## .07 Mini Options Contracts

\* \* \* \* \*

(d) The minimum trading increment for Mini Options shall be the same as the minimum trading increment permitted for standard options on the same underlying security. For example, if a security participates in the Penny [Pilot]Interval Program, Mini Options in the same underlying security may be quoted and traded in the same minimum increments, e.g., \$0.01 for all quotations in series that are quoted at less than \$3 per contract and \$0.05 for all quotations in series that are quoted at \$3 per contract or greater, \$0.01 for all SPY option series.

## Rule 21.5. Minimum Increments for Bids and Offers

(a) [The Board may establish minimum quoting increments for options contracts traded on EDGX Options. Such minimum increments established by the Board will be designated as a stated policy, practice, or interpretation with respect to the administration of this Rule within the meaning of Section 19 of the Exchange Act and will be filed with the SEC as a rule change for effectiveness upon filing. Until such time as the Board makes a change in the increments,] [t]The following principles [shall] apply to the minimum quoting increments for options contracts traded on EDGX Options: (1) if the options series is trading at less than \$3.00, five (5) cents; (2) if the options series is trading at \$3.00 or higher, ten (10) cents; and (3) if the options series is trading pursuant to the Penny [Pilot p]Interval Program one (1) cent if the options series is trading at less than \$3.00, five (5) cents if the options series is trading at \$3.00 or higher, unless for QQQQ, SPY, or IWM where the minimum quoting increment will be one cent for all series regardless of price.

(e) Requirements for Penny Interval Program. The Exchange will list option classes for the Penny Interval Program (“Penny Program”) with minimum quoting requirements (“penny increments”) of one cent (\$0.01) and five cents (\$0.05), as set forth in paragraph (a) above. The list of the option classes included in the Penny Program will be announced by the Exchange pursuant to Rule 16.3 and published by the Exchange on its website.

(1) Initial Selection. On the first trading day of the third full calendar month after April 1, 2020, the Penny Program will apply only to the 363 most actively traded multiply listed option classes, based on OCC’s National Cleared Volume in the six full calendar months ending in the month of approval, that (i) currently quote in penny increments, or (ii) overlie securities priced below \$200, or any index at an index level below \$200. Eligibility for inclusion in the Penny Program will be determined at the close of trading on the monthly Expiration Friday of the second full month following April 1, 2020.

(2) Annual Review. Commencing in December 2020 and each December thereafter, OCC will rank all multiply listed option classes based on National Cleared Volume for the six full calendar months from June 1 through November 30 for determination of the most actively traded option classes.

(A) Addition to the Penny Program. Based on the Annual Review, any option class not in the Penny Program that is among the 300 most actively traded multiply listed option classes overlying securities priced below \$200, or an index at an index level below \$200, will be added to the Penny Program on the first trading day of January.

(B) Removal from the Penny Program. Except as provided in subparagraphs (e)(3) – (6) below, based on the Annual Review, any option class in the Penny Program that falls outside the 425 most actively traded multiply listed option classes will be removed from the Penny Program on the first trading day of April.

(3) Newly listed Option Classes. The Exchange may add to the Penny Program a newly listed option class provided that (i) it is among the 300 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in its first full calendar month of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any option class added under this provision will be added on the first trading day of the month after it qualifies and will remain in the Penny Program for one full calendar year, after which it will be subject to the Annual Review stated in subparagraph (e)(2) above.

(4) Classes with Significant Growth in Activity. The Exchange may add any option class to the Penny Program, provided that (i) it is among the 75 most actively traded multiply listed option classes, as ranked by National Cleared Volume at OCC, in the past six full calendar months of trading and (ii) the underlying security is priced below \$200 or the underlying index is at an index level below \$200. Any option class added under this provision will be added on the first trading day of the second full month after it qualifies and will remain in the Penny Program for the rest of the calendar year, after which it will be subject to the Annual Review stated in subparagraph (e)(2) above.

(5) Corporate Actions. If a corporate action involves one or more option classes in the Penny Program, all adjusted and unadjusted series of the option class will be included in the Penny Program. Any new option class added to the Penny Program under this provision will remain in the Penny Program for at least one full calendar year, after which it will be subject to the Annual Review stated in subparagraph (e)(2) above.

(6) Delisted or Ineligible Option Classes. Any series in an option class participating in the Penny Program in which the underlying security has been delisted, or are identified by OCC as ineligible for opening customer transactions, will continue to quote pursuant to the terms of the Penny Program until all such options have expired.

### *Interpretations and Policies*

\* \* \* \* \*

[.01 The Exchange will operate a pilot program set to expire on June 30, 2020 to permit options classes to be quoted and traded in increments as low as \$.01. The Exchange will specify which options trade in such pilot, and in what increments, in Information Circulars distributed to Members and posted on the Exchange's web site. The Exchange may replace any penny pilot issues that have been delisted with the next most actively traded multiply listed options classes that are not yet included in the penny pilot, based on trading activity in the previous six months. The replacement issues may be added to the penny pilot on the second trading day in the first month of each quarter.]

.0[2]1 For so long as SPDR options (SPY) participate in the Penny [Pilot]Interval Program pursuant to [Interpretation and Policy .01]Rule 21.5(e), the minimum increment for Mini SPX Index options (XSP) will be the same as SPY for all options series (including long-term option series).
