

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34-67400; File No. SR-ISE-2012-63)

July 11, 2012

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Fees and Rebates for Certain Complex Orders Executed on the Exchange

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act” or “Exchange Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 2, 2012, the International Securities Exchange, LLC (the “Exchange” or the “ISE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The ISE is proposing to amend transaction fees and rebates for certain complex orders executed on the Exchange. The text of the proposed rule change is available on the Exchange’s website (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the

places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange currently assesses per contract transaction fees and rebates to market participants that add or remove liquidity from the Exchange (“maker/taker fees and rebates”) in a number of options classes (the “Select Symbols”).³ The Exchange’s maker/taker fees and rebates are applicable to regular and complex orders executed in the Select Symbols. The Exchange also currently assesses maker/taker fees and rebates for complex orders in all symbols that are not in the Penny Pilot Program (“Non-Penny Pilot Symbols”).⁴ The purpose of this proposed rule change is to amend maker/taker fees and rebates for complex orders in the Non-Penny Pilot Symbols.

For complex orders in the Non-Penny Pilot Symbols, the Exchange currently charges a “taker” fee of: (i) \$0.73 per contract for ISE Market Maker,⁵ Firm Proprietary and Customer (Professional)⁶ orders; and (ii) \$0.78 per contract for Non-ISE Market Maker⁷ orders. Priority

³ Options classes subject to maker/taker fees are identified by their ticker symbol on the Exchange’s Schedule of Fees.

⁴ See Exchange Act Release Nos. 66084 (January 3, 2012), 77 FR 1103 (January 9, 2012) (SR-ISE-2011-84); 66392 (February 14, 2012), 77 FR 10016 (February 21, 2012) (SR-ISE-2012-06); and 66962 (May 10, 2012), 77 FR 28917 (May 16, 2012) (SR-ISE-2012-35).

⁵ The term “Market Makers” refers to “Competitive Market Makers” and “Primary Market Makers” collectively. See ISE Rule 100(a)(25).

⁶ A Customer (Professional) is a person who is not a broker/dealer and is not a Priority Customer.

⁷ A Non-ISE Market Maker, or Far Away Market Maker (“FARMM”), is a market maker as defined in Section 3(a)(38) of the Securities Exchange Act of 1934, as amended (“Exchange Act”), registered in the same options class on another options exchange.

Customer⁸ orders are not charged a “taker” fee for complex orders in the Non-Penny Pilot Symbols. For complex orders in these same symbols, the Exchange currently charges a “maker” fee of \$0.10 per contract for ISE Market Maker, Non-ISE Market Maker, Firm Proprietary and Customer (Professional) orders. Priority Customer orders are not charged a “maker” fee for complex orders in these symbols.

The Exchange now proposes to increase the “taker” fee for complex orders in the Non-Penny Pilot Symbols to (i) [sic] \$0.75 per contract for ISE Market Maker, Firm Proprietary and Customer (Professional) orders. The Exchange is not proposing any change to the “taker” fees for Non-ISE Market Maker and Priority Customer orders.

Further, the Exchange currently provides volume-based tiered rebates for Priority Customer complex orders in the Non-Penny Pilot Symbols when these orders trade with non-Priority Customer orders in the complex order book. Specifically, the Exchange currently provides a rebate of \$0.57 per contract, per leg, for Priority Customer complex orders when these orders trade with non-Priority Customer complex orders in the complex order book.

Additionally, Members who achieve certain average daily volume (ADV) of Priority Customer complex order contracts across all symbols executed during a calendar month are provided a rebate of \$0.59 per contract per leg, if a Member achieves an ADV of 75,000 Priority Customer complex order contracts; \$0.61 per contract per leg, if a Member achieves an ADV of 125,000 Priority Customer complex order contracts; and \$0.615 per contract per leg, if a Member achieves an ADV of 250,000 Priority Customer complex order contracts. The highest rebate amount achieved by the Member for the current calendar month applies retroactively to all

⁸ A Priority Customer is defined in ISE Rule 100(a)(37A) as a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s).

Priority Customer complex order contracts that trade with non-Priority Customer complex orders in the complex order book executed by the Member during such calendar month.

In order to enhance the Exchange's competitive position and to incentivize Members to increase the amount of Priority Customer complex orders that they send to the Exchange, the Exchange now proposes to increase the base amount of the rebate to \$0.62 per contract. Additionally, the Exchange proposes to increase the amount of that rebate even further, on a month-by-month and Member-by-Member basis, if such Member achieves an ADV of Priority Customer complex order contracts across all symbols executed during the calendar month, as follows: if the Member achieves an ADV of 75,000 Priority Customer complex order contracts, the rebate amount shall be \$0.64 per contract per leg; if the Member achieves an ADV of 125,000 Priority Customer complex order contracts, the rebate amount shall be \$0.66 per contract per leg; and if the Member achieves an ADV of 250,000 Priority Customer complex order contracts, the rebate amount shall be \$0.67 per contract per leg.

Additionally, the Exchange provides ISE Market Makers with a two cent discount when trading against orders that are preferenced to them. This discount is applicable when ISE Market Makers remove liquidity in the Non-Penny Pilot Symbols from the complex order book. With the proposed increase to the "taker" fee for complex orders in the Non-Penny Pilot Symbols, ISE Market Makers who remove liquidity in the Non-Penny Pilot Symbols from the complex order book by trading with orders that are preferenced to them will be charged \$0.73 per contract.

2. Statutory Basis

The Exchange believes that its proposal to amend its Schedule of Fees is consistent with Section 6(b) of the Exchange Act⁹ in general, and furthers the objectives of Section 6(b)(4) of

⁹ 15 U.S.C. 78f(b).

the Exchange Act¹⁰ in particular, in that it is an equitable allocation of reasonable dues, fees and other charges among Exchange members and other persons using its facilities. The impact of the proposal upon the net fees paid by a particular market participant will depend on a number of variables, most important of which will be its propensity to interact with and respond to certain types of orders.

The Exchange believes it is reasonable and equitable to charge ISE Market Maker, Firm Proprietary and Customer (Professional) orders a “taker” fee of \$0.75 per contract for complex orders in the Non-Penny Pilot Symbols because the Exchange is seeking to recoup the cost associated with paying increased rebates for Priority Customer complex orders. The Exchange believes the proposed fees are also reasonable and equitably allocated because they are within the range of fees assessed by other exchanges employing similar pricing schemes.

The Exchange believes that it is reasonable and equitable to provide rebates for Priority Customer complex orders when these orders trade with Non-Priority Customer complex orders in the complex order book because paying a rebate would continue to attract additional order flow to the Exchange and create liquidity in the symbols that are subject to the rebate, which the Exchange believes ultimately will benefit all market participants who trade on ISE. The Exchange already provides these types of rebates, and is now merely proposing to increase those rebate amounts. The Exchange believes that the proposed rebates are competitive with rebates provided by other exchanges and are therefore reasonable and equitably allocated to those members that direct orders to the Exchange rather than to a competing exchange.

The Exchange believes that it is reasonable and equitable to provide a two cent discount to ISE Market Makers on preferenced orders as an incentive for them to quote in the complex

¹⁰ 15 U.S.C. 78f(b)(4).

order book. The Exchange notes that PHLX currently provides a similar discount. Accordingly, ISE Market Makers who remove liquidity in the Non-Penny Pilot Symbols from the complex order book will be charged \$0.73 per contract when trading with orders that are preferenced to them. The Exchange notes that with this proposed fee change, the Exchange, while increasing this fee, will continue to maintain a two cent differential that was previously in place.

The complex order pricing employed by the Exchange has proven to be an effective pricing mechanism and attractive to Exchange participants and their customers. The Exchange believes that increasing its complex order rebates will attract additional complex order business to the Exchange. The Exchange further believes that the Exchange's complex order rebates and its maker/taker fees are not unfairly discriminatory because these fee structures are consistent with fee structures that exist today at other options exchanges. Additionally, the Exchange believes that the proposed fees and rebates are fair, equitable and not unfairly discriminatory because the proposed fees and rebates are consistent with price differentiation that exists today at other option exchanges. The Exchange operates in a highly competitive market in which market participants can readily direct order flow to another exchange if they deem fee levels at a particular exchange to be excessive. With this proposed rebate change, the Exchange believes it remains an attractive venue for market participants to trade complex orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or

other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹¹ At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Exchange Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
