

Does the information you get from mutual funds or other funds really work for you?

We're asking everyday investors like you what you think about how funds disclose important information—and how it could be better.

It's important to us at the SEC to hear from individual investors so we can make it easier for you to choose the investments that are right for you.

Please take a few minutes to answer any or all of these questions—and thank you for your feedback!

Questions

OVERALL INVESTOR EXPERIENCE

1. How do you pick funds? What information do you want to know when you make an investment in a fund? What publications or websites do you review? What tools, online or otherwise, do you use?

Do you look at the SEC's website?

I try to invest a little in everything from names I trust. ~~I~~ am young so it is mostly stocks. I often use Google searcher for top funds. I do not use SEC website.

2. Do you read current fund disclosure documents? Do you understand them? Is there information you do not receive from the fund that you would like to get?

I do. I understand a lot of what I read.

I think funds should be compared to other funds.

3. How well do current fund disclosures (such as a summary prospectus, prospectus, or shareholder report) help you pick an investment? Is it easy to compare different funds? Are there technology-based tools that could make fund comparisons easier? What helpful features do those tools have?

No so easy.

Tools that let you compare funds using multiple criteria. Sort of how Bestbuy lets you compare refrigerators... a side-by-side lineup of features.

4. Do you use the advice of a financial professional? Does a financial professional's help affect whether and how you use fund disclosures?

No.

DELIVERY

5. How do you prefer to receive communications about fund investments? For example, do you prefer mail delivery, email, website availability, mobile applications, or a combination?

Import stuff in paper; routine stuff online or by email.

6. What types of fund information do you prefer to access electronically? What types of fund information do you prefer to receive in paper? Are there other ways—such as by video or audio—you would like to receive fund information?

Annual statements in paper. Everything else, that does not require action from me, ~~can~~ can be electronic.

7. How can the SEC better use technology and communication tools to help investors focus on important fund information?

DESIGN

8. Is there too much technical writing in fund disclosure? Would you prefer more tables, charts, and graphs? Would these graphic displays be in addition to, or in place of, text-heavy disclosures?

Yes, simplify and shorten document.

Charts & metrics (w/ an explanation of the metrics).

9. Do you prefer to receive shorter "summary" disclosures, with additional information available online or upon request?

Yes.

10. Should fund disclosures be more personalized? For example, should disclosures show the amount of fees you paid or your actual investment returns? If so, how?

Yes.

CONTENT

11. Do fund disclosures make the fund's strategies and the level of risk clear? How can funds improve these disclosures? Would a risk rating, such as a numerical or graphical measure of risk, be helpful?

They are too long and too hard to compare. All equity funds sound nearly the same.

12. Fund fees and expenses can significantly affect a fund's investment returns over time. Do you think funds clearly disclose their fees and expenses? How could funds improve the disclosure of fees and expenses? Would a comparison of your fund's fees against other funds' fees help?

Expenses could be clearer. Help me compare ~~to~~ against other funds.

13. Do you consider the past performance of a fund when making an investment decision? How could we improve the presentation of performance information?

Yes. Compare against a market measure I know, like the S&P 500. Not sure obscure things I never heard of.

FINAL THOUGHTS

14. Aside from this questionnaire, are there other ways the SEC can engage with investors, like you, on key topics? Is there anything else you would like to tell us?

Use more common sense in ~~in~~ dividing disclosures and look ~~to~~ to those other countries you mention.

Simplify fund & ETF pricing. ~~that's all~~

Keep brokers & advisers honest.

Name (optional):

Hector Ewing
