, the proposed association or continued association of the disqualified person; and
 - (ii) IEX Regulation concurs with that determination.

(2) Matters that may be Approved by IEX Regulation after the Filing of an Application

IEX Regulation, as it deems consistent with the public interest and the protection of investors, is authorized to approve an application filed by a disqualified Member or sponsoring Member if the disqualified Member or disqualified person is subject to one or more of the following conditions but is not otherwise subject to disqualification (other than a matter set forth in paragraph (e)(1)):

- (A) The disqualified person is already a participant in, a Member of, or a person associated with a Member of, a self-regulatory organization (other than IEX), and the terms and conditions of the proposed admission to IEX are the same in all material respects as those imposed or not disapproved in connection with such person's prior admission or continuance pursuant to an order of the SEC under Exchange Act Rule 19h-1 or other substantially equivalent written communication;
- (B) IEX Regulation finds, after reasonable inquiry, that except for the identity of the employer concerned, the terms and conditions of the proposed admission or continuance are the same in all material respects as

those imposed or not disapproved in connection with a prior admission or continuance of the disqualified person pursuant to an order of the SEC under Exchange Act Rule 19h-1 or other substantially equivalent written communication, and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors;

- (C) The disqualification previously was a basis for the institution of an administrative proceeding pursuant to a provision of the federal securities laws, and was considered by the SEC in determining a sanction against such disqualified person in the proceeding; and the SEC concluded in such proceeding that it would not restrict or limit the future securities activities of such disqualified person in the capacity now proposed, or, if it imposed any such restrictions or limitations for a specified time period, such time period has elapsed;
- (D) The disqualification consists of a court order or judgment of injunction or conviction, and such order or judgment:
 - (i) expressly includes a provision that, on the basis of such order or judgment, the SEC will not institute a proceeding against such person pursuant to Section 15(b) or 15B of the Exchange Act or that the future securities activities of such persons in the capacity now proposed will not be restricted or limited; or
 - (ii) includes such restrictions or limitations for a specified time period and such time period has elapsed;
- (E) The disqualified person's functions are purely clerical and/or ministerial in nature; or
- (F) The disqualification arises from findings or orders specified in Section 15(b)(4)(D), (E), or (H) of the Exchange Act or arises under Section 3(a)(39)(E) of the Exchange Act.

(3) Rights of Disqualified Member, Sponsoring Member, Disqualified Person, and IEX Regulation

- (A) In the event IEX Regulation does not approve a written request for relief from the eligibility requirements pursuant to paragraph (e)(1), the disqualified Member or sponsoring Member may file an application, and such Member shall have the right to proceed under IEX Rules 9.523 or 9.524, as applicable. IEX Regulation may require a disqualified Member or sponsoring Member to file an application with RAD, notwithstanding the provisions of paragraph (e)(1).
- (B) In the event IEX Regulation does not approve an application pursuant to paragraph (e)(2), the disqualified Member or sponsoring Member shall have the right to proceed under IEX Rules 9.523 or 9.524, as applicable.

• • • **Supplementary Material** • • •

.01 Membership Application Requirements for Members and Persons Associated with a Member Who Are or Become Subject to a Statutory Disqualification.

This Supplementary Material describes when an IEX Member or Person Associated with a Member who is or becomes subject to a Statutory Disqualification must file a membership application.

- (a) *Statutory Disqualifications Arising from Willful Violations or Failure to Supervise (Exchange Act Section 15(b)(4)(D) or (E). With respect to disqualifications arising solely from findings specified in Exchange Act Section 15(b)(4)(D) or (E) by the SEC, CFTC or an SRO as defined in the Uniform Forms (i.e., Form U4, Form U5 and Form BD), a member shall file an application with IEX Regulation ("IEX Regulation") if the sanction is still in effect and:*

- (1) *the disqualified member or person is seeking admission or readmission to the securities industry; or*
- (2) *the disqualified member or person is seeking to continue in membership or association with a member, unless*

- (A) *such member or person was as of March 17, 2009, a member of, or an associated person of another SRO* and was, as of March 17, 2009, subject to the disqualification, in which event the member shall file an application with IEX Regulation only if there is a change in employer or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

(b) *Statutory Disqualifications Arising from Sarbanes-Oxley Act (Exchange Act Section 15(b)(4)(H)). With respect to disqualifications arising solely from orders specified in Exchange Act Section 15(b)(4)(H)(i) and (ii), a member shall file an application with IEX Regulation if:*

- (1) *the disqualified member or person is seeking admission or readmission to, or continuance in, the securities industry, unless:*
 - (A) *such member or person is subject to a final order pursuant to Section 15(b)(4)(H)(ii)9**; and*
 - (B) *the sanctions do not involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are no longer in effect, in which event an application need not be filed; or*
 - (C) *the sanctions do involve licensing or registration revocation or suspension (or analogous sanctions), the sanctions are no longer in effect, and the order was entered 10 or more years ago, in which event an application need not be filed.*

However, if the disqualified member or person was, as of March 17, 2009, a member of, or an associated person of a member of, another SRO and was, as of March 17, 2009, subject to a final order as described in Section 15(b)(4)(H)(ii) and:*

- (2) *the sanctions do not involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are still in effect, the member shall file an application with IEX Regulation only if there is a change in employer, or if the member makes an application for the registration of the person as a principal pursuant to IEX rules; or*
- (3) *the sanctions do involve licensing or registration revocation or suspension (or analogous sanctions), and the sanctions are no longer in effect, and the order was entered within the prior 10 years, the member shall file an application with IEX Regulation only if there is a change in employer, or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

Moreover, where such member or person was, as of March 17, 2009, a member of, or an associated person of a member of another SRO and was, as of March 17, 2009, subject to a bar as described in Exchange Act Section 15(b)(4)(H)(i), and the bar is still in effect*** (and is not related to fraudulent, manipulative, or deceptive conduct), the member shall file an application with IEX Regulation only if there is a change in employer or if the member makes an application for the registration of the person as a principal pursuant to IEX rules.*

(c) *Statutory Disqualifications under Exchange Act Section 3(a)(39)(E) – Certain Affiliated Relationships*

With respect to disqualifications arising solely under Section 3(a)(39)(E) of the Exchange Act, a member shall file an application with IEX Regulation if:

- (1) *the disqualified member or person is seeking admission or readmission to, or continuance in, the securities industry and the disqualified member or person is subject to a statutory disqualification under Exchange Act Section 3(a)(39)(E), solely because such member or person has associated with him any person who is known, or in the exercise of reasonable care should be known, to the disqualified member or person to be a person described by Exchange Act Section 3(a)(39)(A), (B), (C) or (D), and the associated person:*
 - (A) *controls such disqualified member or person, is a general partner or officer (or person occupying a similar status or performing similar functions) of such disqualified member, is an employee, who, on behalf of such disqualified member, is engaged in securities advertising, public relations, research, sales, trading, or training or supervision of other employees who engage or propose to engage in such activities, except clerical and ministerial persons engaged in such activities, or is an employee with access to funds, securities or books and records, or*

- (B) *is a broker or dealer not registered with the SEC, or controls such (unregistered) broker or dealer, or is a general partner or officer (or person occupying a similar status or performing similar functions) of such broker or dealer.*

However, the disqualified member or person seeking to continue in the securities industry is not required to file an application where such member or person was, as of March 17, 2009, a member of, or an associated person of a member of another SRO and was, as of March 17, 2009, subject to the disqualification.

** An associated person for purposes of IEX Rule 9.522 would include a person that was associated with a member of another SRO within 45 days prior to March 17, 2009, provided that the person was associated with another member of another SRO within 45 days after March 17, 2009.*

*** This would include a finding of aiding and abetting a violation of such laws.*

**** A person would no longer be subject to a statutory disqualification when the time limitation of a bar or license revocation has expired, provided that (1) application for reentry is not required or has been granted; (2) the bar or revocation has no continuing effect; and (3) the bar was not issued in connection with a final order based on violations of laws or regulations prohibiting fraudulent, manipulative or deceptive conduct, as described in Exchange Act Section 15(b)(4)(H)(ii). As an example, a person subject to a statutory disqualification based on a three-month bar (or three-year bar) that ends automatically and has no continuing effect would no longer be subject to a statutory disqualification at the end of the three months (or three years) under Exchange Act Section 15(b)(4)(H)(i), unless the bar was issued in connection with a final order based on violations of laws or regulations prohibiting fraudulent, manipulative or deceptive conduct, as described in Exchange Act Section 15(b)(4)(H)(ii).*

Rule 9.523. Acceptance of IEX Regulation Recommendations and Supervisory Plans by Consent Pursuant to Exchange Act Rule 19h-1

- (a) With respect to all disqualifications, except those arising solely from findings or orders specified in Section 15(b)(4)(D), (E) or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, after an application is filed, IEX Regulation may recommend the membership or continued membership of a disqualified Member or sponsoring Member or the association or continuing association of a disqualified person pursuant to a supervisory plan where the disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, consent to the recommendation and the imposition of the supervisory plan. The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, shall execute a letter consenting to the imposition of the supervisory plan.
- (1) If a disqualified Member, sponsoring Member, and/or disqualified person submitted an executed letter consenting to a supervisory plan, by the submission of such letter, the disqualified Member, sponsoring Member and/or disqualified person waive:
- (A) the right to a hearing before a Hearing Panel and any right of appeal to the IEX Appeals Committee, the SEC, and the courts, or otherwise challenge the validity of the supervisory plan, if the supervisory plan is accepted.
 - (B) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim bias or prejudgment by IEX Regulation, the Chief Regulatory Officer, the IEX Appeals Committee, or any Member of the IEX Appeals Committee, in connection with such person's or body's participation in discussions regarding the terms and conditions of IEX Regulation's recommendation or the supervisory plan, or other consideration of the recommendation or supervisory plan, including acceptance or rejection of such recommendation or supervisory plan; and

- (C) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim that a person violated the ex parte prohibitions of IEX Rule 9.143 or the separation of functions prohibitions of IEX Rule 9.144, in connection with such person's or body's participation in discussions regarding the terms and conditions of the recommendation or supervisory plan, or other consideration of the recommendation or supervisory plan, including acceptance or rejection of such recommendation or supervisory plan.
 - (2) If a recommendation or supervisory plan is rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall be bound by the waivers made under paragraph (a)(1) for conduct by persons or bodies occurring during the period beginning on the date the supervisory plan was submitted and ending upon the rejection of the supervisory plan and shall have the right to proceed under this IEX Rule and IEX Rule 9.524, as applicable.
 - (3) If the disqualified Member, sponsoring Member, and/or disqualified person execute the letter consenting to the supervisory plan, it shall be submitted to the Office of General Counsel by IEX Regulation with a proposed Notice under Exchange Act Rule 19h-1, where required. The Office of General Counsel shall forward the supervisory plan and proposed Notice under Exchange Act Rule 19h-1, if any, to the Chair of IEX Appeals Committee, acting on behalf of the Board. The Chair of the IEX Appeals Committee may accept or reject the recommendation of IEX Regulation.
 - (4) If the recommendation and supervisory plan is accepted by the IEX Appeals Committee, it shall be deemed final and, where required, the proposed Notice under Exchange Act Rule 19h-1 will be filed by IEX. If the recommendation and supervisory plan are rejected by the IEX Appeals Committee, IEX may take any other appropriate action with respect to the disqualified Member, sponsoring Member, and/or disqualified person. If the recommendation and supervisory plan are rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall not be prejudiced by the execution of the letter consenting to the supervisory plan under this paragraph (a) and the letter may not be introduced into evidence in any proceeding.
- (b) With respect to disqualifications arising solely from findings or orders specified in Section 15(b)(4)(D), (E) or (H) of the Exchange Act or arising under Section 3(a)(39)(E) of the Exchange Act, after an application is filed, in approving an application under IEX Rule 9.522(e)(2)(F), IEX Regulation is authorized to accept the Membership or continued Membership of a disqualified Member or sponsoring Member or the association or continuing association of a disqualified person pursuant to a supervisory plan where the disqualified Member, sponsoring Member, and/or disqualified persons, as the case may be, consent to the imposition of the supervisory plan. The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, shall execute a letter consenting to the imposition of the supervisory plan. IEX Regulation shall prepare a proposed Notice under Exchange Act Rule 19h-1, where required, and IEX shall file such Notice.
- (1) If a disqualified Member, sponsoring Member, and/or disqualified person submitted an executed letter consenting to a supervisory plan, by the submission of such letter, the disqualified Member, sponsoring Member and/or disqualified person waive:
 - (A) the right to a hearing before a Hearing Panel and any right of appeal to the IEX Appeals Committee, the SEC, and the courts, or otherwise challenge the validity of the supervisory plan, if the supervisory plan is accepted;
 - (B) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim bias or prejudgment by IEX Regulation or the Chief Regulatory Officer in connection with such person's or body's participation in discussions regarding the terms and conditions of IEX Regulation's recommended

supervisory plan, or other consideration of the supervisory plan, including acceptance or rejection of such recommendation or supervisory plan; and

- (C) any right of the disqualified Member, sponsoring Member, and/or disqualified person to claim that a person violated the ex parte prohibitions of IEX Rule 9.143 or the separation of functions prohibitions of IEX Rule 9.144, in connection with such person's or body's participation in discussions regarding the terms and conditions of the supervisory plan, or other consideration of the supervisory plan, including acceptance or rejection of such supervisory plan.

- (2) If the supervisory plan is rejected, the disqualified Member, sponsoring Member, and/or disqualified person shall be bound by the waivers made under paragraph (b)(1) for conduct by persons or bodies occurring during the period beginning on the date the supervisory plan was submitted and ending upon the rejection of the supervisory plan and shall have the right to proceed under IEX Rule 9.524.

RAD will prepare an index of these documents, and simultaneously provide this index and copies of the documents to the disqualified Member or sponsoring Member, as the case may be, the Office of the General Counsel, and IEX Regulation. The Hearing Panel may extend any time limits prescribed by the Code for the filing of any papers.

The hearing shall be recorded and a transcript prepared by a court reporter. The disqualified Member, sponsoring Member, and/or disqualified person, as the case may be, may purchase a copy of the transcript from the court reporter at prescribed rates. A witness may purchase a copy of the transcript of his or her own testimony from the court reporter at prescribed rates. Proposed corrections to the transcript may be submitted by affidavit to the Hearing Panel within a reasonable time determined by the Hearing Panel. (10) Recommendation

On the basis of the record, the Hearing Panel shall present a recommended decision in writing on the request for relief to the IEX Appeals Committee. Notwithstanding the foregoing, with respect to an IEX member that is an affiliate of IEX within the meaning of IEX Rule 2.210, the Hearing Panel shall prepare a final decision meeting the requirements of IEX Rule 9524(b)(2), which shall not be reviewed by the IEX Appeals Committee, and may not be called for review by the IEX Board pursuant to IEX Rule 9.525.

(b) Decision

(1) Decision of the IEX Appeals Committee

After considering the record and recommendation of the Hearing Panel, the public interest, and the protection of investors, the IEX Appeals Committee may grant or deny the request for relief, and, if relief is granted, impose conditions on the disqualified member, sponsoring member, and/or disqualified person, as the case may be. The decision shall constitute final action of IEX, unless the IEX Appeals Committee remands the eligibility proceeding.

A decision to deny re-entry or continued association shall be effective immediately. A decision to approve shall be effective after the SEC issues an acknowledgment letter or, in cases involving SEC ordered sanctions, an order.

Rule 9.525. Discretionary Review by the IEX Board

A Director may call an eligibility proceeding for review by the Board if the call for review is made within the period prescribed in paragraph (b).

(b) 15 Day Period; Waiver

A Director shall make his or her call for review not later than the next meeting of the Board that is at least 15 days after the date on which the Board receives the proposed written decision of the IEX Appeals Committee. By a

The Board shall prepare a written decision that includes all of the elements described in IEX Rule 9.524(b)(2).

If service is made by facsimile, the Office of Hearing Officers shall send an additional copy of the temporary cease and desist order by overnight commercial courier. The filing of an application under this IEX Rule shall not stay the effectiveness of the temporary cease and desist order.

Rule 9.860. Violation of Temporary Cease and Desist Orders

A Respondent who violates a temporary cease and desist order imposed under this IEX Rule Series may have its association or membership suspended or canceled under IEX Rule 9.556. IEX's Chief Regulatory Officer must authorize the initiation of any such proceeding in writing.

Rule 9.870. Application to SEC for Review

Temporary cease and desist orders issued pursuant to this IEX Rule Series constitute final and immediately effective disciplinary sanctions imposed by IEX. The right to have any action under this IEX Rule Series reviewed by the SEC is governed by Section 19 of the Exchange Act. The filing of an application for review shall not stay the effectiveness of the temporary cease and desist order, unless the SEC otherwise orders.

CHAPTER 10. TRADING PRACTICE RULES

Rule Series 10.100. PROHIBITED TRADING PRACTICES

Rule 10.110. Market Manipulation

- (a) No Member shall execute or cause to be executed or participate in an account for which there are executed purchases of any security at successively higher prices, or sales of any security at successively lower prices, or otherwise engage in activity, for the purpose of creating or inducing a false, misleading or artificial appearance of activity in such security on the Exchange or for the purpose of unduly or improperly influencing the market price for such security or for the purpose of establishing a price which does not reflect the true state of the market in such security.
- (b) All orders must be entered for the purpose of executing bona fide transactions, including, without limitation:
- (1) No Member shall enter or cause to be entered, an order with the intent, at the time of order entry, to cancel the order before execution, or to modify the order to avoid execution.
 - (2) No Member shall enter or cause to be entered an executable or non-executable order or orders with the intent to mislead other market participants.
 - (3) No Member shall enter or cause to be entered an executable or non-executable order with the intent to overload, delay, or disrupt the performance of the systems of the Exchange, its Members, other exchanges, National Market System Plans, or market participants.
 - (4) No Member shall enter or cause to be entered executable or non-executable orders with intent to disrupt, ~~or with reckless disregard for the adverse impact on,~~ the orderly conduct of trading or the fair execution of transactions on the Exchange or elsewhere in the National Market System.
 - (5) These provisions shall apply at all times the Exchange System is available to Members without exception.
- Additionally, all non-executable orders must be entered in good faith for legitimate purposes.

Rule 10.120. Fictitious Transactions

- (a) No Member, for the purpose of creating or inducing a false or misleading appearance of activity in a security traded on the Exchange or creating or inducing a false or misleading appearance with respect to the market in such security shall:
- (1) execute any transaction in such security which involves no change in the beneficial ownership thereof, or
 - (2) enter any order or orders for the purchase of such security with the knowledge that an order or orders of substantially the same size, and at substantially the same price, for the sale of such security, has been or will be entered by or for the same or different parties, or
 - (3) enter any order or orders for the sale of any such security with the knowledge that an order or orders of substantially the same size, and at substantially the same price, for the purchase of such security, has been or will be entered by or for the same or different parties.
- (b) Transactions in a security resulting from the unintentional interaction of orders originating from the same firm that involve no change in the beneficial ownership of the security, (“self-trades”) generally are bona fide transactions for purposes of this IEX Rule 10.120; however, Members must have policies and procedures in place that are reasonably designed to review their trading activity for, and prevent, a pattern or practice of self-trades resulting from orders originating from a single algorithm or trading desk, or related algorithms or trading desks. Transactions resulting from orders that originate from unrelated algorithms or separate and distinct trading strategies within the same firm would

generally be considered bona fide self-trades. Algorithms or trading strategies within the most discrete unit of an effective system of internal controls at a member firm are presumed to be related. This subsection (b) does not change Members' existing obligations under IEX Rule 3.110 and IEX Rule 5.110.

Rule 10.130. Excessive Sales by a Member

- (a) No Member shall execute purchases or sales in any security traded on the Exchange for any account in which such Member is directly or indirectly interested, which purchases or sales are excessive in view of the Member's financial resources or in view of the market for such security.

Rule 10.140. Manipulative Transactions

- (a) No Member shall participate or have any interest, directly or indirectly, in the profits of a manipulative operation or knowingly manage or finance a manipulative operation.
- (b) Any pool, syndicate or joint account organized or used intentionally for the purpose of unfairly influencing the market price of a security shall be deemed to be a manipulative operation.
- (c) The solicitation of subscriptions to or the acceptance of discretionary orders from any such pool, syndicate or joint account shall be deemed to be managing a manipulative operation.
- (d) The carrying on margin of a position in such security or the advancing of credit through loans to any such pool, syndicate or joint account shall be deemed to be financing a manipulative operation.
- (e) No member shall offer that a transaction or transactions to buy or sell a designated security will influence the closing transaction in that security.

Rule 10.150. Dissemination of False Information

- (a) No Member shall make any statement or circulate and disseminate any information concerning any security traded on the Exchange which such Member knows or has reasonable grounds for believing is false or misleading or would improperly influence the market price of such security.

Rule 10.160. Prohibition Against Trading Ahead of Customer Orders

- (a) Except as provided herein, a Member that accepts and holds an order in an equity security from its own customer or a customer of another broker-dealer without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.
- (b) A Member must have a written methodology in place governing the execution and priority of all pending orders that is consistent with the requirements of this IEX Rule. A Member also must ensure that this methodology is consistently applied.
- (c) Large Orders and Institutional Account Exceptions

With respect to orders for customer accounts that meet the definition of an "institutional account" or for orders of 10,000 shares or more (unless such orders are less than \$100,000 in value), a Member is permitted to trade a security on the same side of the market for its own account at a price that would satisfy such customer order, provided that

the Member has provided clear and comprehensive written disclosure to such customer at account opening and annually thereafter that:

- (1) discloses that the Member may trade proprietarily at prices that would satisfy the customer order, and
- (2) provides the customer with a meaningful opportunity to opt in to the IEX Rule 10.160 protections with respect to all or any portion of its order.

If the customer does not opt in to the IEX Rule 10.160 protections with respect to all or any portion of its order, the Member may reasonably conclude that such customer has consented to the Member trading a security on the same side of the market for its own account at a price that would satisfy the customer's order.

In lieu of providing written disclosure to customers at account opening and annually thereafter, a Member may provide clear and comprehensive oral disclosure to and obtain consent from the customer on an order-by-order basis, provided that the Member documents who provided such consent and such consent evidences the customer's understanding of the terms and conditions of the order.

For purposes of this IEX Rule, "institutional account" shall mean the account of:

- (A) a bank savings and loan association, insurance company or registered investment company;
- (B) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or
- (C) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

(d) No-Knowledge Exception

- (1) With respect to NMS stocks (as defined in Rule 600 under of the Securities and Exchange Commission's Regulation NMS), if a Member implements and utilizes an effective system of internal controls, such as appropriate information barriers, that operate to prevent one trading unit from obtaining knowledge of customer orders held by a separate trading unit, those other trading units trading in a proprietary capacity may continue to trade at prices that would satisfy the customer orders held by the separate trading unit. A Member that structures its order handling practices in NMS stocks to permit its proprietary and/or market-making desk to trade at prices that would satisfy customer orders held by a separate trading unit must disclose in writing to its customers, at account opening and annually thereafter, a description of the manner in which customer orders are handled by the Member and the circumstances under which the Member may trade proprietarily at its proprietary and/or market-making desk at prices that would satisfy the customer order.
- (2) If a Member implements and utilizes appropriate information barriers in reliance on this exception, the Member must uniquely identify such information barriers in place at the department within the Member where the order was received or originated. Appropriate information barriers must, at minimum, comply with the requirements set forth in IEX Rule 5.150.
- (3) Members must maintain records that indicate which orders rely on the No-Knowledge Exception and submit these records to the Exchange upon request.

(e) Riskless Principal Exception

The obligations under this IEX Rule shall not apply to a Member's proprietary trade if such proprietary trade is for the purposes of facilitating the execution, on a riskless principal basis, of an order from a customer (whether its own customer or the customer of another broker-dealer) (the "facilitated order"), provided that the Member:

- (1) submits a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to the Exchange (or another self-regulatory organization if not required under IEX Rules); and
- (2) has written policies and procedures to ensure that riskless principal transactions for which the Member is relying upon this exception comply with applicable IEX Rules. At a minimum these policies and procedures must require that the customer order was received prior to the offsetting principal transaction, and that the offsetting principal transaction is at the same price as the customer order exclusive of any markup or markdown, commission equivalent or other fee and is allocated to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

A Member must have supervisory systems in place that produce records that enable the Member and the Exchange to reconstruct accurately, readily, and in a time-sequenced manner all facilitated orders for which the Member relies on this exception.

(f) ISO Exception

A Member shall be exempt from the obligation to execute a customer order in a manner consistent with this IEX Rule with regard to trading for its own account that is the result of an inter-market sweep order ("ISO") routed in compliance with Rule 600(b)(30)(ii) of Regulation NMS where the customer order is received after the Member routed the ISO. Where a Member routes an ISO to facilitate a customer order and that customer has consented to not receiving the better prices obtained by the ISO, the Member also shall be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

(g) Odd Lot and Bona Fide Error Transaction Exceptions

The obligations under this IEX Rule shall not apply to a Member's proprietary trade that is (1) to offset a customer order that is in an amount less than a normal unit of trading; or (2) to correct a bona fide error. Members are required to demonstrate and document the basis upon which a transaction meets the bona fide error exception. For purposes of this IEX Rule, a bona fide error is:

- (1) the inaccurate conveyance or execution of any term of an order, including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market;
- (2) the unauthorized or unintended purchase, sale, or allocation of securities or the failure to follow specific client instructions;
- (3) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or
- (4) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.

(h) Minimum Price Improvement Standards

The minimum amount of price improvement necessary for a Member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security, and not be required to execute the held limit order is as follows:

- (1) For customer limit orders priced greater than or equal to \$1.00, the minimum amount of price improvement required is \$0.01 for NMS stocks;

- (2) For customer limit orders priced greater than or equal to \$0.01 and less than \$1.00, the minimum amount of price improvement required is the lesser of \$0.01 or one-half (1/2) of the current inside spread;
- (3) For customer limit orders priced less than \$0.01 but greater than or equal to \$0.001, the minimum amount of price improvement required is the lesser of \$0.001 or one-half (1/2) of the current inside spread;
- (4) For customer limit orders priced less than \$0.001 but greater than or equal to \$0.0001, the minimum amount of price improvement required is the lesser of \$0.0001 or one-half (1/2) of the current inside spread;
- (5) For customer limit orders priced less than \$0.0001 but greater than or equal to \$0.00001, the minimum amount of price improvement required is the lesser of \$0.00001 or one-half (1/2) of the current inside spread;
- (6) For customer limit orders priced less than \$0.00001, the minimum amount of price improvement required is the lesser of \$0.000001 or one-half (1/2) of the current inside spread; and
- (7) For customer limit orders priced outside the best inside market, the minimum amount of price improvement required must either meet the requirements set forth above or the Member must trade at a price at or inside the best inside market for the security.

In addition, if the minimum price improvement standards above would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this IEX Rule, even if those better-priced limit orders would not be directly triggered under the minimum price improvement standards above.

(i) Order Handling Procedures

A Member must make every effort to execute a marketable customer order that it receives fully and promptly. A Member that is holding a customer order that is marketable and has not been immediately executed must make every effort to cross such order with any other order received by the Member on the other side of the market up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the Member and that is consistent with the terms of the orders. In the event that a Member is holding multiple orders on both sides of the market that have not been executed, the Member must make every effort to cross or otherwise execute such orders in a manner that is reasonable and consistent with the objectives of this IEX Rule and with the terms of the orders. A Member can satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

(j) Trading Outside Normal Market Hours

Members generally may limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and Member agree to the processing of the customer's order outside normal market hours, the protections of this IEX Rule shall apply to that customer's order at all times the customer order is executable by the Member.

Rule 10.170. Joint Activity

- (a) No Member, directly or indirectly, shall hold any interest or participation in any joint account for buying or selling in a security traded on the Exchange, unless such joint account is promptly reported to the Exchange. The report should contain the following information for each account:
- (1) the name of the account, with names of all participants and their respective interests in profits and losses;
 - (2) a statement regarding the purpose of the account;
 - (3) the name of the Member carrying and clearing the account; and

- (4) a copy of any written agreement or instrument relating to the account.

Rule 10.180. Influencing the Consolidated Tape

- (a) No Member shall attempt to execute a transaction or transactions to buy or sell a security for the purpose of influencing any report appearing on the Consolidated Tape.

Rule 10.190. Trade Shredding

No Member or associated person of a Member may engage in “trade shredding”. Trade shredding is conduct that has the intent or effect of splitting any order into multiple smaller orders for execution or any execution into multiple smaller executions for the primary purpose of maximizing a monetary or in-kind amount to be received by the Member or associated person of a Member as a result of the execution of such orders or the transaction reporting of such executions. For purposes of this IEX Rule 10.190, “monetary or in-kind amount” shall be defined to include, but not be limited to, any credits, commissions, gratuities, payments for or rebates of fees, or any other payments of value to the Member or associated person of a Member.

Rule Series 10.200. TRADING OBLIGATIONS

Rule 10.210. Options

- (a) No Member shall initiate the purchase or sale on the Exchange for its own account, or for any account in which it is directly or indirectly interested, of any stock of any issuer in which it holds or has granted any put, call, straddle or option; provided, however, that this prohibition shall not be applicable in respect of any option issued by The Options Clearing Corporation.
- (b) No Member acting as an odd-lot dealer shall become interested directly or indirectly, in a pool dealing or trading in the stock of any issuer in which it is an odd-lot dealer, nor shall it acquire or grant directly or indirectly, any option to buy or sell, receive or deliver shares of stock of any issuer in which such Member is an odd-lot dealer, unless such option is issued by The Options Clearing Corporation.

Rule 10.220. Best Execution and Interpositioning

- (a) Best Execution
- (1) In any transaction for or with a customer or a customer of another broker-dealer, a Member and persons associated with a Member shall use reasonable diligence to ascertain the best market for the subject security and buy or sell in such market so that the resultant price to the customer is as favorable as possible under prevailing market conditions. Among the factors that will be considered in determining whether a Member has used “reasonable diligence” are:
- (A) the character of the market for the security (e.g., price, volatility, relative liquidity, and pressure on available communications);
 - (B) the size and type of transaction;
 - (C) the number of markets checked;
 - (D) accessibility of the quotation; and

(E) the terms and conditions of the order which result in the transaction, as communicated to the Member and persons associated with the Member.

(2) In any transaction for or with a customer or a customer of another broker-dealer, no Member or person associated with a Member shall interject a third party between the Member and the best market for the subject security in a manner inconsistent with paragraph (a)(1) of this IEX Rule 10.220.

(b) When a Member cannot execute directly with a market but must employ a broker's broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the Member.

(c) Failure to maintain or adequately staff a department assigned to execute customers' orders cannot be considered justification for executing away from the best available market; nor can channeling orders through a third party as described above as reciprocation for service or business operate to relieve a Member of its obligations under this IEX Rule.

(d) A Member through which an order is channeled and that knowingly is a party to an arrangement whereby the initiating Member has not fulfilled its obligations under this IEX Rule, will also be deemed to have violated this IEX Rule 10.220.

(e) The obligations described in paragraphs (a) through (d) above exist not only where the Member acts as agent for the account of its customer but also where transactions are executed as principal.

(f) Execution of Marketable Customer Orders

A Member must make every effort to execute a marketable customer order that it receives fully and promptly.

(g) Definition of "Market"

For the purposes of IEX Rule 10.220, the term "market" or "markets" is to be construed broadly, and it encompasses a variety of different venues, including, but not limited to, trading centers that are trading a particular security. This expansive interpretation is meant to both inform broker-dealers as to the breadth of the scope of venues that must be considered in the furtherance of their best execution obligations and to promote fair competition among broker-dealers, exchange markets, and markets other than exchange markets, as well as any other venue that may emerge, by not mandating that certain trading venues have less relevance than others in the course of determining a firm's best execution obligations.

(h) Best Execution and Executing Brokers

A Member's duty to provide best execution in any transaction "for or with a customer of another broker-dealer" does not apply in instances when another broker-dealer is simply executing a customer order against the Member's quote. The duty to provide best execution to customer orders received from other broker-dealers arises only when an order is routed from the broker-dealer to the Member for the purpose of order handling and execution. This clarification is intended to draw a distinction between those situations in which the Member is acting solely as the buyer or seller in connection with orders presented by a broker-dealer against the Member's quote, as opposed to those circumstances in which the Member is accepting order flow from another broker-dealer for the purpose of facilitating the handling and execution of such orders.

(i) Use of a Broker's Broker

Paragraph (b) of this IEX Rule 10.220 provides that when a Member cannot execute directly with a market but must employ a broker's broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the Member. Examples of acceptable

circumstances are where a customer's order is "crossed" with another firm that has a corresponding order on the other side, or where the identity of the firm, if known, would likely cause undue price movements adversely affecting the cost or proceeds to the customer.

(j) Orders Involving Securities with Limited Quotations or Pricing Information

Although the best execution requirements in this IEX Rule 10.220 apply to orders in all securities, markets for securities differ dramatically. One of the areas in which a Member must be especially diligent in ensuring that it has met its best execution obligations is with respect to customer orders involving securities for which there is limited pricing information or quotations available. Each Member must have written policies and procedures in place that address how the Member will determine the best inter-dealer market for such a security in the absence of pricing information or multiple quotations and must document its compliance with those policies and procedures. For example, a Member should analyze pricing information based on other data, such as previous trades in the security, to determine whether the resultant price to the customer is as favorable as possible under prevailing market conditions. In these instances, a Member should generally seek out other sources of pricing information or potential liquidity, which may include obtaining quotations from other sources (e.g., other firms that the Member previously has traded within the security).

(k) Customer Instructions Regarding Order Handling

If a Member receives an unsolicited instruction from a customer to route that customer's order to a particular market for execution, the Member is not required to make a best execution determination beyond the customer's specific instruction. Members are, however, still required to process that customer's order promptly and in accordance with the terms of the order and its instructions. Where a customer has directed that an order be routed to another specific broker-dealer that is also a FINRA Member, the receiving broker-dealer to which the order was directed would be required to meet the requirements of FINRA Rule 5310 with respect to its handling of the order.

(l) Regular and Rigorous Review of Execution Quality

No Member can transfer to another person its obligation to provide best execution to its customers' orders. A Member that routes customer orders to other broker-dealers for execution on an automated, non-discretionary basis, as well as a Member that internalizes customer order flow, must have procedures in place to ensure the Member periodically conducts regular and rigorous reviews of the quality of the executions of its customers' orders if it does not conduct an order-by-order review. The review must be conducted on a security-by-security, type-of-order basis (e.g., limit order, market order, and market on open order). At a minimum, a Member must conduct such reviews on a quarterly basis; however, Members should consider, based on the firm's business, whether more frequent reviews are needed.

(m) In conducting its regular and rigorous review, a Member must determine whether any material differences in execution quality exist among the markets trading the security and, if so, modify the Member's routing arrangements or justify why it is not modifying its routing arrangements. To assure that order flow is directed to markets providing the most beneficial terms for their customers' orders, the Member must compare, among other things, the quality of the executions the Member is obtaining via current order routing and execution arrangements (including the internalization of order flow) to the quality of the executions that the Member could obtain from competing markets. In reviewing and comparing the execution quality of its current order routing and execution arrangements to the execution quality of other markets, a Member should consider the following factors:

- (1) price improvement opportunities (i.e., the difference between the execution price and the best quotes prevailing at the time the order is received by the market);
- (2) differences in price disimprovement (i.e., situations in which a customer receives a worse price at execution than the best quotes prevailing at the time the order is received by the market);

- (3) the likelihood of execution of limit orders;
- (4) the speed of execution;
- (5) the size of execution;
- (6) transaction costs;
- (7) customer needs and expectations; and
- (8) the existence of internalization or payment for order flow arrangements.

(n) A Member that routes its order flow to another Member that has agreed to handle that order flow as agent for the customer (e.g., a clearing firm or other executing broker-dealer) can rely on that Member's regular and rigorous review as long as the statistical results and rationale of the review are fully disclosed to the Member and the Member periodically reviews how the review is conducted, as well as the results of the review.

.01 Best Execution and Information Leakage

In FINRA Regulatory Notice 15-46, FINRA provides guidance, among other things, on best execution obligations in equity markets. FINRA notes that in conducting a review of execution quality in any security, a firm should consider a variety of relevant factors. For a firm that routinely routes a customer order to multiple trading centers, one such factor that is highlighted is information leakage and the impact of information leakage on execution quality. In particular, FINRA notes that: "[f]irms should consider the risk of information leakage by routing orders to a particular venue in light of the fill rates achieved at that venue and carefully assess whether the risks outweigh the potential for an execution."

ISE's order execution and routing methodology are designed to substantially reduce potential information leakage related to executions on IEX.

Rule 10.230. Publication of Transactions and Changes

- (a) The Exchange shall cause to be disseminated for publication on the Consolidated Tape all last sale price reports of transactions executed through the facilities of the Exchange pursuant to the requirements of an effective transaction reporting plan approved by the Commission.
- (b) To facilitate the dissemination of such last sale price reports, each Member shall cause to be reported to the Exchange, as promptly as possible after execution, all information concerning each transaction required by the effective transaction reporting plan.
- (c) An official of the Exchange shall approve any corrections to reports transmitted over the consolidated tape. Any such corrections shall be made within one day after detection of the error.

Rule 10.240. Trading Ahead of Research Reports

- (a) No Member shall establish, increase, decrease or liquidate an inventory position in a security or a derivative of such security based on non-public advance knowledge of the content or timing of a research report in that security.
- (b) Members must establish, maintain and enforce policies and procedures reasonably designed to restrict or limit the information flow between research department personnel, or other persons with knowledge of the content or timing of a research report, and trading department personnel, so as to prevent trading department personnel from utilizing

non-public advance knowledge of the issuance or content of a research report for the benefit of the Member or any other person.

Rule 10.250. Obligation to Honor System Trades

If a Member, or clearing member acting on a Member's behalf, is reported by the System, or shown by the activity reports generated by the System, as constituting a side of a System trade, such Member, or clearing member acting on its behalf, shall honor such trade on the scheduled settlement date.

Rule 10.260. Front Running of Block Transactions

- (a) Members and persons associated with a Member shall comply with FINRA Rule 5270 as if such Rule were part of the Exchange's rules.
- (b) Front Running of Non-Block Transactions. Although the prohibitions in FINRA Rule 5270 are limited to imminent block transactions, the front running of other types of orders that place the financial interests of the Member or persons associated with a Member ahead of those of its customer or the misuse of knowledge of an imminent customer order may violate other IEX Rules, including Rule 3.110 and Rule 10.160, or provisions of the federal securities laws.

Rule 10.270 Disruptive Quoting and Trading Activity Prohibited

No Member shall engage in or facilitate disruptive quoting and trading activity on the Exchange, as described in Supplementary Material .01 and .02 of this Rule, including acting in concert with other persons to effect such activity.

• • • Supplementary Material • • •

.01 For purposes of this Rule, disruptive quoting and trading activity shall include a frequent pattern in which the following facts are present:

(a) Disruptive Quoting and Trading Activity Type 1:

- (1) a party enters multiple limit orders on one side of the market at various price levels (the "Displayed Orders"); and*
- (2) following the entry of the Displayed Orders, the level of supply and demand for the security changes; and*
- (3) the party enters one or more orders on the opposite side of the market of the Displayed Orders (the "Contra-Side Orders") that are subsequently executed; and*
- (4) following the execution of the Contra-Side Orders, the party cancels the Displayed Orders.*

(b) Disruptive Quoting and Trading Activity Type 2:

- (1) a party narrows the spread for a security by placing an order inside the NBBO; and*
- (2) the party then submits an order on the opposite side of the market that executes against another market participant that joined the new inside market established by the order described in paragraph (b)(1).*

.02 Applicability. For purposes of this Rule, disruptive quoting and trading activity shall include a frequent pattern in which the facts listed above are present. Unless otherwise indicated, the order of the events indicating the pattern does not modify the applicability of the Rule. Further, disruptive quoting and trading activity includes a pattern or practice in which all of the quoting and trading activity is conducted on the Exchange as well as a pattern or practice in which some portion

of the quoting or trading activity is conducted on the Exchange and the other portions of the quoting or trading activity is conducted on one or more other exchanges.

CHAPTER 11. TRADING RULES

Rule Series 11.100. GENERAL TRADING RULES

Rule 11.110. Hours of Trading and Trading Days

When any holiday observed by the Exchange falls on a Sunday, the Exchange will not be open for business on the following Monday, unless otherwise indicated by the Exchange.
- (c) The Chief Executive Officer of the Exchange, or his designee, who must be a senior officer of the Exchange, shall have the power to halt, suspend trading in any and all securities traded on the Exchange, to close some or all Exchange facilities, and to determine the duration of any such halt, suspension, or closing, when he deems such action necessary for the maintenance of fair and orderly markets, the protection of investors, or otherwise in the public interest including special circumstances such as (1) actual or threatened physical danger, severe climatic conditions, civil unrest, terrorism, acts of war, or loss or interruption of facilities utilized by the Exchange, (2) a request by a governmental agency or official, or (3) a period of mourning or recognition for a person or event. No such action shall continue longer than a period of two days, or as soon thereafter as a quorum of Directors can be assembled, unless the Board approves the continuation of such suspension.

Rule 11.120. Securities Eligible for Trading

The Exchange shall designate securities for trading. Any class of securities listed or admitted to unlisted trading privileges on the Exchange shall be eligible to become designated for trading on the Exchange in accordance with the Rules of Chapters 14 and 16. All securities designated for trading are eligible for odd-lot, round-lot and mixed-lot executions, unless otherwise indicated by the Exchange or limited pursuant to the IEX Rules.

Rule 11.130. Access

- (e) To be eligible for registration as an AT of a Member a person must successfully complete the General Securities Representative Examination (Series 7) or the Securities Traders Qualification Examination (Series 57), or an equivalent foreign examination module approved by the Exchange as defined in Rule 2.160(h) and (i), and any other training and/or certification programs as may be required by the Exchange.

Rule 11.150. Registration as a Market Maker

- (a) Quotations and quotation sizes may be entered into IEX only by a Member registered as an IEX Market Maker or other entity approved by IEX to function in a market-making capacity.
- (b) An IEX Market Maker may become registered in an issue by entering a registration request via an IEX approved electronic interface with IEX's systems or by contacting IEX Market Operations. Registration shall become effective on the day the registration request is entered.
- (c) An IEX Market Maker's registration in an issue shall be terminated by IEX if the market maker fails to enter quotations in the issue within five (5) business days after the market maker's registration in the issue becomes effective.

Rule 11.151. Market Maker Obligations

A Member registered as a Market Maker shall engage in a course of dealings for its own account to assist in the maintenance, insofar as reasonably practicable, of fair and orderly markets in accordance with this IEX Rule.

(a) Quotation Requirements and Obligations

- (1) **Two-Sided Quote Obligation.** For each security in which a Member is registered as a Market Maker, the Member shall be willing to buy and sell such security for its own account on a continuous basis during regular market hours and shall enter and maintain a two-sided trading interest ("Two-Sided Obligation") that is identified to the Exchange as the interest meeting the obligation and is displayed in the Exchange's quotation at all times. Interest eligible to be considered as part of a Market Maker's Two-Sided Obligation shall have a displayed quotation size of at least one normal unit of trading (or a larger multiple thereof); provided, however, that a Market Maker may augment its Two-Sided Obligation size to display limit orders priced at the same price as the Two-Sided Obligation. Unless otherwise designated, a "normal unit of trading" shall be 100 shares. After an execution against its Two-Sided Obligation, a Market Maker must ensure that additional trading interest exists in the Exchange to satisfy its Two-Sided Obligation either by immediately entering new interest to comply with this obligation to maintain continuous two-sided quotations or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.
- (2) **Pricing Obligations.** For NMS stocks (as defined in Rule 600 under Regulation NMS) a Market Maker shall adhere to the pricing obligations established by this IEX Rule during the Regular Market Session; provided, however, that such pricing obligations (i) shall not commence during any trading day until after the first regular way transaction on the primary listing market in the security, as reported by the responsible single plan processor, and (ii) shall be suspended during a trading halt, suspension, or pause, and shall not re-commence until after the first regular way transaction on the primary listing market in the security following such halt, suspension, or pause, as reported by the responsible single plan processor.
- (3) **Bid Quotations.** At the time of entry of bid interest satisfying the Two-Sided Obligation, the price of the bid interest shall be not more than the Designated Percentage lower than the then current National Best Bid, or if no National Best Bid, not more than the Designated Percentage lower than the last reported sale from the responsible single plan processor. In the event that the National Best Bid (or if no National Best Bid, the last reported sale) increases to a level that would cause the bid interest of the Two-Sided Obligation to be more than the Defined Limit lower than the National Best Bid (or if no National Best Bid, the last reported sale), or if the bid is executed or canceled, the Market Maker shall enter new bid interest at a price not more than the Designated Percentage lower than the then current National Best Bid (or if no National Best Bid, the last reported sale), or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.

- (4) Offer Quotations. At the time of entry of offer interest satisfying the Two-Sided Obligation, the price of the offer interest shall be not more than the Designated Percentage higher than the then current National Best Offer, or if no National Best Offer, not more than the Designated Percentage higher than the last reported sale received from the responsible single plan processor. In the event that the National Best Offer (or if no National Best Offer, the last reported sale) decreases to a level that would cause the offer interest of the Two-Sided Obligation to be more than the Defined Limit higher than the National Best Offer (or if no National Best Offer, the last reported sale), or if the offer is executed or canceled, the Market Maker shall enter new offer interest at a price not more than the Designated Percentage higher than the then current National Best Offer (or if no National Best Offer, the last reported sale), or identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.
- (5) The National Best Bid and Offer shall be determined by the Exchange in accordance with its procedures for determining protected quotations under Rule 600 under Regulation NMS.
- (6) For purposes of this IEX Rule, the "Designated Percentage" shall be eight (8) percentage points for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 28% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 30% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products; except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Designated Percentage shall be 20% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products, 28% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products, and 30% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products. The Designated Percentage for rights and warrants shall be 30%.
- (7) For purposes of this IEX Rule, the "Defined Limit" shall be 9.5% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 29.5% for with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 31.5% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products; except that between 9:30 a.m. and 9:45 a.m. and between 3:35 p.m. and the close of trading, the Defined Limit shall be 21.5% for securities that are included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; 29.5% for securities with a price equal to or greater than \$1 per share that are not included in the S&P 500®, Russell 1000® Index, or a pilot list of Exchange Traded Products; and 31.5% for securities with a price less than \$1 per share that are not included in the S&P 500® Index, Russell 1000® Index, or a pilot list of Exchange Traded Products.
- (8) Reserved.
- (9) Reserved.
- (10) Nothing in this IEX Rule shall preclude a Market Marker from quoting at price levels that are closer to the National Best Bid and Offer than the levels required by this IEX Rule.
- (11) The minimum quotation increment for quotations of \$1.00 or above in all System Securities shall be \$0.01. The minimum quotation increment in the System for quotations below \$1.00 in System Securities shall be \$0.0001.
- (12) The individual Market Participant Identifier ("MPID") assigned to a Member to meet its Two-Sided Obligation pursuant to subparagraph (a)(1) of this IEX Rule shall be referred to as the Member's "Primary MPID." Market Makers may request the use of additional MPIDs that shall be referred to as "Supplemental MPIDs." A Market

Maker that ceases to meet the obligations appurtenant to its Primary MPID in any security shall not be permitted to use a Supplemental MPID for any purpose in that security.

- (13) Market Makers that are permitted the use of Supplemental MPIDs pursuant to subparagraph (12) above of this IEX Rule are subject to the same rules applicable to the Members' first quotation, with one exception: the continuous two-sided quote requirement and excused withdrawal procedures described in IEX Rule 11.152 do not apply to Market Makers' Supplemental MPIDs. Supplemental MPIDs may be identified to the Exchange as interest to satisfy a Market Maker's two-sided obligation, in which case in order to be satisfactory, the Supplemental MPID's interest must be no more than the Designated Percentage from the NBBO as described and defined in this IEX Rule 11.151(a).

(b) Firm Quotations

- (1) All quotations and orders to buy and sell entered into the System by IEX Market Makers are firm and automatically executable for their displayed and non-displayed size in the System by all Users. A particular IEX Market Maker's quotations may be canceled rather than executed if designated with an AGID modifier which is the same as that of an active opposite side order and originating from the same group type as the Market Maker's order to buy or sell, as set forth in IEX Rule 11.190(e). Notwithstanding the foregoing, Market Makers may not use AGID modifiers to evade the firm quotation obligation.

(c) Impaired Ability to Enter or Update Quotations.

- (1) In the event that an IEX Market Maker's ability to enter or update quotations is impaired, the market maker shall immediately contact IEX Market Operations to request the withdrawal of its quotations.
- (2) In the event that an IEX Market Maker's ability to enter or update quotations is impaired and the market maker elects to remain in IEX, the IEX Market Maker shall execute an offer to buy or sell received from another Member at its quotations as disseminated through the Exchange.

(d) Reserved.

(e) Locked and Crossed Markets.

- (1) Locked and Crossed Markets within the System: Any quotes or orders that are entered into the System that would lock or cross another order in the System will be executed by the System. For displayed orders only, this processing, set forth in IEX Rule 11.190(h)(1), ensures that no locked or crossed markets can exist within the System and that price improvement is allocated fairly.

- (2) Inter-market Locked and Crossed Markets.

(A) Definitions. For purposes of this IEX Rule, the following definitions shall apply:

- (i) The terms automated quotation, effective national market system plan, intermarket sweep order, manual quotation, NMS stock, protected quotation, the Regular Market Session, and trading center shall have the meanings set forth in Rule 600(b) of Regulation NMS under the Securities Exchange Act of 1934.
- (ii) The term "Crossing Quotation" shall mean the display of a bid for an NMS stock during the Regular Market Session at a price that is higher than the price of an offer for such NMS stock previously disseminated pursuant to an effective national market system plan, or the display of an offer for an NMS stock during the Regular Market Session at a price that is lower than the price of a bid for such NMS stock previously disseminated pursuant to an effective national market system plan.

- (iii) The term “Locking Quotation” shall mean the display of a bid for an NMS stock during the Regular Market Session at a price that equals the price of an offer for such NMS stock previously disseminated pursuant to an effective national market system plan, or the display of an offer for an NMS stock during the Regular Market Session at a price that equals the price of a bid for such NMS stock previously disseminated pursuant to an effective national market system plan.
- (B) Prohibition. Except for quotations that fall within the provisions of paragraph (C) of this IEX Rule, IEX Members shall reasonably avoid displaying, and shall not engage in a pattern or practice of displaying any quotations that lock or cross a protected quotation, and any manual quotations that lock or cross a quotation previously disseminated pursuant to an effective national market system plan.
- (C) Exceptions.
 - (i) The locking or crossing quotation was displayed at a time when the trading center displaying the locked or crossed quotation was experiencing a failure, material delay, or malfunction of its systems or equipment.
 - (ii) The locking or crossing quotation was displayed at a time when a Protected Bid was higher than a Protected Offer in the NMS stock.

Rule 11.152. Withdrawal of Quotations

- (a) Except as provided in paragraph (b) of this IEX Rule, a market maker that wishes to withdraw quotations in a security shall contact IEX Regulation to obtain excused withdrawal status prior to withdrawing its quotations. Withdrawals of quotations shall be granted by IEX Regulation only upon satisfying one of the conditions specified in this IEX Rule.
- (b) An IEX Market Maker that wishes to obtain excused withdrawal status based on a market maker’s systemic equipment problems, such as defects in an IEX Market Maker’s software or hardware systems or connectivity problems associated with the circuits connecting Exchange systems with the IEX Market Maker’s systems, shall contact IEX Market Operations. IEX Market Operations may grant excused withdrawal status based on systemic equipment problems for up to five (5) business days, unless extended by IEX Market Operations.
- (c) For securities listed on exchanges other than IEX, an IEX Market Maker that wishes to withdraw quotations shall contact IEX Regulation to obtain excused withdrawal status prior to withdrawing its quotations. Excused withdrawal status based on illness, vacations or physical circumstances beyond the Market Maker’s control may be granted for up to five (5) business days, unless extended by IEX Regulation. Excused withdrawal status based on investment activity or advice of legal counsel, accompanied by a representation that the condition necessitating the withdrawal of quotations is not permanent in nature, may, upon written request, be granted for not more than sixty (60) days. The withdrawal of quotations because of pending news, a sudden influx of orders or price changes, or to effect transactions with competitors shall not normally constitute acceptable reasons for granting excused withdrawal status, unless IEX has initiated a trading halt for Market Makers in the security, pursuant to IEX Rule 11.280.
- (d) Excused withdrawal status may be granted to an IEX Market Maker that fails to maintain a clearing arrangement with a registered clearing agency or with a Member of such an agency and is withdrawn from participation in the trade reporting service of the Exchange, thereby terminating its registration as an IEX Market Maker. Provided however, that if IEX finds that the IEX Market Maker’s failure to maintain a clearing arrangement is voluntary, the withdrawal of quotations will be considered voluntary and unexcused pursuant to IEX Rule 2.190 and the Rule 11 Series governing the Exchange. IEX Market Makers that fail to maintain a clearing relationship will have their Exchange system status set to “suspend” and be thereby prevented from entering, or executing against, any quotes/orders in the System.

- (e) Reserved.
- (f) The IEX Appeals Committee shall have jurisdiction over proceedings brought by IEX Market Makers seeking review of the denial of an excused withdrawal pursuant to this IEX Rule, or the conditions imposed on their re-entry.
- (g) An IEX Market Maker that wishes to reinstate its quotations in a security after an excused withdrawal pursuant to IEX Rule 11.152 shall contact IEX to notify IEX of its intention to be reinstated. Upon confirmation by IEX that the market maker is reinstated, the market maker will have no longer than ten minutes to meet its market making obligations under IEX Rule 11.152.

Rule 11.153. Voluntary Termination of Registration

- (a) An IEX Market Maker may voluntarily terminate its registration in a security by withdrawing its two-sided quotation from the Exchange. An IEX Market Maker that voluntarily terminates its registration in a security may not re-register as a market maker in that security for twenty (20) business days in the case of IEX-listed securities or for one (1) business day in the case of other securities. Withdrawal from participation as an IEX Market Maker in the Exchange shall constitute termination of registration as a market maker in that security for purposes of this IEX Rule; provided, however, that an IEX Market Maker that fails to maintain a clearing arrangement with a registered clearing agency or with a Member of such an agency and is withdrawn from participation in the Exchange and thereby terminates its registration as an IEX Market Maker may register as an IEX Market Maker at any time after a clearing arrangement has been reestablished unless IEX finds that the IEX Market Maker's failure to maintain a clearing arrangement is voluntary, in which case the withdrawal of quotations will be considered voluntary and unexcused.
- (b) Notwithstanding the above, an IEX Market Maker that accidentally withdraws as an IEX Market Maker may be reinstated if:
 - (1) The IEX Market Maker notified Regulation of the accidental withdrawal as soon as practicable under the circumstances, but within at least one hour of such withdrawal, and immediately thereafter provided written notification of the withdrawal and reinstatement request;
 - (2) It is clear that the withdrawal was inadvertent and the IEX Market Maker was not attempting to avoid its market making obligations; and
 - (3) The IEX Market Maker's firm would not exceed the following reinstatement limitations:
 - (A) For firms that simultaneously made markets in less than 250 stocks during the previous calendar year, the firm can receive no more than two (2) reinstatements per year;
 - (B) For firms that simultaneously made markets in 250 or more but less than 500 stocks during the previous calendar year, the firm can receive no more than three (3) reinstatements per year; and
 - (C) For firms that simultaneously made markets in 500 or more stocks during the previous calendar year, the firm can receive no more than six (6) reinstatements per year.
- (c) Factors that IEX will consider in granting a reinstatement under paragraph (b) of this IEX Rule include, but are not limited to:
 - (1) The number of accidental withdrawals by the IEX Market Maker in the past, as compared with IEX Market Makers making markets in a comparable number of stocks;
 - (2) The similarity between the symbol of the stock that the IEX Market Maker intended to withdraw from and the symbol of the stock that the IEX Market Maker actually withdrew from;

- (3) Market conditions at the time of the withdrawal;
 - (4) Whether, given the market conditions at the time of the withdrawal, the withdrawal served to reduce the exposure of the Member's position in the security at the time of the withdrawal to market risk; and
 - (5) The timeliness with which the IEX Market Maker notified Regulation of the error.
- (d) For purposes of paragraph (a) of this IEX Rule, a Market Maker shall not be deemed to have voluntarily terminated its registration in a security by voluntarily withdrawing its two-sided quotation from the Exchange if the IEX Market Maker's two-sided quotation in the subject security is withdrawn by IEX's systems due to issuer corporate action related to a dividend, payment or distribution, or due to a trading halt, and one of the following conditions is satisfied:
- (1) The IEX Market Maker enters a new two-sided quotation prior to the close of the
 - (2) Regular Market Session on the same day when IEX's systems withdrew such a quotation;
 - (3) The IEX Market Maker enters a new two-sided quotation on the day when trading resumes following a trading halt, or, if the resumption of trading occurs when the market is not in regular session, the IEX Market Maker enters a new two-sided quotation prior to the opening of the next Regular Market Session; or
 - (4) Upon request from the market maker, IEX Regulation authorizes the market maker to enter a new two-sided quotation, provided that IEX Regulation receives the market maker's request prior to the close of the Regular Market Session on the next regular trading day after the day on which the Market Maker became eligible to re-enter a quotation pursuant to subparagraph (d)(1) or (d)(2) hereof and determines that the IEX Market Maker was not attempting to avoid its market making obligations by failing to re-enter such a quotation earlier.
- (e) The IEX Appeals Committee shall have jurisdiction over proceedings brought by IEX Market Makers seeking review of their denial of a reinstatement pursuant to paragraphs (b) or (d) of this IEX Rule.

Rule 11.154. Suspension and Termination of Quotations

IEX may, pursuant to the procedures set forth in Chapter 9, suspend, condition, limit, prohibit or terminate the authority of an IEX Market Maker or Member Firm to enter quotations in one or more authorized securities for violations of applicable requirements or prohibitions.

Rule 11.160. Reserved.

Rule 11.170. Reserved.

Rule 11.180. Units of Trading

- (a) One hundred (100) shares shall constitute a "round lot" or "normal unit of trade," any amount less than 100 shares shall constitute an "odd lot," and any amount greater than 100 shares that is not a multiple of a round lot shall constitute a "mixed lot." Certain securities, as designated by their Listing Markets, have a normal unit of trade of less than 100 shares, and so the Exchange shall conform to the direction of the Listing Markets.
- (b) The minimum unit of trading on the System shall be one share.

Rule 11.190. Orders and Modifiers

Users may enter into the System the types of orders listed in this IEX Rule 11.190, subject to the limitations set forth in this IEX Rule or elsewhere in the IEX Rules. Order, modifier, and parameter combinations which are disallowed by the

Exchange may be rejected, ignored, or overridden by the Exchange, as determined by the Exchange to facilitate the most orderly handling of User instructions.

(a) General Order Types.

- (1) Limit Order. An order to buy or sell a stated amount of a security at a specified price (“limit price”) or better. A “marketable” limit order is a limit order to buy (sell) at or above (below) the lowest (highest) Protected Offer (Bid) for the security. A limit order:
 - (A) May have any time-in-force (“TIF”) supported by the System as described in paragraph (c) of this IEX Rule.
 - (B) May be either IEX Only or routable.
 - (C) May be an ISO, as defined in paragraph (b)(12) below. ISOs must be marked with a TIF of IOC.

Any portion of a market order that is designated as “IEX Only” will be canceled if, upon receipt by the System, it cannot be executed by the Exchange in accordance with Rules 11.230 and 11.230(a). Any portion of a market order that is not designated as “IEX Only,” i.e. routable orders as described in IEX Rule 11.230(b), and that cannot be executed in full in accordance with Rule 11.230(a)(1) and 11.230(a) on the Exchange when reaching the Exchange will be eligible for routing away pursuant to IEX Rule 11.230(a)(2). A routable market order will trade at increasingly aggressive prices, fully satisfying all Protected Quotations, until the order is fully filled, reaches the LULD band, or reaches the Router Constraint, as defined in IEX Rule 11.190(f)(2). A market order:
- (A) Must have a TIF of IOC, FOK, or, depending on the User election, may have a TIF of DAY.

 - (iv) Market orders marked GTT are rejected.
 - (v) Market orders marked GTX are rejected.
 - (vi) Market orders marked SYS are rejected.
 - (F) May be a MQTY, as defined in paragraph (b)(11) below.
 - (G) Market orders are never displayable.
- (3) **Pegged Order.** A non-displayed order that upon entry into the System and while resting on the Order Book, is pegged to a reference price based on the NBBO and the price of the order is automatically adjusted by the System in response to changes in the NBBO. A User can specify to peg the order to one of the following reference prices: the inside quote on the same side of the market (“primary peg”); the midpoint of the NBBO (“midpoint peg”); or the midpoint of the NBBO upon entry, the inside quote on the same side of the market while resting, and available for execution against opposing orders within its discretionary range (i.e. from the resting price to the Midpoint Price or the order’s limit, whichever is less aggressive) at a price that uses the minimum amount of discretion necessary to execute the order against an active order (“Discretionary Peg”). A pegged order may have a limit price beyond which the order shall not be executed. A midpoint pegged order or a Discretionary Peg order may be executed in sub-pennies if necessary to obtain a Midpoint Price. A pegged order:

- (A) May have any TIF described in paragraph (c) of this IEX Rule. Primary peg orders may not have a TIF of IOC or FOK.
- (B) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
- (C) May not be an ISO, as defined in paragraph (b)(12) below.
- (D) May be submitted with a limit price or without a limit price (an “unpriced pegged order”).
- (E) May only trade during the Regular Market Session. Pegged orders submitted in the Pre-Market Session may queue for the Opening Process as defined below. Pegged orders submitted during the Post-Market Session will be rejected by the System.
 - (i) Pegged orders marked IOC are rejected during the Pre-Market Session and Post-Market Session. Pegged orders marked IOC are accepted and eligible to trade during the Regular Market Session. Primary peg orders marked IOC are always rejected.
 - (ii) Pegged orders marked FOK are rejected during the Pre-Market Session and Post-Market Session. Pegged orders marked FOK are accepted and eligible to trade during the Regular Market Session. Primary peg orders marked FOK are always rejected.
 - (iii) Pegged orders marked DAY submitted before the open of the Regular Market Session are queued by the System until the Regular Market Session Opening Process, pursuant to IEX Rule 11.231. Pegged orders marked DAY submitted during the Regular Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked DAY, if not fully executed or canceled by the User, expire at the end of the Regular Market Session. Pegged orders marked DAY are rejected during the Post-Market Session.
 - (iv) Pegged orders marked GTT are rejected during the Pre-Market Session and Post-Market Session. Pegged orders marked GTT submitted during the Regular Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked GTT, if not fully executed or canceled by the User, expire at the earlier of the expiration time assigned by the User or the end of the Regular Market Session.
 - (v) Pegged orders marked GTX are rejected during the Pre-Market Session and Post-Market Session. Pegged orders marked GTX submitted during the Regular Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked GTX, if not fully executed or canceled by the User, expire at the end of the Regular Market Session.
 - (vi) Pegged orders marked SYS are rejected during the Pre-Market Session and Post-Market Session. Pegged orders marked SYS submitted during the Regular Market Session are accepted and begin trading immediately. Pegged orders entered into the System marked SYS, if not fully executed or canceled by the User, expire at the end of the Regular Market Session.
- (F) May be a MQTY, as defined in paragraph (b)(11) below.
- (G) Is not eligible to display. Pegged orders are always non-displayed.

(4) All Orders are processed, prioritized, time-stamped, and managed as described in IEX Rule 11.220.

(b) Order Parameters.

- (1) Displayed Order. An order with its full quantity displayed. Limit orders, other than those marked IOC or FOK, may have their unexecuted portions posted on the Order Book. All such orders are considered fully displayed

by the System, except those orders marked otherwise by Users, or prohibited from being displayed by the Rules. Displayed orders and displayed portions of orders may be referred to as “quotations” of the Exchange. All Exchange quotations are firm, which means they are automatically executable for their displayed size in the System. All Exchange quotations compete for priority as displayed orders pursuant to IEX Rule 11.220. A displayed order:

- (A) Must be a limit order.
 - (B) Must have a TIF of DAY, GTX, SYS, or GTT.
 - (C) May be either IEX Only or routable.
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) Must be submitted with a limit price.
 - (F) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (G) May not be a MQTY, as defined in paragraph (11) below.
 - (H) Must be at least one round lot. If an order marked for display is submitted with, or decremented either by execution or the User order amendment to an order quantity of less than one round lot, it will be treated as an odd lot order which is by definition, non-displayed and will receive a new time stamp, pursuant to IEX Rule 11.220(a)(3).
 - (I) Is not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (2) Reserve Order. An order with a portion of the quantity displayed (“display quantity”) and with a non-displayed reserve portion of the quantity (“reserve quantity”). The User instructed display quantity must be equal to or greater than a round lot; the System will reject a reserve order with a User instructed display quantity less than a round lot. An incoming reserve order is first processed as a single order of its full, unexecuted share size as it checks the Order Book for eligible resting contra interest. If it is not fully executed, it will be posted to the Order Book and effectively be treated as two discrete orders: one displayed for the User instructed quantity (“displayed portion”), and one non-displayed for all other remaining, unexecuted shares (“non-displayed portion”). For the purposes of pricing reserve orders on the Order Book, displayed portions are treated as displayed orders and non-displayed portions are treated as non-displayed orders. As described in IEX Rule 11.190(h), it is possible for the non-displayed portion to rest at a different price than the displayed portion, since the non-displayed portion is subject to the Midpoint Price Constraint while the displayed portion is subject to display-price sliding. If the displayed portion of the reserve order is decremented such that less than one round lot would be displayed, the displayed portion of the reserve order shall be refreshed for either (i) the original displayed quantity, or (ii) the entire reserve quantity, if the total number of unexecuted shares in the order is smaller than the original User instructed displayed quantity. Each time the displayed portion of the order is refreshed from the reserve quantity, that portion is prioritized behind other existing displayed orders; the priority of the non-displayed portion, however, is unchanged by the refresh process. A reserve order:
- (A) Must be a limit order.
 - (B) Must have a TIF of DAY, GTX, SYS, or GTT.
 - (C) May be either IEX Only or routable.
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) Must be submitted with a limit price.

- (F) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Trading Session.
 - (G) May not be a MQTY, as defined in paragraph (11) below.
 - (H) Must be at least one round lot. If an order marked for display is submitted with, or decremented either by execution or the User order amendment to an order quantity of less than one round lot, it will be treated as an odd lot order which is by definition non-displayed and will receive a new time stamp, pursuant to IEX Rule 11.220(a)(3).
 - (I) Displayed portions of reserve orders are not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (3) Non-Displayed Order. An order for which no portion is displayed on the Exchange. A non-displayed order:
- (A) May be a market order, limit order, or pegged order. Note that pegged orders must be non-displayed. Additionally, note that market orders are never eligible to rest on the Order Book, and are therefore considered by definition to be non-displayable.
 - (B) May have any TIF described in section (c) of this IEX Rule. Note that IOC and FOK orders are never eligible to rest on the Order Book, and are therefore considered by definition to be non-displayable.
 - (C) May be either IEX Only or routable.
 - (D) May be an ISO, as defined in paragraph (12) below. ISOs may only be marked with a TIF of IOC.
 - (E) May be submitted with a limit price, but not required if a market order or pegged order.
 - (F) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) May be an odd lot, round lot, or mixed lot.
 - (I) Is eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D), except in the case of primary peg orders.
- (4) Odd Lot Order. An order to buy or sell an odd lot as defined by Rule 11.180. Odd lot orders are non-displayed orders. Orders that upon entry are less than one round lot are determined to be non-displayed orders. Displayed orders which are decremented by execution or User order amendment to less than one round lot will be treated by the System as non-displayed orders.
- (5) Mixed Lot Order. An order to buy or sell a mixed lot as defined by Rule 11.180. Odd lot portions of mixed lot orders marked for display are only eligible to be Protected Quotations if aggregated to form a round lot. Displayed orders that are decremented by execution or User order amendment to less than one round lot will be converted by the System to non-displayed orders.
- (6) IEX Only Order. An order that is to be ranked and executed on the Exchange pursuant to IEX Rule 11.220 and IEX Rule 11.230(a)(1) or canceled, without routing away to an away trading center. An IEX Only order posting to the Order Book, will be subject to the price sliding process as set forth in paragraph (h).
- (7) Reserved.
- (8) Primary Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the primary

quote (i.e. the NBB for buy orders and NBO for sell orders) or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to the changes in the NBB (NBO) for buy (sell) orders up (down) to the order's limit price, if any. A primary peg order:

- (A) Must be a pegged order.
 - (B) Must have a TIF of DAY, GTT, GTX, or SYS, as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) Is eligible to trade only during the Regular Market Session. As provided in IEX Rule 11.190(a)(3)(D), any pegged order, marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session. Any pegged order submitted into the System after the closing of the Regular Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.
 - (I) May be an odd lot, round lot, or mixed lot.
 - (J) Is not eligible to be invited by the System to Recheck as described in IEX Rule 11.230(a)(4)(D).
- (9) Midpoint Peg Order. A pegged order that upon entry and when posting to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the Midpoint Price or the order's limit price, if any. While resting on the Order Book, the order is automatically adjusted by the System in response to changes in the midpoint of the NBBO as allowed by the order's limit price, if any. A midpoint peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) Is eligible to trade only during the Regular Market Session. As provided in IEX Rule 11.190(a)(3)(D), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session. Any pegged order submitted into the System after the closing of the Regular Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.

- (I) May be an odd lot, round lot, or mixed lot.
 - (J) Eligible to be invited by the System to Recheck the Order Book to trade against interest resting at the Midpoint Price as described in IEX Rule 11.230(a)(4)(D).
- (10) Discretionary Peg Order. A pegged order that upon entry into the System, the price of the order is automatically adjusted by the System to be equal to the less aggressive of the Midpoint Price or the order's limit price, if any. When unexecuted shares of such order are posted to the Order Book, the price of the order is automatically adjusted by the System to be equal to and ranked at the less aggressive of the primary quote or the order's limit price and is automatically adjusted by the System in response to changes in the NBB (NBO) for buy (sell) orders up (down) to the order's limit price, if any. In order to meet the limit price of active orders on the Order Book, a Discretionary Peg order will exercise the least amount of price discretion necessary from the Discretionary Peg order's resting price to its discretionary price (defined as the less aggressive of the Midpoint Price or the Discretionary Peg order's limit price, if any), except during periods of quote instability as defined in paragraph (g) below. When exercising price discretion, a Discretionary Peg order maintains time priority at its resting price and is prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action. If multiple Discretionary Peg orders are exercising price discretion during the same book processing action, they maintain their relative time priority at the discretionary price. A Discretionary Peg order:
- (A) Must be a pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule and as described in IEX Rule 11.190(a)(3).
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with a limit price or without a limit price (an "unpriced pegged order").
 - (F) Is eligible to trade only during the Regular Market Session. As provided in IEX Rule 11.190(a)(3)(D), any pegged order marked with a TIF of DAY that is submitted to the System before the opening of the Regular Market Session will be queued by the System until the start of the Regular Market Session; any pegged order that which is marked with a TIF other than DAY will be rejected when submitted to the System during the Pre-Market Session. Any pegged order submitted into the System after the closing of the Regular Market Session will be rejected.
 - (G) May be a MQTY, as defined in paragraph (11) below.
 - (H) Is not eligible to display. Pegged orders are always non-displayed.
 - (I) May be an odd lot, round lot, or mixed lot.
 - (J) Is eligible to be invited by the System to Recheck the Order Book to trade against interest resting at the Midpoint Price as described in IEX Rule 11.230(a)(4)(D).
 - (K) Is eligible to exercise price discretion to its discretionary price, except during periods of quote instability, as specified in paragraph (g) below.
 - (i) If the System determines the NBB for a particular security to be an unstable quote in accordance with paragraph (g), it will restrict buy Discretionary Peg orders in that security from exercising price discretion to trade against interest above the NBB.

- (ii) If the System determines the NBO for a particular security to be an unstable quote in accordance with paragraph (g), it will restrict sell Discretionary Peg orders in that security from exercising price discretion to trade against interest below the NBO.
- (11) Minimum Quantity Order (“MQTY”). A non-displayed, non-routable order which must have at least the minimum indicated share size satisfied in order to execute. Upon order entry or order amendment by the User the “effective minimum quantity” of an order is equal to the lesser of the submitted minimum quantity or the total share size of the order. A MQTY:
 - (A) May be a market order, limit order, or pegged order.
 - (B) May have any TIF described in paragraph (c) of this IEX Rule, except a TIF of FOK. A MQTY submitted to the System with a TIF of FOK will be rejected.
 - (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
 - (D) May not be an ISO, as defined in paragraph (12) below.
 - (E) May be submitted with or without a limit price.
 - (F) May be entered during the Pre-Market Session, Regular Market Session, and Post-Market Session.
 - (G) Based on User instruction, the Exchange utilizes one of the following methods to determine satisfaction of the minimum quantity parameter for an order:
 - (i) Methods. A MQTY must be marked Composite, Minimum Execution Size with Cancel Remaining (“MinExec with Cancel Remaining”), or Minimum Execution Size with All-or-None Remaining (“MinExec with AON Remaining”).
 - (ii) When a MQTY has fewer remaining unexecuted shares than its effective minimum quantity.
 - (a) If marked MinExec with Cancel Remaining, the System will cancel the order back to the User.
 - (b) Otherwise, the System will treat the order as having an effective minimum quantity equal to its number of unexecuted shares.
 - (iii) When a MQTY is active (i.e. an active order).
 - (a) If marked Composite, it executes against all willing resting orders of any size, provided that the aggregate execution size is equal to or greater than its effective minimum quantity.
 - (b) If marked MinExec with Cancel Remaining or MinExec with AON Remaining, it executes against each willing resting order in priority, provided that each individual execution size meets its effective minimum quantity. Upon reaching a resting order that would trade with the MQTY, but does not satisfy its effective minimum quantity, the MQTY will post to the Order Book or cancel back to the User as per the order’s instructions.
 - (iv) When a MQTY is resting on the Order Book (i.e. a resting order).
 - (a) The MQTY executes against a willing active order provided the active order’s remaining unexecuted shares are equal to or greater than the MQTY’s effective minimum quantity.
 - (H) May be an odd lot, round lot, or mixed lot.
- (12) Inter-market Sweep Orders. The System will accept incoming Inter-market Sweep Orders (“ISO”) (as such term is defined in Regulation NMS). In order to be eligible for treatment as an Inter-market Sweep Order, the limit

order must be marked “ISO” and the User entering the order must simultaneously route one or more additional limit orders marked “ISO,” as necessary, to away markets to execute against the full displayed size of any Protected Quotation for the security with a price that is superior to the limit price of the Inter-market Sweep Order entered in the System. Such orders, if they meet the requirements of the foregoing sentence, may be executed at one or multiple price levels in the System without regard to Protected Quotations at away markets consistent with Regulation NMS (i.e., may trade through such quotations). The Exchange relies on the marking of an order as an ISO order when handling such order, and thus, it is the entering User’s responsibility, not the Exchange’s responsibility, to comply with the requirements of Regulation NMS relating to Inter-market Sweep Orders. An ISO:

- (A) Must be a limit order.
- (B) Must have a TIF of IOC.
- (C) Is not eligible for routing pursuant to IEX Rule 11.230(b) and (c)(2).
- (D) Must be submitted with a limit price.
- (E) May be submitted during the Pre-Market Session, Regular Market Session, and Post-Market Session.
- (F) May not be a MQTY.
- (G) May be an odd lot, round lot, or mixed lot.

.01 Reserve Orders

As stated in paragraph (b)(2) of this IEX Rule, if a reserve order is not fully executed, it will be posted to the Order Book and effectively treated as two discrete orders: one displayed for the User instructed quantity (“displayed portion”), and one non-displayed for all other remaining, unexecuted shares (“non-displayed portion”). For the purposes of pricing reserve orders on the Order Book, displayed portions are treated as displayed orders and non-displayed portions are treated as non-displayed orders. As described in IEX Rule 11.190(h), it is possible for the non-displayed portion of a reserve order to rest at a different price than the displayed portion of the reserve order, since the non-displayed portion is subject to the Midpoint Price Constraint while the displayed portion is subject to display-price sliding.

For example, NBBO is \$10.01 x \$10.02 and IEX does not have any orders resting at the NBO.

IEX receives a non-routable, reserve DAY buy order for 1000 shares with a limit of \$10.02 and a User instructed display quantity of 200 shares. After testing the Order Book at \$10.02 and receiving no execution, the order is split into the displayed portion, a displayed DAY buy order for 200 shares with a limit of \$10.02, and the non-displayed portion, a non-displayed DAY buy order for 800 shares with a limit of \$10.02. The displayed portion, subject to display-price sliding, is booked and ranked on the Order Book displayed at a price equal to one (1) MPV below the current NBO, which is \$10.01. The non-displayed portion, subject to the Midpoint Price Constraint, is booked and ranked on the Order Book non-displayed at a price equal to the new Midpoint Price, which is \$10.015.

.02 Priority of Non-Display Portions of Reserve Orders.

When initially posting to the Order Book, the non-displayed portion of a reserve order will be prioritized behind any pre-existing non-displayed interest at the price at which it is posted as a result of its having a newer timestamp. This holds true even if any such interest is re-priced as a consequence of the displayed portion of that reserve order being posted to the Order Book (i.e. having tightened the spread).

.03 Minimum Quantity Orders.

Composite. When taking liquidity, minimum quantity size for a MQTY marked Composite is satisfied by one or more orders on the IEX Book, provided the amount traded in aggregate will at least equal the order's effective minimum quantity. For a resting MQTY marked Composite, if the specified minimum quantity of shares is not satisfied by a given contra side active order, the order will surrender its priority position only for the duration of processing said active order against the Order Book.

For example, NBBO is \$10.01 x \$10.02.

IEX receives three non-routable, non-displayed DAY sell orders: the first order, ORDER#1, for 200 shares with a limit of \$10.02 is booked and ranked at the offer; the second order, ORDER#2, for 400 shares with a limit of \$10.02, joins the offer at IEX and is ranked behind ORDER#1; the third order, ORDER#3, for 500 shares with a limit of \$10.02, joins the offer at IEX and is ranked behind ORDER#2.

Next, IEX receives a non-routable, non-displayed DAY buy MQTY for 7,500 shares marked Composite with a limit price of \$10.02 and minimum quantity size of 1,000 shares, ORDER#4. Since the aggregate size of all three sell orders exceeds the minimum quantity size of ORDER#4, three discrete executions representing a cumulative 1,100 shares occur in one single atomic action, i.e. a single book processing action, in which ORDER#4 removes the resting sell interest. The first execution is for 200 shares at \$10.02, which fully fills the oldest resting sell limit order on the offer, ORDER#1. The second execution is for 400 shares at \$10.02, and fully fills the next oldest resting sell limit order on the offer, ORDER#2. The third execution is for 500 shares at \$10.02, and fully fills the youngest resting sell limit order on the offer, ORDER#3. As a result of this event, ORDER#4 is decremented to a quantity of 6,400 shares from the original 7,500 shares and booked at the Midpoint Price.

MinExec with Cancel Remaining. When taking liquidity, minimum quantity size for a MQTY marked MinExec with Cancel Remaining must be satisfied by each order on the IEX Book that will execute against the MQTY. If the active MQTY reaches a resting order that would trade with it, but such order does not satisfy its minimum quantity size, the MQTY will post to the IEX Book or be cancelled back to the User as per the order's TIF instructions.

For example NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a DAY midpoint peg buy MQTY for 900 shares marked MinExec with Cancel Remaining with a limit price of \$10.05 and minimum quantity size of 500 shares. ORDER#1 is booked and ranked at the Midpoint Price, \$10.015.

IEX receives a DAY midpoint peg sell order for 200 shares with a limit price of \$9.99, ORDER#2, which is booked at the prevailing Midpoint Price of \$10.015.

IEX receives another DAY midpoint peg sell order for 600 shares with a limit price of \$10.00, ORDER#3. Order #3 will execute 600 shares against Order #1 because it meets the minimum quantity requirement of Order #1. The remaining 300 shares of Order #1 will cancel back to the User.

MinExec with AON Remaining. The only variation in behavior between MinExec with Cancel Remaining and AON Remaining in the example above is that ORDER#1's 300 remaining shares would remain on the Order Book and be treated as having an effective minimum quantity of 300 shares.

(c) Time-in-Force. Orders must have one of the following time-in-force terms.

- (1) Immediate-or-Cancel ("IOC"). Orders entered into the System marked IOC are executed on the Exchange or routed to an away venue, in whole or in part, as soon as such order is received, and the portion not so executed is canceled. Orders marked IOC are never posted to the Order Book and considered by definition to be non-displayable orders.
- (2) Fill or Kill ("FOK"). Orders entered into the System marked FOK are immediately executed on the Exchange for their full quantity or otherwise canceled. Orders marked FOK are never posted to the Order Book and considered by definition to be non-displayable orders. Routable orders marked FOK are rejected.

- (3) Day ("DAY"). Orders entered into the System marked DAY may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular Market Session. Orders marked DAY are only available for trading or routing during the Regular Market Session and expire at the end of the Regular Market Session.
 - (4) Good 'til Extended Day ("GTX"). Orders entered into the System marked GTX may queue during the Pre-Market Session. When queued, orders will participate in the Opening Process before becoming available for the Regular Market Session. Orders marked GTX are available for trading or routing during both the Regular Market Session and Post-Market Session, and expire at the end of the Post-Market Session.
 - (5) System Session ("SYS"). Orders entered into the System marked SYS may trade or route during System Hours and expire at the end of the Post-Market Session.
 - (6) Good 'til Time ("GTT"). Orders entered into the System marked GTT may trade or route during System Hours and expire at the earlier of the User specified expire time or the end of the Post-Market Session.
- (d) Cancel and Cancel/Replace ("Order Amendment") Messages. A User may, by appropriate entry in the System, cancel or replace an existing order entered by the User, subject to the following limitations.
- (1) Orders may only be replaced if the order has a time-in-force term other than IOC or FOK and if the order has not yet been fully executed. Market orders may not be replaced.
 - (2) If an order has been routed to an away trading center, the order will be placed in a "Pending" state until the routing process is completed. Executions that are completed when the order is in the "Pending" state will be processed normally.
 - (3) Supported Fields. Only the limit price, the order quantity, and the minimum quantity size of the order may be changed by a Replace Message and are considered supported fields. Unpriced pegged orders may have a limit price added to the order by a Replace Message, however the limit price may never be removed from an order. If a User desires to change any other terms of an existing order the existing order must be canceled and a new order must be entered.
 - (4) Invalid Fields. Symbol, side, execution instruction, order type, and TIF are considered invalid fields. If a User attempts modify an invalid field by submitting a Replace Message, the order amendment will be rejected by the Exchange. If a User desires to modify an invalid field on an order, the existing order must be canceled and a new order must be entered.
 - (5) Unsupported Fields. All fields not listed in paragraphs (3) and (4) above are considered unsupported fields. If a User desires to modify an unsupported field, the existing order must be canceled and a new order must be entered.
 - (6) If an order amendment contains an invalid field, defined in paragraph (4) above, alone or in conjunction with a supported field, defined in paragraph (3) above, the Exchange will reject the amendment. If an order amendment contains an unsupported field alone, defined in paragraph (5) above, the Exchange will reject the amendment. If an order amendment contains an unsupported field and a supported field, the Exchange will amend the supported field and ignore the unsupported field. The Exchange will periodically update its FIX Specification to specify supported fields, invalid fields, and unsupported fields.
 - (7) Cancel and Cancel/Replace messages will be processed in the order in which they are received by the System.
 - (8) Notwithstanding anything to the contrary in these IEX Rules, no cancellation or replacement of an order will be effective until such message has been received and processed by the System.

- (e) Anti-Internalization Group Identifier (“AGID”) Modifier. Any active order designated with an AGID modifier will be prevented from executing against a resting opposite side order also designated with the same AGID modifier and originating from the same market participant identifier (“MPID”) or Exchange User (any such identifier, a “group type”). In situations when two orders subject to anti-internalization would match, the older of the orders is canceled. Determination of “older” is based upon the time the order is received by the System, including by initial order entry, User revision (i.e., cancel/replace), or returning to the System from routing. The group type elected by a Member controls the interaction between two orders marked with AGID modifiers.
- (1) Group Type. The User group type will prevent any two orders marked with the same AGID modifier originating from the same User from matching. The MPID group type will prevent any two orders marked with the same AGID modifier originating from the same MPID from matching.
 - (2) Default Order Marking. Based on User instruction, the Exchange may mark orders with a default AGID modifier by FIX session, i.e., order entry port. Principal and Agency/Riskless Principal orders may have different default settings.
 - (3) Free-to-Trade Identifier. Users may designate an order as available to match with opposite side orders within the elected group type by marking the AGID modifier of the order with the “free-to-trade” identifier.
 - (4) Compatibility with Book Recheck, as described in IEX Rule 11.230(a)(4)(D). In the event that an active order, (i.e., the order that has been invited to Recheck against the Order Book), is older than a resting order subject to anti-internalization, the active order will be canceled upon reaching the resting order in the course of Order Book Priority.
 - (5) Compatibility with MQTY, as described in paragraph (b)(11) above. In the event an active order subject to anti-internalization is a MQTY or an order marked with a TIF of FOK, the Exchange will determine satisfaction of the size requirement without excluding any resting orders from the same User or MPID that would otherwise be canceled under anti-internalization. This may result in total executed shares being less than the minimum quantity size value in an amount equal to the shares prevented from executing resulting from anti-internalization.

• • • **Supplementary Material** • • •

.01 Best Execution

IEX notes that use of the AGID modifier does not relieve or otherwise modify the duty of best execution owed to orders received from customers. As such, market participants using the AGID modifier will need to take appropriate steps to ensure customer orders that do not execute because they were subject to anti-internalization ultimately receive the same execution price (or better) than they would have originally obtained if execution of the order was not inhibited by anti-internalization.

.02 Firm Quote Obligations

Market Makers and other Users must not use the AGID modifier to evade the firm quotation obligation, as specified in IEX Rule 11.151(b).

.03 Just and Equitable Principles of Trade

The AGID modifier must be used in a manner consistent with just and equitable principles of trade.

(f) Order Price Collars and Constraints

- (1) **Order Collar.** The Exchange Order Collar prevents any incoming order or order resting on the Order Book, including those marked ISO, from executing at a price outside the Order Collar price range, i.e. prevents buy orders from trading at prices above the collar and prevents sell orders from trading at prices below the collar. The Order Collar price range is calculated using the numerical guidelines for clearly erroneous executions. Executions are permitted at prices within the Order Collar price range, inclusive of the boundaries. Any portion of a market order that would execute at a price beyond the Order Collar is canceled. Any remainder of a limit or pegged order that would execute at a price beyond the Order Collar is posted to the Order Book or canceled as per User instructions. Both displayed and non-displayed portions of limit orders or pegged orders may post on the Order Book at the Order Collar Price, but never more aggressive. Such orders may be re-priced to a compliant price within or at the Order Collar as the Order Collar price changes due to changing market conditions.
- (A) The Order Collar Reference Price is equal to the most current of the following:
- (i) Consolidated last sale price disseminated during the Regular Market Session on trade date.
 - (ii) Last trade price disseminated outside of the Regular Market Session (Form T, as communicated by the relevant SIP) on trade date which other than for the Form T designation would have been considered a valid last sale price.
 - (iii) If neither (i) or (ii) are available, prior day's Official Closing Price from the listing exchange, adjusted to account for corporate actions, news events, etc.
- (B) In the absence of an Order Collar Reference Price, the Exchange will either prevent trading in a security (by rejecting orders for the security) or suspend the Order Collar function, in the interest of maintaining a fair and orderly market in the impacted security.
- (C) The Exchange calculates the Order Collar price range for a security by applying the Numerical Guideline for the appropriate market session and reference price (see table below) to the Order Collar Reference Price, as defined in paragraph (A) above. The result is added to the Order Collar Reference Price to determine the Order Collar Price for buy orders, while the result is subtracted from the Order Collar Reference Price to determine the Order Collar Price for sell orders. The appropriate Order Collar Price is assigned to all orders upon entry and enforced throughout the life of an order; the Order Collar Price is updated each time the Order Collar Reference Price is updated by the System.
- (D) The Numerical Guideline used in the Order Collar Price calculation is based on the table below:

Order Collar Reference Price	Regular Market Session Numerical Guidelines	Pre-Market and Post-Market Sessions Numerical Guidelines
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%

Order Collar Reference Price	Regular Market Session Numerical Guidelines	Pre-Market and Post-Market Sessions Numerical Guidelines
Greater than \$50.00	3%	6%

These percentages are based upon the numerical guidelines for clearly erroneous executions under IEX Rule 11.270.

- (2) Router Constraint. The Exchange Router Constraint prevents any order from routing at prices more aggressive than the Router Constraint price range. The Router Constraint price range is calculated using the numerical guidelines for clearly erroneous executions. Orders are permitted to route at prices within the Router Constraint price range, inclusive of the boundary. Any portion of an order that would have executed at a price more aggressive than the Router Constraint is canceled back to the User. While resting on the Order Book, routable orders are subject to the Order Collar, as defined in IEX Rule 11.190(f)(1). Any time a routable order would route at a price beyond the Router Constraint Price, the System will instead cancel the order back to the User.
- (A) The Router Constraint Reference Price is equal to the most current of the following:
- (i) Consolidated last sale price disseminated during the Regular Market Session on trade date.
 - (ii) Last trade price disseminated outside of the Regular Market Session (Form T, as communicated by the relevant SIP) on trade date which other than for the Form T designation would have been considered a valid last sale price.
 - (iii) If neither (i) or (ii) are available, prior day's Official Closing Price from the listing exchange, adjusted to account for corporate actions, news events, etc.
- (B) In the absence of a valid Router Constraint Reference Price, the Exchange will reject any routable orders for the security.
- (C) The Exchange calculates the Router Constraint Price for a routable order by applying the Numerical Guideline for the appropriate market session and reference price (see table below) to the Router Constraint Reference Price, as defined in paragraph (A) above. The result is added to the Router Constraint Reference Price to determine the Router Constraint Price for buy orders, while the result is subtracted from the latest Router Constraint Reference Price to determine the Router Constraint Price for sell orders. The Router Constraint Price is calculated at the start of a routing action, including a re-sweep, and remains unchanged until the order posts on the Order Book or is canceled as per User instructions.
- (D) The Numerical Guideline used in the Router Constraint Price calculation is based on the table below:

Router Constraint Reference Price	Regular Market Session Numerical Guidelines	Pre-Market and Post-Market Sessions Numerical Guidelines
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%
Greater than \$50.00	3%	6%

These percentages are based upon the numerical guidelines for clearly erroneous executions under IEX Rule 11.270.

- (3) **Crossed Market Collar.** In the event that a Protected Bid is crossing a Protected Offer, the System does not execute any portion of an active buy order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) higher than the lowest Protected Offer, or any portion of an active sell order at a price more than the greater of five cents (\$0.05) or one half of a percent (0.5%) lower than the highest Protected Bid, unless such order is marked ISO. To the extent an incoming order is eligible to execute against an order resting on the Order Book because a Protected Bid is crossing a Protected Offer, but such incoming order is eligible for routing and there is a Protected Bid or Protected Offer available at an away trading center that is better priced than the bid or offer against which the order would execute on the System, the System first seeks to route the order to such better priced quotation pursuant to IEX Rule 11.230(b). When an order posts to or is resting on the Order Book while a Protected Bid is crossing a Protected Offer, the order will price slide in accordance with the price sliding process, pursuant to IEX Rule 11.190(h).
- (4) **One-Sided Markets.** One-Sided Markets are markets which lack either a Protected Bid or a Protected Offer.
- (A) In a One-Sided Market, non-displayed interest is handled in the following manner:
- (i) Non-displayed interest entering the System will first test for available displayed interest resting on the Order Book. Routable non-displayed interest may route to Protected Quotations on the opposite side of the market. Any unexecuted non-displayed interest will be unavailable to trade once it posts on the Order Book.
 - (ii) Resting non-displayed interest on IEX is unavailable to trade.
 - (iii) When a two-sided market returns, non-displayed orders become available at their relative priority.
- (B) In a One-Sided Market, displayed interest is handled in the following manner:
- (i) When IEX receives displayable interest on the same side of the market as the Protected Bid or Protected Offer:
 - (a) Displayed interest marked IEX Only posts and displays at the most aggressive allowable price.

- (b) Routable displayable orders can route passively to rest on away trading centers with limit orders marked with a TIF of DAY (i.e., Route to Rest, pursuant to IEX Rule 11.230(c)(6)), but the router will not designate outbound orders with a TIF of IOC.
 - (ii) When IEX receives displayable interest on the side of the market opposite a best Protected Quote:
 - (a) Displayed interest marked IEX Only is eligible to trade with interest that is present on the Exchange and will post any unexecuted shares, order instructions allowing, subject to displayed-price sliding, as per paragraph (h)(1) below.
 - (b) For routable orders, the System will route the order consistent with Rule 11.230(b)(2).
- (5) Zero Markets. Zero Markets are markets in which neither a Protected Bid nor a Protected Offer exists.
 - (A) In a Zero Market, resting non-displayed interest is unavailable to trade. Non-displayed orders are not eligible to route when Zero Markets exist. When a Two-Sided Market returns, non-displayed orders become available at their relative priority and may route consistent with Rule 11.230(b)(2), if eligible for re-sweep.
 - (B) In a Zero Market, displayable interest will post and display at the most aggressive allowable price. Displayable orders can only route passively to rest on away trading centers (i.e. Route to Rest, pursuant to IEX Rule 11.230(c)(6)), if routable.
- (g) Quote Stability. The Exchange utilizes real time relative quoting activity of Protected Quotations and a proprietary mathematical calculation (the “quote instability calculation”) to assess the probability of an imminent change to the current Protected NBB to a lower price or Protected NBO to a higher price for a particular security (“quote instability factor”). When the quoting activity meets predefined criteria and the quote instability factor calculated is greater than the Exchange’s defined threshold (“quote instability threshold”), the System treats the quote as not stable (“quote instability” or a “crumbling quote”). During all other times, the quote is considered stable (“quote stability”). The System independently assesses the stability of the Protected NBB and Protected NBO for each security.
 - (1) Crumbling Quote. When the System determines a quote, either the Protected NBB or the Protected NBO, is unstable, the determination remains in effect at that price level for ten (10) milliseconds. The System will only treat one side of the Protected NBBO as unstable in a particular security at any given time. Quote instability or a crumbling quote is determined by the System when following factors occur:
 - (A) the Protected NBB and Protected NBO are the same as the Protected NBB and Protected NBO one (1) millisecond ago; and
 - (B) the Protected NBBO spread is less than or equal to the thirty (30) day median Protected NBBO spread during the Regular Market Session; and
 - (C) there are more Protected Quotations on the far side, i.e. more Protected Quotations on the Protected NBO than the Protected NBB for buy orders, or more Protected Quotations on the Protected NBB than the Protected NBO for sell orders; and
 - (D) the quote instability factor result from the quote stability calculation is greater than the defined quote instability threshold.
 - (i) Quote Instability Factor. The Exchange’s proprietary quote stability calculation used to determine the current quote instability factor is defined by the following formula that utilizes the quote stability

coefficients and quote stability variables defined below:

$$1 / (1 + e^{-(C_0 + C_1 * N + C_2 * F + C_3 * N_{-1} + C_4 * F_{-1})})$$

- (a) Quote Stability Coefficients. The Exchange utilizes the values below for the quote stability coefficients.

(1) $C_0 = -2.39515$

(2) $C_1 = -0.76504$

(3) $C_2 = 0.07599$

(4) $C_3 = 0.38374$

(5) $C_4 = 0.14466$

- (b) Quote Stability Variables. The Exchange utilizes the quote stability variables defined below to calculate the current quote instability factor.

(1) N = the number of Protected Quotations on the near side of the market, i.e. Protected NBB for buy orders and Protected NBO for sell orders.

(2) F = the number of Protected Quotations on the far side of the market, i.e. Protected NBO for buy orders and Protected NBB for sell orders.

(3) N_{-1} = the number of Protected Quotations on the near side of the market one (1) millisecond ago.

(4) F_{-1} = the number of Protected Quotations on the far side of the market one (1) millisecond ago.

- (ii) Quote Instability Threshold. The Exchange utilizes a quote instability threshold of 0.32.

- (iii) The Exchange reserves the right to modify the quote instability coefficients or quote instability threshold at any time, subject to a filing of a proposed rule change with the SEC.

- (h) Price Sliding. The System will process orders pursuant to the “price sliding process,” which includes the following:

- (1) Display-Price Sliding.

(A) An order eligible for display by the Exchange that, at the time of entry, would create a violation of Rule 610(d) of Regulation NMS by locking or crossing a Protected Quotation of an external market will be ranked and displayed by the System at one (1) MPV below the current NBO (for bids) or one (1) MPV above the current NBB (for offers) (“display-price sliding”).

(B) An order subject to display-price sliding will retain its limit price irrespective of the price at which such order is ranked and displayed. In the event the NBBO changes such that an order subject to display-price sliding would no longer lock or cross the Protected Quotation of an external market, the order will receive a new timestamp, and will be displayed at the most aggressive permissible price. Such orders may be re-priced once or multiple times, depending on changing market conditions and the order’s limit price.

(C) The following orders are subject to display-price sliding:

- (i) IEX Only (non-routable) orders are always subject to display-price sliding, as applicable.

- (ii) The displayed portion of a reserve order is always subject to the display-price sliding process when being refreshed from the non-displayed portion, as applicable.
 - (iii) Resting routable orders, including any portion of a routable order returning to the Exchange after routing, are subject to the display-price sliding process, as applicable, except in the case where the order, through the Outbound Router, has immediately prior to posting, satisfied all Regulation NMS Protected Quotations at prices better than, and prices equal to, the price at which the System intends to display such orders.
- (2) Non-Displayed Price Sliding (“Midpoint Price Constraint”). A non-displayed limit order posting to the Order Book which has a limit price more aggressive than the Midpoint Price is booked and ranked on the Order Book non-displayed at a price equal to the Midpoint Price. To reflect changes to the NBBO, the order is automatically re-priced by the System in response to changes in the NBBO to be equal to the less aggressive of the order’s limit price or the Midpoint Price.
- (3) Locked and Crossed Markets.
 - (A) In the event that the market becomes locked, the System will observe the following practices for displayed orders:
 - (i) Resting orders that are displayed at the price of the locking quotation (“locking price”) as defined in IEX Rule 11.310, and were originally displayed in compliance with rules and regulations of the Exchange and the Act will maintain their displayed price and quantity.
 - (ii) Displayable orders posting to the Order Book on the same side as an order which is locked and was originally displayed, as per paragraph (i) above, are not permitted to join the locking price. Such orders will be displayed and ranked by the System pursuant to the Exchange’s display-price sliding practices described in paragraph (1) above.
 - (B) In the event that the market becomes crossed, the System will observe the following practices for displayed orders:
 - (i) Resting orders that are displayed at a price which has become crossed and were originally displayed in compliance with rules and regulations of the Exchange and the Act will maintain their displayed price and quantity.
 - (ii) Displayable buy (sell) orders being posted to the Order Book during a crossed market will be displayed and ranked by the System one (1) MPV below (above) the lowest Protected Offer (highest Protected Bid).
 - (C) In the event that the market becomes locked, the System will observe the following practices for non-displayed orders:
 - (i) In the event the market becomes locked, the Exchange shall consider the Midpoint Price to be equal to the locking price.
 - (ii) In the event that the market becomes locked, primary peg orders and Discretionary Peg orders resting on or posting to the Order Book are priced to the less aggressive price of either (a) the prior non-locked near-side quote or (b) one (1) MPV less aggressive than the locking price. If a Discretionary Peg order is submitted to the Exchange by a User while the market is locked, the order initially checks for available contra-side interest on the Order Book at the Midpoint Price (the locking price) before posting.

- (D) In the event that the market becomes crossed, the System will observe the following practices for non-displayed orders:
- (i) In the event the market becomes crossed, the Exchange shall consider the Midpoint Price indeterminable. Midpoint peg orders, Discretionary Peg orders, and non-displayed orders that would otherwise be subject to Midpoint Price Constraint, pursuant to paragraph (2) above, will be priced by the System to be no more aggressive than the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders.
 - (ii) In the event that the market becomes crossed, primary peg orders and Discretionary Peg orders resting on or posting to the Order Book are priced to the less aggressive of; either (a) the prior non-crossed (and non-locked) near-side quote or (b) one (1) MPV away from the crossed quote. If a Discretionary Peg order is submitted to the Exchange by a User while the market is crossed, the order initially checks for matches on the Order Book at the crossing price, the lowest Protected Offer for buy orders and the highest Protected Bid for sell orders, before posting.
- (4) Short Sale Price Sliding. The re-pricing described in this sub-paragraph constitutes “short sale price sliding” for short sale orders.
- (A) For purposes of this IEX Rule, the terms “covered security”, “listing market”, and “national best bid” shall have the same meaning as in Rule 201 of Regulation SHO. The term Short Sale Period is defined in IEX Rule 11.290(d). The term Short Sale Price Test is defined in IEX Rule 11.290(b).
 - (B) During a Short Sale Period, any active short sale order not marked short exempt is prevented by the System from executing at or below the current NBB.
 - (C) A displayable short sale order not marked short exempt that, at the time of entry, could not be executed or displayed in compliance with Rule 201 of Regulation SHO will be repriced and ranked by the System on the Order Book displayed at a price equal to one MPV above the current NBB (the “Permitted Display Price”). To reflect declines in the NBB, the System will continue to re-price a resting displayed short sale order not marked short exempt to be equal to the higher of the order’s limit price or a Permitted Display Price.
 - (D) During a Short Sale Period, the System may execute a displayed short sale order not marked short exempt (including the displayed portion of a short sale reserve order not marked short exempt) below the Permitted Display Price if, at the time of initial display of such short sale order, the order was displayed at a price above the then current NBB. This provision does not apply to shares refreshing from the non-displayed portion to the displayed portion of a short sale reserve order not marked short exempt; such displayed portion is subject to short sale price sliding.
 - (E) A non-displayable short sale order not marked short exempt that, at the time of entry, could not be executed in compliance with Rule 201 of Regulation SHO will be repriced and ranked by the System on the Order Book non-displayed pursuant to the Midpoint Price Constraint at the current Midpoint Price (“Permitted Non-Displayed Book Price”). In situations where the current Midpoint Price is equal to the NBB (i.e. a locked market) or the market is crossed, the Permitted Non-Displayed Book Price will be equal the Permitted Display Price. During a Short Sale Period, non-displayed short sale orders not marked short exempt (including non-displayed portions of short sale reserve orders not marked short exempt) resting on the Order Book that become locked or crossed by the NBB will be re-priced by the System at a Permitted Non-Displayed Book Price. To reflect declines in the NBB, the System will continue to re-price

a resting non-displayed short sale order not marked short exempt to be equal to the higher of the order's limit price or a Permitted Non-Displayed Book Price.

(F) During a Short Sale Period, orders marked "short exempt" will not be subject to short sale price sliding. The System will accept orders marked "short exempt" at any time when the System is open for order entry, regardless of whether the Short Sale Price Test has been triggered.

(5) Limit Up-Limit Down Price Constraint. For purposes of this IEX Rule the terms "Plan" and "Limit Up-Limit Down Plan" mean the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS. The term "Lower Price Band" and "Upper Price Band" shall be defined as per the Plan. An order that would post to the Order Book with a limit price more aggressive than the applicable Upper Price Band (for buy orders) or Lower Price Band (for sell orders) will be posted, and displayed if applicable, at the Price Band. An order subject to Limit Up-Limit Down Price Constraint will retain its limit price irrespective of the prices at which such order is ranked. In the event the Band Price changes such that an order subject to Limit Up-Limit Down Price Constraint would no longer be more aggressive than the Band Price, the order will be re-priced to the most aggressive allowable price and receive a new timestamp.

• • • **Supplementary Material** • • •

.01 Price Sliding and Time Priority.

Due to the way in which IEX processes actions to resting orders, specifically when re-pricing, orders' relative time priority is generally preserved. IEX assigns time priority, specifically a resting order's time priority, as the time when it is posted to the book at a given price, and each time the System re-prices an order, it necessarily receives a new time priority (i.e. timestamp).

For example, two midpoint peg buy orders with aggressive limit prices are posted to the Order Book at 10.105, the Midpoint Price of the NBBO of 10.10 x 10.11.

ORDER#1 is a buy with a limit price of 10.12 and is the older order.

ORDER#2 is a buy with a limit price of 10.15 and is the younger order.

When the NBBO changes to 10.10 x 10.12, IEX will re-price those 10.105 buys to 10.11, re-pricing ORDER#1 first and ORDER#2 second, preserving their relative time priority.

In the case where those same orders have different limit prices, it is possible for the relative time priority of orders to change if the market moves cause one to be re-priced but not the other.

Suppose in the above example, the NBBO now moves to 10.14 x 10.16; ORDER#2 will be resting at the Midpoint Price of 10.15 and ORDER#1 will be resting at 10.12, since the Midpoint Price is currently beyond its limit price.

Scenario #1: If the market moves back down from 10.14 x 10.16 to 10.11 x 10.13, ORDER#2 will be re-priced from 10.15, to the new Midpoint Price of 10.12, where ORDER#1 is already resting. ORDER#2 will receive a new timestamp and thus will be behind (newer timestamp) ORDER#1 in time priority at 10.12. In this scenario the relative time priority of these two orders has been preserved.

Note: In Scenario #1, had ORDER#2 been the older order, then that scenario reverses the relative time priority of these two orders.

Scenario #2: If instead the market moves from 10.14 x 10.16 to 10.10 x 10.13, both orders need to be re-priced to the new Midpoint Price of 10.115. ORDER#2 will be re-priced first, as it is currently ranked at a more aggressive price of 10.15, followed by ORDER#1. While both orders will receive new timestamps, since ORDER#1 will be re-priced second, it will be behind (newer timestamp) ORDER#2 at the new price of 10.115. In this scenario the relative time priority of these two orders has been reversed.

Note: In Scenario #2, had ORDER#2 been the older order, then that scenario maintains the relative time priority of these two orders.

Please note that except in the rare instance of Limit Up-Limit Down Band Prices and IEX Order Collars requiring it, IEX will otherwise never re-price a displayed order already posted on the Order Book to a less aggressive price. Displayed orders and displayed portions of orders already posted are otherwise only ever re-priced to more aggressive prices, as allowed by the prevailing market and the limit price indicated by Users on those orders.

.02 Price Sliding of Displayed Orders Resting on the Order Book.

Orders displayed on the Exchange which were displayed at a price compliant with Regulation NMS are generally permitted to maintain their displayed price in the event an away trading center locks or crosses the price of the IEX displayed order. If such IEX displayed resting order is eligible to “re-sweep” under the Exchange’s routing options, the System will route the order, in whole or in part, to any Protected Quotations that are locking or crossing the resting order’s booked limit price for up to their full displayed size, if possible. Once the Protected Quotations have been cleared, any remaining shares will post at the order’s limit price in accordance with IEX Rules and the Act.

When a reserve order refreshes its displayed portion, the refreshing shares are not permitted to be displayed at a price that locks or crosses the price of a protected quotation on an away market and are subject to display-price sliding pursuant to IEX Rule 11.190(h)(1).

Rule Series 11.200. ORDER GUIDELINES

Rule 11.210. Minimum Price Variant (“MPV”)

- (a) Bids, offers, orders or indications of interests in securities traded on the Exchange shall not be made in an increment smaller than:
- (1) \$0.01 if those bids, offers or indications of interests are priced equal to or greater than \$1.00 per share; or
 - (2) \$0.0001 if those bids, offers or indications of interests are priced less than \$1.00 per share and the security is an NMS stock pursuant to Commission Rule 600(b)(46) and is trading on the Exchange; or
 - (3) Any other increment established by the Commission for any security which has been granted an exemption from the minimum price increments requirements of Commission Rule 612(a) or 612(b).

Rule 11.220. Priority of Orders

- (a) Determination of Rank.
- (1) Orders resting in the Order Book shall be ranked and maintained based on the following priority:
 - (A) Price. Orders are ranked by the price at which they are resting on the Order Book (“Resting Price”). The best priced order (the highest priced resting order to buy or the lowest priced resting order to sell) shall have priority over all other orders to buy (or orders to sell) in all cases.
 - (B) Display. The System shall rank equally priced trading interest within the System by display. Displayed orders and displayed portions of orders will have precedence over non-displayed orders and non-displayed portions of orders at a given price.
 - (C) Time. The System shall rank equally priced trading interest with the same display within the System in time priority. Subject to the Execution Process described below, where orders to buy (or sell) are resting at the same price with the same display, the order clearly established as the oldest in the System at such particular price and display shall have precedence at that price and display, up to the number of shares of stock specified in the order. Orders are ranked by the time at which they are posted to the Order Book

at a given price, the first to be posted at a given price being the oldest. Orders maintain their time priority once booked until one of the following occur, at which time the order will receive a new timestamp:

- (i) Order is incremented by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (ii) Order is re-priced by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (iii) Minimum Quantity is amended by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).
- (iv) Order is incremented by the System, or is returned to the Order Book by the System after routing or re-routing pursuant to IEX Rule 11.230(b)(1).
- (v) The displayed portion of a reserve order is given a new timestamp when it is refreshed by the System after receiving an execution that decrements the displayed portion of a reserve order below one round lot pursuant to IEX Rule 11.190(b)(2).
- (vi) Order is re-priced by the System pursuant to IEX Rule 11.190(h).
- (vii) When a Displayed order is reduced to less than one round lot, it receives a new timestamp and is considered a non-displayed order.
- (viii) Pursuant to IEX Rule 11.190(b)(10), when exercising price discretion, Discretionary Peg orders maintain time priority at their resting price, however they are prioritized behind any non-displayed interest at the discretionary price for the duration of that book processing action.

(2) Orders queued for the Opening Process shall be ranked and maintained based on the following priority:

(A) Time. The order clearly established as the oldest in the System shall have precedence among those queued for the Opening Process, up to the number of shares of stock specified in the order. Orders are ranked by the time at which they are submitted to the queue, the first to be queued being the oldest. Orders maintain their time priority once queued unless one of the following occur, at which time the order will receive a new timestamp:

- (i) IEX Only Orders. An amendment to the order is submitted by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d), except in the event that the only change to the order is a decrease in share quantity, in which case the order will not receive a new timestamp.
- (ii) Routable Orders. An amendment to the order is submitted by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d).

(3) Decrementing Order Quantity and Priority. In the event that less than the full size of an order is executed, the unexecuted size of the order shall retain priority at the same resting price in accordance with paragraph (1) above, except when the order is displayed and the remaining unexecuted shares have been reduced from a round lot or mixed lot to an odd lot in accordance with paragraph (1)(C)(vii). In the event that an order is decremented by the User by means of a Cancel/Replace pursuant to IEX Rule 11.190(d) the order will not receive a new timestamp except for Displayed orders or displayed portions of orders that are decremented from round lot or mixed lot to an odd lot in accordance with paragraph (1)(C)(vii) and routable orders queued for the Opening Process in accordance with paragraph (2)(A)(ii).

(4) Price Sliding and Priority. Due to the way in which the Exchange processes re-pricing, orders' relative time priority is generally preserved. The Exchange assigns time priority, specifically a resting order's time priority,

as the time when it is posted to the Order Book at a particular price, and each time the System re-prices an order, it necessarily receives a new time priority (i.e. timestamp).

- (5) Surrendering Precedence. In the event a resting order having precedence on the Order Book cannot be executed due to its specific conditions, the resting order surrenders its precedence in the Order Book only for the duration of the System processing the current active order. In the event a resting order having precedence on the Order Book cannot be executed due to the active order's specific conditions, that resting order does not surrender its precedence, and the active order stops executing for this book processing action.

- (6) Order Book Action Priority.

- (A) Order Book Actions are actions taken by the System on orders resting in the Order Book and include:

- (i) Book Recheck invitations pursuant to IEX Rule 11.230(a)(4)(D).
- (ii) Re-pricing of orders.
- (iii) Refresh of displayed portions of reserve orders.

- (B) Each time the System initiates a Book Action pursuant to IEX Rule 11.220(a)(5) on an order resting on the Order Book, it does so pursuant to the Order Book priority pursuant to IEX Rule 11.220(a)(1), with the timestamp of the order or the portion of the order upon which the action is taken being used to determine time priority, the display of the order or the portion of the order upon which the action is taken being used to determine display priority, and the order's Resting Price on the Order Book being used to determine price priority.

- (7) Anti-Internalization. Pursuant to IEX Rule 11.190(e), Users may direct that orders entered into the System not execute against orders entered under the same AGID modifier. In such a case, the System will not permit such orders to execute against one another, regardless of priority ranking.

- (8) Incoming Messages.

- (A) New Orders, Cancel and Cancel/Replace messages received from Users, market data messages, and System component generated messages are processed by the System in strict time sequence.

- (b) Dissemination. The best-ranked displayable order(s) are disseminated pursuant to IEX Rule 11.240(c)(1).

.01 Surrendering Precedence.

Scenario #1: In the event a resting order having precedence on the Order Book cannot be executed due to its specific conditions, the resting order surrenders its precedence in the Order Book only for the duration of the System processing the current active order.

For example, NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a midpoint peg buy MQTY marked MinExec with Cancel Remaining for 1,000 shares with a minimum quantity size of 400 shares. ORDER#1 is booked and ranked at the Midpoint Price, \$10.015.

IEX receives ORDER#2, a second midpoint peg buy order for 500 shares, which is also booked and ranked at the Midpoint Price behind ORDER#1.

IEX receives ORDER#3, a sell limit order for 300 shares with a limit price of \$10.01. ORDER#1, the resting MQTY, surrenders precedence, because it cannot execute against the active order due to its minimum quantity condition. However, ORDER#3, the active sell limit order, executes 300 shares against next ranked order to buy, ORDER#2.

Scenario #2: In the event a resting order having precedence on the Order Book cannot be executed due to the active order's specific conditions, that resting order does not surrender its precedence, and the active order stops executing for this book processing action.

For example, NBBO is \$10.01 x \$10.02.

Resting on the Order Book are the following orders ranked in their respective order: (1) ORDER#1, buy limit order on the bid for 2,000 shares, (2) ORDER#2, buy limit order on the bid for 1,000 shares, and (3) ORDER#3, buy limit order on the bid for 2,000 shares.

IEX receives ORDER#4, an IEX Only marketable sell MQTY for 5,000 shares marked MinExec with AON Remaining with a minimum quantity size of 2,000 shares. ORDER#4 executes 2,000 shares against ORDER#1, but ORDER#2 does not meet the active order's condition (2,000 share minimum quantity size), so IEX posts the remaining 3,000 shares of ORDER#4 at the Midpoint Price.

Rule 11.230. Order Execution

Subject to the restrictions under these Exchange Rules or the Act and the rules and regulations thereunder, orders shall be matched for execution in accordance with this IEX Rule 11.230.

- (a) Execution Against the IEX Order Book. For purposes of this IEX Rule 11.230 any order falling within the parameters of this paragraph shall be referred to as “executable.” An order will be canceled back to the User if, based on market conditions, User instructions, applicable IEX Rules and/or the Act and the rules and regulations thereunder, such order is not executable, cannot be routed to an away trading center pursuant to IEX Rule 11.230(b)(2) below and cannot be posted to the Order Book.
- (1) Compliance with Rule 201 of Regulation SHO. For any execution of a short sale order to occur on the Exchange when a short sale price test restriction is in effect, the execution price must be higher than (i.e., above) the NBB, unless the sell order was initially displayed by the System at a price above the then current NBB or is marked “short exempt” pursuant to Regulation SHO. Short sale orders are subject to the short sale price sliding process pursuant to IEX Rule 11.190(h)(4), as well as any other applicable price sliding process.
 - (2) Compliance with Regulation NMS and Trade-Through Protection.
 - (A) Regular Market Session. For any execution to occur during the Regular Market Session, the price must be equal to or better than the Protected NBBO, unless the order is marked ISO or unless the execution falls within another exception set forth in Rule 611(b) of Regulation NMS.
 - (B) Pre-Market Session and Post-Market Session. For any execution to occur during the Pre-Market Session or Post-Market Session, the price must be equal to or better than the highest Protected Bid or lowest Protected Offer, unless the order is marked ISO or a Protected Bid is crossing a Protected Offer.
 - (C) Crossed Markets. Notwithstanding sub-paragraphs (A) and (B) above, in the event that a Protected Bid is crossing a Protected Offer, whether during or outside of the Regular Market Session, unless an order is marked ISO, the Exchange will enforce the Crossed Market Collar pursuant to IEX Rule 11.190(f)(3) and the price sliding process pursuant to IEX Rule 11.190(h)(3).
 - (3) Compliance with Limit Up-Limit Down. For any executions to occur during the Regular Market Session, such executions must comply with the Plan, as set forth in IEX Rule 11.280(e) and the price sliding process pursuant to IEX Rule 11.190(h)(5).
 - (4) Execution against the IEX Order Book. An incoming non-routable order will ~~first~~ attempt to be matched for execution against orders in the ~~IEX-Order~~ Book, as described below.

- (A) Buy Orders. An incoming order to buy will be automatically executed to the extent that it is priced at an amount that equals or exceeds the resting price of any order to sell in the Order Book and is executable, as defined above. Such order to buy shall be executed at the price(s) of the lowest priced order(s) to sell having priority in the Order Book.
- (B) Sell Orders. An incoming order to sell will be automatically executed to the extent that it is priced at an amount that equals or is less than the resting price of any other order to buy in the Order Book and is executable, as defined above. Such order to sell shall be executed at the price(s) of the highest priced order(s) to buy having priority in the Order Book.
- (C) Consistent with Rule 11.190, orders are permitted to post non-displayed and rest non-displayed on the Order Book at prices that lock contra-side liquidity at the Midpoint Price, provided, however, that the System will never display a locked market. Subject to sub-paragraph (A) or (B) above, if an incoming order would execute at the Midpoint Price, resting liquidity that is otherwise locking the Midpoint Price may execute against the incoming order if the resting order(s)' conditions are met. Lastly, orders are never permitted to post non-displayed nor rest non-displayed on the Order Book at prices that cross contra-side liquidity.
- (D) Order Execution Recheck ("Book Recheck" or "Recheck"). Upon a change to the Order Book, the NBBO, or as part of the processing of inbound messages, the System may invite orders on one or both sides of its market to become active and check against the contra side (i.e. become the remover of liquidity) of the Order Book to determine if new executions can occur as a consequence of the change in the Order Book or prevailing market conditions. Orders resting on the Order Book may be eligible to trade against other orders on the Order Book that were ineligible for execution, or did not satisfy the order's conditions (i.e. minimum quantity) when they were originally booked.
 - (i) Resting orders are invited to Recheck according to the resting priority of each order.
 - (ii) To be eligible for Book Recheck, orders must be able to execute at a price equal to or more aggressive than the Midpoint Price. Orders invited to Recheck will be eligible to trade at their full limit price, adjusted by applicable peg instructions, market conditions and all applicable rules and regulations.
 - (iii) Additionally, for Discretionary Peg orders to be eligible for Book Recheck, the System must consider the quote to be stable for the order in question pursuant to IEX Rule 11.190(b)(10).
 - (iv) Primary peg orders are not eligible for Book Recheck.
 - (v) Displayed orders are not eligible for Book Recheck.
 - (vi) No orders are eligible for Book Recheck during a crossed market.

• • • **Supplementary Material** • • •

.01 Book Recheck.

Book Recheck invites resting orders to become active orders and recheck the Order Book for execution opportunities.

For example, NBBO is \$10.01 x \$10.02.

IEX receives ORDER#1, a non-routable, non-displayed buy MQTY marked Composite for 7,500 shares with a limit price of \$10.02 and minimum quantity size of 5,000 shares. ORDER#1 is booked and ranked at the Midpoint Price, \$10.015.

ORDER#2, a non-routable sell order for 3,000 shares joins the offer at \$10.02 (3,000 does not satisfy the ORDER#1's 5,000 minimum quantity size).

ORDER#3, a second non-routable sell order for 2,000 shares joins the offer at \$10.02.

Since the 5,000 cumulative shares resting on the offer satisfy the ORDER#1's 5,000 minimum quantity, ORDER#1 is invited to Recheck the Order Book. Two executions for a cumulative 5,000 shares occur: the first execution for 3,000 shares at \$10.02, against ORDER#2, and the second execution for 2,000 shares at \$10.02, against ORDER#3. ORDER#1 is decremented to a quantity of 2,500 shares from 7,500.

(b) Routing ~~to Away Trading Centers~~. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to all away trading centers offering a Protected Quotation as defined by Regulation NMS Rule 600(b)(58). Upon receipt of a routable order, the System will process the order in accordance with the applicable routing options, listed in paragraph (c) below.

(1) Orders Eligible for Routing. A sell order marked "short" is not eligible to route ~~aggressively to take~~ during a Short Sale Period, but ~~such order may can route passively to rest on away trading centers (i.e. Route to Rest) post to the Order Book~~. If a sell order marked "short" is ineligible for routing during a Short Sale Period and such order is an IOC or a market order, then the order will be canceled. If a sell order marked "short" is ineligible for routing during a Short Sale Period and such order is not an IOC or market order, the Exchange will post the unfilled balance of the order to the Order Book, subject to the short sale price sliding process as defined in paragraph (h)(4) of IEX Rule 11.190), as well as any other applicable price sliding process. Sell orders marked long or short exempt pursuant to IEX Rule 11.290 are not subject to this paragraph.

(2) Routing Process. ~~With respect to an order that is eligible for routing and an accessible Protected Quotation exists, (a) when routing to such away accessible Protected Quotations, the System will designate outbound orders as IOCs and will cause such orders to be routed to one or more away trading centers (as defined in IEX Rule 2.220) displaying such Protected Quotations for potential execution in compliance with Rule 611 under Regulation NMS, and (b) when routing to the Order Book, the System will designate orders to the Order Book as either IOC or FOK, depending on market conditions, and will cause such orders to be routed to the Order Book for potential execution and compliance with Rule 611 of Regulation NMS via connectivity pursuant to Rule 11.510. With respect to an order that is eligible for routing, depending on the routing option identified by the User (e.g., Router Plus) and the applicable market conditions, prior to outbound routing, the System may designate and route such order to the Order Book as an IOC or FOK, via connectivity pursuant to IEX Rule 11.510, for potential execution in compliance with Rule 611 under Regulation NMS. Subsequent to checking the Order Book or initially for any other~~ With respect to an order that is eligible for routing and an accessible Protected Quotation exists, the System will designate outbound orders ~~and orders to the Order Book as IOCs and will cause such orders to be routed to one or more away trading centers (as defined in IEX Rule 2.220) displaying such Protected Quotations and the Order Book for potential execution in compliance with Rule 611 under Regulation NMS.~~ After the System receives responses to orders that were routed away, to the extent an order is not executed in full through the routing process, or in cases where there are no accessible Protected Quotations at the time of routing, the System will process the balance of such order as follows. Depending on parameters set by the User when the incoming order was originally entered, the System will either:

- (A) Cancel the unfilled balance of the order back to the User;
- (B) Post the unfilled balance of the order to the Order Book, subject to the price sliding process as defined in paragraph (h) of IEX Rule 11.190;

- (C) Repeat the process described in ~~paragraph (a) above and~~ this paragraph (b)(2) by executing against the Order Book and/or routing orders to away trading centers until the original, incoming order is executed in its entirety or it is no longer marketable. If the order is not executed in its entirety, the System will cancel back to the User (in the case of an IOC or market order) or post to the Order Book ~~and/or at an away trading center, as described in paragraph (c) below,~~ the unfilled balance of the order;
- (D) Notwithstanding the foregoing, to the extent the System is unable to access a Protected Quotation at the NBBO and there are no other accessible Protected Quotations at the NBBO, the System will post the order or any remaining unexecuted shares on the Order Book, subject to the price sliding process, or cancel, as per User instruction, provided, however, that this provision will not apply to Protected Quotations published by an away trading center against which the Exchange has declared self-help pursuant to paragraph (d) below. To the extent the unfilled balance of an order has been posted to the Order Book, should the booked limit price of the order subsequently be locked or crossed by an accessible away trading center, the System shall route the order, in part or in full, to such locking or crossing away trading center ~~if instructed to do so by the User (the “re-sweep” behavior as~~ described in paragraph (c)(53) below).
- (3) Priority of Routed Orders. Orders sent by the System to away trading centers do not retain time priority with respect to other orders in the System and the System shall continue to execute other orders while routed orders are at away trading centers. Once routed by the System, an order becomes subject to the rules and procedures of the destination market including, but not limited to, short-sale regulation and order cancellation. Requests from Users to cancel their orders while the order is routed away to an away trading center and remains outside the System shall be processed, subject to the applicable trading rules of such away trading center. If a routed order is subsequently returned, in whole or in part, that order, or its remainder, shall receive a new timestamp reflecting the time of its return to the System. Following the routing process described above, unless the terms of the order direct otherwise, any unfilled portion of the order originally entered into the System shall be ranked in the Order Book in accordance with the terms of such order under IEX Rule 11.220 and such order shall be eligible for execution under this IEX Rule 11.230.
- (c) Routing Options. The System provides a variety of routing options. Routing options may be combined with all available order types and parameters, with the exception of order types and parameters whose terms are inconsistent with the terms of a particular routing option as described in IEX Rule 11.190. An order eligible for routing must have a TIF of DAY, SYS, GTX, GTT, or IOC. The System will consider the quotations only of accessible markets, in particular those not subject to self-help pursuant to IEX Rule 11.230(d). The term “System routing table” refers to the proprietary process for determining the specific trading venues, including the Order Book, to which the System routes orders and the order in which it routes them. The Exchange reserves the right to maintain a different System routing table for different routing options and to modify the System routing table at any time without notice. The System routing options are:
- ~~(1) Route to Take (a.k.a. “SweepPost”). Route to Take is a routing option under which an order checks the Order Book for available shares and then is sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the Order Book or canceled, as per User instruction.~~
- ~~(2)(1) Route to Take with Re-sweep (a.k.a. “Router”) Basic. Router Basic to Take with Re-sweep is a routing option under which an order is sent to destinations on the System routing table, which is functionally identical to Route to Take, with the exception that once posted after routing, t~~ If shares remain unexecuted after routing, they are posted on the Order Book or canceled, as per User instruction. Once posted on the Order Book, the unexecuted

portion of such an order is eligible for the re-sweep behavior described in paragraph (53), market conditions permitting.

~~(A) When an order is marked with a TIF of IOC, the Route to Take with Re-sweep order will function as a Route to Take order, i.e. there is no opportunity for a “re-sweep” from resting.~~

~~(3) Route to Rest (a.k.a. “SweepPost+”). Route to Rest is a routing option under which an order checks the Order Book for available shares and then is sent to destinations on the System routing table. If shares remain unexecuted after routing, all or a portion of remaining shares are posted on destination(s) on the System routing table or are canceled, as per User instruction. “Rest” behavior is described in paragraph (6) below.~~

~~(A) When an order is marked with a TIF of IOC, the Route to Rest order will function as a Route to Take order, i.e. there is no opportunity to rest.~~

~~(4)(2) Route to Rest with Re-sweep (a.k.a. “Router+”). Plus. Router to Rest with Re-sweepPlus is a routing option under which an order checks is sent to the Order Book to check for available shares and then any remainder is sent to destinations on the System routing table which is functionally identical to Route to Rest, with the exception that once posted after routing, the unexecuted portion of such an order is eligible for the re-sweep behavior described in paragraph (5), market conditions permitting. If shares remain unexecuted after routing, they are posted on the Order Book or canceled, as per User instruction. Once posted on the Order Book, the unexecuted portion of such an order is eligible for the re-sweep behavior described in paragraph (3), market conditions permitting.~~

~~(A) When an order is marked with a TIF of IOC, the Route to Rest with Re-sweep order will function as a Route to Take order, i.e. there is no opportunity to rest, or for a “re-sweep” from resting.~~

~~(5)(3) Re-sweep Behavior. Re-Sweep is a feature available to the certain routing strategies options as described in this IEX Rule 11.230 that allows for a resting order to route to Protected Quotations when the resting order’s limit price has been locked or crossed by the Protected NBBO, IEX Rules permitting. When an order is marked with a TIF of IOC, the order will not have an opportunity to re-sweep, i.e. there is no opportunity for a “re-sweep” because orders marked with a TIF of IOC do not rest on the Order Book.~~

(A) Re-sweep when Order’s Limit is Locked by Protected NBBO. If a resting order eligible for re-sweep has its booked limit price locked by the Protected NBO (for buy orders) or Protected NBB (for sell orders) for a minimum amount of time between 750 milliseconds and one (1) second, the System will route to the Protected Quotations at the locking NBO or NBB their full displayed size (or the remaining unexecuted shares on the order, if smaller). In the case that such resting order is a reserve order, the System will decrement first from the non-displayed portion, and then from the displayed portion. Any shares unexecuted will be returned to the Order Book, either incrementing the resting order, or re-posting the order to the Order Book, receiving a new timestamp as per Rule 11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order.

(B) Re-sweep when Order’s Limit is Crossed by Protected NBBO. If a resting order eligible for re-sweep has its booked limit price crossed by the Protected NBO (for buy orders) or Protected NBB (for sell orders), i.e. the Protected NBO becomes lower than the limit price of a buy order, or the Protected NBB becomes higher than the limit price of a sell order, for a minimum amount of time between 750 milliseconds and one (1) second, the System will route the entire order to away trading centers as per this IEX Rule 11.230. Any shares unexecuted will be re-posted to the Order Book, receiving a new timestamp as per Rule

11.220(a). This cycle may be repeated, the order being re-routed to away trading centers multiple times, until the order is fully executed or canceled, subject to the limit price of the order.

- (d) Self-Help. The Exchange shall take advantage of the self-help provisions of Regulation NMS. Pursuant to the self-help provisions, the System may execute a transaction that would constitute a trade-through of a Protected Quotation displayed on an away trading center if such away trading center is experiencing a failure, material delay, or malfunction of its systems or equipment. If an away trading center publishing a Protected Quotation repeatedly fails to respond within one second to orders sent by the System to access such away trading center's Protected Quotation, the System may disregard those Protected Quotations when routing, displaying, canceling or executing orders on the Exchange. When invoking self-help, the Exchange will:
- (1) Notify the non-responding away trading center immediately after (or at the same time as) electing self-help; and
 - (2) Assess whether the cause of the problem lies with the System and, if so, taking immediate steps to resolve the problem instead of invoking self-help.
- (e) Market Access. In addition to the IEX Rules regarding routing to away trading centers, IEX Services, as defined in IEX Rule 2.220, has, pursuant to Rule 15c3-5 under the Act, implemented certain checks designed to mitigate risks associated with providing the Exchange's Users with access to such away trading centers. Pursuant to the policies and procedures developed by IEX Services to comply with Exchange Act Rule 15c3-5, if an order or series of orders are deemed to be erroneous or duplicative, or are non-compliant with applicable pre-trade regulatory requirements (as defined in Exchange Act Rule 15c3-5), IEX Services will reject such orders prior to routing and/or seek to cancel any orders that have been routed.

Rule 11.231. Regular Market Session Opening Process

- (a) Pre-Market Order Queue. Orders not eligible for trading prior to the commencement of the Regular Market Session that are received and queued during the Pre-Market Session as described in IEX Rule 11.190(a) are queued in the time sequence of their receipt by the System, pursuant to IEX Rule 11.220(2)(a).
- (b) Queued Order Modification. Orders queued prior to the Regular Market Session may be modified consistent with Rule 11.190(d).
- (1) Any modification to a routable order so queued will result in the time of receipt being updated to the time of receipt of the last modification, pursuant to IEX Rule 11.220(2)(a).
 - (2) Any modification to a non-routable order so queued may result in the time of receipt being updated to the time of receipt of the last modification consistent with the application of a new timestamp, pursuant to IEX Rule 11.220(2)(a).
- (c) Queued Order Opening Process. At the commencement of the Regular Hours Trading, orders queued during the Pre-Market Session are processed as incoming orders, consistent with Rules 11.190 and 11.230 in their relative time priority, pursuant to Rule 11.220(2)(a).
- (d) All messages relevant to the Order Book received after the commencement of the Regular Market Session will be processed after the completion of the Regular Market Session Opening Process.
- (e) If a security is subject to a halt, suspension, or pause in trading during the Pre-Market Session, the Exchange will not accept orders for the Regular Market Session Opening Process or otherwise. If the halt, suspension, or pause remains in effect at the time of the Regular Market Session Opening Process, the Opening Process will not occur at the normally

scheduled time. Once the security resumes trading, the Exchange will conduct the Regular Market Session Opening Process for any orders in the queue, then accept and execute orders as usual in accordance with prevailing market session rules.

Rule 11.240. Trade Execution, Reporting, and Dissemination of Quotations

- (a) Executions occurring as a result of orders matched against the Order Book shall be reported by the Exchange to an appropriate consolidated transaction reporting system to the extent required by the Act and the rules and regulations thereunder. Executions occurring as a result of orders routed away from the System shall be reported to an appropriate consolidated transaction reporting system by the relevant reporting away trading center. The Exchange shall promptly notify Users of all executions of their orders as soon as such executions take place.
- (b) The Exchange shall identify all trades executed pursuant to an exception or exemption from Rule 611 of Regulation NMS in accordance with specifications approved by the operating committee of the relevant national market system plan for an NMS stock. If a trade is executed pursuant to both the inter-market sweep order exception of Rule 611(b)(5) of Regulation NMS and the self-help exception of Rule 611(b)(1) of Regulation NMS, such trade shall be identified as executed pursuant to the inter-market sweep order exception.
- (c) Display of Automated Quotations. The System will be operated as an “automated market center” within the meaning of Regulation NMS, and in furtherance thereof, will display “automated quotations” within the meaning of Regulation NMS at all times except in the event that a systems malfunction renders the System incapable of displaying automated quotations.
 - (1) Dissemination of Quotation Information. The aggregate of the best-ranked order(s), pursuant to IEX Rule 11.220, to buy and the best-ranked order(s) to sell that are displayable in the Order Book shall be collected and made available to quotation vendors for dissemination pursuant to the requirements of Rule 602 of Regulation NMS. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to the Consolidated Tape Association (“CTA”) Plan and Unlisted Trading Privileges (“UTP”) Plan (collectively, “the SIPs”) for dissemination of quotation information.
- (d) Dissemination of Last Sale Information. Executions occurring as a result of orders matched against the Order Book, pursuant to IEX Rule 11.230, shall be collected and made available to last sale vendors for dissemination. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to the SIPs for dissemination of last sale (i.e. execution) information.

Rule 11.250. Clearance and Settlement; Anonymity

- (a) Each User must either (1) be a member of a registered clearing agency that uses a continuous net settlement (“CNS”) system, or (2) clear transactions executed on the Exchange through another User that is a member of such a registered clearing agency. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to the Universal Trade Capture (“UTC”) of the National Securities Clearing Corporation (“NSCC”), a subsidiary of the Depository Trust & Clearing Corporation (“DTCC”), for transmission of executed transactions. If a Member clears transactions through another Member that is a member of a registered clearing agency (“clearing member”), such clearing member shall affirm to the Exchange in writing, through letter of authorization, letter of guarantee or other agreement acceptable to the Exchange, its agreement to assume responsibility for clearing and settling any and all trades executed by the Member designating it as its clearing firm. The rules of any such clearing agency shall govern with respect to the clearance and settlement of any transactions executed by the Member on the Exchange.

- (1) Solely at the discretion of the Exchange, a Member may clear transactions executed on the Exchange through a non-Member that is a Member of a foreign clearing agency with which a registered clearing agency has an agreement of mutual recognition, and is permitted to clear transactions of the Member in the registered clearing agency's CNS system.
- (b) Each transaction executed within the System is executed on a locked-in basis and shall be automatically processed for clearance and settlement.
- (c) The transaction reports produced by the System will indicate the details of transactions executed in the System but shall not reveal contra party identities. Except as set forth in paragraph (d) below, transactions executed in the System will also be cleared and settled anonymously.
- (d) Except as required by any registered clearing agency, the Exchange will reveal the identity of a Member or Member's clearing firm in the following circumstances:
 - (1) For regulatory purposes or to comply with an order of a court or arbitrator; or
 - (2) When a registered clearing agency ceases to act for a Member or the Member's clearing firm, and determines not to guarantee the settlement of the Member's trades.

Rule 11.260. LIMITATION OF LIABILITY

- (a) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY OF ITS AGENTS, EMPLOYEES, CONTRACTORS, OFFICERS, DIRECTORS, SHAREHOLDERS, COMMITTEE MEMBERS OR AFFILIATES ("EXCHANGE RELATED PERSONS") SHALL BE LIABLE TO ANY USER, OR SUCCESSORS, REPRESENTATIVES OR CUSTOMERS THEREOF, OR ANY PERSONS ASSOCIATED THEREWITH, FOR ANY LOSS, DAMAGES, CLAIM OR EXPENSE:
 - (1) GROWING OUT OF THE USE OR ENJOYMENT OF ANY FACILITY OF THE EXCHANGE, INCLUDING, WITHOUT LIMITATION, THE SYSTEM; OR
 - (2) ARISING FROM OR OCCASIONED BY ANY INACCURACY, ERROR OR DELAY IN, OR OMISSION OF OR FROM THE COLLECTION, CALCULATION, COMPILATION, MAINTENANCE, REPORTING OR DISSEMINATION OF ANY INFORMATION DERIVED FROM THE SYSTEM OR ANY OTHER FACILITY OF THE EXCHANGE, RESULTING EITHER FROM ANY ACT OR OMISSION BY THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, OR FROM ANY ACT CONDITION OR CAUSE BEYOND THE REASONABLE CONTROL OF THE EXCHANGE OR ANY EXCHANGE RELATED PERSON, INCLUDING, BUT NOT LIMITED TO, FLOOD, EXTRAORDINARY WEATHER CONDITIONS, EARTHQUAKE OR OTHER ACTS OF GOD, FIRE, WAR, TERRORISM, INSURRECTION, RIOT, LABOR DISPUTE, ACCIDENT, ACTION OF GOVERNMENT, COMMUNICATIONS OR POWER FAILURE, OR EQUIPMENT OR SOFTWARE MALFUNCTION.
- (b) EACH MEMBER EXPRESSLY AGREES, IN CONSIDERATION OF THE ISSUANCE OF ITS MEMBERSHIP IN THE EXCHANGE, TO RELEASE AND DISCHARGE THE EXCHANGE, IEX SERVICES, AND ALL EXCHANGE OR IEX SERVICES RELATED PERSONS OF AND FROM ALL CLAIMS AND DAMAGES ARISING FROM THEIR ACCEPTANCE AND USE OF THE FACILITIES OF THE EXCHANGE (INCLUDING, WITHOUT LIMITATION, THE SYSTEM).
- (c) NEITHER THE EXCHANGE, IEX SERVICES, NOR ANY EXCHANGE OR IEX SERVICES RELATED PERSON MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS TO USERS AS TO RESULTS THAT ANY PERSON OR PARTY MAY OBTAIN FROM THE SYSTEM FOR TRADING OR FOR ANY OTHER PURPOSE, AND ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, TITLE, AND NON-INFRINGEMENT WITH RESPECT TO THE SYSTEM ARE HEREBY DISCLAIMED.

- (d) NOTWITHSTANDING PARAGRAPH (a) ABOVE, AND SUBJECT TO THE EXPRESS LIMITS SET FORTH BELOW, THE EXCHANGE MAY COMPENSATE MEMBERS FOR LOSSES DIRECTLY RESULTING FROM THE SYSTEMS' ACTUAL FAILURE TO CORRECTLY PROCESS AN ORDER, MESSAGE, OR OTHER DATA, PROVIDED THE EXCHANGE HAS ACKNOWLEDGED RECEIPT OF THE ORDER, MESSAGE OR DATA.
- (1) AS TO ANY ONE OR MORE CLAIMS MADE BY A SINGLE MEMBER UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$100,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
 - (2) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL MEMBERS UNDER THIS IEX RULE ON A SINGLE TRADING DAY, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$250,000 OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
 - (3) AS TO THE AGGREGATE OF ALL CLAIMS MADE BY ALL MEMBERS UNDER THIS IEX RULE DURING A SINGLE CALENDAR MONTH, THE EXCHANGE SHALL NOT BE LIABLE IN EXCESS OF THE LARGER OF \$500,000, OR THE AMOUNT OF ANY RECOVERY OBTAINED BY THE EXCHANGE UNDER ANY APPLICABLE INSURANCE MAINTAINED BY THE EXCHANGE.
- (e) IN THE EVENT THAT ALL OF THE CLAIMS MADE UNDER THIS IEX RULE CANNOT BE FULLY SATISFIED BECAUSE IN THE AGGREGATE THEY EXCEED THE APPLICABLE MAXIMUM LIMITATIONS PROVIDED IN THIS IEX RULE 11.260, THEN THE MAXIMUM PERMITTED AMOUNT WILL BE PROPORTIONALLY ALLOCATED AMONG ALL SUCH CLAIMS ARISING ON A SINGLE TRADING DAY OR DURING A SINGLE CALENDAR MONTH, AS APPLICABLE, BASED ON THE PROPORTION THAT EACH SUCH CLAIM BEARS TO THE SUM OF ALL SUCH CLAIMS.
- (f) ALL CLAIMS FOR COMPENSATION PURSUANT TO THIS IEX RULE SHALL BE IN WRITING AND MUST BE SUBMITTED NO LATER THAN THE OPENING OF TRADING ON THE NEXT BUSINESS DAY FOLLOWING THE DAY ON WHICH THE USE OF THE EXCHANGE GAVE RISE TO SUCH CLAIMS. ONCE IN RECEIPT OF A CLAIM, THE EXCHANGE WILL VERIFY THAT: (i) A VALID ORDER WAS ACCEPTED INTO THE EXCHANGE'S SYSTEMS; AND (ii) AN EXCHANGE SYSTEM FAILURE OR A NEGLIGENT ACT OR OMISSION OF AN EXCHANGE EMPLOYEE OCCURRED DURING THE EXECUTION OR HANDLING OF THAT ORDER.

Rule 11.270. Clearly Erroneous Executions

- (a) Definition. For purposes of this IEX Rule 11.270, the terms of a transaction executed on the Exchange are "clearly erroneous" when there is an obvious error in any term, such as price, number of shares or other unit of trading, or identification of the security. A transaction made in clearly erroneous error and canceled by both parties or determined by the Exchange to be clearly erroneous will be removed from the Consolidated Tape.
- (b) Request and Timing of Review. A Member that receives an execution on an order that was submitted erroneously to the Exchange for its own or customer account may request that the Exchange review the transaction under this IEX Rule 11.270. An Officer of the Exchange or such other employee designee of the Exchange ("Official") shall review the transaction under dispute and determine whether it is clearly erroneous, with a view toward maintaining a fair and orderly market and the protection of investors and the public interest. Such request for review shall be made in writing via e-mail or other electronic means specified from time to time by the Exchange in a circular distributed to Members.
- (1) Requests for Review. Requests for review must be received by the Exchange within thirty (30) minutes of execution time and shall include information concerning the time of the transaction(s), security symbol(s),

number of shares, price(s), side (bought or sold), and factual basis for believing that the trade is clearly erroneous. Upon receipt of a timely filed request that satisfies the numerical guidelines set forth in paragraph (c)(1) of this IEX Rule 11.270, the counterparty to the trade, if any, shall be notified by the Exchange as soon as practicable, but generally within thirty (30) minutes. An Official may request additional supporting written information to aid in the resolution of the matter. If requested, each party to the transaction shall provide any supporting written information as may be reasonably requested by the Official to aid resolution of the matter within thirty (30) minutes of the Official's request. Either party to the disputed trade may request the supporting written information provided by the other party on the matter.

- (2) Routed Executions. Away trading centers will generally have an additional thirty (30) minutes from receipt of their participant's timely filing, but no longer than sixty (60) minutes from the time of the execution at issue, to file with the Exchange for review of transactions routed to the Exchange from that away trading center and executed on the Exchange.

(c) Thresholds. Determinations of whether an execution is clearly erroneous will be made as follows:

- (1) Numerical Guidelines. Subject to the provisions of paragraph (c)(3) below, a transaction executed during the Regular Market Session or during the Pre-Market or Post-Market Session shall be found to be clearly erroneous if the price of the transaction to buy (sell) that is the subject of the complaint is greater than (less than) the Reference Price by an amount that equals or exceeds the Numerical Guidelines set forth below. The execution time of the transaction under review determines whether the threshold is the Regular Market Session or during the Pre-Market or Post-Market Sessions (which occur before and after the Regular Market Session). The Reference Price will be equal to the consolidated last sale immediately prior to the execution(s) under review except for: (A) Multi-Stock Events involving twenty or more securities, as described in paragraph (c)(2) below; and (B) in other circumstances, such as, for example, relevant news impacting a security or securities, periods of extreme market volatility, sustained illiquidity, or widespread system issues, where use of a different Reference Price is necessary for the maintenance of a fair and orderly market and the protection of investors and the public interest.

Reference Price, Circumstance or Product	Regular Market Hours Numerical Guidelines (Subject transaction's % difference from the Reference Price)	Pre-Market and Post-Market Session Numerical Guidelines (Subject transaction's % difference from the Reference Price)
Greater than \$0.00 up to and including \$25.00	10%	20%
Greater than \$25.00 up to and including \$50.00	5%	10%
Greater than \$50.00	3%	6%
Multi-Stock Event – Filings involving five or more, but less than twenty,	10%	10%

Reference Price, Circumstance or Product	Regular Market Hours Numerical Guidelines (Subject transaction's % difference from the Reference Price)	Pre-Market and Post-Market Session Numerical Guidelines (Subject transaction's % difference from the Reference Price)
securities whose executions occurred within a period of five minutes or less		
Multi-Stock Event – Filings involving twenty or more securities whose executions occurred within a period of five minutes or less	30%, subject to the terms of paragraph (c)(2) below	30%, subject to the terms of paragraph (c)(2) below
Leveraged ETF/ETN	Regular Market Hours	Regular Market Hours

- (2) Multi-Stock Events Involving Twenty or More Securities. During Multi- Stock Events involving twenty or more securities the number of affected transactions may be such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest. In such circumstances, the Exchange may use a Reference Price other than consolidated last sale. To ensure consistent application across trading centers when this paragraph is invoked, the Exchange will promptly coordinate with the away trading centers to determine the appropriate review period, which may be greater than the period of five minutes or less that triggered application of this paragraph, as well as select one or more specific points in time prior to the transactions in question and use transaction prices at or immediately prior to the one or more specific points in time selected as the Reference Price. The Exchange will nullify as clearly erroneous all transactions that are at prices equal to or greater than 30% away from the Reference Price in each affected security during the review period selected by the Exchange and other markets consistent with this paragraph.
- (3) Additional Factors. Except in the context of a Multi-Stock Event involving five or more securities, an Official may also consider additional factors to determine whether an execution is clearly erroneous, including but not limited to, system malfunctions or disruptions, volume and volatility for the security, derivative securities products that correspond to greater than 100% in the direction of a tracking index, news released for the security, whether trading in the security was recently halted/resumed, whether the security is an initial public offering, whether the security was subject to a stock-split, reorganization, or other corporate action, overall market conditions, Pre-Market Session or Post-Market Session executions, validity of the consolidated tapes trades and quotes, consideration of primary market indications, and executions inconsistent with the trading pattern in the stock. Each additional factor shall be considered with a view toward maintaining a fair and orderly market and the protection of investors and the public interest.
- (d) Outlier Transactions. In the case of an Outlier Transaction, an Official may, in his or her sole discretion, and on a case-by-case basis, consider requests received pursuant to paragraph (b) of this IEX Rule 11.270 after thirty (30) minutes, but not longer than sixty (60) minutes after the transaction in question, depending on the facts and circumstances surrounding such request.

- (1) An “Outlier Transaction” means a transaction where the execution price of the security is greater than three times the current Numerical Guidelines set forth in paragraph (c)(1) of this IEX Rule 11.270.
- (2) If the execution price of the security in question is not within the Outlier Transaction parameters set forth in paragraph (d)(1) of this IEX Rule but breaches the 52-week high or 52-week low, the Exchange may consider Additional Factors as outlined in paragraph (c)(3), in determining if the transaction qualifies for further review or if the Exchange shall decline to act.

(e) Review Procedures.

- (1) Determination by Official. Unless both parties to the disputed transaction agree to withdraw the initial request for review, the transaction under dispute shall be reviewed, and a determination shall be rendered by the Official. If the Official determines that the transaction is not clearly erroneous, the Official shall decline to take any action in connection with the completed trade. In the event that the Official determines that the transaction in dispute is clearly erroneous, the Official shall declare the transaction null and void. A determination shall be made generally within thirty (30) minutes of receipt of the complaint, but in no case later than the start of the Regular Market Session on the following day. The parties shall be promptly notified of the determination.
- (2) Appeals. If a Member affected by a determination made under this IEX Rule 11.270 so requests within the time permitted below, the Clearly Erroneous Execution Panel (“CEE Panel”) will review decisions made by the Official under this IEX Rule, including whether a clearly erroneous execution occurred and whether the correct determination was made; provided however that the CEE Panel will not review decisions made by an Officer under paragraph (f) of this IEX Rule 11.270 if such Officer also determines under paragraph (d) of this IEX Rule that the number of the affected transactions is such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest, and further provided that with respect to rulings made by the Exchange in conjunction with one or more away trading centers, the number of affected transactions is similarly such that immediate finality is necessary to maintain a fair and orderly market and to protect investors and the public interest and, hence, are also non-appealable.
 - (A) The CEE Panel will be comprised of the CRO, or a designee of the CRO, and representatives from two (2) Members.
 - (B) The Exchange shall designate at least ten (10) representatives of Members to be called upon to serve on the CEE Panel as needed. In no case shall a CEE Panel include a person affiliated with a party to the trade in question. To the extent reasonably possible, the Exchange shall call upon the designated representatives to participate on a CEE Panel on an equally frequent basis.
 - (C) A request for review on appeal must be made in writing via e-mail or other electronic means specified from time to time by the Exchange in a circular distributed to Members within thirty (30) minutes after the party making the appeal is given notification of the initial determination being appealed. The CEE Panel shall review the facts and render a decision as soon as practicable, but generally on the same trading day as the execution(s) under review. On requests for appeal received between 3:00 p.m. Eastern Time and the close of trading in the Post-Market Session, a decision will be rendered as soon as practicable, but in no case later than the trading day following the date of the execution under review.
 - (D) The CEE Panel may overturn or modify an action taken by the Official under this IEX Rule 11.270. All determinations by the CEE Panel shall constitute final action by the Exchange on the matter at issue.
 - (E) If the CEE Panel votes to uphold the decision made pursuant to paragraph (e)(1) above, the Exchange will assess a \$500.00 fee against the Member(s) who initiated the request for appeal. In addition, in instances

where the Exchange, on behalf of a Member, requests a determination by an away trading center that a transaction is clearly erroneous, the Exchange will pass any resulting charges through to the relevant Member.

- (F) Any determination by an Officer or by the CEE Panel shall be rendered without prejudice as to the rights of the parties to the transaction to submit their dispute to arbitration.

- (f) System Disruption or Malfunctions. In the event of any disruption or a malfunction in the operation of any electronic communications and trading facilities of the Exchange in which the nullification of transactions may be necessary for the maintenance of a fair and orderly market or the protection of investors and the public interest exist, an Officer of the Exchange or other senior level employee designee, on his or her own motion, may review such transactions and declare such transactions arising out of the operation of such facilities during such period null and void. In such events, the Officer of the Exchange or such other senior level employee designee will rely on the provisions of paragraph (c)(1)-(3) of this IEX Rule, but in extraordinary circumstances may also use a lower Numerical Guideline if necessary to maintain a fair and orderly market, protect investors and the public interest. Absent extraordinary circumstances, any such action of the Officer of the Exchange or other senior level employee designee pursuant to this paragraph (f) shall be taken within thirty (30) minutes of detection of the erroneous transaction. When extraordinary circumstances exist, any such action of the Officer of the Exchange or senior level employee designee must be taken by no later than the start of Regular Market Hours on the trading day following the date of execution(s) under review. Each Member involved in the transaction shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.
- (g) Officer Acting on Own Motion. An Officer of the Exchange or senior level employee designee, acting on his or her own motion, may review potentially erroneous executions and declare trades null and void or shall decline to take any action in connection with the completed trade(s). In such events, the Officer of the Exchange or such other senior level employee designee will rely on the provisions of paragraph (c)(1) through (3) of this IEX Rule. Absent extraordinary circumstances, any such action of the Officer of the Exchange or other senior level employee designee shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction. When extraordinary circumstances exist, any such action of the Officer of the Exchange or other senior level employee designee must be taken by no later than the start of Regular Market Hours on the trading day following the date of execution(s) under review. When such action is taken independently, each party involved in the transaction shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.
- (h) Securities Subject to Limit Up-Limit Down Plan. For purposes of this paragraph, the phrase "Limit Up-Limit Down Plan" or "Plan" shall mean the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act. The provisions of paragraphs (a) through (g) above and (i) through (j) below shall govern all Exchange transactions, including transactions in securities subject to the Plan, other than as set forth in this paragraph (h). If as a result of an Exchange technology or systems issue any transaction occurs outside of the applicable price bands disseminated pursuant to the Plan, an Officer of the Exchange or senior level employee designee, acting on his or her own motion or at the request of a third party, shall review and declare any such trades null and void. Absent extraordinary circumstances, any such action of the Officer of the Exchange or other senior level employee designee shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction. When extraordinary circumstances exist, any such action of the Officer of the Exchange or other senior level employee designee must be taken by no later than the start of Regular Market Hours on the trading day following the date on which the execution(s) under review occurred. Each Member involved in the transaction shall be notified as soon as

practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above. In the event that a single plan processor experiences a technology or systems issue that prevents the dissemination of price bands, the Exchange will make the determination of whether to nullify transactions based on paragraphs (a) through (g) above and (i) through (j) below.

- (i) **Multi-Day Event.** A series of transactions in a particular security on one or more trading days may be viewed as one event if all such transactions were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information resulting in a severe valuation error for all such transactions (the “Event”). An Officer of the Exchange or senior level employee designee, acting on his or her own motion, shall take action to declare all transactions that occurred during the Event null and void not later than the start of trading on the day following the last transaction in the Event. If trading in the security is halted before the valuation error is corrected, an Officer of the Exchange or senior level employee designee shall take action to declare all transactions that occurred during the Event null and void prior to the resumption of trading. Notwithstanding the foregoing, no action can be taken pursuant to this paragraph with respect to any transactions that have reached settlement date or that result from an initial public offering of a security. To the extent transactions related to an Event occur on one or more away trading centers, the Exchange will promptly coordinate with such away trading center(s) to ensure consistent treatment of the transactions related to the Event, if practicable. Any action taken in connection with this paragraph will be taken without regard to the Numerical Guidelines set forth in this IEX Rule. Each Member involved in a transaction subject to this paragraph shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.
- (j) **Trading Halts.** In the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of the Exchange, an away trading center or responsible single plan processor in connection with the transmittal or receipt of a regulatory trading halt, suspension or pause, an Officer of the Exchange or senior level employee designee, acting on his or her own motion, shall nullify any transaction in a security that occurs after the primary listing market for such security declares a regulatory trading halt, suspension or pause with respect to such security and before such regulatory trading halt, suspension or pause with respect to such security has officially ended according to the primary listing market. In addition, in the event a regulatory trading halt, suspension or pause is declared, then prematurely lifted in error and is then re-instituted, an Officer of the Exchange or senior level employee designee shall nullify transactions that occur before the official, final end of the halt, suspension or pause according to the primary listing market. Any action taken in connection with this paragraph shall be taken in a timely fashion, generally within thirty (30) minutes of the detection of the erroneous transaction and in no circumstances later than the start of Regular Market Hours on the trading day following the date of execution(s) under review. Any action taken in connection with this paragraph will be taken without regard to the Numerical Guidelines set forth in this IEX Rule. Each Member involved in a transaction subject to this paragraph shall be notified as soon as practicable by the Exchange, and the party aggrieved by the action may appeal such action in accordance with the provisions of paragraph (e)(2) above.

Rule 11.271. Trading Halts

- (a) The Exchange does not accept any orders in a security subject to a trading halt at the time of a trading halt. Any order submitted during a halt will be rejected by the System.
- (b) Any orders resting on the Order Book at the time of a trading halt will not be canceled by the System. All orders resting on the Order Book in a security subject to a trading halt at the time of a trading halt will be unavailable for trading or re-sweep during the trading halt, but will be available for cancellation by the submitting User.
- (c) During a trading halt, all quotes disseminated by the Exchange for such security will be set to zero.

Rule 11.280. Trading Halts Due to Extraordinary Market Volatility

- (a) This IEX Rule shall be in effect during a pilot period to coincide with the pilot period for the Regulation NMS Plan to Address Extraordinary Market Volatility. If the pilot is not either extended or approved permanently at the end of the pilot period, the Exchange will amend this IEX Rule. The Exchange shall halt trading in all stocks and shall not reopen for the time periods specified in this IEX Rule 11.280 if there is a Level 1, 2, or 3 Market Decline.
- (1) For purposes of this IEX Rule 11.280, a Market Decline means a decline in price of the S&P 500® Index between 9:30 a.m. and 4:00 p.m. on a trading day as compared to the closing price of the S&P 500® Index for the immediately preceding trading day. The Level 1, Level 2, and Level 3 Market Declines that will be applicable for the trading day will be publicly disseminated before 9:30 a.m.
 - (2) A “Level 1 Market Decline” means a Market Decline of 7%.
 - (3) A “Level 2 Market Decline” means a Market Decline of 13%.
 - (4) A “Level 3 Market Decline” means a Market Decline of 20%.
- (b) Halts in Trading.
- (1) If a Level 1 Market Decline or a Level 2 Market Decline occurs after 9:30 a.m. Eastern Time and up to and including 3:25 p.m. Eastern Time, or in the case of an early scheduled close, 12:25 p.m. Eastern Time, the Exchange shall halt trading in all stocks for 15 minutes after a Level 1 or Level 2 Market Decline. The Exchange shall halt trading based on a Level 1 or Level 2 Market Decline only once per trading day. The Exchange will not halt trading if a Level 1 Market Decline or a Level 2 Market Decline occurs after 3:25 p.m. Eastern Time, or in the case of an early scheduled close, 12:25 p.m. Eastern Time.
 - (2) If a Level 3 Market Decline occurs at any time during the trading day, the Exchange shall halt trading in all stocks until the primary listing market opens the next trading day.
- (c) If a primary listing market halts trading in all stocks, the Exchange will halt trading in all stocks until trading has resumed on the primary listing market or notice has been received from the primary listing market that trading may resume. If the primary listing market does not reopen a security within 15 minutes following the end of the 15-minute halt period, the Exchange may resume trading in that security.
- (d) Nothing in this IEX Rule 11.280 should be construed to limit the ability of the Exchange to otherwise halt, suspend, or pause the trading in any stock or stocks traded on the Exchange pursuant to any other IEX Rule or policy.
- (e) Limit Up-Limit Down Mechanism.
- (1) Definitions.
 - (A) The term “Plan” or “Limit Up-Limit Down Plan” means the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act, as amended from time to time.
 - (B) All capitalized terms not otherwise defined in this paragraph (e) shall have the meanings set forth in the Plan or IEX Rules, as applicable.
 - (2) Exchange Participation in the Plan. The Exchange is a Participant in, and subject to the applicable requirements of, the Plan, which establishes procedures to address extraordinary volatility in NMS Stocks.
 - (3) Member Compliance. Members shall comply with the applicable provisions of the Plan.
 - (4) Exchange Compliance with the Plan. The System shall not rank, display or execute buy (sell) interest above (below) the Upper (Lower) Price Bands, unless such interest is specifically exempted under the Plan.

- (5) Re-pricing and Cancellation of Interest. The System shall re-price and/or cancel buy (sell) interest that is priced or could be executed above (below) the Upper (Lower) Price Band. When re-pricing resting orders because such orders are above (below) the Upper (Lower) Price Band, the Exchange will provide new timestamps to such orders.
- (A) Market Orders, FOK Orders and IOC Orders. The System will only execute market orders, FOK orders, or IOC orders at or within the Price Bands. If a market order, FOK order, or IOC order cannot be fully executed at or within the Price Bands, the System shall cancel any unexecuted portion of the order without posting such order to the Exchange's Order Book.
 - (B) Limit-priced Interest. Both displayable and non-displayable incoming limit-priced interest to buy (sell) that is priced above (below) the Upper (Lower) Price Band shall be re-priced to the Upper (Lower) Price Band. The System shall re-price resting limit-priced interest to buy (sell) to the Upper (Lower) Price Band if Price Bands move such that the price of resting limit-priced interest to buy (sell) would be above (below) the Upper (Lower) Price Band. If the Price Bands move again and the original limit price of displayed and re-priced interest is at or within the Price Band, the System shall re-price such displayed limit interest to the most aggressive permissible price up to the order's limit price. All other displayed and non-displayed limit interest re-priced pursuant to this paragraph (e) will remain at its new price unless the Price Bands move such that the price of resting limit-priced interest to buy (sell) would again be above (below) the Upper (Lower) Price Band.
 - (C) Pegged Interest. Pegged interest to buy (sell) shall peg to the specified pegging price or the Upper (Lower) Price Band, whichever is lower (higher).
 - (D) Routable Orders. If routing is permitted based on a User's instructions, orders shall be routed away from the Exchange pursuant to IEX Rule 11.230 at a price no more aggressive than the Lower Band Price (for sell orders) or Upper Band Price (for buy orders).
 - (E) Sell Short Orders. During a Short Sale Price Test, as defined in IEX Rule 11.290(b), Short Sale Orders priced below the Lower Price Band shall be re-priced to the higher of the Lower Price Band or the Permitted Display Price or Permitted Non-display Book Price, as applicable, as defined in IEX Rule 11.190(h)(4)(A).
- (f) All times referenced in this IEX Rule 11.280 are Eastern Time.

Rule 11.290. Short Sales

Marking. All sell orders entered into the Exchange must be marked long, short, or short exempt.

- (a) Definitions. For purposes of this IEX Rule, the terms "covered security," "listing market," and "national best bid" shall have the same meaning as in Rule 201 of Regulation SHO.
- (b) Short Sale Price Test. The System shall not execute, route to an away trading center, or display a short sale order not marked short exempt with respect to a covered security at a price that is less than or equal to the current national best bid if the price of that security decreases by 10% or more, as determined by the listing market for the covered security, from the covered security's closing price on the listing market as of the end of the Regular Market Session on the prior day.
- (c) Reserved

- (d) Duration of Short Sale Price Test. If the Short Sale Price Test is triggered by the listing market with respect to a covered security, the Short Sale Price Test shall remain in effect on the Exchange until the close of the Post-Market Session on the next trading day, as provided for in Regulation SHO Rule 201(b)(1)(ii) (the "Short Sale Period").
- (1) If the Exchange determines pursuant to IEX Rule 11.270 that the Short Sale Price Test for a covered security was triggered because of a clearly erroneous execution on the Exchange, the Exchange will notify the listing market of the Exchange's determination that the triggering transaction was a clearly erroneous execution as soon as practicable following such determination.

- (1) Top of Book. IEX determines the Top of Book quotation for each away trading center to be equal to the price and size of the most current displayed best priced bid and displayed best priced offer of an away trading center in an Regulation NMS Covered Security (“covered security”) known to the System during system hours through the market data sources described in paragraph (2) below.
- (2) Proprietary Market Data Feeds. The Exchange utilizes the following data feeds for each of the away trading centers that produce Protected Quotations. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to each away trading center for the receipt of such away trading center’s proprietary market data feeds. Proprietary market data feeds are the primary source from which the System determines the Top of Book quotation for each away trading center. Proprietary market data feeds are also the primary source of NBBO for certain reporting, regulatory and compliance systems within IEX. In the event of and during any issue or condition preventing the reliable use of proprietary market data feeds to determine Top of Book for an away

trading center, the System may switch to the Top of Book quotation for that away trading center, for one or more of its covered securities, as disseminated by the applicable Securities Information Processor ("SIP").

- (A) IEX aggregates odd and mixed lot quotations received via proprietary market data feeds into round lots for the purposes of determining each away trading center's Top of Book consistent with the convention used by each away trading center in its publish of its own best priced quotations to each SIP.
 - (3) SIP Market Data Feeds. IEX consumes SIP consolidated quotation and trade data feeds for each of the National Tape Plans for covered securities. The Exchange will maintain connectivity and access, pursuant to IEX Rule 11.510, to each SIP for the receipt of SIP feeds. SIP feeds are a secondary source of Top of Book information for each away trading center for which IEX has a proprietary market data feed, as well as being a primary source of administrative messages such as halts, unhalts, limit up-limit down reference prices, Regulation SHO short sale circuit breakers, and last sale information. SIP feeds are also the primary source of administrative messages for certain reporting, regulatory and compliance systems within IEX.
 - (4) IEX Best Priced Quotation. IEX is aware of its own Top of Book, aggregated best priced, resting, displayed orders for which it is publishing a protected quotation, intrinsically within the IEX System. The IEX System is the primary source of the IEX Top of Book for the purposes of calculating quote related reference prices for the trading system. SIP feeds and the IEX proprietary market data feeds may be the, or one of the, primary sources of IEX Top of Book information for certain reporting, regulatory, and compliance systems of the Exchange.
- (b) Quote Related Reference Prices are derived from composite of Top of Book determined for each away trading center as per paragraph (a) above in the following manner:
- (1) Protected Quotations. Protected Bids and Offers are determined from all Top of Book information for away trading centers' quotations meeting the requirements defined in rules of Regulation NMS. IEX consumes the Protected Quotations from the away trading centers listed in this IEX Rule.
 - (2) National Best Bid and Offer. The NBBO is equal to the highest bid and lowest offer among all valid Top of Book for each protected quotation in each covered security, including IEX's own quotation. Quotations of venues against which IEX has declared self-help as described in IEX Rule 11.230(d), are included in the determination of the NBBO.
 - (3) Protected Best Bid and Offer. The Protected NBBO is equal to the highest bid and lowest offer among all valid Top of Book for each protected quotation in each covered security, including IEX's own quotation. Quotations of venues against which IEX has declared self-help as described in IEX Rule 11.230(d), are excluded in the determination of the PBBO.
 - (4) Market Data Snapshot ("SNAP"). A SNAP is the most current Top of Book of each away trading center disseminating a Protected Quotation at the time requested by the System.
- (c) Matching Engine Market Data Usage. The IEX Matching Engine uses the NBBO to determine price for pegged orders and the Regulation SHO Short Sale Price Test, and the Protected NBBO to determine the protected inside for the purpose of preventing locked and crossed markets, NMS price sliding, and trade through protection.
- (d) Market Data Usage for Routing Decisions. The System uses the NBBO to determine marketability of orders it handles. The System generates a SNAP for all away trading centers. Quotations excluded from the Protected NBBO are similarly excluded by the System for purposes of determining the Protected Quotations of individual away trading centers in a covered security. The System uses each SNAP for no longer than allowed by Regulation NMS Rule 611 "flickering quote" rule. The System's own orders and the responses it receives from away trading centers displaying

protected quotations to which it had routed will serve to inform the System's view of the Protected NBBO and contribute to the determination of Protected Quotations for purposes of routing that particular order to away trading centers.

IEX and FINRA are parties to the Regulatory Contract pursuant to which FINRA has agreed to perform certain functions on behalf of IEX. Therefore, IEX Members are complying with IEX Rule 11.420(e) by complying with FINRA Rule 7450 as written, including, for example, filing requirements and notifications. Rule 11.510. Connectivity

- (a) General. All Participants and Extranet Providers, each as defined in IEX Rule 11.130(a), may only connect to, access, and interact with the System at a network address maintained by the Exchange at ~~a point-of-presence of the Exchange~~ (the “IEX POP” or (the “POP”). Communications with the System from the POP are subject to an equivalent 350-~~microseconds~~ of latency between the network access point of the POP and the System at the primary data center (due to traversing the physical distance provided by coiled optical fiber and geographic distribution).
- (1) The Exchange offers a variety of connectivity options outlined in the Exchange’s Connectivity Manual (“Connectivity Manual”). IEX does not offer co-location services.
 - (2) Participants ~~and Extranet Providers~~ may connect to, access, and interact with the backup System when the System at the primary data center is unavailable and the Exchange declares it will operate from the backup data center. Certain Members are required to connect to the Exchange’s backup System and participate in functional and performance testing as specified in IEX Rule 2.250. Neither inbound nor outbound communications with the backup System traverse the POP as connectivity to the backup System occurs directly at the backup data center.
- (b) IEX POP Connectivity. The System is available for entry and execution of orders only via the POP by each Participant. Exchange ~~Data-data p~~Products are available for receipt only via connectivity at the POP by all Data Recipients. Inbound messages from Participants to the Exchange are subject to the inbound POP latency, as defined in paragraph (1) below. Outbound messages from ~~the Exchange Participants to the Participants Exchange~~ are subject to the outbound POP latency, as defined in paragraph (2) below.
- (1) Inbound POP Latency. For inbound communication (including, without limitation, order messages and cancel messages found in the Exchange’s FIX Specification), the POP is designed to provide all Participants with an equivalent 350-~~microseconds~~ of latency from the Exchange-provided network interface at the IEX POP to the System at the primary data center (“inbound POP latency”).
 - (2) Outbound POP Latency. For outbound communication (including, without limitation, execution report messages found in the Exchange’s FIX Specification and quote update messages found in the Exchange’s TOPS Specification), the POP is designed to provide all Participants with an equivalent 350-~~microseconds~~ of latency from the System at the primary data center to the Exchange-provided network interface at the IEX POP (“outbound POP latency”).
- (c) System Connectivity.
- (1) Order Book Processes and Order Execution. Order Book processing and order execution on the Order Book occur within the System and do not traverse the POP. Notwithstanding the foregoing, when the System routes ~~all or a portions of a~~ routable orders to the Order Book, in accordance with the System routing logic, all inbound and outbound communications (including, without limitation, order messages, cancel messages, and execution report messages found in the Exchange’s FIX Specification) traverse ~~an additional~~ the POP between the System routing logic and the Order Book, pursuant to paragraph (b) of this IEX Rule 11.510.
 - (2) System Receipt of Market Data.
 - (A) Proprietary Market Data Feeds. Pursuant to IEX Rule 11.410(a)(2), the System connects to each away trading center’s primary data center for the receipt of proprietary market data feeds. Communications with away trading centers do not traverse the POP. The System routing logic receives Exchange **data products** after traversing the POP, pursuant to paragraph (b) of this IEX Rule 11.510.

- (i) The backup System shall not have connectivity to each away trading center's primary data center for the receipt of proprietary market data.
- (B) SIP Feeds. Pursuant to IEX Rule 11.410(a)(3), the System connects to the SIPs for the receipt of SIP feeds. Communications with the SIPs do not traverse the POP.
- (3) Outbound Communication from the System to Facilities and Away Trading Centers.
 - (A) Outbound Router. Pursuant to IEX Rule 11.230(b), the System connects to the Outbound Router for order entry and execution on away trading centers; the Outbound Router subsequently connects to each away trading center for order entry and execution on such away trading centers. Communications ~~with~~ between the Outbound Router and away trading centers do not traverse the POP.
 - (B) Securities Information Processors. Pursuant to IEX Rule 11.240(c) and IEX Rule 11.240 (d), the System connects to the SIPs to disseminate quotation and last sale (i.e. execution) information. Communications with the SIPs do not traverse the POP.
 - (C) National Securities Clearing Corporation. Pursuant to IEX Rule 11.250(a), the System connects to the NSCC to transmit executed transactions. Communications with the NSCC do not traverse the POP.

• • • **Supplementary Material** • • •

.01 Backup System Connectivity.

The Exchange does not offer connectivity from the IEX POP to the Exchange's backup System. The backup System consumes SIP feeds as the sole market data source, therefore the POP is not required in the backup System. Thus, the Exchange offers connectivity directly at the backup data center.

.012 POP Latency.

Due to force majeure events and acts of third parties, the Exchange does not guarantee that the POP will always provide 350 microseconds of latency for the inbound POP latency and the outbound POP latency. The Exchange will periodically monitor such latency, and will make adjustments to the latency as reasonably necessary to achieve consistency with the 350-microsecond latency target as soon as commercially practicable. If the Exchange determines to increase or decrease either the inbound POP latency or the outbound POP latency it will submit a rule filing pursuant to Section 19 of the Act.

.03 Latency Experience for Users Sending Routable Orders.

All routable orders sent to the Exchange by Users traverse the 350 microseconds of latency from the POP to the System. Once the System routing logic determines the destinations to route such order, including the Order Book, the routed child orders are subject to the applicable latency to each venue. In the case of routing to the Order Book, the child order is subject an additional 350 microseconds of latency when traversing the POP from the System routing logic to the Order Book. In the case of routing to away trading centers, the child order is subject to the applicable latency from the System to each away trading center without traversing the POP. All responses from the Order Book to the System routing logic traverse the POP. All responses from away trading centers to the System routing logic do not traverse the POP. All responses to Users from the System routing logic traverses the POP.

CHAPTER 12. CODE OF ARBITRATION PROCEDURE FOR CUSTOMER AND INDUSTRY DISPUTES

Rule 12.110. Arbitration

- (a) General. The Rule 12000 Series and Rule 13000 Series of the FINRA Manual (Code of Arbitration Procedures for Customer Disputes and Code of Arbitration Procedures for Industry Disputes) (the “FINRA Code of Arbitration”), as the same may be in effect from time to time, shall govern Exchange arbitrations except as may be specified in this IEX Rule 12.110. Definitions in the FINRA Code of Arbitration shall have the same meaning as that prescribed therein, and procedures contained in the FINRA Code of Arbitration shall have the same application as toward Exchange arbitrations.
- (b) Jurisdiction. Any dispute, claim, or controversy arising out of or in connection with the business of any Member of the Exchange, or arising out of the employment or termination of employment of associated person(s) with any Member may be arbitrated under this IEX Rule 12.110 except that:
- (1) a dispute, claim, or controversy alleging employment discrimination (including a sexual harassment claim) in violation of a statute may only be arbitrated if the parties have agreed to arbitrate it after the dispute arose; and
 - (2) any type of dispute, claim, or controversy that is not permitted to be arbitrated under the FINRA Code of Arbitration (such as class action claims) shall not be eligible for arbitration under this IEX Rule 12.110.
- (c) Predispute Arbitration Agreements. The requirements of FINRA Rule 2268 shall apply to predispute arbitration agreements between Members and their customers.
- (d) Referrals. If any matter comes to the attention of an arbitrator during and in connection with the arbitrator’s participation in a proceeding, either from the record of the proceeding or from material or communications related to the proceeding, that the arbitrator has reason to believe may constitute a violation of the Exchange’s Rules or the federal securities laws, the arbitrator may initiate a referral of the matter to the Exchange for disciplinary investigation; provided, however, that any such referral should only be initiated by an arbitrator after the matter before him has been settled or otherwise disposed of, or after an award finally disposing of the matter has been rendered pursuant to Rule 12904 or 13904 (as applicable) of the FINRA Code of Arbitration.
- (e) Payment of Awards. Any Member, or person associated with a Member, who fails to honor an award of arbitrators appointed in accordance with this IEX Rule 12.110 shall be subject to disciplinary proceedings in accordance with Chapter 9.
- (f) Other Exchange Actions. The submission of any matter to arbitration under this IEX Rule 12.110 shall in no way limit or preclude any right, action or determination by the Exchange which it would otherwise be authorized to adopt, administer or enforce.

CHAPTER 13. RESERVED.

CHAPTER 14. IEX LISTING RULES

Rule 14.001. The Qualification, Listing, and Delisting of Companies

Chapter 14 contains rules related to the qualification, listing and delisting of Companies on the Exchange

The IEX Rule Series 14.100 discusses IEX's general regulatory authority. The IEX Rule Series 14.200 sets forth the procedures and prerequisites for gaining a listing on IEX, as well as the disclosure obligations of listed Companies. The IEX Rule Series 14.300 contains the specific quantitative listing requirements. The corporate governance requirements are contained in the IEX Rule Series 14.400. The consequences of a failure to meet IEX's listing standards are contained in the IEX Rule Series 14.500. Company listing fees are described in the IEX Rule Series 14.600. Special listing requirements for securities other than common or preferred stock and warrants are contained in Chapter 16.

The Exchange exercises other authorities important to listed Companies pursuant to its Rules. For example, the Exchange may close markets upon request of the SEC (see IEX Rule 11.110(c)). It may also halt the trading of a Company's securities under certain circumstances and pursuant to established procedures (see IEX Rule 11.280). These authorities are exercised primarily by IEX Regulation and are contained in Chapter 11.

IEX and the Financial Industry Regulatory Authority, Inc. ("FINRA") are parties to a regulatory contract pursuant to which FINRA has agreed to perform certain functions described in the IEX Rules and on behalf of IEX. Notwithstanding the fact that IEX has entered into the regulatory contract with FINRA to perform some of IEX's functions, IEX shall retain ultimate legal responsibility for, and control of, such functions.

Rule 14.002. Definitions

- (27) "Reverse Merger" means any transaction whereby an operating company becomes an Exchange Act reporting company by combining, either directly or indirectly, with a shell company which is an Exchange Act reporting company, whether through a reverse merger, exchange offer, or otherwise. However, a Reverse Merger does not include a business combination described in IEX Rule 14.102(a). In determining whether a Company is a shell company, the Exchange will look to a number of factors, including but not limited to: whether the Company is considered a "shell company" as defined in Rule 12b-2 under the Act; what percentage of the Company's assets are active versus passive; whether the Company generates revenues, and if so, whether the revenues are passively or actively generated; whether the Company's expenses are reasonably related to the revenues being

generated; how many employees support the Company's revenue-generating business operations; how long the Company has been without material business operations; and whether the Company has publicly announced a plan to begin operating activities or generate revenues, including through a near-term acquisition or transaction.

- (28) "Round Lot" or "Normal Unit of Trading" means 100 shares of a security unless, with respect to a particular security, the Exchange determines that a normal unit of trading shall constitute other than 100 shares. If a normal unit of trading is other than 100 shares, a special identifier shall be appended to the Company's Exchange symbol.

- (33) "Total Holders" means holders of a security that includes both beneficial holders and holders of record.

Rule 14.100. IEX's Regulatory Authority

Rule 14.101. IEX's Regulatory Authority

The Exchange is entrusted with the authority to preserve and strengthen the quality of and public confidence in its market. The Exchange stands for integrity and ethical business practices in order to enhance investor confidence, thereby contributing to the financial health of the economy and supporting the capital formation process. Exchange Companies, from new public Companies to Companies of international stature, are publicly recognized as sharing these important objectives.

The Exchange, therefore, in addition to applying the enumerated criteria set forth in Chapter 14, has broad discretionary authority over the initial and continued listing of securities on the Exchange in order to maintain the quality, transparency and integrity of and public confidence in its market; to prevent fraudulent and manipulative acts and practices; to promote just and equitable principles of trade; to protect investors and the public interest; and to protect the safety and security of the Exchange and its employees. The Exchange may use such discretion to deny initial listing, apply additional or more stringent criteria for the initial or continued listing of particular securities, or suspend or delist particular securities based on any event, condition, or circumstance that exists or occurs that makes initial or continued listing of the securities on the Exchange inadvisable or unwarranted in the opinion of the Exchange, even though the securities meet all enumerated criteria for initial or continued listing on the Exchange. In the event that the Exchange Staff makes a determination to suspend or deny continued listing pursuant to its discretionary authority, the Company may seek review of that determination through the procedures set forth in the IEX Rule Series 14.500.

• • • **Supplementary Material** • • •

.01 Use of Discretionary Authority.

To further Companies' understanding of this IEX Rule, the Exchange has adopted this Supplementary Material .01 as a non-exclusive description of the circumstances in which the Rule is generally invoked.

The Exchange may use its authority under this IEX Rule to deny initial or continued listing to a Company when an individual with a history of regulatory misconduct is associated with the Company. Such individuals are typically an officer, director, Substantial Shareholder (as defined in IEX Rule 14.412(e)(3)), or consultant to the Company. In making this determination, the Exchange will consider a variety of factors, including:

- (a) the nature and severity of the conduct, taken in conjunction with the length of time since the conduct occurred;*
- (b) whether the conduct involved fraud or dishonesty;*
- (c) whether the conduct was securities-related;*
- (d) whether the investing public was involved;*
- (e) how the individual has been employed since the violative conduct;*
- (f) whether there are continuing sanctions (either criminal or civil) against the individual;*
- (g) whether the individual made restitution;*
- (h) whether the Company has taken effective remedial action; and*
- (i) the totality of the individual's relationship to the Company, giving consideration to:*
- (j) the individual's current or proposed position;*
- (k) the individual's current or proposed scope of authority;*
- (l) the extent to which the individual has responsibility for financial accounting or reporting; and*
- (m) the individual's equity interest.*

Based on this review, the Exchange may determine that the regulatory history rises to the level of a public interest concern, but may also consider whether remedial measures proposed by the Company, if taken, would allay that concern. Examples of such remedial measures could include any or all of the following, as appropriate:

- (1) the individual's resignation from officer and director positions, and/or other employment with the Company;*
- (2) divestiture of stock holdings;*
- (3) terminations of contractual arrangements between the Company and the individual; or*
- (4) the establishment of a voting trust surrounding the individual's shares.*

The Exchange staff is willing to discuss with Companies, on a case-by-case basis, what remedial measures may be appropriate to address public interest concerns, and for how long such remedial measures would be required. Alternatively, the Exchange may conclude that a public interest concern is so serious that no remedial measure would be sufficient to alleviate it. In the event that the Exchange staff denies continued listing based on such public interest considerations, the Company may seek review of that determination through the procedures set forth in the IEX Rule 14.500 Series. On consideration of such appeal, a listing qualifications panel comprised of persons independent of the Exchange may accept, reject or modify the staff's recommendations by imposing conditions.

The Exchange may also use its discretionary authority, for example, when a Company files for protection under any provision of the federal bankruptcy laws or comparable foreign laws, when a Company's independent accountants issue a disclaimer opinion on financial statements required to be audited, or when financial statements do not contain a required certification.

In addition, pursuant to its discretionary authority, the Exchange will review the Company's past corporate governance activities. This review may include activities taking place while the Company is listed on the Exchange or an exchange that imposes corporate governance requirements, as well as activities taking place after a formerly listed company is no longer listed on the Exchange or such an exchange. Based on such review, and in accordance with the IEX Rule 14.500 Series, the Exchange may take any appropriate action, including placing restrictions on or additional requirements for listing, or denying listing of a security, if the Exchange determines that there have been violations or evasions of such corporate governance standards. Such determinations will be made on a case-by-case basis as necessary to protect investors and the public interest.

Although the Exchange has broad discretion under this IEX Rule to impose additional or more stringent criteria, this IEX Rule does not provide a basis for the Exchange to grant exemptions or exceptions from the enumerated criteria for initial or continued listing, which may be granted solely pursuant to IEX Rules explicitly providing such authority.

Rule 14.102. Change of Control, Bankruptcy, Liquidation, and Reverse Mergers

(a) Business Combinations with non-IEX Entities Resulting in a Change of Control.

A Company must apply for initial listing in connection with a transaction whereby the Company combines with, or into, an entity that is not an IEX Company, resulting in a change of control of the Company and potentially allowing such entity to obtain an Exchange Listing. In determining whether a change of control has occurred, the Exchange shall consider all relevant factors including, but not limited to, changes in the management, board of directors, voting power, ownership, and financial structure of the Company. The Exchange shall also consider the nature of the businesses and the relative size of the IEX Company and the entity that is not an IEX Company. The Company must submit an application for the post-transaction entity with sufficient time to allow the Exchange to complete its review before the transaction is completed. If the Company's application for initial listing has not been approved prior to consummation of the transaction, the Exchange will issue a Staff Delisting Determination and begin delisting proceedings pursuant to IEX Rule 14.500.

(b) Bankruptcy and Liquidation.

The Exchange may use its discretionary authority under Chapter 14 to suspend or terminate the listing of a Company that has filed for protection under any provision of the federal bankruptcy laws or comparable foreign laws, or has announced that liquidation has been authorized by its board of directors and that it is committed to proceed, even though the Company's securities otherwise meet all enumerated criteria for continued listing on the Exchange. In the event that the Exchange determines to continue the listing of such a Company during a bankruptcy reorganization, the Company shall nevertheless be required to satisfy all requirements for initial listing, including the payment of initial listing fees, upon emerging from bankruptcy proceedings.

(c) Reverse Mergers

- (1) A Company that is formed by a Reverse Merger (a "Reverse Merger Company") shall be eligible to submit an application for initial listing only if the combined entity has, immediately preceding the filing of the initial listing application:
 - (A) traded for at least one year in the U.S. over-the-counter market, on another national securities exchange, or on a regulated foreign exchange, following the filing with the Commission or Other Regulatory Authority of all required information about the transaction, including audited financial statements for the combined entity; and
 - (B) maintained a closing bid price of \$4 per share or higher for a sustained period of time, but in no event for less than 30 of the most recent 60 trading days.

- (2) In addition to satisfying all of the Exchange's other initial listing requirements, a Reverse Merger Company will only be approved for listing if, at the time of approval, it has:
 - (A) timely filed all required periodic financial reports with the Commission or Other Regulatory Authority (Forms 10-Q, 10-K, or 20-F) for the prior year, including at least one annual report. The annual report must contain audited financial statements for a full fiscal year commencing after filing the information described in paragraph (1)(A) above; and
 - (B) maintained a closing bid price of \$4 per share or higher for a sustained period of time, but in no event for less than 30 of the most recent 60 trading days prior to approval.
- (3) A Reverse Merger Company will not be subject to the requirements of this IEX Rule if, in connection with its listing, it completes a firm commitment underwritten public offering where the gross proceeds to the Reverse Merger Company will be at least \$40 million. In addition, a Reverse Merger Company will no longer be subject to the requirements of this IEX Rule once it has satisfied the one-year trading requirement contained in paragraph (1)(A) above and has filed at least four annual reports with the Commission or Other Regulatory Authority containing all required audited financial statements for a full fiscal year commencing after filing the information described in that paragraph. In either case described in this paragraph (3), the Reverse Merger Company must satisfy all applicable requirements for initial listing, including the minimum bid price requirement and the requirement contained in IEX Rule 14.203(e) that the Company not be delinquent in its filing obligation with the Commission or Other Regulatory Authority.

Rule 14.200. General Procedures and Prerequisites for Initial and Continued Listing on the Exchange.

Rule 14.201. Confidential Pre-Application Review of Eligibility

- (a) A Company seeking the initial listing of one or more classes of securities on the Exchange must participate in a free confidential pre-application eligibility review by the Exchange in order to determine whether it meets the Exchange's listing criteria. If, upon completion of this review, the Exchange determines that a company is eligible for listing, the Exchange will notify that company in writing (the "clearance letter") that it has been cleared to submit an original listing application. A clearance letter is valid for nine months from its date of issuance. If a company does not list within that nine month period and wishes to list thereafter, the Exchange will perform another confidential listing eligibility review as a condition to the issuance of a new clearance letter. Once a Company has cleared such review, it may file an original listing application pursuant to IEX Rule 14.202.
- (b) Preliminary discussions with the Exchange on important matters in connection with the confidential pre-application eligibility review may be undertaken by Company officials interested in listing with the assurance that careful security measures have been adopted by the Exchange to avoid revealing any confidential information which the Company may disclose.

The information needed for the purpose of conducting a confidential pre-eligibility review is set forth in IEX Rules 14.202, 14.203, and Chapter 14 generally.

Rule 14.202. The Applications and Qualifications Process

- (a) After receiving a clearance letter pursuant to IEX Rule 14.201, a company choosing to list must file an original listing application. To apply for listing on the Exchange, a Company shall execute a Listing Agreement and a Listing Application on the forms designated by the Exchange providing the information required by Section 12(b) of the Act.

- (b) A Company's compliance with the initial listing criteria will be determined on the basis of the Company's most recent information filed with the Commission or Other Regulatory Authority and information provided to the Exchange. The Company shall certify, at or before the time of listing, that all applicable listing criteria have been satisfied.
- (c) A Company's qualifications will be determined on the basis of financial statements that are either: (i) prepared in accordance with U.S. generally accepted accounting principles; or (ii) reconciled to U.S. generally accepted accounting principles as required by the Commission's rules; or (iii) prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board, for Companies that are permitted to file financial statements using those standards consistent with the Commission's rules.
- (d) A Company that has applied for initial listing on the Exchange shall file with the Exchange all reports and other documents filed or required to be filed with the Commission or Other Regulatory Authority. This requirement is satisfied by publicly filing documents through the EDGAR System. All required reports must be filed with the Exchange on or before the date they are required to be filed with the Commission or Other Regulatory Authority. Annual reports filed with the Exchange shall contain audited financial statements.
- (e) The Exchange may request any information or documentation, public or non-public, deemed necessary to make a determination regarding a security's initial listing, including, but not limited to, any material provided to or received from the Commission or Other Regulatory Authority. A Company's security may be denied listing if the Company fails to provide such information within a reasonable period of time or if any communication to the Exchange contains a material misrepresentation or omits material information necessary to make the communication to the Exchange not misleading.
- (f) All forms and applications relating to listing of securities on the Exchange referenced in Chapter 14 are available from the Exchange's Regulation Department.
- (g) The computation of Publicly Held Shares and Market Value of Publicly Held Shares shall be as of the date of application of the Company.
- (h) An account of a Member that is beneficially owned by a customer (as defined in IEX Rule 1.160(j)) will be considered a holder of a security upon appropriate verification by the Member.
- (i) A Company may withdraw its application for initial listing at any time.

Rule 14.203. Prerequisites for Applying to List on the Exchange

All Companies applying to list on IEX must meet the following prerequisites:

- (a) Registration under 12(b) of the Act. A security shall be eligible for listing on IEX provided that it is: (i) registered pursuant to Section 12(b) of the Act; or (ii) subject to an exemption issued by the Commission that permits the listing of the security notwithstanding its failure to be registered pursuant to Section 12(b).
- (b) Auditor Registration. Each Company applying for initial listing must be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].
- (c) Direct Registration Program. All securities initially listing on IEX, except securities which are book-entry only, must be eligible for a Direct Registration Program operated by a clearing agency registered under Section 17A of the Act. A foreign issuer, as defined under Rule 3b-4 under the Act, including a Foreign Private Issuer, shall not be subject to this requirement if it submits to IEX a written statement from an independent counsel in such Company's home country certifying that a law or regulation in the home country prohibits compliance.

- (d) Fees. The Company is required to pay all applicable fees as described in IEX Rule Series 14.600.
- (e) Good Standing. No security shall be approved for listing that is delinquent in its filing obligation with the Commission or Other Regulatory Authority or suspended from trading by the Commission pursuant to Section 12(k) of the Act or by the appropriate regulatory authorities of the Company's country of domicile.
- (f) Exchange Certification. Upon approval of a listing application, the Exchange shall certify to the Commission, pursuant to Section 12(d) of the Act and the rules thereunder, that it has approved the security for listing and registration. Listing can commence only upon effectiveness of the security's registration pursuant to Section 12(d).
- (g) Security Depository.
- (1) "Securities Depository" means a securities depository registered as a clearing agency under Section 17A of the Act.
 - (2) For initial listing, a security shall have a CUSIP number or foreign equivalent identifying the securities included in the file of eligible issues maintained by a Securities Depository in accordance with the rules and procedures of such securities depository. This subparagraph shall not apply to a security if the terms of the security do not and cannot be reasonably modified to meet the criteria for depository eligibility at all Securities Depositories.
 - (3) A Security Depository's inclusion of a CUSIP number or foreign equivalent identifying a security in its file of eligible issues does not render the security "depository eligible" until:
 - (A) in the case of any new issue distributed by an underwriting syndicate on or after the date a Securities Depository system for monitoring repurchases of distributed shares by the underwriting syndicate is available, the date of the commencement of trading in such security on the Exchange; or
 - (B) in the case of any new issue distributed by an underwriting syndicate prior to the date a Securities Depository system for monitoring repurchases of distributed shares by the underwriting syndicate is available where the managing underwriter elects not to deposit the securities on the date of the commencement of trading in such security on the Exchange, such later date designated by the managing underwriter in a notification submitted to the Securities Depository; but in no event more than three (3) months after the commencement of trading in such security on the Exchange.
- (h) Limited Partnerships. No security issued in a limited partnership rollup transaction (as defined by Section 14(h) of the Act), shall be eligible for listing unless:
- (1) the rollup transaction was conducted in accordance with procedures designed to protect the rights of limited partners as provided in Section 6(b)(9) of the Act, as it may from time to time be amended, and
 - (2) a broker-dealer that is a member of a national securities association subject to Section 15A(b)(12) of the Act participates in the rollup transaction.

The Company shall further provide an opinion of counsel stating that such broker-dealer's participation in the rollup transaction was conducted in compliance with the rules of a national securities association designed to protect the rights of limited partners, as specified in the Limited Partnership Rollup Reform Act of 1993.

In addition to any other applicable requirements, each limited partnership listed on the Exchange shall have a corporate general partner or co-general partner that satisfies the Independent Director and audit committee requirements set forth in the IEX Rule 14.400 Series.

Note: The only currently existing national securities association subject to Section 15A(b)(12) of the Act is FINRA. Its rules designed to protect the rights of limited partners, pursuant to the Limited Partnership Rollup Reform Act of 1993, are specified in FINRA Rule 2310.

- (i) Reverse Mergers. A security issued by a Company formed by a Reverse Merger shall be eligible for initial listing only if the conditions set forth in IEX Rule 14.102(c) are satisfied.

Rule 14.204. American Depositary Receipts

- (a) Eligibility. American Depositary Receipts can be listed on the Exchange provided they represent shares in a non-Canadian foreign Company.
- (b) Computations. In the case of American Depositary Receipts, annual income from continuing operations and Stockholders' Equity shall relate to the foreign issuer and not to any depositary or any other person deemed to be an issuer for purposes of Form S-12 under the Securities Act of 1933. The underlying security will be considered when determining annual income from continuing operations, Publicly Held Shares, Market Value of Publicly Held Shares, Stockholders' Equity, Round Lot or Public Holders, operating history, Market Value of Listed Securities, and total assets and total revenue.

Rule 14.205. Additional Requirements for IEX-Listed Securities Issued by the Exchange or its Affiliates

- (a) For purposes of this IEX Rule 14.205, the terms below are defined as follows:
 - (1) "IEX Affiliate" means IEX and any entity that directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with IEX, where "control" means that the one entity possesses, directly or indirectly, voting control of the other entity either through ownership of capital stock or other equity securities or through majority representation on the board of directors or other management body of such entity.
 - (2) "Affiliate Security" means any security issued by an IEX Affiliate, with the exception of Portfolio Depositary Receipts and Index Fund Shares as defined in Chapter 16.
- (b) Upon initial and throughout continued listing of the Affiliate Security on IEX, IEX shall
 - (1) file a report quarterly with the Commission detailing IEX's monitoring of:
 - (A) the IEX Affiliate's compliance with the listing requirements contained in Chapter 14; and
 - (B) the trading of the Affiliate Security, which shall include summaries of all related surveillance alerts, complaints, regulatory referrals, trades canceled or adjusted pursuant to IEX Rule 11.270, investigations, examinations, formal and informal disciplinary actions, exception reports and trading data of such security.
 - (2) engage an independent accounting firm once a year to review and prepare a report on the Affiliate Security to ensure that the IEX Affiliate is in compliance with the listing requirements contained in Chapter 14 and promptly forward to the Commission a copy of the report prepared by the independent accounting firm.
- (c) In the event that IEX determines that the IEX Affiliate is not in compliance with any of the listing requirements contained in Chapter 14, IEX shall file a report with the Commission within five business days of providing notice to the IEX Affiliate of its non-compliance. The report shall identify the date of non-compliance, type of non-compliance and any other material information conveyed to the IEX Affiliate in the notice of non-compliance. Within five business

days of receipt of a plan of compliance from the IEX Affiliate, IEX shall notify the Commission of such receipt, whether the plan of compliance was accepted by IEX or what other action was taken with respect to the plan and the time period provided to regain compliance with Chapter 14, if any.

Rule 14.206. Listing Requirements for Units

(a) Initial and Continued Listing Requirements

- (1) All units shall have at least one equity component. All components of such units shall satisfy the requirements for initial and continued listing as IEX Listed securities, or, in the case of debt components, satisfy the requirements of paragraph (a)(2) below.
- (2) All debt components of a unit, if any, shall meet the following requirements:
 - (A) the debt issue must have an aggregate market value or principal amount of at least \$5 million;
 - (B) in the case of convertible debt, the equity into which the debt is convertible must itself be subject to real-time last sale reporting in the United States, and the convertible debt must not contain a provision which gives the company the right, at its discretion, to reduce the conversion price for periods of time or from time to time unless the company establishes a minimum period of ten business days within which such price reduction will be in effect.
- (3) All components of the unit shall be issued by the same issuer. All units and issuers of such units shall comply with the initial and continued listing requirements of the Exchange.

(b) Minimum Listing Period and Notice of Withdrawal

In the case of units, the minimum listing period of the units shall be 30 days from the first day of listing, except the period may be shortened if the units are suspended or withdrawn for regulatory purposes. Companies and underwriters seeking to withdraw units from listing must provide the Exchange with notice of such intent at least 15 days prior to withdrawal.

(c) Disclosure Requirements for Units

Each Exchange issuer of units shall include in its prospectus or other offering document used in connection with any offering of securities that is required to be filed with the Commission under the federal securities laws and the rules and regulations promulgated thereunder a statement regarding any intention to delist the units immediately after the minimum inclusion period. The issuer of a unit shall further provide information regarding the terms and conditions of the components of the unit (including information with respect to any original issue discount or other significant tax attributes of any component) and the ratio of the components comprising the unit. A Company shall also disclose when a component of the unit is separately listed on the Exchange. These disclosures shall be made on the Company's website, or if it does not maintain a website, in its annual report provided to unit holders. A Company shall also immediately make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing, any change in the terms of the unit, such as changes to the terms and conditions of any of the components (including changes with respect to any original issue discount or other significant tax attributes of any component), or to the ratio of the components within the unit. Such public announcement shall be made as soon as practicable in relation to the effective date of the change.

(d) Market Makers

- (1) For initial inclusion, a unit shall have at least three registered and active Market Makers.

- (2) For continued listing, a unit shall have at least two registered and active Market Makers, one of which may be a Market Maker entering a stabilizing bid.

Rule 14.207. Obligations for Companies Listed on the Exchange

(a) Obligation to Provide Information to the Exchange

- (1) The Exchange may request any additional information or documentation, public or non-public, deemed necessary to make a determination regarding a Company's continued listing, including, but not limited to, any material provided to or received from the Commission or Other Regulatory Authority. A Company may be denied continued listing if it fails to provide such information within a reasonable period of time or if any communication to the Exchange contains a material misrepresentation or omits material information necessary to make the communication to the Exchange not misleading. The Company shall provide full and prompt responses to requests by the Exchange or by FINRA acting on behalf of the Exchange for information related to unusual market activity or to events that may have a material impact on trading of its securities on the Exchange.
- (2) As set forth in IEX Rule 14.410, a Company must provide the Exchange with prompt notification after an Executive Officer of the Company becomes aware of any noncompliance by the Company with the requirements of the Rule 14.400 Series.

(b) Obligation to Make Public Disclosure

(1) Disclosure of Material Information

Except in unusual circumstances, an Exchange-listed Company shall make prompt disclosure to the public through any Regulation FD compliant method (or combination of methods) of disclosure of any material information that would reasonably be expected to affect the value of its securities or influence investors' decisions. The Company shall, prior to the release of the information, provide notice of such disclosure to the Exchange's Regulation Department at least ten minutes prior to public announcement if the information involves any of the events set forth in Supplementary Material .01 to this IEX Rule and the public release of the material information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours, Exchange Companies must notify the Exchange's Regulation Department of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). As described in Supplementary Material .01 to this IEX Rule, prior notice to the Exchange's Regulation Department must be made through the electronic disclosure submission system available at the Exchange's Web site, except in emergency situations.

(2) Disclosure of Notification of Deficiency

As set forth in IEX Rule 14.501(c), a listed Company that receives a notification of deficiency from the Exchange is required to make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing receipt of the notification and the Rule(s) upon which the deficiency is based, and describing each specific basis and concern identified by the Exchange in reaching its determination that the Company does not meet the listing standard. However, note that in the case of a deficiency related to the requirement to file a periodic report contained in IEX Rule 14.207(c)(1) or (2), the Company is required to make the public announcement by issuing a press release. As described in IEX Rule 14.207(b)(1) above and Supplementary Material .01 below, the Company must notify the Exchange's Regulation Department about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the

public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department at least ten minutes prior to the announcement. If the public announcement is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department of the announcement at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)).

(c) Obligation to File Periodic Financial Reports

- (1) A Company shall timely file all required periodic financial reports with the Commission through the EDGAR System or with the Other Regulatory Authority. A Company that does not file through the EDGAR System shall supply to the Exchange two (2) copies of all reports required to be filed with the Other Regulatory Authority or email an electronic version of the report to the Exchange at continuedlisting@IEXtrading.com. All required reports must be filed with the Exchange on or before the date they are required to be filed with the Commission or Other Regulatory Authority. Annual reports filed with the Exchange shall contain audited financial statements.

- (2) Foreign Private Issuer Interim Reports

Each Foreign Private Issuer shall submit on a Form 6-K an interim balance sheet and income statement as of the end of its second quarter. This information, which must be presented in English, but does not have to be reconciled to U.S. GAAP, must be provided no later than six months following the end of the Company's second quarter. In the case of a Foreign Private Issuer that is a limited partnership, such information shall be distributed to limited partners if required by statute or regulation in the jurisdiction in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement.

- (3) Auditor Registration

Each listed Company shall be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].

(d) Distribution of Annual and Interim Reports

- (1) Distribution of Annual Reports. Each Company (including a limited partnership) shall make available to Shareholders an annual report containing audited financial statements of the Company and its subsidiaries (which, for example, may be on Form 10-K, 20-F, 40-F or N-CSR) within a reasonable period of time following the filing of the annual report with the Commission. A Company may comply with this requirement either:
 - (A) by mailing the report to Shareholders;
 - (B) by satisfying the requirements for furnishing an annual report contained in Rule 14a-16 under the Act; or
 - (C) by posting the annual report to Shareholders on or through the Company's website (or, in the case of a Company that is an investment company that does not maintain its own website, on a website that the Company is allowed to use to satisfy the website posting requirement in Rule 16a-3(k) under the Act), along with a prominent undertaking in the English language to provide Shareholders, upon request, a hard copy of the Company's annual report free of charge. A Company that chooses to satisfy this requirement pursuant to this paragraph (C) must, simultaneous with this posting, issue a press release stating that its annual report has been filed with the Commission (or Other Regulatory Authority). This press release shall also state that the annual report is available on the Company's website and include the website address

and that Shareholders may receive a hard copy free of charge upon request. A Company must provide such hard copies within a reasonable period of time following the request.

- (2) Distribution of Interim Reports. Exchange Companies that distribute interim reports to Shareholders should distribute such reports to both registered and beneficial Shareholders. Exchange Companies are also encouraged to consider additional technological methods to communicate such information to Shareholders in a timely and less costly manner as such technology becomes available.
- (3) Access to Quarterly Reports.
 - (A) Each Company that is not a limited partnership (limited partnerships are governed by paragraph (B) below) and is subject to Rule 13a-13 under the Act shall make available copies of quarterly reports including statements of operating results to Shareholders either prior to or as soon as practicable following the Company's filing of its Form 10-Q with the Commission. If the form of such quarterly report differs from the Form 10-Q, the Company shall file one copy of the report with the Exchange in addition to filing its Form 10-Q pursuant to Rule 14.207(c)(1). The statement of operations contained in quarterly reports shall disclose, at a minimum, any substantial items of an unusual or non-recurrent nature and net income before and after estimated federal income taxes or net income and the amount of estimated federal taxes.
 - (B) Each Company that is a limited partnership and is subject to Rule 13a-13 under the Act shall make available copies of quarterly reports including statements of operating results to limited partners either prior to or as soon as practicable following the partnership's filing of its Form 10-Q with the Commission. Such reports shall be distributed to limited partners if required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement. If the form of such quarterly report differs from the Form 10-Q, the Company shall file one copy of the report with the Exchange in addition to filing its Form 10-Q pursuant to IEX Rule 14.207(c)(1). The statement of operations contained in quarterly reports shall disclose, at a minimum, any substantial items of an unusual or non-recurrent nature and net income before and after estimated federal income taxes or net income and the amount of estimated federal taxes.
- (4) Access to Interim Reports
 - (A) Each Company that is not a limited partnership and is not subject to Rule 13a-13 under the Act and that is required to file with the Commission, or Other Regulatory Authority, interim reports relating primarily to operations and financial position, shall make available to Shareholders reports which reflect the information contained in those interim reports. Such reports shall be made available to Shareholders either before or as soon as practicable following filing with the appropriate regulatory authority. If the form of the interim report provided to Shareholders differs from that filed with the regulatory authority, the Company shall file one copy of the report to Shareholders with the Exchange in addition to the report to the regulatory authority that is filed with the Exchange pursuant to IEX Rule 14.207(c)(1).
 - (B) Each Company that is a limited partnership that is not subject to Rule 13a-13 under the Act and is required to file with the Commission, or Other Regulatory Authority, interim reports relating primarily to operations and financial position, shall make available to limited partners reports which reflect the information contained in those interim reports. Such reports shall be distributed to limited partners if required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement. Such reports shall be distributed to limited partners either before or as soon as practicable following filing with the appropriate regulatory authority.

If the form of the interim report provided to limited partners differs from that filed with the regulatory authority, the Company shall file one copy of the report to limited partners with the Exchange in addition to the report to the regulatory authority that is filed with the Exchange pursuant to IEX Rule 14.207(c)(1).

- (5) A Foreign Private Issuer may follow its home country practice in lieu of the requirements of IEX Rule 14.207(d)(1), (2), (3), or (4) or by utilizing the process described in IEX Rule 14.407(a)(3).
 - (6) The Company shall comply with any obligation of any person regarding filing or disclosure of information material to the Company or the security, whether such obligation arises under the securities laws of the United States or the Company's country of domicile, or other applicable federal or state statutes or rules.
- (e) Exchange Notification Requirements. Various corporate events resulting in material changes will trigger the requirement for Companies to submit certain forms and applicable fees to the Exchange as specified below. All applicable forms can be found on the Exchange's Web site.
- (1) Change in Number of Shares Outstanding. The Company shall file, on a form designated by the Exchange no later than 10 days after the occurrence, any aggregate increase or decrease of any class of securities listed on the Exchange that exceeds 5% of the amount of securities of the class outstanding.
 - (2) Listing of Additional Shares. A Company shall be required to notify the Exchange, except for a Company solely listing American Depositary Receipts, at least 15 calendar days prior to:
 - (A) establishing or materially amending a stock option plan, purchase plan or other equity compensation arrangement pursuant to which stock may be acquired by officers, directors, employees, or consultants without shareholder approval; however the Exchange recognizes that when a Company makes an equity grant to induce an individual to accept employment, as permitted by the exception contained in IEX Rule 14.412(c)(4), it may not be practical to provide the advance notice otherwise required by this IEX Rule. Therefore, when a Company relies on that exception to make such an inducement grant without shareholder approval, it is sufficient to notify the Exchange about the grant and the use of the exception no later than the earlier of: (x) five calendar days after entering into the agreement to issue the securities; or (y) the date of the public announcement of the award required by IEX Rule 14.412(c)(4); or
 - (B) issuing securities that may potentially result in a change of control of the Company; or
 - (C) issuing any common stock or security convertible into common stock in connection with the acquisition of the stock or assets of another company, if any officer or director or Substantial Shareholder of the Company has a 5% or greater interest (or if such persons collectively have a 10% or greater interest) in the Company to be acquired or in the consideration to be paid; or
 - (D) issuing any common stock, or any security convertible into common stock in a transaction that may result in the potential issuance of common stock (or securities convertible into common stock) greater than 10% of either the total shares outstanding or the voting power outstanding on a pre- transaction basis.
- The notifications required by this paragraph must be made on the Notification Form: Listing of Additional Shares and the Exchange encourages Companies to file this form as soon as practicable, even if all of the relevant terms are not yet known. The Exchange reviews these forms to determine compliance with applicable IEX Rules, including the shareholder approval requirements. Therefore, if a Company fails to file timely the form required by this paragraph, the Exchange may issue either a Public Reprimand Letter or a Delisting Determination (pursuant to IEX Rule 14.500).
- (3) Record Keeping Change

- (A) The Company shall file on a form designated by the Exchange notification of any change to its name, the par value or title of its security, its symbol, or a similar change, no later than 10 days after the change.
- (B) The Company shall also notify the Exchange promptly in writing, absent any fees, of any change in the general character or nature of its business and any change in the address of its principal executive offices.
- (4) Substitution Listing. The Company shall notify the Exchange of a Substitution Listing Event (other than a re-incorporation or a change to a Company's place of organization) no later than 15 calendar days prior to the implementation of such event by filing the appropriate form as designated by the Exchange. For a re-incorporation or change to a Company's place of organization, a Company shall notify the Exchange as soon as practicable after such event has been implemented by filing the appropriate form as designated by the Exchange.

.01 Disclosure of Material Information

(a) General Disclosure Requirements

Rule 14.207(b)(1) requires that, except in unusual circumstances, Exchange Companies disclose promptly to the public through any Regulation FD compliant method (or combination of methods) of disclosure any material information that would reasonably be expected to affect the value of their securities or influence investors' decisions. Exchange Companies must notify the Exchange at least ten minutes prior to the release to the public of material information that involves any of the events set forth below when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify the Exchange's Regulation Department of the material information at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). Under unusual circumstances Companies may not be required to make public disclosure of material events; for example, where it is possible to maintain confidentiality of those events and immediate public disclosure would prejudice the ability of the Company to pursue its legitimate corporate objectives. However, the Exchange Companies remain obligated to disclose this information to the Exchange upon request pursuant to IEX Rule 14.207(a).

Whenever unusual market activity takes place in an Exchange Company's securities, the Company normally should determine whether there is material information or news which should be disclosed. If rumors or unusual market activity indicate that information on impending developments has become known to the investing public, or if information from a source other than the Company becomes known to the investing public, a clear public announcement may be required as to the state of negotiations or development of Company plans. Such an announcement may be required, even though the Company may not have previously been advised of such information or the matter has not yet been presented to the Company's Board of Directors

for consideration. In certain circumstances, it may also be appropriate to publicly deny false or inaccurate rumors, which are likely to have, or have had, an effect on the trading in its securities or would likely have an influence on investment decisions.

(b) Notification to the Exchange's Regulation Department

Companies must notify the Exchange's Regulation Department prior to the distribution of certain material news at least ten minutes prior to public announcement of the news when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify the Exchange's Regulation Department of the material information at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). Except in emergency situations, this notification must be made through the Exchange's electronic disclosure submission system available on the Exchange's Web site. In emergency situations, Companies may instead provide notification by telephone or facsimile. Examples of an emergency situation include: lack of computer or internet access; technical problems on the Exchange and a material development such that no draft disclosure document exists, but immediate notification to the Exchange's Regulation Department is important based on the material event.

If a Company repeatedly fails to either notify the Exchange at least ten minutes prior to the distribution of material news during System Hours (as defined in IEX Rule 1.160(oo)) or at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)) for material news distributed outside of System Hours (as defined in IEX Rule 1.160(oo)), or repeatedly fails to use the electronic disclosure submission system when the Exchange finds no emergency situation existed, the Exchange may issue a Public Reprimand Letter (as defined in IEX Rule 14.500(b)(5)) or, in extreme cases, a Staff Delisting Determination (as defined in IEX Rule 14.500(b)(7)). In determining whether to issue a Public Reprimand Letter, the Exchange will consider whether the Company has demonstrated a pattern of failures, whether the Company has been contacted concerning previous violations, and whether the Company has taken steps to assure that future violations will not occur.

(c) Trading Halts

A trading halt benefits current and potential Shareholders by halting all trading in any Exchange securities until there has been an opportunity for the information to be disseminated to the public. This decreases the possibility of some investors acting on information known only to them. A trading halt provides the public with an opportunity to evaluate the information and consider it in making investment decisions. It also alerts the marketplace to the fact that news has been released.

The Exchange's Regulation Department monitors real time trading in all Exchange securities during the trading day for price and volume activity. In the event of certain price and volume movements, the Exchange's Regulation Department may contact a Company and its Market Makers in order to ascertain the cause of the unusual market activity. The Exchange's Regulation Department treats the information provided by the Company and other sources in a highly confidential manner, and uses it to assess market activity and assist in maintaining fair and orderly markets. An Exchange listing includes an obligation to disclose to the Exchange's Regulation Department information that the Company is not otherwise disclosing to the investing public or the financial community. On occasion, changes in market activity prior to the Company's release of material information may indicate that the information has become known to the investing public. Changes in market activity also may occur when there is a release of material information by a source other than the Company, such as when an Exchange Company is subject to an unsolicited take-over bid by another company. Depending on the nature of the event and the Company's views regarding the business advisability of disclosing the information, the Exchange's Regulation Department may work with the Company to accomplish a timely release of the information. Furthermore, depending on the materiality of the information and the anticipated effect of the information on the price of the Company's securities, the Exchange's Regulation Department may advise the Company that a temporary trading halt is appropriate to allow for full dissemination of the information and to maintain an orderly market. The institution of a temporary trading halt pending the release of information is not a reflection on the value of the securities halted. Such trading halts are instituted, among other reasons, to insure that material information is fairly and adequately disseminated to the investing public and the marketplace, and to provide investors with the opportunity to evaluate the information in making investment decisions. A trading halt normally lasts one half hour but may last longer if a determination is made that news has not been adequately disseminated or that the original or an additional basis under IEX Rule 11.280 exists for continuing the trading halt.

The Exchange's Regulation Department is required to keep non-public information, confidential and to use such information only for regulatory purposes.

Companies are required to notify the Exchange's Regulation Department of the release of material information included in the following list of events at least ten minutes prior to the release of such information to the public when the public release of the information is made during System Hours (as defined in IEX Rule 1.160(oo)):

- (1) Financial-related disclosures, including quarterly or yearly earnings, earnings restatements, pre-announcements or "guidance."*
- (2) Corporate reorganizations and acquisitions, including mergers, tender offers, asset transactions and bankruptcies or receiverships.*
- (3) New products or discoveries, or developments regarding customers or suppliers (e.g., significant developments in clinical or customer trials, and receipt or cancellation of a material contract or order).*
- (4) Senior management changes of a material nature or a change in control.*
- (5) Resignation or termination of independent auditors, or withdrawal of a previously issued audit report.*
- (6) Events regarding the Company's securities — e.g., defaults on senior securities, calls of securities for redemption, repurchase plans, stock splits or changes in dividends, changes to the rights of security holders, or public or private sales of additional securities.*
- (7) Significant legal or regulatory developments. Regulation FD*
- (8) Any event requiring the filing of a Form 8-K.*

If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify the Exchange's Regulation Department of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). It should also be noted that every development that might be reported to the Exchange in these areas would not necessarily be deemed to warrant a trading halt. In addition to the list of events set forth above, the Exchange encourages Companies to avail themselves of the opportunity for advance notification to the Exchange's Regulation Department in situations where they believe, based upon their knowledge of the significance of the information, that a temporary trading halt may be necessary or appropriate.

.02 Use of Regulation FD Compliant Methods in the Disclosure of Material Information

Regardless of the method of disclosure that a Company chooses to use, Companies are required to notify the Exchange's Regulation Department of the release of material information that involves any of the events set forth above at least ten minutes prior to its release to the public when the public release of the information is made during System Hours (as defined in IEX Rule 1.160 (mm)). If the public release of the material information is made outside of System Hours (as defined in IEX Rule 1.160(oo)), Exchange Companies must notify IEX Regulation of the material information at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). When a Company chooses to utilize a Regulation FD compliant method for disclosure other than a press release or Form 8-K, the Company will be required to provide prior notice to the Exchange's Regulation Department of: 1) the press release announcing the logistics of the future disclosure event; and 2) a descriptive summary of the material information to be announced during the disclosure event if the press release does not contain such a summary.

Depending on the materiality of the information and the anticipated effect of the information on the price of the Company's securities, the Exchange's Regulation Department may advise the Company that a temporary trading halt is appropriate to allow for full dissemination of the information and to maintain an orderly market. The Exchange's Regulation Department will assess with Companies using methods of disclosure other than a press release or Form 8-K the timing within the disclosure event when the Company will cover the material information so that the halt can be commenced accordingly. Companies will be responsible for promptly alerting the Exchange's Regulation Department of any significant changes to the previously outlined disclosure timeline. Companies are reminded that the posting of information on the company's website may not by itself be considered a sufficient method of public disclosure under Regulation FD and SEC guidance and releases thereunder, and as a result, under IEX Rules.

Rule 14.208. Direct Registration Program

- (a) Except as indicated in paragraph (c) below, all securities listed on the Exchange (except securities which are book-entry only) must be eligible for a Direct Registration Program operated by a clearing agency registered under Section 17A of the Act.
- (b) If a Company establishes or maintains a Direct Registration Program for its Shareholders, the Company shall, directly or through its transfer agent, participate in an electronic link with a clearing agency registered under Section 17A of the Act to facilitate the electronic transfer of securities held pursuant to such program.
- (c) Exemption

A foreign issuer, as defined under Rule 3b-4 under the Act, including a Foreign Private Issuer shall not be subject to this requirement if it submits to the Exchange a written statement from an independent counsel in such Company's home country certifying that a law or regulation in its home country prohibits compliance.

Rule 14.300. Listings Requirements

Rule 14.301. General Listing Requirements

This section contains the initial and continued listing requirements and standards for listing a Company's Primary Equity Security on the Exchange. This section also contains the initial and continued listing requirements for Rights and Warrants, and Preferred and Secondary Classes of Common Stock on the Exchange.

In addition to meeting the quantitative requirements in this section, a Company must meet the requirements of IEX Rule Series 14.200, including the disclosure obligations set forth in IEX Rule 14.207, the Corporate Governance requirements set forth in the IEX Rule Series 14.400, and pay any applicable fees in the IEX Rule Series 14.600. A Company's failure to meet any of the continued listing requirements will be processed in accordance with the provisions set forth in IEX Rule Series 14.500.

For the requirements relating to other securities listed on the Exchange, see Chapter 16.

Rule 14.302. Definitions and Computations

- (a) A Company is affiliated with another Company if that other Company, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control of the Company. Control, for these purposes, means having the ability to exercise significant influence. Ability to exercise significant influence will be presumed to exist where the parent or affiliated Company directly or indirectly owns 20% or more of the other Company's voting securities, and also can be indicated by representation on the board of directors, participation in policy making processes, material intercompany transactions, interchange of managerial personnel, or technological dependency.
- (b) In computing Cash Flows, IEX will rely on the net cash provided by operating activities, as reported in the Company's financial information as filed with the Commission in the Company's most recent periodic report and/or registration statement excluding changes in working capital or in operating assets and liabilities.
- (c) In computing income from continuing operations before income taxes, IEX will rely on a Company's financial information as filed with the Commission in the Company's most recent periodic report and/or registration statement.

- (d) In computing the number of Publicly Held Shares, IEX will not consider shares held by an officer, director or 10% or greater Shareholder of the Company.
- (e) In the case of a Company listing in connection with its initial public offering, compliance with the market capitalization requirements of IEX Rules 14.310(b)(2), (3), and (4) will be based on the Company's market capitalization at the time of listing.
- (f) A period of less than three months shall not be considered a Fiscal Year, even if reported as a stub period in the Company's publicly reported financial statements.
- (g) If a Company has less than three years of publicly reported financial data, it may qualify under IEX Rule 14.310(b)(1) if it has (1) reported aggregate income from continuing operations before income taxes of at least \$11 million, and (2) positive income from continuing operations before income taxes in each of the reported fiscal years.
- (h) If a Company has less than three years of publicly reported financial data, it may qualify under IEX Rule 14.310(b)(2) if it has (1) reported aggregate cash flows of at least \$27.5 million, and (2) positive cash flows in each of the reported fiscal years.
- (i) In computing total assets and stockholders' equity for purposes of IEX Rule 14.310(b)(4), IEX will rely on a Company's most recent publicly reported financial statements subject to the adjustments described below:
 - (1) Application of Use of Proceeds - If a company is in registration with the SEC and is in the process of an equity offering, adjustments should be made to reflect the net proceeds of that offering, and the specified intended application(s) of such proceeds to:
 - (A) Pay off existing debt or other financial instruments: The adjustment will include elimination of the actual historical interest expense on debt or other financial instruments classified as liabilities under generally accepted accounting principles being retired with offering proceeds of all relevant periods or by conversion into common stock at the time of an initial public offering occurring in conjunction with the company's listing. If the event giving rise to the adjustment occurred during a time-period such that pro forma amounts are not set forth in the SEC registration statement (typically, the pro forma effect of repayment of debt will be provided in the current registration statement only with respect to the last fiscal year plus any interim period in accordance with SEC rules), the company must prepare the relevant adjusted financial data to reflect the adjustment to its historical financial data, and its outside audit firm must provide a report of having applied agreed-upon procedures with respect to such adjustments. Such report must be prepared in accordance with the standards established by the American Institute of Certified Public Accountants.
 - (B) Fund an acquisition:
 - (i) The adjustments will include those applicable with respect to acquisition(s) to be funded with the proceeds. Adjustments will be made that are disclosed as such in accordance with Rule 3-05 "Financial Statements of Business Acquired or to be Acquired" and Article 11 of Regulation S-X. Adjustments will be made for all the relevant periods for those acquisitions for which historical financial information of the acquiree is required to be disclosed in the SEC registration statement; and
 - (ii) Adjustments applicable to any period for which pro forma numbers are not set forth in the registration statement shall be accompanied by the relevant adjusted financial data to combine the historical results of the acquiree (or relevant portion thereof) and acquiror, as disclosed in the company's SEC filing. Under SEC rules, the number of periods disclosed depends upon the significance level of the acquiree to the acquiror. The adjustments will include those necessary to reflect (a) the allocation of

the purchase price, including adjusting assets and liabilities of the acquiree to fair value recognizing any intangibles (and associated amortization and depreciation), and (b) the effects of additional financing to complete the acquisition. The company must prepare the relevant adjusted financial data to reflect the adjustment to its historical financial data, and its outside audit firm must provide a report of having applied agreed-upon procedures with respect to such adjustments. Such report must be prepared in accordance with the standards established by the American Institute of Certified Public Accountants.

- (2) Acquisitions and Dispositions - In instances other than acquisitions (and related dispositions of part of the acquiree) funded with the use of proceeds, adjustments will be made for those acquisitions and dispositions that are disclosed as such in a company's financial statements in accordance with Rule 3-05 "Financial Statements of Business Acquired or to be Acquired" and Article 11 of Regulation S-X. If the disclosure does not specify pre-tax earnings from continuing operations, minority interest, and equity in the earnings or losses of investees, then such data must be prepared by the company's outside audit firm for the Exchange's consideration. In this regard, the audit firm would have to issue an independent accountant's report on applying agreed-upon procedures in accordance with the standards established by the American Institute of Certified Public Accountants.

 - (A) Total assets and total revenue of at least \$50 million each for the most recently completed fiscal year or two of the three most recently completed fiscal years;
 - (B) At least 1,100,000 Publicly Held Shares;
 - (C) Market Value of Publicly Held Shares of at least \$15 million; and
 - (D) At least four registered and active Market Makers

Rule 14.330. Continued Listing Requirements for Rights and Warrants

For continued listing, the rights or warrants must meet all the requirements below:

- (a) The underlying security must continue to be listed on the Exchange or be a Covered Security; and

- (b) There must be at least two registered and active Market Makers, one of which may be a Market Maker entering a stabilizing bid.

Rule 14.340. Continued Listing Requirements for Preferred Stock and Secondary Classes of Common Stock

- (a) When the Company's Primary Equity Security of the Company is listed on the Exchange or is a Covered Security, the preferred stock or secondary class of common stock must meet all of the requirements set forth in (1) through (5) below.
 - (1) At least 100,000 Publicly Held Shares;
 - (2) A Market Value of Publicly Held Shares of at least \$1,000,000;
 - (3) Minimum bid price of at least \$1 per share;
 - (4) At least 100 Public Holders; and
 - (5) At least two registered and active Market Makers
- (b) When the Primary Equity Security of the Company is not listed on the Exchange or a Covered Security, the preferred stock and/or secondary class of common stock may continue to be listed on the Exchange so long as it satisfies the continued listing criteria for Primary Equity Securities set forth in IEX Rule 14.320.

Rule 14.400. Corporate Governance Requirements

Rule 14.401. Background

- (a) In addition to meeting applicable quantitative requirements in IEX Rule Series 14.300, Companies applying to list and listed on the Exchange must meet the qualitative requirements outlined in this IEX Rule Series 14.400. These requirements include rules relating to a Company's board of directors, including audit committees and Independent Director oversight of executive compensation and the director nomination process; code of conduct; shareholder meetings, including proxy solicitation and quorum; review of related party transactions; and shareholder approval, including voting rights. Exemptions to these rules are set forth in IEX Rule 14.407 below.
- (b) The Exchange maintains a website that provides guidance on the applicability of the corporate governance requirements by FAQs and published summaries of anonymous versions of previously issued staff interpretative letters. Companies are encouraged to contact IEX Regulation to discuss any complex issues or transactions. Companies can also submit a request for a written interpretation pursuant to paragraph (c) below.
- (c) Listed companies may request from IEX a written interpretation of the Rules contained in Chapter 14. A response to such request will generally be provided within one-week following receipt by IEX Regulation of all information necessary to respond to the request.

Rule 14.405. Board of Directors and Committees

- (a) Definitions
 - (1) "Executive Officer" means those officers covered in Rule 16a-1(f) under the Act.
 - (2) "Independent Director" means a person other than an Executive Officer or employee of the Company or any other individual having a relationship which, in the opinion of the Company's board of directors, would interfere

with the exercise of independent judgment in carrying out the responsibilities of a director. For purposes of this IEX Rule, "Family Member" means a person's spouse, parents, children and siblings, whether by blood, marriage or adoption, or anyone residing in such person's home. The following persons shall not be considered independent:

- (A) a director who is, or at any time during the past three years was, employed by the Company;
- (B) a director who accepted or who has a Family Member who accepted any compensation from the Company in excess of \$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, other than the following:
 - (i) compensation for board or board committee service;
 - (ii) compensation paid to a Family Member who is an employee (other than an Executive Officer) of the Company; or
 - (iii) benefits under a tax-qualified retirement plan, or non-discretionary compensation.Provided, however, that in addition to the requirements contained in this paragraph (B), audit committee members are also subject to additional, more stringent requirements under IEX Rule 14.405(c)(2).
- (C) a director who is a Family Member of an individual who is, or at any time during the past three years was, employed by the Company as an Executive Officer;
- (D) a director who is, or has a Family Member who is, a partner in, or a controlling Shareholder or an Executive Officer of, any organization to which the Company made, or from which the Company received, payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more, other than the following:
 - (i) payments arising solely from investments in the Company's securities; or
 - (ii) payments under non-discretionary charitable contribution matching programs.
- (E) a director of the Company who is, or has a Family Member who is, employed as an Executive Officer of another entity where at any time during the past three years any of the Executive Officers of the Company serve on the compensation committee of such other entity; or
- (F) a director who is, or has a Family Member who is, a current partner of the Company's outside auditor, or was a partner or employee of the Company's outside auditor who worked on the Company's audit at any time during any of the past three years.
- (G) in the case of an investment company, in lieu of paragraphs (A)-(F), a director who is an "interested person" of the Company as defined in Section 2(a)(19) of the Investment Company Act of 1940, other than in his or her capacity as a member of the board of directors or any board committee.

.01 Definition of Independence

It is important for investors to have confidence that individuals serving as Independent Directors do not have a relationship with the listed Company that would impair their independence. The board has a responsibility to make an affirmative determination that no such relationships exist through the application of IEX Rule 14.405(a). IEX Rule 14.405(a) also provides a list of certain relationships that preclude a board finding of independence. These objective measures provide transparency to investors and Companies, facilitate

uniform application of the rules, and ease administration. Because IEX does not believe that ownership of Company stock by itself would preclude a board finding of independence, it is not included in the aforementioned objective factors. It should be noted that there are additional, more stringent requirements that apply to directors serving on audit committees, as specified in IEX Rule 14.405(c).

The Rule's reference to the "Company" includes any parent or subsidiary of the Company. The term "parent or subsidiary" is intended to cover entities the Company controls and consolidates with the Company's financial statements as filed with the Commission (but not if the Company reflects such entity solely as an investment in its financial statements). The reference to Executive Officer means those officers covered in Rule 16a-1(f) under the Act. In the context of the definition of Family Member under IEX Rule 14.405(a)(2), the reference to marriage is intended to capture relationships specified in the Rule (parents, children and siblings) that arise as a result of marriage, such as "in-law" relationships.

The three year look-back periods referenced in paragraphs (A), (C), (E) and (F) of the Rule commence on the date the relationship ceases. For example, a director employed by the Company is not independent until three years after such employment terminates.

For purposes of paragraph (A) of the Rule, employment by a director as an Executive Officer on an interim basis shall not disqualify that director from being considered independent following such employment, provided the interim employment did not last longer than one year. A director would not be considered independent while serving as an interim officer. Similarly, for purposes of paragraph (B) of the Rule, compensation received by a director for former service as an interim Executive Officer need not be considered as compensation in determining independence after such service, provided such interim employment did not last longer than one year. Nonetheless, the Company's board of directors still must consider whether such former employment and any compensation received would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. In addition, if the director participated in the preparation of the Company's financial statements while serving as an interim Executive Officer IEX Rule 14.405(c)(2)(A)(iii) would preclude service on the audit committee for three years.

Paragraph (B) of the Rule is generally intended to capture situations where a compensation is made directly to (or for the benefit of) the director or a Family Member of the director. For example, consulting or personal service contracts with a director or Family Member of the director would be analyzed under paragraph (B) of the Rule. In addition, political contributions to the campaign of a director or a Family Member of the director would be considered indirect compensation under paragraph (B). Non-preferential payments made in the ordinary course of providing business services (such as payments of interest or proceeds related to banking services or loans by a Company that is a financial institution or payment of claims on a policy by a Company that is an insurance company), payments arising solely from investments in the Company's securities and loans permitted under Section 13(k) of the Act will not preclude a finding of director independence as long as the payments are non-compensatory in nature. Depending on the circumstances, a loan or payment could be compensatory if, for example, it is not on terms generally available to the public.

Paragraph (D) of the Rule is generally intended to capture payments to an entity with which the director or Family Member of the director is affiliated by serving as a partner, controlling Shareholder or Executive Officer of such entity. Under exceptional circumstances, such as where a director has direct, significant business holdings, it may be appropriate to apply the corporate measurements in paragraph (D), rather than the individual measurements of paragraph (B). Issuers should contact IEX Regulation if they wish to apply the Rule in this manner. The reference to a partner in paragraph (D) is not intended to include limited partners. It should be noted that the independence requirements of paragraph (D) of the Rule are broader than Rule 10A-3(e)(8) under the Act.

Under paragraph (D), a director who is, or who has a Family Member who is, an Executive Officer of a charitable organization may not be considered independent if the Company makes payments to the charity in excess of the greater of 5% of the charity's revenues or \$200,000. However, IEX encourages Companies to consider other situations where a director or their Family Member and the Company each have a relationship with the same charity when assessing director independence.

For purposes of determining whether a lawyer is eligible to serve on an audit committee, Rule 10A-3 under the Act generally provides that any partner in a law firm that receives payments from the issuer is ineligible to serve on that issuer's audit committee. In determining whether a director may be considered independent for purposes other than the audit committee, payments to a law firm would generally be considered under IEX Rule 14.405(a)(2), which looks to whether the payment exceeds the greater of 5% of the recipient's gross revenues or \$200,000; however, if the firm is a sole proprietorship, IEX Rule 14.405(a)(2)(B), which looks to whether the payment exceeds \$120,000, applies.

Paragraph (G) of the Rule provides a different measurement for independence for investment companies in order to harmonize with the Investment Company Act of 1940. In particular, in lieu of paragraphs (A)-(F), a director who is an "interested person" of the Company as defined in Section 2(a)(19) of the Investment Company Act of 1940, other than in his or her capacity as a member of the board of directors or any board committee, shall not be considered independent.

(b) Independent Directors

(1) Majority Independent Board

A majority of the board of directors must be comprised of Independent Directors as defined in IEX Rule 14.405(a)(2). The Company, other than a Foreign Private Issuer, must comply with the disclosure requirements set forth in Item 407(a) of Regulation S-K. A Foreign Private Issuer must disclose in its next annual report (e.g., Form 20-F or 40-F) those directors that the board of directors has determined to be independent under IEX Rule 14.405(a)(2).

(A) Cure Period for Majority Independent Board

If a Company fails to comply with this requirement due to one vacancy, or one director ceases to be independent due to circumstances beyond their reasonable control, the Company shall regain compliance with the requirement by the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the failure to comply with this requirement, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision shall provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

.02 Majority Independent Board

Independent Directors (as defined in IEX Rule 14.405(a)(2)) play an important role in assuring investor confidence. Through the exercise of independent judgment, they act on behalf of investors to maximize shareholder value in the Companies they oversee and guard against conflicts of interest. Requiring that the board be comprised of a majority of Independent Directors empowers such directors to carry out more effectively these responsibilities.

(2) Executive Sessions

Independent Directors must have regularly scheduled meetings at which only Independent Directors are present ("executive sessions").

• • • Supplementary Material • • •

.03 Executive Sessions of Independent Directors

Regularly scheduled executive sessions encourage and enhance communication among Independent Directors. It is contemplated that executive sessions will occur at least twice a year, and perhaps more frequently, in conjunction with regularly scheduled board meetings.

(c) Audit Committee Requirements

(1) Audit Committee Charter

Each Company must certify that it has adopted a formal written audit committee charter and that the audit committee will review and reassess the adequacy of the formal written charter on an annual basis. The charter must specify:

- (A) the scope of the audit committee's responsibilities, and how it carries out those responsibilities, including structure, processes and membership requirements;
- (B) the audit committee's responsibility for ensuring its receipt from the outside auditors of a formal written statement delineating all relationships between the auditor and the Company, actively engaging in a dialogue with the auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the auditor and for taking, or recommending that the full board take, appropriate action to oversee the independence of the outside auditor;
- (C) the committee's purpose of overseeing the accounting and financial reporting processes of the Company and the audits of the financial statements of the Company; and
- (D) the specific audit committee responsibilities and authority set forth in IEX Rule 14.405(c)(3).

• • • **Supplementary Material** • • •

.04 Audit Committee Charter

Each Company is required to adopt a formal written charter that specifies the scope of its responsibilities and the means by which it carries out those responsibilities; the outside auditor's accountability to the audit committee; and the audit committee's responsibility to ensure the independence of the outside auditor. Consistent with this, the charter must specify all audit committee responsibilities set forth in Rule 10A-3(b)(2), (3), (4), and (5) under the Act. Rule 10A-3(b)(3)(ii) under the Act requires that each audit committee must establish procedures for the confidential, anonymous submission by employees of the listed Company of concerns regarding questionable accounting or auditing matters. The rights and responsibilities as articulated in the audit committee charter empower the audit committee and enhance its effectiveness in carrying out its responsibilities.

IEX Rule 14.405(c)(3) imposes additional requirements for investment company audit committees that must also be set forth in audit committee charters for these Companies.

(2) Audit Committee Composition

- (A) Each Company must have, and certify that it has and will continue to have, an audit committee of at least three members, each of whom must: (i) be an Independent Director as defined under IEX Rule 14.405(a)(2); (ii) meet the criteria for independence set forth in Rule 10A-3(b)(1) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act); (iii) not have participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years; and (iv) be able to read and understand fundamental financial statements, including a Company's balance sheet, income statement, and cash flow statement. Additionally, each Company must certify that it has, and will continue to have, at least one member of the audit committee who has past employment experience in finance or accounting, requisite professional certification in accounting,

or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

(B) Non-Independent Director for Exceptional and Limited Circumstances

Notwithstanding paragraph (2)(A)(i), one director who: (i) is not an Independent Director as defined in IEX Rule 14.405(a)(2); (ii) meets the criteria set forth in Section 10A(m)(3) under the Act and the rules thereunder; and (iii) is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the audit committee, if the board, under exceptional and limited circumstances, determines that membership on the committee by the individual is required by the best interests of the Company and its Shareholders. A Company, other than a Foreign Private Issuer, that relies on this exception must comply with the disclosure requirements set forth in Item 407(d)(2) of Regulation S-K. A Foreign Private Issuer that relies on this exception must disclose in its next annual report (e.g., Form 20-F or 40-F) the nature of the relationship that makes the individual not independent and the reasons for the board's determination. A member appointed under this exception may not serve longer than two years and may not chair the audit committee.

• • • **Supplementary Material** • • •

.05 Audit Committee Composition

Audit committees are required to have a minimum of three members and be comprised only of Independent Directors. In addition to satisfying the Independent Director requirements under IEX Rule 14.405(a)(2), audit committee members must meet the criteria for independence set forth in Rule 10A-3(b)(1) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act): they must not accept any consulting, advisory, or other compensatory fee from the Company other than for board service, and they must not be an affiliated person of the Company. As described in Rule 10A-3(d)(1) and (2), a Company must disclose reliance on certain exceptions from Rule 10A-3 and disclose an assessment of whether, and if so, how, such reliance would materially adversely affect the ability of the audit committee to act independently and to satisfy the other requirements of Rule 10A-3. It is recommended also that a Company disclose in its annual proxy (or, if the Company does not file a proxy, in its Form 10-K or 20-F) if any director is deemed eligible to serve on the audit committee but falls outside the safe harbor provisions of Rule 10A-3(e)(1)(ii) under the Act. A director who qualifies as an audit committee financial expert under Item 407(d)(5)(ii) and (iii) of Regulation S-K is presumed to qualify as a financially sophisticated audit committee member under IEX Rule 14.405(c)(2)(A).

(3) Audit Committee Responsibilities and Authority

The audit committee must have the specific audit committee responsibilities and authority necessary to comply with Rule 10A-3(b)(2), (3), (4), and (5) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act), concerning responsibilities relating to: (i) registered public accounting firms, (ii) complaints relating to accounting, internal accounting controls or auditing matters, (iii) authority to engage advisers, and (iv) funding as determined by the audit committee. Audit committees for investment companies must also establish procedures for the confidential, anonymous submission of concerns regarding questionable accounting or auditing matters by employees of the investment adviser, administrator, principal underwriter, or any other provider of accounting related services for the investment company, as well as employees of the investment company.

• • • **Supplementary Material** • • •

.06 *The Audit Committee Responsibilities and Authority*

Audit committees must have the specific audit committee responsibilities and authority necessary to comply with Rule 10A-3(b)(2), (3), (4), and (5) under the Act (subject to the exemptions provided in Rule 10A-3(c) under the Act), concerning responsibilities relating to registered public accounting firms; complaints relating to accounting; internal accounting controls or auditing matters; authority to engage advisers; and funding. Audit committees for investment companies must also establish procedures for the confidential, anonymous submission of concerns regarding questionable accounting or auditing matters by employees of the investment adviser, administrator, principal underwriter, or any other provider of accounting related services for the investment company, as well as employees of the investment company.

(4) Cure Periods for Audit Committee

- (A) If a Company fails to comply with the audit committee composition requirement under Rule 10A-3(b)(1) under the Act and IEX Rule 14.405(c)(2)(A) because an audit committee member ceases to be independent for reasons outside the member's reasonable control, the audit committee member may remain on the audit committee until the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement. A Company relying on this provision must provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.
- (B) If a Company fails to comply with the audit committee composition requirement under IEX Rule 14.405(c)(2)(A) due to one vacancy on the audit committee, and the cure period in paragraph (A) is not otherwise being relied upon for another member, the Company will have until the earlier of the next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the vacancy, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision must provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

(5) Exception

At any time when a Company has a class of common equity securities (or similar securities) that is listed on another national securities exchange or national securities association subject to the requirements of Rule 10A-3 under the Act, the listing of classes of securities of a direct or indirect consolidated subsidiary or an at least 50% beneficially owned subsidiary of the Company (except classes of equity securities, other than non-convertible, non-participating preferred securities, of such subsidiary) shall not be subject to the requirements of IEX Rule 14.405(c).

(d) Compensation Committee Requirements

(1) Compensation Committee Charter

Each Company must certify that it has adopted a formal written compensation committee charter and that the compensation committee will review and reassess the adequacy of the formal written charter on an annual basis. The charter must specify:

- (A) the scope of the compensation committee's responsibilities, and how it carries out those responsibilities, including structure, processes and membership requirements;
- (B) the compensation committee's responsibility for determining, or recommending to the board for determination, the compensation of the chief executive officer and all other Executive Officers of the Company;
- (C) that the chief executive officer may not be present during voting or deliberations on his or her compensation; and
- (D) the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

(2) Compensation Committee Composition

- (A) Each Company must have, and certify that it has and will continue to have, a compensation committee of at least two members. Each committee member must be an Independent Director as defined under IEX Rule 14.405(a)(2). In addition, in affirmatively determining the independence of any director who will serve on the compensation committee of a board of directors, the board of directors must consider all factors specifically relevant to determining whether a director has a relationship to the Company which is material to that director's ability to be independent from management in connection with the duties of a compensation committee member, including, but not limited to:
 - (i) the source of compensation of such director, including any consulting, advisory or other compensatory fee paid by the Company to such director; and
 - (ii) whether such director is affiliated with the Company, a subsidiary of the Company or an affiliate of a subsidiary of the Company.

(B) Non-Independent Committee Member under Exceptional and Limited Circumstances

Notwithstanding IEX Rule 14.405(d)(2)(A) above, if the compensation committee is comprised of at least three members, one director who does not meet the requirements of IEX Rule 14.405(d)(2)(A) and is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the compensation committee if the board, under exceptional and limited circumstances, determines that such individual's membership on the committee is required by the best interests of the Company and its Shareholders. A Company that relies on this exception must disclose either on or through the Company's website or in the proxy statement for the next annual meeting subsequent to such determination (or, if the Company does not file a proxy, in its Form 10-K or 20-F), the nature of the relationship and the reasons for the determination. In addition, the Company must provide any disclosure required by Instruction 1 to Item 407(a) of Regulation S-K regarding its reliance on this exception. A member appointed under this exception may not serve longer than two years.

(3) Compensation Committee Responsibilities and Authority

As required by Rule 10C-1(b)(2), (3) and (4)(i)-(vi) under the Act, the compensation committee must have the following specific responsibilities and authority.

- (A) The compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser.

- (B) The compensation committee shall be directly responsible for the appointment, compensation and oversight of the work of any compensation consultant, legal counsel and other adviser retained by the compensation committee.
- (C) The Company must provide for appropriate funding, as determined by the compensation committee, for payment of reasonable compensation to a compensation consultant, legal counsel or any other adviser retained by the compensation committee.
- (D) The compensation committee may select, or receive advice from, a compensation consultant, legal counsel or other adviser to the compensation committee, other than in-house legal counsel, only after taking into consideration the following factors:
 - (i) the provision of other services to the Company by the person that employs the compensation consultant, legal counsel or other adviser;
 - (ii) the amount of fees received from the Company by the person that employs the compensation consultant, legal counsel or other adviser, as a percentage of the total revenue of the person that employs the compensation consultant, legal counsel or other adviser;
 - (iii) the policies and procedures of the person that employs the compensation consultant, legal counsel or other adviser that are designed to prevent conflicts of interest;
 - (iv) any business or personal relationship of the compensation consultant, legal counsel or other adviser with a member of the compensation committee;
 - (v) any stock of the Company owned by the compensation consultant, legal counsel or other adviser; and
 - (vi) any business or personal relationship of the compensation consultant, legal counsel, other adviser or the person employing the adviser with an Executive Officer of the Company.

Nothing in this IEX Rule shall be construed: (i) to require the compensation committee to implement or act consistently with the advice or recommendations of the compensation consultant, legal counsel or other adviser to the compensation committee; or (ii) to affect the ability or obligation of a compensation committee to exercise its own judgment in fulfillment of the duties of the compensation committee.

The compensation committee is required to conduct the independence assessment outlined in this IEX Rule with respect to any compensation consultant, legal counsel or other adviser that provides advice to the compensation committee, other than in-house legal counsel. However, nothing in this IEX Rule requires a compensation consultant, legal counsel or other compensation adviser to be independent, only that the compensation committee consider the enumerated independence factors before selecting, or receiving advice from, a compensation adviser. Compensation committees may select, or receive advice from, any compensation adviser they prefer, including ones that are not independent, after considering the six independence factors outlined above.

For purposes of this IEX Rule, the compensation committee is not required to conduct an independence assessment for a compensation adviser that acts in a role limited to the following activities for which no disclosure is required under Item 407(e)(3)(iii) of Regulation S-K: (a) consulting on any broad-based plan that does not discriminate in scope, terms, or operation, in favor of Executive Officers or directors of the Company, and that is available generally to all salaried employees; and/or (b) providing information that either is not customized for a particular issuer or that is customized based on parameters that are not developed by the adviser, and about which the adviser does not provide advice.

(4) Cure Period for Compensation Committee

If a Company fails to comply with the compensation committee composition requirement under IEX Rule 14.405(d)(2)(A) due to one vacancy, or one compensation committee member ceases to be independent due to circumstances beyond the member's reasonable control, the Company shall regain compliance with the requirement by the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure to comply with this requirement; provided, however, that if the annual shareholders meeting occurs no later than 180 days following the event that caused the failure to comply with this requirement, the Company shall instead have 180 days from such event to regain compliance. A Company relying on this provision shall provide notice to IEX immediately upon learning of the event or circumstance that caused the noncompliance.

(5) Smaller Reporting Companies

A Smaller Reporting Company, as defined in Rule 12b-2 under the Act, is not subject to the requirements of IEX Rule 14.405(d), except that a Smaller Reporting Company must have, and certify that it has and will continue to have, a compensation committee of at least two members, each of whom must be an Independent Director as defined under IEX Rule 14.405(a)(2). A Smaller Reporting Company may rely on the exception in IEX Rule 14.405(d)(2)(B) and the cure period in IEX Rule 14.405(d)(4). In addition, a Smaller Reporting Company must certify that it has adopted a formal written compensation committee charter or board resolution that specifies the content set forth in IEX Rule 14.405(d)(1)(A) through (C). A Smaller Reporting Company does not need to include in its formal written compensation committee charter or board resolution the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

.07 Independent Director Oversight of Executive Compensation

Independent oversight of executive officer compensation helps assure that appropriate incentives are in place, consistent with the board's responsibility to act in the best interests of the corporation. Compensation committees are required to have a minimum of two members and be comprised only of Independent Directors as defined under IEX Rule 14.405(a)(2).

In addition, IEX Rule 14.405(d)(2)(A) includes an additional independence test for compensation committee members. When considering the sources of a director's compensation for this purpose, the board should consider whether the director receives compensation from any person or entity that would impair the director's ability to make independent judgments about the Company's executive compensation. Similarly, when considering any affiliate relationship a director has with the Company, a subsidiary of the Company, or an affiliate of a subsidiary of the Company, in determining independence for purposes of compensation committee service, the board should consider whether the affiliate relationship places the director under the direct or indirect control of the Company or its senior management, or creates a direct relationship between the director and members of senior management, in each case of a nature that would impair the director's ability to make independent judgments about the Company's executive compensation. In that regard, while a board may conclude differently with respect to individual facts and circumstances, IEX does not believe that ownership of Company stock by itself, or possession of a controlling interest through ownership of Company stock by itself, precludes a board finding that it is appropriate for a director to serve on the compensation committee. In fact, it may be appropriate for certain affiliates, such as representatives of significant stockholders, to serve on compensation committees since their interests are likely aligned with those of other stockholders in seeking an appropriate executive compensation program.

For purposes of the additional independence test for compensation committee members described in IEX Rule 14.405(d)(2)(A), any reference to the "Company" includes any parent or subsidiary of the Company. The term "parent or subsidiary" is intended to cover entities the Company controls and consolidates with the Company's financial statements as filed with the Commission (but not if the Company reflects such entity solely as an investment in its financial statements).

A Smaller Reporting Company must have a compensation committee with a minimum of two members. Each compensation committee member must be an Independent Director as defined under IEX Rule 14.405(a)(2). In addition, each Smaller Reporting Company must have a formal written compensation committee charter or board resolution that specifies the committee's responsibilities and authority set forth in IEX Rule 14.405(d)(1)(A)-(C). However, in recognition of the fact that Smaller Reporting Companies may have fewer resources than larger Companies, Smaller Reporting Companies are not required to adhere to the additional compensation committee eligibility requirements in IEX Rule 14.405(d)(2)(A), or to incorporate into their formal written compensation committee charter or board resolution the specific compensation committee responsibilities and authority set forth in IEX Rule 14.405(d)(3).

(e) Independent Director Oversight of Director Nominations

- (1) Director nominees must either be selected, or recommended for the Board's selection, either by:
 - (A) Independent Directors constituting a majority of the Board's Independent Directors in a vote in which only Independent Directors participate, or
 - (B) a nominations committee comprised solely of Independent Directors.
- (2) Each Company must certify that it has adopted a formal written charter or board resolution, as applicable, addressing the nominations process and such related matters as may be required under the federal securities laws.
- (3) Non-Independent Committee Member under Exceptional and Limited Circumstances

Notwithstanding IEX Rule 14.405(e)(1)(B) above, if the nominations committee is comprised of at least three members, one director, who is not an Independent Director as defined in IEX Rule 14.405(a)(2) and is not currently an Executive Officer or employee or a Family Member of an Executive Officer, may be appointed to the nominations committee if the board, under exceptional and limited circumstances, determines that such individual's membership on the committee is required by the best interests of the Company and its Shareholders. A Company that relies on this exception must disclose either on or through the Company's website or in the proxy statement for next annual meeting subsequent to such determination (or, if the Company does not file a proxy, in its Form 10-K or 20-F), the nature of the relationship and the reasons for the determination. In addition, the Company must provide any disclosure required by Instruction 1 to Item 407(a) of Regulation S-K regarding its reliance on this exception. A member appointed under this exception may not serve longer than two years.
- (4) Independent Director oversight of director nominations shall not apply in cases where the right to nominate a director legally belongs to a third party. However, this does not relieve a Company's obligation to comply with the committee composition requirements under IEX Rules 14.405(c), (d), and (e).
- (5) This IEX Rule 14.405(e) is not applicable to a Company if the Company is subject to a binding obligation that requires a director nomination structure inconsistent with this IEX Rule and such obligation pre-dates the approval date of this IEX Rule.

.08 Independent Director Oversight of Director Nominations

Independent Director oversight of nominations enhances investor confidence in the selection of well-qualified director nominees, as well as independent nominees as required by the rules. This IEX Rule is also intended to provide flexibility for a Company to choose an appropriate board structure and reduce resource burdens, while ensuring that Independent Directors approve all nominations.

This IEX Rule does not apply in cases where the right to nominate a director legally belongs to a third party. For example, investors may negotiate the right to nominate directors in connection with an investment in the Company, holders of preferred stock may be permitted to nominate or appoint directors upon certain defaults, or the Company may be a party to a shareholder's agreement that allocates the right to nominate some directors. Because the right to nominate directors in these cases does not reside with the Company, Independent Director approval would not be required. This IEX Rule is not applicable if the Company is subject to a binding obligation that requires a director nomination structure inconsistent with the rule and such obligation pre-dates the approval date of this IEX Rule.

Rule 14.406. Code of Conduct

Each Company shall adopt a code of conduct applicable to all directors, officers and employees, which shall be publicly available. A code of conduct satisfying this IEX Rule must comply with the definition of a "code of ethics" set out in Section 406(c) of the Sarbanes-Oxley Act of 2002 ("the Sarbanes-Oxley Act") and any regulations promulgated thereunder by the Commission. See 17 C.F.R. 228.406 and 17 C.F.R. 229.406. In addition, the code must provide for an enforcement mechanism. Any waivers of the code for directors or Executive Officers must be approved by the Board. Companies, other than Foreign Private Issuers, shall disclose such waivers within four business days by filing a current report on Form 8-K with the Commission or, in cases where a Form 8-K is not required, by distributing a press release. Foreign Private Issuers shall disclose such waivers either by distributing a press release or including disclosure in a Form 6-K or in the next Form 20-F or 40-F. Alternatively, a Company, including a Foreign Private Issuer, may disclose waivers on the Company's website in a manner that satisfies the requirements of Item 5.05(c) of Form 8-K.

.01 Code of Conduct

Ethical behavior is required and expected of every corporate director, officer and employee whether or not a formal code of conduct exists. The requirement of a publicly available code of conduct applicable to all directors, officers and employees of a Company is intended to demonstrate to investors that the board and management of IEX Companies have carefully considered the requirement of ethical dealing and have put in place a system to ensure that they become aware of and take prompt action against any questionable behavior. For Company personnel, a code of conduct with enforcement provisions provides assurance that reporting of questionable behavior is protected and encouraged, and fosters an atmosphere of self-awareness and prudent conduct.

IEX Rule 14.406 requires Companies to adopt a code of conduct complying with the definition of a "code of ethics" under Section 406(c) of the Sarbanes-Oxley Act of 2002 ("the Sarbanes-Oxley Act") and any regulations promulgated thereunder by the Commission. See 17 C.F.R. 228.406 and 17 C.F.R. 229.406. Thus, the code must include such standards as are reasonably necessary to promote the ethical handling of conflicts of interest, full and fair disclosure, and compliance with laws, rules and regulations, as specified by the Sarbanes-Oxley Act. However, the code of conduct required by Rule 14.406 must apply to all directors, officers, and employees. Companies can satisfy this obligation by adopting one or more codes of conduct, such that all directors, officers and employees are subject to a code that satisfies the definition of a "code of ethics."

As the Sarbanes-Oxley Act recognizes, investors are harmed when the real or perceived private interest of a director, officer or employee is in conflict with the interests of the Company, as when the individual receives improper personal benefits as a result of his or her position with the Company, or when the individual has other duties, responsibilities or obligations that run counter to his

or her duty to the Company. Also, the disclosures a Company makes to the Commission are the essential source of information about the Company for regulators and investors — there can be no question about the duty to make them fairly, accurately and timely. Finally, illegal action must be dealt with swiftly and the violators reported to the appropriate authorities. Each code of conduct must require that any waiver of the code for Executive Officers or directors may be made only by the board and must be disclosed to Shareholders, along with the reasons for the waiver. All Companies, other than Foreign Private Issuers, must disclose such waivers within four business days by filing a current report on Form 8-K with the Commission, providing website disclosure that satisfies the requirements of Item 5.05(c) of Form 8-K, or, in cases where a Form 8-K is not required, by distributing a press release. Foreign Private Issuers must disclose such waivers either by providing website disclosure that satisfies the requirements of Item 5.05(c) of Form 8-K, by including disclosure in a Form 6-K or in the next Form 20-F or 40-F or by distributing a press release. This disclosure requirement provides investors the comfort that waivers are not granted except where they are truly necessary and warranted, and that they are limited and qualified so as to protect the Company and its Shareholders to the greatest extent possible.

Each code of conduct must also contain an enforcement mechanism that ensures prompt and consistent enforcement of the code, protection for persons reporting questionable behavior, clear and objective standards for compliance, and a fair process by which to determine violations.

Rule 14.407. Exemptions from Certain Corporate Governance Requirements

This IEX Rule provides the exemptions from the corporate governance rules afforded to certain types of Companies, and sets forth the phase-in schedules for initial public offerings, Companies emerging from bankruptcy, Companies transferring from other markets and Companies ceasing to be Smaller Reporting Companies. This IEX Rule also describes the applicability of the corporate governance rules to Controlled Companies and sets forth the phase-in schedule afforded to Companies ceasing to be Controlled Companies.

(a) Exemptions to the Corporate Governance Requirements

(1) Asset-backed Issuers and Other Passive Issuers

The following are exempt from the requirements related to Majority Independent Board (IEX Rule 14.405(b)), Audit Committee (IEX Rule 14.405(c)), Compensation Committee (IEX Rule 14.405(d)), Director Nominations (IEX Rule 14.405(e)), the Controlled Company Exemption (IEX Rule 14.407(c)(2)) and Code of Conduct (IEX Rule 14.406):

- (A) asset-backed issuers; and
- (B) issuers, such as unit investment trusts, including Portfolio Depositary Receipts, which are organized as trusts or other unincorporated associations that do not have a board of directors or persons acting in a similar capacity and whose activities are limited to passively owning or holding (as well as administering and distributing amounts in respect of) securities, rights, collateral or other assets on behalf of or for the benefit of the holders of the listed securities.

• • • Supplementary Material • • •

.01 Asset-backed Issuers Supplemental

Because of their unique attributes, IEX Rules 14.405 (b), (c), (d), (e), and 14.406 do not apply to asset-backed issuers and issuers, such as unit investment trusts, that are organized as trusts or other unincorporated associations that do not have a board of directors or persons acting in a similar capacity and whose activities are limited to passively owning or holding (as well as administering and distributing amounts in respect of) securities, rights, collateral or other assets on behalf of or for the benefit of the holders of the listed securities.

(2) Cooperatives

Cooperative entities, such as agricultural cooperatives, that are structured to comply with relevant state law and federal tax law and that do not have a publicly traded class of common stock are exempt from IEX Rules 14.405 (b), (d), (e), and 14.407(c)(2). However, such entities must comply with all federal securities laws, including without limitation those rules required by Section 10A(m) of the Act and Rule 10A-3 thereunder.

• • • **Supplementary Material** • • •

.02 Cooperatives Supplemental

Certain member-owned cooperatives that list their preferred stock are required to have their common stock owned by their members. Because of their unique structure and the fact that they do not have a publicly traded class of common stock, such entities are exempt from IEX Rule 14.405(b), (d), and (e).

(3) Foreign Private Issuers

(A) A Foreign Private Issuer may follow its home country practice in lieu of the requirements of the IEX Rule 14.400 Series and the requirement to distribute annual and interim reports set forth in IEX Rule 14.207(d), provided, however, that such a Company shall: comply with the Notification of Noncompliance requirement (IEX Rule 14.410), the Voting Rights requirement (IEX Rule 14.413), have an audit committee that satisfies IEX Rule 14.405(c)(3), and ensure that such audit committee's members meet the independence requirement in IEX Rule 14.405(c)(2)(A)(ii). Except as provided in this paragraph, a Foreign Private Issuer must comply with the requirements of Chapter 14.

(B) Disclosure Requirements

- (i) A Foreign Private Issuer that follows a home country practice in lieu of one or more of the IEX Listing Rules shall disclose in its annual reports filed with the Commission each requirement that it does not follow and describe the home country practice followed by the Company in lieu of such requirements. Alternatively, a Foreign Private Issuer that is not required to file its annual report with the Commission on Form 20-F may make this disclosure only on its website. A Foreign Private Issuer that follows a home country practice in lieu of the requirement in IEX Rule 14.405(d)(2) to have an independent compensation committee must disclose in its annual reports filed with the Commission the reasons why it does not have such an independent committee.
- (ii) A Foreign Private Issuer making its initial public offering or first U.S. listing on IEX shall disclose in its registration statement or on its website each requirement that it does not follow and describe the home country practice followed by the Company in lieu of such requirements.

• • • **Supplementary Material** • • •

.03 Foreign Private Issuer Supplemental

A Foreign Private Issuer (as defined in IEX Rule 14.002) listed on IEX may follow the practice in such Company's home country (as defined in General Instruction F of Form 20-F) in lieu of the provisions of the IEX Rule Series 14.400 and IEX Rule 14.207(d), subject

to several important exceptions. First, such an issuer shall comply with IEX Rule 14.410 (Notification of Noncompliance). Second, such a Company shall have an audit committee that satisfies IEX Rule 14.405(c)(3). Third, members of such audit committee shall meet the criteria for independence referenced in IEX Rule 14.405(c)(2)(A)(ii) (the criteria set forth in Rule 10A-3(b)(1) under the Act, subject to the exemptions provided in Rule 10A-3(c) under the Act). Finally, a Foreign Private Issuer that elects to follow home country practice in lieu of a requirement of IEX Rules 14.400 or 14.207(d) shall submit to IEX a written statement from an independent counsel in such Company's home country certifying that the Company's practices are not prohibited by the home country's laws. In the case of new listings, this certification is required at the time of listing. For existing Companies, the certification is required at the time the Company seeks to adopt its first noncompliant practice. In the interest of transparency, the rule requires a Foreign Private Issuer to make appropriate disclosures in the Company's annual filings with the Commission (typically Form 20-F or 40-F), and at the time of the Company's original listing in the United States, if that listing is on IEX, in its registration statement (typically Form F-1, 20-F, or 40-F); alternatively, a Company that is not required to file an annual report on Form 20-F may provide these disclosures in English on its website in addition to, or instead of, providing these disclosures on its registration statement or annual report. The Company shall disclose each requirement that it does not follow and include a brief statement of the home country practice the Company follows in lieu of these corporate governance requirement(s). If the disclosure is only available on the website, the annual report and registration statement should so state and provide the web address at which the information may be obtained. Companies that must file annual reports on Form 20-F are encouraged to provide these disclosures on their websites, in addition to the required Form 20-F disclosures, to provide maximum transparency about their practices.

(4) Limited Partnerships

A limited partnership is not subject to the requirements of the IEX Rule Series 14.400, except as provided in this IEX Rule 14.407(a)(4). A limited partnership may request a written interpretation pursuant to IEX Rule 14.401(c).

- (A) No provision of this IEX Rule shall be construed to require any foreign Company that is a partnership to do any act that is contrary to a law, rule or regulation of any public authority exercising jurisdiction over such Company or that is contrary to generally accepted business practices in the Company's country of domicile. IEX shall have the ability to provide exemptions from applicability of these provisions as may be necessary or appropriate to carry out this intent.

(B) Corporate General Partner

Each Company that is a limited partnership shall maintain a corporate general partner or co-general partner, which shall have the authority to manage the day-to-day affairs of the partnership.

(C) Independent Directors/Audit Committee

The corporate general partner or co-general partner shall maintain a sufficient number of Independent Directors on its board to satisfy the audit committee requirements set forth in IEX Rule 14.405(c).

(D) Partner Meetings

A Company that is a limited partnership shall not be required to hold an annual meeting of limited partners unless required by statute or regulation in the state in which the limited partnership is formed or doing business or by the terms of the partnership's limited partnership agreement.

(E) Quorum

In the event that a meeting of limited partners is required pursuant to paragraph (D), the quorum for such meeting shall be not less than 33-1/3 percent of the limited partnership interests outstanding.

(F) Solicitation of Proxies

In the event that a meeting of limited partners is required pursuant to paragraph (D), the Company shall provide all limited partners with proxy or information statements and if a vote is required, shall solicit proxies thereon.

(G) Review of Related Party Transactions

Each Company that is a limited partnership shall conduct an appropriate review of all related party transactions on an ongoing basis and shall utilize the Audit Committee or a comparable body of the Board of Directors for the review of potential material conflict of interest situations where appropriate.

(H) Shareholder Approval

Each Company that is a limited partnership must obtain shareholder approval when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, as would be required under IEX Rule 14.412(c) and Supplementary Material .01 to IEX Rule 14.412(c)

(I) Auditor Registration

Each Company that is a limited partnership must be audited by an independent public accountant that is registered as a public accounting firm with the Public Company Accounting Oversight Board, as provided for in Section 102 of the Sarbanes-Oxley Act of 2002 [15 U.S.C. 7212].

(J) Notification of Noncompliance.

Each Company that is a limited partnership must provide IEX with prompt notification after an Executive Officer of the Company, or a person performing an equivalent role, becomes aware of any noncompliance by the Company with the requirements of this IEX Rule Series 14.400.

(5) Management Investment Companies

Management investment companies (including business development companies) are subject to all the requirements of the Rule 14.400 Series, except that management investment companies registered under the Investment Company Act of 1940 are exempt from the Independent Directors requirement, the Compensation Committee requirement, the Independent Director Oversight of Director Nominations requirement, and the Code of Conduct requirement, set forth in IEX Rules 14.405(b), (d), and (e) and 14.406, respectively. In addition, management investment companies that issue Index Fund Shares, Managed Fund Shares, and Exchange-Traded Managed Fund Shares, as defined in Chapter 16 are exempt from the Audit Committee requirements set forth in IEX Rule 14.405(c), except for the applicable requirements of SEC Rule 10A-3.

• • • **Supplementary Material** • • •

.04 Management Investment Companies Supplemental

Management investment companies registered under the Investment Company Act of 1940 are already subject to a pervasive system of federal regulation in certain areas of corporate governance covered by the IEX Rule Series 14.400. In light of this, the Exchange exempts from IEX Rules 14.405(b), (d), and (e) and 14.406 management investment companies registered under the Investment Company Act of 1940. Business development companies, which are a type of closed- end management investment company defined in Section 2(a)(48) of the Investment Company Act of 1940 that are not registered under that Act, are required to comply with all of the provisions of the Rule 14.400 Series. Management investment companies that are Index Fund Shares and Managed Fund Shares

are exempt from the Audit Committee requirements set forth in IEX Rule 14.405(c), except for the applicable requirements of SEC Rule 10A-3.

(b) Phase-In Schedules

(1) Initial Public Offerings

A Company listing in connection with its initial public offering shall be permitted to phase in its compliance with the independent committee requirements set forth in IEX Rules 14.405(d)(2) and (e)(1)(B) on the same schedule as it is permitted to phase in its compliance with the independent audit committee requirement pursuant to Rule 10A-3(b)(1)(iv)(A) under the Act. Accordingly, a Company listing in connection with its initial public offering shall be permitted to phase in its compliance with the committee composition requirements set forth in IEX Rule 14.405(d)(2) and (e)(1)(B) as follows: (1) one member must satisfy the requirement at the time of listing; (2) a majority of members must satisfy the requirement within 90 days of listing; and (3) all members must satisfy the requirement within one year of listing. Furthermore, a Company listing in connection with its initial public offering shall have twelve months from the date of listing to comply with the majority independent board requirement in IEX Rule 14.405(b). It should be noted, however, that pursuant to Rule 10A-3(b)(1)(iii) under the Act investment companies are not afforded the exemptions under Rule 10A-3(b)(1)(iv) under the Act. Companies may choose not to adopt a nomination committee and may instead rely upon a majority of the Independent Directors to discharge responsibilities under IEX Rule 14.405(b). For purposes of the IEX Rule Series 14.400 other than IEX Rules 14.405(c)(2)(A)(ii) and 14.410, a Company shall be considered to be listing in conjunction with an initial public offering if, immediately prior to listing, it does not have a class of common stock registered under the Act. For purposes of IEX Rule 14.405(c)(2)(A)(ii) and IEX Rule 14.410, a Company shall be considered to be listing in conjunction with an initial public offering only if it meets the conditions in Rule 10A-3(b)(1)(iv)(A) under the Act, namely, that the Company was not, immediately prior to the effective date of a registration statement, required to file reports with the Commission pursuant to Section 13(a) or 15(d) of the Act.

(2) Companies Emerging from Bankruptcy

Companies that are emerging from bankruptcy shall be permitted to phase-in independent nomination and compensation committees and majority independent boards on the same schedule as Companies listing in conjunction with their initial public offering.

(3) Transfers from other Markets

Companies transferring from other markets with a substantially similar requirement shall be afforded the balance of any grace period afforded by the other market. Companies transferring from other listed markets that do not have a substantially similar requirement shall be afforded one year from the date of listing on IEX. This transition period is not intended to supplant any applicable requirements of Rule 10A-3 under the Act.

(4) Phase-In Schedule for a Company Ceasing to be a Smaller Reporting Company

Pursuant to Rule 12b-2 under the Act, a Company tests its status as a Smaller Reporting Company on an annual basis as of the last business day of its most recently completed second fiscal quarter (for purposes of this IEX Rule, the "Determination Date"). A Company with a public float of \$75 million or more as of the Determination Date will cease to be a Smaller Reporting Company as of the beginning of the fiscal year following the Determination Date (the "Start Date").

By six months from the Start Date, a Company must comply with Rule 14.405(d)(3) and certify to IEX that: (i) it has complied with the requirement in IEX Rule 14.405(d)(1) to adopt a formal written compensation committee charter including the content specified in IEX Rule 14.405(d)(1)(A) through (D); and (ii) it has complied, or within the applicable phase-in schedule will comply, with the additional requirements in IEX Rule 14.405(d)(2)(A) regarding compensation committee composition.

A Company shall be permitted to phase in its compliance with the additional compensation committee eligibility requirements of IEX Rule 14.405(d)(2)(A) relating to compensatory fees and affiliation as follows: (i) one member must satisfy the requirements by six months from the Start Date; (ii) a majority of members must satisfy the requirements by nine months from the Start Date; and (iii) all members must satisfy the requirements by one year from the Start Date.

Since a Smaller Reporting Company is required to have a compensation committee comprised of at least two Independent Directors, a Company that has ceased to be a Smaller Reporting Company may not use the phase-in schedule for the requirements of IEX Rule 14.405(d)(2)(A) relating to minimum committee size or that the committee consist only of Independent Directors as defined under IEX Rule 14.405(a)(2).

During this phase-in schedule, a Company that has ceased to be a Smaller Reporting Company must continue to comply with Rule 14.405(d)(5).

(c) How the Rules Apply to a Controlled Company

(1) Definition

A Controlled Company is a Company of which more than 50% of the voting power for the election of directors is held by an individual, a group or another company.

(2) Exemptions Afforded to a Controlled Company

A Controlled Company is exempt from the requirements of IEX Rules 14.405(b), (d), and (e), except for the requirements of subsection (b)(2) which pertain to executive sessions of Independent Directors. A Controlled Company, other than a Foreign Private Issuer, relying upon this exemption must comply with the disclosure requirements set forth in Instruction 1 to Item 407(a) of Regulation S-K. A Foreign Private Issuer must disclose in its next annual report (e.g., Form 20-F or 40-F) that it is a Controlled Company and the basis for that determination.

(3) Phase-In Schedule for a Company Ceasing to be a Controlled Company

A Company that has ceased to be a Controlled Company within the meaning of IEX Rule 14.407(c)(1) shall be permitted to phase-in its independent nomination and compensation committees and majority independent board on the same schedule as Companies listing in conjunction with their initial public offering. It should be noted, however, that a Company that has ceased to be a Controlled Company within the meaning of IEX Rule 14.407(c)(1) must comply with the audit committee requirements of IEX Rule 14.405(c) as of the date it ceased to be a Controlled Company. Furthermore, the executive sessions requirement of IEX Rule 14.405(b)(2) applies to Controlled Companies as of the date of listing and continues to apply after it ceases to be controlled.

• • • *Supplementary Material* • • •

.05 Controlled Company Exemption

This exemption recognizes that majority Shareholders, including parent companies, have the right to select directors and control certain key decisions, such as executive officer compensation, by virtue of their ownership rights. In order for a group to exist for purposes of this IEX Rule, the Shareholders must have publicly filed a notice that they are acting as a group (e.g., a Schedule 13D). A Controlled Company not relying upon this exemption need not provide any special disclosures about its controlled status. It should be emphasized that this controlled company exemption does not extend to the audit committee requirements under IEX Rule 14.405(c) or the requirement for executive sessions of Independent Directors under IEX Rule 14.405(b)(2).

Rule 14.408. Meetings of Shareholders

- (a) Each Company listing common stock or voting preferred stock, and their equivalents, shall hold an annual meeting of Shareholders no later than one year after the end of the Company's fiscal year-end, unless such Company is a limited partnership that meets the requirements of IEX Rule 14.407(a)(4)(D).
-

• • • Supplementary Material • • •

.01 Meetings of Shareholders or Partners

IEX Rule 14.408 requires that each Company listing common stock or voting preferred stock, and their equivalents, hold an annual meeting of Shareholders within one year of the end of each fiscal year. At each such meeting, Shareholders must be afforded the opportunity to discuss Company affairs with management and, if required by the Company's governing documents, to elect directors. A new listing that was not previously subject to a requirement to hold an annual meeting is required to hold its first meeting within one-year after its first fiscal year-end following listing. Of course, IEX's meeting requirement does not supplant any applicable state or federal securities laws concerning annual meetings.

This requirement is not applicable as a result of a Company listing the following types of securities: securities listed pursuant to IEX Rule 14.316 (such as Trust Preferred Securities and Contingent Value Rights), unless the listed security is a common stock or voting preferred stock equivalent (e.g., a callable common stock); Portfolio Depository Receipts and Index Fund Shares listed pursuant to Chapter 16; and Trust Issued Receipts listed pursuant to Chapter 16. Notwithstanding, if the Company also lists common stock or voting preferred stock, or their equivalent, the Company must still hold an annual meeting for the holders of that common stock or voting preferred stock, or their equivalent.

(b) Proxy Solicitation

Each Company that is not a limited partnership shall solicit proxies and provide proxy statements for all meetings of Shareholders and shall provide copies of such proxy solicitation to the Exchange. Limited partnerships that are required to hold an annual meeting of partners are subject to the requirements of IEX Rule 14.407(a)(4)(F).

(c) Quorum

Each Company that is not a limited partnership shall provide for a quorum as specified in its by-laws for any meeting of the holders of common stock; provided, however, that in no case shall such quorum be less than 33 1/3 % of the outstanding shares of the Company's common voting stock. Limited partnerships that are required to hold an annual meeting of partners are subject to the requirements of IEX Rule 14.407(a)(4)(E).

Rule 14.410. Notification of Noncompliance

A Company must provide the Exchange with prompt notification after an Executive Officer of the Company becomes aware of any noncompliance by the Company with the requirements of this IEX Rule Series 14.400.

Rule 14.411. Review of Related Party Transactions

- (a) Each Company that is not a limited partnership shall conduct an appropriate review and oversight of all related party transactions for potential conflict of interest situations on an ongoing basis by the Company's audit committee or another independent body of the board of directors. For purposes of this IEX Rule, the term "related party transaction" shall refer to transactions required to be disclosed pursuant to Item 404 of Regulation S-K under the Act. However, in the case of non-U.S. issuers, the term "related party transactions" shall refer to transactions required to be disclosed pursuant to Form 20-F, Item 7.B.
- (b) Limited partnerships shall comply with the requirements of IEX Rule 14.407(a)(4)(G).

Rule 14.412. Shareholder Approval

This IEX Rule sets forth the circumstances under which shareholder approval is required prior to an issuance of securities in connection with: (1) the acquisition of the stock or assets of another company; (2) a change of control; (3) equity-based compensation of officers, directors, employees, or consultants; and (4) private placements. General provisions relating to shareholder approval are set forth in IEX Rule 14.412(e), and the financial viability exception to the shareholder approval requirement is set forth in IEX Rule 14.412(f). Exchange-listed Companies and their representatives are encouraged to use the interpretative letter process described in IEX Rule 14.401(c).

(a) Acquisition of Stock or Assets of Another Company

Shareholder approval is required prior to the issuance of securities in connection with the acquisition of the stock or assets of another company if:

- (1) where, due to the present or potential issuance of common stock, including shares issued pursuant to an earn-out provision or similar type of provision, or securities convertible into or exercisable for common stock, other than a public offering for cash:
 - (A) the common stock has or will have upon issuance voting power equal to or in excess of 20% of the voting power outstanding before the issuance of stock or securities convertible into or exercisable for common stock; or
 - (B) the number of shares of common stock to be issued is or will be equal to or in excess of 20% of the number of shares of common stock outstanding before the issuance of the stock or securities; or
- (2) any director, officer or Substantial Shareholder (as defined by IEX Rule 14.412(e)(3)) of the Company has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the Company or assets to be acquired or in the consideration to be paid in the transaction or series of related transactions and the present or potential issuance of common stock, or securities convertible into or exercisable for common stock, could result in an increase in outstanding common shares or voting power of 5% or more.

(b) Change of Control

Shareholder approval is required prior to the issuance of securities when the issuance or potential issuance will result in a change of control of the Company.

(c) Equity Compensation

Shareholder approval is required prior to the issuance of securities when a stock option or purchase plan is to be established or materially amended or other equity compensation arrangement made or materially amended, pursuant to which stock may be acquired by officers, directors, employees, or consultants, except for:

- (1) warrants or rights issued generally to all security holders of the Company or stock purchase plans available on equal terms to all security holders of the Company (such as a typical dividend reinvestment plan);
- (2) tax qualified, non-discriminatory employee benefit plans (e.g., plans that meet the requirements of Section 401(a) or 423 of the Internal Revenue Code) or parallel nonqualified plans, provided such plans are approved by the Company's independent compensation committee or a majority of the Company's Independent Directors; or plans that merely provide a convenient way to purchase shares on the open market or from the Company at Market Value;
- (3) plans or arrangements relating to an acquisition or merger as permitted under Supplementary Material .01 to IEX Rule 14.412; or
- (4) issuances to a person not previously an employee or director of the Company, or following a bona fide period of non-employment, as an inducement material to the individual's entering into employment with the Company, provided such issuances are approved by either the Company's independent compensation committee or a majority of the Company's Independent Directors. Promptly following an issuance of any employment inducement grant in reliance on this exception, a Company must disclose in a press release the material terms of the grant, including the recipient(s) of the grant and the number of shares involved.

.01 Shareholder Approval for Stock Option Plans or Other Equity Compensation Arrangements

Employee ownership of Company stock can be an effective tool to align employee interests with those of other Shareholders. Stock option plans or other equity compensation arrangements can also assist in the recruitment and retention of employees, which is especially critical to young, growing Companies, or Companies with insufficient cash resources to attract and retain highly qualified employees. However, these plans can potentially dilute shareholder interests. IEX Rule 14.412(c) ensures that Shareholders have a voice in these situations, given this potential for dilution.

IEX Rule 14.412(c) requires shareholder approval when a plan or other equity compensation arrangement is established or materially amended. For these purposes, a material amendment would include, but not be limited to, the following:

- (1) *any material increase in the number of shares to be issued under the plan (other than to reflect a reorganization, stock split, merger, spinoff or similar transaction);*
- (2) *any material increase in benefits to participants, including any material change to: (i) permit a repricing (or decrease in exercise price) of outstanding options, (ii) reduce the price at which shares or options to purchase shares may be offered, or (iii) extend the duration of a plan;*
- (3) *any material expansion of the class of participants eligible to participate in the plan; and*
- (4) *any expansion in the types of options or awards provided under the plan.*

While general authority to amend a plan would not obviate the need for shareholder approval, if a plan permits a specific action without further shareholder approval, then no such approval would generally be required. However, if a plan contains a formula for automatic increases in the shares available (sometimes called an "evergreen formula"), or for automatic grants pursuant to a dollar-based formula (such as annual grants based on a certain dollar value, or matching contributions based upon the amount of compensation the participant elects to defer), such plans cannot have a term in excess of ten years unless shareholder approval is obtained every ten years. However, plans that do not contain a formula and do not impose a limit on the number of shares available

for grant would require shareholder approval of each grant under the plan. A requirement that grants be made out of treasury shares or repurchased shares will not alleviate these additional shareholder approval requirements.

As a general matter, when preparing plans and presenting them for shareholder approval, Companies should strive to make plan terms easy to understand. In that regard, it is recommended that plans meant to permit repricing use explicit terminology to make this clear.

IEX Rule 14.412(c) provides an exception to the requirement for shareholder approval for warrants or rights offered generally to all Shareholders. In addition, an exception is provided for tax qualified, non-discriminatory employee benefit plans as well as parallel nonqualified plans as these plans are regulated under the Internal Revenue Code and Treasury Department regulations. An equity compensation plan that provides non-U.S. employees with substantially the same benefits as a comparable tax qualified, non-discriminatory employee benefit plan or parallel nonqualified plan that the Company provides to its U.S. employees, but for features necessary to comply with applicable foreign tax law, is also exempt from shareholder approval under this section.

Further, the rule provides an exception for inducement grants to new employees because in these cases a Company has an arm's length relationship with the new employees. Inducement grants for these purposes include grants of options or stock to new employees in connection with a merger or acquisition. The rule requires that such issuances be approved by the Company's independent compensation committee or a majority of the Company's Independent Directors. The rule further requires that promptly following an issuance of any employment inducement grant in reliance on this exception, a Company must disclose in a press release the material terms of the grant, including the recipient(s) of the grant and the number of shares involved.

In addition, plans or arrangements involving a merger or acquisition do not require shareholder approval in two situations. First, shareholder approval will not be required to convert, replace or adjust outstanding options or other equity compensation awards to reflect the transaction. Second, shares available under certain plans acquired in acquisitions and mergers may be used for certain post-transaction grants without further shareholder approval. This exception applies to situations where the party which is not a listed company following the transaction has shares available for grant under pre-existing plans that meet the requirements of this IEX Rule 14.412(c). These shares may be used for post-transaction grants of options and other equity awards by the listed Company (after appropriate adjustment of the number of shares to reflect the transaction), either under the pre-existing plan or arrangement or another plan or arrangement, without further shareholder approval, provided: (1) the time during which those shares are available for grants is not extended beyond the period when they would have been available under the pre-existing plan, absent the transaction, and (2) such options and other awards are not granted to individuals who were employed by the granting company or its subsidiaries at the time the merger or acquisition was consummated. IEX would view a plan or arrangement adopted in contemplation of the merger or acquisition transaction as not pre-existing for purposes of this exception. This exception is appropriate because it will not result in any increase in the aggregate potential dilution of the combined enterprise. In this regard, any additional shares available for issuance under a plan or arrangement acquired in connection with a merger or acquisition would be counted by IEX in determining whether the transaction involved the issuance of 20% or more of the Company's outstanding common stock, thus triggering the shareholder approval requirements under IEX Rule 14.412(a).

Inducement grants, tax qualified non-discriminatory benefit plans, and parallel nonqualified plans are subject to approval by either the Company's independent compensation committee or a majority of the Company's Independent Directors. It should also be noted that a Company would not be permitted to use repurchased shares to fund option plans or grants without prior shareholder approval.

For purposes of IEX Rule 14.412(c) and Supplementary Material .01, the term "parallel nonqualified plan" means a plan that is a "pension plan" within the meaning of the Employee Retirement Income Security Act ("ERISA"), 29 U.S.C. §1002 (1999), that is designed to work in parallel with a plan intended to be qualified under Internal Revenue Code Section 401(a), to provide benefits that exceed the limits set forth in Internal Revenue Code Section 402(g) (the section that limits an employee's annual pre-tax contributions to a 401(k) plan), Internal Revenue Code Section 401(a)(17) (the section that limits the amount of an employee's compensation that can be taken into account for plan purposes) and/or Internal Revenue Code Section 415 (the section that limits the contributions and benefits under qualified plans) and/or any successor or similar limitations that may thereafter be enacted. However, a plan will not be considered a parallel nonqualified plan unless: (i) it covers all or substantially all employees of an employer who are participants in the related qualified plan whose annual compensation is in excess of the limit of Code Section 401(a)(17) (or any successor or similar limitation that may hereafter be enacted); (ii) its terms are substantially the same as the qualified plan that it parallels except for the elimination of the limitations described in the preceding sentence; and, (iii) no participant receives employer equity contributions under the plan in excess of 25% of the participant's cash compensation.

(d) Private Placements

Shareholder approval is required prior to the issuance of securities in connection with a transaction other than a public offering involving:

- (1) the sale, issuance or potential issuance by the Company of common stock (or securities convertible into or exercisable for common stock) at a price less than the greater of book or market value which together with sales by officers, directors or Substantial Shareholders of the Company equals 20% or more of common stock or 20% or more of the voting power outstanding before the issuance; or
- (2) the sale, issuance or potential issuance by the Company of common stock (or securities convertible into or exercisable common stock) equal to 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock.

.02 Interpretative Material Regarding the Use of Share Caps to Comply with Rule 14.412

IEX Rule 14.412 limits the number of shares or voting power that can be issued or granted without shareholder approval prior to the issuance of certain securities. (An exception to this IEX Rule is available to Companies when the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise as set forth in IEX Rule 14.412(f). However, a share cap is not permissible in conjunction with the financial viability exception provided in IEX Rule 14.412(f), because the application to the Exchange and the notice to Shareholders required in the rule must occur prior to the issuance of any common stock or securities convertible into or exercisable for common stock.) Generally, this limitation applies to issuances of 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance. (While the Exchange notes that this issue is generally implicated with respect to these situations, it may also arise with respect to the 5% threshold set forth in IEX Rule 14.412(a)(2)). Companies sometimes comply with the 20% limitation by placing a “cap” on the number of shares that can be issued in the transaction, such that there cannot, under any circumstances, be an issuance of 20% or more of the common stock or voting power previously outstanding without prior shareholder approval. If a Company determines to defer a shareholder vote in this manner, shares that are issuable under the cap (in the first part of the transaction) must not be entitled to vote to approve the remainder of the transaction. In addition, a cap must apply for the life of the transaction, unless shareholder approval is obtained. For example, caps that no longer apply if a Company is not listed on the Exchange are not permissible under the Rule. Of course, if shareholder approval is not obtained, then the investor will not be able to acquire 20% or more of the common stock or voting power outstanding before the transaction and would continue to hold the balance of the original security in its unconverted form.

Companies have also attempted to cap the issuance of shares at below 20% but have also provided an alternative outcome based upon whether shareholder approval is obtained, including, but not limited to a “penalty” or a “sweetener.” Instead, if the terms of a transaction can change based upon the outcome of the shareholder vote, no common shares may be issued prior to the approval of the Shareholders. Companies that engage in transactions with defective caps may be subject to delisting. For example, a Company issues a convertible preferred stock or debt instrument that provides for conversions of up to 20% of the total shares outstanding with any further conversions subject to shareholder approval. However, the terms of the instrument provide that if Shareholders reject the transaction, the coupon or conversion ratio will increase or the Company will be penalized by a specified monetary payment, including a rescission of the transaction. Likewise, a transaction may provide for improved terms if shareholder approval is obtained. The Exchange believes that in such situations the cap is defective because the presence of the alternative outcome has a coercive effect on the shareholder vote, and thus may deprive Shareholders of their ability to freely exercise their vote. Accordingly, the Exchange will not accept a cap that defers the need for shareholder approval in such situations.

Companies having questions regarding this policy are encouraged to contact IEX Regulation, which will provide a written interpretation of the application of IEX Rules to a specific transaction, upon prior written request of the Company.

.03 Definition of a Public Offering

IEX Rule 14.412(d) provides that shareholder approval is required for the issuance of common stock (or securities convertible into or exercisable for common stock) equal to 20 percent or more of the common stock or 20 percent or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock. Under this IEX Rule, however, shareholder approval is not required for a “public offering.”

Companies are encouraged to consult with IEX Regulation in order to determine if a particular offering is a “public offering” for purposes of the shareholder approval rules. Generally, a firm commitment underwritten securities offering registered with the Securities and Exchange Commission will be considered a public offering for these purposes. Likewise, any other securities offering which is registered with the Securities and Exchange Commission and which is publicly disclosed and distributed in the same general manner and extent as a firm commitment underwritten securities offering will be considered a public offering for purposes of the shareholder approval rules. However, the Exchange staff will not treat an offering as a “public offering” for purposes of the shareholder approval rules merely because they are registered with the Commission prior to the closing of the transaction.

When determining whether an offering is a “public offering” for purposes of these rules, IEX Regulation will consider all relevant factors, including but not limited to:

- (a) the type of offering (including whether the offering is conducted by an underwriter on a firm commitment basis, or an underwriter or placement agent on a best-efforts basis, or whether the offering is self-directed by the Company);*
- (b) the manner in which the offering is marketed (including the number of investors offered securities, how those investors were chosen, and the breadth of the marketing effort);*
- (c) the extent of the offering’s distribution (including the number and identity of the investors who participate in the offering and whether any prior relationship existed between the Company and those investors);*
- (d) the offering price (including the extent of any discount to the market price of the securities offered); and*
- (e) the extent to which the Company controls the offering and its distribution.*

(e) Definitions and Computations Relating to the Shareholder Approval Requirements

- (1) For purposes of making any computation in this paragraph, when determining the number of shares issuable in a transaction, all shares that could be issued are included, regardless of whether they are currently treasury shares. When determining the number of shares outstanding, only shares issued and outstanding are considered. Treasury shares, shares held by a subsidiary, and unissued shares reserved for issuance upon conversion of securities or upon exercise of options or warrants are not considered outstanding.
- (2) Voting power outstanding as used in this IEX Rule refers to the aggregate number of votes which may be cast by holders of those securities outstanding which entitle the holders thereof to vote generally on all matters submitted to the Company’s security holders for a vote.
- (3) An interest consisting of less than either 5% of the number of shares of common stock or 5% of the voting power outstanding of a Company or party shall not be considered a substantial interest or cause the holder of such an interest to be regarded as a “Substantial Shareholder.”
- (4) Where shareholder approval is required, the minimum vote that will constitute shareholder approval shall be a majority of the total votes cast on the proposal. These votes may be cast in person, by proxy at a meeting of Shareholders or by written consent in lieu of a special meeting to the extent permitted by applicable state and federal law and rules (including interpretations thereof), including, without limitation, Regulations 14A and 14C under the Act. Nothing contained in this IEX Rule 14.412(e)(4) shall affect a Company’s obligation to hold an annual meeting of Shareholders as required by IEX Rule 14.408.

- (5) Shareholder approval shall not be required for any share issuance if such issuance is part of a court-approved reorganization under the federal bankruptcy laws or comparable foreign laws.

(f) Financial Viability Exception

An exception applicable to a specified issuance of securities may be made upon prior written application to IEX Regulation when:

- (1) the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise; and
- (2) reliance by the Company on this exception is expressly approved by the audit committee or a comparable body of the board of directors comprised solely of independent, disinterested directors. IEX Regulation shall respond to each application for such an exception in writing.

A Company that receives such an exception must mail to all Shareholders not later than ten days before issuance of the securities a letter alerting them to its omission to seek the shareholder approval that would otherwise be required. Such notification shall disclose the terms of the transaction (including the number of shares of common stock that could be issued and the consideration received), the fact that the Company is relying on a financial viability exception to the stockholder approval rules, and that the audit committee or a comparable body of the board of directors comprised solely of independent, disinterested directors has expressly approved reliance on the exception. The Company shall also make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the same information as promptly as possible, but no later than ten days before the issuance of the securities.

.04 Interpretive Material Regarding Future Priced Securities and Other Securities with Variable Conversion Terms

Summary

Provisions of this Supplementary Material .04 would apply to any security with variable conversion terms. For example, Future Priced Securities are private financing instruments which were created as an alternative means of quickly raising capital for Companies. The security is generally structured in the form of a convertible security and is often issued via a private placement. Companies will typically receive all capital proceeds at the closing. The conversion price of the Future Priced Security is generally linked to a percentage discount to the market price of the underlying common stock at the time of conversion and accordingly the conversion rate for Future Priced Securities floats with the market price of the common stock. As such, the lower the price of the Company's common stock at the time of conversion, the more shares into which the Future Priced Security is convertible. The delay in setting the conversion price is appealing to Companies who believe that their stock will achieve greater value after the financing is received. However, the issuance of Future Priced Securities may be followed by a decline in the common stock price, creating additional dilution to the existing holders of the common stock. Such a price decline allows holders to convert the Future Priced Security into large amounts of the Company's common stock. As these shares are issued upon conversion of the Future Priced Security, the common stock price may tend to decline further.

For example, a Company may issue \$10 million of convertible preferred stock (the Future Priced Security), which is convertible by the holder or holders into \$10 million of common stock based on a conversion price of 80% of the closing price of the common stock on the date of conversion. If the closing price is \$5 on the date of conversion, the Future Priced Security holders would receive 2,500,000 shares of common stock. If, on the other hand, the closing price is \$1 on the date of conversion, the Future Priced Security holders would receive 12,500,000 shares of common stock.

Unless the Company carefully considers the terms of the securities in connection with several IEX Rules, the issuance of Future Priced Securities could result in a failure to comply with the Exchange listing standards and the concomitant delisting of the Company's

securities from the Exchange. The Exchange understands that Companies do not always appreciate this potential consequence. The IEX Rules that bear upon the continued listing qualification of a Company and that must be considered when issuing Future Priced Securities include:

- (a) the shareholder approval rules [see IEX Rule 14.412]
- (b) the voting rights rules [see IEX Rule 14.413]
- (c) the bid price requirement [see IEX Rule 14.320(a)(1)]
- (d) the listing of additional shares rules [see IEX Rule 14.207(e)(2)]
- (e) the change in control rules [see IEX Rules 14.102 and 14.412(b)]
- (f) the Exchange's discretionary authority rules [see IEX Rule Series 14.100]

It is important for Companies to clearly understand that failure to comply with any of these rules could result in the delisting of the Company's securities.

This notice is intended to be of assistance to Companies considering financings involving Future Priced Securities. By adhering to the above requirements, Companies can avoid unintended listing qualifications problems. Companies having any questions about this notice should contact IEX Regulation. The Exchange will provide a Company with a written interpretation of the application of the IEX Rules to a specific transaction, upon request of the Company.

How the Rules Apply

Shareholder Approval

IEX Rule 14.412(d) provides, in part: Each Company shall require shareholder approval prior to the issuance of securities in connection with a transaction other than a public offering involving the sale, issuance or potential issuance by the issuer of common stock (or securities convertible into or exercisable for common stock) at a price less than the greater of book or market value which together with sales by officers, directors or Substantial Shareholders of the Company equals 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance.

(The Exchange may make exceptions to this requirement when the delay in securing stockholder approval would seriously jeopardize the financial viability of the enterprise and reliance by the Company on this exception is expressly approved by the Audit Committee or a comparable body of the Board of Directors.)

When the Exchange staff is unable to determine the number of shares to be issued in a transaction, it looks to the maximum potential issuance of shares to determine whether there will be an issuance of 20 percent or more of the common stock outstanding. In the case of Future Priced Securities, the actual conversion price is dependent on the market price at the time of conversion and so the number of shares that will be issued is uncertain until the conversion occurs. Accordingly, staff will look to the maximum potential issuance of common shares at the time the Future Priced Security is issued. Typically, with a Future Priced Security, the maximum potential issuance will exceed 20 percent of the common stock outstanding because the Future Priced Security could, potentially, be converted into common stock based on a share price of one cent per share, or less. Further, for purposes of this calculation, the lowest possible conversion price is below the book or market value of the stock at the time of issuance of the Future Priced Security. Therefore, shareholder approval must be obtained prior to the issuance of the Future Priced Security. Companies should also be cautioned that obtaining shareholder ratification of the transaction after the issuance of a Future Priced Security does not satisfy the shareholder approval requirements.

Some Future Priced Securities may contain features to obviate the need for shareholder approval by: (1) placing a cap on the number of shares that can be issued upon conversion, such that the holders of the Future Priced Security cannot, without prior shareholder approval, convert the security into 20% or more of the common stock or voting power outstanding before the issuance of the Future Priced Security (See Supplementary Material .02 to IEX Rule 14.412, Interpretative Material Regarding the Use of Share Caps to Comply with IEX Rule 14.412), or (2) placing a floor on the conversion price, such that the conversion price will always be at least as high as the greater of book or market value of the common stock prior to the issuance of the Future Priced Securities. Even when a Future Priced Security contains these features, however, shareholder approval is still required under IEX Rule 14.412(b) if the issuance will

result in a change of control. Additionally, discounted issuances of common stock to officers, directors, employees or consultants require shareholder approval pursuant to IEX Rule 14.412(c).

Voting Rights

IEX Rule 14.413 provides:

Voting rights of existing Shareholders of publicly traded common stock registered under Section 12 of the Act cannot be disparately reduced or restricted through any corporate action or issuance.

Supplementary Material .01 to IEX Rule 14.413 also provides rules relating to voting rights of the Exchange Companies.

Under the voting rights rules, a Company cannot create a new class of security that votes at a higher rate than an existing class of securities or take any other action that has the effect of restricting or reducing the voting rights of an existing class of securities. The voting rights rules are typically implicated when the holders of the Future Priced Security are entitled to vote on an as-converted basis or when the holders of the Future Priced Security are entitled to representation on the Board of Directors. The percentage of the overall vote attributable to the Future Priced Security holders and the Future Priced Security holders' representation on the board of directors must not exceed their relative contribution to the Company based on the Company's overall book or market value at the time of the issuance of the Future Priced Security. Staff will consider whether a voting rights violation exists by comparing the Future Priced Security holders' voting rights to their relative contribution to the Company based on the Company's overall book or market value at the time of the issuance of the Future Priced Security. If the voting power or the board percentage exceeds that percentage interest, a violation exists because a new class of securities has been created that votes at a higher rate than an already existing class. Future Priced Securities that vote on an as-converted basis also raise voting rights concerns because of the possibility that, due to a decline in the price of the underlying common stock, the Future Priced Security holder will have voting rights disproportionate to its investment in the Company.

It is important to note that compliance with the shareholder approval rules prior to the issuance of a Future Priced Security does not affect whether the transaction is in violation of the voting rights rule. Furthermore, Shareholders can not otherwise agree to permit a voting rights violation by the Company. Because a violation of the voting rights requirement can result in delisting of the Company's securities from the Exchange, careful attention must be given to this issue to prevent a violation of the rule.

The Bid Price Requirement

The bid price requirement establishes a minimum bid price for issues listed on the Exchange. The IEX Rules provide that, for an issue to be eligible for continued listing on the Exchange, the minimum bid price per share shall be \$1. An issue is subject to delisting from the Exchange, as described in IEX Rule Series 14.500 if its bid price falls below \$1.

The bid price rules must be thoroughly considered because the characteristics of Future Priced Securities often exert downward pressure on the price of the Company's common stock. Specifically, dilution from the discounted conversion of the Future Priced Security may result in a significant decline in the price of the common stock. Furthermore, there appear to be instances where short selling has contributed to a substantial price decline, which, in turn, could lead to a failure to comply with the bid price requirement. (If used to manipulate the price of the stock, short selling by the holders of the Future Priced Security is prohibited by the antifraud provisions of the securities laws and by the IEX Rules and may be prohibited by the terms of the placement.)

Listing of Additional Shares

IEX Rule 14.207(e)(2) provides:

The Company shall be required to notify the Exchange on the appropriate form no later than 15 calendar days prior to: establishing or materially amending a stock option plan, purchase plan or other equity compensation arrangement pursuant to which stock may be acquired by officers, directors, employees, or consultants without shareholder approval; issuing securities that may potentially result in a change of control of the Company; issuing any common stock or security convertible into common stock in connection with the acquisition of the stock or assets of another company, if any officer or director or Substantial Shareholder of the Company has a 5% or greater interest (or if such persons collectively have a 10% or greater interest) in the Company to be acquired or in the consideration to be paid; or entering into a transaction that may result in the potential issuance of common stock (or securities convertible into common stock) greater than 10% of either the total shares outstanding or the voting power outstanding on a pre-transaction basis.

Companies should be cognizant that under this IEX Rule notification is required at least 15 days prior to issuing any security (including a Future Priced Security) convertible into shares of a class of securities already listed on the Exchange. Failure to provide such notice can result in a Company's removal from the Exchange.

Public Interest Concerns

IEX Rule 14.101 provides:

The Exchange is entrusted with the authority to preserve and strengthen the quality of and public confidence in its market. The Exchange stands for integrity and ethical business practices in order to enhance investor confidence, thereby contributing to the financial health of the economy and supporting the capital formation process. The Exchange Companies, from new public Companies to Companies of international stature, are publicly recognized as sharing these important objectives.

The Exchange, therefore, in addition to applying the enumerated criteria set forth in the Listing Rules, has broad discretionary authority over the initial and continued listing of securities in the Exchange in order to maintain the quality, transparency and integrity of and public confidence in its market; to prevent fraudulent and manipulative acts and practices; to promote just and equitable principles of trade; and to protect investors and the public interest; and to protect the safety and security of the Exchange and its employees. The Exchange may use such discretion to deny initial listing, apply additional or more stringent criteria for the initial or continued listing of particular securities, or suspend or delist particular securities based on any event, condition, or circumstance that exists or occurs that makes initial or continued listing of the securities on the Exchange inadvisable or unwarranted in the opinion of the Exchange, even though the securities meet all enumerated criteria for initial or continued listing on the Exchange.

The returns on Future Priced Securities may become excessive compared with those of public investors in the Company's common securities. In egregious situations, the use of a Future Priced Security may raise public interest concerns under IEX Rule 14.101. In addition to the demonstrable business purpose of the transaction, other factors that the Exchange staff will consider in determining whether a transaction raises public interest concerns include: (1) the amount raised in the transaction relative to the Company's existing capital structure; (2) the dilutive effect of the transaction on the existing holders of common stock; (3) the risk undertaken by the Future Priced Security investor; (4) the relationship between the Future Priced Security investor and the Company; (5) whether the transaction was preceded by other similar transactions; and (6) whether the transaction is consistent with the just and equitable principles of trade.

Some Future Priced Securities may contain features that address the public interest concerns. These features tend to provide incentives to the investor to hold the security for a longer time period and limit the number of shares into which the Future Priced Security may be converted.

Such features may limit the dilutive effect of the transaction and increase the risk undertaken by the Future Priced Security investor in relationship to the reward available.

Business Combinations with non-IEX Entities Resulting in a Change of Control

IEX Rule 14.102(a) provides:

A Company must apply for initial listing in connection with a transaction whereby the Company combines with, or into, an entity that is not an IEX Company, resulting in a change of control of the Company and potentially allowing such entity to obtain an Exchange Listing. In determining whether a change of control has occurred, the Exchange shall consider all relevant factors including, but not limited to, changes in the management, board of directors, voting power, ownership, and financial structure of the Company. The Exchange shall also consider the nature of the businesses and the relative size of the IEX Company and entity that is not an IEX Company. The Company must submit an application for the post-transaction entity with sufficient time to allow the Exchange to complete its review before the transaction is completed. If the Company's application for initial listing has not been approved prior to consummation of the transaction, the Exchange will issue a Staff Determination Letter as set forth in IEX Rule 14.501 and begin delisting proceedings pursuant to IEX Rule 14.500.

This provision, which applies regardless of whether the Company obtains shareholder approval for the transaction, requires Companies to qualify under the initial listing standards in connection with a combination that results in a change of control. It is important for Companies to realize that in certain instances, the conversion of a Future Priced Security may implicate this provision. For example, if there is no limit on the number of common shares issuable upon conversion, or if the limit is set high enough, the

exercise of conversion rights under a Future Priced Security could result in the holders of the Future Priced Securities obtaining control of the listed Company. In such event, a Company may be required to re-apply for initial listing and satisfy all initial listing requirements.

Rule 14.413. Voting Rights

Voting rights of existing Shareholders of publicly traded common stock registered under Section 12 of the Act cannot be disparately reduced or restricted through any corporate action or issuance. Examples of such corporate action or issuance include, but are not limited to, the adoption of time-phased voting plans, the adoption of capped voting rights plans, the issuance of super-voting stock, or the issuance of stock with voting rights less than the per share voting rights of the existing common stock through an exchange offer.

• • • **Supplementary Material** • • •

.01 Voting Rights Policy

The following Voting Rights Policy is based upon, but more flexible than, former Rule 19c-4 under the Act. Accordingly, the Exchange will permit corporate actions or issuances by the Exchange Companies that would have been permitted under former Rule 19c-4, as well as other actions or issuances that are not inconsistent with this policy. In evaluating such other actions or issuances, the Exchange will consider, among other things, the economics of such actions or issuances and the voting rights being granted. The Exchange's interpretations under the policy will be flexible, recognizing that both the capital markets and the circumstances and needs of the Exchange Companies change over time. The text of the Exchange Voting Rights Policy is as follows:

Companies with Dual Class Structures.

The restriction against the issuance of super voting stock is primarily intended to apply to the issuance of a new class of stock, and Companies with existing dual class capital structures would generally be permitted to issue additional shares of the existing super voting stock without conflict with this policy.

Consultation with the Exchange.

Violation of the Exchange Voting Rights Policy could result in the loss of a Company's Exchange or public trading market. The policy can apply to a variety of corporate actions and securities issuances, not just super voting or so-called "time phase" voting common stock. While the policy will continue to permit actions previously permitted under former Rule 19c-4, it is extremely important that the IEX Companies communicate their intentions to their Exchange representatives as early as possible before taking any action or committing to take any action that may be inconsistent with the policy. The Exchange urges Companies listed on the Exchange not to assume, without first discussing the matter with the Exchange staff, that a particular issuance of common or preferred stock or the taking of some other corporate action will necessarily be consistent with the policy. It is suggested that copies of preliminary proxy or other material concerning matters subject to the policy be furnished to the Exchange for review prior to formal filing.

Review of Past Voting Rights Activities.

In reviewing an application for initial qualification for listing of a security in the Exchange, the Exchange will review the Company's past corporate actions to determine whether another self-regulatory organization (SRO) has found any of the Company's actions to have been a violation or evasion of the SRO's voting rights policy. Based on such review, the Exchange may take any appropriate action, including the denial of the application or the placing of restrictions on such listing. The Exchange will also review whether a Company seeking initial listing of a security in the Exchange has requested a ruling or interpretation from another SRO regarding the application of that SRO's voting rights policy with respect to a proposed transaction. If so, the Exchange will consider that fact in determining its response to any ruling or interpretation that the Company may request on the same or similar transaction.

Non-U.S. Companies.

The Exchange will accept any action or issuance relating to the voting rights structure of a non-U.S. Company that is in compliance with the Exchange's requirements for domestic Companies or that is not prohibited by the Company's home country law.

Rule 14.414. Internal Audit Function

(a) Each Company must establish and maintain an internal audit function to provide management and the audit committee with ongoing assessments of the Company's risk management process and system of internal control. The Company may choose to outsource this function to a third party service provider other than its independent auditor. The audit committee must meet periodically with the internal auditors (or other personnel responsible for this function) and assist the Board in its oversight of the performance of this function. The audit committee should also discuss with the outside auditor the responsibilities, budget and staffing of the internal audit function.

(b) Transition Periods

- (1) A Company listing in conjunction with its initial public offering or a spin-off transaction must comply with the requirements of IEX Rule 14.414(a) within one year of the listing date.
- (2) A Company previously registered pursuant to Section 12(b) of the Exchange Act must satisfy the requirements of IEX Rule 14.414(a) within one year of the listing date to the extent the national securities exchange on which it was listed did not have the same requirement. If the other exchange had a substantially similar requirement and the company was afforded a transition period that had not expired, the company will have the same transition period as would have been available to it on the other exchange.

Rule 14.500. Failure to Meet Listing Standards

(a) Securities of a Company that does not meet the listing standards set forth in Chapter 14 are subject to delisting from the Exchange. This Section sets forth procedures for the independent review, suspension, and delisting of Companies that fail to satisfy one or more standards for continued listing and thus are "deficient" with respect to the listing standards.

IEX Regulation is responsible for identifying deficiencies that may lead to delisting; notifying the Company of the deficiency; and issuing Staff Delisting Determinations and Public Reprimand Letters. Rule 14.501 contains provisions regarding IEX Regulation's process for notifying Companies of different types of deficiencies and their corresponding consequences.

The Listings Review Committee, upon timely request by a Company, will review a Staff Delisting Determination or Public Reprimand Letter at an oral or written hearing, and issue a Decision that may, among other things, grant an "exception" to the Exchange's listing standards or affirm a delisting. Rule 14.502 contains provisions relating to the hearings process.

Procedures related to SEC notification of the Exchange's final Delisting Determinations are discussed in IEX Rule 14.503. Rules applicable to the Listings Review Committee and Advisors are provided in IEX Rule 14.504 and general information relating to the adjudicatory process is provided in IEX Rule 14.505.

A Company's failure to maintain compliance with the applicable provisions of Chapter 14 will result in the termination of the listing unless an exception is granted to the Company, as described below. The termination of the Company's listing will become effective in accordance with the procedures set forth herein, including IEX Rule 14.503.

(b) Definitions

- (1) “Advisor” means an individual employed by the Exchange who is advising the Listings Review Committee with respect to a proceeding under this section.
- (2) “Decision” means a written decision of an Adjudicatory Body.
- (3) “IEX Regulation” is the department of the Exchange responsible for evaluating Company compliance with quantitative and qualitative listing standards and determining eligibility for initial and continued listing of a Company’s securities.
- (4) The “Listings Review Committee” is the committee designated by the Exchange’s Board of Directors to review Company appeals of Staff Delisting Determinations and Public Reprimand Letters. The Listings Review Committee shall be composed of at least five members. Any action by the Listings Review Committee shall require a quorum, which shall be at least three members.
- (5) “Public Reprimand Letter” means a letter issued by Staff or a Decision of the Listings Review Committee in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of the Act) and Staff or the Listings Review Committee determines that delisting is an inappropriate sanction. In determining whether to issue a Public Reprimand Letter, Staff or the Listings Review Committee will consider whether the violation was inadvertent, whether the violation materially adversely affected shareholders’ interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations.
- (6) “Staff” refers to employees of IEX Regulation.
- (7) “Staff Delisting Determination” or “Delisting Determination” is a written determination by IEX Regulation to delist a listed Company’s securities for failure to meet a continued listing standard.

Rule 14.501. Notification of Deficiency by IEX Regulation

- (a) When IEX Regulation determines that a Company does not meet a listing standard set forth in Chapter 14, it will immediately notify the Company of the deficiency. As explained in more detail below, deficiency notifications are of four types:
- (1) Staff Delisting Determinations, which are notifications of deficiencies that, unless appealed, subject the Company to immediate suspension and delisting;
 - (2) notifications of deficiencies for which a Company may submit a plan of compliance for staff review;
 - (3) notifications of deficiencies for which a Company is entitled to an automatic cure or compliance period; and
 - (4) Public Reprimand Letters.

Notifications of deficiencies that allow for submission of a compliance plan or an automatic cure or compliance period may result, after review of the compliance plan or expiration of the cure or compliance period, in issuance of a Staff Delisting Determination or a Public Reprimand Letter.

(b) Information Contained in Deficiency Notification and Delisting Determination

Deficiency notifications and Delisting Determinations will:

- (1) inform the Company of the factual bases for Staff's determination of deficiency or delisting, and the quantitative or qualitative standard the Company has failed to satisfy;
- (2) provide the Company with instructions regarding its obligations to disclose the deficiency under Exchange Listing Rules; and
- (3) inform the Company:
 - (A) in the case of a Staff Delisting Determination, that the Company's securities will be suspended as of a date certain; the Company has a right to request review of the Delisting Determination by the Listings Review Committee; and that a request for review within seven days (as set forth in IEX Rule 14.502(a)(1)) will stay the suspension;
 - (B) in the case of a deficiency for which the Company may submit a plan of compliance for review by Staff, the deadline by which a plan must be submitted;
 - (C) in the case of a deficiency for which the Company is entitled to an automatic cure or compliance period, the expiration date of the cure or compliance period; and
 - (D) in the case of a Public Reprimand Letter, an explanation of why Staff concluded the letter is appropriate and the Company's right to request review of the Letter by Listings Review Committee.

(c) Company Disclosure Obligations

A Company that receives a notification of deficiency, Staff Delisting Determination, or Public Reprimand Letter is required to make a public announcement disclosing receipt of the notification and the Rule(s) upon which the deficiency is based. A Company that receives a notification of deficiency or Staff Delisting Determination related to the requirement to file a periodic report contained in IEX Rule 14.207(c)(1) or (2) is required to make the public announcement by issuing a press release disclosing receipt of the notification and the Rule(s) upon which the deficiency is based, in addition to filing any Form 8-K required by SEC rules. In all other cases, the Company may make the public announcement either by filing a Form 8-K, where required by SEC rules, or by issuing a press release. As described in IEX Rule 14.207(b)(1) and Supplementary Material .01 to IEX Rule 14.207 (Disclosure of Material Information), the Company must notify IEX Regulation about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation at least ten minutes prior to the announcement. If the public announcement is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation of the announcement at least 10 minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). The Company should make the public announcement as promptly as possible but not more than four business days following receipt of the notification.

.01 Disclosure of Written Notice of Staff Determination

IEX Rule 14.501(c) requires that a Company make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the receipt of (i) a notice that the Company does not meet a listing standard set forth in Chapter 14, (ii) a Staff Delisting Determination to limit or prohibit continued listing of the Company's securities under IEX Rule 14.501 as a result of the Company's failure to comply with the continued listing requirements, or (iii) a Public Reprimand Letter; provided, however, that if the notification relates to a failure to meet the requirements of IEX Rules 14.207(c)(1) or (2), the Company must make

the public announcement by issuing a press release. Such public announcement shall be made as promptly as possible, but not more than four business days following the receipt of the notification, Staff Delisting Determination, or Public Reprimand Letter, as applicable. In addition to containing all disclosure required by Form 8-K, if applicable, the public announcement must describe each specific basis and concern identified by IEX Regulation in its determination that the Company does not meet the listing standard and identify the Rules upon which the deficiency is based. For example, if the IEX Regulation determines to delist a Company based on its discretionary authority under IEX Rule 14.101, the Company must include in its public announcement the specific concerns cited in the Staff Delisting Determination. In addition, a Company may provide its own analysis of the issues raised in the Staff Delisting Determination.

If the public announcement is not made by the Company within the time allotted or does not include all of the required information, trading of its securities shall be halted (if not already halted), even if the Company appeals the Staff Delisting Determination or Public Reprimand Letter as set forth in IEX Rule 14.502, and IEX Regulation may make a public announcement with the required information. If the company's failure to make this public announcement is the only basis for a trading halt, IEX would ordinarily resume trading if IEX Regulation makes the public announcement. If the Company fails to make the public announcement by the time that the Hearings Panel issues its Decision, that Decision will also determine whether to delist the Company's securities for failure to make the public announcement.

IEX Rule 14.501(c) does not relieve a Company of its disclosure obligation under the federal securities laws, nor should it be construed as providing a safe harbor under the federal securities laws. It is suggested that the Company consult with corporate/securities counsel in assessing its disclosure obligations under the federal securities laws.

(d) Types of Deficiencies and Notifications

The type of deficiency at issue determines whether the Company will be immediately suspended and delisted, or whether it may submit a compliance plan for review or is entitled to an automatic cure or compliance period before a Staff Delisting Determination is issued. In the case of a deficiency not specified below, Staff will issue the Company a Staff Delisting Determination or a Public Reprimand Letter.

(1) Deficiencies that Immediately Result in a Staff Delisting Determination.

Staff's notice will inform the Company that its securities are immediately subject to suspension and delisting when:

- (A) a Company fails to timely solicit proxies and hold its annual shareholders' meeting; or
- (B) Staff has determined, under its discretionary authority in IEX Rule 14.101, that the Company's continued listing raises a public interest concern.

(2) Deficiencies for which a Company may Submit a Plan of Compliance for Staff Review.

- (A) Submission of Plan of Compliance. Unless the Company is currently under review by the Listings Review Committee for a Staff Delisting Determination, IEX Regulation may accept and review a plan to regain compliance when a Company is deficient with respect to one of the standards listed in subsections (i) through (iv) below. In accordance with Rule 14.501(d)(2)(C), plans provided pursuant to subsections (i) through (iii) below must be provided generally within 45 calendar days, and in accordance with Rule 14.501(d)(2)(F), plans provided pursuant to subsection (iv) must be provided generally within 60 calendar days.
 - (i) all quantitative deficiencies from standards that do not provide a compliance period;

- (ii) deficiencies from the standards of IEX Rules 14.405 (Board of Directors and Committees) or 14.407(a)(4)(C) (Independent Directors/Audit Committee of Limited Partnerships) where the cure period of the Rule is not applicable;
 - (iii) deficiencies from the standards of IEX Rules 14.408((c) {Quorum}, 14.411{Review of Related Party Transactions}, 14.412 {Shareholder Approval}, 14.207(c)(3) {Auditor Registration}, 14.208(a) {Direct Registration Program}, 14.406 {Code of Conduct}, 14.407(a)(4)(E) {Quorum of Limited Partnerships}, 14.407(a)(4)(G) {Related Party Transactions of Limited Partnerships}, 14.413 {Voting Rights}, or 14.414 {Internal Audit Function}; or
 - (iv) failure to file periodic reports as required by IEX Rule 14.207(c)(1) or (2).
- (B) Staff Alternatives Upon Review of Plan. Staff may request such additional information from the Company as is necessary to make a determination, as described below. In cases other than filing delinquencies, which are governed by IEX Rule 14.501(d)(2)(F) below, upon review of a plan of compliance, Staff may either:
- (i) grant an extension of time to regain compliance not greater than 180 calendar days from the date of Staff's initial notification, unless the Company is currently under review by the Listings Review Committee for a Staff Delisting Determination. If Staff grants an extension, it will inform the Company in writing of the basis for granting the extension and the terms of the extension;
 - (ii) issue a Staff Delisting Determination letter that includes a description of the basis for denying the extension; or
 - (iii) issue a Public Reprimand Letter, as defined in IEX Rule 14.500(b)(5).
- (C) Timeline for Submission of Compliance Plans. Except for deficiencies from the standards of IEX Rule 14.207(c)(1) or (2), Staff's notification of deficiencies that allow for compliance plan review will inform the Company that it has 45 calendar days to submit a plan to regain compliance with the Exchange's listing standard(s). Staff may extend this deadline for up to an additional 5 calendar days upon good cause shown and may request such additional information from the Company as is necessary to make a determination regarding whether to grant such an extension.
- (D) Restrictions on Compliance Plans for Certain Deficiencies. Staff will not accept a plan to achieve compliance with deficiencies in total assets and total revenue, since compliance requires stated levels of assets and revenues during completed fiscal years and therefore can only be demonstrated through audited financial statements. Similarly, a Company may not submit a plan relying on partial-year performance to demonstrate compliance with these standards. A Company may, however, submit a plan that demonstrates current or near-term compliance with the listing requirement relating to stockholders' equity or Market Value of Listed Securities.
- (E) Failure to Meet the Terms of a Staff Extension. If the Company does not regain compliance within the time period provided by all applicable Staff extensions, Staff will immediately issue a Staff Delisting Determination indicating the date on which the Company's securities will be suspended unless it requests review by a Hearings Panel.
- (F) Filing Delinquencies. In the case of deficiencies from the standards of IEX Rule 14.207(c)(1) or (2):
- (i) Staff's notice shall provide the Company with 60 calendar days to submit a plan to regain compliance with the listing standard; provided, however, that the Company shall not be provided with an

opportunity to submit such a plan if review under IEX Rule 14.500 of a prior Staff Delisting Determination with respect to the Company is already pending. Staff may extend this deadline for up to an additional 15 calendar days upon good cause shown and may request such additional information from the Company as is necessary to make a determination regarding whether to grant such an extension.

- (ii) The maximum additional time provided by all exceptions granted by Staff for a deficiency described in paragraph (i) above is 180 calendar days from the due date of the first late periodic report (as extended by Rule 12b-25 under the Act, if applicable). In determining whether to grant an exception, and the length of any such exception, Staff will consider, and the Company should address in its plan of compliance, the Company's specific circumstances, including the likelihood that the filing can be made within the exception period, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. This review will be based on information provided by a variety of sources, which may include the Company, its audit committee, its outside auditors, the staff of the SEC and any other regulatory body.

(3) Deficiencies for which the Rules Provide a Specified Cure or Compliance Period.

With respect to deficiencies related to the standards listed in (A) - (E) below, Staff's notification will inform the Company of the applicable cure or compliance period provided by these Rules and discussed below. If the Company does not regain compliance within the specified cure or compliance period, IEX Regulation will immediately issue a Staff Delisting Determination letter.

- (A) Bid Price Requirement. A failure to meet the continued listing requirement for minimum bid price shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved during any compliance period by meeting the applicable standard for a minimum of 10 consecutive business days during the applicable compliance period, unless Staff exercises its discretion to extend this 10 day period as discussed in IEX Rule 14.501(d)(3)(F).
- (B) Market Makers. A failure to meet the continued listing requirement for a number of Market Makers shall be determined to exist only if the deficiency continues for a period of 10 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 30 calendar days from such notification to achieve compliance. Compliance can be achieved by meeting the applicable standard for a minimum of 10 consecutive business days during the 30 day compliance period.
- (C) Market Value of Listed Securities. A failure to meet the continued listing requirements for Market Value of Listed Securities shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved by meeting the applicable standard for a minimum of 10 consecutive business days during the 180 day compliance period.
- (D) Market Value of Publicly Held Shares. A failure to meet the continued listing requirement for Market Value of Publicly Held Shares shall be determined to exist only if the deficiency continues for a period of 30 consecutive business days. Upon such failure, the Company shall be notified promptly and shall have a period of 180 calendar days from such notification to achieve compliance. Compliance can be achieved

by meeting the applicable standard for a minimum of 10 consecutive business days during the 180 day compliance period.

- (E) Independent Director and Audit Committee Rules. If a Company fails to meet the majority board independence requirement in IEX Rule 14.405(b)(1) due to one vacancy, or because one director ceases to be independent for reasons beyond his/her reasonable control, IEX Regulation will promptly notify the Company and inform it has until the earlier of its next annual shareholders meeting or one year from the event that caused the deficiency to cure the deficiency. However, if the Company's next annual shareholders' meeting is held sooner than 180 days after the event that caused the deficiency, then the Company has 180 days from the event that caused the deficiency to cure it.

If a Company fails to meet the audit committee composition requirements in IEX Rule 14.405(c)(2) because an audit committee member ceases to be independent for reasons outside his/her control, IEX Regulation will promptly notify the Company and inform it that has until the earlier of its next annual shareholders meeting or one year from the occurrence of the event that caused the failure, to cure the deficiency. If the Company fails to meet the audit committee composition requirement due to one vacancy on the audit committee, and the Company is not relying upon a cure period for another member, IEX Regulation will promptly notify the Company and inform it that it has until the earlier of its next annual shareholders meeting or one year from the event that caused the failure to cure the deficiency. However, if the Company's next annual shareholders' meeting is held sooner than 180 days after the event that caused the deficiency, then the Company has 180 days from the event that caused the deficiency to cure it.

- (F) Staff Discretion Relating to the Price-based Requirements.: If a Company fails to meet the Market Value of Listed Securities, Market Value of Publicly Held Shares, or Bid Price requirements, each of which is related to the Company's security price and collectively called the "Price-based Requirements," compliance is generally achieved by meeting the requirement for a minimum of ten consecutive business days. However, Staff may, in its discretion, require a Company to satisfy the applicable Price-based Requirement for a period in excess of ten consecutive business days, but generally no more than 20 consecutive business days, before determining that the Company has demonstrated an ability to maintain long-term compliance. In determining whether to require a Company to meet the applicable Price-based-requirement beyond ten business days, Staff may consider all relevant facts and circumstances, including without limitation:

- (i) the margin of compliance (the amount by which a Company exceeds the applicable Price-based requirement);
- (ii) the trading volume (a lack of trading volume may indicate a lack of bona fide market interest in the security at the posted bid price);
- (iii) the Market Maker quoting activity (the number of Market Makers quoting at or above \$1.00 or the minimum price necessary to satisfy another Price-based Requirement; and the size of their quotes); and
- (iv) the trend of the stock price (is it up or down).

- (4) Public Reprimand Letter.

Staff's notification may be in the form of a Public Reprimand Letter in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of

the Act) and Staff determines that delisting is an inappropriate sanction. In determining whether to issue a public reprimand letter, IEX Regulation will consider whether the violation was inadvertent, whether the violation materially adversely affected shareholders' interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations.

(e) Additional Deficiencies

IEX Regulation continues to evaluate the compliance of Companies while they are under review by the Listings Review Committee and may identify additional deficiencies. Upon identification of an additional deficiency, Staff will issue an additional notification of deficiency to the Company and send a copy to the Listings Review Committee.

- (1) Staff's notification of the additional deficiency will conform to the requirements set forth in IEX Rule 14.501(b) if:
 - (A) the matter under review by the Listings Review Committee is a Public Reprimand Letter; or
 - (B) the additional deficiency identified is one that has an automatic cure or compliance period. If the additional deficiency is one that would in the normal course result in immediate suspension and delisting, or one for which the Company may submit a compliance plan to Staff for review, Staff's notification will instruct the Company to address the issue to the Listings Review Committee at its hearing, unless the hearing for the original deficiency has already taken place. If the hearing has already taken place, Staff's notification will instruct the Company to provide in writing, within a specified time period, a submission that addresses the deficiency to the Listings Review Committee before which its matter is pending.

Rule 14.502. Review of Staff Determinations by the Listings Review Committee

When a Company receives a Staff Delisting Determination or a Public Reprimand Letter issued by IEX Regulation it may request in writing that the Listings Review Committee review the matter in a written or an oral hearing. This section sets forth the procedures for requesting a hearing before the Listings Review Committee, describes the Listings Review Committee and the possible outcomes of a hearing, and sets forth Listings Review Committee procedures.

(a) Procedures for Requesting and Preparing for a Hearing

- (1) Timely Request Stays Delisting
 - (A) A Company may, within seven calendar days of the date of the Staff Delisting Determination notification or Public Reprimand Letter request a written or oral hearing before the Listings Review Committee to review the Staff Delisting Determination or Public Reprimand Letter. Subject to the limitation in paragraph (B) below, a timely request for a hearing will stay the suspension and delisting action pending the issuance of a written Listings Review Committee Decision. Requests for hearings should be submitted in writing to the General Counsel.
 - (B) A request for a hearing shall ordinarily stay the delisting action pending the issuance of a Listings Review Committee Decision. However, if the Staff Delisting Determination relates to deficiencies from the standards of IEX Rule 14.207(c)(1) or (2), which require a Company to timely file its periodic reports with the Commission, the delisting action will only be stayed for 15 calendar days from the deadline to request a hearing unless the Company specifically requests and the Listings Review Committee grants a further stay. A request for a further stay must include an explanation of why such a stay would be appropriate and should be included in the Company's request for a hearing. Based on that submission and any

recommendation provided by Staff, the Listings Review Committee will determine whether to grant the Company a further stay. In determining whether to grant the stay, the Listings Review Committee will consider the Company's specific circumstances, including the likelihood that the filing can be made within any exception period that could subsequently be granted, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. The Listings Review Committee will notify the Company of its conclusion as soon as is practicable, but in no event more than 15 calendar days following the deadline to request the hearing. In the event the Listings Review Committee determines not to grant the Company a stay, the Company's securities will be immediately suspended and will remain suspended unless the Listings Review Committee Decision issued after the hearing determines to reinstate the securities.

(2) Failure to Request Results in Immediate Delisting

If a Company fails to request in writing a hearing within seven calendar days, it waives its right to request review of a Delisting Determination or Public Reprimand Letter. In that event, IEX Regulation will take action to suspend trading of the securities and follow procedures to delist the securities.

(3) Fees

Within 15 calendar days of the date of the Staff Delisting Determination or Public Reprimand Letter the Company must submit a hearing fee to the Exchange, to cover the cost of the hearing, as follows:

(A) when the Company has requested a written hearing, \$1,000; or

(B) when the Company has requested an oral hearing, whether in person or by telephone, \$5,000.

(4) Scheduling of Hearings

The General Counsel will schedule hearings to take place, to the extent practicable, within 45 days of the request for a hearing, at a location determined by the General Counsel. The General Counsel will send written acknowledgment of the Company's hearing request and inform the Company of the date, time, and location of the hearing, and deadlines for written submissions to the Listings Review Committee. The Company will be provided at least ten calendar days notice of the hearing unless the Company waives such notice.

(5) Submissions from Company

The Company may submit to the General Counsel a written plan of compliance and request that the Listings Review Committee grant an exception to the listing standards for a limited time period, as permitted by IEX Rule 14.502(b)(1)(A) or may set forth specific grounds for the Company's contention that the issuance of a Staff Delisting Determination or Public Reprimand Letter was in error, and may also submit public documents or other written material in support of its position, including any information not available at the time of the Staff Determination. The Listings Review Committee will review the written record, as described in IEX Rule 14.505(a), before the hearing.

(6) Presentation at Hearing

At an oral hearing, the Company may make such presentation as it deems appropriate, including the appearance by its officers, directors, accountants, counsel, investment bankers, or other persons, and the Listings Review Committee may question any representative appearing at the hearing. Hearings are generally scheduled to last one hour, but the Hearings Panel may extend the time. The General Counsel or his or her designee will arrange for and keep on file a transcript of oral hearings.

(b) Scope of the Listing Review Committee's Discretion

- (1) The Listing Review Committee may, where it deems appropriate:
 - (A) grant an exception to the continued listing standards for a period not to exceed 180 days from the date of the Staff Delisting Determination with respect to the deficiency for which the exception is granted;
 - (B) suspend and delist the Company's securities;
 - (C) issue a Decision that serves as a Public Reprimand Letter in cases where the Company has violated an Exchange corporate governance or notification listing standard (other than one required by Rule 10A-3 of the Act) and the Listings Review Committee determines that delisting is an inappropriate sanction. In determining whether to issue a Public Reprimand Letter, the Listings Review Committee will consider whether the violation was inadvertent, whether the violation materially adversely affected shareholders' interests, whether the violation has been cured, whether the Company reasonably relied on an independent advisor and whether the Company has demonstrated a pattern of violations;
 - (D) find the Company in compliance with all applicable listing standards; or
 - (E) in the case of a Company that fails to file a periodic report (e.g., Form 10-K, 10-Q, 20-F, 40-F, or N-CSR), the Listings Review Committee may grant an exception for a period not to exceed 360 days from the due date of the first such late periodic report. The Company can regain compliance with the requirement by filing that periodic report and any other delinquent reports with due dates falling before the end of the exception period. In determining whether to grant an exception, and the length of any such exception, the Listings Review Committee will consider the Company's specific circumstances, including the likelihood that the filing can be made within the exception period, the Company's past compliance history, the reasons for the late filing, corporate events that may occur within the exception period, the Company's general financial status, and the Company's disclosures to the market. This review will be based on information provided by a variety of sources, which may include the Company, its audit committee, its outside auditors, the staff of the SEC and any other regulatory body.
- (2) The Listings Review Committee may consider any failure to meet any quantitative or qualitative standard for continued listing, including failures previously not considered by Staff. The Company will be given written notice of such consideration and an opportunity to respond.
- (3) Under the authority described in IEX Rule 14.101, the Listings Review Committee may subject the Company to additional or more stringent criteria for the continued listing of particular securities based on any event, condition, or circumstance that exists or occurs that makes continued listing of the securities inadvisable or unwarranted in its opinion, even though the securities meet all enumerated criteria for continued listing on the Exchange.

(c) Listings Review Committee Procedures

(1) Decision

After the hearing, the General Counsel, on behalf of the Listings Review Committee, will issue a Decision that meets the requirements of IEX Rule 14.505(c) and has been approved by at least a majority of the members of the Listings Review Committee in attendance. The Listings Review Committee Decision shall be promptly provided to the Company, and is effective immediately upon issuance, unless it specifies to the contrary. If the Listings Review Committee is deadlocked, the Chair's vote shall count twice, or if the Chair is not in attendance, the vote of the next most senior member of the Listings Review Committee shall count twice.

(2) Form 25 Notification of Delisting

If the Listings Review Committee issues a Decision to delist the Company's securities, IEX Regulation will immediately take action to suspend trading of the securities, unless the Decision specifies to the contrary, and the Exchange will follow the procedures described in IEX Rule 14.503 to submit an application on Form 25 to the SEC to strike the security from listing.

(3) Procedures Applicable for Recurring Deficiencies

(A) Listings Review Committee Monitor

The Listings Review Committee may, after a Company regains compliance with all applicable listing standards, monitor the Company's continued compliance for up to one year after the compliance date, if the Listings Review Committee concludes that there is a likelihood that the issuer will fail to maintain compliance with one or more listing standards during that period. If the Listings Review Committee or IEX Regulation determines that a Company under Listings Review Committee monitor fails any listing standard during the monitor period, the Staff will issue a Staff Delisting Determination and the General Counsel or his or her designee will promptly schedule a new hearing. The hearing may be oral or written, at the Company's election.

Notwithstanding IEX Rule 14.501(d)(2), the Company will not be permitted to provide IEX Regulation with a plan of compliance with respect to any deficiency that arises during the monitor period, and IEX Regulation will not be permitted to grant additional time for the Company to regain compliance with respect to any deficiency. The Listings Review Committee will consider the Company's compliance history when rendering its Decision.

(B) No Listings Review Committee Monitor

If the Listings Review Committee has not opted to monitor a Company that has regained compliance with the listing standards requiring the Company to maintain certain levels of stockholders' equity or to timely file periodic reports, and within one year of the date the Company regained compliance with such listing standard, IEX Regulation finds the Company again out of compliance with the requirement that was the subject of the exception, then, notwithstanding IEX Rule 14.501(d)(2), IEX Regulation will not allow the Company to provide it with a plan of compliance or grant additional time for the Company to regain compliance. Rather, IEX Regulation will promptly issue a Staff Delisting Determination, and the Company may request review by the Listings Review Committee. The Listings Review Committee will consider the Company's compliance history when rendering its Decision.

(4) Request for Listings Review Committee Reconsideration

A Company may request, in writing, that the Listings Review Committee reconsider a Listings Review Committee Decision only upon the basis that a mistake of material fact existed at the time of the Listings Review Committee Decision. The Company's request for reconsideration shall be made within seven calendar days of the date of issuance of the Listings Review Committee Decision. A Company's request for reconsideration will not stay a delisting determination or suspension of trading of the Company's securities, unless the Listings Review Committee, before the scheduled date for suspension, issues a written determination staying the suspension and/or reversing the determination to delist.

If the Listings Review Committee grants a Company's reconsideration request, it will issue a modified Decision meeting the requirements of IEX Rule 14.505(c) within 15 calendar days of the date of the original Listings Review Committee Decision.

Rule 14.503. Finality of Delisting Determination

When the Exchange has made a final determination to delist a Company's securities, it will follow procedures consistent with the Act to strike the security from listing. The Exchange's determination to delist a Company's securities is final when, after a Delisting Determination has been issued, all available reconsideration procedures and periods available under these Rules have expired.

The Exchange will issue a press release and post a notice on its website announcing its final determination to remove a security from listing, consistent with Rule 12d2-2 under the Act. Under Rule 12d2-2, the Exchange must disseminate this public notice not less than 10 days before the delisting becomes effective and maintain the website notice until the delisting is effective. Following the public notification, the Exchange will file an application on Form 25 with the Commission to delist the security, and will promptly provide a copy of that Form 25 to the Company. The delisting of the security becomes effective 10 days after the Form 25 is filed pursuant to Rule 12d2-2(d)(1) under the Act, unless the Commission postpones the delisting pursuant to Rule 12d2-2(d)(3).

Rule 14.504. Rules Applicable to the Listings Review Committee and Advisors

(a) Ex Parte Communications

(1) No Ex parte Communications

No member of the staff of IEX Regulation or its counsel, and no Company representative will make or knowingly cause to be made an ex parte communication relevant to the merits of a proceeding under this Section to the Listings Review Committee, any member thereof or any Advisor. Similarly, neither the Listings Review Committee, any member thereof nor any Advisor will make or knowingly cause to be made an ex parte communication relevant to the merits of a proceeding to a Company representative, a member of the staff of IEX Regulation or its counsel.

- (2) If an ex parte communication as described in paragraph (1) is made, received or caused to be made, the person making such ex parte communication will place a copy of it, or its substance if it is an oral communication, in the record of the proceeding. Staff of IEX Regulation or the Company, as applicable, will be permitted to respond to the ex parte communication, and any response will be placed in the record of the proceeding.

(b) Recusal or Disqualification

No person will participate as a member of the Listings Review Committee, the staff of IEX Regulation, or Advisor to either thereof, in a matter as to which he or she has a conflict of interest or bias, or circumstances otherwise exist where his or her fairness might reasonably be questioned. In any such case, the person will recuse himself or herself, or will be disqualified. The Chair of the Listings Review Committee shall have authority to order the disqualification of a member of the Listings Review Committee and a majority of the Listings Review Committee excluding the Chair, shall have authority to order the disqualification of the Chair. A Company that has requested a review by the Listings Review Committee shall provide such information as determined by IEX necessary to enable IEX and the members of the Listing Review Committee, the staff of IEX Regulation, or an Advisor to either thereof to determine whether he or she has a conflict of interest or bias, or circumstances otherwise existing where his or her fairness might reasonably be questioned.

Rule 14.505. Adjudicatory Process: General Information

(a) Record on Review

At each proceeding under this Section, the written record may consist of the following items, as applicable: correspondence between the Exchange and the Company; the Company's public filings; information released to the public by the Company; written submissions, exhibits, or requests submitted by either the Company or IEX Regulation and responses thereto; and any additional information considered by the Listings Review Committee as part of the review process. The written record will be supplemented by the transcript of any hearings held during the review process and all Decisions issued.

At each review under this Section, the Company will be informed of the contents of the written record. The Company will be provided a copy of any documents in the record that were not provided by the Company or are not publicly available, at least three calendar days before the deadline for Company submissions, unless the Company waives this production.

If additional issues arising under Chapter 14 are considered, as permitted by IEX Rule 14.500, the notice of such consideration and any response to such notice shall be made a part of the record.

(b) Additional Information Requested or Considered

At each proceeding under this Section, the Listings Review Committee, as part of its review:

- (1) may request additional information from the Company or IEX Regulation; and
- (2) may consider additional information available from other sources it deems relevant. The Company and IEX Regulation will be afforded written notice and an opportunity to address the significance of any information requested or considered, and the notice, responses to the notice, and the information considered will be made part of the record.

(c) Contents of Decisions

Each Listings Review Committee written Decision will include:

- (1) a statement describing the procedural history of the proceeding, including investigations or reviews undertaken by IEX Regulation;
- (2) the quantitative or qualitative standard that the Company is alleged to have failed to satisfy;
- (3) a statement setting forth the findings of fact with respect to the Company;
- (4) the conclusions of the Listings Review Committee as to whether the Company has failed to satisfy the quantitative or qualitative standards for initial or continued listing; and
- (5) a statement of the Listings Review Committee in support of its disposition of the matter, and, if applicable, the rationale for any exception to the initial or continued listing requirements granted.

(d) Correction of Clerical Errors

The Listings Review Committee may correct clerical or other non-substantive errors in its Decisions either on their own motion or at the request of a Company. A copy of any such corrected Decision will be provided to the Company.

(e) Computation and Adjustment of Time

- (1) Except as described in paragraph (B) below, in counting any time under this Section, the day of the act, event, or default from which the period of time begins to run, is not to be included. The last day of the period is included, unless it is a Saturday, Sunday, federal holiday, or Exchange holiday in which case the period runs until the end of the next day that is not a Saturday, Sunday, federal holiday or Exchange holiday.

- (2) When Staff determines whether a deficiency has occurred with respect to the Price, Market Value of Listed Securities, or Market Value of Publicly Held Shares requirements, the first trading day that the Price or Market Value is below required standards is included in computing the total number of consecutive trading days of default. Similarly, when Staff determines whether a Company has regained compliance with the Price, Market Value of Listed Securities, or Market Value of Publicly Held Shares requirements, the first trading day that the Price or Market Value is at or above required standards is included in computing the total number of consecutive trading days.
- (3) If the Office of General Counsel determines that notice required to be provided under this Section was not properly given or that other extenuating circumstances exist, the Office of General Counsel may adjust the periods of time provided by the rules for the filing of written submissions, the scheduling of hearings, or the performance of other procedural actions by the Company or the Listings Review Committee, as applicable, to allow the Company or the Listings Review Committee the time contemplated by these rules.
- (4) A Company may waive any notice period specified in this Section.

(f) Delivery of Documents

Delivery of any document under this Section may be made by electronic delivery, hand delivery, facsimile, regular mail, or overnight courier. Delivery will be considered timely if the electronic delivery, hand delivery, fax, or overnight courier is received on or before the relevant deadline. If a Company has not specified a facsimile number, e-mail address, or street address, delivery will be made to the last known facsimile number, e-mail address, and street address. If a Company is represented by counsel or a representative, delivery may be made to the counsel or representative.

(g) Document Retention Procedures

Any document submitted to the Exchange in connection with a proceeding under this Section will be retained in accordance with applicable record retention policies.

(h) Documentation of Decisions

IEX Regulation or the Advisor to the Listings Review Committee, as applicable, shall document the date on which a Decision with respect to a Company is implemented.

(i) Re-Listing of a Company

A Company that has been the subject of a Decision by the Listings Review Committee to delist such Company shall be required, prior to re-listing, to comply with the requirements for initial listing. A Company that has been suspended but that has not been the subject of such a Decision shall be required, prior to re-listing, to comply with requirements for continued listing.

(j) Voluntary Delisting

- (1) A Company may voluntarily terminate its listing upon compliance with all requirements of Rule 12d2-2(c) under the Act. In part, Rule 12d2-2(c) requires that the Company may delist by filing an application on Form 25 with the Commission, provided that the Company: (i) complies with all applicable laws in effect in the state in which it is incorporated and with the applicable IEX Rules; (ii) provides notice to the Exchange no fewer than 10 days before the Company files the Form 25 with the Commission, including a statement of the material facts relating to the reasons for delisting; and (iii) contemporaneous with providing notice to the Exchange, publishes notice of its intent to delist, along with its reasons therefore, via a press release and on its web site, if it has one. Any notice provided on the Company's web site pursuant to Rule 12d2-2(c) must remain available until the delisting

has become effective. The Company must also provide a copy of the Form 25 to the Exchange simultaneously with its filing with the Commission. The Exchange will provide notice on its web site of the Company's intent to delist as required by Rule 12d2-2(c)(3).

- (2) A Company that seeks to voluntarily delist a class of securities pursuant to IEX Rule 14.505(j)(1) that has received notice from the Exchange, pursuant to IEX Rule 14.500 or otherwise, that it fails to comply with one or more requirements for continued listing, or that is aware that it is below such continued listing requirements notwithstanding that it has not received such notice from the Exchange, must disclose this fact (including the specific continued listing requirement that it is below) in: (i) its statement of all material facts relating to the reasons for withdrawal from listing provided to the Exchange along with written notice of its determination to withdraw from listing required by Rule 12d2-2(c)(2)(ii) under the Act; and (ii) its press release and web site notice required by Rule 12d2-2(c)(2)(iii) under the Act.

(k) Disclosure of Public Reprimand Letter

A Company that receives a Listings Review Committee Decision that serves as a Public Reprimand Letter must make a public announcement by filing a Form 8-K, where required by SEC rules, or by issuing a press release disclosing the receipt of the Decision, including the Rule(s) upon which the Decision was based. As described in IEX Rule 14.207(b)(1) and Supplementary Material .01 to IEX Rule 14.207, the Company must notify the IEX Regulation about the announcement through the electronic disclosure submission system available on the Exchange's Web site, except in emergency situations when notification may instead be provided by telephone or facsimile. If the public announcement is made during System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation at least ten minutes prior to the announcement. If the public announcement is made outside of System Hours (as defined in IEX Rule 1.160(oo)), the Company must notify IEX Regulation of the announcement at least ten minutes prior to the start of System Hours (as defined in IEX Rule 1.160(oo)). The Company should make the public announcement as promptly as possible but not more than four business days following receipt of the Decision.

(l) Disclosure by IEX

In order to maintain the quality of and public confidence in its market and to protect investors and the public interest, IEX may, at any level of a proceeding under this IEX Rule 14.500, make a public announcement, including by press release, describing a notification, Public Reprimand Letter, Staff Delisting Determination, Adjudicatory Body Decision, or other event involving a Company's listing or trading on IEX.

Rule 14.600. Listed Company Fees

Rule 14.601. Reserved.

CHAPTER 15. DUES, FEES, ASSESSMENTS AND OTHER CHARGES; EFFECTIVE DATE

Rule 15.110. Authority to Prescribe Dues, Fees, Assessments and Other Charges

- (a) Generally. The Exchange may prescribe such reasonable dues, fees, assessments or other charges as it may, in its discretion, deem appropriate. Such dues, fees, assessments and charges may include membership dues, transaction fees, communication and technology fees, regulatory charges, listing fees, and other fees and charges as the Exchange

may determine. All such dues, fees and charges shall be equitably allocated among Members, issuers and other persons using the Exchange's facilities.

- (b) **Regulatory Transaction Fee.** Under Section 31 of the Act, the Exchange must pay certain fees to the Commission. To help fund the Exchange's obligations to the Commission under Section 31, this Regulatory Transaction Fee is assessed to Members. To the extent there may be any excess monies collected under this IEX Rule 15.110, the Exchange may retain those monies to help fund its general operating expense. Each Member engaged in executing transactions on the Exchange shall pay, in such manner and at such times as the Exchange shall direct, a Regulatory Transaction Fee equal to (i) the rate determined by the Commission to be applicable to covered sales occurring on the Exchange in accordance with Section 31 of the Act multiplied by (ii) the Member's aggregate dollar amount of covered sales occurring on the Exchange during any computational period.
- (c) **Trading Fees.** The Exchange will provide Members with notice of all relevant dues, fees, assessments and charges of the Exchange. Such notice may be made available to Members on the Exchange's website or by any other method deemed reasonable by the Exchange.
- (d) **Connection Fees.** To the extent the Exchange is charged a fee by a third party that results directly from a Member cross-connecting its trading hardware to the Exchange's System from another trading center's system that is located in the same data center as the Exchange, the Exchange will pass that fee on, in full, to the Member.

CHAPTER 16. OTHER SECURITIES

Rule 16.101. Preamble to the Listing Requirements for Other Securities

This section contains the requirements for listing other securities on IEX.

Rule 16.105. Exchange Traded Funds: Portfolio Depository Receipts and Index Fund Shares

(a) Portfolio Depository Receipts

- (1) **Definitions.** The following terms shall, unless the context otherwise requires, have the meanings herein specified:
 - (A) **Portfolio Depository Receipt.** The term "Portfolio Depository Receipt" means a security:
 - (i) that is based on a unit investment trust ("Trust") which holds the securities which comprise an index or portfolio underlying a series of Portfolio Depository Receipts;
 - (ii) that is issued by the Trust in a specified aggregate minimum number in return for a "Portfolio Deposit" consisting of specified numbers of shares of stock and/or a cash amount, a specified portfolio of fixed income securities and/or a cash amount and/or a combination of the above;
 - (iii) that, when aggregated in the same specified minimum number, may be redeemed from the Trust which will pay to the redeeming holder the stock and/or cash, fixed income securities and/or cash and/or a combination thereof then comprising the "Portfolio Deposit"; and
 - (iv) that pays holders a periodic cash payment corresponding to the regular cash dividends or distributions declared with respect to the component securities of the securities index or portfolio of securities underlying the Portfolio Depository Receipts, less certain expenses and other charges as set forth in the Trust prospectus.

- (B) **Reporting Authority.** The term "Reporting Authority" in respect to a particular series of Portfolio Depository Receipts means IEX, a wholly-owned subsidiary of IEX, an institution (including the Trustee for a series of Portfolio Depository Receipts), or a reporting service designated by IEX or its subsidiary as the official source for calculating and reporting information relating to such series, including, but not limited to, any current index or portfolio value; the current value of the portfolio of securities required to be deposited to the Trust in connection with issuance of Portfolio Depository Receipts; the amount of any dividend equivalent payment or cash distribution to holders of Portfolio Depository Receipts, net asset value, and other information relating to the creation, redemption or trading of Portfolio Depository Receipts.

Nothing in this paragraph shall imply that an institution or reporting service that is the source for calculating and reporting information relating to Portfolio Depository Receipts must be designated by IEX; the term "Reporting Authority" shall not refer to an institution or reporting service not so designated.

- (C) **U.S. Component Stock.** The term "U.S. Component Stock" shall mean an equity security that is registered under Sections 12(b) or 12(g) of the Act, or an American Depositary Receipt, the underlying equity security of which is registered under Sections 12(b) or 12(g) of the Act.
- (D) **Non-U.S. Component Stock.** The term "Non-U.S. Component Stock" shall mean an equity security that (a) is not registered under Sections 12(b) or 12(g) of the Act, (b) is issued by an entity that is not organized, domiciled or incorporated in the United States, and (c) is issued by an entity that is an operating company (including Real Estate Investment Trusts (REITs) and income trusts, but excluding investment trusts, unit trusts, mutual funds, and derivatives).

- (2) IEX requires that Members provide to all purchasers of a series of Portfolio Depository Receipts a written description of the terms and characteristics of such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, Members shall include such a written description with any sales material relating to a series of Portfolio Depository Receipts that is provided to customers or the public. Any other written materials provided by a Member to customers or the public making specific reference to a series of Portfolio Depository Receipts as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the series of Portfolio Depository Receipts] has been prepared by [Trust name] and is available from your broker or IEX. It is recommended that you obtain and review such circular before purchasing [the series of Portfolio Depository Receipts]. In addition, upon request you may obtain from your broker a prospectus for [the series of Portfolio Depository Receipts]."

A Member carrying an omnibus account for a non-Member broker-dealer is required to inform such non-Member that execution of an order to purchase a series of Portfolio Depository Receipts for such omnibus account will be deemed to constitute agreement by the non-Member to make such written description available to its customers on the same terms as are directly applicable to Members and member organizations under this IEX Rule.

Upon request of a customer, a Member shall also provide a prospectus for the particular series of Portfolio Depository Receipts.

- (3) **Equity.** IEX may approve a series of Portfolio Depository Receipts for listing and trading pursuant to Rule 19b-4(e) under the Act, provided each of the following criteria is satisfied:
- (A) **Eligibility Criteria for Index Components.**

- (i) U.S. Index or Portfolio. Upon the initial listing of a series of Portfolio Depository Receipts pursuant to Rule 19b-4(e) under the Act, the component stocks of an index or portfolio of U.S. Component Stocks underlying such series of Portfolio Depository Receipts shall meet the following criteria:
 - (a) Component stocks that in the aggregate account for at least 90% of the weight of the index or portfolio each shall have a minimum market value of at least \$75 million;
 - (b) Component stocks that in the aggregate account for at least 90% of the weight of the index or portfolio each shall have a minimum monthly trading volume during each of the last six months of at least 250,000 shares;
 - (c) The most heavily weighted component stock shall not exceed 30% of the weight of the index or portfolio, and the five most heavily weighted component stocks shall not exceed 65% of the weight of the index or portfolio;
 - (d) The index or portfolio shall include a minimum of 13 component stocks; and
 - (e) All securities in the index or portfolio shall be U.S. Component Stocks listed on IEX or another national securities exchange and shall be NMS Stocks as defined in Rule 600 of Regulation NMS under the Act.
- (ii) International or global index or portfolio. Upon the initial listing of a series of Portfolio Depository Receipts pursuant to Rule 19b-4(e) under the Act, the components of an index or portfolio underlying a series of Portfolio Depository Receipts that consist of either only Non-U.S. Component Stocks or both U.S. Component Stocks and Non-U.S. Component Stocks shall meet the following criteria:
 - (a) Component stocks that in the aggregate account for at least 90% of the weight of the index or portfolio each shall have a minimum market value of at least \$100 million;
 - (b) Component stocks that in the aggregate account for at least 90% of the weight of the index or portfolio each shall have a minimum worldwide monthly trading volume during each of the last six months of at least 250,000 shares;
 - (c) The most heavily weighted component stock shall not exceed 25% of the weight of the index or portfolio, and the five most heavily weighted component stocks shall not exceed 60% of the weight of the index or portfolio;
 - (d) The index or portfolio shall include a minimum of 20 component stocks; and
 - (e) Each U.S. Component Stock shall be listed on a national securities exchange and shall be an NMS Stock as defined in Rule 600 of Regulation NMS under the Act, and each Non-U.S. Component Stock shall be listed and traded on an exchange that has last-sale reporting.
- (iii) Index or portfolio approved in connection with derivative securities. Upon the initial listing of a series of Portfolio Depository Receipts pursuant to Rule 19b-4(e) under the Act, the index or portfolio underlying a series of Portfolio Depository Receipts shall have been reviewed and approved for trading of options, Portfolio Depository Receipts, Index Fund Shares, index-linked exchangeable notes, or index-linked securities by the Commission under Section 19(b)(2) of the Act and rules thereunder, and the conditions set forth in the Commission's approval order, including comprehensive surveillance sharing agreements with respect to Non-U.S. Component Stocks and the requirements regarding dissemination of information, continue to be satisfied. Each component stock of the index or portfolio shall be either

- (a) a U.S. Component Stock that is listed on a national securities exchange and is an NMS Stock as defined in Rule 600 of Regulation NMS under the Act; or
 - (b) a Non-U.S. Component Stock that is listed and traded on an exchange that has last-sale reporting.
 - (B) Index Methodology and Calculation.
 - (i) If the index is maintained by a broker-dealer or fund advisor, the broker-dealer or fund advisor shall erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index and the index shall be calculated by a third party who is not a broker-dealer or fund advisor;
 - (ii) The current index value for Portfolio Depository Receipts listed pursuant to:
 - (a) Rule 16.105(a)(3)(A)(i) will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Regular Market Session.
 - (b) Rule 16.105(a)(3)(A)(ii) will be widely disseminated by one or more major market data vendors at least every 60 seconds during the Regular Market Session; or

If the index value does not change during some or all of the period when trading is occurring on IEX (for example, for indexes of Non-U.S. Component Stocks because of time zone differences or holidays in the countries where such indexes' component stocks trade), then the last official calculated index value must remain available throughout IEX's system hours; and

 - (iii) Any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on the index or portfolio composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index.
- (C) Disseminated Information. The Reporting Authority will disseminate for each series of Portfolio Depository Receipts an estimate, updated at least every 15 seconds, of the value of a share of each series (the "Intraday Indicative Value") during the Regular Market Session. The Intraday Indicative Value may be based, for example, upon current information regarding the required deposit of securities and cash amount to permit creation of new shares of the series or upon the index value. The Intraday Indicative Value will be updated at least every 15 seconds during the Regular Market Session to reflect changes in the exchange rate between the U.S. dollar and the currency in which any component stock is denominated. If the Intraday Indicative Value does not change during some or all of the period when trading is occurring on IEX, then the last official calculated Intraday Indicative Value must remain available throughout IEX's system hours.
- (D) Initial Shares Outstanding. A minimum of 100,000 shares of a series of Portfolio Depository Receipts is required to be outstanding at start-up of trading.
- (E) Surveillance Procedures. FINRA will implement written surveillance procedures for Portfolio Depository Receipts.

(F) Creation and redemption. For Portfolio Depositary Receipts listed pursuant to IEX Rule 16.105(a)(3)(A)(ii) or (iii) above, the statutory prospectus or the application for exemption from provisions of the Investment Company Act of 1940 for the series of Portfolio Depositary Receipts must state that the Trust must comply with the federal securities laws in accepting securities for deposits and satisfying redemptions with redemption securities, including that the securities accepted for deposits and the securities used to satisfy redemption requests are sold in transactions that would be exempt from registration under the Securities Act of 1933.

(4) Fixed Income. Fixed Income Securities are debt securities that are notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or subdivision thereof. IEX may approve a series of Portfolio Depositary Receipts based on Fixed Income Securities for listing and trading pursuant to Rule 19b-4(e) under the Act provided such portfolio or index: (i) has been reviewed and approved for the trading of options, Portfolio Depositary Receipts, Index Fund Shares, Index-Linked Exchangeable Notes or Index-Linked Securities by the Commission under Section 19(b)(2) of the Act and the rules thereunder and the conditions set forth in the Commission's approval order continue to be satisfied; or (ii) the following criteria are satisfied:

- (ii) components that in aggregate account for at least 75% of the weight of the index or portfolio must have a minimum original principal amount outstanding of \$100 million or more;

- (iv) no component fixed-income security (excluding Treasury Securities) will represent more than 30% of the weight of the index or portfolio, and the five highest weighted component fixed-income securities do not in the aggregate account for more than 65% of the weight of the index or portfolio;
- (v) an underlying index or portfolio (excluding exempted securities) must include securities from a minimum of 13 non-affiliated issuers; and
- (vi) component securities that in aggregate account for at least 90% of the weight of the index or portfolio must be either: (a) from issuers that are required to file reports pursuant to Sections 13 and 15(d) of the Act; (b) from issuers that have a worldwide market value of its outstanding common equity held by non-affiliates of \$700 million or more; (c) from issuers that have outstanding securities that are notes, bonds, debentures, or evidence of indebtedness having a total remaining principal amount of at least \$1 billion; (d) exempted securities as defined in section 3(a)(12) of the Act; or (e) from issuers that are a government of a foreign country or a political subdivision of a foreign country.

(B) Index Methodology and Calculation.

- (i) If the index is maintained by a broker-dealer or fund advisor, the broker-dealer or fund advisor shall erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index;

- (ii) the current index value will be widely disseminated by one or more major market data vendors at least once per day; and

- (5) IEX may approve a series of Portfolio Depositary Receipts based on a combination of indexes or an index or portfolio of component securities representing the U.S. equity market, the international equity market, and the fixed income market for listing and trading pursuant to Rule 19b-4(e) under the Act provided: (i) each index has been reviewed and approved for the trading of options, Portfolio Depositary Receipts, Index Fund Shares, Index-Linked Exchangeable Notes or Index-Linked Securities by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order continue to be satisfied; or (ii) each index or portfolio of equity and fixed income component securities separately meets either the criteria set forth in IEX Rule 16.105(a)(3) or (4) above.
 - (A) Index Methodology and Calculation.
 - (i) If an index is maintained by a broker-dealer or fund advisor, the broker-dealer or fund advisor shall erect a "fire wall" around the personnel who have access to information concerning changes and adjustments to the index;
 - (ii) the current composite index value will be widely disseminated by one or more major market data vendors at least once every 15 seconds during the Regular Market Session, provided however, that (a) with respect to the Non-U.S. Component Stocks of the combination index, the impact on the index is only required to be updated at least every 60 seconds during the Regular Market Session, and (b) with respect to the fixed income components of the combination index the impact on the index is only required to be updated at least once each day; and
 - (iii) any advisory committee, supervisory board, or similar entity that advises a Reporting Authority or that makes decisions on index composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the applicable index.

The terms "Commodity" and "Commodity-Related Security" are defined in IEX Rule 16.127.

The payment at maturity with respect to Fixed Income Index-Linked Securities is based on the performance of one or more indexes or portfolios of notes, bonds, debentures or evidence of indebtedness that include, but are not limited to, U.S. Department of Treasury securities ("Treasury Securities"), government-sponsored entity securities ("GSE Securities"), municipal securities, trust preferred securities, supranational debt and debt of a foreign country or a subdivision thereof or a basket or index of any of the foregoing (a "Fixed Income Reference Asset").

The payment at maturity with respect to Futures-Linked Securities is based on the performance of an index of (a) futures on Treasury Securities, GSE Securities, supranational debt and debt of a foreign country or a subdivision thereof, or options or other derivatives on any of the foregoing; or (b) interest rate futures or options or derivatives on the foregoing in this subparagraph (b); or (c) CBOE Volatility Index (VIX) Futures (a "Futures Reference Asset").

The payment at maturity with respect to Multifactor Index-Linked Securities is based on the performance of any combination of two or more Equity Reference Assets, Commodity Reference Assets, Fixed Income Reference Assets or Futures Reference Assets (a "Multifactor Reference Asset", and together with Equity Reference Asset, Commodity Reference Asset, Fixed Income Reference Asset and Futures Reference Asset, "Reference Assets"). A Multifactor Reference Asset may include as a component a notional investment in cash or a cash equivalent based on a widely

accepted overnight loan interest rate, LIBOR, Prime Rate, or an implied interest rate based on observed market spot and foreign currency forward rates.

Linked Securities may or may not provide for the repayment of the original principal investment amount. IEX may submit a rule filing pursuant to Section 19(b)(2) of the Act to permit the listing and trading of Linked Securities that do not otherwise meet the standards set forth below in paragraphs (a) through (k). IEX will consider Linked Securities for listing and trading pursuant to Rule 19b-4(e) under the Act, provided:

- (a) Both the issue and the issuer of such security meet the criteria for other securities set forth in IEX Rule 16.130(a), except that if the security is traded in \$1,000 denominations or is redeemable at the option of holders thereof on at least a weekly basis, then no minimum number of holders and no minimum public distribution of trading units shall be required.
- (b) The issue has a term of not less than one (1) year and not greater than thirty (30) years.
- (c) The issue must be the non-convertible debt of the Company.
- (d) The payment at maturity may or may not provide for a multiple of the direct or inverse performance of an underlying index, indexes or Reference Asset; however, in no event will a loss (negative payment) at maturity be accelerated by a multiple that exceeds three times the performance of an underlying index, indexes or Reference Asset.
- (e) The Company will be expected to have a minimum tangible net worth in excess of \$250,000,000 and income from continuing operations before income taxes of at least \$1,200,000 in the most recently completed fiscal year or in two of the three most recently completed fiscal years. In the alternative, the Company will be expected: (i) to have a minimum tangible net worth of \$150,000,000 and income from continuing operations before income taxes of at least \$1,200,000 in the most recently completed fiscal year or in two of the three most recently completed fiscal years, and (ii) not to have issued securities where the original issue price of all the Company's other index-linked note offerings (combined with index-linked note offerings of the Company's affiliates) listed on a national securities exchange exceeds 25% of the Company's net worth.
- (f) The Company is in compliance with Rule 10A-3 under the Act.
- (g) Maintenance and Dissemination—(i) If the index is maintained by a broker-dealer, the broker-dealer shall erect a "firewall" around the personnel who have access to information concerning changes and adjustments to the index and the index shall be calculated by a third party who is not a broker-dealer. (ii) Unless the Commission order applicable under paragraph (k) hereof provides otherwise, the current value of the index or the Reference Asset (as applicable) will be widely disseminated at least every 15 seconds during the Regular Market Session, except as provided in the next clause (iii). (iii) The values of the following indexes need not be calculated and widely disseminated at least every 15 seconds if, after the close of trading, the indicative value of the Equity Index-Linked Security based on one or more of such indexes is calculated and disseminated to provide an updated value: CBOE S&P 500 BuyWrite Index(sm), CBOE DJIA Buy Write Index(sm), CBOE NASDAQ-100 BuyWrite Index(sm). (iv) If the value of a Linked Security is based on more than one index, then the dissemination requirement of this paragraph (g) applies to the composite value of such indexes. (v) In the case of a Commodity-Linked Security that is periodically redeemable, the indicative value of the subject Commodity-Linked Security must be calculated and widely disseminated by one or more major market data vendors on at least a 15-second basis during the Regular Market Session.
- (h) Trading Halts. In the case of Linked Securities, if the indicative value (if required to be disseminated) or the Reference Asset value is not being disseminated as required, or if the value of the index is not being disseminated as required,

IEX may halt trading during the day on which such interruption occurs. IEX will halt trading no later than the beginning of trading following the trading day when the interruption commenced if such interruption persists at this time.

- (i) Surveillance Procedures. FINRA will implement on behalf of IEX written surveillance procedures for Linked Securities. IEX will enter into adequate comprehensive surveillance sharing agreements for non-U.S. securities, as applicable.
- (j) Linked Securities will be treated as equity instruments. Furthermore, for the purpose of fee determination, Linked Securities shall be deemed and treated as Other Securities.

(k) Linked Securities

(1) Equity Index-Linked Securities Criteria

(A) In the case of an Equity Index-Linked Security, each underlying index is required to have at least ten (10) component securities. In addition, the index or indexes to which the security is linked shall either:

- (i) have been reviewed and approved for the trading of options or other derivatives by the Commission under Section 19(b)(2) of the Act and rules thereunder and the conditions set forth in the Commission's approval order, including comprehensive surveillance sharing agreements for non-U.S. stocks, continue to be satisfied, or
- (ii) the index or indexes meet the following criteria:
 - (a) Each component security has a minimum market value of at least \$75 million, except that for each of the lowest weighted component securities in the index that in the aggregate account for no more than 10% of the weight of the index, the market value can be at least \$50 million;
 - (b) Each component security shall have trading volume in each of the last six months of not less than 1,000,000 shares, except that for each of the lowest weighted component securities in the index that in the aggregate account for no more than 10% of the weight of the index, the trading volume shall be at least 500,000 shares in each of the last six months;
 - (c) Indexes based upon the equal-dollar or modified equal-dollar weighting method will be rebalanced at least semiannually;
 - (d) In the case of a capitalization-weighted or modified capitalization-weighted index, the lesser of the five highest weighted component securities in the index or the highest weighted component securities in the index that in the aggregate represent at least 30% of the total number of component securities in the index, each have an average monthly trading volume of at least 2,000,000 shares over the previous six months;
 - (e) No underlying component security will represent more than 25% of the weight of the index, and the five highest weighted component securities in the index do not in the aggregate account for more than 50% of the weight of the index (60% for an index consisting of fewer than 25 component securities);
 - (f) 90% of the index's numerical value and at least 80% of the total number of component securities will meet the then current criteria for standardized option trading on a national securities exchange or a national securities association, provided, however, that an index will not be subject to this requirement if (a) no underlying component security represents

more than 10% of the dollar weight of the index and (b) the index has a minimum of 20 components; and

- (g) All component securities shall be either (A) securities (other than securities of a foreign issuer and American Depositary Receipts ("ADRs")) that are (i) issued by a 1934 Act reporting company or by an investment company registered under the Investment Company Act of 1940 that, in each case, has securities listed on a national securities exchange and (ii) an "NMS stock" (as defined in Rule 600 of Regulation NMS under the Act), or (B) securities of a foreign issuer or ADRs, provided that securities of a foreign issuer (including when they underlie ADRs) whose primary trading market outside the United States is not a member of the Intermarket Surveillance Group ("ISG") or a party to a comprehensive surveillance sharing agreement with IEX will not in the aggregate represent more than 20% of the dollar weight of the index.

(B) Continued Listing Criteria

- (i) IEX will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Equity Index-Linked Security), if any of the standards set forth above in paragraph A are not continuously maintained, except that:
 - (a) the criteria that no single component represent more than 25% of the dollar weight of the index and the five highest dollar weighted components in the index cannot represent more than 50% (or 60% for indexes with less than 25 components) of the dollar weight of the index, need only be satisfied at the time the index is rebalanced; and
 - (b) Component stocks that in the aggregate account for at least 90% of the weight of the index each shall have a minimum global monthly trading volume of 500,000 shares, or minimum global notional volume traded per month of \$12,500,000, averaged over the last six months.
- (ii) In connection with an Equity Index-Linked Security that is listed pursuant to paragraph (i)(A)(1) above, IEX will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Equity Index- Linked Security) if an underlying index or indexes fails to satisfy the maintenance standards or conditions for such index or indexes as set forth by the Commission in its order under Section 19(b)(2) of the Act approving the index or indexes for the trading of options or other derivatives.
- (iii) IEX will commence delisting or removal proceedings (unless the Commission has approved the continued trading of the subject Equity Index-Linked Security), under any of the following circumstances:
 - (a) if the aggregate market value or the principal amount of the Equity Index-Linked Securities publicly held is less than \$400,000;
 - (b) if the value of the index or composite value of the indexes is no longer calculated or widely disseminated on at least a 15-second basis with respect to indexes containing only securities listed on a national securities exchange, or on at least a 60- second basis with respect to indexes containing foreign country securities, provided, however, that, if the official index value does not change during some or all of the period when trading is occurring on IEX (for example, for indexes of foreign country securities, because of time

zone differences or holidays in the countries where such indexes' component stocks trade) then the last calculated official index value must remain available throughout IEX system hours; or

- (c) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

(iv) Equity-Linked Index Rebalancing. Equity-Linked Indexes will be rebalanced at least annually.

(2) Reference Asset Criteria for Commodity-Linked Securities

(A) In the case of a Commodity-Linked Security, the Reference Asset shall meet the criteria in either subparagraph (1) or subparagraph (2) below:

- (ii) The pricing information for each component of a Reference Asset other than a Currency must be derived from a market which is an ISG member or affiliate or with which IEX has a comprehensive surveillance sharing agreement. The pricing information for each component of a Reference Asset that is a Currency must be either: (1) the generally accepted spot price for the currency exchange rate in question; or (2) derived from a market of which (a) is an ISG member or affiliate or with which IEX has a comprehensive surveillance sharing agreement and (b) is the pricing source for a currency component of a Reference Asset that has previously been approved by the Commission. A Reference Asset may include components representing not more than 10% of the dollar weight of such Reference Asset for which the pricing information is derived from markets that do not meet the requirements of this subparagraph (2), provided, however, that no single component subject to this exception exceeds 7% of the dollar weight of the Reference Asset. - (i) IEX will commence delisting or removal proceedings if any of the initial listing criteria described above are not continuously maintained.
- (ii) IEX will also commence delisting or removal proceedings under any of the following circumstances:
 - (a) If the aggregate market value or the principal amount of the Commodity-Linked Securities publicly held is less than \$400,000;
 - (b) The value of the Commodity Reference Asset is no longer calculated or available and a new Commodity Reference Asset is substituted, unless the new Commodity Reference Asset meets the requirements of this IEX Rule; or

(i) The Fixed Income Reference Asset to which the security is linked shall have been reviewed and approved for the trading of options, Index Fund Shares, or other derivatives by the Commission under Section 19(b)(2) of the Securities Exchange Act of 1934 and rules thereunder and the conditions set forth in the Commission's approval order, continue to be satisfied.

- (4) The index to which an exchangeable-note is linked shall either be (A) indices that have been created by a third party and been reviewed and have been approved for the trading of options or other derivatives securities (each, a "Third-Party Index") either by the Commission under Section 19(b)(2) of the Act and rules thereunder or by IEX under rules adopted pursuant to Rule 19b-4(e); or (B) indices which the issuer has created and for which IEX will have obtained approval from either the Commission pursuant to Section 19(b)(2) and rules thereunder or from IEX under IEX Rules adopted pursuant to Rule 19b-4(e) (each an "Issuer Index"). - (6) Limitation of IEX Liability. Neither IEX nor any agent of IEX shall have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any underlying asset or commodity value, the current value of the underlying asset or commodity if required to be deposited to the partnership in connection with issuance of Partnership Units; net asset value; or other information relating to the purchase, redemption or trading of Partnership Units, resulting from any negligent act or omission by IEX or any agent of IEX, or any act, condition or cause beyond the reasonable control of IEX or its agent, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reports of transactions in an underlying asset or commodity.

(i) Trust Units

- (1) Applicability. The provisions in this IEX Rule are applicable only to Trust Units. In addition, except to the extent inconsistent with this IEX Rule, or unless the context otherwise requires, the rules and procedures of the Board of Directors shall be applicable to the trading on IEX of such securities. In exercising its discretion to halt or suspend trading in a series of Trust Units, IEX may consider any relevant factors. - (7) Limitation of IEX Liability. Neither IEX, the Reporting Authority nor any agent of IEX shall have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any underlying futures contract value; the current value of positions or interests if required to be deposited to the Trust in connection with issuance of Managed Trust Securities; net asset value; or other information relating to the purchase, redemption or trading of Managed Trust Securities, resulting from any negligent act or omission by IEX, or the Reporting Authority, or any agent of IEX, or any act, condition or cause beyond the reasonable control of IEX or its agent, or the Reporting Authority, including, but not limited to, fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reporting of transactions in an underlying futures contract.

Rule 16.113. Paired Class Shares

- (a) IEX will consider for trading, whether by listing or pursuant to unlisted trading privileges, Paired Class Shares that meet the criteria of this IEX Rule.
- (b) Applicability. This IEX Rule is applicable only to Paired Class Shares. Paired Class Shares are included within the definition of "security" or "securities" as such terms are used in the Operating Agreement and Rules of IEX.
- (c) Paired Class Shares. The term "Paired Class Share" means a security: (1) that is issued by a trust (the "Trust") on behalf of a segregated series (the "Fund") as part of a pair of shares of opposing classes whose respective underlying values move in opposite directions as the value of the Fund's Underlying Benchmark (defined in IEX Rule 16.113(e)) varies from its starting level, where one constituent of the pair is positively linked to the Fund's Underlying Benchmark ("Up Shares") and the other constituent is inversely linked to the Fund's Underlying Benchmark ("Down Shares"); (2) that is issued in exchange for cash; (3) the issuance proceeds of which are invested and reinvested in highly rated short-term financial instruments that mature within 90 calendar days and that serve the functions of (i) covering the Fund's expenses, (ii) providing income distributions to investors, based on income (after expenses) from the financial instruments held by the Fund, (iii) providing cash proceeds for regular and special distributions to be made in cash in lieu of Paired Class Shares, and (iv) providing cash proceeds to be paid upon the redemption of Paired Class Shares; (4) that represents a beneficial interest in the Fund; (5) the value of which is determined by the underlying value of the Fund that is attributable to the class of which such security is a part, which security underlying value will either (i) increase as a result of an increase in the Underlying Benchmark and decrease as a result of a decrease in the Underlying Benchmark (in the case of an Up Share) or (ii) increase as a result of a decrease in the Underlying Benchmark and decrease as the result of an increase in the Underlying Benchmark (in the case of a Down Share); (6) that, when timely aggregated in a specified minimum number or amount of securities, along with an equal number or amount of the securities of the opposite class that constitute the other part of the pair, may be redeemed for a distribution of cash on specified dates by authorized parties; and (7) that may be subject to mandatory redemption of all Paired Class Shares under specified circumstances.
- (d) Distributions. A Fund may engage in scheduled regular distributions, special distributions that are automatically triggered upon the Underlying Benchmark exceeding a fixed rate of change since the prior distribution, and corrective

distributions that are automatically triggered when the trading price of a Paired Class Share deviates by a specified amount from its underlying value for a specified period of time.

- (e) Designation. IEX may trade, either by listing or pursuant to unlisted trading privileges, Paired Class Shares whose values are based on an index or other numerical variable ("Underlying Benchmark") whose value reflects the value of assets, prices, price volatility or other economic interests ("Reference Asset").  - (2) Continued Listing—IEX will consider the suspension of trading in or removal from listing of a Fund's Paired Class Shares under any of the following circumstances:
 - (A) if, following the initial twelve-month period beginning upon the commencement of trading of the Paired Class Shares: (i) there are fewer than 50 record and/or beneficial holders of the Fund's Up Shares or Down Shares for 30 or more consecutive trading days; (ii) the Fund has fewer than 50,000 Up Shares or 50,000 Down Shares issued and outstanding; or (iii) the combined market value of all shares of a Fund issued and outstanding is less than \$1,000,000;
 - (B) if the intraday level of the Underlying Benchmark, or a substitute or replacement Underlying Benchmark based on the same Reference Asset, is no longer calculated or available on at least a 15-second delayed basis during the Regular Market Session from a source unaffiliated with the sponsor, the custodian, the trustee of the Trust, the Fund or IEX that is a major market data vendor (e.g., Reuters or Bloomberg);
 - (C) if the underlying value per share of each Up Share and Down Share of a Fund is no longer made available on a daily basis to all market participants at the same time;
 - (D) if the estimate of the value of a share of the series of Paired Class Shares (the "Intraday Indicative Value") of the underlying value of each listed Up Share and Down Share of the Fund is no longer made available on at least a 15-second delayed basis by a major market vendor during the Regular Market Session;
 - (E) if the "firewall" erected around the personnel who have access to information concerning changes and adjustments to the Underlying Benchmark is no longer in place; or,
 - (F) if such other event shall occur or condition exists which in the opinion of IEX makes further dealings on IEX inadvisable.

- (3) Term. The stated term of a Fund shall be as stated in the Fund prospectus. However, a Fund may be terminated under such earlier circumstances as may be specified in the Fund prospectus.
- (4) Trustee. The following requirements apply:

In cases where, for any reason, an individual has been appointed as trustee, a qualified trust company or banking institution must be appointed co-trustee; and
 - (B) No change is to be made in the trustee of a listed issue without prior notice to and approval of IEX.
- (5) Voting. Voting rights, if any, shall be as set forth in the applicable Fund prospectus.
- (g) Limitation of IEX Liability. Neither IEX nor any agent of IEX shall have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any applicable Underlying Benchmark value; the underlying value of the Fund and its Paired Class Shares; distribution values or any other information relating to the purchase, redemption, or trading of the Paired Class Shares, resulting from any negligent act or omission by IEX, or any agent of IEX, or any act, condition or cause beyond the reasonable control of IEX or its agent, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission or delay in the reports of transactions in the applicable positions or interests.
- (h) Market Maker Accounts.
 - (1) A registered Market Maker in Paired Class Shares must file with IEX in a manner prescribed by IEX and keep current a list identifying all accounts for trading in the applicable securities or physical commodities included in, or options, futures or options on futures on, the Reference Asset of the Underlying Benchmark of any Paired Class Shares or any other derivatives based on such Reference Asset or based on any security or Reference Asset included in the Underlying Benchmark, which the registered Market Maker may have or over which it may exercise investment discretion. (4) Limits on the Number of SEEDS Linked to a Particular Security

- (A) The issuance of SEEDS relating to any underlying U.S. security may not exceed five percent of the total outstanding shares of such underlying security. The issuance of SEEDS relating to any underlying non-U.S. security or sponsored ADR may not exceed:
 - (i) two (2) percent of the total shares outstanding worldwide if at least 30 percent of the worldwide trading volume in such security occurs in the U.S. market during the six-month period preceding the date of listing (The two percent limit, based on 20 percent of the worldwide trading volume in the non-U.S. security or sponsored ADR, applies only if there is a comprehensive surveillance sharing agreement in place with the primary exchange in the country where the security is primarily traded, or, in the case of an ADR, the primary exchange on which the security underlying the ADR is traded. If there is no such agreement, subparagraph (3) above requires that the combined trading volume of such security and other related securities occurring in the U.S. market represents (on a share equivalent basis for any ADRs) at least 50% of the combined worldwide trading volume in such security, other related securities, and other classes of common stock related to such security over the six month period preceding the date of listing.);
 - (ii) three (3) percent of the total shares outstanding worldwide if at least 50 percent of the worldwide trading volume in such security occurs in the U.S. market during the six-month period preceding the date of listing; or
 - (iii) five (5) percent of the total shares outstanding worldwide if at least 70 percent of the worldwide trading volume in such security occurs in the U.S. market during the six-month period preceding the date of listing.
 - (B) If a Company proposes to issue SEEDS that relate to more than the allowable percentages of the underlying security specified above, then IEX, with the concurrence of the staff of the Division of Trading and Markets of the Commission, will evaluate the maximum percentage of SEEDS that may be issued on a case-by-case basis.
- (5) Prior to the commencement of trading of a particular SEEDS listed pursuant to this subsection, IEX or its subsidiaries will distribute a circular to the membership providing guidance regarding IEX member firm compliance responsibilities (including suitability recommendations and account approval) when handling transactions in SEEDS.

Rule 16.120. Trust Issued Receipts

(a) Definitions

- (1) The term "Trust Issued Receipt" means a security (a) that is issued by a trust ("Trust") which holds specified securities deposited with the Trust; (b) that, when aggregated in some specified minimum number, may be surrendered to the trust by the beneficial owner to receive the securities; and (c) that pays beneficial owners dividends and other distributions on the deposited securities, if any are declared and paid to the trustee by an issuer of the deposited securities.

(b) Listing Requirements

- (1) IEX requires that Members provide to all purchasers of newly issued Trust Issued Receipts a prospectus for the series of Trust Issued Receipts.
- (2) The eligibility requirements for component securities that are represented by a series of Trust Issued Receipts and that became part of the Trust Issued Receipt when the security was either:

- (A) distributed by a Company already included as a component security in the series of Trust Issued Receipts; or
- (B) received in exchange for the securities of a Company previously included as a component security that is no longer outstanding due to a merger, consolidation, corporate combination or other event, shall be as follows:
 - (i) the component security must be listed on IEX or another national securities exchange;
 - (ii) the component security must be registered under Section 12 of the Act; and
 - (iii) the component security must have a Standard & Poor's Sector Classification that is the same as the Standard & Poor's Sector Classification represented by the component securities included in the Trust Issued Receipt at the time of the distribution or exchange.
- (3) Transactions in Trust Issued Receipts may be effected until 4:00 p.m. ET each business day.
- (4) IEX may list and trade Trust Issued Receipts based on one or more securities. The Trust Issued Receipts based on particular securities shall be designated as a separate series and shall be identified by a unique symbol. The securities that are included in a series of Trust Issued Receipts shall be selected by IEX or its agent, a wholly-owned subsidiary of IEX, or by such other person as shall have a proprietary interest in such Trust Issued Receipts.
- (5) Trust Issued Receipts will be listed and traded on IEX subject to application of the following criteria:
 - (A) Initial Listing — for each Trust, IEX will establish a minimum number of Trust Issued Receipts required to be outstanding at the time of the commencement of trading on IEX.
 - (B) Continued Listing. Following the initial twelve month period following formation of a Trust and commencement of trading on IEX,

IEX will consider the suspension of trading in or removal from listing of a Trust upon which a series of Trust Issued Receipts is based under any of the following circumstances:

 - (i) if the Trust has more than 60 days remaining until termination and there are fewer than 50 record and/or beneficial holders of Trust Issued Receipts for 30 or more consecutive trading days;
 - (ii) if the Trust has fewer than 50,000 receipts issued and outstanding;
 - (iii) if the market value of all receipts issued and outstanding is less than \$1 million; or
 - (iv) if such other event shall occur or condition exists which, in the opinion of IEX, makes further dealings on IEX inadvisable.

Upon termination of a Trust, IEX requires that Trust Issued Receipts issued in connection with such Trust be removed from listing. A Trust may terminate in accordance with the provisions of the Trust prospectus, which may provide for termination if the value of securities in the Trust falls below a specified amount.
 - (C) Term. The stated term of the Trust shall be as stated in the Trust prospectus. However, a Trust may be terminated under such earlier circumstances as may be specified in the Trust prospectus.
 - (D) Trustee. The following requirements apply:
 - (i) the trustee of a Trust must be a trust company or banking institution having substantial capital and surplus and the experience and facilities for handling corporate trust business. In cases where, for any

reason, an individual has been appointed as trustee, a qualified trust company or banking institution must be appointed co-trustee.

(ii) no change is to be made in the trustee of a listed issue without prior notice to and approval of IEX.

(E) Voting — voting rights shall be as set forth in the Trust prospectus.

(6) Unit of Trading. Transactions in Trust Issued Receipts may only be made in round lots of 100 receipts or round lot multiples.

(7) IEX may approve a series of Trust Issued Receipts for listing and trading on IEX pursuant to Rule 19b-4(e) under the Act, provided each of the component securities satisfies the following criteria:

(A) each component security must be registered under Section 12 of the Act;

(B) each component security must have a minimum public float of at least \$150 million;

(C) each component security must be listed on IEX or another national securities exchange;

(D) each component security must have an average daily trading volume of at least 100,000 shares during the preceding sixty-day trading period;

(E) each component security must have an average daily dollar value of shares traded during the preceding sixty-day trading period of at least \$1 million; and

(F) the most heavily weighted component security may not initially represent more than 20% of the overall value of the Trust Issued Receipt.

Rule 16.125. Index Warrants

(a) Definitions

(1) "Index Warrants" means instruments that are direct obligations of the issuing company, either exercisable throughout their life (i.e., American style) or exercisable only on their expiration (i.e., European style), entitling the holder to a cash settlement in U.S. dollars to the extent that the index has declined below (for a put warrant) or increased above (for a call warrant) the pre-stated cash settlement value of the index. Index Warrants may be based on either foreign or domestic indexes.

(b) Listing Requirements

(1) An Index Warrant may be listed if it substantially meets the following criteria:

(A) The minimum public distribution shall be at least 1 million warrants.

(B) The minimum number of Public Holders shall be at least 400.

(C) The Market Value of the outstanding Index Warrants shall be at least \$4 million.

(D) The issuer of the Index Warrants must have a minimum tangible net worth in excess of \$150 million.

(E) The term of the Index Warrant shall be for a period from one to five years.

(F) Limitations on Issuance. Where a Company has a minimum tangible net worth in excess of \$150 million but less than \$250 million, IEX will not list stock Index Warrants of the Company if the value of such warrants plus the aggregate value, based upon the original issuing price, of all outstanding stock index,

currency index and currency warrants of the Company and its affiliates combined that are listed for trading on IEX or another national securities exchange exceeds 25% of the Company's net worth.

- (G) A.M. Settlement. The terms of stock Index Warrants for which 25% or more of the value of the underlying index is represented by securities that are traded primarily in the United States must provide that the opening prices of the stocks comprising the index will be used to determine (i) the final settlement value (i.e., the settlement value for warrants that are exercised at expiration) and (ii) the settlement value for such warrants that are valued on either of the two business days preceding the day on which the final settlement value is to be determined.
- (H) Automatic Exercise. All stock Index Warrants and any other cash-settled warrants must include in their terms provisions specifying (i) the time by which all exercise notices must be submitted and (ii) that all unexercised warrants that are in the money (or that are in the money by a stated amount) will be automatically exercised on their expiration date or on or promptly following the date on which such warrants are delisted by IEX (if such warrant issue has not been listed on another national securities exchange).
- (I) Foreign Country Securities. In instances where the stock index underlying a warrant is comprised in whole or in part with securities traded outside the United States, the foreign country securities or American Depositary Receipts ("ADRs") thereon that (i) are not subject to a comprehensive surveillance agreement, and (ii) have less than 50% of their global trading volume in dollar value within the United States, shall not, in the aggregate represent more than 20% of the weight of the index, unless such index is otherwise approved for warrant or option trading.
- (J) Changes in Number of Warrants Outstanding. Issuers of stock Index Warrants either will make arrangements with warrant transfer agents to advise IEX immediately of any change in the number of warrants outstanding due to the early exercise of such warrants or will provide this information themselves. With respect to stock Index Warrants for which 25% or more of the value of the underlying index is represented by securities traded primarily in the United States, such notice shall be filed with IEX no later than 4:30 p.m. Eastern Time, on the date when the settlement value for such warrants is determined. Such notice shall be filed in such form and manner as may be prescribed by IEX from time to time.
- (K) Only eligible broad-based indexes can underlie Index Warrants. For purposes of this subparagraph, eligible broad-based indexes shall include those indexes approved by the Commission to underlie Index Warrants or index options traded on a national securities exchange.

Any Index Warrant listed pursuant to this paragraph shall not be required to meet the requirements of IEX Rule 14.203(h), 14.203(a), or 14.320. IEX may apply additional or more stringent criteria as necessary to protect investors and the public interest.

Rule 16.127. Trading in Commodity-Related Securities

- (a) IEX will consider for trading pursuant to unlisted trading privileges, a Commodity-Related Security that meets the criteria of this IEX Rule. Unless otherwise noted, a Commodity-Related Security approved for trading under this IEX Rule is eligible for trading during all IEX market sessions if members comply with IEX Rule 3.290 when accepting Commodity-Related Security orders for execution in the Pre-Market Session or Post-Market Session.
- (b) Applicability. This IEX Rule is applicable only to Commodity-Related Securities. Except to the extent inconsistent with this IEX Rule, or unless the context otherwise requires, the provisions of all other IEX Rules shall be applicable to the

trading on IEX of such securities. Commodity-Related Securities are included within the definition of "security" or "securities" as such terms are used in the IEX Rules.

- (c) Definitions. The following terms shall, unless the context otherwise requires, have the meaning herein specified:
- (1) Commodity-Related Security. The term "Commodity-Related Security" means a security that is issued by a trust, partnership, commodity pool or similar entity that invests, directly or through another entity, in any combination of commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives, or the value of which is determined by the value of commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives.
 - (2) Commodity. The term "commodity" is defined in Section 1(a)(4) of the Commodity Exchange Act.
- (d) Information Barriers. A member acting as a registered market maker in a Commodity-Related Security is obligated to establish adequate information barriers when such market maker engages in inter-departmental communications. Members should refer to NASD/NYSE Joint Memo on Chinese Wall Policies and Procedures (NASD Notice to Members 91-45) for guidance on the "'minimum elements' of adequate Chinese Wall policy and procedures." For purposes of a Commodity-Related Security only, "inter-departmental communications" shall include communications to other departments within the same firm or the firm's affiliates that involve trading in commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives underlying such Commodity-Related Security
- (e) Market Maker Accounts. A member acting as a registered market maker in a Commodity-Related Security must file with IEX Regulation in a manner prescribed by IEX Regulation and keep current a list identifying all accounts for trading in commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives underlying such Commodity-Related Security, in which the market maker holds an interest, over which it may exercise investment discretion, or in which it shares in the profits and losses. No market maker shall trade in, or exercise investment discretion with respect to, such underlying commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives, in an account in which a market maker, directly or indirectly, controls trading activities, or has an interest in the profits or losses thereof, that has not been reported as required by this IEX Rule.
- (f) The member acting as a registered market maker in a Commodity-Related Security shall make available to IEX Regulation such books, records or other information pertaining to transactions by such entity or registered or non-registered employee affiliated with such entity for its or their own accounts for trading commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives underlying such Commodity-Related Security, as may be requested by IEX Regulation.
- (g) In connection with trading a Commodity-Related Security or commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives underlying a Commodity-Related Security, the member acting as a market maker in a Commodity-Related Security shall not use any material nonpublic information received from any person associated with the member or employee of such person regarding trading by such person or employee in the commodities, futures contracts, options on futures contracts, forward contracts, commodity swaps, or other related derivatives underlying such Commodity-Related Security.
- (h) IEX requires that members provide all purchasers of a newly issued Commodity-Related Security a prospectus for such Commodity-Related Security.

Rule 16.130. Listing Requirements for Securities Not Otherwise Specified (Other Securities)

(a) Initial Listing Requirements

- (1) IEX will consider listing any security not otherwise covered by the criteria in the Chapter 14 or 16 Series, provided the instrument is otherwise suited to trade through the facilities of IEX. Such securities will be evaluated for listing against the following criteria:
 - (A) The Company shall have assets in excess of \$100 million and stockholders' equity of at least \$10 million. In the case of a Company which is unable to satisfy the income criteria set forth in IEX Rule 14.310(c)(1), IEX generally will require the Company to have the following:
 - (i) assets in excess of \$200 million and stockholders' equity of at least \$10 million; or

 - (B) For equity securities, there must be:
 - (i) a minimum of 400 holders of the security; and
 - (ii) a minimum public distribution of 1,000,000 trading units.

However, if the instrument is redeemable at the option of the holders thereof on at least a weekly basis, these requirements shall not apply.
 - (C) The aggregate market value/principal amount of the security shall be at least \$4 million.
- (2) Issuers of securities listed pursuant to this IEX Rule 16.130 must be listed on the NASDAQ Global Market, NASDAQ Global Select Market or the New York Stock Exchange (NYSE) or be an affiliate of a Company listed on the NASDAQ Global Market, NASDAQ Global Select Market or the NYSE; provided, however, that the provisions of IEX Rule 14.320 will be applied to sovereign issuers of "other" securities on a case-by-case basis.
- (3) Prior to the commencement of trading of securities listed pursuant to this paragraph, IEX will evaluate the nature and complexity of the issue and, if appropriate, distribute a circular to the membership providing guidance regarding IEX member firm compliance responsibilities and requirements when handling transactions in such securities.

(b) Continued Listing Requirements

Except as otherwise provided in these rules, the aggregate market value or principal amount of publicly-held units must be at least \$1 million.

Rule 16.135. Managed Fund Shares

- (a) IEX will consider listing Managed Fund Shares that meet the criteria of IEX Rule 16.135.
- (b) Applicability. IEX Rule 16.135 is applicable only to Managed Fund Shares. Except to the extent inconsistent with IEX Rule 16.135, or unless the context otherwise requires, the rules and procedures of the Board of Directors shall be applicable to the trading on IEX of such securities. Managed Fund Shares are included within the definition of "security" or "securities" as such terms are used in the Rules of IEX.
 - (1) IEX will file separate proposals under Section 19(b) of the Act before the listing of Managed Fund Shares.
 - (2) Transactions in Managed Fund Shares will occur throughout IEX's system hours.
 - (3) Minimum Price Variant. The minimum price variant for quoting and entry of orders in Managed Fund Shares is \$0.01.

- (4) Surveillance Procedures. IEX will implement written surveillance procedures for Managed Fund Shares.
 - (5) Creation and Redemption. For Managed Fund Shares based on an international or global portfolio, the statutory prospectus or the application for exemption from provisions of the Investment Company Act of 1940 for the series of Managed Fund Shares must state that such series must comply with the federal securities laws in accepting securities for deposits and satisfying redemptions with redemption securities, including that the securities accepted for deposits and the securities used to satisfy redemption requests are sold in transactions that would be exempt from registration under the Securities Act of 1933.
- (c) Definitions. The following terms as used in the Rules shall, unless the context otherwise requires, have the meanings herein specified:
- (1) Managed Fund Share. The term "Managed Fund Share" means a security that (a) represents an interest in a registered investment company ("Investment Company") organized as an open-end management investment company or similar entity, that invests in a portfolio of securities selected by the Investment Company's investment adviser consistent with the Investment Company's investment objectives and policies; (b) is issued in a specified aggregate minimum number in return for a deposit of a specified portfolio of securities and/or a cash amount with a value equal to the next determined net asset value; and (c) when aggregated in the same specified minimum number, may be redeemed at a holder's request, which holder will be paid a specified portfolio of securities and/or cash with a value equal to the next determined net asset value.
 - (2) Disclosed Portfolio. The term "Disclosed Portfolio" means the identities and quantities of the securities and other assets held by the Investment Company that will form the basis for the Investment Company's calculation of net asset value at the end of the business day.
 - (3) Intraday Indicative Value. The term "Intraday Indicative Value" is the estimated indicative value of a Managed Fund Share based on current information regarding the value of the securities and other assets in the Disclosed Portfolio.
 - (4) Reporting Authority. The term "Reporting Authority" in respect of a particular series of Managed Fund Shares means IEX, an institution, or a reporting service designated by IEX or by the exchange that lists a particular series of Managed Fund Shares (if IEX is trading such series pursuant to unlisted trading privileges) as the official source for calculating and reporting information relating to such series, including, but not limited to, the Intraday Indicative Value; the Disclosed Portfolio; the amount of any cash distribution to holders of Managed Fund Shares, net asset value, or other information relating to the issuance, redemption or trading of Managed Fund Shares. A series of Managed Fund Shares may have more than one Reporting Authority, each having different functions.
- (d) Initial and Continued Listing. Managed Fund Shares will be listed and traded on IEX subject to application of the following criteria:
- (1) Initial Listing. Each series of Managed Fund Shares will be listed and traded on IEX subject to application of the following initial listing criteria:
 - (A) For each series, IEX will establish a minimum number of Managed Fund Shares required to be outstanding at the time of commencement of trading on IEX.
 - (B) IEX will obtain a representation from the issuer of each series of Managed Fund Shares that the net asset value per share for the series will be calculated daily and that the net asset value and the Disclosed Portfolio will be made available to all market participants at the same time.

- (2) Continued Listing. Each series of Managed Fund Shares will be listed and traded on IEX subject to application of the following continued listing criteria:
- (A) Intraday Indicative Value. The Intraday Indicative Value for Managed Fund Shares will be widely disseminated by one or more major market data vendors at least every 15 seconds during the time when the Managed Fund Shares trade on IEX.
 - (B) Disclosed Portfolio.
 - (i) The Disclosed Portfolio will be disseminated at least once daily and will be made available to all market participants at the same time.
 - (ii) The Reporting Authority that provides the Disclosed Portfolio must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the actual components of the portfolio.
 - (C) Suspension of trading or removal. IEX will consider the suspension of trading in or removal from listing of a series of Managed Fund Shares under any of the following circumstances:
 - (i) if, following the initial twelve-month period after commencement of trading on IEX of a series of Managed Fund Shares, there are fewer than 50 beneficial holders of the series of Managed Fund Shares for 30 or more consecutive trading days;
 - (ii) if the value of the Intraday Indicative Value is no longer calculated or available or the Disclosed Portfolio is not made available to all market participants at the same time;
 - (iii) if the Investment Company issuing the Managed Fund Shares has failed to file any filings required by the Commission or if IEX is aware that the Investment Company is not in compliance with the conditions of any exemptive order or no-action relief granted by the Commission to the Investment Company with respect to the series of Managed Fund Shares; or
 - (iv) if such other event shall occur or condition exists which, in the opinion of IEX, makes further dealings on IEX inadvisable.
 - (D) Trading Halt. If the Intraday Indicative Value of a series of Managed Fund Shares is not being disseminated as required, IEX may halt trading during the day in which the interruption to the dissemination of the Intraday Indicative Value occurs. If the interruption to the dissemination of the Intraday Indicative Value persists past the trading day in which it occurred, IEX will halt trading no later than the beginning of the trading day following the interruption. In addition, if IEX becomes aware that the net asset value or the Disclosed Portfolio with respect to a series of Managed Fund Shares is not disseminated to all market participants at the same time, it will halt trading in such series until such time as the net asset value or the Disclosed Portfolio is available to all market participants.
 - (E) Termination. Upon termination of an Investment Company, IEX requires that Managed Fund Shares issued in connection with such entity be removed from listing on IEX.
 - (F) Voting. Voting rights shall be as set forth in the applicable Investment Company prospectus.
- (e) Limitation of Liability. Neither IEX, the Reporting Authority, nor any agent of IEX shall have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any current portfolio value; the current value of the portfolio of securities required to be deposited to the open-end management investment company in connection with issuance of Managed Fund Shares; the amount of any dividend equivalent

payment or cash distribution to holders of Managed Fund Shares; net asset value; or other information relating to the purchase, redemption, or trading of Managed Fund Shares, resulting from any negligent act or omission by IEX, the Reporting Authority or any agent of IEX, or any act, condition, or cause beyond the reasonable control of IEX, its agent, or the Reporting Authority, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission, or delay in the reports of transactions in one or more underlying securities.

- (f) Disclosures. The provisions of this subparagraph apply only to series of Managed Fund Shares that are the subject of an order by the Securities and Exchange Commission exempting such series from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and are not otherwise subject to prospectus delivery requirements under the Securities Act of 1933. IEX will inform its members regarding application of these provisions of this subparagraph to a particular series of Managed Fund Shares by means of an information circular prior to commencement of trading in such series.

IEX requires that members provide to all purchasers of a series of Managed Fund Shares a written description of the terms and characteristics of those securities, in a form prepared by the open-end management investment company issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, members shall include such a written description with any sales material relating to a series of Managed Fund Shares that is provided to customers or the public. Any other written materials provided by a member to customers or the public making specific reference to a series of Managed Fund Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of (the series of Managed Fund Shares) has been prepared by the (open-end management investment company name) and is available from your broker. It is recommended that you obtain and review such circular before purchasing (the series of Managed Fund Shares)."

A member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase a series of Managed Fund Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to members under this IEX Rule. Upon request of a customer, a member shall also provide a prospectus for the particular series of Managed Fund Shares.

- (g) If the investment adviser to the Investment Company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a "fire wall" between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such Investment Company portfolio. Personnel who make decisions on the Investment Company's portfolio composition must be subject to procedures designed to prevent the use and dissemination of material nonpublic information regarding the applicable Investment Company portfolio.

Rule 16.160. Derivative Securities Traded under Unlisted Trading Privileges

IEX may extend unlisted trading privileges to any security that is an NMS Stock (as defined in Rule 600 of Regulation NMS under the Act) that is listed on another national securities exchange. Any such security will be subject to all IEX trading rules applicable to NMS Stocks, unless otherwise noted, including provisions of IEX Rule 11.280, Chapter 14, and Chapter 16.

(a) Any security that is a "new derivative securities product" as defined in Rule 19b-4(e) under the Act (a "UTP Derivative Security") and traded under unlisted trading privileges pursuant to Rule 19b-4(e) under the Act shall be subject to the additional following rules:

- (1) Form 19b-4(e). IEX shall file with the Commission a Form 19b-4(e) with respect to each UTP Derivative Security.
- (2) Information Circular. IEX shall distribute an information circular prior to the commencement of trading in each such UTP Derivative Security that generally includes the same information as contained in the information circular provided by the listing exchange, including: (a) the special risks of trading the new derivative securities product; (b) the Rules of IEX that will apply to the new derivative securities product, including Rule 3.170; (c) information about the dissemination of the value of the underlying assets or indexes; and (d) the applicable system hours for the UTP Derivative Security and the risks of trading during the period from 8:00 a.m. to 9:30 a.m. and from 4:00 p.m. to 7:00 p.m. due to the lack of calculation or dissemination of the underlying index value, the Intra-Day Indicative Value (as defined in IEX Rule 16.105(a)(3)(C)) or a similar value.
- (3) Product Description.

Members are subject to the prospectus delivery requirements under the Securities Act of 1933, unless the UTP Derivative Security is the subject of an order by the Commission exempting the product from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and the product is not otherwise subject to prospectus delivery requirements under the Securities Act of 1933.

IEX shall inform Members of the application of the provisions of this subparagraph to UTP Derivative Securities by means of an information circular. IEX requires that Members provide all purchasers of UTP Derivative Securities a written description of the terms and characteristics of those securities, in a form approved by IEX or prepared by the open-ended management company issuing such securities, not later than the time a confirmation of the first transaction in such series is delivered to such purchaser. In addition, Members shall include a written description with any sales material relating to UTP Derivative Securities that is provided to customers or the public. Any other written materials provided by a Member to customers or the public making specific reference to the

UTP Derivative Securities as an investment vehicle must include a statement substantially in the following form:

"A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities]."

A Member carrying an omnibus account for a non-Member is required to inform such non-Member that execution of an order to purchase UTP Derivative Securities for such omnibus account will be deemed to constitute an agreement by the non-Member to make such written description available to its customers on the same terms as are directly applicable to the Member under this IEX Rule.

Upon request of a customer, a Member shall also provide a prospectus for the particular UTP Derivative Securities.

- (4) Trading Halts. Trading halts of UTP Derivative Securities shall be governed by IEX Rule 11.280, IEX Rule 16.170, or Supplementary Material .01(c) to IEX Rule 14.207.
- (5) Limitations on Market Makers. Market makers in a UTP Derivative Security that is a Commodity-Related Security (as defined in IEX Rule 16.127) shall comply with IEX Rule 16.127.

- (6) Surveillance. IEX shall enter into a comprehensive surveillance sharing agreement with markets trading components of the index or portfolio on which the UTP Derivative Security is based to the same extent as the listing exchange's rules require the listing exchange to enter into a comprehensive surveillance sharing agreement with such markets.

Rule 16.170. Trading Halts for Trading of Certain Derivative Securities Products on IEX Pursuant to Unlisted Trading Privileges

- (a) During Pre-Market Session. If a Derivative Securities Product begins trading on IEX in the Pre-Market Session and subsequently a temporary interruption occurs in the calculation or wide dissemination of an applicable Required Value, IEX may continue to trade the Derivative Securities Product for the remainder of the Pre-Market Session.
- (b) During Regular Market Hours. During the Regular Market Hours, if a temporary interruption occurs in the calculation or wide dissemination of an applicable Required Value, and the listing market halts trading in the Derivative Securities Product, IEX, upon notification by the listing market of a halt due to such temporary interruption, also shall immediately halt trading in the Derivative Securities Product on IEX.
- (c) Post-Market Session and Next Trading Day.
- (1) If an applicable Required Value continues not to be calculated or widely disseminated after the close of the Regular Market Session, IEX may trade the Derivative Securities Product in the Post-Market Session only if the listing market traded the Derivative Securities Product until the close of its regular trading session without a halt.
- (2) If an applicable Required Value continues not to be calculated or widely disseminated as of the beginning of the Pre-Market Session on the next trading day, IEX shall not commence trading of the Derivative Securities Product in the Pre-Market Session that day. If an interruption in the calculation or wide dissemination of an applicable Required Value continues, IEX may resume trading in the Derivative Securities Product only if calculation and wide dissemination of the applicable Required Value resumes or trading in the Derivative Securities Product resumes in the listing market.
- (d) Definitions. For purposes of this IEX Rule:
