SECURITIES AND EXCHANGE COMMISSION (Release No. 34-64441; File No. SR-Phlx-2011-60)

May 9, 2011

Self-Regulatory Organizations; NASDAQ OMX PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by NASDAQ OMX PHLX LLC to Modify Fees for Non Co-Location Services

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹, and Rule 19b-4 thereunder,² notice is hereby given that on April 28, 2011, NASDAQ OMX PHLX LLC ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. <u>Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed</u> <u>Rule Change</u>

The Exchange proposes to modify fees for non co-location services. While changes to the Fee Schedule pursuant to this proposal are effective upon filing, the Exchange has designated these changes to be operative on May 1, 2011.

The text of the proposed rule change is available on the Exchange's Website at http://nasdaqomxphlx.cchwallstreet.com/, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change</u>

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis</u> for, the Proposed Rule Change

1. Purpose

The Exchange is amending the Phlx Fee Schedule, Section VI entitled "Direct Connectivity to Phlx" to establish pricing for customers who are not co-located in the Exchange's data center, but require shared cabinet space and power for optional routers, switches, or modems to support their direct circuit connections. The Exchange proposes to assess customers who are not co-located in the Exchange's data center monthly fees for space based on a height unit of approximately two inches high, commonly call a "U" space and a maximum power of 125 Watts per U space.

Currently, non co-located customers are assessed fees for direct circuit connection to the Exchange, as well as installation of an optional on-site cable router.³ However, there is no charge to non co-located customers for the space and utility cost to maintain the optional router. As more and more non co-located customers seek to utilize the optional router, the Exchange must utilize more space and utilities to accommodate the influx. It has become a necessity for the Exchange to offset the space and utility cost to maintain the optional router in the same manner as has been established for co-located customers. Additionally, the optional router may include other networks devices (e.g., switches or modems) to operate the customer's business.

89).

While co-located customers are assessed the same per U fee, the co-located customers are assessed in increments of a 4U Block at \$600 per month. The Exchange seeks to establish and make transparent the fees imposed for space and utility costs to non co-located customers.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁴ in general, and with Section 6(b)(4) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. The Exchange believes the proposed fees are reasonable and equitable for the reasons below.

The Exchange operates in a highly competitive market in which exchanges offer non colocation services as a means to facilitate the trading activities of those customers who believe that the non co-location services enhance the efficiency of their trading. Accordingly, fees charged for non co-location services are constrained by the fees charged to co-located customers, as well as fees charged by other exchanges, taking into consideration the different costs associated with the two service types. It should be noted, however, that the costs associated with a co-located customer are primarily fixed costs that include the costs of renting or owning data center space and retaining a staff of technical personnel. Accordingly, the Exchange establishes a range of non co-location fees with the goal of covering these same fixed costs and covering less significant marginal costs, such as the cost of electricity.

The Exchange proposes the same fee for non co-located customers and co-located customers because the space and utility cost are comparable. If a particular exchange charges

⁵ 15 U.S.C. 78f(b)(4).

excessive fees for non co-location services that are comparable to co-location services, affected members will opt to terminate their non co-location arrangements with that exchange, and pursue range of alternative trading strategies not dependent upon the Exchange's non co-location service. Accordingly, the exchange charging excessive fees would stand to lose not only non co-location revenues and any other revenues associated with the non co-located customer's operations. Moreover, all of the Exchange's fees for space and utility costs services are equitably allocated and non-discriminatory in that all non co-location customers are offered the same space and utility service as the co-located customers, and, there is no differentiation among customers with regard to the fees charged for such costs.

B. <u>Self-Regulatory Organization's Statement on Burden on Competition</u>

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. <u>Self-Regulatory Organization's Statement on Comments on the Proposed Rule</u>
<u>Change Received from Members, Participants, or Others</u>

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
