

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-103189; File No. SR-NYSEARCA-2025-39]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change to Adopt a New Rule 5.2-E(j)(9) to Permit the Generic Listing and Trading of Multi-Class Exchange-Traded Fund Shares

June 4, 2025.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on May 28, 2025, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to (1) adopt a new Rule 5.2-E(j)(9) to permit the generic listing and trading of Multi-Class Exchange-Traded Fund (“ETF”) Shares that comply with the requirements of Rule 6c-11 of the Investment Company Act of 1940 (the “1940 Act”) and are eligible to operate in reliance on exemptive relief from certain requirements of 1940 Act and the rules and regulations thereunder that permit the entity issuing the Multi-Class ETF Shares to offer an ETF class in addition to classes of shares that are not exchange-traded; and (2) make certain conforming changes to the Exchange’s rules to accommodate the proposed listing of

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

Multi-Class ETF Shares. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to (1) adopt a new Rule 5.2-E(j)(9) to permit the generic listing and trading of Multi-Class ETF Shares that comply with the requirements of Rule 6c-11 of the 1940 Act and are eligible to operate in reliance on exemptive relief from certain requirements of the 1940 Act and the rules and regulations thereunder that permit the entity issuing the Multi-Class ETF Shares to offer an ETF fund class in addition to classes of shares that are not exchange-traded; and (2) make certain conforming changes to the Exchange's rules to accommodate the proposed listing of Multi-Class ETF Shares.⁴

Consistent with other products (specifically, Investment Company Units listed pursuant to Rule 5.2- E(j)(3), Managed Fund Shares listed pursuant to Rule 8.600-E, and ETF Shares

⁴ The Exchange notes that Cboe BZX Exchange, Inc. ("BZX") and The Nasdaq Stock Market LLC ("Nasdaq") have filed a substantially similar rule filings. See Securities Exchange Act Release No. 102594 (March 11, 2025), 90 FR 12387 (March 17, 2025) (SR-CboeBZX-2024-112) & Securities Exchange Act Release No. 103072 (May 20, 2025), 90 FR 22373 (May 27, 2025) (SR-NASDAQ-2025-037).

listed pursuant to Rule 5.2- E(j)(8)), Multi-Class ETF Shares, i.e., both a class of mutual fund shares (each such class, a “Mutual Fund class” and such shares “Mutual Fund Shares”) and ETF Shares, would be permitted to be listed and traded on the Exchange without prior Commission approval order or notice of effectiveness pursuant to Section 19(b) of the Act.⁵

Background

There are numerous applications for exemptive relief for Multi-Class ETF Shares currently before the Commission⁶ requesting exemptive relief similar to that previously granted to other funds that are not listed on the Exchange.⁷ The current proposal would provide for the “generic” listing and/or trading of Multi-Class ETF Shares pursuant to proposed Rule 5.2-E(j)(9) immediately upon the Commission’s applicable order granting exemptive relief to the outstanding applications. The Exchange submits the instant proposal only to prevent any unnecessary delay in listing additional Multi-Class ETF Shares generically under Rule 5.2-E(j)(9) when and if such requests are granted by the Commission.

The Commission began granting limited relief for The Vanguard Group, Inc.

⁵ Rule 19b-4(e)(1) provides that the listing and trading of a new derivative securities product by a self-regulatory organization (“SRO”) is not deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b-4, if the Commission has approved, pursuant to Section 19(b) of the Act, the SRO’s trading rules, procedures and listing standards for the product class that would include the new derivative securities product and the SRO has a surveillance program for the product class. As contemplated by proposed Rule 5.2-E(j)(9), the Exchange proposes to establish generic listing standards for Multi-Class ETFs that are permitted to operate in reliance on exemptive relief to Rule 6c-11 of the 1940 Act that permits the entity issuing the Multi-Class ETF Shares to offer an exchange-traded fund class in addition to classes of shares that are not exchange-traded of an open-end fund. A Multi-Class ETF listed under proposed Rule 5.2-E(j)(9) would therefore not need a separate proposed rule change pursuant to Rule 19b-4 before it can be listed and traded on the Exchange.

(filed July 12, 2023); F/m Investments LLC (August 22, 2023); Fidelity Hastings Street Trust and Fidelity Management & Research Company (filed October 24, 2023); Morgan Stanley Institutional Fund Trust and Morgan Stanley Investment Management Inc. (filed January 29, 2024); First Trust Series Fund and First Trust Variable Insurance Trust (filed January 24, 2024); Guinness Atkinson Funds (filed February 27, 2024); and Metropolitan West Funds, TCW ETF Trust, and TCW Funds, Inc. (filed March 20, 2024).

⁷ See note 7, infra.

(“Vanguard”) in 2000 to offer certain index-based open-end management investment companies with Multi-Class ETF Shares.⁸ After this relief was granted, there was limited public discourse about Multi-Class ETF Shares until 2019, when the prospect of providing blanket exemptive relief to Multi-Class ETF Shares was addressed in the Commission’s adoption of Rule 6c-11 under the 1940 Act (the “ETF Rule”).⁹ The ETF Rule permits ETFs that satisfy certain conditions to operate without the expense or delay of obtaining an exemptive order. However, the ETF Rule did not provide blanket exemptive relief to allow for Multi-Class ETF Shares as part of the final rule. Instead, the Commission concluded that Multi-Class ETF Shares should request relief through the exemptive application process so that the Commission may assess all relevant policy considerations in the context of the facts and circumstances of particular applicants. The Exchange adopted Rule 5.2-E(j)(8)¹⁰ shortly after implementation of the ETF Rule and, because the ETF Rule did not provide blanket relief to the Multi-Class ETF Shares listed on the Exchange pursuant to previously granted exemptive relief and there were no exemptive applications before the Commission at that time, the Exchange did not propose to include any language comparable to what is being proposed herein.

⁸ See Vanguard Index Funds, Investment Company Act Release Nos. 24680 (Oct. 6, 2000) (notice) and 24789 (Dec. 12, 2000) (order). The Commission itself, as opposed to the Commission staff acting under delegated authority, considered the original Vanguard application and determined that the relief was appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. In the process of granting the order, the Commission also considered and denied a hearing request on the original application, as reflected in the final Commission order. See also the Vanguard Group, Inc., Investment Company Act Release Nos. 26282 (Dec. 2, 2003) (notice) and 26317 (Dec. 30, 2003) (order); Vanguard International Equity Index Funds, Investment Company Act Release Nos. 26246 (Nov. 3, 2003) (notice) and 26281 (Dec. 1, 2003) (order); Vanguard Bond Index Funds, Investment Company Act Release Nos. 27750 (Mar. 9, 2007) (notice) and 27773 (April 2, 2007) (order) (collectively referred to as the “Vanguard Orders”).

⁹ See Securities Exchange Act Release No. 33-10695 (October 24, 2019) 84 FR 57162 (File No. S7-15-18).

¹⁰ See Securities Exchange Act No. 88625 (April 13, 2020) 85 FR 21479 (April 17, 2020) (SR-NYSEArca-2019-81) (Notice of Filing of Amendment No. 2 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 2, to Adopt NYSE Arca Rule 5.2-E(j)(8) Governing the Listing and Trading of ETF Shares).

As noted, a number of applications for exemptive relief to permit the applicable fund to offer Multi-Class ETF Shares (the “Applications”) have been submitted to the Commission starting in early 2023. In general, the Applications state that the ability of a fund to offer Multi-Class ETF Shares, i.e., both a class of mutual fund shares and ETF Shares, could be beneficial to the fund and to shareholders of each type of class for various reasons, including more efficient portfolio management, better secondary market trading opportunities, and cost efficiencies, among others.¹¹

While Multi-Class ETF Shares could potentially be listed under existing Rule 5.2- E(j)(3) or Rule 8.600-E, doing so would unnecessarily re-introduce the burdensome quantitative requirements and ongoing compliance obligations associated therewith that existed before the adoption of Rule 6c-11 of the 1940 Act and Rule 5.2-E(j)(8). The Exchange is not aware of any

¹¹ Specifically, the Applicants believe that a Mutual Fund class would benefit ETF class shareholders because investor cash flows through a Mutual Fund class can be used for efficient portfolio rebalancing. To the extent that cash flows come into a fund through a Mutual Fund class, a portfolio manager may be able to deploy that cash strategically to rebalance the portfolio. Second, cash flows through a Mutual Fund class may allow for greater creation basket flexibility for creations and redemptions through the ETF class, which could promote arbitrage efficiency and smaller spreads on the trading of ETF Shares in the secondary market. With respect to existing funds, ETF classes would permit investors that prefer the ETF structure to gain access to established funds’ investment strategies. Additionally, the establishment of an ETF class as part of an existing fund could lead to cost efficiencies. Specifically, in terms of fund expenses, an ETF class could have initial and ongoing advantages for its shareholders, where shareholders of an ETF class of a fund that already has substantial assets could immediately benefit from economies of scale. Finally, the tax-free conversion of shares from the Mutual Fund class to the ETF class may accelerate the development of an ETF shareholder base. Subsequent secondary market transactions by the ETF class shareholders could generate greater trading volume, resulting in lower trading spreads and/or premiums or discounts in the market prices of the ETF Shares to the benefit of ETF shareholders. The Applicants also believe that an ETF class would benefit Mutual Fund class shareholders because in-kind transactions through the ETF class may contribute to lower portfolio transaction costs and greater tax efficiency. Additionally, the conversion feature could allow Mutual Fund shareholders to convert Mutual Fund Shares for ETF Shares without adverse consequences to the Fund by allowing Mutual Fund shareholders to convert their shares into the ETF class of the same fund rather than redeeming their Mutual Fund Shares and buying shares of another ETF. In doing so, the converting shareholder could save on transaction costs and potential tax consequences that may otherwise be incurred in redeeming their existing shares and buying separate ETF Shares. The ETF class would also represent an additional distribution channel for a fund that could lead to additional asset growth and economies of scale; greater assets under management may lead to additional cost efficiencies and an improved tax profile for the fund may also assist the competitive position of the Fund for attracting prospective shareholders. Last, the class of ETF Shares could allow certain investors to engage in more frequent trading without disrupting the fund’s portfolio.

clear policy rationale as to why those quantitative requirements should apply to Multi-Class ETF Shares. As such, listing Multi-Class ETF Shares under these older rules would place undue burdens on both the Exchange and fund issuers because of the quantitative requirements that currently do not apply to ETFs meeting the requirements of Rule 6c-11 of the 1940 Act and Rule 5.2-E(j)(8). Furthermore, while the Applicants generally seek the same exemptive relief as granted under those previous orders,¹² several Applicants have proposed different conditions to the relief that reflect the adoption of Rule 6c-11. The Exchange therefore believes there is a reasonable relationship between the Applications and the proposed rule change to allow for the Commission's evaluation of whether the proposed rule change is consistent with the Act. The Exchange also acknowledges that approval of this proposed rule change would not necessarily result in the listing and trading of the additional Multi-Class ETF Shares under the proposed rule until and unless the necessary relief was granted by the Division of Investment Management, but approving this proposal would address any potential concerns the Commission's Division of Trading and Markets might have as it specifically relates to the listing and trading of Multi-Class ETF Shares under proposed Rule 5.2-E(j)(9) and would allow for a smooth launch process if and when such relief is granted.¹³

¹² See note 8, *supra*.

¹³ The Commission has in some instances historically approved Exchange listing rules even when no products would necessarily be permitted to list under those rules. Most recently, the Commission approved Exchange proposals to list and trade shares of ether-based exchange-traded products ("ETPs") prior to any such products having an effective registration statement. As those ether-based ETPs could not trade on the Exchange without an effective registration statement, which were separately considered by the Commission's Division of Corporate Finance, the Exchange could not list and trade those products even with proper Exchange Rules in place. The Exchange believes this example illustrates the reasonability of the Exchange pursuing the adoption a proposed Rule that would not immediately result in the listing and trading of the applicable products thereunder. See Securities Exchange Act No. 100224 (May 23, 2024) 89 FR 46937 (May 30, 2024) (Order Granting Accelerated Approval of Proposed Rule Changes, as Modified by Amendments Thereto, To List and Trade Shares of Ether-Based Exchange-Traded Products).

Proposed Rule Change

Proposed Rule 5.2-E(j)(9)

Proposed Rule 5.2-E(j)(9) is modeled on current Rule 5.2-E(j)(8). The presentation of the proposed rule is thus slightly different than the rule proposed by BZX and Nasdaq but contains all of the same elements and is otherwise substantially the same as the rule proposed by those exchanges.

Rule 5.2-E(j)(9)(a) would provide that the Exchange will consider for trading, whether by listing or pursuant to unlisted trading privileges, the shares of Multi-Class ETF Shares that meet the criteria of the proposed rule.¹⁴

Proposed Rule 5.2-E(j)(9)(b) titled “Applicability” would provide that the proposed rule would be applicable only to Multi-Class ETF Shares. Except to the extent inconsistent with proposed Rule 5.2-E(j)(9), or unless the context otherwise requires, the rules and procedures of the Board of Directors shall be applicable to the trading on the Exchange of such securities. Multi-Class ETF Shares are included within the definition of “security” or “securities” as such terms are used in the Rules of the Exchange.

Proposed Rule 5.2-E(j)(9)(c) titled “Definitions” would set forth the meanings of terms as used in the Rule unless the context otherwise requires.

¹⁴ To the extent that a series of Multi-Class ETF Shares does not satisfy one or more of the criteria in proposed Rule 5.2-E(j)(9), the Exchange may file a separate proposal under Section 19(b) of the Act in order to list such series on the Exchange. Any of the statements or representations in that proposal regarding the index composition, the description of the portfolio or reference assets, limitations on portfolio holdings or reference assets, dissemination and availability of index, reference asset, and intraday indicative values (as applicable), or the applicability of Exchange listing rules specified in any filing to list such series of Multi-Class ETF Shares shall constitute continued listing requirements for the series of Multi-Class ETF Shares. Further, in the event that a series of Multi-Class ETF Shares becomes listed under proposed Rule 5.2-E(j)(9) and subsequently can no longer rely on the applicable exemptive relief to Rule 6c-11 of the 1940 Act, such series of Multi-Class ETF Shares may be listed as a series of Investment Company Units pursuant to Rule 5.2-E(j)(3) or Managed Fund Shares under Rule 8.600-E, as applicable, as long as the series of Multi-Class ETF Shares meets all listing requirements applicable under the applicable rule.

Proposed Rule 5.2-E(j)(9)(c)(1) would provide that the term “Multi-Class ETF Shares” means shares of stock issued by a Multi-Class ETF.

Proposed Rule 5.2-E(j)(9)(c)(2) would provide that the term “Multi-Class ETF” means a fund that is subject to the same relief and constraints as ETFs under Rule 6c-11 of the 1940 Act except that the security is issued by a trust that issues Multi-Class ETF Shares in addition to classes of shares of an open-end fund that are not exchange-traded.

Proposed Rule 5.2-E(j)(9)(c)(3) would provide that the term “Reporting Authority” in respect of a particular series of Multi-Class ETF Shares means the Exchange, an institution, or a reporting service designated by the Exchange or by the exchange that lists a particular series of Multi-Class ETF Shares (if the Exchange is trading such series pursuant to unlisted trading privileges) as the official source for calculating and reporting information relating to such series, including, but not limited to, the amount of any dividend equivalent payment or cash distribution to holders of Multi-Class ETF Shares, net asset value, index or portfolio value, the current value of the portfolio of securities required in connection with issuance of Multi-Class ETF Shares, or other information relating to the issuance, redemption or trading of Multi-Class ETF Shares. A series of Multi-Class ETF Shares may have more than one Reporting Authority, each having different functions.

Proposed Rule 5.2-E(j)(9)(d) titled “Limitation of Exchange Liability” would provide that neither the Exchange, the Reporting Authority, nor any agent of the Exchange shall have any liability for damages, claims, losses or expenses caused by any errors, omissions, or delays in calculating or disseminating any current index or portfolio value; the current value of the portfolio of securities required to be deposited in connection with issuance of Multi-Class ETF Shares; the amount of any dividend equivalent payment or cash distribution to holders of Multi-

Class ETF Shares; net asset value; or other information relating to the purchase, redemption, or trading of Multi-Class ETF Shares, resulting from any negligent act or omission by the Exchange, the Reporting Authority, or any agent of the Exchange, or any act, condition, or cause beyond the reasonable control of the Exchange, its agent, or the Reporting Authority, including, but not limited to, an act of God; fire; flood; extraordinary weather conditions; war; insurrection; riot; strike; accident; action of government; communications or power failure; equipment or software malfunction; or any error, omission, or delay in the reports of transactions in one or more underlying securities.

Proposed Rule 5.2-E(j)(9)(e) would provide that the Exchange may approve a series of Multi-Class ETF Shares for listing and/or trading (including pursuant to unlisted trading privileges) pursuant to Rule 19b-4(e) of the Act. Each listed series of Multi-Class ETF Shares must satisfy the requirements of Rule 5.2-E(j)(9) upon initial listing and, except for subparagraph (1)(A) of Rule 5.2-E(j)(9)(e), on a continuing basis. An issuer of such securities must notify the Exchange of any failure to comply with such requirements.

Proposed Rule 5.2-E(j)(9)(e)(1) titled “Initial and Continued Listing” would provide that Multi-Class ETF Shares will be listed and traded on the Exchange subject to the requirement that the investment company issuing a series of Multi-Class ETF Shares complies with the requirements of Rule 6c-11(c) of the 1940 Act and is eligible to operate in reliance on exemptive relief from certain requirements of the 1940 Act and the rules and regulations thereunder that permit the fund to offer Multi-Class ETF Shares, on an initial and continued listing basis. Further, proposed Rule 5.2-E(j)(9)(e)(1)(A) would provide that for each series, the Exchange will establish a minimum number of Multi-Class ETF Shares required to be outstanding at the time of commencement of trading on the Exchange.

Proposed Rule 5.2-E(j)(9)(e)(2) titled “Suspension of trading or removal” would provide that the Exchange will consider the suspension of trading in, and will commence delisting proceedings under Rule 5.5-E(m) of, a series of Multi-Class ETF Shares under any of the following circumstances:

- if the Exchange becomes aware that the issuer of the Multi-Class ETF Shares is no longer in compliance with Rule 6c-11 of the 1940 Act and/or with the exemptive relief applicable to Multi-Class ETF Shares (proposed Rule 5.2-E(j)(9)(e)(2)(A));
- if the investment company no longer complies with the requirements set forth in proposed Rule 5.2-E(j)(9) (proposed Rule 5.2-E(j)(9)(e)(2)(B));
- if, following the initial twelve-month period after commencement of trading on the Exchange of a series of Multi-Class ETF Shares, there are fewer than 50 beneficial holders of such series of Multi-Class ETF Shares (proposed Rule 5.2-E(j)(9)(e)(2)(C)); or
- if such other event shall occur or condition exists which, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable (proposed Rule 5.2-E(j)(9)(e)(2)(D)).

Proposed Rule 5.2-E(j)(9)(f) would provide that transactions in Multi-Class ETF Shares will occur during the trading hours specified in Rule 7.34-E(a).

Proposed Rule 5.2-E(j)(9)(g) titled “Surveillance Procedures” would provide that the Exchange will implement and maintain written surveillance procedures for Multi-Class ETF Shares.

Proposed Rule 5.2-E(j)(9)(h) titled “Termination” would provide that upon termination of an investment company issuing Multi-Class ETF Shares, the Exchange would require that Multi-Class ETF Shares issued in connection with such entity be removed from Exchange listing.

The Exchange proposes to add two Commentaries to proposed Rule 5.2-E(j)(9), as follows.

First, proposed Commentary .01 to Rule 5.2-E(j)(9) would provide that a security that has previously been approved for listing on the Exchange pursuant to the generic listing requirements specified in Rule 5.2-E(j)(3) or Commentary .01 to Rule 8.600-E, or pursuant to a proposed rule change approved or subject to a notice of effectiveness by the Commission, may be considered approved for listing solely under Rule 5.2-E(j)(9) if such security is compliant with Rule 6c-11 of the 1940 Act and the exemptive relief applicable to Multi-Class ETF Shares. Further, the proposed Commentary would provide that once so approved for listing, the continued listing requirements applicable to such previously-listed security would be those specified in paragraph (e) of proposed Rule 5.2-E(j)(9). Any requirements for listing as specified in Rule 5.2-E(j)(3) or Commentary .01 to Rule 8.600-E, or an approval order or notice of effectiveness of a separate proposed rule change that differ from the requirements of Rule 5.2-E(j)(9) would no longer be applicable to such security.

Second, proposed Commentary .02 to Rule 5.2-E(j)(9) would provide that the following requirements shall be met by series of Multi-Class ETF Shares on an initial and continued listing basis.

Subsection (a)(1) of proposed Commentary .02 would provide that with respect to series of Multi-Class ETF Shares based on an index, if the underlying index is maintained by a broker-dealer or fund adviser, the broker-dealer or fund adviser will erect and maintain a "fire wall"

around the personnel who have access to information concerning changes and adjustments to the index and the index will be calculated by a third party who is not a broker-dealer or fund adviser.

Subsection (a)(2) of proposed Commentary .02 would provide that any advisory committee, supervisory board, or similar entity that advises a Reporting Authority (as defined in the proposed rule) or that makes decisions on the index composition, methodology and related matters, must implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material nonpublic information regarding the applicable index.

Subsection (b) of proposed Commentary .02 would provide that with respect to series of Multi-Class ETF Shares that is actively managed, if the investment adviser to the investment company issuing Multi-Class ETF Shares is affiliated with a broker-dealer, such investment adviser will erect and maintain a "fire wall" between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such Fund's portfolio. Further, personnel who make decisions on the portfolio composition must be subject to procedures designed to prevent the use and dissemination of material nonpublic information regarding the applicable portfolio. The Reporting Authority that provides information relating to the portfolio of a series of Multi-Class ETF Shares must also implement and maintain, or be subject to, procedures designed to prevent the use and dissemination of material non-public information regarding the actual components of such portfolio.

Proposed Conforming Changes

The Exchange also proposes corresponding amendments to include Multi-Class ETF Shares in other Exchange rules, which are intended to align the treatment of the proposed products with how other open-end management investment company shares (e.g., Investment Company Units, Managed Fund Shares, and ETF Shares) are treated under the Exchange's rules.

First, the Exchange proposes to add Multi-Class ETF Shares to the definition of “Derivative Securities Product and UTP Derivative Securities Product” in Rule 1.1.

Second, the Exchange proposes to amend Rule 5.3-E to exempt Multi-Class ETF Shares from the requirements of Rule 5.3-E(d)(9) in connection with the acquisition of the stock or assets of an affiliated registered investment company in a transaction that complies with Rule 17a-8 under the 1940 Act and does not otherwise require shareholder approval under the 1940 Act and the rules thereunder or any other Exchange rule.¹⁵ In addition, the Exchange proposes to add proposed Rule 5.2-E(j)(9) to the last paragraph of Rule 5.3-E, which defines derivative and special purpose securities for purposes of Rule 5.3-E.

Discussion

Proposed Rule 5.2-E(j)(9) is based in large part on Rules 5.2- E(j)(3), 5.2-E(j)(8) and 8.600-E related to the listing and trading of Investment Company Units, Managed Fund Shares, and ETF Shares, respectively, each of which are issued under the 1940 Act and qualify as ETF Shares under Rule 6c-11 of the 1940 Act. Rules 5.2- E(j)(3) and 8.600-E are very similar, their primary difference being that Investment Company Units are designed to track an underlying index and Managed Fund Shares are based on an actively managed portfolio that is not designed to track an index. ETF Shares are identical to Multi-Class ETF Shares except that Multi-Class ETF Shares have received exemptive relief to operate an exchange-traded fund class in addition to classes of shares that are not exchange-traded. As such, the Exchange believes that using Rules 5.2- E(j)(3) and 8.600-E (collectively, the “Current ETF Standards”) as well as Rule 5.2-E(j)(8) as the basis for proposed 5.2-E(j)(9) is appropriate because they are generally designed to

¹⁵ The Exchange notes that these proposed changes would subject Multi-Class ETF Shares to the same corporate governance requirements as other open-end management investment companies listed on the Exchange.

address the issues associated with Multi-Class ETF Shares. The only substantial difference between Rule 5.2-E(j)(8) and proposed Rule 5.2-E(j)(9) from the Current ETF Standards that are not otherwise required under Rule 6c-11 of the 1940 Act is that proposed Rule 5.2-E(j)(9) and Rule 5.2-E(j)(8) do not include the quantitative standards applicable to a fund or an index that are included in the Current ETF Standards. This difference is discussed below.

The Exchange believes that the proposal is designed to prevent fraudulent and manipulative acts and practices because the Exchange will perform ongoing surveillance of Multi-Class ETF Shares listed on the Exchange in order to ensure compliance with Rule 6c-11, the 1940 Act, and any applicable exemptive relief on an ongoing basis. While proposed Rule 5.2-E(j)(9) does not include the quantitative requirements applicable to an ETF or an ETF's holdings or underlying index that are included in Rules 5.2- E(j)(3) and 8.600-E,¹⁶ the Exchange believes that the manipulation concerns that such standards are intended to address are otherwise mitigated by a combination of the Exchange's surveillance procedures, the Exchange's ability to halt trading and to suspend trading and commence delisting proceedings under proposed Rule 5.2-E(j)(9)(e)(2). The Exchange will also halt trading in Multi-Class ETF Shares under the conditions specified in Rule 7.12-E, "Trading Halts Due to Extraordinary Market Volatility." The Exchange also believes that such concerns are further mitigated by enhancements to the arbitrage mechanism that have come from Rule 6c-11 of the 1940 Act, specifically the additional flexibility provided to issuers of Multi-Class ETF Shares through the use of custom baskets for

¹⁶ The Exchange notes that Rules 5.2-E(j)(3) and 8.600-E include certain quantitative standards related to the size, trading volume, concentration, and diversity of the components of an index underlying a series of Investment Company Units and the portfolio holdings of a series of Managed Fund Shares (the "Holdings Standards") as well as related to the minimum number of beneficial holders of a fund (the "Distribution Standards"). The Exchange believes that to the extent that manipulation concerns are mitigated based on the factors described herein, such concerns are mitigated both as it relates to the Holdings Standards and the Distribution Standards.

creations and redemptions and the additional information made available to the public through the additional daily website disclosure obligations applicable under Rule 6c-11 of the 1940 Act.¹⁷ The Exchange believes that the combination of these factors will act to keep Multi-Class ETF Shares trading near the value of their underlying holdings and further mitigate concerns around manipulation of Multi-Class ETF Shares on the Exchange without the inclusion of quantitative standards.¹⁸

The Exchange will monitor for compliance with Rule 6c-11 of the 1940 Act and any applicable exemptive relief in order to ensure that the continued listing standards are being met.¹⁹ Specifically, the Exchange will review the website of each series of Multi-Class ETF Shares listed on the Exchange in order to ensure that the requirements of Rule 6c-11 of the 1940 Act are being met. The Exchange will also employ numerous intraday alerts that will notify Exchange personnel of trading activity throughout the day that is potentially indicative of certain disclosures not being made accurately or the presence of other unusual conditions or circumstances that could be detrimental to the maintenance of a fair and orderly market. Proposed Rule 5.2-E(j)(9) would require an issuer of Multi-Class ETF Shares to notify the Exchange of any failure to comply with Rule 6c-11 or the 1940 Act.

The Exchange may suspend trading in and commence delisting proceedings for a series of Multi-Class ETF Shares where such series is not in compliance with the applicable listing

¹⁷ The Exchange notes that the Commission came to a similar conclusion in several places in the Rule 6c-11 Release. See Rule 6c-11 Release at 15-18; 60-61; 69-70; 78-79; 82-84; and 95-96.

¹⁸ The Exchange believes that this applies to all quantitative standards, whether applicable to the portfolio holdings of a series of Multi-Class ETF Shares or the distribution of the Multi-Class ETF Shares.

¹⁹ As noted throughout, proposed Rule 5.2-E(j)(9), unlike Rules 5.2-E(j)(3) and 8.600-E, does not include Holdings Standards and, as such, there will be no quantitative standards applicable by the Exchange to the underlying index or the portfolio holdings of a series of Multi-Class ETF Shares on an initial or continued listing basis. In addition, Rule 5.2-E(j)(9) as proposed does not impose index dissemination requirements and the Exchange does not plan to conduct a specific index dissemination surveillance for securities listed pursuant to such rule.

standards or where the Exchange believes that further dealings on the Exchange are inadvisable.²⁰ The Exchange also notes that proposed Rule 5.2-E(j)(9)(e) requires any issuer to provide the Exchange with prompt notification after it becomes aware of any non-compliance with the proposed rule, which would include any failure of the issuer to comply with Rule 6c-11 of the 1940 Act, the 1940 Act, or any exemptive relief applicable to Multi-Class ETF Shares.²¹

Further, the Exchange also represents that its surveillance procedures are adequate to properly monitor the trading of the Multi-Class ETF Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws. Specifically, the Exchange intends to utilize its existing surveillance procedures applicable to derivative products, which are currently applicable to Investment Company Units, Managed Fund Shares, and ETF Shares, among other product types, to monitor trading in Multi-Class ETF Shares on the Exchange. The Exchange or the Financial Industry Regulatory Authority, Inc. (“FINRA”), on behalf of the Exchange, will communicate as needed regarding trading in Multi-Class ETF Shares and certain of their applicable underlying components with other markets that are members of the Intermarket Surveillance Group (“ISG”) or with which the Exchange has in

²⁰ Specifically, proposed Rule 5.2-E(j)(9)(e)(1) provides that each series of Multi-Class ETF Shares will be listed and traded on the Exchange subject to application of proposed Rule 5.2-E(j)(9)(e)(2). Proposed Rule 5.2-E(j)(9)(e)(2) provides that the Exchange will consider the suspension of trading in, and will commence delisting proceedings under Rule 5.5(m) for, a series of Multi-Class ETF Shares under any of the following circumstances: (a) if the Exchange becomes aware that the issuer of the Multi-Class ETF Shares is no longer in compliance with Rule 6c-11 of the 1940 Act and/or with the exemptive relief applicable to Multi-Class ETF Shares; (b) if the investment company no longer complies with the requirements set forth in proposed Rule 5.2-E(j)(9); (3) if, following the initial twelve-month period after commencement of trading on the Exchange of a series of Multi-Class ETF Shares, there are fewer than 50 beneficial holders of such series of Multi-Class ETF Shares; or (4) if such other event shall occur or condition exists which, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. Proposed Rule 5.2-E(j)(9)(h) provides that upon termination of an investment company, the Exchange requires that Multi-Class ETF Shares issued in connection with such entity be removed from Exchange listing.

²¹ The Exchange notes that failure by an issuer to notify the Exchange of non-compliance pursuant to proposed Rule 5.2-E(j)(9)(e) would itself be considered non-compliance with the requirements of Rule 5.2-E(j)(9) and would subject the series of Multi-Class ETF Shares to potential trading halts and the delisting process under Rule 5.5(m).

place a comprehensive surveillance sharing agreement. In addition, the Exchange may obtain information regarding trading in Multi-Class ETF Shares and certain of their applicable underlying components from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. Additionally, FINRA, on behalf of the Exchange, is able to access trade information for certain fixed income securities that may be held by a series of Multi-Class ETF Shares reported to FINRA's Trade Reporting and Compliance Engine ("TRACE"). FINRA also can access data obtained from the Municipal Securities Rulemaking Board's ("MSRB") Electronic Municipal Market Access ("EMMA") system relating to municipal bond trading activity for surveillance purposes in connection with trading in a series of Multi-Class ETF Shares, to the extent that a series of Multi-Class ETF Shares holds municipal securities. Finally, the issuer of a series of Multi-Class ETF Shares will be required to comply with Rule 10A-3 under the Act for the initial and continued listing of Multi-Class ETF Shares, as provided under Rule 5.3-E.²²

The Exchange notes that it may consider all relevant factors in exercising its discretion to halt or suspend trading in a series of Multi-Class ETF Shares. Trading may be halted if the circuit breaker parameters in Rule 7.12-E have been reached, because of other market conditions, or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which certain information about the Multi-Class ETF Shares that is required to be disclosed under Rule 6c-11 of the 1940 Act is not being made available, including specifically where the Exchange becomes aware that the net asset value or the daily portfolio disclosure with respect to a series of Multi-Class ETF Shares is not disseminated to all market

²² The Exchange notes that these proposed changes would subject ETF Shares to the same corporate governance requirements as other open-end management investment companies listed on the Exchange.

participants at the same time, it will halt trading in such series until such time as the net asset value or the daily portfolio disclosure is available to all market participants;²³ (2) if an interruption to the dissemination to the value of the index or reference asset on which a series of Multi-Class ETF Shares is based persists past the trading day in which it occurred or is no longer calculated or available; (3) trading in the securities comprising the underlying index or portfolio has been halted in the primary market(s); or (4) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act,²⁴ in general, and furthers the objectives of Section 6(b)(5),²⁵ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

The Exchange believes that proposed Rule 5.2-E(j)(9) is designed to prevent fraudulent and manipulative acts and practices in that the proposed rules relating to listing and trading Multi-Class ETF Shares on the Exchange provide specific initial and continued listing criteria required to be met by such securities. Proposed Rule 5.2-E(j)(9)(e) sets forth initial and continued listing criteria applicable to Multi-Class ETF Shares, specifically providing that the Exchange may approve a series of Multi-Class ETF Shares for listing and/or trading (including pursuant to unlisted trading privileges) on the Exchange pursuant to Rule 19b-4(e) under the Act,

²³ The Exchange will obtain a representation from the issuer of Multi-Class ETF Shares that the net asset value per share will be calculated daily and the requirements under Rule 6c-11 of the 1940 Act will be satisfied for the series will be calculated daily and made available to all market participants at the same time.

²⁴ 15 U.S.C. 78f(b).

²⁵ 15 U.S.C. 78f(b)(5).

provided such series of Multi-Class ETF Shares complies with the requirements of Rule 6c-11 of the 1940 Act, is eligible to operate in reliance on exemptive relief from certain requirements of the 1940 Act and the rules and regulations thereunder that permits the fund to offer Multi-Class ETF Shares, and satisfies the requirements of the proposed rule on an initial and continued listing basis.²⁶ The Exchange will submit a Form 19b-4(e) for all series of Multi-Class ETF Shares upon being listed pursuant to Rule 5.2-E(j)(9), and such Form 19b-4(e) will specifically note that such series of Multi-Class ETF Shares are being listed on the Exchange pursuant to Rule 5.2-E(j)(9).

Proposed Rule 5.2-E(j)(9)(e) provides that each series of Multi-Class ETF Shares will be listed and traded on the Exchange subject to application of proposed Rule 5.2-E(j)(9)(e)(2). Proposed Rule 5.2-E(j)(9)(e)(2) provides that the Exchange will consider the suspension of trading in, and will commence delisting proceedings under Rule 5.5(m) of a series of Multi-Class ETF Shares under any of the following circumstances:

- if the Exchange becomes aware that the issuer of the Multi-Class ETF Shares is no longer in compliance with Rule 6c-11 and/or with the exemptive relief applicable to Multi-Class ETF Shares;
- if the investment company no longer complies with the requirements set forth in proposed Rule 5.2-E(j)(9);

²⁶ The Exchange notes that eligibility to operate in reliance on Rule 6c-11 of the 1940 Act or any applicable exemptive relief thereunder does not necessarily mean that an investment company would be listed on the Exchange pursuant to proposed Rule 5.2-E(j)(9). To this point, an investment company that operates in reliance of exemptive relief providing for Multi-Class ETF Shares could also be listed as a series of Investment Company Units or Managed Fund Shares pursuant to Rules 5.2-E(j)(3) and 8.600-E, respectively, and would be subject to all requirements under each of those rules. Further to this point, in the event that a series of Multi-Class ETF Shares listed on the Exchange preferred to be listed as a series of Investment Company Units or Managed Fund Shares (as applicable), nothing would preclude such a series from changing to be listed as a series of Investment Company Units or Managed Fund Shares (as applicable), as long as the series met each of the initial and continued listing obligations under the applicable rules.

- if, following the initial twelve-month period after commencement of trading on the Exchange of a series of Multi-Class ETF Shares, there are fewer than 50 beneficial holders of such series of Multi-Class ETF Shares; or
- if such other event shall occur or condition exists which, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable.

The Exchange notes that issuers are required to notify the Exchange of any noncompliance with Rule 6c-11 of the 1940 Act or any applicable exemptive relief thereunder, as described in proposed Rule 5.2-E(j)(9)(e)(1). Moreover, the Exchange may identify noncompliance through its own monitoring process.

Proposed Rule 5.2-E(j)(9)(h) provides that upon termination of an investment company, the Exchange requires that Multi-Class ETF Shares issued in connection with such entity be removed from Exchange listing. The Exchange also notes that it will obtain a representation from the issuer of each series of Multi-Class ETF Shares stating that the requirements of Rule 6c-11 of the 1940 Act will be continuously satisfied and that the issuer will notify the Exchange of any failure to do so.

The Exchange further believes that proposed Rule 5.2-E(j)(9) is designed to prevent fraudulent and manipulative acts and practices because of the robust surveillances in place on the Exchange as required under proposed Rule 5.2-E(j)(9)(g) along with the similarities of proposed Rule 5.2-E(j)(9) to the rules related to other securities that are already listed and traded on the Exchange and which would qualify as Multi-Class ETF Shares. Proposed Rule 5.2-E(j)(9) is based in large part on Rules 5.2-E(j)(3), 5.2-E(j)(8) and 8.600-E related to the listing and trading of Investment Company Units, Managed Fund Shares, and ETF Shares, respectively, each of which are issued under the 1940 Act and would qualify as Multi-Class ETF Shares. Rules 5.2-

E(j)(3) and 8.600-E are very similar, their primary difference being that Investment Company Units are designed to track an underlying index and Managed Fund Shares are based on an actively managed portfolio that is not designed to track an index. ETF Shares are identical to Multi-Class ETF Shares except that Multi-Class ETF Shares have received exemptive relief to operate an exchange-traded fund class in addition to classes of shares that are not exchange-traded. As such, the Exchange believes that using the Current ETF Standards as well as Rule 5.2-E(j)(8) as the basis for proposed Rule 5.2-E(j)(9) is appropriate because they are generally designed to address the issues associated with Multi-Class ETF Shares. The only substantial difference between proposed Rule 5.2-E(j)(9) and the Current ETF Standards that are not otherwise required under Rule 6c-11 of the 1940 Act is that proposed Rule 5.2-E(j)(9) does not include the quantitative standards applicable to a fund or an index that are included in the Current ETF Standards.

The Exchange believes that the proposal is consistent with Section 6(b)(1) of the Act²⁷ in that, in addition to being designed to prevent fraudulent and manipulative acts and practices, the Exchange has the capacity to enforce proposed Rule 5.2-E(j)(9) by performing ongoing surveillance of Multi-Class ETF Shares listed on the Exchange in order to ensure compliance with Rule 6c-11 and the 1940 Act on an ongoing basis. While proposed Rule 5.2-E(j)(9) does not include the quantitative requirements applicable to a fund and a fund's holdings or underlying index that are included in Rules 5.2- E(j)(3) and 8.600-E,²⁸ the Exchange believes that the manipulation concerns that such standards are intended to address are otherwise

²⁷ 15 U.S.C. 78f(b)(1).

²⁸ The Exchange notes that Rules 5.2- E(j)(3) and 8.600-E include certain Holdings Standards and Distribution Standards. The Exchange believes that to the extent that manipulation concerns are mitigated based on the factors described herein, such concerns are mitigated both as it relates to the Holdings Standards and the Distribution Standards.

mitigated by a combination of the Exchange's surveillance procedures, and the Exchange's ability to halt trading and to suspend trading and commence delisting proceedings under proposed Rule 5.2-E(j)(9)(e)(2). The Exchange also believes that such concerns are further mitigated by enhancements to the arbitrage mechanism that have come from compliance with Rule 6c-11 of the 1940 Act, specifically the additional flexibility provided to issuers of Multi-Class ETF Shares through the use of custom baskets for creations and redemptions and the additional information made available to the public through the additional daily website disclosure obligations applicable under Rule 6c-11 of the 1940 Act.²⁹ The Exchange believes that the combination of these factors will act to keep Multi-Class ETF Shares trading near the value of their underlying holdings and further mitigate concerns around manipulation of Multi-Class ETF Shares on the Exchange without the inclusion of quantitative standards.³⁰

Rule 5.2-E(j)(9) requires an issuer of Multi-Class ETF Shares to promptly notify the Exchange of any failure to comply with Rule 6c-11 or the 1940 Act. In addition, the Exchange will monitor for compliance with Rule 6c-11 of the 1940 Act and any applicable exemptive relief in order to ensure that the continued listing standards are being met. Specifically, the Exchange plans to review the website of series of Multi-Class ETF Shares in order to ensure that the requirements of Rule 6c-11 of the 1940 Act are being met. The Exchange will also employ numerous intraday alerts that will notify Exchange personnel of trading activity throughout the day that is potentially indicative of certain disclosures not being made accurately or the presence of other unusual conditions or circumstances that could be detrimental to the maintenance of a

²⁹ The Exchange notes that the Commission came to a similar conclusion in several places in the Rule 6c-11 Release. See Rule 6c-11 Release at 15-18; 60-61; 69-70; 78-79; 82-84; and 95-96.

³⁰ The Exchange believes that this applies to all quantitative standards, whether applicable to the portfolio holdings of a series of Multi-Class ETF Shares or the distribution of the Multi-Class ETF Shares.

fair and orderly market.

To the extent that any of the requirements under Rule 6c-11 or the 1940 Act are not being met, the Exchange may halt trading in a series of Multi-Class ETF Shares as provided in proposed Rule 5.2-E(j)(9)(e). Further, the Exchange may also suspend trading in and commence delisting proceedings for a series of Multi-Class ETF Shares where such series is not in compliance with the applicable listing standards or where the Exchange believes that further dealings on the Exchange are inadvisable.

Further, the Exchange also represents that its surveillance procedures are adequate to properly monitor the trading of the Multi-Class ETF Shares in all trading sessions and to deter and detect violations of Exchange rules. Specifically, the Exchange intends to utilize its existing surveillance procedures applicable to derivative products, which are currently applicable to Investment Company Units, Managed Fund Shares, and ETF Shares, among other product types, to monitor trading in Multi-Class ETF Shares. The Exchange or FINRA, on behalf of the Exchange, will communicate as needed regarding trading in Multi-Class ETF Shares and certain of their applicable underlying components with other markets that are members of the ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, the Exchange may obtain information regarding trading in Multi-Class ETF Shares and certain of their applicable underlying components from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

Additionally, FINRA, on behalf of the Exchange, is able to access trade information for certain fixed income securities that may be held by a series of Multi-Class ETF Shares reported to FINRA's TRACE. FINRA also can access data obtained from the MSRB's EMMA system

relating to municipal bond trading activity for surveillance purposes in connection with trading in a series of Multi-Class ETF Shares, to the extent that a series of Multi-Class ETF Shares holds municipal securities. Finally, as noted above, the issuer of a series of Multi-Class ETF Shares will be required to comply with Rule 10A-3 under the Act for the initial and continued listing of Multi-Class ETF Shares, as provided under Rule 5.3-E.

The Exchange believes that permitting Multi-Class ETF Shares to list on the Exchange is consistent with the applicable exemptive relief and will help perfect the mechanism of a free and open market and, in general, will protect investors and the public interest in that it will permit the listing and trading of Multi-Class ETF Shares, consistent with the applicable exemptive relief, and in a manner that will benefit investors. Specifically, the Exchange believes that the relief proposed in the Applications and the expected benefits of the Multi-Class ETF Shares described above would be to the benefit of investors. Eliminating any unnecessary delay for additional Multi-Class ETF Shares listing on the Exchange under proposed Rule 5.2-E(j)(9) will help accrue those benefits to investors more expeditiously. Further, the Exchange is only proposing to amend its rules to allow such a series of Multi-Class ETF Shares to list on the Exchange pursuant to Rule 5.2-E(j)(9), a change to its rules that will only be meaningful if and when the Commission grants such relief to an Applicant. As noted above, the Exchange submits this proposal only to prevent any unnecessary delay in listing additional Multi-Class ETF Shares generically under Rule 5.2-E(j)(9) when and if such requests are granted by the Commission.

The Exchange also believes that proposed Rule 5.2-E(j)(9) provisions which explicitly provide the initial and continued listing standards applicable to Multi-Class ETF Shares, including the suspension of trading or removal standards, are designed to promote transparency and clarity in the Exchange's Rules. The Exchange believes that with these changes, Rule 5.2-

E(j)(9) would clearly allow for the listing and trading of Multi-Class ETF Shares upon the Commission's order of exemptive relief.

The Exchange also believes that the corresponding changes to add Multi-Class ETF Shares in the Exchange's corporate governance requirements under Rule 1.1 and Rule 5.3-E discussed above will add clarity to the Exchange's rulebook. Investment Company Units, Managed Fund Shares, and ETF Shares are similarly included in these provisions. Therefore, the Exchange believes these are non-substantive changes meant only to subject Multi-Class ETF Shares to the same exemptions and provisions currently applicable to Investment Company Units, Managed Fund Shares, and ETF Shares so that the treatment of these open-end management investment companies is consistent under the Exchange's rules.

For the above reasons, the Exchange believes that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposal, by permitting the listing and trading of Multi-Class ETF Shares under exemptive relief from the 1940 Act and the rules and regulations thereunder, would introduce additional competition among various ETF products to the benefit of investors.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer

period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NYSEARCA-2025-39 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NYSEARCA-2025-39. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications

relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NYSEARCA-2025-39 and should be submitted on or before [INSERT DATE 21 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³¹

Stephanie Fouse,

Assistant Secretary.

³¹ 17 CFR 200.30-3(a)(12).
