

Dear Governor Jon Huntsman, Jr. and Members of the Utah State Legislature

Thank you all for exhibiting "true leadership qualities" for your constituents in your recent monumental step by passing bill SB3004, for investor protection. Mr. Governor Jon Huntsman, Jr. and the Utah State Legislature I am quite sure the Utah state constituents which placed each and everyone of you in the current positions you hold, were only hopeful of the forthright convictions you possessed. Mr. Governor you and your legislature are to be commended for your genuine fearless actions in serving your voters with the passing of this bill against illegal short selling. The counterfeiting in the various securities stock markets has gone unchecked for far too long and would have surely continued indefinitely had it not been for your valiant actions regarding this seemingly unstoppable and unscrupulous theft of investors hard earned dollars.

As a Canadian I have always felt very fortunate to share the world's longest un-armed border with our U.S.A. brothers. For the past 2.5 years I have been involved in a stock listed on the O.T.C. boards via TDWaterhouse in Canada. Our CMKX stock fell victim to the rampant NSS manipulation which like many other companies before us greatly affected the Company's ability to continue. Until recently I was certain with all that I have witnessed and read regarding regulatory enforcement neglect that my investment was lost. Losing ones own money is depressing however losing other people's money is much more oppressive. I was responsible for involving many others, both friends and relatives which upon my well researched advice chose to purchase this very promising diamond stock called CMKX. The resolve of the state of Utah's bill SB3004 has breathed new hope to us common folk as well as sophisticated investors everywhere with fresh promise of a future level playing field in Utah. Thanks to your lead I'm confident many other states will see the light and follow the path you have carved for them. There are leaders and followers Utah is a proven leader.

Thanks to your insight and perseverance Mr. Governor you and the Utah legislature have impacted not only your constituents but the American people as well as Canadians and world investors whom participate in the U.S.A exchanges.

Warmest Regards

Mr. Reginald Keating (cmkx investor)  
your Canadian fan Mr. Governor
