## Re: Release No. 34–94313; File No. S7–08–22 Short Position and Short Activity Reporting by Institutional Investment Managers

Ms. Countryman:

Retail Investors appreciates the immortalization of confessions from Financial Institutions, Market Makers, Family Offices, Hedge Funds, ISDA Members, & Swaps Counter-Parties on the U.S. Securities and Exchange Commission's (the "SEC" or "Commission") release on proposed Rule 13f-2 ("Proposal") under the Securities Exchange Act of 1934.

Financial Institutions ISDA Counter-Parties, Hedge Funds & Family Offices full knowledge Signed ISDA and Swaps Contract "directly or indirectly, actually or synthetically, relating to such Transaction or any connected hedging activity" "that can be used to create a long or short exposure to the Shares or Index" thereby creating "Synthetic Buyer" or "Synthetic Seller". Utilizing "Share Swap Transaction", "Share Basket Swap Transaction", "Index Swap Transaction", & "Index Basket Swap Transaction" a "Custom Index Basket" without having to own the underlying Shares.

The documentation & confession using financial instruments such as "rate swap transaction, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, equity or equity index option, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option or any other similar transaction (including any option with respect to any of these transactions)" as defined within ISDA agreements. These instruments & "securities-based swaps underlying certain of Archegos' positions in order to raise or depress the price of and induce others to purchase those securities"

"Indeed, internal counsel from the various prime brokers held a call among themselves earlier that day, agreeing that lawyers would be present on any calls between the brokers, and that the lawyers would read a script on each call making clear that no broker was permitted to disclose its Archegos-related positions", including Counter-Parties HUDSON BAY CAPITAL MANAGEMENT LP, BARCLAYS CAPITAL INC., BNP PARIBAS, MERRILL LYNCH INTERNATIONAL, NATIONAL FINANCIAL SERVICES LLC, STATE STREET BANK AND TRUST CO., UBS SECURITIES LLC, BNP PARIBAS SECURITIES CORP., GOLDMAN SACHS & CO. MORGAN CLEARING CORP., MORGAN STANLEY & CO., INC., NATIONAL FINANCIAL SERVICES LLC, BARCLAYS CAPITAL INC., FIDELITY PRIME SERVICES, MERRILL LYNCH INTERNATIONAL, MORGAN STANLEY CAPITAL SERVICES, LLC, THE NORTHERN TRUST INTERNATIONAL BANKING CORPORATION, MORGAN STANLEY FUND SERVICES (CAYMAN) LTD., "CS participated in block sales of overlapping positions on April 5 and 14, 2021, liquidating approximately \$3 billion and \$2.2 billion, respectively, on those dates 134 Otherwise, CS liquidated its other historic Archegos positions through open-market, algorithmic trading. As of April 22, 2021, CS had liquidated 97% of its Archegos exposure." "Goldman was organizing block sales of certain ADR positions and invited CS to participate. CS ultimately participated in three such Goldmanled block trades, selling shares in Baidu, Tencent, and Vipshop Holdings. In these trades, Goldman did not disclose to CS the number of shares it was putting up in the block, and there was no agreement with Goldman as to which broker's shares were being sold first and/or how the sales would be distributed. Apart from the block, CS engaged in algorithmic trading that day, aiming to stay within 2-3% of average daily volume. Ultimately, CS sold just over \$3 billion notional on March 26, approximately \$1.27 billion of which was sold in the Goldman-led block sales."

Family Office Member confession and admissions "...I and others executed trades that allowed the fund to amass market power and certain securities traded on U.S. exchanges. Archegos used securitybased swaps to gain exposure to these securities while concealing the true size of the fund's positions from the market and our trading counterparties. Once Archegos gained market power in these securities, I and others used this power to trade in such a way as to artificially manipulate the prices of the securities. Acting at the direction of the head of the fund [Hwang], I traded to increase the prices of names in which Archegos held long positions and reduced the prices of securities in which the fund hel[d] short positions. I did this by, for example, buying large amounts of a stock when the price dropped in response to negative news or trading premarket when I knew the fund's activity would have a greater impact on price. I manipulated the prices of these securities in order to influence others in the market to buy or sell the securities in ways that would benefit Archegos'[s] purchasing power through variation margin."

Using positions in "highly-liquid, larger cap issuers" towards "less liquid, China-based issuers, as well as relatively smaller cap U.S. media and technology companies" "artificially increase the market value" & "artificially inflate the share prices".

These ISDA Counter-Parties & Swaps Contracts use "manipulative trading in those stocks interrupted the natural interplay of supply and demand for those stocks – and distorted their underlying economic value for the Counterparties and other market participants – by causing at least two sets of false pricing signals in the market: (1) that the Top 10 Holdings stocks were held by a relatively broad range of market participants, reflecting a relatively broad supply and demand for those stocks – when, in fact, a single buyer (Archegos) was surreptitiously, and by fraudulent means, dominating the market for those stocks; and (2) that the prices of those stocks, both daily and over time, reflected normal market forces when, in fact, their steep climb (and ultimate precipitous fall) was due at least largely to Archegos's fraudulently dominating the market for, and engaging in manipulative trading of, those stocks." "These swaps allow clients to obtain "synthetic" leveraged exposure to the underlying stocks without actually owning them." Also known instruments "derivative known as a total return swap ("TRS")".

Before making recommendations regarding the Proposal, it is important to put some ISDA members, Family Offices, & Counter-Parties own confession, admissions and documentation around the shortcomings of the current system and the Commission's goals with this proposal in order to evaluate whether the proposal will be successful.

"Short selling volume and transactions data cannot easily explain changes in short interest, exposing a gap between these two types of existing data." Furthermore, these data sets are subject to differences in reporting lag, and can misrepresent the amount of short selling due to mismarking, manipulation & method by Hedge Funds, Family Offices, Brokerages, Financial Institution, Counter-Parties & ISDA members.

These are significant and material shortcomings in the transparency of US capital markets, but the Commission neglects to acknowledge the impact of these shortcomings. The lack of transparency into short positions has led to deep mistrust & manipulation by these Financial Institutions in markets for retail investors, and especially for newer retail investors. The Commission risks alienating these investors and driving them away from US capital markets if they do not act to provide transparency and certainty for them.

## We Need Increased Transparency

Despite the pushback from industry firms who face increased compliance costs & spotlight shining on the method of manipulation, we fully support the Commission in this rulemaking, and urge the Commission to go further with these disclosures. Our movement is born from frustration over the many complex and conflicted aspects of market structure, with a lack of transparency and visibility into the inner workings around short selling being a primary driver of our retail investor supporters. The lack of transparency around short positions, the inability to adequately quantify short interest, and the ability for firms to skirt regulation through derivative positions such as options and security-based swaps are making a mockery of our free and open markets. The inadequate ability to properly measure and understand economic short exposure leads to supply/demand imbalances in markets and affects trading prices.

We often lament the fact that regulators in other jurisdictions have done more, moved further, and advanced the cause of transparency far more significantly than we have in the US. As other commentators have noted, the EU adopted a short sale reporting regime that essentially requires "immediate public disclosure of large short positions," by individual issuers. Despite this onerous disclosure regime that goes much further than the Proposal, we agree that "a study of the impact of the EU's regulation finds no evidence that the disclosure requirements have resulted in increased coordination or have resulted in short sellers being targeted for short squeezes." The concerns from the industry and from the short selling community are simply not valid.

Harmonizing the Proposal with European standards would provide significant benefits, both from a transparency perspective and from the short-selling investment manager's perspective - it is far easier to comply with the same rule across multiple jurisdictions than to manage varying standards and rules from country to country.

It is also important to note, from the perspective of how to set an appropriate threshold for disclosure that, as the Commission acknowledges, the European threshold of 0.5% is being gamed, and therefore setting a threshold substantially higher than that will lead to even further gaming of the threshold and disclosure avoidance. There should be little doubt that firms will attempt to game any threshold that is set, as has happened with 13F long disclosures for many years. Given the European experience with a very low threshold, we would argue that it is important to set the threshold as low as possible to mitigate any effects and impacts from firms attempting to game the threshold.

Despite the constant concerns expressed in comment letters about "reverse engineering trading strategies" and the concern voiced in the proposal that there would be a "risk of retaliation towards short individual sellers... as well as the ability for market participants to engage in copy-cat strategies," the same can be said of current 13F disclosures. Indeed there is an entire industry that follows 13F and other similar disclosures (e.g., politician trades) and allows for copy-cat strategies.

The value of transparency and the need for investors, both retail and institutional, to understand the holdings of investment managers, as well as to form an accurate picture of short interest and short trading dynamics should far outweigh these concerns. The Commission has agreed with this view in crafting 13F policies, the EU has agreed with this view with their disclosure regime, and the Proposal should be expanded to include robust public disclosure at the individual manager level of this information.

Finally, we would further urge the Commission to set a goal to harmonize reporting timelines for all relevant disclosures, from 13F long and short disclosures to reporting timelines for FINRA and the SROs to ensure that data is released consistently, to avoid misunderstandings and misconceptions.

## **Choice and Control are Fundamental Investor Rights**

Much like the reasoning behind recent proposals from the Commission around ESG Disclosures, retail and institutional investors want to know the composition of the positions of the funds that they are investing in. While retail investors may not always have access to the type of funds that accumulate significant short positions, they may still be in the position of doing business with such firms, and they deserve to know when such firms are betting against core portfolio positions that they may be holding and may be very passionate about.

The feedback from the industry has several consistent themes, but primarily it is focused on disguising short selling activity and reducing transparency. This is antithetical to the Commission's objectives with the Proposal. Investors, both retail and institutional, cannot properly exercise their right to choose investments, counterparties and other relationships without visibility into the firms that they are investing in or doing business with. An appropriate level of transparency is absolutely required to empower investors to act in their own best interests in an informed manner.

## All Short Exposure Must Be Included

The Proposal as currently crafted has a huge hole that must be remedied, one that the Commission is well aware of - "an investor wishing to profit from the decline of a security's value can also trade in various derivative contracts, including options and security-based swaps." The failure to include derivative exposure in this rule will inevitably result in firms exploiting the loophole and will drive more and more firms into the less regulated and less transparent space of derivatives. As the Commission acknowledges in the proposal, "trading in derivatives frequently leads to related trading in the stock market as derivatives' counterparties seek to hedge their risk." Derivatives have an impact on the market, and can have a detrimental effect on the price of stocks, as Archegos demonstrated so clearly. While the positions held by Archegos were not disclosed anywhere publicly because they had exploited a loophole in 13F disclosures, the impact on the market was material and overwhelming. Indeed, had these derivative positions been adequately disclosed, it is likely that institutional broker-dealers would have had enough information to mitigate the impact of Archegos' trading, would have been able to recognize the significant exposure that resulted from the leverage they extended via total return swaps, and would have prevented the crisis from developing in the first place.

In much the same way, it is critical for institutional broker-dealers and for retail and institutional investors to understand the extent to which individual firms have high levels of short exposure to

individual stocks or ETFs, regardless of whether that exposure is via equity, through the use of derivatives or through other novel mechanisms that the Commission has not considered. Markets are changing and evolving, and as regulators impose new disclosure requirements on firms, those firms will figure out ways to game or avoid those disclosures. That's what Archegos did with swaps, and that's what other firms might do with other novel ways of gaining short exposure. One example of this could be through security tokens on crypto exchanges. Another could be through the use of fungible or nearly fungible holdings in foreign affiliates - both equity and derivatives.

If one of the primary goals that the Commission is seeking to achieve with the Proposal is to give retail and institutional investors, along with regulators, better visibility into economic short exposure, it is imperative that all short exposure is included.

We would also encourage the Commission to include ETF creation and redemption activities. "ETFs constitute 10% of U.S. equity market capitalization but over 20% of short interest and 78% of failures-to-deliver." Authorized participants are incentivized to "operationally short" ETFs, and often fail to deliver these shares. This is a potential source of stress on financial markets, and "the potential source of stress on the financial system appears to have shifted from common stocks during the pre-crisis period to ETFs during the post-crisis period." As such, transparency into the ETF creation and redemption process is more important now than ever before. Whether that transparency starts strictly with regulatory transparency versus public disclosure is one that the Commission will have to decide - we would urge full public disclosure of ETFs, and to better understand the short interest numbers in ETFs that can vary wildly.

## **Hedging Indicator**

If the Commission insists on continuing with the aggregated disclosures, we would offer one suggestion for an important change. The current proposal for categorizing a position as not hedged, partially hedged or fully hedged could lead to serious problems and misrepresentations of actual economic short exposure, which is the first shortcoming identified by the Commission. Aggregated information could actually end up being very misleading, by painting an inaccurate picture of the size of short positions despite the "hedging" distribution disclosure. "Partial" hedging could be manipulated or abused to mask true short positions (e.g., by hedging an immaterial portion of the position to flag it as "partially hedged"), and overall gross position disclosures could overstate short position hedged, which could range from 0% to 100%+ if the manager's long position is larger than the manager's short position. This is similar to one of the alternatives proposed by the Commission, to report the delta value of hedged positions. This would be a critically important addition to the Proposal and make it far more informative if aggregation is the direction the Commission goes.

## **Bona Fide Market Making Reporting**

We believe it is important that the Proposal's provision that would "require CAT reporting firms that are reporting short sales to indicate whether such reporting firm is asserting use of the bona fide market making exception under Regulation SHO" is included in the final rule proposal. While we are encouraged by this, as it signals that surveillance teams and regulators are finally trying to better understand the use of this exception, we believe it to be an antiquated exception that is no longer applicable in modern markets, and which should be eliminated. The bona fide market making exemption is being abused, as illustrated by recent enforcement actions, and provides an unreasonable competitive advantage for firms who do not have affirmative obligations to make continuous markets on lit exchanges. As the Commission acknowledges in the proposal, "[f]irms that do not need to obtain a locate prior to effecting a short sale, on the basis of the bona fide market making exception, have a

competitive advantage over firms that are required to obtain a locate because these firms can trade more quickly and more easily adjust to or take advantage of changing market conditions."

It is also possible that market makers are using the bona fide market making exception to include transactions and arrangements where other broker-dealers or customers are using the market maker's exception to avoid compliance with Regulation SHO. It is important that the SEC and FINRA have the surveillance tools and data necessary to police markets, and including this data in CAT should be an easy decision.

While it is outside the scope of the Proposal, we believe that market structure reform should focus on leveling the playing field, and fostering more robust and verdant competition in markets. Repealing regulation that affirmatively advantages certain firms over other firms is an important step in that direction.

## Conclusion

Retail Investors appreciate the opportunity to respond to the Proposal & immortalization of confessions from Financial Institutions, Market Makers, Family Offices, Hedge Funds, ISDA Members, & Swaps Counter-Parties. Thank you for considering our comments and we would be happy for ISDA Members, & Swaps Counter-Parties contracts and admission to answer any questions or further explain any of the points.

## Sincerely,

## M. Williford

whereby all of the brokers would agree not to default Archegos while Archegos would down its positions. While CS was open to considering some form of managed liquidation agreement, it remained firm in its decision to issue a notice of termination, which was sent by email that evening, and followed up by hand-delivery on the morning of March 26, designating March 26 as the termination date. As of March 23, CS had approximately \$27 billion in gross exposure to Archegos, as of March 26. CS had approximately \$17 billion in gross exposure, reflecting the steep decline in the value of Archegos's positions. As of March 23, CS's average margins on Archegos swap positions had creeped up further to approximately 9.4%, and CS's average margin rate across both Prime Brokerage and swap

On the morning of March 26, CS was approached by Archegos and told that Goldman was organizing block sales of certain ADR positions and invited CS to participate. CS ultimately participated in three such Goldman-led block trades, selling shares in Baidu, Tencent, and Vipshop Holdings. In these trades, Goldman did not disclose to CS the number of shares it was putting up in the block, and there was no agreement with Goldman as to which broker's shares were being sold first and/or how the sales would be distributed. Apart from the block, CS engaged in algorithmic trading that day, aiming to stay within 2-3% of average daily volume. Ultimately, CS sold just over \$3 billion notional on March 26, approximately \$1.27 billion of which was sold in the Goldman-led block sales.

Whether or not the market price of the reference security was impacted by any Archegos swap transaction depended not on Archegos but entirely on the counterparty's discretionary risk management judgment - i.e., whether a counterparty chose to hedge its exposure on the swaps by purchasing the underlying security at issue and by how much. securities; and (ii) Custom Basket Swaps which were designed to closely mimic the same broadbased securities indexes as the ETF Swaps. These Broad-Based Security Index Swaps were "short" positions, meaning that Archegos Fund would receive payment under the TRS if the value of the underlying securities declined.

27. An ETF is a type of investment fund that tracks an index, sector, or other asset, whose shares can be bought or sold on an exchange like a stock. Archegos Fund entered into ETF Swaps that tracked broad-based indexes like the S&P 500 index; and the MSCI Emerging Markets Index. Each of those indexes (and hence, each ETF Swap based on those indexes) is based on hundreds of individual component securities, and neither index meets the weighting or trading volume criteria of a narrow-based security index set forth in Section 1a(35) of the Act. 7 U.S.C. § 1a(35). During the Relevant Period, Archegos Fund shorted a net notional value of \$19 billion in ETF Swaps in 256 transactions with at least eight different Swap Counterparties, including multi-billion-dollar short positions in SPDR S&P 500 ETF Trust ("SPY") and iShares MSCI Emerging Markets ETF ("ILFM")

28. Archegos Fund's Custom Basket Swaps largely tracked broad-based indexes like the S&P 500 and MSCI Emerging Markets Index, but they were customized in various ways (for example, to remove certain securities in which Archegos Fund held significant long positions). Archegos Fund's Custom Basket Swaps each referenced hundreds of securities, and the weighting and trading volume of the component securities in each Custom Basket Swap did not meet the definition of a narrow-based security index as set forth in 7 U.S.C. § 1a(35). During the Relevant Period, Archegos Fund traded a net notional value of \$33 billion in Custom Basket Swaps in 185 transactions with at least six different counterparties.

Archegos Fund began building massive, highly concentrated, illiquid long positions in a small number of single securities through long TRS, while partially hedging those long positions through short positions in Broad-Based Security Index Swaps. Archegos Fund's positions were also highly leveraged.

39. At the beginning of March 2020, Archegos Fund's aggregate gross exposure was \$19 billion, and its net exposure was \$7 billion long, consisting of \$13 billion in aggregate long exposure and \$6 billion in aggregate short exposure. A little over a year later, as of March 19, 2021, Archegos Fund's exposure had grown to approximately \$160 billion in aggregate gross exposure and \$52 billion long in net exposure. Consisting of \$106 billion in aggregate long exposure and \$54 billion in aggregate short exposure. During the same time period, Archegos Fund grew over twenty-fold, from about \$1.5 billion to \$35 billion in assets under management. As of March 19, 2021, a little over half of Archegos Fund's gross portfolio, about \$86 billion, consisted of long TRS positions referencing single securities. At the same time, about 20% of Archegos's gross portfolio—\$32 billion—consisted of Custom Basket Swapa. Archegos Fund also held about \$14 billion in ETF Swaps. The remainder of Archegos Fund's portfolio consisted predominantly of long cash securities, and short swaps referencing single securities.

40. Archegos Fund's long TRS positions during this time were heavily concentrated in swaps referencing just a handful of individual securities, including ViacomCBS Inc. ("ViacomCBS"), Baidu Inc. ("Baidu"), Tencent Music Entertainment Group ("Tencent Music"), Discovery Communications Inc. ("Discovery") and iQIYI ("IQ"). Although these securities were listed on public exchanges and traded millions of shares per day, Archegos Fund's positions in these companies were so large in comparison to their average daily trading volumes that they could not easily be liquidated.

#### 2. Prime Services' Relationship with Archegos

Archegos's relationship with CS was centered in two of its Prime Services' sub-units, Prime Brokerage and Prime Financing. In general, Prime Brokerage handled Archegos's cash trading (*i.e.*, traditional securities financing, custody, and clearing) and Prime Financing handled Archegos's synthetic trading (*i.e.*, derivatives, particularly swaps, and other types of synthetic leveraged exposure). Both Prime Brokerage and Prime Financing are *intended* to be low-risk businesses—counterparty risk should be assessed and then offset through effective margining, and market risk should be evaluated and offset through hedging.

CS's risk exposure to Archegos, as with all hedge funds and family offices doing business with Prime Services, was overseen on a daily basis by multiple lines of defense. The Prime Services business is itself the first line of defense—every businessside employee is responsible for safeguarding CS from loss—and Prime Services has a dedicated in-business risk unit called Prime Services Risk ("PSR") that works directly with the traders and clients to manage CS's risk. As the in-business risk function, PSR is responsible for setting margin rates and for communicating any necessary margin increases to the client. Among PSR's mandates is running and reviewing portfolio-level stress loss scenarios and other analytics designed to flag concerning client exposures, and monitoring the client portfolio to ensure that it does not exceed the risk limits prescribed by the second line of defense Risk Management function ("Risk").

Credit Risk Management ("CRM"), a second line of defense Risk function that is independent from the business, is responsible for assessing credit risk across all CS businesses, including Prime Services. Within CRM, CS managed its exposure to Archegos Case 1:22-cv-03401-JPO Document 25-2 Filed 07/01/22 Page 43 of 173 37

Prime Brokerage is intended to be a low-risk business. While Prime Brokerage clients own their underlying positions, these are pledged as collateral to their Prime Broker. But margin provides protection against market movements that might reduce the value of the collateral below the amount due to the Prime Broker. To manage this risk, it is critical that the Prime Broker calculates and receives adequate margin taking into account the client's creditworthiness and the potential risk factors of the client's portfolio.

#### 2. Prime Financing

auch as swaps, that reference single stocks, stock indices, and custom baskets of stocks,<sup>12</sup> These swaps allow clients to obtain "synthetic" leveraged exposure to the underlying stocks without actually owning them. As in Prime Brokerage, CS earns revenue in Prime

To illustrate how synthetic financing works, consider the following example, in which a client with \$5,000 wants to gain exposure to \$25,000 of a particular stock.

The client could pursue traditional, "cash" securities financing from its Prime Broker. Assuming a 20% margin requirement, the client could borrow \$20,000 on margin from CS and purchase \$25,000 of the stock. The client would be responsible for

during the relevant period, Archegos's margin in its Prime Brokerage portfolio never fell below 15% of the mark-to-market value of the portfolio. Prime Financing offers clients synthetic exposure to other products as well, including futures and exchange-traded funds ("ETFs").

CS receives commissions on trades based on an agreed-upon dollar amount per share executed in the trade (e.g., 4 cents per share).

According to the Complaint, during this entire six-month period "[n]one of [Archegos's] trading was based on a principled view of the true value of a particular issuer and instead was intended to artificially inflate share prices" of its top 10 swap positions (id. ¶ 74).

Mr. Hwang, as head of the Archegos family office, had the sole discretion to invest his own money, which he did using a long/short equity strategy that involved taking highly leveraged and highly concentrated positions, mostly by entering derivative contract-based swap transactions with multiple Counterparties (*id.* ¶ 15, 20, 23-24, 27-28). Swaps were utilized to "limit the visibility" into the "extent of Archegos's aggregate holdings" by avoiding the 5% direct ownership reporting threshold under Section 13(d) of the Exchange Act (*id.* ¶ 29-30).<sup>2</sup> The various swap Counterparties would "ensure any corollary synthetic exposure" created by the swap contract was "fully hedged," sometimes by purchasing shares of the swap's referenced issuers in the market "to the extent necessary" (*id.* ¶ 37).

The scheme allegedly began with the "onset of the Covid-19 pandemic" in March 2020 when, at Mr. Hwang's direction, Archegos's fund moved its swap positions from 'highly-liquid, larger cap issuers' towards "less liquid. China-based issuers' as well as relatively smaller cap U.S. media and technology companies" (*id.* ¶ 49, 53). This included shifts away from swaps in companies such as Amazon and Microsoft to swaps in companies like ViacomCBS, Discovery, and China-based issuers Baidu and GSX (*id.* ¶ 54-56). The SEC asserts that the "exponential growth" (*id.* ¶ 49) experienced by Archegos thereafter was "driven by Archegos's build-up of exposures"—to "staggering levels" through "trading at volumes that demonstrated the goal to artificially impact the market" and Mr. Hwang's intention to "artificially inflate" the share price of Archegos's top 10 holdings (*id.* ¶ 44, 56).

ViacomCBS—to which Archegos had significant, leveraged exposure. The steep decline in the value of its positions triggered a chain reaction that led to Archegos's default and caused CS to suffer approximately \$5.5 billion in losses.

specifically, in Prime Services, a sub-unit of the Equities division that provides a variety of products and services to hedge funds (as well as to family offices that operate like hedge funds), including the financing of both cash and synthetic equity positions

#### A. The CS/Archegos Relationship

#### 1. CS's Early Relationship with Archegos

Archegos, formerly known as Tiger Asia, was one of a group of hedge funds started by alumni of Tiger Management (so-called "Tiger Cubs"), one of the largest and most successful hedge funds of the 1990s. CS's relationship with Tiger Asia and Hwang began in 2003 with cash equities trading. Tiger Asia became a Prime Services client in 2005 when it began trading equity swaps. Archegos was covered by (and conducted most of its business with CS through) Prime Services in New York, consistent with CS's regional client coverage model. Tiger Asia employed long/short equity and long-only equity trading strategies during this time, with a focus on Asian-issued securities.

In 2012, Tiger Asia and Hwang settled insider trading allegations with the U.S. Securities and Exchange Commission ("SEC") and also pled guilty to wire fraud with the U.S. Department of Justice ("DOJ"). Tiger Asia subsequently returned its outside capital to investors and rebranded as Archegos, a family office with roughly \$500 million in assets. In 2014, Hwang and Archegos were banned from trading securities in Hong Kong for four years. As a result, Archegos shifted its trading strategy with CS to U.S.

<sup>&</sup>lt;sup>2</sup> Sections 13(d) of the Exchange Act and 17 CFR § 240.13d-1 require holders of securities to file a Schedule 13D form after acquiring more than a 5% beneficial ownership of a registered class of voting equity securities. Typically, the long party to a cash-settled equity derivative does not have "beneficial ownership" of the reference securities because the derivative instrument does not confer voting or investment power—the two hallmarks of beneficial ownership under Rule 13d-3. The SEC does not assert that Archegos failed to make any required Schedule 13D filing.

paying back the \$20,000, plus interest. The Prime Broker would have no direct exposure to the stock purchased by the client, but would hold it as collateral.

Alternatively, the client could obtain synthetic exposure to the same stock without actually purchasing it. As just one example of how such synthetic financing might work, the client would enter into a derivative known as a total return swap ("TRS") with its Prime Broker. Again, assuming a margin requirement of 20%, the client could put up \$5,000 in margin<sup>14</sup> and the Prime Broker would agree to pay the client the amount of the increase in the price of the asset over \$25,000 over a given period of time. In return, the client would agree to pay the amount of any decrease in the value of the stock below \$25,000, as well as an agreed upon interest rate over the life of the swap, regardless of how the underlying stock performed.

In the case of CS, the Prime Brokerage unit provided traditional cash financing, while Prime Financing provided synthetic financing. Specifically, traders on the Delta One desk<sup>15</sup> in Prime Financing would execute the swaps trades. Because the objective of the Delta One desk was to be market-risk neutral, typically, upon entering into a TRS, the trader would immediately hedge CS's market exposure in the transaction by purchasing \$25,000 of the stock in question.<sup>16</sup> Ultimately, the trader might seek to enter a TRS in the opposite direction (*i.e.*, with a client who wants exposure to any decrease in the value of the stock). Such offsetting TRS would also hedge Prime Financing's market risk

take that long to get them operational." He noted that the issue was "balancing a commercial outcome with risk management" and he did not believe that asking Archegos to post \$1 billion right away was a reasonable ask, because it continued "to add shorts, agree to higher [initial margin] on all new positions and have indicated they will de-risk longs soon." He added that he was not convinced that managing Archegos to a severe scenario made sense "when their portfolio can be liquidated well within a couple weeks." He suggested that "[a]sking for \$1bn is pretty much asking them to move their business, and the revenue profile is significant."<sup>115</sup>

The CRM Director of Hedge Funds acknowledged Archegos's "cooperation in bringing us shorts (albeit nullified by subsequent price appreciation on their longs) and that client has always been current on margin calls including during multiple stress periods." He noted that the "[k]ey concern is material [initial margin] dilution caused by bullet swap structure coupled with substantial appreciation and their clear pivot away from (more conservatively margined) PB into swap where our offered leverage is much higher (we suspect relative to competitors as well, which could partially explain the growth in our balances)." He also defended the use of the Severe Equity Down scenario, noting:

You'll recall they took an \$800nm+ PnL hit in CS portfolio during "Gamestop short squeeze" week [at the end of January]. We were fortunate that we happened to be holding more than \$900nm in margin excess on that day, so no resulting margin call. Since then, they've pretty much swept all of their excess, so think the prospect of a \$700-\$800nm margin call is very real if we see similar moves (also why \$500nm severe stress shortfall limit not only reasonable, but also plausible with more extreme moves).<sup>116</sup>

<sup>&</sup>lt;sup>14</sup> As discussed *infra*, this amount of collateral required at the execution of a swap in Prime Financing is referred to as "initial margin."
<sup>15</sup> The new of the Dube One deals is desired from the financial term "Delta" which sefers to the change.

61. By March 2021, those companies were replaced among Archegos's Top 10 Holdings by a number of China-based issuers, as well as ViacomCBS Inc. ("ViacomCBS") and two Discovery, Inc. ("Discovery") share classes, with the following distribution of exposure over time:

have entered and/or anticipate entering into one or more transactions (each a "Transaction") that are or will be governed by this Master Agreement, which includes the schedule (the "Schedule"), and the documents and other confirming evidence (each a "Confirmation") exchanged between the parties confirming those Transactions.

Accordingly, the parties agree as follows: ---

## 1. Interpretation

(a) **Definitions.** The terms defined in Section 14 and in the Schedule will have the meanings therein specified for the purpose of this Master Agreement.

(b) **Inconsistency**. In the event of any inconsistency between the provisions of the Schedule and the other provisions of this Master Agreement, the Schedule will prevail. In the event of any inconsistency between the provisions of any Confirmation and this Master Agreement (including the Schedule), such Confirmation will prevail for the purpose of the relevant Transaction.

(c) **Single Agreement.** All Transactions are entered into in reliance on the fact that this Master Agreement and all Confirmations form a single agreement between the parties (collectively referred to as this "Agreement"), and the parties would not otherwise enter into any Transactions.

## 2. Obligations

## (a) General Conditions.

(i) Each party will make each payment or delivery specified in each Confirmation to be made by it, subject to the other provisions of this Agreement.

(ii) Payments under this Agreement will be made on the due date for value on that date in the place of the account specified in the relevant Confirmation or otherwise pursuant to this Agreement, in freely transferable funds and in the manner customary for payments in the required currency. Where settlement is by delivery (that is, other than by payment), such delivery will be made for receipt on the due date in the manner customary for the relevant obligation unless otherwise specified in the relevant Confirmation or elsewhere in this Agreement.

(iii) Each obligation of each party under Section 2(a)(i) is subject to (1) the condition precedent that no Event of Default or Potential Event of Default with respect to the other party has occurred and is continuing, (2) the condition precedent that no Early Termination Date in respect of the relevant Transaction has occurred or been effectively designated and (3) each other applicable condition precedent specified in this Agreement.

Archegos-SDNY-00073207 SDNY\_P001\_0000129131 (b) **Change of Account.** Either party may change its account for receiving a payment or delivery by giving notice to the other party at least five Local Business Days prior to the scheduled date for the payment or delivery to which such change applies unless such other party gives timely notice of a reasonable objection to such change.

(c) Netting. If on any date amounts would otherwise be payable:-

- (i) in the same currency; and
- (ii) in respect of the same Transaction,

by each party to the other, then, on such date, each party's obligation to make payment of any such amount will be automatically satisfied and discharged and, if the aggregate amount that would otherwise have been payable by one party exceeds the aggregate amount that would otherwise have been payable by the other party, replaced by an obligation upon the party by whom the larger aggregate amount would have been payable to pay to the other party the excess of the larger aggregate amount over the smaller aggregate amount.

The parties may elect in respect of two or more Transactions that a net amount will be determined in respect of all amounts payable on the same date in the same currency in respect of such Transactions, regardless of whether such amounts are payable in respect of the same Transaction. The election may be made in the Schedule or a Confirmation by specifying that subparagraph (ii) above will not apply to the Transactions identified as being subject to the election, together with the starting date (in which case subparagraph (ii) above will not, or will cease to, apply to such Transactions from such date). This election may be made separately for different groups of Transactions and will apply separately to each pairing of Offices through which the parties make and receive payments or deliveries.

## (d) Deduction or Withholding for Tax.

(i) *Gross-Up*. All payments under this Agreement will be made without any deduction or withholding for or on account of any Tax unless such deduction or withholding is required by any applicable law, as modified by the practice of any relevant governmental revenue authority, then in effect. If a party is so required to deduct or withhold, then that party ("X") will:—

(1) promptly notify the other party ("Y") of such requirement;

(2) pay to the relevant authorities the full amount required to be deducted or withheld (including the full amount required to be deducted or withheld from any additional amount paid by X to Y under this Section 2(d)) promptly upon the earlier of determining that such deduction or withholding is required or receiving notice that such amount has been assessed against Y;

(3) promptly forward to Y an official receipt (or a certified copy), or other documentation reasonably acceptable to Y, evidencing such payment to such authorities; and

(4) if such Tax is an Indemnifiable Tax, pay to Y, in addition to the payment to which Y is otherwise entitled under this Agreement, such additional amount as is necessary to ensure that the net amount actually received by Y (free and clear of Indemnifiable Taxes, whether assessed against X or Y) will equal the full amount Y would have received had no such deduction or withholding been required. However, X will not be required to pay any additional amount to Y to the extent that it would not be required to be paid but for:—

(A) the failure by Y to comply with or perform any agreement contained in Section 4(a)(i), 4(a)(iii) or 4(d); or

(B) the failure of a representation made by Y pursuant to Section 3(f) to be accurate and true unless such failure would not have occurred but for (I) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (II) a Change in Tax Law.

## (ii) Liability. If -

(1) X is required by any applicable law, as modified by the practice of any relevant governmental revenue authority, to make any deduction or withholding in respect of which X would not be required to pay an additional amount to Y under Section 2(d)(i)(4);

- (2) X does not so deduct or withhold; and
- (3) a liability resulting from such Tax is assessed directly against X,

then, except to the extent Y has satisfied or then satisfies the liability resulting from such Tax, Y will promptly pay to X the amount of such liability (including any related liability for interest, but including any related liability for penalties only if Y has failed to comply with or perform any agreement contained in Section 4(a)(i), 4(a)(iii) or 4(d)).

(e) **Default Interest**; **Other Amounts.** Prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party that defaults in the performance of any payment obligation will, to the extent permitted by law and subject to Section 6(c), be required to pay interest (before as well as after judgment) on the overdue amount to the other party on demand in the same currency as such overdue amount, for the period from (and including) the original due date for payment to (but excluding) the date of actual payment, at the Default Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed. If, prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party defaults in the performance of any obligation required to be settled by delivery, it will compensate the other party on demand if and to the extent provided for in the relevant Confirmation or elsewhere in this Agreement.

## 3. Representations

Each party represents to the other party (which representations will be deemed to be repeated by each party on each date on which a Transaction is entered into and, in the case of the representations in Section 3(f), at all times until the termination of this Agreement) that:—

## (a) Basic Representations.

(i) *Status*. It is duly organised and validly existing under the laws of the jurisdiction of its organisation or incorporation and, if relevant under such laws, in good standing;

(ii) Powers. (vii) *Bankruptcy*. The party, any Credit Support Provider of such party or any applicable Specified Entity of such party: —

 is dissolved (other than pursuant to a consolidation, amalgamation or merger); (2) becomes insolvent or is unable to pay its debts or fails or admits in writing its inability generally to pay its debts as they become due; (3) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (4) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (B) is not dismissed, discharged, stayed or restrained in each case within 30 days of the institution or presentation thereof; (5) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (6) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (7) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 30 days thereafter; (8) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (1) to (7) (inclusive); or (9) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts; or

(viii) *Merger Without Assumption*. The party or any Credit Support Provider of such party consolidates or amalgamates with, or merges with or into, or transfers all or substantially all its assets to, another entity and, at the time of such consolidation, amalgamation, merger or transfer: —

(1) the resulting, surviving or transferce entity fails to assume all the obligations of such party or such Credit Support Provider under this Agreement or any Credit Support Document to which it or its predecessor was a party by operation of law or pursuant to an agreement reasonably satisfactory to the other party to this Agreement; or

(2) the benefits of any Credit Support Document fail to extend (without the consent of the other party) to the performance by such resulting, surviving or transferee entity of its obligations under this Agreement.

(b) *Termination Events*. The occurrence at any time with respect to a party or, if applicable, any Credit Support Provider of such party or any Specified Entity of such party of any event specified below constitutes an Illegality if the event is specified in (i) below, a Tax Event if the event is specified in (ii) below or a Tax Event Upon Merger if the event is specified in (iii) below, and, if specified to be applicable, a Credit Event

Upon Merger if the event is specified pursuant to (iv) below or an Additional Termination Event if the event is specified pursuant to (v) below:—

(i) **Illegality.** Due to the adoption of, or any change in, any applicable law after the date on which a Transaction is entered into, or due to the promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law after such date, it becomes unlawful (other than as a result of a breach by the party of Section 4(b)) for such party (which will be the Affected Party): —

(1) to perform any absolute or contingent obligation to make a payment or delivery or to receive a payment or delivery in respect of such Transaction or to comply with any other material provision of this Agreement relating to such Transaction; or

(2) to perform, or for any Credit Support Provider of such party to perform, any contingent or other obligation which the party (or such Credit Support Provider) has under any Credit Support Document relating to such Transaction;

(ii) Tax Event. Due to (x) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (y) a Change in Tax Law, the party (which will be the Affected Party) will, or there is a substantial likelihood that it will, on the next succeeding Scheduled Payment Date (1) be required to pay to the other party an additional amount in respect of an Indemnifiable Tax under Section 2(d)(i)(4) (except in respect of interest under Section 2(e), 6(d)(ii) or 6(e)) or (2) receive a payment from which an amount is required to be deducted or withheld for or on account of a Tax (except in respect of interest under Section 2(e), 6(d)(ii) or 6(e) and no additional amount is required to be paid in respect of such Tax under Section 2(d)(i)(4) (other than by reason of Section 2(d)(i)(4)(A) or (B));

(iii) Tax Event Upon Merger. The party (the "Burdened Party") on the next succeeding Scheduled Payment Date will either (1) be required to pay an additional amount in respect of an Indemnifiable Tax under Section 2(d)(i)(4) (except in respect of interest under Section 2(e), 6(d)(ii) or 6(e)) or (2) receive a payment from which an amount has been deducted or withheld for or on account of any Indemnifiable Tax in respect of which the other party is not required to pay an additional amount (other than by reason of Section 2(d)(i)(4)(A) or (B)), in either case as a result of a party consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to, another entity (which will be the Affected Party) where such action does not constitute an event described in Section 5(a)(viii);

(iv) Credit Event Upon Merger. If "Credit Event Upon Merger" is specified in the Schedule as applying to the party, such party ("X"), any Credit Support Provider of X or any applicable Specified Entity of X consolidates or amalgamates with, or merges with or into, or transfers all or substantially all its assets to, another entity and such action does not constitute an event described in Section 5(a)(viii) but the creditworthiness of the resulting, surviving or transferee entity is materially weaker than that of X, such Credit Support Provider or such Specified Entity, as the case may be, immediately prior to such action (and, in such event, X or its successor or transferee, as appropriate, will be the Affected Party); or

(v) Additional Termination Event. If any "Additional Termination Event" is specified in the Schedule or any Confirmation as applying, the occurrence of such event (and, in such event, the Affected Party or Affected Parties shall be as specified for such Additional Termination Event in the Schedule or such Confirmation).

(c) *Event of Default and Illegality*. If an event or circumstance which would otherwise constitute or give rise to an Event of Default also constitutes an Illegality, it will be treated as an Illegality and will not constitute an Event of Default.

7

## 6. Early Termination

(a) **Right to Terminate Following Event of Default.** If at any time an Event of Default with respect to a party (the "Defaulting Party") has occurred and is then continuing, the other party (the "Non-defaulting Party") may, by not more than 20 days notice to the Defaulting Party specifying the relevant Event of Default, designate a day not earlier than the day such notice is effective as an Early Termination Date in respect of all outstanding Transactions. If, however, "Automatic Early Termination" is specified in the Schedule as applying to a party, then an Early Termination Date in respect of all outstanding Transactions will occur immediately upon the occurrence with respect to such party of an Event of Default specified in Section 5(a)(vii)(1), (3), (5), (6) or, to the extent analogous thereto, (8), and as of the time immediately preceding the institution of the relevant proceeding or the presentation of the relevant petition upon the occurrence with respect to Such party of an Event of Default specified in Section 5(a)(vii)(4) or, to the extent analogous thereto, (8).

## (b) Right to Terminate Following Termination Event.

(i) *Notice.* If a Termination Event occurs, an Affected Party will, promptly upon becoming aware of it, notify the other party, specifying the nature of that Termination Event and each Affected Transaction and will also give such other information about that Termination Event as the other party may reasonably require.

(ii) **Transfer to Avoid Termination Event.** If either an Illegality under Section 5(b)(i)(1) or a Tax Event occurs and there is only one Affected Party, or if a Tax Event Upon Merger occurs and the Burdened Party is the Affected Party, the Affected Party will, as a condition to its right to designate an Early Termination Date under Section 6(b)(iv), use all reasonable efforts (which will not require such party to incur a loss, excluding immaterial, incidental expenses) to transfer within 20 days after it gives notice under Section 6(b)(i) all its rights and obligations under this Agreement in respect of the Affected Transactions to another of its Offices or Affiliates so that such Termination Event ceases to exist.

If the Affected Party is not able to make such a transfer it will give notice to the other party to that effect within such 20 day period, whereupon the other party may effect such a transfer within 30 days after the notice is given under Section 6(b)(i).

Any such transfer by a party under this Section 6(b)(ii) will be subject to and conditional upon the prior written consent of the other party, which consent will not be withheld if such other party's policies in effect at such time would permit it to enter into transactions with the transferee on the terms proposed.

(iii) *Two Affected Parties.* If an Illegality under Section 5(b)(i)(1) or a Tax Event occurs and there are two Affected Parties, each party will use all reasonable efforts to reach agreement within 30 days after notice thereof is given under Section 6(b)(i) on action to avoid that Termination Event.

(iv) Right to Terminate. If: --

(1) a transfer under Section 6(b)(ii) or an agreement under Section 6(b)(iii), as the case may be, has not been effected with respect to all Affected Transactions within 30 days after an Affected Party gives notice under Section 6(b)(i); or

(2) an Illegality under Section 5(b)(i)(2), a Credit Event Upon Merger or an Additional Termination Event occurs, or a Tax Event Upon Merger occurs and the Burdened Party is not the Affected Party,

either party in the case of an Illegality, the Burdened Party in the case of a Tax Event Upon Merger, any Affected Party in the case of a Tax Event or an Additional Termination Event if there is more than one Affected Party, or the party which is not the Affected Party in the case of a Credit Event Upon Merger or an Additional Termination Event if there is only one Affected Party may, by not more than 20 days notice to the other party and provided that the relevant Termination Event is then continuing, designate a day not earlier than the day such notice is effective as an Early Termination. Date in respect of all Affected Transactions.

## (c) Effect of Designation.

(i) If notice designating an Early Termination Date is given under Section 6(a) or (b), the Early Termination Date will occur on the date so designated, whether or not the relevant Event of Default or Termination Event is then continuing.

(ii) Upon the occurrence or effective designation of an Early Termination Date, no further payments or deliveries under Section 2(a)(i) or 2(e) in respect of the Terminated Transactions will be required to be made, but without prejudice to the other provisions of this Agreement. The amount, if any, payable in respect of an Early Termination Date shall be determined pursuant to Section 6(e).

## (d) Calculations.

(i) **Statement.** On or as soon as reasonably practicable following the occurrence of an Early Termination Date, each party will make the calculations on its part, if any, contemplated by Section 6(e) and will provide to the other party a statement (1) showing, in reasonable detail, such calculations (including all relevant quotations and specifying any amount payable under Section 6(e)) and (2) giving details of the relevant account to which any amount payable to it is to be paid. In the absence of written confirmation from the source of a quotation obtained in determining a Market Quotation, the records of the party obtaining such quotation will be conclusive evidence of the existence and accuracy of such quotation.

(ii) **Payment Date**. An amount calculated as being due in respect of any Early Termination Date under Section 6(e) will be payable on the day that notice of the amount payable is effective (in the case of an Early Termination Date which is designated or occurs as a result of an Event of Default) and on the day which is two Local Business Days after the day on which notice of the amount payable is effective (in the case of an Early Termination Date which is designated as a result of a Termination Event). Such amount will be paid together with (to the extent permitted under applicable law) interest thereon (before as well as after judgment) in the Termination Currency, from (and including) the relevant Early Termination Date to (but excluding) the date such amount is paid, at the Applicable Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed.

(e) **Payments on Early Termination**. If an Early Termination Date occurs, the following provisions shall apply based on the parties' election in the Schedule of a payment measure, either "Market Quotation" or "Loss", and a payment method, either the "First Method" or the "Second Method". If the parties fail to designate a payment measure or payment method in the Schedule, it will be deemed that "Market Quotation" or the "Second Method", as the case may be, shall apply. The amount, if any, payable in respect of an Early Termination Date and determined pursuant to this Section will be subject to any Set-off.

(i) Events of Default. If the Early Termination Date results from an Event of Default: -

(1) First Method and Market Quotation. If the First Method and Market Quotation apply, the Defaulting Party will pay to the Non-defaulting Party the excess, if a positive number, of (A) the sum of the Settlement Amount (determined by the Non-defaulting Party) in respect of the Terminated Transactions and the Termination Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party over (B) the Termination Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party.

(2) *First Method and Loss.* If the First Method and Loss apply, the Defaulting Party will pay to the Non-defaulting Party, if a positive number, the Non-defaulting Party's Loss in respect of this Agreement.

(3) Second Method and Market Quotation. If the Second Method and Market Quotation apply, an amount will be payable equal to (A) the sum of the Settlement Amount (determined by the

Non-defaulting Party) in respect of the Terminated Transactions and the Termination Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party less (B) the Termination Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(4) Second Method and Loss. If the Second Method and Loss apply, an amount will be payable equal to the Non-defaulting Party's Loss in respect of this Agreement. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(ii) Termination Events. If the Early Termination Date results from a Termination Event: --

(1) One Affected Party. If there is one Affected Party, the amount payable will be determined in accordance with Section 6(e)(i)(3), if Market Quotation applies, or Section 6(e)(i)(4), if Loss applies, except that, in either case, references to the Defaulting Party and to the Non-defaulting Party will be deemed to be references to the Affected Party and the party which is not the Affected Party, respectively, and, if Loss applies and fewer than all the Transactions are being terminated, Loss shall be calculated in respect of all Terminated Transactions.

(2) Two Affected Parties. If there are two Affected Parties: --

(A) if Market Quotation applies, each party will determine a Settlement Amount in respect of the Terminated Transactions, and an amount will be payable equal to (I) the sum of (a) one-half of the difference between the Settlement Amount of the party with the higher Settlement Amount ("X") and the Settlement Amount of the party with the lower Settlement Amount ("Y") and (b) the Termination Currency Equivalent of the Unpaid Amounts owing to X less (II) the Termination Currency Equivalent of the Unpaid Amounts owing to Y; and

(B) if Loss applies, each party will determine its Loss in respect of this Agreement (or, if fewer than all the Transactions are being terminated, in respect of all Terminated Transactions) and an amount will be payable equal to one-half of the difference between the Loss of the party with the higher Loss ("X") and the Loss of the party with the lower Loss ("Y").

If the amount payable is a positive number, Y will pay it to X; if it is a negative number, X will pay the absolute value of that amount to Y.

(iii) Adjustment for Bankruptcy. In circumstances where an Early Termination Date occurs because "Automatic Early Termination" applies in respect of a party, the amount determined under this Section 6(e) will be subject to such adjustments as are appropriate and permitted by law to reflect any payments or deliveries made by one party to the other under this Agreement (and retained by such other party) during the period from the relevant Early Termination Date to the date for payment determined under Section 6(d)(ii).

(iv) Pre-Estimate. The parties agree that if Market Quotation applies an amount recoverable under this Section 6(e) is a reasonable pre-estimate of loss and not a penalty. Such amount is payable for the loss of bargain and the loss of protection against future risks and except as otherwise provided in this Agreement neither party will be entitled to recover any additional damages as a consequence of such losses.

## 7. Transfer

Subject to Section 6(b)(ii), neither this Agreement nor any interest or obligation in or under this Agreement may be transferred (whether by way of security or otherwise) by either party without the prior written consent of the other party, except that: —

(a) a party may make such a transfer of this Agreement pursuant to a consolidation or amalgamation with, or merger with or into, or transfer of all or substantially all its assets to, another entity (but without prejudice to any other right or remedy under this Agreement); and

(b) a party may make such a transfer of all or any part of its interest in any amount payable to it from a Defaulting Party under Section 6(e).

Any purported transfer that is not in compliance with this Section will be void.

## 8. Contractual Currency

(a) **Payment in the Contractual Currency**. Each payment under this Agreement will be made in the relevant currency specified in this Agreement for that payment (the "Contractual Currency"). To the extent permitted by applicable law, any obligation to make payments under this Agreement in the Contractual Currency will not be discharged or satisfied by any tender in any currency other than the Contractual Currency, except to the extent such tender results in the actual receipt by the party to which payment is owed, acting in a reasonable manner and in good faith in converting the currency so tendered into the Contractual Currency, of the full amount in the Contractual Currency of all amounts payable in respect of this Agreement. If for any reason the amount in the Contractual Currency so received falls short of the amount in the Contractual Currency as may be necessary to compensate for the shortfall. If for any reason the amount in the Contractual Currency payable in respect of this Agreement, the party required to make the payment will, to the extent permitted by applicable law, immediately pay such additional amount in the Contractual Currency so received exceeds the amount in the Contractual Currency payable in respect of this Agreement, the party reguired to the contractual Currency as may be necessary to compensate for the shortfall. If for any reason the amount in the Contractual Currency payable in respect of this Agreement, the party reguired to the contractual Currency so received exceeds the amount in the Contractual Currency payable in respect of this Agreement, the party required to the contractual Currency as may be necessary to compensate for the shortfall. If for any reason the amount in the Contractual Currency payable in respect of this Agreement, the party receiving the payment will refund promptly the amount of such excess.

Judgments. To the extent permitted by applicable law, if any judgment or order expressed in a (b) currency other than the Contractual Currency is rendered (i) for the payment of any amount owing in respect of this Agreement, (ii) for the payment of any amount relating to any early termination in respect of this Agreement or (iii) in respect of a judgment or order of another court for the payment of any amount described in (i) or (ii) above, the party seeking recovery, after recovery in full of the aggregate amount to which such party is entitled pursuant to the judgment or order, will be entitled to receive immediately from the other party the amount of any shortfall of the Contractual Currency received by such party as a consequence of sums paid in such other currency and will refund promptly to the other party any excess of the Contractual Currency received by such party as a consequence of sums paid in such other currency if such shortfall or such excess arises or results from any variation between the rate of exchange at which the Contractual Currency is converted into the currency of the judgment or order for the purposes of such judgment or order and the rate of exchange at which such party is able, acting in a reasonable manner and in good faith in converting the currency received into the Contractual Currency, to purchase the Contractual Currency with the amount of the currency of the judgment or order actually received by such party. The term "rate of exchange" includes, without limitation, any premiums and costs of exchange payable in connection with the purchase of or conversion into the Contractual Currency.

(c) Separate Indemnities. To the extent permitted by applicable law, these indemnities constitute separate and independent obligations from the other obligations in this Agreement, will be enforceable as separate and independent causes of action, will apply notwithstanding any indulgence granted by the party to which any payment is owed and will not be affected by judgment being obtained or claim or proof being made for any other sums payable in respect of this Agreement.

(d) *Evidence of Loss*. For the purpose of this Section 8, it will be sufficient for a party to demonstrate that it would have suffered a loss had an actual exchange or purchase been made.

## 9. Miscellaneous

(a) *Entire Agreement*. This Agreement constitutes the entire agreement and understanding of the parties with respect to its subject matter and supersedes all oral communication and prior writings with respect thereto.

(b) *Amendments*. No amendment, modification or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by a facsimile transmission) and executed by each of the parties or confirmed by an exchange of telexes or electronic messages on an electronic messaging system.

(c) *Survival of Obligations*. Without prejudice to Sections 2(a)(iii) and 6(c)(ii), the obligations of the parties under this Agreement will survive the termination of any Transaction.

(d) **Remedies Cumulative.** Except as provided in this Agreement, the rights, powers, remedies and privileges provided in this Agreement are cumulative and not exclusive of any rights, powers, remedies and privileges provided by law.

## (c) Counterparts and Confirmations.

(i) This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by facsimile transmission), each of which will be deemed an original.

(ii) The parties intend that they are legally bound by the terms of each Transaction from the moment they agree to those terms (whether orally or otherwise). A Confirmation shall he entered into as soon as practicable and may he executed and delivered in counterparts (including by facsimile transmission) or be created by an exchange of telexes or by an exchange of electronic messages on an electronic messaging system, which in each case will be sufficient for all purposes to evidence a binding supplement to this Agreement. The parties will specify therein or through another effective means that any such counterpart, telex or electronic message constitutes a Confirmation.

(f) No Waiver of Rights. A failure or delay in exercising any right, power or privilege in respect of this Agreement will not be presumed to operate as a waiver, and a single or partial exercise of any right, power or privilege will not be presumed to preclude any subsequent or further exercise, of that right, power or privilege or the exercise of any other right, power or privilege.

(g) *Headings*. The headings used in this Agreement are for convenience of reference only and are not to affect the construction of or to be taken into consideration in interpreting this Agreement.

## 10. Offices; Multibranch Parties

(a) If Section 10(a) is specified in the Schedule as applying, each party that enters into a Transaction through an Office other than its head or home office represents to the other party that, notwithstanding the place of booking office or jurisdiction of incorporation or organisation of such party, the obligations of such party are the same as if it had entered into the Transaction through its head or home office. This representation will be deemed to be repeated by such party on each date on which a Transaction is entered into.

(b) Neither party may change the Office through which it makes and receives payments or deliveries for the purpose of a Transaction without the prior written consent of the other party.

(a) *Effectiveness*. Any notice or other communication in respect of this Agreement may be given in any manner set forth below (except that a notice or other communication under Section 5 or 6 may not be given by facsimile transmission or electronic messaging system) to the address or number or in accordance with the electronic messaging system details provided (see the Schedule) and will be deemed effective as indicated:—

(b) **Change of Addresses.** Either party may by notice to the other change the address, telex or facsimile number or electronic messaging system details at which notices or other communications are to be given to it.

13. Governing Law and Jurisdiction

(a) *Governing Law.* This Agreement will be governed by and construed in accordance with the law specified in the Schedule.

(b) Jurisdiction. With respect to any suit, action or proceedings relating to this Agreement ("Proceedings"), each party irrevocably:—

(i) submits to the jurisdiction of the English courts, if this Agreement is expressed to be governed by English law, or to the non-exclusive jurisdiction of the courts of the State of New York and the United States District Court located in the Borough of Manhattan in New York City, if this Agreement is expressed to be governed by the laws of the State of New York; and

Nothing in this Agreement precludes either party from bringing Proceedings in any other jurisdiction (outside, if this Agreement is expressed to be governed by English law, the Contracting States, as defined in Section 1(3) of the Civil Jurisdiction and Judgments Act 1982 or any modification, extension or re-enactment thereof for the time being in force) nor will the bringing of Proceedings in any one or more jurisdictions preclude the bringing of Proceedings in any other jurisdiction.

(c) Service of Process. Each party irrevocably appoints the Process Agent (if any) specified opposite its name in the Schedule to receive, for it and on its behalf, service of process in any Proceedings. If for any

reason any party's Process Agent is unable to act as such, such party will promptly notify the other party and within 30 days appoint a substitute process agent acceptable to the other party. The parties irrevocably consent to service of process given in the manner provided for notices in Section 12. Nothing in this Agreement will affect the right of either party to serve process in any other manner permitted by law.

(d) *Waiver of Immunities*. Each party irrevocably waives, to the fullest extent permitted by applicable law, with respect to itself and its revenues and assets (irrespective of their use or intended use), all immunity on the grounds of sovereignty or other similar grounds from (i) suit, (ii) jurisdiction of any court, (iii) relief by way of injunction, order for specific performance or for recovery of property, (iv) attachment of its assets (whether before or after judgment) and (v) execution or enforcement of any judgment to which it or its revenues or assets might otherwise be entitled in any Proceedings in the courts of any jurisdiction and irrevocably agrees, to the extent permitted by applicable law, that it will not claim any such immunity in any Proceedings.

Loss includes losses and costs (or gains) in respect of any payment or delivery required to have been made (assuming satisfaction of each applicable condition precedent) on or before the relevant Early Termination Date and not made, except, so as to avoid duplication, if Section 6(e)(i)(1) or (3) or 6(e)(ii)(2)(A) applies. Loss does not include a party's legal fees and out-of-pocket expenses referred to under Section 11. A party will determine its Loss as of the relevant Early Termination Date, or, if that is not reasonably practicable, as of the earliest date thereafter as is reasonably practicable. A party may (but need not) determine its Loss by reference to quotations of relevant rates or prices from one or more leading dealers in the relevant markets.

"Market Quotation" means, with respect to one or more Terminated Transactions and a party making the determination, an amount determined on the basis of quotations from Reference Market-makers. Each quotation will be for an amount, if any, that would be paid to such party (expressed as a negative number) or by such party (expressed as a positive number) in consideration of an agreement between such party (taking into account any existing Credit Support Document with respect to the obligations of such party) and the quoting Reference Market-maker to enter into a transaction (the "Replacement Transaction") that would have the effect of preserving for such party the economic equivalent of any payment or delivery (whether the underlying obligation was absolute or contingent and assuming the satisfaction of each applicable condition precedent) by the parties under Section 2(a)(i) in respect of such Terminated Transaction Date, have

been required after that date. For this purpose, Unpaid Amounts in respect of the Terminated Transaction or group of Terminated Transactions are to be excluded but, without limitation, any payment or delivery that would, but for the relevant Early Termination Date, have been required (assuming satisfaction of each applicable condition precedent) after that Early Termination Date is to be included. The Replacement Transaction would be subject to such documentation as such party and the Reference Market-maker may, in good faith, agree. The party making the determination (or its agent) will request each Reference Market-maker to provide its quotation to the extent reasonably practicable as of the same day and time (without regard to different time zones) on or as soon as reasonably practicable after the relevant Early Termination Date. The day and time as of which those quotations are to be obtained will be selected in good faith by the party obliged to make a determination under Section 6(e), and, if each party is so obliged, after consultation with the other. If more than three quotations are provided, the Market Quotation will be the arithmetic mean of the quotations, without regard to the quotations having the highest and lowest values. If exactly three such quotations are provided, the Market Quotation will be the quotation remaining after disregarding the highest and lowest quotations. For this purpose, if more than one quotation has the same highest value or lowest value, then one of such quotations shall be disregarded. "Stamp Tax" means any stamp, registration, documentation or similar tax.

"Tax" means any present or future tax, levy, impost, duty, charge, assessment or fee of any nature (including interest, penalties and additions thereto) that is imposed by any government or other taxing authority in respect of any payment under this Agreement other than a stamp, registration, documentation or similar tax.

"Tax Event" has the meaning specified in Section 5(b).

"Tax Event Upon Merger" has the meaning specified in Section 5(b).

"Terminated Transactions" means with respect to any Early Termination Date (a) if resulting from a Termination Event, all Affected Transactions and (b) if resulting from an Event of Default, all Transactions (in either case) in effect immediately before the effectiveness of the notice designating that Early Termination Date (or, if "Automatic Early Termination" applies, immediately before that Early Termination Date).

"Termination Currency" has the meaning specified in the Schedule.

"Termination Currency Equivalent" means, in respect of any amount denominated in the Termination Currency, such Termination Currency amount and, in respect of any amount denominated in a currency other than the Termination Currency (the "Other Currency"), the amount in the Termination Currency determined by the party making the relevant determination as being required to purchase such amount of such Other Currency as at the relevant Early Termination Date, or, if the relevant Market Quotation or Loss (as the case may be), is determined as of a later date, that later date, with the Termination Currency at the rate equal to the spot exchange rate of the foreign exchange agent (selected as provided below) for the purchase of such Other Currency with the Termination Currency at or about 11:00 a.m. (in the city in which such foreign exchange agent is located) on such date as would be customary for the determination of such a rate for the purchase of such Other Currency for value on the relevant Early Termination Date or that later date. The foreign exchange agent will, if only one party is obliged to make a determination under Section 6(e), be selected in good faith by that party and otherwise will be agreed by the parties.

"Termination Event" means an Illegality, a Tax Event or a Tax Event Upon Merger or, if specified to be applicable, a Credit Event Upon Merger or an Additional Termination Event.

"Termination Rate" means a rate per annum equal to the arithmetic mean of the cost (without proof or evidence of any actual cost) to each party (as certified by such party) if it were to fund or of funding such amounts.

"Unpaid Amounts" owing to any party means, with respect to an Early Termination Date, the aggregate of (a) in respect of all Terminated Transactions, the amounts that became payable (or that would have become payable but for Section 2(a)(iii)) to such party under Section 2(a)(i) on or prior to such Early Termination Date and which remain unpaid as at such Early Termination Date and (b) in respect of each Terminated Transaction, for each obligation under Section 2(a)(i) which was (or would have been but for Section 2(a)(iii)) required to be settled by delivery to such party on or prior to such Early Termination Date and which has not been so settled as at such Early Termination Date, an amount equal to the fair market

value of that which was (or would have been) required to be delivered as of the originally scheduled date for delivery, in each case together with (to the extent permitted under applicable law) interest, in the currency of such amounts, from (and including) the date such amounts or obligations were or would have been required to have been paid or performed to (but excluding) such Early Termination Date, at the Applicable Rate. (ii) The following words shall be added at the end of Section 5(a)(vi):

"Provided, the occurrence of a payment and/or delivery related event that would otherwise constitute an Event of Default hereunder shall not be considered an Event of Default if the Defaulting Party can demonstrate to the reasonable satisfaction of the Non-defaulting Party that (i) such occurrence is attributable solely to an error or omission of an administrative or operational nature; (ii) funds were available to the Defaulting Party to enable it to have made the relevant payment when due; and (iii) such default is remedied within two (2) Local Business Days following the Defaulting Party's receipt of notice of the occurrence of such event."

Party B waives any right to contest the effectiveness of the service if done in accordance with the previous sentence.

- (d) Multibranch Party. For the purpose of Section 10(c) of this Agreement:

Party A is not a Multibranch Party.

Party B is not a Multibranch Party.

(e) Calculation Agent.

The Calculation Agent is Party A unless otherwise agreed in a Confirmation in relation to the relevant Transaction.

In the case of an Event of Default with respect to Party A which has occurred and is continuing, Party B

shall be entitled to appoint a substitute Calculation Agent. In such event, Party B shall give written notice to Party A, detailing the relevant Event of Default, indicating its reliance on this Part 4(e) to appoint a substitute Calculation Agent and nominating three (3) Leading Dealers as a potential substitute Calculation Agent (the "Substitute Calculation Agent Notice"). Party A shall either remedy the Event of Default or select one (1) of the three (3) Leading Dealers nominated by Party B as the substitute Calculation Agent, within five (5) Local Business Days of Party A's receipt of the Substitute Calculation Agent Notice; provided that if Party A fails to choose a Leading Dealer by the end of such period then Party B shall choose the Leading Dealer from the three (3) Leading Dealers identified by Party B in the Substitute Calculation Agent Notice. If Party A cures the relevant Event of Default before Party B designates an Early Termination Date in accordance with Section 6(a) of this Agreement, and no other Event of Default has occurred (and not been cured) by such time, then Party A shall recommence acting as the Calculation Agent provided that nothing herein shall affect any calculations already produced by any substitute Calculation Agent duly appointed in accordance with this provision. The parties shall bear equally all costs and expenses in appointing a Leading Dealer for these purposes. All calculations or determinations made by the Calculation Agent shall be made in good faith and in a commercially reasonable manner.

If a party, acting in good faith, (the "Disputing Party") disputes the Calculation Agent's calculations with respect to a Liquid Transaction on a commercially reasonable basis, it shall deliver its written objection (the "Dispute Notice") to the Calculation Agent not later than the close of business on the Local Business Day following receipt of the Calculation Agent's calculation, specifying in reasonable detail (i) its objection, together with supporting calculations, (ii) its proposed calculation and (iii) the amount, if any, which is not in dispute (the "Undisputed Amount"). The parties, acting in good faith and in a commercially reasonable manner shall use commercially reasonable efforts to resolve such dispute by the close of business on the Local Business Day following the Calculation Agent's receipt of the Dispute Notice (the "Informal Resolution Period"). If the parties are unable to agree on a particular calculation during the Informal Resolution Period then by 10:00 a.m. in the city of the Calculation Agent on the following Local Business Day (the "Dealer Identification Cut-off"), the Disputing Party shall provide the Calculation Agent with the names of three (3) Leading Dealers and the Calculation Agent will select one (1) of such three (3) Leading Dealers by the close of business on such Local Business Day (the "Leading Dealer Selection Date") to opine on the commercial reasonableness of the relevant calculation; provided that (i) if the Disputing Party fails to identify three (3) Leading Dealers prior to the Dealer Identification Cut-off, the original calculation of the Calculation Agent shall be binding on the parties and the dispute will be deemed to have been resolved and (ii) if the Calculation Agent fails to choose a Leading Dealer prior to the expiration of the Leading Dealer Selection Date, then the Disputing Party shall choose the Leading Dealer from the three (3) Leading Dealers originally provided.

If the chosen Leading Dealer concludes that the Calculation Agent's calculation was commercially reasonable when made, then the Calculation Agent's calculation shall be used for purposes of the relevant Transaction and the dispute will be deemed to have been resolved. If the Leading Dealer concludes that the Calculation Agent's calculation was not commercially reasonable then such Leading Dealer shall (a) provide the basis for such conclusion and (b) provide its own calculation, which calculation shall be binding on the parties for purposes of the relevant Transaction, absent manifest error. Such Leading Dealer will have until close of business on the Local Business Day following the Leading Dealer Selection Date to opine on the commercial reasonability of the Calculation Agent's calculation and, if applicable, provide its own calculation. If the Leading Dealer fails to do so within such period then the Calculation Agent's original calculation shall be used for purposes of the relevant Transaction and the dispute will be deemed to have been resolved. The Disputing Party shall bear all

costs and expenses in appointing the Leading Dealer for these purposes.

Notwithstanding a dispute, any Undisputed Amount shall be paid on the scheduled due date. Any amount due as a result of the resolution of a dispute shall be payable prior to the close of business on the first Local Business Day after such resolution.

For purposes of this clause:

"Leading Dealer" means Bank of America, Citigroup, Deutsche Bank, Goldman Sachs, JP Morgan Chase, Morgan Stanley, Barclays Capital and UBS or any principal affiliate entity of such entities; provided that such entity is not an affiliate of Party A or Party B, does not act as Party B's prime broker or custodian and is a leading dealer in the relevant market.

Credit Suisse Securities (USA) LLC shall have no responsibility or personal liability to either party arising from any failure by a party to pay or perform any obligations hereunder, or to monitor or enforce compliance by a party with any obligation hereunder, including, without limitation, any obligation to maintain margin. Each party agrees to proceed solely against the other to collect or recover any securities or moneys owing to it in connection with or as a result of such Transaction or otherwise hereunder. - (n) Amendment and Restatement of Prior Agreement. This Agreement hereby amends, restates and supersedes the ISDA Master Agreement dated as of 4<sup>th</sup> February 2005 between the parties (the "Prior Agreement"). Unless previously notified in writing by Party B, Party A may rely on all representations and warranties of and actions by the Investment Manager in relation to any such Transactions. For these purposes, Party B agrees to fully and unconditionally indemnify Party A for any and all losses, damages, costs and expenses directly sustained by Party A (including those incurred in unwinding any relevant hedging transactions) by reason of (i) its *bona fide* reliance on the appointment by Party B of the Investment Manager as Party B's agent to enter into Transactions on its behalf, irrespective of the invalidity, unenforceability, termination or revocation of such appointment (unless previously notified in writing by Party B) or breach by the Investment Manager of its terms or (ii) as a direct result of Party A's *bona fide* reliance upon the instructions, actions or ostensible authority of the Investment Manager.

# CREDIT SUISSE PORTFOLIO SWAPS (STANDARD TERMS) ANNEX

Credit Suisse International ("CS") and Archegos Fund, LP (the "Counterparty") have entered into a 1992 ISDA Master Agreement dated as of <u>December 15</u> 2020, including the Schedule and any annexes thereto (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Master Agreement"). This Portfolio Swaps (Standard Terms) Annex, including the Schedule attached hereto and made a part hereof (the "Standard Terms"), supplements and forms part of the Master Agreement and is intended to govern the parties' relationship when entering into an equity swap transaction through "Primeview" (or successor system) that the parties agree to be governed by the **Standard Terms** in relation to a single Share, a basket of Shares treated together (a "Custom Basket") a single Index or a basket of Indices treated together (a "Custom Index Basket") (each, an "Equity Swap Transaction"). Each Equity Swap Transaction shall be deemed a "Transaction" for the purposes of the Master Agreement.

The definitions and provisions contained in the 2006 ISDA Definitions (the "Swap Definitions") and in the 2002 ISDA Equity Derivatives Definitions (the "Equity Definitions," and together with the Swap Definitions, the "Definitions"), in each case as published by the International Swaps and Derivatives Association, Inc., as amended and supplemented from time to time, are incorporated into these Standard Terms. In the event of any inconsistency between the Swap Definitions and the Equity Definitions, the Equity Definitions will govern. In the event of any inconsistency between either set of Definitions and the Standard Terms, the Standard Terms shall prevail. The confirmation applicable to each Transaction, which shall constitute a "Confirmation" for the purposes of, and will supplement, form a part of, and be subject to, the Master Agreement, shall consist of the Standard Terms (including the Schedule hereto), as supplemented by the trade details applicable to such Transaction as set forth in the Confirmation for that Transaction.

In order to enter into a Transaction, the Counterparty must notify (by telephone or as otherwise agreed between the parties) CS of its request for an offer, specifying the name of the relevant Shares, Custom Basket, Index or Custom Index Basket, and the proposed Number of Shares or the proposed Number of Units, as applicable, and whether the Counterparty wishes to act as Equity Amount Receiver/Synthetic Buyer or Equity Amount Payer/Synthetic Seller. If CS agrees to provide such offer, it must then notify (by telephone or as otherwise agreed between the parties) the Counterparty of the proposed Initial Price or formula for determining the Initial Price. Should the Counterparty wish to accept this offer, it must immediately notify CS (by telephone or as otherwise agreed between the parties) of its acceptance. This acceptance gives rise to a binding Transaction between the parties. An offer by CS that is not immediately accepted shall be deemed to lapse unless CS specifically states that it shall remain open.

A Confirmation will be prepared and either (i) posted by CS on its client access website or (ii) delivered by CS to the Counterparty by other electronic means, in each case, within one Business Day of the Transaction being entered into between the parties. The Counterparty shall be deemed to have accepted the terms of the Confirmation if it does not dispute its terms within one Business Day of such posting or delivery, as the case may be. Failure to dispute the terms within one Business Day shall constitute the Counterparty's full acceptance of the Transaction upon the terms, absent manifest error, and subject to the conditions, as set out in the Confirmation and within these Standard Terms. In the event of any inconsistency between the

provisions of the Standard Terms and any Confirmation, the Confirmation shall prevail. In the event of any inconsistency between the provisions of the Standard Terms and the Master Agreement, the Standard Terms shall prevail for the purposes of the relevant Transaction.

The Final Price with respect to the remaining portion of the Total Number of Shares shall be determined on as many subsequent days as the Calculation Agent may require to adhere to the ADTV Limitation (each such day, an "Extended Day") and shall be determined in accordance with the procedures described in paragraph (a) and this paragraph (e).

(a) On the first Equity Amount Payment Date only, the Counterparty shall pay an amount equal to the Initial Swap Fee to CS. The Initial Swap Fee is calculated as  $\mathbf{Q} \times \mathbf{P}_0 \times \mathbf{Z}$ , where:

If the aggregate amount otherwise payable by one party exceeds the aggregate amount payable by the other, then the party with the larger aggregate amount shall be obligated to pay the difference on the relevant Payment Date.

#### FX Provisions: 6.

### 11. Optional Termination and Maturity

- (i) Unless otherwise specified in the Confirmation for a particular Transaction, on any Exchange Business Day when CS or the Counterparty wishes to terminate any Transaction (whether in whole or in part), it shall give one (1) Exchange Business Day's notice of that fact to the other party (by telephone or as otherwise agreed between the parties) specifying the proportion of such Transaction it wishes to terminate; subject to Section 10 hereto.
- (ii) In respect of a Share Swap Transaction or a Share Basket Swap Transaction, if the Shares or any Shares included in the Custom Basket are registered pursuant to Section 12 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") or convertible into securities registered pursuant to the Exchange Act and, if at any time the aggregate number of such Shares beneficially owned by CS and its affiliates (the "Transaction Equity") exceeds or could exceed 8% of the number of outstanding, voting Shares of an Issuer at such time (such event, the "Partial Termination Event"), CS may notify the Counterparty of its desire to effect an early settlement with respect to a portion of the Transactions on such Shares or Custom Basket including such Shares, as determined by CS subject to the conditions set forth below, so that, after completion of the unwind related to the Partial Termination Event, the Transaction Equity would not exceed 8% of the number of outstanding Shares of such Issuer.
- (iii) Upon sending or receiving notice on any date as discussed in (i) or (ii) above, CS shall then calculate the Final Price on such date to the extent practicable and commercially reasonable, or the next Exchange Business Day, as determined by CS (the "Optional Termination Date") and notify the Counterparty of the Final Price (by telephone or as otherwise agreed between the parties), which shall be binding upon the Counterparty. CS shall then settle the portion of the Transaction to be terminated in accordance with these Standard Terms on the Final Settlement Date with respect to such portion.
- (iv) All payments due on the Final Settlement Date shall be netted against each other, and the balance shall be due on the Final Settlement Date, unless otherwise agreed between the parties.
- (v) If CS or the Counterparty gives notice to terminate only a portion of the Number of Shares in respect of a Share Swap Transaction or the Number of Units in respect of an Index Swap Transaction or an Index Basket Swap Transaction, then the provisions of this Section shall apply only to that portion of the relevant Transaction. In the event that a Transaction is terminated only in part, CS shall make any necessary adjustments to the Number of Shares in respect of a Share Swap Transaction or the Number of Units in respect of a Share Basket Swap Transaction, an Index Swap Transaction or an Index Basket Swap Transaction. The remainder of the Transaction shall continue to be governed by these Standard Terms.

The Counterparty represents that the aggregate amount of all such Shares beneficially owned by it for purposes of Section 13(d) of the Exchange Act, when combined with the notional amount of Shares underlying any long derivative position, is less than 20% of the outstanding Shares.

(h) The Counterparty represents to CS that it will make all disclosures required by law or regulation in respect of its entry into any Transaction.

- (i) The Counterparty further acknowledges and agrees:
  - (1) that CS and its affiliates may, at the date of any Transaction or at any time thereafter, be in possession of information in relation to Shares that is or may be material in the context of any Transaction that is not publicly available or known to the Counterparty; and
  - (2) that the Master Agreement, these Standard Terms (and all related material, including but not limited to any relevant Schedule, Appendix, and Confirmations) create no obligation whatsoever on the part of CS or its affiliates to disclose to the Counterparty any such information (whether or not confidential).

The Counterparty hereby agrees that it will not proceed against CSSU in respect of any obligation owed to it under these Standard Terms or any Transaction hereunder.

(1) Notwithstanding any other method of delivery, the Counterparty agrees to electronic access or delivery via the Internet, either by email or through any website designated for this purpose by CS, of Confirmations and any detailed transaction and account information.

the product of the Dividend Percentage and the relevant Qualifying Dividend whose Ex-Dividend Date falls on such Relevant Day<sub>t</sub> and which would have been received by a holder of record of such Share<sub>i</sub> from the Issuer of Share<sub>i</sub>.

Qualifying Dividend:

In respect of a Share:

- (a) any cash dividend declared by the Issuer of such Share, before any withholding or deduction for or on account of any tax (but excluding any associated tax credit, refund or withholding or deduction on account of any tax on any such associated tax credit or refund), arising under the law of the jurisdiction of the Issuer which would have been made by or on behalf of the Issuer in respect of the Qualifying Dividend, and, provided that such Share, is priced in a currency other than the base currency of the Index, such amount shall be converted at the foreign exchange rate published by the Index Sponsor at the Valuation Time on the preceding Exchange Business Day or at other such value implied by the Index Sponsor to formulate the number of dividend points for the total return calculation of the Index; or
- (b) in the case of any non-cash dividend, the cash value declared by the Issuer of such Share<sub>1</sub> of any such non-cash dividend (or, if no such cash value is declared by the relevant Issuer, the cash value of such stock dividend as determined by the Calculation Agent); *provided* that, in each case, any cash or non-cash dividend in relation to which the Index Sponsor makes corresponding adjustments to the Index will not be a Qualifying Dividend. If the Index Sponsor adjusts the Index

for part of a dividend, this Qualifying Dividend provision shall apply only to the unadjusted part.

> In respect of a Share, and a Qualifying Dividend, the first day (following the declaration of such Qualifying Dividend) on which such Share, commences trading ex such Qualifying Dividend on the relevant exchange.

> > If, for the purposes of determining  $n_{it}$  or  $D_t$  on any Relevant Day<sub>t</sub>, the Index Sponsor fails (for whatever reason) to calculate and publish the number of shares in respect of any Share<sub>t</sub> or the divisor, respectively, then, subject to the provision under "Corrections" below, the Calculation Agent shall determine the number of shares in respect of such Share<sub>t</sub> or the divisor (as the case may be) in respect of such Relevant Day<sub>t</sub>.

> > In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the number of shares in respect of such Share, or the divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation publication.

> > In the event that a number of shares in respect of any Share, or the divisor (as the case may be) is calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions above (Failure to Publish)) and utilized for any calculation or determination made under the relevant Transaction is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within thirty Scheduled Trading Days after the Dividend Payment Date on which a Dividend Amount has been paid, either party may notify the other party of that correction and the Calculation Agent will adjust the Dividend Amount, as required, to take into account such correction; provided that if such correction or subsequent publication occurs after the relevant Dividend Payment Date, the Calculation Agent shall, unless otherwise agreed by the parties determine any appropriate

The parties expressly acknowledge and agree that the provisions of this paragraph (Corrections) shall apply and remain in full force and effect notwithstanding the fact that the Termination Date has occurred.

Do you understand that Count Five charges you with 1 2 violating Title 18 of the United States Code, Sections 1343 and 3 2, by engaging in and aiding and abetting a scheme to defraud 4 Archegos' counterparties of their rights to control their 5 assets, and thereby exposing Archegos' counterparties to risk 6 of economic harm by false and misleading statements regarding 7 aspects of Archegos' business, portfolio, and assets, including statements conveyed through interstate wires, from in or about 8 9 2020 up to and including in or about March 2021? 10 THE DEFENDANT: I understand the charge, your Honor. 11 THE COURT: Thank you. 12 Do you understand that the government would have to 13 prove each and every part, or element, of each of these charges 14 beyond a reasonable doubt at a trial if you did not plead 15 quilty? 16 THE DEFENDANT: I understand that, your Honor. 17 THE COURT: Thank you. 18 Mr. Podolsky, would you please explain what the 19 government would have to prove if we were to go to trial on the 20 charges in the superseding information. 21 MR. PODOLSKY: Yes, your Honor. 22 As to Count One, racketeering conspiracy, the 23 government would have to prove beyond a reasonable doubt: 24 First, that the enterprise alleged in the indictment 25 existed;

Third, that the defendant was associated with, or was employed by, the enterprise;

And, fourth, that the defendant knowingly and willfully conspired with at least one other person to participate in the conduct of the affairs of the enterprise through a pattern of racketeering activity.

I will note that the racketeering activities -- the predicate racketeering activities are alleged in paragraph 2 of the information, and your Honor has already read them just a few moments ago.

As to both Counts Two and Four, which both charge Title 15 securities fraud, the government would have to prove beyond a reasonable doubt:

First, that in connection with the purchase or sale of a security, the defendant did any one or more of the following:

First, employed a device, scheme, or artifice to defraud;

Or second, made an untrue statement of a material fact, or omitted to state a material fact, which made what was said under the circumstances misleading;

Or, third, engaged in an act, practice, or course of business that operated or would operate as a fraud or deceit upon a purchaser or seller;

Case 1:22-cv-03402-JPO Document 35-24 Filed 06/28/22 Page 27 of 51 26 M4MKTOMP 1 Second, that the defendant acted willfully, knowingly, and with the intent to defraud; 2 3 And, third, that the defendant knowingly used or 4 caused to be used any means or instruments of transportation or 5 communication in interstate commerce or the use of the mails in 6 furtherance of the fraudulent conduct. 7 As to Count Three, market manipulation, the government would have to prove beyond a reasonable doubt: 8 9 First, that the defendant effected a series of 10 transactions in a security; 11 Second, that the series of transactions either created -- either (a) created actual or apparent active trading 12 13 in the security, or (b) raised or depressed the price of the 14 security; 15 Third, that the conduct involved, directly or indirectly, the use of the mails, any means of interstate 16 17 commerce, or any facility of a national securities exchange; 18 And, fourth, that the defendant acted willfully and 19 with the purpose of inducing the purchase or sale of a security 20 by others. 21 As to Count Five, wire fraud, the government would 22 have to prove beyond a reasonable doubt: 23 First, that there was a scheme or artifice to defraud 24 or to obtain money or property by materially false and 25 fraudulent pretenses, representations, or promises;

#### Case 1:22-cv-03402-JPO Document 35-24 Filed 06/28/22 Page 28 of 51 27 M4MKTOMP

Second, that the defendant knowingly and willfully participated in a scheme or artifice to defraud with knowledge of its fraudulent intent and with the specific intent to defraud;

And, third, that in the execution of the scheme, the defendant used or caused the use of interstate or foreign wires, such as telephone calls, emails, or the transmission of money through the use of wire transfers.

The government would also have to prove venue in the Southern District of New York by a preponderance of the evidence as to each count.

THE COURT: Thank you, Mr. Podolsky.

Mr. Tomita, do you understand what the government would have to prove if you did not plead guilty to these charges?

THE DEFENDANT: Yes, your Honor.

THE COURT: Do you understand that the maximum possible penalty for the crime charged in Count One is 20 years of imprisonment, plus a fine of the greatest of \$250,000, twice the gain resulting from the offense, or twice the loss to other people resulting from the offense, plus a \$100 special assessment, plus three years of supervised release after your term of imprisonment, plus full restitution to all persons injured by your criminal conduct?

Supervised release means that you will be subject to monitoring when you are released from prison. Terms and conditions will be imposed. If you violate any of the set terms and conditions, you can be sent back to prison without a jury trial.

If you are on supervised release, and you do not comply with any of the set terms or conditions, you can be sent pack to prison for up to two years. You will be given no credit for the time that you served in prison as a result of your sentence and no credit for any time spent on postrelease

So, for example, if you received a prison term and then a three-year term of supervised release, and, after you left prison, you lived up to the terms of supervised release for almost three years, but then you violated some term of the supervised release, you could be sent to prison for two whole years.

CANTWELL: And, your Honor, just to be clear, he 7 is going to read from a prepared statement that we worked on 8 together. 9 THE COURT: Very good. And I may have some questions 10 for him following the reading of the statement. 11 MS. CANTWELL: Okav. 12 THE DEFENDANT: Okay. 13 From March 2020 through March 2021, I was head trader 14 at Archegos Capital Management. (During this time, I and others) executed trades that allowed the fund to amass market power and 15 certain securities traded on U.S. exchanges. Archegos used 16 17 security-based swaps to gain exposure to these securities while concealing the true size of the fund's positions from the 18 19 market and our trading counterparties. 20 Once Archegos gained market power in these securities, 21 I and others used this power to trade in such a way as to 22 artificially manipulate the prices of the securities. 23 Acting at the direction of the head of the fund, I traded to increase the prices of names in which Archegos held 24 25 long positions and reduced the prices of securities in which

Case 1:22-cv-03402-JPO Document 35-24 Filed 06/28/22 Page 41 of 51 40 M4MKTOMP

the fund helped short positions. I did this by, for example, 1 2 buying large amounts of a stock when the price dropped in 3 response to negative news or trading premarket when I knew the 4 fund's activity would have a greater impact on price. I manipulated the prices of these securities in order 5 6 to influence others in the market to buy or sell the securities 7 in ways that would benefit Archegos' key positions and increase 8 Archegos' purchasing power through variation margin.

In addition to manipulating the prices of certain securities, I also made misrepresentations to Archegos' trading counterparties. These counterparties were banks and brokers who extended the fund credit to trade on margin and entered into swap agreements with the fund.

I knew that the fund's counterparties considered Archegos' portfolio and assets when setting margin rates and limits on swap capacity. In order to maintain favorable margin rates and gain additional swap capacity, I made false and misleading statements and omissions regarding the size and the composition of the fund's portfolio. I knew that doing so would mislead counterparties as to the true risks presented by the fund. I made these false and misleading statements and omissions during phone calls and email exchanges with representatives from the banks.

24 While engaged in the activities I described, I worked 25 under the supervision of Sung Kook Hwang, also known as Bill

Hwang, the founder and head of Archegos. I agreed with Bill 1 2 and others to carry out the business of Archegos through a 3 pattern of manipulating the prices of securities and deceiving 4 counterparties. I did so knowing that I, Bill, or others 5 committed at least two manipulative or deceptive acts in the 6 course of conducting Archegos' affairs. I knew that Archegos' 7 trading activity was carried out over interstate wires and affected interstate commerce. 8 9 I knew this conduct was wrong at the time that I 10 participated in it, and I knew that things I did were illegal. 11 Thank you. 12 THE COURT: Thank you. 13 Does everything that you have just read to me from 14 those notes truthfully relate your actions and your knowledge 15 at the relevant time? 16 THE DEFENDANT: Correct, your Honor. 17 THE COURT: Mr. Podolsky, are there any further 18 factual issues that the government would like addressed in the 19 plea allocution? 20 MR. MR. PODOLSKY: No, your Honor.

THE COURT: Mr. Tomita, you have acknowledged that you are guilty as charged in the superseding information. I find that you know your rights and that you are waiving them voluntarily. Because your plea is entered knowingly and voluntarily, and is supported by an independent basis in fact containing each of the essential elements of each offense, I accept your guilty plea, and I adjudge you guilty of the offenses charged in Counts One, Two, Three, Four, and Five of the superseding information captioned United States of America v. William Tomita, to which you have pleaded guilty.

Ms. Cantwell, do you wish to be present for any interview of Mr. Tomita in connection with the presentence report?

MS. CANTWELL: I do, your Honor.

THE COURT: Thank you. You can be all be seated. So, counsel, what is your desire with respect to setting a sentencing date or a control date?

MR. PODOLSKY: Your Honor, in the circumstances of this case, I think additional time would afford an opportunity for the Court to receive information that would be important to Mr. Tomita's sentencing. For that reason, we would request a control date within six months, at which time we will update the Court as to whether a presentence investigation report should be prepared, whether additional time is necessary. Of course, in the interim, if it becomes clear that we can proceed to sentence sooner, we'll update the Court and request preparation of the report at a sooner time.

THE COURT: Thank you.

Ms. Ng, may we have a control date about six months out from here?

THE DEPUTY CLERK: Friday, October 28, 2022, at 11:00 a.m.

19 THE COURT: Counsel, are you all available on
20 October 28, 2022, at 11:00 in the morning, for a control date?
21 MR. PODOLSKY: We are, your Honor.
22 MS. CANTWELL: Sure thing, your Honor. Thank you.
23 THE COURT: Thank you.
24 October 28, 2022, at 11:00 a.m., is set as the control

Counsel, when it does come time to have the presentence report prepared, I would ask that you give your comments and any objections back promptly to the probation office when the initial disclosure is made, and I ask that you make your submissions in accordance with my sentencing submission procedures, which are part of my individual practices on the Court's website.

Mr. Tomita, at some point, the probation office will be preparing a presentence report to assist me in sentencing you. You will be interviewed by the probation office. It is important that the information that you give to the probation 12 officer be truthful and accurate. The report is important in 13 my decision as to what your sentence will be. You and your 14 attorney have a right and will have an opportunity to examine 15 the report, to challenge or comment on it, and to speak on your behalf before sentencing. Failing to be truthful with the 17 probation officer and the Court may have an adverse effect on your sentence and may subject you to prosecution.

19 Do you understand that? 20 THE DEFENDANT: I understand that, your Honor. 21 THE COURT: Thank you. 22 Is there a proposed bail package? 23 MR. PODOLSKY: There is, your Honor. 24 We've discussed with defense counsel and would jointly 25 propose that Mr. Tomita be released today upon his signature of

And I will say that in light of the agreement between Mr. Tomita and the government and the fact that he has his passports to be surrendered here with him, we do believe that these conditions would reasonably assure his appearance in court, as well as the protection of the community.

THE COURT: Thank you.

Would it be regular supervision?

MR. PODOLSKY: Yes, your Honor.

THE COURT: Officer Ovalles, are there any other conditions that you think need to be specified in the disposition sheet?

22 MR. OVALLES: Your Honor, the only condition that I 23 would ask that your Honor note, as opposed to regular pretrial 24 supervision, it would be pretrial supervision as directed. 25 Besides that, nothing else, your Honor.
