Dear Ms. Burton

This letter is in response to your November 21st letter and the planned distribution for the Salutric Case. I should be included in this distribution and any other distribution plans for the Salutric Case.

In 2008 Mr. Salutric had a \$100,000 check from my retirement plan sent to my house. He came over and asked me to endorse it over to him for an investment. He told the investment would be safe and get a better return than what I was invested in before.

Mr. Salutric had invested my money since my wife passed away. I trusted him and even though I felt pressured I endorsed the check over to him.

Mr. Salutric never explained the investment. Never told me where or how it would be invested and I never received any written reports from him. If I had known the situation and it was explained to me I would of never endorsed the check. I feel he used my trust to take my money and do what he wanted with it. From what I know all of the money he invested was lost.

Please include in this distribution and future distributions. I was part of the fraud that Mr. Salutric was convicted of.

Sincerely,

Chris M Hrgich
