To Who it may concern,

Re: Short Selling Uptick Rule

Please bring back the "Uptick" rule as it relates to short selling. Too much short selling manipulation is happening to financial institutions and other good corporations. We understand that there was some problem with the uptick rule and the use of decimals in pricing stocks, but we believe that technology can solve that problem. Please help stop the carnage that is happening to our stock market!! It is costing all Americans billions and billions of dollars!!
