Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

The corporations of America hold extensive power over the lives of everyday Americans, and wield extensive political power. Much of that power depends on the amount of money they have behind them. We as Americans should know this, so we have more information when they try to wield their political power, and so we have more information when we spend our dollars, if we choose to spend them on products made by companies that treat their workers more fairly in a financial aspect.

Sincerely,

Linda Bailey
