Section 3. Regular Order Fees and Rebates

* * * * *

5. Market Makers that qualify for Market Maker Plus will not pay this fee if they meet the applicable tier thresholds set forth in the table below, and will instead receive the below rebates based on the applicable tier for which they qualify.

Market Makers are evaluated each trading day for the percentage of time spent on the National Best Bid or National Best Offer ("NBBO") for qualifying series that expire in two successive thirty calendar day periods beginning on that trading day. A Market Maker Plus is a Market Maker who is on the NBBO a specified percentage of the time on average for the month based on daily performance in the qualifying series for each of the two successive periods described above. Qualifying series are series trading between \$0.03 and \$3.00 (for options whose underlying stock's previous trading day's last sale price was less than or equal to \$100) and between \$0.10 and \$3.00 (for options whose underlying stock's previous trading day's last sale price was greater than \$100) in premium. If a Market Maker would qualify for a different Market Maker Plus tier in each of the two successive periods described above, then the lower of the two Market Maker Plus tier rebates shall apply to all contracts.

Market Makers may enter quotes in a symbol using one or more unique, exchange assigned identifiers - i.e., badge/suffix combinations. Market Maker Plus status is calculated independently based on quotes entered in a symbol for each of the Market Maker's badge/suffix combinations, and the highest tier achieved for any badge/suffix combination quoting that symbol applies to executions across all badge/suffix combinations that the member uses to trade in that symbol. Only badge/suffix combinations quoting a minimum of ten trading days within the month will be used to determine whether the Market Maker Plus status has been met and the specific tier to be applied to the Market Maker's performance for that month.

A Market Maker's worst quoting day each month for each of the two successive periods described above, on a per symbol basis, will be excluded in calculating whether a Market Maker qualifies for this rebate. A Market Maker who qualifies for Market Maker Plus Tiers 2 or higher in at least four of the previous six months will

be eligible to receive a reduced Tier 2 rebate in a given month where the Market Maker does not qualify for any Market Maker Plus tiers. This rebate will be the applicable Tier 2 rebate reduced by \$0.08 per contract.

The Exchange may exclude from any member's monthly Market Maker Plus tier calculation any Unanticipated Event; provided that the Exchange will only remove the day for members that would have a lower time at the NBBO for the specified series with the day included.
