Subject: "Uptick Rule"

Dear Chairman Mary Schapiro:

I would assume by now you are working on having the "Uptick Rule" reinstated as soon as possible so that our Stock Market is not driven down further and further. The Market is probably some 30% below its economic value now and we need this to stop not only for us personally but for the good of the entire Country.

As you know I'm sure the "Uptick Rule" served its purpose for over 70 years after our Great Depression in the 1930's keeping short sellers from driving the Market down. It is not right that a few "Professional Short Sellers" should be able to continue to personally profit at the expense of all other investors trying to maintain and possibly build their retirement funds to a small degree at least.

We'll look forward shortly to hearing that you are having the "Uptick Rule" reinstated.

We appreciate your understanding and consideration of our position on this matter.

Sincerely

Tom & Doris Enos
