NYSE Rules

Rule 70. Execution of Floor Broker Interest

* * * * *

• • • Supplementary Material: ------------------

* * * * *

.26 Pegging for d-Quotes and e-Quotes.

(i) An e-Quote, other than a tick-sensitive e-Quote, may be set to provide that it will be available for execution at the National best bid ("NBB") (for an e-Quote that represents a buy order) or at the National best offer ("NBO") (for an e-Quote that represents a sell order) as the National best bid or offer ("NBBO") changes, so long as the NBBO is at or within the e-Quote's limit price.

(ii) - **(vi)** No change.

(vii) Pegging e-Quotes and d-Quotes peg only to other non-pegging interest within the pegging range selected by the Floor broker. Such non-pegging interest may be available on the Exchange or may be a protected bid or offer on an away market.

(viii) – (ix) No change.

(x) As long as the NBB is at or within the pegging price range selected by the Floor broker with respect to a buy-side e-Quote or d-Quote, or the NBO is within the price range selected by the Floor broker with respect to a sell-side e-Quote or d-Quote, the pegging e-Quote or d-Quote will join such NBB or NBO as it is autoquoted.

> (A) A pegging e-Quote or d-Quote to buy (sell) will not peg to an NBB (NBO) that is locking or crossing the Exchange best offer (bid), but shall instead join the next available best-priced non-pegging interest that would not lock or cross the Exchange best offer (bid).

> (B) If the NBB (NBO) is not within the pegging price range selected by the Floor broker, then a pegging e-Quote or d-Quote to buy (sell) shall join the next

available best-priced non-pegging interest within the price range selected by the Floor broker.

(xi) - **(xii)** No change.

(xiii) A Floor broker may establish a minimum [and/or maximum] size of same-side volume to which his or her e-Quote or d-Quote will peg. [Other pegging e-Quote or d-Quote volume will not be considered in determining whether the volume parameters set by the Floor broker have been met.]
