Such partial amendment shall be clearly identified and marked to show deletions and additions.

PARTIAL AMENDMENT

Cboe EDGX Exchange, Inc. (“EDGX Options” or the “Exchange”) submits this Amendment, constituting Amendment No. 2, to rule filing SR-CboeEDGX-2018-043 (the “Rule Filing”), as amended by Amendment No. 1, in which the Exchange proposes to allow the Post Only order instruction on complex orders that route to its electronic book. The purpose of this Amendment No. 2 is to add explanatory language to a statement the Exchange made in Amendment No. 1.

The Exchange proposes to add the following text after the last complete sentence on page 6 (which sentence states “Complex orders that Leg into the Simple Book are considered “takers,” as they remove liquidity from the Simple Book.”) in the carryover paragraph on pages 6 and 7 of Amendment No. 1:

If an incoming complex order Legs into the Simple Book, it would execute against simple orders resting in the Simple Book. Because the complex order in that situation is removing resting simple liquidity, it is treated as a taker and the simple orders are treated as makers. If a resting complex order Legs into the Simple Book, it does so only after evaluation pursuant to Rule 21.20(c)(2)(G) and (5)(B). This evaluation occurs if the SBBO changes, which happens if a new order enters the Simple Book and improves the SBBO, making the Legs marketable against the resting complex order. If the incoming simple order were treated as a taker, it would be treated differently than the other resting simple order(s) that comprises the SBBO and also executes against the complex order. Treating all simple orders as makers ensures there is no disparate treatment (including

fee treatment) for simple orders that execute against the same complex order.

Additionally, the User that submits the simple order would not know its order would trigger execution against a complex order. While an incoming simple order ultimately triggers the execution against the resting complex order, it technically enters the Simple Book before the complex order Legs in for execution, and thus was resting (and therefore a “maker”) prior to evaluation and execution pursuant to Legging. Therefore, the Exchange treats complex orders that Leg and remove Simple Book liquidity as takers. As a result, not permitting Post Only complex orders to Leg into the Simple Book ensures it will not be treated as a taker in contradiction to its purpose. Additionally, a User with a resting Post Only complex order would not expect to be treated as a taker with respect to fees, which may occur pursuant to the fee schedule if the complex order Legged into the Simple Book. Additionally, a User with a resting Post Only complex order would not expect to be treated as a taker with respect to fees, which may occur pursuant to the fee schedule if the Post Only complex order Legged into the Simple Book.

Amendment No. 2 makes no substantial changes to the Rule Filing or Amendment No. 1, and it does not propose any new functionality or new rule text. Amendment No. 2 merely adds an explanation of the reasoning behind a factual assertion by the Exchange in Amendment No. 1. Therefore, the Exchange does not believe a full notice and comment period is necessary, and thus believes accelerated approval is appropriate.
