

Explanation of Private Bankers Promise

This is being done because the Arizona Courts didn't listen to me when I tried to explain this to it under oath. Being the creator of the Negoatible Instrument gives me the Right To Enforce it.  
 In March 2016 I Tinee Antoinita Carraker promised before a notary to put all of the credit linked to my name into the United States economy as a Private Banker.  
 I sent a copy my noarized promise to the White House, the Federal Reserve and more.  
 This made everything I do as a Private Banker property of the United States government. Washington State agreed with me the value of my personal property being my NAME is UNLIMITED. The value of every Negotiable Instrument I will ever create has already been promised to be put into the United States economy. The 2016 White House sending my complaints to the CFPB is proof my promise was accepted. The Governors of the Federal Reserve Board filing a complaint with the CFPB in 2018 proves they also accepted my Private Bankers promise.  
 Supreme Court of the United States decision on Private Bankers, President Wilson & 63rd Congress signing the Federal Reserve Act in 1913, United States Code, Uniform Commercial Code, make what I am doing possible.  
 The Securities Act of 1933 (Securities Act) defines security to include "any note, stock, treasury stock, security future, bond, debenture, evidence of indebtedness ."  
 All Negotiable Instruments I create are in accordance with  
 1913 Federal Reserve Act  
 31 U.S. Code § 5103 - Legal tender  
 18 U.S. Code § 8 - Obligation or other security of the United States
