Re: Meeting between Commission Staff and Interactive Data Corporation

On July 22, 2008, Robert Barton, George Brown, and John Heine of the Commission's staff met with Mary Ivaliotis, Chief Marketing Officer, Andrea Loew, Executive Vice President and General Counsel, and Nathan Bouley, Assistant General Counsel, of Interactive Data Corporation, and Anthony A. Vertuno of Wilkie Farr & Gallagher LLP.

Interactive Data Corporation contacted the staff to alert the staff to some instances of public confusion between the corporation's name and the term "interactive data" as used by the Commission, and a meeting was scheduled.

At the meeting, discussion centered around helping the staff to understand how the potential for confusion between Interactive Data Corporation's name and the term "interactive data" might be minimized in the future.
