Cboe Exchange, Inc. (“Cboe” or the “Exchange”) (formally known as Chicago Board Options Exchange, Incorporated) is filing this Partial Amendment No. 2 to SR-CBOE-2017-057, which was originally filed with the Securities and Exchange Commission (the “Commission”) on August 15, 2017 (the “Proposal”). The filing was published for comment in the Federal Register on August 31, 2017.¹ On October 11, 2017, the Commission extended their time to review the Proposal until November 29, 2017.² On November 22, 2017, the Exchange submitted Amendment No. 1 to the proposed rule change which provided additional justification and analysis in support of the proposed position limits. On November 29, 2017, the Commission instituted proceedings under Section 19(b)(2)(B) of the Exchange Act³ (the “Act”) to determine whether to approve or disapprove the proposed rule change.⁴ One comment letter was submitted on the proposed rule change, which supported approval of the proposed rule change.⁵ Unless otherwise defined below, defined terms in this Amendment No. 2 have the same meaning as in the Proposal.

The Proposal seeks to amend Interpretation and Policy .07 of Exchange Rule 4.11, Position Limits, to increase the position limits for options on the following exchange traded funds (“ETFs”) and exchange traded notes (“ETNs”): iShares China Large-Cap ETF (“FXI”), iShares MSCI EAFE ETF (“EFA”), iShares MSCI Emerging Markets ETF (“EEM”), iShares

Russell 2000 ETF (“IWM”), iShares MSCI Brazil Capped ETF (“EWZ”), iShares 20+ Year Treasury Bond Fund ETF (“TLT”), iPath S&P 500 VIX Short-Term Futures ETN (“VXX”), PowerShares QQQ Trust (“QQQ”), and iShares MSCI Japan Index (“EWJ”).

As stated in the Proposal, market participants’ trading activity has been adversely impacted by the current position limits as such limits have caused options trading in the symbols subject to the Proposal to move from exchanges to the over-the-counter market. The Exchange submitted the Proposal at the request of market participants whose on-exchange activity has been hindered by the existing position limits causing them to be unable to provide additional liquidity not just on the Exchange, but also on other options exchanges on which they participate.⁶ The Exchange understands that certain market participants wishing to make trades involving a large number of options contracts in the symbols subject to the Proposal are opting to execute those trades in the over-the-counter market. The over-the-counter transactions occur via bi-lateral agreements, the terms of which are not publicly disclosed to other market participants. Therefore, these large trades do not contribute to the price discovery process performed on a lit market.

As described in the Proposal, options on VXX are currently subject to the standard position limit of 250,000 contracts as set forth in Exchange Rule 4.11.⁷ The Exchange proposed to increase the position limits for VXX to 500,000 contracts. For the reasons set forth in the Proposal and Amendment No. 1, the Exchange continues to believe that its trading characteristics and volumes justify the increased position limits for options on the VXX.

⁶ The Exchange understands that other options exchange would be required to file similar proposed rule changes with the Commission to increase their position limits.

⁷ See <https://www.theocc.com/webapps/delo-search>.

However, considering the Commission's upcoming February 27, 2018 deadline to act on the Proposal, the Exchange seeks to amend the Proposal to no longer include increasing the position limits for options on the VXX. Doing so will allow the Exchange to provide the Commission with additional support for increasing the options on the VXX's position limits, which it expects to do through a separate proposed rule change to be submitted at a later date. This amendment should also facilitate the Commission's approval to increase the options position limits on the eight ETFs that remain included in the Proposal in a timely manner and in advance of its next statutory deadline of February 27, 2018.

Request for Accelerated Approval

The Exchange requests the Commission to find good cause to accelerate effectiveness of the Proposal, as amended, pursuant to Section 19(b)(2) of the Act and to approve the Proposal, as amended, prior to the 30th day after publication of Amendment No. 2 to the Proposal in the Federal Register. The Exchange believes there is good cause to grant expedited review and accelerated effectiveness of Proposal, as amended, because it is intended solely to limit the scope of the proposed rule change by removing its proposal to increase the position limit on one of the nine products that are subject to the Proposal and does not seek to amend the Proposal in any other manner. Therefore, the Exchange does not believe that the Proposal, as amended, raises any new or novel issues. The Exchange further notes that one comment letter has been received in connection with the Proposal, as amended, and that comment letter supported approval of the Proposal. Finally, the Proposal, as amended, is designed to encourage Market Makers to shift liquidity from over the counter markets onto the Exchange, which will enhance the process of price discovery conducted on the Exchange through increased order flow.
