4702. Order Types.

* * * * *

(12) (A) A "Limit On Close Order" or "LOC Order" is an Order Type entered with a price that may be executed only in the Nasdaq Closing Cross, and only if the price determined by the Nasdaq Closing Cross is equal to or better than the price at which the LOC Order was entered. Subject to the qualifications provided below, LOC Orders may be entered, cancelled, and/or modified between 4 a.m. ET and immediately prior to 3:50 p.m. ET. Between 3:50 p.m. ET and immediately prior to 3:55 p.m. ET, an LOC Order may be entered provided that there is a First Reference Price. During this time period an LOC Order can also be cancelled but not modified, and only if the Participant requests that Nasdaq correct a legitimate error in the Order (e.g., Side, Size, Symbol, or Price, or duplication of an Order).

An LOC Order entered between 3:50 p.m. ET and immediately prior to 3:55 p.m. ET will be accepted at its limit price, unless its limit price is higher (lower) than the First Reference Price for an LOC Order to buy (sell), in which case the LOC Order will be <u>handled consistent with the Participant's instruction that the LOC Order is to be: (1) rejected; or (2)</u> re-priced to the First Reference Price[;]<u>,</u> provided that if the First Reference Price is not at a permissible minimum increment, the First Reference Price will be rounded (i) to the nearest permitted minimum increment (with midpoint prices being rounded up) if there is no imbalance, (ii) up if there is a buy imbalance, or (iii) down if there is a sell imbalance. <u>The default configuration for Participants that do not specify otherwise will be to have such LOC Orders re-priced rather than rejected.</u>
