Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I am an investor.

CEO pay in the US averages 400x the median worker pay. The next closet nation to these levels is venezuela at 50x. OUr industrialized allies come in at England 22x, France 18x, and Germany at 15x. Our CEO/ worker ratio is OUTRAGEOUS!!!

I strongly support regulations that would require publicly-traded companies to disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented heights, the public has the right to know which corporations are fueling the yawning gap between rich and poor.

Disclosure of CEO-to-worker pay ratios are also crucial for investors. This information is important for determining whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. Additionally, investors need to be able to gauge whether executives' compensation is falling in line with their performance.

Sincerely,

Dan Elliott
