Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I strongly support regulations that would require publicly-traded companies to disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented heights, the public has the right to know which corporations are fueling the yawning gap between rich and poor.

Disclosure of CEO-to-worker pay ratios are also crucial for investors. This information is important for determining whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. Additionally, investors need to be able to gauge whether executives' compensation is falling in line with their performance.

I am so disillusioned with my Elected officials and the Agencies set up to protect Americans, being undermined with Corporate money. Our America is being undermined and tuned into a third world nation. I am disgusted by the disparity in pay of the CEOs and the average worker, and the fact that the taxpayers are subsidizing this. Our Country is in a shambles due to this inequity. Our schools and infrastructure are crumbling, and the corruption is so obvious. I used to be an Idealist, America had so much potential, yet we have been robbed. The American dream is a lie.

Sincerely,

Mary Doino
