(iv[i]) the System cancels or rejects a Book Only bulk message bid (offer) (or unexecuted portion) submitted by a Market-Maker with an appointment in the class through a bulk port if it would execute against a resting offer (bid) with a Capacity of M;

(k)   No change.

(l)   Cancel Back Order. A Cancel Back order (including bulk messages) is an order a User designates to not be subject to the Price Adjust Process pursuant to Rule 21.1(i) that the System cancels or rejects (immediately at the time the System receives the order or upon return to the System after being routed away) if displaying the order on the Book would create a violation of Rule 27.3, or if the order cannot otherwise be executed or displayed in the Book at its limit price. The System executes a Book Only – Cancel Back order against resting orders, and cancels or rejects a Post Only – Cancel Back order, that locks or crosses the opposite side of the BBO.
