Rule 11.11. Routing to Away Trading Centers

Unless the terms of the order direct the Exchange not to route such order away, if a Market Order or marketable Limit Order has not been executed in its entirety pursuant to 11.10(a)(4) above, the order shall be eligible for routing away pursuant to one or more of the routing options listed under paragraph (g) below.

(a) Regulation SHO. Unless a User selects the Post to Away, RDOT, RDOX, or INET routing options set forth under paragraph (g) of this Rule, an order that includes a Short Sale instruction when a Short Sale Circuit Breaker pursuant to Rule 201 of Regulation SHO is in effect is not eligible for routing by the Exchange. If an order is ineligible for routing due to a Short Sale Circuit Breaker being in effect and such order contains a Time-in-Force of IOC, then the order will be cancelled. For any other order ineligible for routing due to a Short Sale Circuit Breaker being in effect, the Exchange will post the unfilled balance of the order to the EDGA Book, treat the order as if it included a Book Only or Post Only instruction, and subject it to the Re-Pricing Instructions to Comply with Rule 201 of Regulation SHO, as described in Rule 11.6(1)(2), unless the User has elected the order Cancel Back as described in Rule 11.6(b).

(b)-(f) No change.

(g) No change.

(1) No change.

(2) [ROUD. ROUD is a routing option under which an order checks the System for available shares and then is sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the EDGA Book, unless otherwise instructed by the User.] DRT. DRT is a routing option in which the entering firm instructs the System to route to alternative trading systems included in the System routing table. Unless otherwise specified, DRT can be combined with and function consistent with all other routing options.

(3) The following routing strategies check the System for available shares and then are sent to destinations on the System routing table. If shares remain unexecuted after routing, they are posted on the book, unless otherwise instructed by the User.

[(A) ROUE]

([B]A) ROUT

([C]B) ROUX

[(D) ROUQ]

([E]C) ROUZ

([F]D) ROBB

([G]E) ROCO

(4)-(13) No change.

(14) Post to Away. In addition to instructions to cancel an order back to a User or post to the EDGA Book following the routing process, as set forth above, a User may elect the Post to Away routing option. Post to Away is a routing option that routes the remainder of a routed order to and posts such order on the order book of a destination on the System routing table as specified by the User. Post to Away can be combined with the following routing strategies: ROUT, ROUX, [ROUE, ROUD,] ROUZ, [ROUQ,] RDOT, RDOX, ROBB, ROCO, and INET.

(15) A User may select either Route To Improve (“RTI”) or Route To Fill (“RTF”) for the following routing strategies: [ROUE,] ROUT[,] and ROUX. RTI may route to multiple destinations at a single price level simultaneously while RTF may route to multiple destinations and at multiple price levels simultaneously.

(h)-(i) No change.
