

Dear Honorable SEC Member,

This link <https://xueqiu.com/9940750130/151712604> shows more evidence of just how manipulated the price of GSX Techedu is. 6/15/20 (6/16/20 in Beijing) the price of GSX had the biggest gain out of all 338 days it has traded at +21%. 6/16/20 is also the 6 year anniversary of GSX! What an anniversary present!

The GSX closing price on GSX's 6th anniversary was \$52.00. 5.2.0 sounds like and means "I love you" in Chinese: <https://ninchanese.com/blog/2016/05/20/520-chinese-love-word-number/>

The GSX high price on GSX's 6th anniversary was \$55.88. Which means "Me me make a fortune make a fortune" in Chinese numerology:

So now add all this to when on 8/7/20 (8/8/20 in Beijing, notice the 88 again) GSX hit its all time high of \$141.78 (8% above the previous close) and then immediately crashed 30%. "141.78" means something similar to "okay, let's die together then" in Chinese. Ask someone who is fluent in Chinese and they will agree.

Here's another link showing 6/16/14 is a GSX anniversary:

So this is clear manipulation in my humble opinion which is illegal. Please investigate these specific trades mentioned (the person/people/firm behind them) and the fraud occurring at GSX could possibly unravel even more.

All the Best,

Joe
