Rule 6.62. Certain Types of Orders Defined

(a)-(x) No Change

(y) PNP Plus. An [PNP Order] Electronic Complex Order designated as PNP Plus will be automatically re-priced by the Exchange as an MPV greater than the [highest N] Complex BBO bid (for sell orders) or an MPV lower than the [best N] Complex BBO offer (for buy orders) for any or all of the order that remains unexecuted and would otherwise lock or cross the [N] Complex BBO should it be displayed in the Consolidated Book. The re-priced order will then be posted in the Consolidated Book. The PNP Plus order will continue to be re-priced at an MPV greater than the [best N] Complex BBO bid

(for sell orders) or an MPV lower than the [best N] Complex BBO offer (for buy orders) and re-posted in the Consolidated Book, with each change in the [N] Complex BBO, until such time as the [N] Complex BBO has moved to a price where the original limit price of the PNP Plus Order no longer locks or crosses the [N] Complex BBO, at which time the PNP Plus Order will revert to the original limit price of such order. Electronic Complex Orders designated as PNP Plus shall be ranked in the Consolidated Book pursuant to Rule [6.76] 6.91(a)(1) and assigned a new price time priority as of the time of each reposting.

(z)-(bb) No Change
