Dear Sirs - How long do you guys think we are going to stand for this type fraudulent behavior? How stupid do you think an entire population is that we would just sit by while you guys look the other way? Naked short selling is illegal. Do you not know this? How can you sell something that you don't own? We are now organizing, we are growing in strenght and our anger grows with each day that passes and nothing is done. We are not impressed with your tacet protection of 19 banks that are perpetrators along with yourselves. We know what is happenning. We see it in Comex gold and silver and we see it in the shares. It's almost as though you think you are untouchable. How do you think your abject hubris will be rewarded? DO SOMETHING! Make your work public. Do it now.
