Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

This is a letter in support of proposed regulations requiring disclosure of CEO-to-median worker pay ratios by publicly-traded companies. The gigantic disparities in income between executives and the "regular" workforce are disturbing and unjust. Although I am not an investor, I am an active consumer of many products. I feel it only right to know enough about income distribution in publicly traded companies to make my purchasing choices with those facts in mind.

If I were an investor, I should be fully aware of CEO-to-worker pay ratios so I can judge whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. As importantly, investors must be knowledgeable enough to determine if executive compensation is warranted by their performance.

Thank you for your consideration of my comments.

Sincerely,

Ariel Harris
