Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

The wealthiest 5% own majority shares in all major corporations. That means they become the boards, executives, and make ALL the decisions as to how the company functions. Since they are the decision makers, THEY make every corporation's damage. ALL our pollution, social injustice, and political damage are resultant FROM these decisions. Toxic air? Water? Food? Missing oxygen levels - planetary? radiation poisoning? (dead ocean in Pacific)war? poverty? hunger?
ALL CAUSED BY CORPORATE LEADERS!!!!
Yes, we need to know how rich they make themselves at our expense and flog them heavily.

Sincerely,

Brad Roon
