Subject: Investor protection by the SEC

Dear Ms. White:

I just had an interchange with a FB friend about the SEC and your Chairmanship. Sadly, they expressed dismay and a lack of confidence in your stewardship. One of them linked this article.

Ms. White, I hope your future rulings will paint a much different picture. The American people are counting on you to help protect us from another meltdown. It is your job to regulate an industry that has caused enormous financial pain not only to our country but to the world. I ask you to consider not only your obligation to us but your moral duty.

Again, I hope we can expect much better from you.

Very truly yours/Susan Dailey
