Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on October 20, 2009, the Chicago Board Options Exchange, Incorporated (“Exchange” or “CBOE”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A) of the Act<sup>3</sup> and Rule 19b-4(f)(6) thereunder,<sup>4</sup> which renders the proposal effective upon filing with the Commission. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Interpretation and Policy .13 to Rule 5.3 designates the listing and trading of options on "Equity Index-Linked Securities," "Commodity-Linked Securities," "Currency-Linked Securities," "Fixed Income Index-Linked Securities," "Futures-Linked Securities" and "Multifactor Index-Linked Securities," collectively known as "Index-Linked Securities" that are principally traded on a national securities exchange and an "NMS Stock" (as defined in Rule 600 of Regulation NMS under the Securities and Exchange Act of 1934). The Exchange proposes to amend the definition of Futures-Linked Securities for the trading of options on Index-Linked Securities to include products linked to CBOE Volatility Index ("VIX") futures. Specifically, the Exchange proposes to add VIX futures to the definition of a Futures Reference Asset in Rule 5.3.13(1)(E).

Index-Linked Securities are designed for investors who desire to participate in a specific market segment by providing exposure to one or more identifiable underlying securities, commodities, currencies, derivative instruments or market indexes of the foregoing ("Underlying Index" or "Underlying Indexes"). Index- Linked Securities are the non-convertible debt of an issuer that have a term of at least one (1) year but not greater than thirty (30) years. Despite the

fact that Index-Linked Securities are linked to an underlying index, each trade as a single, exchange-listed security. Accordingly, rules pertaining to the listing and trading of standard equity options apply to Index-Linked Securities.

Currently, the Exchange will consider listing and trading options on Index-Linked Securities provided the Index-Linked Securities meet the criteria for underlying securities set forth in Interpretation and Policy .01 to Rule 5.3 or the criteria set forth in Interpretation and Policy .13(3)(B) to Rule 5.3.

Index-Linked Securities must meet the criteria and guidelines for underlying securities set forth in Interpretation and Policy .01 Rule 5.3; or the Index-Linked Securities must be redeemable at the option of the holder at least on a weekly basis through the issuer at a price related to the applicable underlying Reference Asset.<sup>5</sup> In addition, the issuing company is obligated to issue or repurchase the securities in aggregation units for cash or cash equivalents satisfactory to the issuer of Index-Linked Securities which underlie the option as described in the Index-Linked Securities prospectus. Options on Index-Linked Securities will continue to be subject to all Exchange rules governing the trading of equity options. The current continuing or maintenance listing standards for options traded on CBOE will continue to apply.

### The VIX

CBOE originally developed the VIX in 1993 and at that time the VIX was calculated using S&P 100<sup>®</sup> Index options. CBOE introduced the current methodology for the VIX in September 2003 and it is now an index that uses the quotes of certain S&P 500<sup>®</sup> Index ("SPX")

<sup>5</sup> See Interpretation and Policy .13(3)(B) to Rule 5.3. For the purposes of Interpretation and Policy .13 to Rule 5.3, Equity Reference Assets, Commodity Reference Assets, Currency Reference Assets, Fixed Income Reference Assets, Futures Reference Assets and Multifactor Reference Assets, are collectively referred to as "Reference Assets." See Rule 5.3.13(2).

option series to derive a measure of the volatility of the U.S. equity market. The VIX measures market expectations of near term volatility conveyed by the prices of options on the SPX. It provides investors with up-to-the-minute market estimates of expected stock market volatility over the next 30 calendar days by extracting implied volatilities from real-time index option bid/ask quotes.

### VIX Futures

The CBOE Futures Exchange ("CFE") began listing and trading VIX futures on March 26, 2004 under the ticker symbol VX. VIX Futures trade between the hours of 8:30 a.m. - 3:15 p.m. Central Time (Chicago Time).

### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)<sup>6</sup> of the Act, in general, and furthers the objectives of Section 6(b)(5),<sup>7</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange believes that the proposed rules applicable to trading pursuant to generic listing and trading criteria, together with the Exchange's surveillance procedures applicable to trading in the securities covered by the proposed rules, serve to foster investor protection.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of filing (or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest), the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>8</sup> and subparagraph (f)(6) of Rule 19b-4 thereunder.<sup>9</sup>

The Exchange has requested that the Commission waive the 30-day operative delay and designate the proposed rule change as operative upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The proposed rule change is substantially similar to those of other options exchanges that have been previously approved by the Commission.<sup>10</sup> Therefore, the Commission

<sup>9</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to provide the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has fulfilled this requirement.

designates the proposal operative upon filing to enable the Exchange to list and trade options on index-linked securities without delay.<sup>11</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.
