

Nancy M. Morris, Secretary
U.S. SEC
100 F. St., NE.

Dear Ms. Morris,

We need to end corporate secrecy
on the impact of climate change.

Climate change will have a huge
impact on U.S. businesses and our
economy - yet most American
companies are failing to disclose
these risks.

That's why I encourage the SEC -
and Congress - to ~~adopt~~ the
"Petition for Interpretive Guidance
on Climate Risk Disclosure" filed
with your Agency on Sept. 18, 2007.

The SEC already requires companies
to ~~disclose~~ disclose risks to
sales and revenues. Climate Change
risks are huge and need to also
be made public so investors and

others can make informed
decisions.

Thank you for consideration of
this critical issue.
