Dear Chairman Schapiro,

This is a plea to you to reinstate the "uptick rule". We have had so much chaos in the financial markets, it's hard for me to think that a simple change, back to the "good old days" wouldn't be better. You know the history much better than I do. A move back would be a simple and easy thing to do. With this much chaos and nothing seeming to work, reinstating this rule would help right away.

Thank you,
