Section 4. Obligations of Market Makers and Lead Market Makers

* * * * *

(j) LMM Quotations. An LMM must enter two-sided quotations. An LMM that enters a bid (offer) in a series of an option in which he is registered on BX must enter an offer (bid), except in an assigned options series listed intra-day on BX. These quotations must meet the legal quote width requirements specified in Options 2, Section 4 subsection (f)(4). An Options Participant will be required to meet each market making obligation separately. Quotes submitted through the Specialized Quote Feed interface, utilizing badges and options series assigned to a Lead Market Maker, will be counted toward the requirement to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as BX may announce. An Options Participant that is a Market Maker in an options series where the Options Participant is also assigned as the Lead Market Maker, pursuant to Options 2, Section 4, in an option series will be held to both the Lead Market Maker will be held to both the Lead Market Maker and Market Maker obligations, pursuant to Options 2, Section 5(d), separately, in that options series.

(1) LMMs, associated with the same Options Participant, are collectively required to provide two-sided quotations in 90% of the cumulative number of seconds, or such higher percentage as BX may announce in advance, for which that Option Participant's assigned options series are open for trading. An LMM shall not be required to make two-sided markets in any Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater for options on equities and exchange-traded funds ("ETFs") or with an expiration of twelve months or greater for index options. However, an LMM may still receive a participation entitlement in such series if it elects to quote in such series and otherwise satisfies the requirements of Options 3, Section 10.

(a) An adjusted option series is defined as an option series wherein one option contract in the series represents the delivery of other than 100 shares of underlying stock or Exchange-Traded Fund Shares ("Adjusted Options Series").

- (2) Specifically, the Exchange will calculate subparagraph (1) above by (i) taking the total number of seconds the Options Participant disseminates quotes in each assigned options series, excluding Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater for options on equities and ETFs or with an expiration of twelve months or greater for index options; and (ii) dividing that time by the eligible total number of seconds each assigned option series is open for trading that day. Quoting is not required in every assigned options series. Compliance with this requirement is determined by reviewing the aggregate of quoting in assigned options series for the Options Participant.
- (3) BX Regulation may consider exceptions to the requirement to quote 90% (or higher) of the trading day based on demonstrated legal or regulatory requirements or other mitigating circumstances. For purposes of the Exchange's surveillance of an Options Participant compliance with this Rule, the Exchange may determine compliance on a monthly basis. The Exchange's monthly compliance evaluation of the quoting requirement does not relieve an Options Participant of the obligation to provide two-sided quotes on a daily basis, nor will it prohibit the Exchange from taking disciplinary action against an Options Participant for failing to meet the quoting obligation each trading day.
- (4) If a technical failure or limitation of a System of the Exchange prevents an LMM from maintaining, or prevents an LMM from communicating to the Exchange, timely and accurate electronic quotes in an issue, the duration of such failure shall not be considered in determining whether the LMM has satisfied the 90% quoting standard with respect to that option issue. The Exchange may consider other exceptions to this intra-day electronic quote obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances.

Section 5. Market Maker Quotations

* * * * *

(d) *Intra-day Quotes*. A Market Maker must enter bids and offers for the options to which it is registered, as follows:

- (1) A Market Maker must enter bids and offers for the options to which it is registered, except in an assigned options series listed intra-day on the Exchange. On a daily basis, a Market Maker must make markets consistent with the applicable quoting requirements specified below. An Options Participant will be required to meet each market making obligation separately. Quotes submitted through the Specialized Quote Feed interface, utilizing badges and options series assigned to a Market Maker, will be counted toward the requirement to provide two-sided quotations in 60% of the cumulative number of seconds, or such higher percentage as BX may announce. An Options Participant that is a Market Maker in an options

series where the Options Participant is also assigned as the Lead Market Maker in an option series will be held to both the Lead Market Maker and Market Maker obligations, pursuant to Options 2, Section 5(d), separately, in that options series. A Market Maker who receives a Directed Order, as described in Options 3, Section 10, shall be held to the standard of a Directed Market Maker as described in Options 2, Section 10.

(A) Market Makers, associated with the same Options Participant, are collectively required to provide two-sided quotations in 60% of the cumulative number of seconds, or such higher percentage as BX may announce in advance, for which that Options Participant's assigned options series are open for trading. Notwithstanding the foregoing, a Market Maker shall not be required to make two-sided markets pursuant to this subparagraph in any Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater for options on equities and exchange-traded funds ("ETFs") or with an expiration of twelve months or greater for index options.

(i) An adjusted option series is defined as an option series wherein one option contract in the series represents the delivery of other than 100 shares of underlying stock or Exchange-Traded Fund Shares ("Adjusted Options Series").

(B) Specifically, the Exchange will calculate subparagraph (A) above by (i) taking the total number of seconds the Options Participant disseminates quotes in each assigned options series, excluding Quarterly Option Series, any Adjusted Option Series, and any option series with an expiration of nine months or greater for options on equities and ETFs or with an expiration of twelve months or greater for index options for Market Makers; and (ii) dividing that time by the eligible total number of seconds each assigned option series is open for trading that day. Quoting is not required in every assigned options series. Compliance with this requirement is determined by reviewing the aggregate of quoting in assigned options series for the Options Participant.

(C) BX Regulation may consider exceptions to the requirement to quote 60% (or higher) of the trading day based on demonstrated legal or regulatory requirements or other mitigating circumstances. For purposes of the Exchange's surveillance of an Options Participant's compliance with this Rule, the Exchange may determine compliance on a monthly basis. The Exchange's monthly compliance evaluation of the quoting requirement does not relieve an Options Participant of the obligation to provide two-sided quotes on a daily basis, nor will it prohibit the Exchange from taking disciplinary action against an Options Participant for failing to meet the quoting obligation each trading day.

(D) If a technical failure or limitation of a System of BX prevents a Market Maker from maintaining, or prevents a Market Maker from communicating to BX Options timely and accurate quotes, the duration of such failure or limitation shall

not be included in any of the calculations under this subparagraph (D) with respect to the affected quotes.

(2) **Intra-Day Bid/Ask Differentials (Quote Spread Parameters)**. Options on equities (including Exchange-Traded Fund Shares), and on index options must be quoted with a difference not to exceed \$5 between the bid and offer regardless of the price of the bid. However, respecting in-the-money series where the market for the underlying security is wider than \$5, the bid/ask differential may be as wide as the spread between the national best bid and offer in the underlying security. The Exchange may establish differences other than the above for one or more series or classes of options.

(A) Bid/ask differentials shall not apply to any options series until the time to expiration is less than nine (9) months for equity options, exchange-traded products, and foreign currencies. Bid/ask differentials shall not apply to any options series until the time to expiration is less than [nine (9)]twelve (12) months for index options.

Options 4A Options Index Rules

* * * * *

Section 12. Terms of Index Options Contracts

* * * * *

(b) Long-Term Index Options Series.

(1) Notwithstanding the provisions of paragraph (a)(3), above, BX Options may list long-term index options series that expire from [nine (9)]twelve (12) to sixty (60) months from the date of issuance.

(i) Index long term options series may be based on either the full or reduced value of the underlying index. There may be up to ten (10) expiration months, none further out than sixty (60) months. Strike price interval and continuity Rules shall not apply to such options series until the time to expiration is less than [nine (9)]twelve (12) months. Bid/ask differentials for long-term options contracts are specified within Options 2, Section 5(d)(2)(A).

(ii) When a new Index long term options series is listed, such series will be opened for trading either when there is buying or selling interest, or forty (40) minutes prior to the close, whichever occurs first. No quotations will be posted for such options series until they are opened for trading.
