

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-103209; File No. SR-MEMX-2025-13]

Self-Regulatory Organizations; MEMX LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend the Exchange’s Fee Schedule to Extend the Sunset Provision Related to the Options Regulatory Fee (ORF)

June 9, 2025.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 30, 2025, MEMX LLC (“MEMX” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing with the Commission a proposed rule change to amend the Exchange’s fee schedule applicable to Members³ and non-Members of the Exchange (the “Fee Schedule”) pursuant to Exchange Rules 15.1(a) and (c) to extend the current sunset date of May 31, 2025 applicable to the Options Regulatory Fee (“ORF”) to December 31, 2025. The Exchange proposes to implement the changes to the Fee Schedule pursuant to this proposal on June 1, 2025. The text of the proposed rule change is provided in Exhibit 5.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See Exchange Rule 1.5(p).

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Options Fee Schedule related to the ORF to extend the current sunset date of May 31, 2025 to December 31, 2025, and thus continue charging the previously established ORF in the amount of \$0.0015 per contract side through December 31, 2025. As discussed herein, the ORF sunset date was initially proposed to provide time for the Exchange to discuss alternative ORF models with its Members. However, those discussions have made clear that there is not yet consensus among market participants on a path forward that would address industry concerns in a manner that would effect change broadly across all U.S. options exchanges. Further, certain of the Exchange's competitors have recently filed proposals with the Commission which indicate that they are still working towards establishing a new, unified ORF model.⁴ Thus, the Exchange proposes to extend the automatic sunset date of May 31, 2025 until December 31, 2025, in order to provide it additional time to inform its approach to the ORF after the sunset date while continuing to fund a portion of its regulatory

⁴ Proposals have been filed for each of the six options markets operated by Nasdaq OMX and affiliates (collectively, the "Nasdaq Proposals"); see, e.g., Securities Exchange Act Release No. 103005 (May 8, 2025), 90 FR 20532 (May 14, 2025) (SR-NASDAQ-2025-035)(notice of filing and immediate effectiveness of a proposed rule change to decrease the Options Regulatory Fee (ORF) and discontinue the ORF model scheduled to be implemented in June 2025). See also Securities Exchange Act Release No. 102883 (April 17, 2025), 90 FR 17099 (April 23, 2025) (SR-CBOE-2025-028) (notice of filing and immediate effectiveness of a proposed rule change to increase Cboe's Options Regulatory Fee until December 31 2025)).

program via ORF, so that it may operate on equal footing with each of the seventeen (17) other options exchanges that charge similar regulatory fees in amounts that far exceed the relatively modest amounts collected by the Exchange.

As background, MEMX previously filed a proposal to establish an ORF in the amount of \$0.0015 per contract side that would automatically sunset on September 30, 2024 (the “Initial ORF Filing”).⁵ The Initial ORF Filing was published for comment in the Federal Register on October 4, 2023.⁶ The Commission received no comments on the Initial ORF Filing before November 24, 2023. On that date, the Commission issued a Suspension of and Order Instituting Proceedings to Determine whether to Approve or Disapprove a Proposed Rule Change to Amend its Fee Schedule to Establish an Options Regulatory Fee (the “OIP”) and requested public comment and additional information on various aspects of the Initial ORF Filing.⁷ To date, the Commission has received no comment letters in response to the OIP. The Exchange withdrew the Initial ORF Filing on December 1, 2023 and submitted a new proposal for immediate effectiveness (“Second ORF Filing”).⁸

⁶ See supra note 5.

⁷ See Securities Exchange Act Release No. 99017 (November 24, 2023), 88 FR 83590 (November 30, 2023) (SR-MEMX-2023-25). Additionally, on November 24, 2023, solely for the purposes of consistent billing for the entire month of November 2023, the Exchange filed SR-MEMX-2023-31 with the Commission, which proposed to keep the Initial ORF rate of \$0.0015 per contract side that had been charged since September 27th in place for November 24 through November 30, 2023. See Securities Exchange Act Release No. 99112 (December 7, 2023), 88 FR 86417 (SR-MEMX-2023-31).

⁸ See SR-MEMX-2023-33. In order to make certain clarifying changes, the Exchange withdrew the Second ORF Filing on December 13, 2023, and submitted a third proposal for immediate effectiveness (“Third ORF Filing”). See SR-MEMX-2023-34. Again, in order to make certain clarifying changes, the Exchange withdrew the Third ORF Filing on December 19, 2023, and submitted a fourth proposal for immediate effectiveness (“Fourth ORF Filing”). See SR-MEMX-2023-36. On December 20, 2023, in order to correct an inadvertent administrative error, the Exchange withdrew the Fourth ORF Filing and submitted a fifth proposal for immediate effectiveness (“Fifth ORF Filing” and together with the Third ORF Filing and Fourth ORF Filing, the “Subsequent Filings”). See Securities Exchange Act Release No. 99259 (January 2, 2024), 89 FR 965 (January 8, 2024) SR-MEMX-2023-38.

The Second Filing and Subsequent Filings proposed the same fee as in the Initial ORF Filing, but with a modified sunset date of May 31, 2024, which was four months prior to the proposed sunset date in the Initial ORF Filing. On May 1, 2024, the Exchange proposed to remove the automatic sunset date of May 31, 2024 altogether,⁹ however, the Exchange withdrew that filing and replaced it with a new filing that proposed a new sunset date of October 31, 2024 in order to provide more time to attempt to reach a consensus on ORF moving forward, while also operating on a level playing field with incumbent options exchanges that are allowed to recoup a portion of their regulatory costs via the ORF.¹⁰ In order to make certain clarifying changes, on May 23, 2024, the Exchange withdrew that proposal and replaced it with SR-MEMX-2024-22, which was replaced on May 28, 2024 with SR-MEMX-2024-23 in order to correct an inadvertent error.¹¹ On October 31, 2024, the Exchange then filed SR-MEMX-2024-42,¹² which proposed a new sunset date of May 31, 2025. Accordingly, the Exchange's collection of ORF is currently scheduled to sunset on May 31, 2025. The Exchange proposes to extend the existing sunset to December 31, 2025, for the reasons described herein.

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of Members' customer options business, including performing routine surveillances and investigations, as well as policy, rulemaking, interpretive and enforcement activities. The Exchange believes that revenue generated from the ORF, when combined with all of the Exchange's other regulatory fees and fines, will cover a material portion, but not all, of the Exchange's regulatory costs. Currently, all other registered options exchanges impose ORF on

their members, and those exchanges also charge ORF for executions occurring on MEMX Options cleared by their customers.¹³

MIAX Emerald, Cboe, Cboe EDGX Options, and C2.¹⁴ Each of those exchanges had filed to increase their ORF, and the Commission indicated that each of those filings lacked detail and specificity, signaling that more information was needed to speak to whether the proposed increased ORFs were reasonable, equitably allocated and not unfairly discriminatory, particularly given that the ORF is assessed on transactions that clear in the “customer” range and regardless of the exchange on which the transaction occurs. The Commission also noted that the filings provided only broad general statements regarding options transaction volume and did not provide any information on those exchanges’ historic or projected options regulatory costs (including the costs of regulating activity that cleared in the “customer” range and the costs of regulating activity that occurred off exchange), the amount of regulatory revenue they had generated and expected to generate from the ORF as well as other sources, or the “material portion” of options regulatory expenses that they sought to recover from the ORF. Each of those exchanges withdrew their filings, but continue charging ORF today as discussed above. Since that time, MEMX Options launched and commenced operations and as noted previously, its Initial ORF Filing was also suspended.¹⁵ Unlike its competitors noted above, however, the Exchange did not have a previously implemented ORF to continue charging notwithstanding said suspensions. As such, the Exchange proposed to establish an ORF but has maintained a sunset date, in order to allow it time to inform its approach to the ORF moving forward.

¹⁵ See supra note 7.

MEMX is a new exchange operator founded by a diverse group of market participants to bring competition to the U.S. securities markets. Over the past year, the Exchange has engaged with retail brokers, market makers, and other options market participants on potential paths to address industry concerns about existing ORF practices. The result of those efforts have made clear that there is not yet consensus among market participants on a path forward that would address their stated concerns in a manner that would effect change broadly across all U.S. options exchanges. As such, the Exchange proposes additional time to work towards a permanent ORF solution by gathering relevant data internally as well from other industry participants, while continuing to charge as other options exchanges currently do, until December 31, 2025, at which time its ORF will automatically sunset.

The Exchange notes that if, during the proposed sunset period of June 1, 2025 through December 31, 2025, a viable alternative methodology for the ORF presents itself, including the possibility that the Exchange proposes to implement a model based on what Cboe and/or the Nasdaq Exchanges have indicated they plan to propose, or an alternative to such proposals, the Exchange would endeavor to implement said alternative prior to the proposed sunset date. In other words, the existence of the sunset date of December 31, 2025, for the Exchange's current ORF would not preclude the Exchange from filing to modify its ORF methodology prior to that date, if applicable.

As a new exchange, not having the opportunity to fund a portion of its regulatory program through the same regulatory fee charged by every other options exchange would place an undue disadvantage upon the Exchange's regulatory program and options business as a whole. Further, the Exchange emphasizes that other exchanges will be charging ORF for transactions occurring on MEMX Options, and as such, it follows that the Exchange that is primarily responsible for monitoring those transactions should also be able to charge the ORF for activity

occurring on its own market, as well as transactions it surveils on away markets. Again, the Exchange is committed to facilitating and joining efforts to revamp the ORF, however, it must be afforded additional time to gather data and analysis both internally and externally, while recouping a portion of its regulatory costs via the ORF as all other options exchanges currently do.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act¹⁶ in general, and furthers the objectives of Section 6(b)(4) of the Act¹⁷ in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act¹⁸ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The ORF is designed to recover a material portion of the costs of supervising and regulating Members' customer options business including performing routine surveillances and investigations, as well as policy, rulemaking, interpretive, and enforcement activities. Extending the current ORF sunset date to December 31, 2025 is reasonable because continued collection of ORF will serve to balance the Exchange's regulatory revenue against the anticipated regulatory costs, thereby ensuring proper regulatory funding. Moreover, the Exchange's ORF rate is

¹⁶ 15 U.S.C. 78f(b).

¹⁷ 15 U.S.C. 78f(b)(4).

¹⁸ 15 U.S.C. 78f(b)(5).

significantly lower than the amount of ORF assessed by other exchange groups.¹⁹

The Exchange notes that while certain individual options exchanges do charge a lower ORF than that currently charged by the Exchange, each of these options exchanges is part of an exchange “group” (i.e., affiliated with other options exchanges). In turn, each of these exchange groups charges more than two (2) to five (5) times the amount of ORF as a group when compared to the Exchange’s ORF rate.²⁰ While each additional options exchange is its own legal entity with regulatory obligations under the Act to regulate its members, there is significant scale that can be achieved for an exchange group that operates multiple exchanges, including with respect to regulation, and this scale allows such options exchanges to operate with a lower assessment of ORF. In other words, the initial fixed costs associated with implementing an exchange group’s options regulatory program are scalable as additional options exchanges are launched by that exchange group.

Extending the sunset date is also reasonable because doing so would allow the Exchange additional time to inform its approach to ORF moving forward while recouping a portion of its regulatory expenses via the ORF as other options exchanges do. If the Exchange were not

¹⁹ See, e.g., NYSE Arca Options Fees and Charges, Options Regulatory Fee (“ORF”) and NYSE American Options Fees Schedule, Section VII(A), which provide that ORF is assessed at a rate of \$0.0038 per contract for each respective exchange. See also Nasdaq PHLX, Options 7 Pricing Schedule, Section 6(D), which provides for an ORF rate of \$0.0034 per contract, Cboe Options Fee Schedule, which provides an ORF rate of \$0.0023 per contract, BOX Options Fee Schedule Section II(C), which provides an ORF rate of \$0.00295 per contract, MIAX Options Fee Schedule, Section 2(b), which provides an ORF rate of \$0.0019 per contract, and the MIAX Pearl Fee Schedule, Section 2(b), which provides an ORF rate of \$0.0018 per contract.

²⁰ Each of MIAX Emerald, MIAX Sapphire Cboe BZX Options, Cboe C2 Options, Cboe EDGX Options, Nasdaq Options Exchange, Nasdaq MRX Options, Nasdaq ISE Gemini, Nasdaq ISE and Nasdaq BX Options charges a lower rate than \$0.0015 per contract, which is the rate proposed by the Exchange. However, the Cboe exchanges, comprised of four options exchanges, charges an aggregate ORF rate of \$0.0027 per contract (more than the Exchange’s current rate), the MIAX exchanges, comprised of four options exchanges, charges an aggregate ORF rate of \$0.0056 per contract (nearly 4 times the Exchange’s current rate); and the Nasdaq exchanges, comprised of six options exchanges, charges an aggregate ORF rate of \$0.0091 per contract (nearly 6 times the Exchange’s current rate). The Exchange notes that the NYSE exchanges, comprised of two options exchanges, charges an aggregate ORF rate of \$0.0076 per contract (over 5 times the Exchange’s current rate).

allowed to charge an ORF during this additional time period, then after the sunset date of May 31, 2025, it would be forced to pay for its regulatory program solely out of business revenues while working towards an alternative ORF solution, unlike every other competing exchange, each of which would continue to assess an ORF, including on transactions executed on MEMX Options, indefinitely. This would impact MEMX's ability to assure adequate funding of its regulatory program.

Extending the ORF sunset date to December 31, 2025, is also equitable and not unfairly discriminatory because prior to the proposed sunset date, the ORF would continue to be objectively allocated to Members in a manner that is consistent with the ORF currently imposed by the other seventeen (17) options exchanges. The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed the Exchange's total regulatory costs. The Exchange has designed the ORF to generate revenues that, when combined with all of the Exchange's other regulatory fees, will be less than 75% of the Exchange's regulatory costs, which is consistent with the Exchange's by-laws that state in Section 17.4(b): "[a]ny Regulatory Funds shall not be used for non-regulatory purposes or distributed, advanced or allocated to any Company Member, but rather, shall be applied to fund regulatory operations of the Company (including surveillance and enforcement activities)..."²¹

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. This proposal will not create an unnecessary or inappropriate intra-market burden on competition

²¹ See MEMX LLC – LLC Agreement at <https://info.memxtrading.com/regulation/governance/>.

because the Exchange's ORF is designed to enable the Exchange to recover a material portion of the Exchange's cost related to its regulatory activities. This proposal will not create an unnecessary or inappropriate inter-market burden on competition because it will be a regulatory fee that supports regulation and customer protection in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

The Exchange's ORF, as described herein, is lower than or comparable to fees charged by other options exchanges (though as noted above, some exchange groups do have options exchanges operating with a lower ORF on a standalone basis).

The Exchange notes that while it does not believe that its ORF will impose any burden on inter-market competition, the Exchange being precluded from charging an ORF after May 31, 2025, while other options exchanges are permitted to continue to charge ORF would, in-fact, significantly burden the Exchange's ability to assure adequate funding of its regulatory program. As noted above, the Exchange is a new entrant in the highly competitive environment for equity options trading. As also noted above, all seventeen (17) other registered options exchanges currently impose the ORF on their members, and such ORF fees imposed by other options exchanges currently do and will continue to extend to executions occurring on the Exchange. The Exchange believes that it is possible that it and other exchanges may adopt ORF fees based on a newly proposed model during the proposed sunset period, and the Exchange is not precluded from adopting said alternative during the proposed sunset period. However, in order to be treated similarly to these exchanges, it must, in fact, impose an ORF on its Members during this additional sunset period, and the inability to do so would result in an unfair disadvantage to the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule

Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act²² and Rule 19b-4(f)(2)²³ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
