Administrative Proceedings File # 3-11701

To Whom It May Concern:

Yesterday I wrote you about my investment in Invesco which later merged with Airm. I failed to include my investment in Federated Trust Fund F H Y T X account # [REDACTED] I opened it at the same time as Invesco and with the same amount of money \$40,000. on 3/17/95 NAV 8.58 SHARES 4662.005. I have never sold shares and Average monthly Dividend then was \$3.50 a month In 2001 average monthly Dividend Income was \$2.80 a month Until 2003 Then average became \$1.80-\$1.70 now and Shares are 4771.004. Schwab recommended both these funds to me Mark Durbin was and is the Fund Manager of Federated High Yield Trust Fund. Present NAV is 5.99 7/20/07. My principle has declined to \$28,578. though shares increased by purchasing more and never selling any. As stated in yesterday's letter the income from these Mutual Funds - Invesco and Federated, both purchased on 3/17/95 at \$40,000 invested in each through Charles Schwab, declined drastically, which prompted me to contact my U.S. Senator many years ago and I provided her documents. Years later a gentleman phoned only asking if I had purchased the 2 Mutual Funds through Chas. Schwab, I said "yes" & no more was said. Years later notices arrived in the mail of Law Suits against these Mutual Fund Companies. Perhaps this was set off by my contacting my U.S. Senator of my extreme impoverished situation requesting help. Still the Status quo remains; I feel high Fund Fees & Low Returns and in effect getting my own money back in monthly dividends is unfair. Perhaps I deserve a larger settlement distribution if what happened years ago helped in this Class Action Law Suit. [Signature] Martin
