Chair Gary Gensler,
Information is power. Without clear, consistent, reliable information with sufficient detail, I am powerless to make investment decisions that reflect my values. I need companies and banks to reveal information about their climate risks, contribution to climate change (including total direct and indirect greenhouse gas emissions), and other sustainability issues like fair treatment of workers and communities, diversity, equity, and inclusion, environmental and economic benefits and harms, and political spending. The only way that's going to happen is if you make them do it.
Jonathan Poland
