Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I very much favor having all CEO and corporate executive salaries be a part of the record that corporations are required to provide the public. This country (usa) needs more economic balance or it will fail and this type of information will help provide balance.

I strongly support regulations that would require publicly-traded companies to disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented heights, the public has the right to know which corporations are fueling the yawning gap between rich and poor.

Disclosure of CEO-to-worker pay ratios are also crucial for investors. This information is important for determining whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. Additionally, investors need to be able to gauge whether executives' compensation is falling in line with their performance.

Sincerely,

Vishnu
