Re: Pay Ratio Disclosure, File No. S7-07-13

Dear Ms. Murphy,

HOW DARE organizations such as the US Chamber of Commerce to oppose these regulations, which SHED LIGHT on the obscene levels to which CEO compensation has risen in the USA!

I strongly support regulations that would require publicly-traded companies to disclose CEO-to-median worker pay ratios. As income inequality reaches unprecedented heights, the public has the right to know which corporations are fueling the yawning gap between rich and poor.

Disclosure of CEO-to-worker pay ratios are also crucial for investors. This information is important for determining whether corporations are diverting resources to executives at the expense of long-term investments and workforce development. Additionally, investors need to be able to gauge whether executives' compensation is falling in line with their performance.

Sincerely,

Leo Briere
