RE: File No. S7-23-18

Please post this comment regarding the proposal shown above. Be advised your email server are down at this time, which is the reason for this paper comment.

I believe No.S7-23-18 is a wasteful proposal, furthering the separation of classes in our great country. The outcome sought is at the benefit of the insurance industry, at the cost of the American people.

I believe the SEC should avoid sleeping with profiting insurance corporations, particularly knowing the discriminatory financial consequences on millions of families. The thoughtless logistics and lack of cause of this endeavor would show a reckless example of SEC apathetic overreach.

I humbly, advise to separate from corporation influence and stand by and with American people in dismissing this dishonorable motion.

Respectfully,  
Anonymous
