

SR-CboeBZX-2018-040

Some cryptocurrency "investors" claim they only they only care about accumulating more bitcoin and not the price. Others predict that an ETF will be the catalyst for a massive pump event. Please give us 2-3 years to accumulate more cheap coinz as the space is not ready. Too much wash trading, pump and dumps, and other fraud. Already more dollars worth of cryptocurrency stolen from exchanges this year than the notorious Mt. Gox hack.
