13. Members will not receive rebates for net zero complex orders entered on behalf of originating market participants that execute an ADV of at least [10,000] 2,000 net zero complex orders in a given month. For purposes of determining which complex orders qualify as “net zero” the Exchange will count all complex orders that leg in to the regular order book and are executed at a net price that is within a range of \$0.01 credit and \$0.01 debit.
