Rule 718. [RESERVED]Data Feeds

(a) The following data feeds contain ISE trading information offered by MRX:

(1) Nasdaq MRX Depth of Market Data Feed (“Depth of Market Feed”) provides aggregate quotes and orders at the top five price levels on MRX, and provides subscribers with a consolidated view of tradable prices beyond the BBO, showing additional liquidity and enhancing transparency for MRX traded options. The data provided for each option series includes the symbols (series and underlying security), put or call indicator, expiration date, the strike price of the series, and whether the option series is available for trading on ISE and identifies if the series is available for closing transactions only. In addition, subscribers are provided with total aggregate quantity, Public Customer aggregate quantity, Priority Customer aggregate quantity, price, and side (i.e., bid/ask). This information is provided for each of the top five price levels on the Depth Feed. The feed also provides order imbalances on opening/reopening.

(2) Nasdaq MRX Order Feed (“Order Feed”) provides information on new orders resting on the book (e.g. price, quantity and market participant capacity). In addition, the feed also announces all auctions. The data provided for each option series includes the symbols (series and underlying security), put or call indicator, expiration date, the strike price of the series, and whether the option series is available for trading on MRX and identifies if the series is available for closing transactions only. The feed also provides order imbalances on opening/reopening.

(3) Nasdaq MRX Top Quote Feed (“Top Quote Feed”) calculates and disseminates MRX’s best bid and offer position, with aggregated size (including total size in aggregate, Public Customer size in the aggregate and Priority Customer size in the aggregate), based on displayable order and quote interest in the System. The feed also provides last trade information along with opening price, daily trading volume, high and low prices for the day. The data provided for each option series includes the symbols (series and underlying security), put or call indicator, expiration date, the strike price of the series, and whether the option series is available for trading on MRX and identifies if the series is available for closing transactions only. The feed also provides order imbalances on opening/reopening.

(4) Nasdaq MRX Trades Feed (“Trades Feed”) displays last trade information along with opening price, daily trading volume, high and low prices for the day. The data provided for each option series includes the symbols (series and underlying security), put or call indicator, expiration date, the strike price of the series, and whether the option series is

available for trading on MRX and identifies if the series is available for closing transactions only.
