

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-64359; File No. SR-ISE-2011-27)

April 28, 2011

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Permit the Listing of Series with \$0.50 and \$1 Strike Price Increments on Certain Options Used to Calculate Volatility Indexes

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that, on April 26, 2011, the International Securities Exchange, LLC (the “Exchange” or “ISE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its rules to permit the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes. The text of the proposed rule change is available on the Exchange’s website www.ise.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to permit the Exchange to list strike prices in \$0.50 intervals where the strike price is less than \$75, and strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes. This proposal is based on a recently filed rule change by NYSE Arca, Inc. (“NYSE Arca”) and NYSE Amex LLC (“NYSE Amex”).³

To effect this change, the Exchange is proposing to add new Supplementary Material .11 to ISE Rule 504. The new provision will permit the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes.⁴

Volatility indexes are calculated and disseminated by the CBOE, which also list options on the resulting index. At this time, ISE has no intention of listing volatility options, and will not be selecting options on any equity securities, Exchange-Traded Fund Shares, Trust Issued Receipts, Exchange Traded Notes, Index-Linked Securities, or indexes to be the basis of a volatility index.

³ See SR-NYSEArca-2011-19 and SR-NYSEAmex-2011-26. In its filing, NYSE Arca and NYSE AMEX cite to the Commission’s approval of a recent filing by the Chicago Board Options Exchange (“CBOE”).

⁴ For example, CBOE calculates the CBOE Gold ETF Volatility Index (“GVZ”), which is based on the VIX methodology applied to options on the SPDR Gold Trust (“GLD”). The current filing would permit \$0.50 strike price intervals for GLD options where the strike price is \$75 or less. ISE is currently permitted to list strike prices in \$1 intervals for GLD options (where the strike price is \$200 or less), as well as for other exchange-traded fund options. See ISE Rule 504.

To the extent that the CBOE or another exchange selects a multiply listed product as the basis of a volatility index, proposed Supplementary Material .11 would permit ISE to list and compete in all series listed by the CBOE for purposes of calculating a volatility index.

ISE has analyzed its capacity and represents that it believes the Exchange and the Options Price Reporting Authority have the necessary systems capacity to handle the additional traffic associated with the listing of strike prices in \$0.50 intervals where the strike price is less than \$75, and strike prices in \$1.00 intervals where the strike price is between \$75 and \$150 for option series used to calculate volatility indexes in securities selected by the CBOE.

2. Statutory Basis

The basis under the Securities Exchange Act of 1934 (“Exchange Act”) for this proposed rule change is the requirement under Section 6(b)(5) that an exchange have rules that are designed to promote just and equitable principles of trade, and to remove impediments to and perfect the mechanism for a free and open market and a national market system, and in general, to protect investors and the public interest. In particular, the proposed rule change will allow the Exchange to offer a full range of all available option series in a given class, including those selected by other exchanges to be the basis of a volatility index. While this proposal will generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal is restricted to a limited number of classes. Further, the Exchange does not believe that the proposal will result in a material proliferation of additional series because it is restricted to a limited number of classes.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁵ and Rule 19b-4(f)(6) thereunder.⁶

The Exchange has requested that the Commission waive the 30-day operative delay. The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest because the proposal is substantially similar to that of another exchange that has been approved by the Commission.⁷ Therefore, the Commission designates the proposal operative upon filing.⁸

⁵ 15 U.S.C. 78s(b)(3)(A).

⁶ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied the five-day prefiling requirement.

⁷ See Exchange Act Release No. 64189 (April 5, 2011), 76 FR 20066 (April 11, 2011) (SR-CBOE-2011-008).

⁸ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
