SECURITIES AND EXCHANGE COMMISSION WASHINGTON, D.C. 20549	
For complete Form 19b-4 instructions please refer to the EFFF website.	
<div>Form 19b-4 Information *</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.
<div>Exhibit 1 - Notice of Proposed Rule Change *</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)
<div>Exhibit 1A- Notice of Proposed Rule Change, Security-Based Swap Submission, or Advance Notice by Clearing Agencies *</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change, security-based swap submission, or advance notice being deemed not properly filed. <div>Exhibit 3 - Form, Report, or Questionnaire</div> <div><div>Add</div><div>Remove</div><div>View</div></div> <div>Exhibit Sent As Paper Document <input type="checkbox"/></div>	Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.
<div>Exhibit 4 - Marked Copies</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.
<div>Exhibit 5 - Proposed Rule Text</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.
<div>Partial Amendment</div> <div><div>Add</div><div>Remove</div><div>View</div></div>	If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

- (a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) proposes to list and trade shares of the following under proposed NYSE Arca Rule 8.601-E (Active Proxy Portfolio Shares): American Century Mid Cap Growth Impact ETF and American Century Sustainable Equity ETF.

This Amendment No. 3 to SR-NYSEArca-2019-96 replaces SR-NYSEArca-2019-96 as originally filed and Amendment 2 thereto and supersedes such filings in their entirety. The Exchange has withdrawn Amendment No. 1 to SR-NYSEArca-2019-96.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1.

- (b) The Exchange does not believe that the proposed rule change will have any direct effect, or any significant indirect effect, on any other Exchange rule in effect at the time of this filing.
- (c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change is being submitted to the Securities and Exchange Commission (the “Commission” or “SEC”) by Exchange staff pursuant to authority delegated to it by the NYSE Arca Board of Directors.

The person on the Exchange staff prepared to respond to questions and comments on the proposed rule change is:

Michael Cavalier  
Counsel  
NYSE Group, Inc.  
(212) 656-2474

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

- (a) Purpose

The Exchange has proposed to add new NYSE Arca Rule 8.601-E for the purpose

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

of permitting the listing and trading, or trading pursuant to unlisted trading privileges (“UTP”), of Active Proxy Portfolio Shares, which are securities issued by an actively managed open-end investment management company.<sup>3</sup> Proposed Commentary .01 to Rule 8.601-E would require the Exchange to file separate proposals under Section 19(b) of the Act before listing and trading any series of Active Proxy Portfolio Shares on the Exchange. Therefore, the Exchange is submitting this proposal in order to list and trade shares (“Shares”) of Active Proxy Portfolio Shares of the American Century Mid Cap Growth Impact ETF and American Century Sustainable Equity ETF (each a “Fund” and, collectively, the “Funds”) under proposed Rule 8.601-E.

### Key Features of Active Proxy Portfolio Shares

While funds issuing Active Proxy Portfolio Shares will be actively-managed and, to that extent, will be similar to Managed Fund Shares, Active Proxy Portfolio Shares differ from Managed Fund Shares in the following important respects. First, in contrast to Managed Fund Shares, which are actively-managed funds listed and traded under NYSE Arca Rule 8.600-E<sup>4</sup> and for which a “Disclosed

---

<sup>3</sup> See Amendment 3 to SR-NYSEArca-2019-95, filed on May 19, 2020. See also, Securities Exchange Act Release No. 87866 (December 30, 2019), 85 FR 357 (January 3, 2020) (SR-NYSEArca-2019-95). Proposed Rule 8.601-E(c)(1) provides that “[t]he term “Active Proxy Portfolio Share” means a security that (a) is issued by a investment company registered under the Investment Company Act of 1940 (“Investment Company”) organized as an open-end management investment company that invests in a portfolio of securities selected by the Investment Company’s investment adviser consistent with the Investment Company’s investment objectives and policies; (b) is issued in a specified minimum number of shares , or multiples thereof, in return for a deposit by the purchaser of the Proxy Portfolio and/or cash with a value equal to the next determined net asset value (“NAV”); (c) when aggregated in the same specified minimum number of Active Proxy Portfolio Shares, or multiples thereof, may be redeemed at a holder’s request in return for the Proxy Portfolio and/or cash to the holder by the issuer with a value equal to the next determined NAV; and (d) the portfolio holdings for which are disclosed within at least 60 days following the end of every fiscal quarter.” Proposed Rule 8.601-E(c)(2) provides that “[t]he term “Actual Portfolio” means the identities and quantities of the securities and other assets held by the Investment Company that shall form the basis for the Investment Company’s calculation of NAV at the end of the business day.” Proposed Rule 8.601-E(c)(3) provides that “[t]he term “Proxy Portfolio” means a specified portfolio of securities, other financial instruments and/or cash designed to track closely the daily performance of the Actual Portfolio of a series of Active Proxy Portfolio Shares as provided in the exemptive relief pursuant to the Investment Company Act of 1940 applicable to such series.”

<sup>4</sup> The Commission has previously approved listing and trading on the Exchange of a number of issues of Managed Fund Shares under NYSE Arca Rule 8.600-E.

Portfolio” is required to be disseminated at least once daily,<sup>5</sup> the portfolio for an issue of Active Proxy Portfolio Shares will be publicly disclosed within at least 60 days following the end of every fiscal quarter in accordance with normal disclosure requirements otherwise applicable to open-end management investment companies registered under the 1940 Act.<sup>6</sup> The composition of the portfolio of an issue of Active Proxy Portfolio Shares would not be available at commencement of Exchange listing and trading. Second, in connection with the creation and redemption of Active Proxy Portfolio Shares, such creation or redemption may be exchanged for a Proxy Portfolio with a value equal to the next-determined NAV.

---

See, e.g., Securities Exchange Act Release Nos. 57801 (May 8, 2008), 73 FR 27878 (May 14, 2008) (SR-NYSEArca-2008-31) (order approving Exchange listing and trading of twelve actively-managed funds of the WisdomTree Trust); 60460 (August 7, 2009), 74 FR 41468 (August 17, 2009) (SR-NYSEArca-2009-55) (order approving listing of Dent Tactical ETF); 63076 (October 12, 2010), 75 FR 63874 (October 18, 2010) (SR-NYSEArca-2010-79) (order approving Exchange listing and trading of Cambria Global Tactical ETF); 63802 (January 31, 2011), 76 FR 6503 (February 4, 2011) (SR-NYSEArca-2010-118) (order approving Exchange listing and trading of the SiM Dynamic Allocation Diversified Income ETF and SiM Dynamic Allocation Growth Income ETF). The Commission also has approved a proposed rule change relating to generic listing standards for Managed Fund Shares. See Securities Exchange Act Release No. 78397 (July 22, 2016), 81 FR 49320 (July 27, 2016) (SR-NYSEArca-2015-110) (amending NYSE Arca Equities Rule 8.600 to adopt generic listing standards for Managed Fund Shares).

<sup>5</sup> NYSE Arca Rule 8.600-E(c)(2) defines the term “Disclosed Portfolio” as the identities and quantities of the securities and other assets held by the Investment Company that will form the basis for the Investment Company's calculation of net asset value at the end of the business day. NYSE Arca Rule 8.600-E(d)(2)(B)(i) requires that the Disclosed Portfolio will be disseminated at least once daily and will be made available to all market participants at the same time.

<sup>6</sup> A mutual fund is required to file with the Commission its complete portfolio schedules for the second and fourth fiscal quarters on Form N-CSR under the 1940 Act. Information reported on Form N-PORT for the third month of a Fund's fiscal quarter will be made publicly available 60 days after the end of a Fund's fiscal quarter. Form N-PORT requires reporting of a fund's complete portfolio holdings on a position-by-position basis on a quarterly basis within 60 days after fiscal quarter end. Investors can obtain a fund's Statement of Additional Information, its Shareholder Reports, its Form N-CSR, filed twice a year, and its Form N-CEN, filed annually. A fund's statement of additional information (“SAI”) and Shareholder Reports are available free upon request from the Investment Company, and those documents and the Form N-PORT, Form N-CSR, and Form N-CEN may be viewed on-screen or downloaded from the Commission's website at [www.sec.gov](http://www.sec.gov).

A series of Active Proxy Portfolio Shares will disclose the Proxy Portfolio on a daily basis, which, as described above, is designed to track closely the daily performance of the Actual Portfolio of a series of Active Proxy Portfolio Shares, instead of the actual holdings of the Investment Company, as provided by a series of Managed Fund Shares.

In this regard, with respect to the Funds, the Funds will utilize a proxy portfolio methodology-- the “NYSE Proxy Portfolio Methodology”-- that would allow market participants to assess the intraday value and associated risk of a Fund’s Actual Portfolio and thereby facilitate the purchase and sale of Shares by investors in the secondary market at prices that do not vary materially from their NAV.<sup>7</sup> The NYSE Proxy Portfolio Methodology would utilize creation of a Proxy Portfolio for hedging and arbitrage purposes.

The Exchange, after consulting with various Lead Market Makers (“LMMs”) that trade ETFs on the Exchange,<sup>8</sup> believes that market makers will be able to make efficient and liquid markets priced near the ETF’s intraday value, and market makers employ market making techniques such as “statistical arbitrage,” including correlation hedging, beta hedging, and dispersion trading, which is currently used throughout the financial services industry, to make efficient markets in exchange-traded products.<sup>9</sup> For Active Proxy Portfolio Shares, market

---

<sup>7</sup> The NYSE Proxy Portfolio Methodology is owned by the NYSE Group, Inc. and licensed for use by the Funds. NYSE Group, Inc. is not affiliated with the Funds, Adviser or Distributor. Not all series of Active Proxy Portfolio Shares will utilize the NYSE Proxy Portfolio Methodology.

<sup>8</sup> The term “Lead Market Maker” is defined in Rule 1.1(w) to mean a registered Market Maker that is the exclusive Designated Market Maker in listings for which the Exchange is the primary market.

<sup>9</sup> Statistical arbitrage enables a trader to construct an accurate proxy for another instrument, allowing it to hedge the other instrument or buy or sell the instrument when it is cheap or expensive in relation to the proxy. Statistical analysis permits traders to discover correlations based purely on trading data without regard to other fundamental drivers. These correlations are a function of differentials, over time, between one instrument or group of instruments and one or more other instruments. Once the nature of these price deviations have been quantified, a universe of securities is searched in an effort to, in the case of a hedging strategy, minimize the differential. Once a suitable hedging proxy has been identified, a trader can minimize portfolio risk by executing the hedging basket. The trader then can monitor the performance of this hedge throughout the trade period making corrections where warranted. In the case of correlation hedging, the analysis seeks to find a proxy that matches the pricing behavior of a fund. In the case of beta hedging, the analysis seeks to determine the relationship between the price movement over time of a fund and that of another stock. Dispersion trading is a hedged strategy designed to take advantage of relative value differences in

makers may use the knowledge of a fund's means of achieving its investment objective, as described in the applicable fund registration statement, as well as a fund's disclosed Proxy Portfolio, to construct a hedging proxy for a fund to manage a market maker's quoting risk in connection with trading fund shares. Market makers can then conduct statistical arbitrage between their hedging proxy and shares of a fund, buying and selling one against the other over the course of the trading day. This ability should permit market makers to make efficient markets in an issue of Active Proxy Portfolio Shares without precise knowledge of a fund's underlying portfolio. This is similar to certain other existing exchange-traded products (for example, ETFs that invest in foreign securities that do not trade during U.S. trading hours), in which spreads may be generally wider in the early days of trading and then narrow as market makers gain more confidence in their real-time hedges.

#### Description of the Funds and the Trust

The Funds will be series of the American Century ETF Trust ("Trust"), which will be registered with the Commission as an open-end management investment company.<sup>10</sup>

American Century Investment Management, Inc. ("Adviser") will be the investment adviser to the Funds. Foreside Fund Services, LLC will act as the distributor and principal underwriter ("Distributor") for the Funds. State Street Bank and Trust Company will serve as transfer agent ("Transfer Agent" for the Funds.

Proposed Commentary .04 to NYSE Arca Rule 8.601-E provides that, if the investment adviser to the Investment Company issuing Active Proxy Portfolio

---

implied volatilities between an index and the component stocks of that index. Such trading strategies will allow market participants to engage in arbitrage between series of Active Proxy Portfolio Shares and other instruments, both through the creation and redemption process and strictly through arbitrage without such processes.

<sup>10</sup>

The Trust is registered under the 1940 Act. On April 6, 2020, the Trust filed a registration statement on Form N-1A under the Securities Act of 1933 and the 1940 Act for the Funds (File Nos. 333-221045 and 811-23305) ("Registration Statement"). The Trust also filed an application for an order under Section 6(c) of the 1940 Act for exemptions from various provisions of the 1940 Act and rules thereunder (File No. 812-15082), dated December 11, 2019 ("American Century Application" or "Application"). The Shares will not be listed on the Exchange until an order ("American Century Exemptive Order") under the 1940 Act has been issued by the Commission with respect to the Application. The description of the operation of the Trust and the Funds herein is based, in part, on the Registration Statement and the American Century Application.

Shares is registered as a broker-dealer or is affiliated with a broker-dealer, such investment adviser will erect and maintain a “fire wall” between the investment adviser and personnel of the broker-dealer or broker-dealer affiliate, as applicable, with respect to access to information concerning the composition and/or changes to such Investment Company’s Actual Portfolio and/or Proxy Portfolio. Any person related to the investment adviser or Investment Company who makes decisions pertaining to the Investment Company’s portfolio composition or has access to non-public information regarding the Investment Company’s Actual Portfolio or the Proxy Portfolio or changes thereto must be subject to procedures reasonably designed to prevent the use and dissemination of material non-public information regarding the Actual Portfolio or the Proxy Portfolio or changes thereto.<sup>11</sup>

Proposed Commentary .05 provides that any person or entity, including a custodian, Reporting Authority, distributor, or administrator, who has access to non-public information regarding the Investment Company’s Actual Portfolio or changes thereto or the Proxy Portfolio, must be subject to procedures reasonably designed to prevent the use and dissemination of material non-public information regarding the applicable Investment Company Actual Portfolio or the Proxy Portfolio or changes thereto. Moreover, if any such person or entity is registered as a broker-dealer or affiliated with a broker-dealer, such person or entity will erect and maintain a “fire wall” between the person or entity and the broker-dealer with respect to access to information concerning the composition and/or changes to such Investment Company Actual Portfolio or Proxy Portfolio.<sup>12</sup>

Proposed Commentary .04 is similar to Commentary .03(a)(i) and (iii) to NYSE Arca Rule 5.2-E(j)(3); however, Commentary .03(a) in connection with the establishment of a “fire wall” between the investment adviser and the broker-dealer reflects the applicable open-end fund’s portfolio, not an underlying benchmark index, as is the case with index-based funds.<sup>13</sup> Commentary .04 is

---

<sup>11</sup> The text of proposed Commentary .04 to NYSE Arca Rule 8.601-E is included in Amendment 3 to SR-NYSEArca-2019-95. See note 3, supra.

<sup>12</sup> The text of proposed Commentary .05 to NYSE Arca Rule 8.601-E is included in Amendment 3 to SR-NYSEArca-2019-95. See note 3, supra.

<sup>13</sup> An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser and its related personnel will be subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written

also similar to Commentary .06 to Rule 8.600-E related to Managed Fund Shares, except that proposed Commentary .04 relates to establishment and maintenance of a “fire wall” between the investment adviser and the broker-dealer applicable to an Investment Company’s Actual Portfolio and/or Proxy Portfolio, and not just to the underlying portfolio, as is the case with Managed Fund Shares. The Adviser is not registered as a broker-dealer but is affiliated with a broker-dealer. The Adviser has implemented and will maintain a “fire wall” with respect to such broker-dealer affiliate regarding access to information concerning the composition of and/or changes to a Fund’s portfolio.

In the event (a) the Adviser or any sub-adviser becomes registered as a broker-dealer or becomes newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer, or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

#### The Funds

According to the Application, the Adviser believes a Fund would allow for efficient trading of Shares through an effective Fund portfolio transparency substitute and publication of related information metrics, while still shielding the identity of the full Fund portfolio contents to protect a Fund’s performance-seeking strategies. Even though a Fund would not publish its full portfolio contents daily, the Adviser believes that the NYSE Proxy Portfolio Methodology would allow market participants to assess the intraday value and associated risk of a Fund’s Actual Portfolio. As a result, the Adviser believes that investors would be able to purchase and sell Shares in the secondary market at prices that are close to their NAV.

In this regard, the Funds will utilize a proxy portfolio methodology-- the “NYSE Proxy Portfolio Methodology”-- that would allow market participants to assess the intraday value and associated risk of a Fund’s Actual Portfolio and thereby facilitate the purchase and sale of Shares of a Fund by investors in the secondary

---

policies and procedures reasonably designed to prevent violations, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

market at prices that do not vary materially from their NAV.<sup>14</sup> The NYSE Proxy Portfolio Methodology would utilize creation of a Proxy Portfolio for hedging and arbitrage purposes.

#### American Century Mid Cap Growth Impact ETF

The Fund's holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>15</sup> Any foreign common stocks held by the Fund will be traded on an exchange that is a member of the Intermarket Surveillance Group ("ISG") or with which the Exchange has in place a comprehensive surveillance sharing agreement.

According to the Registration Statement, the Fund will seek long-term capital growth. The Fund, under normal market conditions,<sup>16</sup> will invest principally in exchange-traded common stocks and will invest at least 80% of its assets in securities of medium capitalization companies.

---

<sup>14</sup> The NYSE Proxy Portfolio Methodology is owned by the NYSE Group, Inc. and licensed for use by the Funds. NYSE Group, Inc. is not affiliated with the Funds, Adviser or Distributor. Not all series of Active Proxy Portfolio Shares will utilize the NYSE Proxy Portfolio Methodology.

<sup>15</sup> Pursuant to the American Century Application, the permissible investments for a Fund are only the following: exchange-traded funds ("ETFs") traded on a U.S. exchange; exchange-traded notes ("ETNs") traded on a U.S. exchange; U.S. exchange-traded common stocks; common stocks listed on a foreign exchange that trade on such exchange contemporaneously with the Shares ("foreign common stocks") in the Exchange's Core Trading Session (normally 9:30 a.m. and 4:00 p.m. Eastern time ("E.T.")); U.S. exchange-traded preferred stocks; U.S. exchange-traded American Depositary Receipts ("ADRs"); U.S. exchange-traded real estate investment trusts; U.S. exchange-traded commodity pools; U.S. exchange-traded metals trusts; U.S. exchange-traded currency trusts; and U.S. exchange-traded futures that trade contemporaneously with a Fund's Shares. In addition, a Fund may hold cash and cash equivalents (short-term U.S. Treasury securities, government money market funds, and repurchase agreements). The Funds will not hold short positions or invest in derivatives other than U.S. exchange-traded futures.

<sup>16</sup> The term "normal market conditions" is defined in proposed Rule 8.601-E(c)(6), which states as follows: The term "normal market conditions" includes, but is not limited to, the absence of trading halts in the applicable financial markets generally; operational issues (e.g., systems failure) causing dissemination of inaccurate market information; or force majeure type events such as natural or manmade disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

## American Century Sustainable Equity ETF

The Fund's holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>17</sup> Any foreign common stocks held by the Fund will be traded on an exchange that is a member of the ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

According to the Registration Statement, the Fund will seek long-term capital growth, with income as a secondary objective. The Fund, under normal market conditions, will invest at least 80% of its assets in equity securities. The Fund will invest principally in exchange-traded common stocks.

## Creations and Redemptions of Shares

According to the Registration Statement, the Trust will offer, issue and sell Shares of the Funds to investors only in specified minimum size "Creation Units" through the Distributor on a continuous basis at the NAV per Share next determined after an order in proper form is received. The NAV of a Fund is expected to be determined as of 4:00 p.m. E.T. on each "Business Day."<sup>18</sup> The "Creation Basket" (as defined below) for a Fund will be based on the Proxy Portfolio, which is designed to approximate the value and performance of the Actual Portfolio. All Creation Basket instruments will be valued in the same manner as they are valued for purposes of calculating a Fund's NAV, and such valuation will be made in the same manner regardless of the identity of the purchaser or redeemer. Further, the total consideration paid for the purchase or redemption of a Creation Unit of Shares will be based on the NAV of such Fund, as calculated in accordance with the policies and procedures set forth in its Registration Statement.

The Trust will sell and redeem Creation Units of each Fund only on a Business Day. Creation Units of the Funds may be purchased and/or redeemed entirely for cash, as permissible under the procedures described below.

In order to keep costs low and permit each Fund to be as fully invested as possible, Shares will be purchased and redeemed in Creation Units and generally on an in-kind basis. Accordingly, except where the purchase or redemption will include cash under the circumstances specified below, purchasers will be required to purchase Creation Units by making an in-kind deposit of specified instruments ("Deposit Instruments"), and shareholders redeeming their Shares will receive an in-kind transfer of specified instruments ("Redemption Instruments"). The

---

<sup>17</sup> See note 15, *supra*.

<sup>18</sup> A Business Day is any day on which the Exchange is open for business.

names and quantities of the instruments that constitute the Deposit Instruments and the Redemption Instruments for a Fund (collectively, the “Creation Basket”) will be the same as a Fund’s Proxy Portfolio, except to the extent purchases and redemptions are made entirely or in part on a cash basis.

If there is a difference between the NAV attributable to a Creation Unit and the aggregate market value of the Creation Basket exchanged for the Creation Unit, the party conveying instruments with the lower value will also pay to the other an amount in cash equal to that difference (the “Cash Amount”).

Each Fund will adopt and implement policies and procedures regarding the composition of its Creation Baskets. The policies and procedures will set forth detailed parameters for the construction and acceptance of baskets in compliance with the terms and conditions of the American Century Exemptive Order and that are in the best interests of a Fund and its shareholders, including the process for any revisions to or deviations from those parameters.

A Fund that normally issues and redeems Creation Units in kind may require purchases and redemptions to be made entirely or in part on a cash basis. In such an instance, a Fund will announce, before the open of trading in the Core Trading Session (normally, 9:30 a.m. to 4:00 p.m., E.T.) on a given Business Day, that all purchases, all redemptions, or all purchases and redemptions on that day will be made wholly or partly in cash. A Fund may also determine, upon receiving a purchase or redemption order from an Authorized Participant, to have the purchase or redemption, as applicable, be made entirely or in part in cash. Each Business Day, before the open of trading on the Exchange, a Fund will cause to be published through the National Securities Clearing Corporation (“NSCC”) the names and quantities of the instruments comprising the Creation Basket, as well as the estimated Cash Amount (if any), for that day. The published Creation Basket will apply until a new Creation Basket is announced on the following Business Day, and there will be no intra-day changes to the Creation Basket except to correct errors in the published Creation Basket.

All orders to purchase Creation Units must be placed with the Distributor by or through an Authorized Participant, which is either: (1) a “participating party” (i.e., a broker or other participant), in the Continuous Net Settlement (“CNS”) System of the NSCC, a clearing agency registered with the Commission and affiliated with the Depository Trust Company (“DTC”), or (2) a DTC Participant, which in any case has executed a participant agreement with the Distributor and the Transfer Agent.

#### Timing and Transmission of Purchase Orders

All orders to purchase (or redeem) Creation Units, whether using the NSCC Process or the DTC Process, must be received by the Distributor no later than the NAV calculation time (“NAV Calculation Time”), generally 4:00 p.m. E.T. on the date the order is placed (“Transmittal Date”) in order for the purchaser (or

redeemer) to receive the NAV determined on the Transmittal Date. In the case of custom orders, the order must be received by the Distributor sufficiently in advance of the NAV Calculation Time in order to help ensure that a Fund has an opportunity to purchase the missing securities with the cash in lieu amounts or to sell securities to generate the cash in lieu amounts prior to the NAV Calculation Time. On days when the Exchange closes earlier than normal, a Fund may require custom orders to be placed earlier in the day.

### Daily Disclosures

With respect to the Funds, the following information will comprise the “Proxy Portfolio Disclosures” and will be publicly available on the Funds’ website before the commencement of trading in Shares on each Business Day:

- The Proxy Portfolio holdings (including the identity and quantity of investments in the Proxy Portfolio) will be publicly available on a Fund’s website before the commencement of trading in Shares on each Business Day.
- The historical “Tracking Error” between a Fund’s last published NAV per share and the value, on a per Share basis, of a Fund’s Proxy Portfolio calculated as of the close of trading on the prior Business Day will be publicly available on a Fund’s website before the commencement of trading in Shares each Business Day.
- The “Proxy Overlap” will be publicly available on a Fund’s website before the commencement of trading in Shares on each Business Day. The Proxy Overlap is the percentage weight overlap between the Proxy Portfolio’s holdings compared to the Actual Portfolio’s holdings that formed the basis for a Fund’s calculation of NAV at the end of the prior Business Day. The Proxy Overlap will be calculated by taking the lesser weight of each asset held in common between the Actual Portfolio and the Proxy Portfolio and adding the totals.

### Availability of Information

The Funds’ website will include on a daily basis, per Share for each Fund, the prior Business Day’s NAV and the Closing Price or Bid/Ask Price, and a calculation of the premium/discount of the Closing Price or Bid/Ask Price against such NAV.<sup>19</sup> Each Fund’s website also will disclose the information required under proposed Rule 8.601-E (c)(3).<sup>20</sup>

---

<sup>19</sup> The “premium/discount” refers to the premium or discount to NAV at the end of a trading day and will be calculated based on the last Bid/Ask Price or the Closing Price on a given trading day. The “Closing Price” of Shares is the official closing price of the Shares on a Fund’s Exchange. The “Bid/Ask Price” is the midpoint of

The Proxy Portfolio holdings (including the identity and quantity of investments in the Proxy Portfolio) will be publicly available on the Funds' website before the commencement of trading in Shares on each Business Day.

Typical mutual fund-style annual, semi-annual and quarterly disclosures contained in the Funds' Commission filings will be provided on the Funds' website on a current basis.<sup>21</sup> Thus, each Fund will publish the portfolio contents of its Actual Portfolio on a periodic basis.

Investors can obtain a Fund's prospectus, statement of additional information ("SAI"), Shareholder Reports, Form N-CSR, N-PORT and Form N-CEN filed with the Commission. The prospectus, SAI and Shareholder Reports are available free upon request from the Trust, and those documents and the Form N-CSR, N-PORT, and Form N-CEN may be viewed on-screen or downloaded from the Commission's website. The Exchange also notes that pursuant to its Exemptive Order, the issuer must comply with Regulation Fair Disclosure, which prohibits selective disclosure of any material non-public information.

Information regarding market price and trading volume of the Shares and Proxy Portfolio holdings will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares and Proxy Portfolio holdings will be published daily in the financial section of newspapers.

Updated price information for U.S. exchange-listed equity securities is available through major market data vendors or securities exchanges trading such

---

the highest bid and lowest offer based upon the National Best Bid and Offer as of the time of calculation of such Fund's NAV. The "National Best Bid and Offer" is the current national best bid and national best offer as disseminated by the Consolidated Quotation System or UTP Plan Securities Information Processor.

<sup>20</sup> See note 3, *supra*. Proposed Rule 8.601-E (c)(3) provides that the website for each series of Active Proxy Portfolio Shares shall disclose the information regarding the Proxy Portfolio as provided in the exemptive relief pursuant to the Investment Company Act of 1940 applicable to such series, including the following, to the extent applicable:

- (i) Ticker symbol;
- (ii) CUSIP or other identifier;
- (iii) Description of holding;
- (iv) Quantity of each security or other asset held; and
- (v) Percentage weighting of the holding in the portfolio.

<sup>21</sup> See note 6, *supra*.

securities. Quotation and last sale information for the Shares, ETFs, ETNs, U.S. exchange-traded common stocks, preferred stocks and ADRs will be available via the Consolidated Tape Association (“CTA”) high-speed line or from the exchange on which such securities trade. Price information for futures, foreign stocks and cash equivalents is available through major market data vendors.

#### Investment Restrictions

Each Fund’s holdings will be consistent with all requirements described in the Application and Exemptive Order.<sup>22</sup>

The Shares of the Funds will conform to the initial and continued listing criteria under proposed Rule 8.601-E. The Funds’ holdings will be limited to and consistent with permissible investments as described above.<sup>23</sup>

Each Fund’s investments will be consistent with its investment objective. Each Fund’s investments, including derivatives, will be consistent with its investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, a Fund’s investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2X or -3X) of a Fund’s primary broad-based securities benchmark index (as defined in Form N-1A).<sup>24</sup>

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of a Fund.<sup>25</sup> Trading in Shares of a Fund will be halted if the circuit breaker parameters in NYSE Arca Rule 7.12-E have been reached. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Trading in the Shares will be subject to proposed NYSE Arca Rule 8.601-E(D), which sets forth circumstances under which Shares of a Fund will be halted.

Specifically, proposed Rule 8.601-E(d)(2)(D) provides that the Exchange may consider all relevant factors in exercising its discretion to halt trading in a series of Active Proxy Portfolio Shares. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the

---

<sup>22</sup> See note 15, supra.

<sup>23</sup> See note 15, supra.

<sup>24</sup> A Fund’s broad-based securities benchmark index will be identified in a future amendment to the Registration Statement following a Fund’s first full calendar year of performance.

<sup>25</sup> See NYSE Arca Rule 7.12-E.

series of Active Proxy Portfolio Shares inadvisable. These may include: (a) the extent to which trading is not occurring in the securities and/or the financial instruments composing the portfolio; or (b) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. If a series of Active Proxy Portfolio Shares is trading on the Exchange pursuant to unlisted trading privileges, the Exchange shall halt trading in that series as specified in Rule 7.18-E(d)(1). If the Exchange becomes aware that the NAV, Proxy Portfolio or Actual Portfolio with respect to a series of Active Proxy Portfolio Shares is not disseminated to all market participants at the same time, the Exchange shall halt trading in such series until such time as the NAV, Proxy Portfolio or Actual Portfolio is available to all market participants at the same time.

### Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. Shares will trade on the NYSE Arca Marketplace in all trading sessions in accordance with NYSE Arca Rule 7.34-E(a). As provided in NYSE Arca Rule 7.6-E, the minimum price variation ("MPV") for quoting and entry of orders in equity securities traded on the NYSE Arca Marketplace is \$0.01, with the exception of securities that are priced less than \$1.00 for which the MPV for order entry is \$0.0001.

The Shares will conform to the initial and continued listing criteria under proposed NYSE Arca Rule 8.601-E.

The Exchange has appropriate rules to facilitate trading in the Shares during all trading sessions.

The Exchange shall establish a minimum number of Shares of a Fund required to be outstanding at the time of commencement of trading on the Exchange. In addition, proposed Rule 8.601-E(d)(1)(B) provides that the Exchange will obtain a representation from a series of Active Proxy Portfolio Shares that the NAV per Share will be calculated daily and that the NAV, Proxy Portfolio and the Actual Portfolio will be made available to all market participants at the same time.

With respect to Active Proxy Portfolio Shares, all of the Exchange member obligations relating to product description and prospectus delivery requirements will continue to apply in accordance with Exchange rules and federal securities laws, and the Exchange and the Financial Industry Regulatory Authority, Inc. ("FINRA") will continue to monitor Exchange members for compliance with such requirements.

## Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by the Exchange, as well as cross-market surveillances administered by FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.<sup>26</sup> The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares and exchange-traded instruments with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading the Shares and exchange-traded instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and exchange-traded instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.<sup>27</sup>

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Proposed Commentary .03 to NYSE Arca Rule 8.601-E provides that the Exchange will implement and maintain written surveillance procedures for Active Proxy Portfolio Shares. As part of these surveillance procedures, the Investment Company's investment adviser will, upon request by the Exchange or FINRA, on behalf of the Exchange, make available to the Exchange or FINRA the daily portfolio holdings of each series of Active Proxy Portfolio Shares. The Exchange believes that the ability to access the information on an as needed basis will provide it with sufficient information to perform the necessary regulatory functions associated with listing and trading series of Active Proxy Portfolio Shares on the Exchange, including the ability to monitor compliance with the

---

<sup>26</sup> FINRA conducts cross-market surveillances on behalf of the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

<sup>27</sup> For a list of the current members of ISG, see [www.isgportal.org](http://www.isgportal.org).

initial and continued listing requirements as well as the ability to surveil for manipulation of Active Proxy Portfolio Shares.

The Exchange will utilize its existing procedures to monitor issuer compliance with the requirements of proposed Rule 8.601-E. For example, the Exchange will continue to use intraday alerts that will notify Exchange personnel of trading activity throughout the day that may indicate that unusual conditions or circumstances are present that could be detrimental to the maintenance of a fair and orderly market. The Exchange will require from the Adviser of a series of Active Proxy Portfolio Shares, upon initial listing and periodically thereafter, a representation that it is in compliance with proposed Rule 8.601-E. The Exchange notes that proposed Commentary .01 to Rule 8.601-E would require an issuer of Active Proxy Portfolio Shares to notify the Exchange of any failure to comply with the continued listing requirements of proposed Rule 8.601-E. In addition, the Exchange will require funds to represent that they will notify the Exchange of any failure to comply with the terms of applicable exemptive and no-action relief. As part of its surveillance procedures, the Exchange will rely on the foregoing procedures to become aware of any non-compliance with the requirements of proposed Rule 8.601-E.

With respect to the Funds, all statements and representations made in this filing regarding (a) the description of the portfolio or reference asset, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange listing rules specified in this rule filing shall constitute continued listing requirements for listing the Shares on the Exchange. The Adviser will represent to the Exchange that it will advise the Exchange of any failure by a Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will monitor for compliance with the continued listing requirements. If a Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under NYSE Arca Rule 5.5-E(m).

#### Information Bulletin

Prior to the commencement of trading, the Exchange will inform its Equity Trading Permit (“ETP”) Holders in an Information Bulletin (“Bulletin”) of the special characteristics and risks associated with trading the Shares. Specifically, the Bulletin will discuss the following: (1) the procedures for purchases and redemptions of Shares; (2) NYSE Arca Rule 9.2-E(a), which imposes a duty of due diligence on its ETP Holders to learn the essential facts relating to every customer prior to trading the Shares; (4) how information regarding the Actual Portfolio and Proxy Portfolio will be disseminated; (5) the requirement that ETP Holders deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Bulletin will reference that a Fund is subject to various fees and expenses described in the applicable registration statement. The Bulletin will

discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act. The Bulletin will also disclose that the NAV for the Shares will be calculated after 4:00 p.m., E.T. each trading day.

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,<sup>28</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>29</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

With respect to the proposed listing and trading of Shares of the Funds, the Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in proposed NYSE Arca Rule 8.601-E.<sup>30</sup>

Each Fund's holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>31</sup>

Each Fund's investments will be consistent with its investment objective. Each Fund's investments, including derivatives, will be consistent with its investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, a Fund's investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2X or -3X) of a Fund's primary broad-based securities benchmark index (as defined in Form N-1A).

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares and exchange-traded instruments with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information

---

<sup>28</sup> 15 U.S.C. 78f(b).

<sup>29</sup> 15 U.S.C. 78f(b)(5).

<sup>30</sup> The Exchange represents that, for continued listing, the Funds will be in compliance with Rule 10A-3 under the Act, as provided by NYSE Arca Rule 5.3-E.

<sup>31</sup> See note 15, *supra*.

regarding trading in the Shares and exchange-traded instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and exchange-traded instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

The Exchange, after consulting with various LMMs that trade ETFs on the Exchange, believes that market makers will be able to make efficient and liquid markets priced near the ETF's intraday value, and market makers employ market making techniques such as "statistical arbitrage," including correlation hedging, beta hedging, and dispersion trading, which is currently used throughout the financial services industry, to make efficient markets in exchange-traded products.<sup>32</sup> For Active Proxy Portfolio Shares, market makers may use the knowledge of a fund's means of achieving its investment objective, as described in the applicable fund registration statement, as well as a fund's disclosed Proxy Portfolio, to construct a hedging proxy for a fund to manage a market maker's quoting risk in connection with trading fund shares. Market makers can then conduct statistical arbitrage between their hedging proxy and shares of a fund, buying and selling one against the other over the course of the trading day. This ability should permit market makers to make efficient markets in an issue of Active Proxy Portfolio Shares without precise knowledge of a fund's underlying portfolio. This is similar to certain other existing exchange-traded products (for example, ETFs that invest in foreign securities that do not trade during U.S. trading hours), in which spreads may be generally wider in the early days of trading and then narrow as market makers gain more confidence in their real-time hedges.

The Funds will utilize the NYSE Proxy Portfolio Methodology that would allow market participants to assess the intraday value and associated risk of a Fund's Actual Portfolio and thereby facilitate the purchase and sale of Shares by investors in the secondary market at prices that do not vary materially from their NAV.

The daily dissemination of the identity and quantity of Proxy Portfolio component investments, together with the right of Authorized Participants to create and redeem each day at the NAV, will be sufficient for market participants to value and trade Shares in a manner that will not lead to significant deviations between the Shares' Bid/Ask Price and NAV.

With respect to Active Proxy Portfolio Shares generally, the pricing efficiency with respect to trading a series of Active Proxy Portfolio Shares will generally rest on the ability of market participants to arbitrage between the shares and a fund's portfolio, in addition to the ability of market participants to assess a fund's underlying value accurately enough throughout the trading day in order to hedge

---

<sup>32</sup>

See note 9, *supra*.

positions in shares effectively. Professional traders can buy shares that they perceive to be trading at a price less than that which will be available at a subsequent time and sell shares they perceive to be trading at a price higher than that which will be available at a subsequent time. It is expected that, as part of their normal day-to-day trading activity, market makers assigned to shares by the Exchange, off-exchange market makers, firms that specialize in electronic trading, hedge funds and other professionals specializing in short-term, non-fundamental trading strategies will assume the risk of being “long” or “short” shares through such trading and will hedge such risk wholly or partly by simultaneously taking positions in correlated assets<sup>33</sup> or by netting the exposure against other, offsetting trading positions – much as such firms do with existing ETFs and other equities. Disclosure of a fund’s investment objective and principal investment strategies in its prospectus and SAI should permit professional investors to engage easily in this type of hedging activity.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest. Investors can obtain a fund’s SAI, shareholder reports, and its Form N-CSR, Form N-PORT and Form N-CEN. A Fund’s SAI and shareholder reports will be available free upon request from the a Fund, and those documents and the Form N-CSR, Form N-PORT and Form N-CEN may be viewed on-screen or downloaded from the Commission’s website. In addition, with respect to each Fund, a large amount of information will be publicly available regarding the Funds and the Shares, thereby promoting market transparency. Quotation and last sale information for the Shares, ETFs, ETNs, U.S. exchange-traded common stocks, preferred stocks and ADRs will be available via the CTA high-speed line or from the exchange on which such securities trade. Price information for futures, foreign stocks and cash equivalents is available through major market data vendors. The website for the Funds will include a form of the prospectus for each Fund that may be downloaded, and additional data relating to NAV and other applicable quantitative information, updated on a daily basis. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. Trading in Shares of the Funds will be halted if the circuit breaker parameters in NYSE Arca Rule 7.12-E have been reached or because of market conditions or for reasons that, in

33

Price correlation trading is used throughout the financial industry. It is used to discover both trading opportunities to be exploited, such as currency pairs and statistical arbitrage, as well as for risk mitigation such as dispersion trading and beta hedging. These correlations are a function of differentials, over time, between one or multiple securities pricing. Once the nature of these price deviations have been quantified, a universe of securities is searched in an effort to, in the case of a hedging strategy, minimize the differential. Once a suitable hedging basket has been identified, a trader can minimize portfolio risk by executing the hedging basket. The trader then can monitor the performance of this hedge throughout the trade period, making corrections where warranted.

the view of the Exchange, make trading in the Shares inadvisable. In addition, as noted above, investors will have ready access to the Proxy Portfolio and quotation and last sale information for the Shares. The Shares will conform to the initial and continued listing criteria under proposed Rule 8.601-E.<sup>34</sup>

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding quotation and last sale information for the Shares.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed rule change would permit listing and trading of another type of actively-managed ETF that has characteristics different from existing actively-managed and index ETFs and would introduce additional competition among various ETF products to the benefit of investors.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

The Exchange does not consent at this time to an extension of any time period for Commission action.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Not applicable.

<sup>34</sup>

See Amendment 3 to SR-NYSEArca-2019-95, referenced in note 3, supra.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

The proposed rule change is not based on the rules of another self-regulatory organization or of the Commission.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

## EXHIBIT 1

## SECURITIES AND EXCHANGE COMMISSION

(Release No. 34- ; File No. SR-NYSEARCA-2019-96, Amendment No. 3)

[Date]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change to List and Trade Shares of the American Century Mid Cap Growth Impact ETF and American Century Sustainable Equity ETF under Proposed NYSE Arca Rule 8.601-E

Pursuant to Section 19(b)(1)<sup>1</sup> of the Securities Exchange Act of 1934 (the “Act”)<sup>2</sup> and Rule 19b-4 thereunder,<sup>3</sup> notice is hereby given that, on May 20, 2020, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade shares of the following under proposed NYSE Arca Rule 8.601-E (Active Proxy Portfolio Shares): American Century Mid Cap Growth Impact ETF and American Century Sustainable Equity ETF. This Amendment No. 3 to SR-NYSEArca-2019-96 replaces SR-NYSEArca-2019-96 as originally filed and Amendment 2 thereto and supersedes such filings in their entirety. The Exchange has withdrawn Amendment No. 1 to SR-NYSEArca-2019-96. The proposed change is available on the Exchange’s website at [www.nyse.com](http://www.nyse.com), at the principal office of the

Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange has proposed to add new NYSE Arca Rule 8.601-E for the purpose of permitting the listing and trading, or trading pursuant to unlisted trading privileges ("UTP"), of Active Proxy Portfolio Shares, which are securities issued by an actively managed open-end investment management company.<sup>4</sup> Proposed Commentary .01 to

---

<sup>4</sup> See Amendment 3 to SR-NYSEArca-2019-95, filed on May 19, 2020. See also, Securities Exchange Act Release No. 87866 (December 30, 2019), 85 FR 357 (January 3, 2020) (SR-NYSEArca-2019-95). Proposed Rule 8.601-E(c)(1) provides that "[t]he term 'Active Proxy Portfolio Share' means a security that (a) is issued by a investment company registered under the Investment Company Act of 1940 ('Investment Company') organized as an open-end management investment company that invests in a portfolio of securities selected by the Investment Company's investment adviser consistent with the Investment Company's investment objectives and policies; (b) is issued in a specified minimum number of shares , or multiples thereof, in return for a deposit by the purchaser of the Proxy Portfolio and/or cash with a value equal to the next determined net asset value ('NAV'); (c) when aggregated in the same specified minimum number of Active Proxy Portfolio Shares, or multiples thereof, may be redeemed at a holder's request in return for the Proxy Portfolio and/or cash to the holder by the issuer with a value equal to the next determined NAV; and (d) the

Rule 8.601-E would require the Exchange to file separate proposals under Section 19(b) of the Act before listing and trading any series of Active Proxy Portfolio Shares on the Exchange. Therefore, the Exchange is submitting this proposal in order to list and trade shares (“Shares”) of Active Proxy Portfolio Shares of the American Century Mid Cap Growth Impact ETF and American Century Sustainable Equity ETF (each a “Fund” and, collectively, the “Funds”) under proposed Rule 8.601-E.

#### Key Features of Active Proxy Portfolio Shares

While funds issuing Active Proxy Portfolio Shares will be actively-managed and, to that extent, will be similar to Managed Fund Shares, Active Proxy Portfolio Shares differ from Managed Fund Shares in the following important respects. First, in contrast to Managed Fund Shares, which are actively-managed funds listed and traded under NYSE Arca Rule 8.600-E<sup>5</sup> and for which a “Disclosed Portfolio” is required to be disseminated

---

portfolio holdings for which are disclosed within at least 60 days following the end of every fiscal quarter.” Proposed Rule 8.601-E(c)(2) provides that “[t]he term “Actual Portfolio” means the identities and quantities of the securities and other assets held by the Investment Company that shall form the basis for the Investment Company’s calculation of NAV at the end of the business day.” Proposed Rule 8.601-E(c)(3) provides that “[t]he term “Proxy Portfolio” means a specified portfolio of securities, other financial instruments and/or cash designed to track closely the daily performance of the Actual Portfolio of a series of Active Proxy Portfolio Shares as provided in the exemptive relief pursuant to the Investment Company Act of 1940 applicable to such series.”

<sup>5</sup> The Commission has previously approved listing and trading on the Exchange of a number of issues of Managed Fund Shares under NYSE Arca Rule 8.600-E. See, e.g., Securities Exchange Act Release Nos. 57801 (May 8, 2008), 73 FR 27878 (May 14, 2008) (SR-NYSEArca-2008-31) (order approving Exchange listing and trading of twelve actively-managed funds of the WisdomTree Trust); 60460 (August 7, 2009), 74 FR 41468 (August 17, 2009) (SR-NYSEArca-2009-55) (order approving listing of Dent Tactical ETF); 63076 (October 12, 2010), 75 FR 63874 (October 18, 2010) (SR-NYSEArca-2010-79) (order approving Exchange listing and trading of Cambria Global Tactical ETF); 63802 (January 31, 2011), 76 FR 6503 (February 4, 2011) (SR-NYSEArca-2010-118) (order approving Exchange listing and trading of the SiM Dynamic Allocation

at least once daily,<sup>6</sup> the portfolio for an issue of Active Proxy Portfolio Shares will be publicly disclosed within at least 60 days following the end of every fiscal quarter in accordance with normal disclosure requirements otherwise applicable to open-end management investment companies registered under the 1940 Act.<sup>7</sup> The composition of the portfolio of an issue of Active Proxy Portfolio Shares would not be available at commencement of Exchange listing and trading. Second, in connection with the creation and redemption of Active Proxy Portfolio Shares, such creation or redemption may be exchanged for a Proxy Portfolio with a value equal to the next-determined NAV.

A series of Active Proxy Portfolio Shares will disclose the Proxy Portfolio on a daily basis, which, as described above, is designed to track closely the daily performance

---

Diversified Income ETF and SiM Dynamic Allocation Growth Income ETF). The Commission also has approved a proposed rule change relating to generic listing standards for Managed Fund Shares. See Securities Exchange Act Release No. 78397 (July 22, 2016), 81 FR 49320 (July 27, 2016) (SR-NYSEArca-2015-110) (amending NYSE Arca Equities Rule 8.600 to adopt generic listing standards for Managed Fund Shares).

<sup>6</sup> NYSE Arca Rule 8.600-E(c)(2) defines the term “Disclosed Portfolio” as the identities and quantities of the securities and other assets held by the Investment Company that will form the basis for the Investment Company’s calculation of net asset value at the end of the business day. NYSE Arca Rule 8.600-E(d)(2)(B)(i) requires that the Disclosed Portfolio will be disseminated at least once daily and will be made available to all market participants at the same time.

<sup>7</sup> A mutual fund is required to file with the Commission its complete portfolio schedules for the second and fourth fiscal quarters on Form N-CSR under the 1940 Act. Information reported on Form N-PORT for the third month of a Fund’s fiscal quarter will be made publicly available 60 days after the end of a Fund’s fiscal quarter. Form N-PORT requires reporting of a fund’s complete portfolio holdings on a position-by-position basis on a quarterly basis within 60 days after fiscal quarter end. Investors can obtain a fund’s Statement of Additional Information, its Shareholder Reports, its Form N-CSR, filed twice a year, and its Form N-CEN, filed annually. A fund’s statement of additional information (“SAI”) and Shareholder Reports are available free upon request from the Investment Company, and those documents and the Form N-PORT, Form N-CSR, and Form N-CEN may be viewed on-screen or downloaded from the Commission’s website at [www.sec.gov](http://www.sec.gov).

of the Actual Portfolio of a series of Active Proxy Portfolio Shares, instead of the actual holdings of the Investment Company, as provided by a series of Managed Fund Shares.

In this regard, with respect to the Funds, the Funds will utilize a proxy portfolio methodology-- the “NYSE Proxy Portfolio Methodology”-- that would allow market participants to assess the intraday value and associated risk of a Fund’s Actual Portfolio and thereby facilitate the purchase and sale of Shares by investors in the secondary market at prices that do not vary materially from their NAV.<sup>8</sup> The NYSE Proxy Portfolio Methodology would utilize creation of a Proxy Portfolio for hedging and arbitrage purposes.

The Exchange, after consulting with various Lead Market Makers (“LMMs”) that trade ETFs on the Exchange,<sup>9</sup> believes that market makers will be able to make efficient and liquid markets priced near the ETF’s intraday value, and market makers employ market making techniques such as “statistical arbitrage,” including correlation hedging, beta hedging, and dispersion trading, which is currently used throughout the financial services industry, to make efficient markets in exchange-traded products.<sup>10</sup> For Active

---

<sup>8</sup> The NYSE Proxy Portfolio Methodology is owned by the NYSE Group, Inc. and licensed for use by the Funds. NYSE Group, Inc. is not affiliated with the Funds, Adviser or Distributor. Not all series of Active Proxy Portfolio Shares will utilize the NYSE Proxy Portfolio Methodology.

<sup>9</sup> The term “Lead Market Maker” is defined in Rule 1.1(w) to mean a registered Market Maker that is the exclusive Designated Market Maker in listings for which the Exchange is the primary market.

<sup>10</sup> Statistical arbitrage enables a trader to construct an accurate proxy for another instrument, allowing it to hedge the other instrument or buy or sell the instrument when it is cheap or expensive in relation to the proxy. Statistical analysis permits traders to discover correlations based purely on trading data without regard to other fundamental drivers. These correlations are a function of differentials, over time, between one instrument or group of instruments and one or more other instruments. Once the nature of these price deviations have been quantified, a universe of securities is searched in an effort to, in the case of a hedging strategy,

Proxy Portfolio Shares, market makers may use the knowledge of a fund's means of achieving its investment objective, as described in the applicable fund registration statement, as well as a fund's disclosed Proxy Portfolio, to construct a hedging proxy for a fund to manage a market maker's quoting risk in connection with trading fund shares. Market makers can then conduct statistical arbitrage between their hedging proxy and shares of a fund, buying and selling one against the other over the course of the trading day. This ability should permit market makers to make efficient markets in an issue of Active Proxy Portfolio Shares without precise knowledge of a fund's underlying portfolio. This is similar to certain other existing exchange-traded products (for example, ETFs that invest in foreign securities that do not trade during U.S. trading hours), in which spreads may be generally wider in the early days of trading and then narrow as market makers gain more confidence in their real-time hedges.

#### Description of the Funds and the Trust

The Funds will be series of the American Century ETF Trust ("Trust"), which will be registered with the Commission as an open-end management investment

---

minimize the differential. Once a suitable hedging proxy has been identified, a trader can minimize portfolio risk by executing the hedging basket. The trader then can monitor the performance of this hedge throughout the trade period making corrections where warranted. In the case of correlation hedging, the analysis seeks to find a proxy that matches the pricing behavior of a fund. In the case of beta hedging, the analysis seeks to determine the relationship between the price movement over time of a fund and that of another stock. Dispersion trading is a hedged strategy designed to take advantage of relative value differences in implied volatilities between an index and the component stocks of that index. Such trading strategies will allow market participants to engage in arbitrage between series of Active Proxy Portfolio Shares and other instruments, both through the creation and redemption process and strictly through arbitrage without such processes.

company.<sup>11</sup>

American Century Investment Management, Inc. (“Adviser”) will be the investment adviser to the Funds. Foreside Fund Services, LLC will act as the distributor and principal underwriter (“Distributor”) for the Funds. State Street Bank and Trust Company will serve as transfer agent (“Transfer Agent” for the Funds.

Proposed Commentary .04 to NYSE Arca Rule 8.601-E provides that, if the investment adviser to the Investment Company issuing Active Proxy Portfolio Shares is registered as a broker-dealer or is affiliated with a broker-dealer, such investment adviser will erect and maintain a “fire wall” between the investment adviser and personnel of the broker-dealer or broker-dealer affiliate, as applicable, with respect to access to information concerning the composition and/or changes to such Investment Company’s Actual Portfolio and/or Proxy Portfolio. Any person related to the investment adviser or Investment Company who makes decisions pertaining to the Investment Company’s portfolio composition or has access to non-public information regarding the Investment Company’s Actual Portfolio or the Proxy Portfolio or changes thereto must be subject to procedures reasonably designed to prevent the use and dissemination of material non-public information regarding the Actual Portfolio or the Proxy Portfolio or changes

---

<sup>11</sup> The Trust is registered under the 1940 Act. On April 6, 2020, the Trust filed a registration statement on Form N-1A under the Securities Act of 1933 and the 1940 Act for the Funds (File Nos. 333-221045 and 811-23305) (“Registration Statement”). The Trust also filed an application for an order under Section 6(c) of the 1940 Act for exemptions from various provisions of the 1940 Act and rules thereunder (File No. 812-15082), dated December 11, 2019 (“American Century Application” or “Application”). The Shares will not be listed on the Exchange until an order (“American Century Exemptive Order”) under the 1940 Act has been issued by the Commission with respect to the Application. The description of the operation of the Trust and the Funds herein is based, in part, on the Registration Statement and the American Century Application.

thereto.<sup>12</sup>

Proposed Commentary .05 provides that any person or entity, including a custodian, Reporting Authority, distributor, or administrator, who has access to non-public information regarding the Investment Company's Actual Portfolio or changes thereto or the Proxy Portfolio, must be subject to procedures reasonably designed to prevent the use and dissemination of material non-public information regarding the applicable Investment Company Actual Portfolio or the Proxy Portfolio or changes thereto. Moreover, if any such person or entity is registered as a broker-dealer or affiliated with a broker-dealer, such person or entity will erect and maintain a "fire wall" between the person or entity and the broker-dealer with respect to access to information concerning the composition and/or changes to such Investment Company Actual Portfolio or Proxy Portfolio.<sup>13</sup>

Proposed Commentary .04 is similar to Commentary .03(a)(i) and (iii) to NYSE Arca Rule 5.2-E(j)(3); however, Commentary .03(a) in connection with the establishment of a "fire wall" between the investment adviser and the broker-dealer reflects the applicable open-end fund's portfolio, not an underlying benchmark index, as is the case with index-based funds.<sup>14</sup> Commentary .04 is also similar to Commentary .06 to Rule

---

<sup>12</sup> The text of proposed Commentary .04 to NYSE Arca Rule 8.601-E is included in Amendment 3 to SR-NYSEArca-2019-95. See note 4, supra.

<sup>13</sup> The text of proposed Commentary .05 to NYSE Arca Rule 8.601-E is included in Amendment 3 to SR-NYSEArca-2019-95. See note 4, supra.

<sup>14</sup> An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the "Advisers Act"). As a result, the Adviser and its related personnel will be subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of

8.600-E related to Managed Fund Shares, except that proposed Commentary .04 relates to establishment and maintenance of a “fire wall” between the investment adviser and the broker-dealer applicable to an Investment Company’s Actual Portfolio and/or Proxy Portfolio, and not just to the underlying portfolio, as is the case with Managed Fund Shares. The Adviser is not registered as a broker-dealer but is affiliated with a broker-dealer. The Adviser has implemented and will maintain a “fire wall” with respect to such broker-dealer affiliate regarding access to information concerning the composition of and/or changes to a Fund’s portfolio.

In the event (a) the Adviser or any sub-adviser becomes registered as a broker-dealer or becomes newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer, or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

#### The Funds

According to the Application, the Adviser believes a Fund would allow for

---

non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violations, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

efficient trading of Shares through an effective Fund portfolio transparency substitute and publication of related information metrics, while still shielding the identity of the full Fund portfolio contents to protect a Fund's performance-seeking strategies. Even though a Fund would not publish its full portfolio contents daily, the Adviser believes that the NYSE Proxy Portfolio Methodology would allow market participants to assess the intraday value and associated risk of a Fund's Actual Portfolio. As a result, the Adviser believes that investors would be able to purchase and sell Shares in the secondary market at prices that are close to their NAV.

In this regard, the Funds will utilize a proxy portfolio methodology-- the "NYSE Proxy Portfolio Methodology"-- that would allow market participants to assess the intraday value and associated risk of a Fund's Actual Portfolio and thereby facilitate the purchase and sale of Shares of a Fund by investors in the secondary market at prices that do not vary materially from their NAV.<sup>15</sup> The NYSE Proxy Portfolio Methodology would utilize creation of a Proxy Portfolio for hedging and arbitrage purposes.

#### American Century Mid Cap Growth Impact ETF

The Fund's holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>16</sup> Any foreign common stocks held by the Fund will be traded on an exchange that

---

<sup>15</sup> The NYSE Proxy Portfolio Methodology is owned by the NYSE Group, Inc. and licensed for use by the Funds. NYSE Group, Inc. is not affiliated with the Funds, Adviser or Distributor. Not all series of Active Proxy Portfolio Shares will utilize the NYSE Proxy Portfolio Methodology.

<sup>16</sup> Pursuant to the American Century Application, the permissible investments for a Fund are only the following: exchange-traded funds ("ETFs") traded on a U.S. exchange; exchange-traded notes ("ETNs") traded on a U.S. exchange; U.S.

is a member of the Intermarket Surveillance Group (“ISG”) or with which the Exchange has in place a comprehensive surveillance sharing agreement.

According to the Registration Statement, the Fund will seek long-term capital growth. The Fund, under normal market conditions,<sup>17</sup> will invest principally in exchange-traded common stocks and will invest at least 80% of its assets in securities of medium capitalization companies.

#### American Century Sustainable Equity ETF

The Fund’s holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>18</sup> Any foreign common stocks held by the Fund will be traded on an exchange that is a member of the ISG or with which the Exchange has in place a comprehensive

---

exchange-traded common stocks; common stocks listed on a foreign exchange that trade on such exchange contemporaneously with the Shares (“foreign common stocks”) in the Exchange’s Core Trading Session (normally 9:30 a.m. and 4:00 p.m. Eastern time (“E.T.”)); U.S. exchange-traded preferred stocks; U.S. exchange-traded American Depositary Receipts (“ADRs”); U.S. exchange-traded real estate investment trusts; U.S. exchange-traded commodity pools; U.S. exchange-traded metals trusts; U.S. exchange-traded currency trusts; and U.S. exchange-traded futures that trade contemporaneously with a Fund’s Shares. In addition, a Fund may hold cash and cash equivalents (short-term U.S. Treasury securities, government money market funds, and repurchase agreements). The Funds will not hold short positions or invest in derivatives other than U.S. exchange-traded futures.

<sup>17</sup> The term "normal market conditions" is defined in proposed Rule 8.601-E(c)(6)., which states as follows: The term "normal market conditions" includes, but is not limited to, the absence of trading halts in the applicable financial markets generally; operational issues (e.g., systems failure) causing dissemination of inaccurate market information; or force majeure type events such as natural or manmade disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

<sup>18</sup> See note 16, supra.

surveillance sharing agreement.

According to the Registration Statement, the Fund will seek long-term capital growth, with income as a secondary objective. The Fund, under normal market conditions, will invest at least 80% of its assets in equity securities. The Fund will invest principally in exchange-traded common stocks.

#### Creations and Redemptions of Shares

According to the Registration Statement, the Trust will offer, issue and sell Shares of the Funds to investors only in specified minimum size “Creation Units” through the Distributor on a continuous basis at the NAV per Share next determined after an order in proper form is received. The NAV of a Fund is expected to be determined as of 4:00 p.m. E.T. on each “Business Day.”<sup>19</sup> The “Creation Basket” (as defined below) for a Fund will be based on the Proxy Portfolio, which is designed to approximate the value and performance of the Actual Portfolio. All Creation Basket instruments will be valued in the same manner as they are valued for purposes of calculating a Fund’s NAV, and such valuation will be made in the same manner regardless of the identity of the purchaser or redeemer. Further, the total consideration paid for the purchase or redemption of a Creation Unit of Shares will be based on the NAV of such Fund, as calculated in accordance with the policies and procedures set forth in its Registration Statement.

The Trust will sell and redeem Creation Units of each Fund only on a Business Day. Creation Units of the Funds may be purchased and/or redeemed entirely for cash, as permissible under the procedures described below.

---

<sup>19</sup> A Business Day is any day on which the Exchange is open for business.

In order to keep costs low and permit each Fund to be as fully invested as possible, Shares will be purchased and redeemed in Creation Units and generally on an in-kind basis. Accordingly, except where the purchase or redemption will include cash under the circumstances specified below, purchasers will be required to purchase Creation Units by making an in-kind deposit of specified instruments (“Deposit Instruments”), and shareholders redeeming their Shares will receive an in-kind transfer of specified instruments (“Redemption Instruments”). The names and quantities of the instruments that constitute the Deposit Instruments and the Redemption Instruments for a Fund (collectively, the “Creation Basket”) will be the same as a Fund’s Proxy Portfolio, except to the extent purchases and redemptions are made entirely or in part on a cash basis.

If there is a difference between the NAV attributable to a Creation Unit and the aggregate market value of the Creation Basket exchanged for the Creation Unit, the party conveying instruments with the lower value will also pay to the other an amount in cash equal to that difference (the “Cash Amount”).

Each Fund will adopt and implement policies and procedures regarding the composition of its Creation Baskets. The policies and procedures will set forth detailed parameters for the construction and acceptance of baskets in compliance with the terms and conditions of the American Century Exemptive Order and that are in the best interests of a Fund and its shareholders, including the process for any revisions to or deviations from those parameters.

A Fund that normally issues and redeems Creation Units in kind may require purchases and redemptions to be made entirely or in part on a cash basis. In such an

instance, a Fund will announce, before the open of trading in the Core Trading Session (normally, 9:30 a.m. to 4:00 p.m., E.T.) on a given Business Day, that all purchases, all redemptions, or all purchases and redemptions on that day will be made wholly or partly in cash. A Fund may also determine, upon receiving a purchase or redemption order from an Authorized Participant, to have the purchase or redemption, as applicable, be made entirely or in part in cash. Each Business Day, before the open of trading on the Exchange, a Fund will cause to be published through the National Securities Clearing Corporation (“NSCC”) the names and quantities of the instruments comprising the Creation Basket, as well as the estimated Cash Amount (if any), for that day. The published Creation Basket will apply until a new Creation Basket is announced on the following Business Day, and there will be no intra-day changes to the Creation Basket except to correct errors in the published Creation Basket.

All orders to purchase Creation Units must be placed with the Distributor by or through an Authorized Participant, which is either: (1) a “participating party” (i.e., a broker or other participant), in the Continuous Net Settlement (“CNS”) System of the NSCC, a clearing agency registered with the Commission and affiliated with the Depository Trust Company (“DTC”), or (2) a DTC Participant, which in any case has executed a participant agreement with the Distributor and the Transfer Agent.

#### Timing and Transmission of Purchase Orders

All orders to purchase (or redeem) Creation Units, whether using the NSCC Process or the DTC Process, must be received by the Distributor no later than the NAV calculation time (“NAV Calculation Time”), generally 4:00 p.m. E.T. on the date the order is placed (“Transmittal Date”) in order for the purchaser (or redeemer) to receive

the NAV determined on the Transmittal Date. In the case of custom orders, the order must be received by the Distributor sufficiently in advance of the NAV Calculation Time in order to help ensure that a Fund has an opportunity to purchase the missing securities with the cash in lieu amounts or to sell securities to generate the cash in lieu amounts prior to the NAV Calculation Time. On days when the Exchange closes earlier than normal, a Fund may require custom orders to be placed earlier in the day.

#### Daily Disclosures

With respect to the Funds, the following information will comprise the “Proxy Portfolio Disclosures” and will be publicly available on the Funds’ website before the commencement of trading in Shares on each Business Day:

- The Proxy Portfolio holdings (including the identity and quantity of investments in the Proxy Portfolio) will be publicly available on a Fund’s website before the commencement of trading in Shares on each Business Day.
- The historical “Tracking Error” between a Fund’s last published NAV per share and the value, on a per Share basis, of a Fund’s Proxy Portfolio calculated as of the close of trading on the prior Business Day will be publicly available on a Fund’s website before the commencement of trading in Shares each Business Day.
- The “Proxy Overlap” will be publicly available on a Fund’s website before the commencement of trading in Shares on each Business Day. The Proxy Overlap is the percentage weight overlap between the Proxy Portfolio’s holdings compared to the Actual Portfolio’s holdings that

formed the basis for a Fund's calculation of NAV at the end of the prior Business Day. The Proxy Overlap will be calculated by taking the lesser weight of each asset held in common between the Actual Portfolio and the Proxy Portfolio and adding the totals.

#### Availability of Information

The Funds' website will include on a daily basis, per Share for each Fund, the prior Business Day's NAV and the Closing Price or Bid/Ask Price, and a calculation of the premium/discount of the Closing Price or Bid/Ask Price against such NAV.<sup>20</sup> Each Fund's website also will disclose the information required under proposed Rule 8.601-E (c)(3).<sup>21</sup>

The Proxy Portfolio holdings (including the identity and quantity of investments in the Proxy Portfolio) will be publicly available on the Funds' website before the

---

<sup>20</sup> The "premium/discount" refers to the premium or discount to NAV at the end of a trading day and will be calculated based on the last Bid/Ask Price or the Closing Price on a given trading day. The "Closing Price" of Shares is the official closing price of the Shares on a Fund's Exchange. The "Bid/Ask Price" is the midpoint of the highest bid and lowest offer based upon the National Best Bid and Offer as of the time of calculation of such Fund's NAV. The "National Best Bid and Offer" is the current national best bid and national best offer as disseminated by the Consolidated Quotation System or UTP Plan Securities Information Processor.

<sup>21</sup> See note 4, supra. Proposed Rule 8.601-E (c)(3) provides that the website for each series of Active Proxy Portfolio Shares shall disclose the information regarding the Proxy Portfolio as provided in the exemptive relief pursuant to the Investment Company Act of 1940 applicable to such series, including the following, to the extent applicable:

- (i) Ticker symbol;
- (ii) CUSIP or other identifier;
- (iii) Description of holding;
- (iv) Quantity of each security or other asset held; and
- (v) Percentage weighting of the holding in the portfolio.

commencement of trading in Shares on each Business Day.

Typical mutual fund-style annual, semi-annual and quarterly disclosures contained in the Funds' Commission filings will be provided on the Funds' website on a current basis.<sup>22</sup> Thus, each Fund will publish the portfolio contents of its Actual Portfolio on a periodic basis.

Investors can obtain a Fund's prospectus, statement of additional information ("SAI"), Shareholder Reports, Form N-CSR, N-PORT and Form N-CEN filed with the Commission. The prospectus, SAI and Shareholder Reports are available free upon request from the Trust, and those documents and the Form N-CSR, N-PORT, and Form N-CEN may be viewed on-screen or downloaded from the Commission's website. The Exchange also notes that pursuant to its Exemptive Order, the issuer must comply with Regulation Fair Disclosure, which prohibits selective disclosure of any material non-public information.

Information regarding market price and trading volume of the Shares and Proxy Portfolio holdings will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares and Proxy Portfolio holdings will be published daily in the financial section of newspapers.

Updated price information for U.S. exchange-listed equity securities is available through major market data vendors or securities exchanges trading such securities. Quotation and last sale information for the Shares, ETFs, ETNs, U.S. exchange-traded common stocks, preferred stocks and ADRs will be available via the Consolidated Tape

---

<sup>22</sup> See note 7, supra.

Association (“CTA”) high-speed line or from the exchange on which such securities trade. Price information for futures, foreign stocks and cash equivalents is available through major market data vendors.

#### Investment Restrictions

Each Fund’s holdings will be consistent with all requirements described in the Application and Exemptive Order.<sup>23</sup>

The Shares of the Funds will conform to the initial and continued listing criteria under proposed Rule 8.601-E. The Funds’ holdings will be limited to and consistent with permissible investments as described above.<sup>24</sup>

Each Fund’s investments will be consistent with its investment objective. Each Fund’s investments, including derivatives, will be consistent with its investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, a Fund’s investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2X or -3X) of a Fund’s primary broad-based securities benchmark index (as defined in Form N-1A).<sup>25</sup>

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of a Fund.<sup>26</sup> Trading in Shares of a Fund will be halted if the circuit breaker parameters in NYSE Arca Rule

---

<sup>23</sup> See note 16, supra.

<sup>24</sup> See note 16, supra.

<sup>25</sup> A Fund’s broad-based securities benchmark index will be identified in a future amendment to the Registration Statement following a Fund’s first full calendar year of performance.

<sup>26</sup> See NYSE Arca Rule 7.12-E.

7.12-E have been reached. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Trading in the Shares will be subject to proposed NYSE Arca Rule 8.601-E(D), which sets forth circumstances under which Shares of a Fund will be halted.

Specifically, proposed Rule 8.601-E(d)(2)(D) provides that the Exchange may consider all relevant factors in exercising its discretion to halt trading in a series of Active Proxy Portfolio Shares. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the series of Active Proxy Portfolio Shares inadvisable. These may include: (a) the extent to which trading is not occurring in the securities and/or the financial instruments composing the portfolio; or (b) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. If a series of Active Proxy Portfolio Shares is trading on the Exchange pursuant to unlisted trading privileges, the Exchange shall halt trading in that series as specified in Rule 7.18-E(d)(1). If the Exchange becomes aware that the NAV, Proxy Portfolio or Actual Portfolio with respect to a series of Active Proxy Portfolio Shares is not disseminated to all market participants at the same time, the Exchange shall halt trading in such series until such time as the NAV, Proxy Portfolio or Actual Portfolio is available to all market participants at the same time.

#### Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. Shares will trade on the NYSE Arca Marketplace in all trading sessions in accordance with NYSE Arca Rule 7.34-E(a). As provided in NYSE Arca Rule 7.6-E, the

minimum price variation ("MPV") for quoting and entry of orders in equity securities traded on the NYSE Arca Marketplace is \$0.01, with the exception of securities that are priced less than \$1.00 for which the MPV for order entry is \$0.0001.

The Shares will conform to the initial and continued listing criteria under proposed NYSE Arca Rule 8.601-E.

The Exchange has appropriate rules to facilitate trading in the Shares during all trading sessions.

The Exchange shall establish a minimum number of Shares of a Fund required to be outstanding at the time of commencement of trading on the Exchange. In addition, proposed Rule 8.601-E(d)(1)(B) provides that the Exchange will obtain a representation from a series of Active Proxy Portfolio Shares that the NAV per Share will be calculated daily and that the NAV, Proxy Portfolio and the Actual Portfolio will be made available to all market participants at the same time.

With respect to Active Proxy Portfolio Shares, all of the Exchange member obligations relating to product description and prospectus delivery requirements will continue to apply in accordance with Exchange rules and federal securities laws, and the Exchange and the Financial Industry Regulatory Authority, Inc. ("FINRA") will continue to monitor Exchange members for compliance with such requirements.

#### Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by the Exchange, as well as cross-market surveillances administered by FINRA on behalf of the Exchange, which are designed to

detect violations of Exchange rules and applicable federal securities laws.<sup>27</sup> The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares and exchange-traded instruments with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading the Shares and exchange-traded instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and exchange-traded instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.<sup>28</sup>

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Proposed Commentary .03 to NYSE Arca Rule 8.601-E provides that the Exchange will implement and maintain written surveillance procedures for Active Proxy

---

<sup>27</sup> FINRA conducts cross-market surveillances on behalf of the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

<sup>28</sup> For a list of the current members of ISG, see [www.isgportal.org](http://www.isgportal.org).

Portfolio Shares. As part of these surveillance procedures, the Investment Company's investment adviser will, upon request by the Exchange or FINRA, on behalf of the Exchange, make available to the Exchange or FINRA the daily portfolio holdings of each series of Active Proxy Portfolio Shares. The Exchange believes that the ability to access the information on an as needed basis will provide it with sufficient information to perform the necessary regulatory functions associated with listing and trading series of Active Proxy Portfolio Shares on the Exchange, including the ability to monitor compliance with the initial and continued listing requirements as well as the ability to surveil for manipulation of Active Proxy Portfolio Shares.

The Exchange will utilize its existing procedures to monitor issuer compliance with the requirements of proposed Rule 8.601-E. For example, the Exchange will continue to use intraday alerts that will notify Exchange personnel of trading activity throughout the day that may indicate that unusual conditions or circumstances are present that could be detrimental to the maintenance of a fair and orderly market. The Exchange will require from the Adviser of a series of Active Proxy Portfolio Shares, upon initial listing and periodically thereafter, a representation that it is in compliance with proposed Rule 8.601-E. The Exchange notes that proposed Commentary .01 to Rule 8.601-E would require an issuer of Active Proxy Portfolio Shares to notify the Exchange of any failure to comply with the continued listing requirements of proposed Rule 8.601-E. In addition, the Exchange will require funds to represent that they will notify the Exchange of any failure to comply with the terms of applicable exemptive and no-action relief. As part of its surveillance procedures, the Exchange will rely on the foregoing procedures to become aware of any non-compliance with the requirements of proposed Rule 8.601-E.

With respect to the Funds, all statements and representations made in this filing regarding (a) the description of the portfolio or reference asset, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange listing rules specified in this rule filing shall constitute continued listing requirements for listing the Shares on the Exchange. The Adviser will represent to the Exchange that it will advise the Exchange of any failure by a Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will monitor for compliance with the continued listing requirements. If a Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under NYSE Arca Rule 5.5–E(m).

#### Information Bulletin

Prior to the commencement of trading, the Exchange will inform its Equity Trading Permit (“ETP”) Holders in an Information Bulletin (“Bulletin”) of the special characteristics and risks associated with trading the Shares. Specifically, the Bulletin will discuss the following: (1) the procedures for purchases and redemptions of Shares; (2) NYSE Arca Rule 9.2-E(a), which imposes a duty of due diligence on its ETP Holders to learn the essential facts relating to every customer prior to trading the Shares; (4) how information regarding the Actual Portfolio and Proxy Portfolio will be disseminated; (5) the requirement that ETP Holders deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Bulletin will reference that a Fund is subject to various fees and expenses described in the applicable registration statement. The Bulletin will discuss any

exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act. The Bulletin will also disclose that the NAV for the Shares will be calculated after 4:00 p.m., E.T. each trading day.

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,<sup>29</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>30</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

With respect to the proposed listing and trading of Shares of the Funds, the Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in proposed NYSE Arca Rule 8.601-E.<sup>31</sup>

Each Fund's holdings will conform to the permissible investments as set forth in the American Century Application and the holdings will be consistent with all requirements in the American Century Application and American Century Exemptive Order.<sup>32</sup>

---

<sup>29</sup> 15 U.S.C. 78f(b).

<sup>30</sup> 15 U.S.C. 78f(b)(5).

<sup>31</sup> The Exchange represents that, for continued listing, the Funds will be in compliance with Rule 10A-3 under the Act, as provided by NYSE Arca Rule 5.3-E.

<sup>32</sup> See note 16, supra.

Each Fund's investments will be consistent with its investment objective. Each Fund's investments, including derivatives, will be consistent with its investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, a Fund's investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2X or -3X) of a Fund's primary broad-based securities benchmark index (as defined in Form N-1A).

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares and exchange-traded instruments with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading in the Shares and exchange-traded instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and exchange-traded instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

The Exchange, after consulting with various LMMs that trade ETFs on the Exchange, believes that market makers will be able to make efficient and liquid markets priced near the ETF's intraday value, and market makers employ market making techniques such as "statistical arbitrage," including correlation hedging, beta hedging, and dispersion trading, which is currently used throughout the financial services industry, to make efficient markets in exchange-traded products.<sup>33</sup> For Active Proxy Portfolio Shares, market makers may use the knowledge of a fund's means of achieving its investment objective, as described in the applicable fund registration statement, as well as

---

<sup>33</sup> See note 10, supra.

a fund's disclosed Proxy Portfolio, to construct a hedging proxy for a fund to manage a market maker's quoting risk in connection with trading fund shares. Market makers can then conduct statistical arbitrage between their hedging proxy and shares of a fund, buying and selling one against the other over the course of the trading day. This ability should permit market makers to make efficient markets in an issue of Active Proxy Portfolio Shares without precise knowledge of a fund's underlying portfolio. This is similar to certain other existing exchange-traded products (for example, ETFs that invest in foreign securities that do not trade during U.S. trading hours), in which spreads may be generally wider in the early days of trading and then narrow as market makers gain more confidence in their real-time hedges.

The Funds will utilize the NYSE Proxy Portfolio Methodology that would allow market participants to assess the intraday value and associated risk of a Fund's Actual Portfolio and thereby facilitate the purchase and sale of Shares by investors in the secondary market at prices that do not vary materially from their NAV.

The daily dissemination of the identity and quantity of Proxy Portfolio component investments, together with the right of Authorized Participants to create and redeem each day at the NAV, will be sufficient for market participants to value and trade Shares in a manner that will not lead to significant deviations between the Shares' Bid/Ask Price and NAV.

With respect to Active Proxy Portfolio Shares generally, the pricing efficiency with respect to trading a series of Active Proxy Portfolio Shares will generally rest on the ability of market participants to arbitrage between the shares and a fund's portfolio, in addition to the ability of market participants to assess a fund's underlying value

accurately enough throughout the trading day in order to hedge positions in shares effectively. Professional traders can buy shares that they perceive to be trading at a price less than that which will be available at a subsequent time and sell shares they perceive to be trading at a price higher than that which will be available at a subsequent time. It is expected that, as part of their normal day-to-day trading activity, market makers assigned to shares by the Exchange, off-exchange market makers, firms that specialize in electronic trading, hedge funds and other professionals specializing in short-term, non-fundamental trading strategies will assume the risk of being “long” or “short” shares through such trading and will hedge such risk wholly or partly by simultaneously taking positions in correlated assets<sup>34</sup> or by netting the exposure against other, offsetting trading positions – much as such firms do with existing ETFs and other equities. Disclosure of a fund’s investment objective and principal investment strategies in its prospectus and SAI should permit professional investors to engage easily in this type of hedging activity.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest. Investors can obtain a fund’s SAI, shareholder reports, and its Form N-CSR, Form N-PORT and Form N-CEN. A Fund’s SAI and shareholder reports will be available free upon request from the a Fund, and those documents and the Form N-CSR, Form N-PORT and Form N-CEN may be viewed

---

<sup>34</sup> Price correlation trading is used throughout the financial industry. It is used to discover both trading opportunities to be exploited, such as currency pairs and statistical arbitrage, as well as for risk mitigation such as dispersion trading and beta hedging. These correlations are a function of differentials, over time, between one or multiple securities pricing. Once the nature of these price deviations have been quantified, a universe of securities is searched in an effort to, in the case of a hedging strategy, minimize the differential. Once a suitable hedging basket has been identified, a trader can minimize portfolio risk by executing the hedging basket. The trader then can monitor the performance of this hedge throughout the trade period, making corrections where warranted.

on-screen or downloaded from the Commission's website. In addition, with respect to each Fund, a large amount of information will be publicly available regarding the Funds and the Shares, thereby promoting market transparency. Quotation and last sale information for the Shares, ETFs, ETNs, U.S. exchange-traded common stocks, preferred stocks and ADRs will be available via the CTA high-speed line or from the exchange on which such securities trade. Price information for futures, foreign stocks and cash equivalents is available through major market data vendors. The website for the Funds will include a form of the prospectus for each Fund that may be downloaded, and additional data relating to NAV and other applicable quantitative information, updated on a daily basis. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. Trading in Shares of the Funds will be halted if the circuit breaker parameters in NYSE Arca Rule 7.12-E have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. In addition, as noted above, investors will have ready access to the Proxy Portfolio and quotation and last sale information for the Shares. The Shares will conform to the initial and continued listing criteria under proposed Rule 8.601-E.<sup>35</sup>

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures

---

<sup>35</sup> See Amendment 3 to SR-NYSEArca-2019-95, referenced in note 4, supra.

relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding quotation and last sale information for the Shares.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed rule change would permit listing and trading of another type of actively-managed ETF that has characteristics different from existing actively-managed and index ETFs and would introduce additional competition among various ETF products to the benefit of investors.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

##### Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-NYSEARCA-2019-96 on the subject line.

##### Paper comments:

- Send paper comments in triplicate to: Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEARCA-2019-96. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m.

and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEARCA-2019-96 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>36</sup>

Eduardo A. Aleman  
Deputy Secretary
