Section 3. Regular Order Fees and Rebates

* * * * *

5. Market Makers that qualify for Market Maker Plus will not pay this fee if they meet the applicable tier thresholds set forth in the table below, and will instead receive the below rebates based on the applicable tier for which they qualify.

Market Makers are evaluated each trading day for the percentage of time spent on the National Best Bid or National Best Offer ("NBBO") for qualifying series that expire in two successive thirty calendar day periods beginning on that trading day. A Market Maker Plus is a Market Maker who is on the NBBO a specified percentage of the time on average for the month based on daily performance in the qualifying series for each of the two successive periods described above. Qualifying series are series trading between \$0.03 and \$3.00 (for options whose underlying stock's previous trading day's last sale price was less than or equal to \$100) and between \$0.10 and \$3.00 (for options whose underlying stock's previous trading day's last sale price was greater than \$100) in premium. If a Market Maker would qualify for a different Market Maker Plus tier in each of the two successive periods described above, then the lower of the two Market Maker Plus tier rebates shall apply to all contracts.

Market Makers may enter quotes in a symbol using one or more unique, exchange assigned identifiers - i.e., badge/suffix combinations. Market Maker Plus status is calculated independently based on quotes entered in a symbol for each of the Market Maker's badge/suffix combinations, and the highest tier achieved for any badge/suffix combination quoting that symbol applies to executions across all badge/suffix combinations that the member uses to trade in that symbol.

A Market Maker's worst quoting day each month for each of the two successive periods described above, on a per symbol basis, will be excluded in calculating whether a Market Maker qualifies for this rebate.

The Exchange may exclude from any member's monthly Market Maker Plus tier calculation any Unanticipated Event; provided that the Exchange will only remove the day for members that would have a lower time at the NBBO for the specified series with the day included.

14. [Reserved]Market Makers that qualify for Market Maker Plus Tiers 1-3 in note 5 above for executions in two out of the three symbols AMZN, FB, or NVDA will be eligible for a maker rebate in the third symbol, in addition to the maker rebate for the applicable tier in the other two symbols. The maker rebate will apply to executions in AMZN, FB, or NVDA if the Market Maker does not achieve the applicable tier in that symbol but achieves the tier (i.e., any of Market Maker Plus Tiers 1-3) for any badge/suffix combination in the other two symbols. If a Market Maker would qualify for different Market Maker Plus Tiers 1-3 in two symbols, then

the lower of the two maker rebates will be applied to the third symbol (e.g., Market Maker Plus qualification in Tier 1 and Tier 2 across two symbols would earn Market Maker Plus Tier 1 in the third symbol). If all three symbols separately achieve any of Market Maker Plus Tiers 1-3, the symbol that achieves the tier with the lowest maker rebate will instead receive the same maker rebate as the symbol that achieved the next lowest tier.
