Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

I know that CEOs need to and do make more than the median worker. However, it must meet a reasonability check. Moderation in paychecks are important for equity in compensation. I urge SEC to resist any pressure against this disclosure by Corporate officers. Nobody should support this exclusive club rewarded at obscene levels while the common employees have hard time making ends meet.

Sincerely,

Quadir Khan
