MS. Schapiro:

I am writing to you to ask for your help. We need you to reinstate the uptick rule today!!! The money woes of this country are getting worse everyday and to let the market be manipulated by greedy investors has got to stop. I for one have lost two retirement funds because of corporate greed and all I have left after 25 years of work is my 401K and It is being decimated by the current conditions.

I have to plan on working until I die. I have been rob cheated and taken advantage of for a long time. I am not asking for a hand out. I just want to keep what is rightfully mine. Please help save the market before it is to late.

Sincerely

D. E. Frye
