

### **Electronic Municipal Market Access [System —](EMMA<sup>®</sup>) Functionality**

[The Electronic Municipal Market Access system (“EMMA”) is a facility of the Municipal Securities Rulemaking Board (“MSRB”) for receiving electronic submissions of municipal securities disclosure and other key documents and related information and for making such documents and information available to the public, at no charge on an Internet website (the “EMMA portal”) or by paid subscription feed. The specific documents and information processed through EMMA are established through services filed with the Securities and Exchange Commission.]

This Information Facility (“IF-3”) serves to outline the basic functionality and the high-level parameters by which the Municipal Securities Rulemaking Board (MSRB) operates the Electronic Municipal Market Access (EMMA) system, which consists of the EMMA Primary Market Disclosure Service, the EMMA Continuing Disclosure Service, the EMMA Trade Price Transparency Service and the EMMA Short-Term Obligation Rate Transparency Service.

The EMMA system is designed to process electronic submissions of municipal securities disclosure documents and certain related information, to disseminate that disclosure data to the general public through the EMMA Portal ([emma.msrb.org](http://emma.msrb.org)) and to disseminate it to licensed subscribers of subscription data feed services subject to the terms and conditions of their respective subscription agreements. The MSRB is not responsible for the content of the data or documents submitted to the EMMA system that is processed and displayed through the EMMA Portal or disseminated through the EMMA subscription services.

The MSRB maintains 7:00 a.m. to 7:00 p.m. Eastern Time as core operational hours on business days, which excludes weekends and business holidays identified on the MSRB System Holiday Schedule published on the MSRB website. Core operational hours represent those hours when the MSRB’s resources will be more readily available to respond to inquiries and incidents experienced by users of MSRB systems.

The process to submit documents to the EMMA system or access documents on the EMMA website is generally available at all times. MSRB may make the EMMA system, or portions of its functionality, unavailable outside of core operational hours for various purposes, including, maintenance, upgrades, or otherwise as needed to ensure the overall integrity of the EMMA system and the MSRB’s other information systems. As detailed in the MSRB’s EMMA Website Terms of Use, the MSRB also may restrict, block or terminate any user’s access to or use of the EMMA system due to actual or suspected malicious, illegal or abusive activity for periods necessary or appropriate to ensure continuous and efficient access to and the overall integrity of the EMMA system.<sup>1</sup>

---

<sup>1</sup> Available at <https://emma.msrb.org/AboutEmma/UserAgreement>. As provided, the terms may be revised from time to time, without prior notice and users are bound by any changes to such terms upon the MSRB’s posting of such changes to the [emma.msrb.org](http://emma.msrb.org) website.

## EMMA PORTAL

The EMMA Portal is the functionality for displaying and otherwise making certain documents and data available to the public without charge on the EMMA website. During core operational hours, submissions made to the EMMA Primary Market Disclosure Service or the EMMA Continuing Disclosure Service are generally posted on the EMMA Portal promptly following the processing of such information.<sup>2</sup> Submissions outside of core operational hours may be posted on the EMMA Portal promptly following the processing of such information, though some submissions outside of core operational hours may not be processed until the next business day. Properly submitted documents and information are, at a minimum, available on the EMMA Portal for the life of the related securities.

The EMMA Trade Price Transparency Service makes the price transparency information received from the MSRB's Real-Time Transaction Reporting System (RTRS), as further described in the RTRS Information Facility, publicly available on the EMMA Portal promptly following receipt from RTRS and processing by the EMMA system. The EMMA Short-Term Obligation Rate Transparency Service makes the rate transparency information related to securities bearing interest at short-term rates, as well as certain documents received from the MSRB's Short-Term Obligation Rate Transparency System (SHORT), as further described in the SHORT Information Facility, publicly available on the EMMA Portal promptly following receipt from SHORT and processing by the EMMA system. Such information and documents are generally available on the EMMA Portal for the life of the related securities.

The EMMA Portal provides search functions to assist users in identifying and accessing documents and data provided to the EMMA Portal. Users can also request certain alerts, including when, for example, certain documents are provided and become available on the EMMA website or are updated or amended.

In addition, if and to the extent that one or more Nationally Recognized Statistical Rating Organization (NRSRO) has agreed to provide credit rating and/or related information regarding municipal securities to the MSRB, at no out-of-pocket charge, through an automated data feed for dissemination on the EMMA Portal, the EMMA Portal may display such credit rating and related information along with any documents and identifying information relating to the applicable municipal security otherwise displayed on the EMMA Portal. Credit rating and related information will be posted promptly following processing such information through the EMMA system. In processing the credit rating and related information received from an NRSRO, the MSRB does not confirm or verify the accuracy and completeness of the NRSRO's credit rating and related information before dissemination on the EMMA Portal, nor does the MSRB undertake to supplement or modify such information.

<sup>2</sup> For purposes of IF-3, promptly shall mean within 15 minutes following the successful intake of the data by the EMMA system, transformation of such data for operational usability, and storage for effective retrieval for display or dissemination to users of the EMMA Portal and, as applicable, to licensed subscribers of EMMA subscription services (“processing”).
