

Hi there,

I am a lawyer in Canada.

I receive 10 emails a day pumping Pink sheet stocks.
The current stock is Bicoastal Communications BCLC.PK

I believe there should be rules that :

1. Pink Sheet Stocks which are spammed, should be subject to immediate suspension pending a show-cause hearing.
2. There should be a spam forwarding address where spam can be forwarded so that the offending parties can show-cause why MILLIONS of emails pumping their stock is outside their control.
3. Since forging email addresses is rampant, the onus should be on the corporation to locate the source of the spam and do something about it.
Nobody spams for free. They are ones who stand to benefit.

The Spam is contained in a GIF image to prevent spam filters from working. I enclose one of the 10 I received today.

Thank you
